

Dr. Frank Orts discusses livestock judging with Kent County 4-H Club members and parents. Dr. Orts is a specialist from A.G.M.

Dr. Gilbert Hollis demonstrates selection for type on weaning feeder pigs for 4-H Club members.

Livestock Shortcourse Held At Kent 4-H Barn

Twenty seven Kent County 4-H Club members and adult leaders attended a 4-H Club Livestock Selection and Management Shortcourse at the 4-H Barn in Claremont, August 19. Dr. Frank Orts, Extension Meats Specialist, presented a discussion on selection and judging beef calves and lambs. His discussion included a demonstration on photographically measuring the area of the ribeye on live animals to determine the type carcass they will produce.

Dr. Gilbert Hollis, Extension Swine Specialist, discussed selection, feeding and

management of feeder pigs for shows and commercial production, and management of breeding swine. His discussion included a film on type, selection, and carcass evaluation.

Each specialist presented an excellent presentation and was well received by the 4-H members and adults.

Adult leaders and 4-H members who brought animals for the shortcourse were Mr. and Mrs. Wendell Scott, Doug, Bruce and Billy; Mrs. Gordon Cravey, Vena Lee, and Lisa; Mr. and Mrs. Harold Shipp Dennis and Donnie; and Minette Geeslin.

Jayton School Board Takes Supply Bids

At the last meeting of the Jayton School Board, they voted to buy milk from Spur Milk and Ice Cream Co. for 7.75 cents per carton. Voted to buy gasoline and oil from Mobil at 14.90 cents per gallon of gasoline, and 1.06 per gallon of oil. Voted to buy kerosene from Bill Williams at 8.5 cents per gallon.

The new lunch room policy

pertaining to free lunches was adopted, and they approved the bond of tax accessor and collector Jarri Parker.

The program of transferring certain students into the Spur district was approved.

The operating budget for the next school year was approved. An order was passed to pay the bills.

Peek Funeral Sunday

Services for Mrs. Maudie Peek, 84, of Girard, who died about 4:30 p. m. Friday, August 21, will be held Sunday in the Baptist Church here.

The Rev. Norris Taylor, Baptist minister from Spur, officiated. Burial in the Girard Cemetery under direction of Campbell Funeral Home of Spur.

Mrs. Peek came to Kent County in 1918. She was a member of the Primitive Baptist Church.

Survivors are two sons, Virgil Peek of Stamford and Bill

Peek of Girard; two daughters, Mrs. Kathleen King of Spur and Mrs. Ruby Gilmore of Oregon City, Ore.; one brother, Wallace Ryan of Northport, Neb.; eight grandchildren and 15 great-grandchildren.

Funeralbearers were Calvin Simmons, Carlos Dickerson, C. V. Haggard, Billy Watson, Burnice Goodall and Charlie Kimmell.

Give the Hometown Paper Jayton Chronicle \$3.00

Jaybirds Will Scrimmage Baird Friday Night

Local football fans will have their first opportunity to see the 1971 edition of the Jaybirds, under game type conditions, at Baird Friday Coach Jerry English told the Chronicle Monday.

The boys are working in pads this week, and trying to get in shape.

Next Friday Floydada will come to Jayton for a scrimmage, he said.

Plans For The Fair Coming Along Good

The box office will open at Fair Park Coliseum today to launch tickets sales for headline attractions of the 54th annual Panhandle South Plains Fair, finance director Earl Kerr said.

The fair this year will be returning Tennessee Ernie Ford, comedian-singer Glenn Ash and the Celebration the three opening days of the exposition. Slated Sept. 27-Oct. 2.

On Thursday, an all-star Mexican variety show will be presented, featuring singer Lucha Will and recording star Jose Alfredo Jimenez at the Guadalarajas, a mariachi group.

Closing out the week long on Friday and Saturday will be a country and western spectacular featuring Merle Haggard his wife Bonnie Owens and The Strangers.

In addition to the coliseum box office, tickets also will be available at four other locations in Lubbock: TGEY Continental, Sears downtown, Lusk's Western Wear and Montgomery Wards. Box office hours will be from 9 a. m. to 5 p. m.

More than \$38,000 in premiums are being offered exhibitors in this year's fair.

A large military display, a free sway pole act, the popular Children's Barnyard and women's division, plus numerous livestock, agricultural, flower, art, commercial, and other shows are being planned.

Tickets are being mailed this week to the school superintendent in Jayton so students and teachers can attend the Wednesday, Sept. 15 activities of the West Texas Fair.

Fair President R. Lee Rode said the complimentary tickets would permit general admission to the fairgrounds.

There are a number of free midway attractions Wednesday. The Bill Hames Shows

KENT COUNTY NURSING HOME NEWS

Mrs. Lee had her daughter, daughter-in-law, and granddaughter and her husband visiting on Sunday.

Sam Barton was visited by Harry Taylor and Mrs. Wesley Brasier. They also visited with Bee Spain.

George and Clara Darden visited with his dad M. A. Darden. He is better.

Pearl Edwards Tyler of Clute near Houston visited all the patients and friends here. Charlie Harris visited his brother Jim, Monday.

We are sorry to report that Mrs. Maudie Peek expired on Friday at the Callan hospital in Rotan after suffering a stroke, earlier.

will bring rides and shows, and judging in several events is scheduled.

Dr. Rode said 103,000 tickets had been mailed to superintendents in about 100 West Texas towns for either Sept. 13, 14 or 15 activities. The fair is from Sept. 13-18, inclusive.

Rode said that Sonny James and the Taylor County Coliseum Tuesday and Wednesday, Sept. 14-15 at 8 p. m. Bobby Sherman will appear at 3 p. m. and 6 p. m. Monday, Sept. 13.

An RCA Rodeo will be in the coliseum at 7:30 p. m. nightly Thursday through Saturday, Sept. 16-18 and also at 2 p. m. Saturday. It will feature Festus of "Gum-smoke."

Tickets will go on sale Aug. 23 at the advance ticket box office at the coliseum. Tickets for James are \$3. Tickets for the rodeo or Sherman are \$3, \$4, and \$5. Mail reservations will be accepted Aug. 23 at P.O. Box 2016, Abilene, Texas 79604. Be sure to include Cashier's Check or Money Order, plus 25¢ for handling and postage.

Good Grass Crop

Jim Mayfield and Buttons Mayfield are having good success with the herd of registered polled Hereford cattle grazing on Trudan II summer pasture. Their 50 acres of Trudan II is in several small pastures so that the cattle can be rotated from one patch to another.

Top part of their herd of 30 cows and 10 heifers are grazing the summer pasture

crop. The picture, bottom, shows Trudan to be 6 to 8 ft. tall. This pasture was grazed to the ground just 12 days ago, and made 6' growth in less than two weeks.

This demonstration was planted in early June, using 3 lb. per acre, with seed costs 27 1/2¢ per pound.

The Mayfield farm is a fertile farm located on the Brazos River and Dry Duck Creek.

Property Values Rise Court Adopts Budget

Values are up in Kent County this year, the new budget adopted Monday by the Commissioners Court show. Assessed values are now up to \$34,773,000.00. This is based on 12% of the market value, which is lower than it has been. Values are up this year about eight million from last year.

The court voted to employ again the firm of Pritchard and Abbott to handle values, at a fee of \$12,300.00 per year.

The court also voted to pay land owners proportionate cost for fencing FM road 1083 going west from the court house, and around to connect

with the Claremont Highway, near the river bridge. This road is the connecting line bringing Precinct No. 3 into Jayton.

The tax rate was set as follows, general fund 77¢, lateral road fund 30¢, interest and sinking fund 13¢ for a total of \$1.20 per \$100 valuation.

An order was passed to borrow \$50,000.00 from the Kent County State Bank for 75 days, until tax money comes in, part of which will be used to pay land owners for highway right of way.

Also the current bills were paid.

Rains Help Cotton

Lynn Schafer, Kent County farmer, checks the growth on his cotton following the beneficial rains during August.

Schafer has five cotton varieties that he is growing in

a Result Demonstration plot, in cooperation with the County Agent. Cotton varieties being tested are Lankart 611, Lankart 57, Sweet 75, Lockett 4789A, and Coker 5110.

41 Courses Offered In Jayton High School

A total of 90 students registered this year in Jayton High School, and they will be offered a total of 41 subjects. There are eight students that were not in the school last year, states principal Ralph Newton.

In high school there are 20 freshmen, 30 sophomores, 22 juniors and 18 seniors. In junior high there are 27 seventh graders and 24 in the eighth grade.

From the seventh grade up,

there are fourteen teachers. Two new ones are Tommy Waggoner who teaches auto mechanics, and Sherry Hall is back this year to teach business administration.

Basketball coach Raymond Hughes has his Master degree from HSU. He will do counseling.

The band boosters club will meet Thursday night at 7:30.

Bad weather has delayed the finishing of the auto mechanics shop, Newton said.

Hobson Completes Basic

Ft. Polk, La. (AHTNC) Army Private Robert E. Hobson, 20, son of Mr. and Mrs. John A. Hobson, Route 2,

Spur, recently completed eight weeks of Basic Training at the U. S. Army Training Center, Infantry, Ft. Polk, La.

He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid, and army history and traditions.

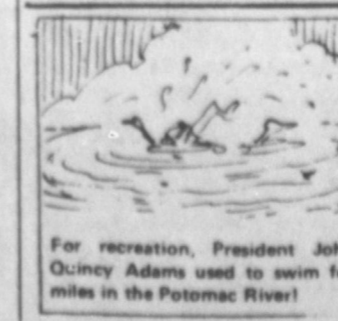

Pvt. Hobson's wife, Sharon, lives in Jayton.

LEARNING TO DRESS-- IT'S CHILD'S PLAY!

Learning to dress like a "big girl" is mere child's play with this innovative and cuddly DRESSY BESSY pillow doll from the Playskool Tyke world collection. With four delightful and different outfits that button, buckle, snap, zip, lace and tie. DRESSY BESSY provides the young lady of the house with hours of imaginative play -- as well as an educational grasp of how real clothes close.

Office Supplies at The Jayton Chronicle

For recreation, President John Quincy Adams used to swim for miles in the Potomac River!

Ole' Guff Would Be Proud Of Them

Wanda Ruth Lafoon received her degree in June in Associated Arts with a grade point average of 4.00, which puts her in the top 1% of the 1,100 student enrollment.

She is the daughter of Mr. and Mrs. A. J. Lafoon, Roswell, N. M., and niece of the Will Gardners of Jayton, former partners in the grocery business in Jayton.

Wanda Ruth is a graduate of Roswell High School and attended Eastern N. M. University College at Portales and its branch, Roswell Community College. In the interim she worked for the State of N. M. Health department in Roswell and is presently working for Krebs and Sohns, Roswell.

Tom Hayden, son of Mr. and Mrs. Al Hayden, Yucaipa, California, the former Mildred Lafoon and Guff's only grandson, finished his June semester with a grade point average of 3.6 which puts him in the top 3% of the 24,000 student enrollment at San Diego State College, Calif.

Young Hayden's Major is Engineering and minor is Aerospace. He is in the U. S. Air Force ROTC Program at SDSU and will take pilots training in the fall semester. He will graduate in June 1972 and will be commissioned as Second Lieutenant in the Air Force with a six year hitch ahead of him for more advancement or go civilian.

Hayden attended Yucaipa, Calif., schools from Kindergarten through High School. He is an Eagle Scout having come up the ladder from Cub Scout in 1957, is a 14 year registrant in Grayback Council BSA, locally, and presently an adult leader and Tutor for the Scout swimming Badge. He is 22, unmarried, and says, "I can hardly support my car, not a wife yet." But we suspect some young lady will be able to convince him he can one of these days.

"One more achievement I'd like to make," says Tom, "and that's to catch up to Wanda Ruth with a 4.00. She's the only cousin I have on Mother's side, but Dad's nieces and nephews. I know only three or four of the too numerous to count."

All through high school Tom has had summer jobs to save for his own car and to go to school on from paper boy before school, delivering the morning paper, grocery box

WANDA RUTH LAFOON

TOM HAYDEN

boy, dishwasher in restaurant and salad master at the Rd Dinner House, and finally utilizing his engineering at work for the City of Redlands near Yucaipa, for three summers. The past year while at SDSU and his present summer job is with Metal Masters, San Diego.

BOOSTER MEETING

The first meeting of the season of the Jaybird booster club will be held Tuesday, August 31, at 7:30 p. m. in the school cafeteria.

LaCell McAtter, president invites all fans to be on hand for this meeting.

Molding a Better Pop

In Germany, they're using electroformed pure nickel to make molds for ice-cream pops. The smooth surface and quick chilling characteristics of nickel help speed production and improve the product's appearance.

Paint Without Taint

Pigments used in the popular automotive paint colors -- red, scarlet, maroon and violet -- are stabilized with nickel chemicals against light deterioration. Some 15,000 pounds of nickel were used for this purpose in 1970.

ABOUT PEOPLE YOU KNOW

BY CLIQUE SMITH

PHONE 237-3593

Mrs. Blanch Barfoot is now at the home of her daughter Erma Black in Merkel. She was able to leave the hospital in the later part of the week.

Visiting in the home of Mr. and Mrs. Archie Smith over the weekend were Mr. and Mrs. Walter Janko Jr., Pam, Susan, Paula and Scott of Moore, Okla. Mrs. Janice is the former Mary Helen Smith.

Mr. and Mrs. Bill Bingham and children of Brownwood visited with the Archie Smiths.

Mr. and Mrs. Gene Roberts of Spur visited her sisters in Jayton Sunday, Mrs. Archie Smith and Mrs. Guy Cheyne.

Mr. and Mrs. Claude Hairgrove of Lubbock visited her parents Mr. and Mrs. Louis Smith.

Guy Fuller spent a few days at home before going back to register for fall term at Texas Tech.

Leella Hall had a sore throat the first of the week and had to stay home from school.

R. A. Moreland Jr. spent several days at home last week. Between the short time between the summer and fall school term at Tech.

Sometimes back he went to Ft. Worth to attend a wedding. He went to a wedding in Haskell Friday night and back to Lubbock for a wedding Saturday night--R. A. likes to go to weddings.

Mrs. Abb Hamm is visiting her daughter this week, Mrs. Gladys Cobb in Sweetwater and her granddaughter Mrs. Cherry Hoyle of Colorado City.

Mr. and Mrs. John Fowler moved to Jayton Friday of last week from Aspermont. They have two children in school Billy in the fourth and Vanessa in the first.

Word has been received that Jack Davis of Gillette Wy. died Monday of a heart attack. The funeral pending till further notice of the family getting there from Texas. Jack and his family lived in Jayton and ran a tailor shop. His wife the former Faye King was raised here. She's the daughter of the late Mr. and Mrs. Tom King. Mrs. Albert Harris of Girard is her sister. A sister Mrs. W. M. Smith of Denver City and other relatives.

Mr. and Mrs. Hindman of Stephenville spent Saturday night with Mr. and Mrs. C. H. Meador. They were on their way to the Meador Reunion at Slaton. Mrs. Hindman is Mr. Meador's niece. As the rain was so heavy the Meadors decided not to go. A very good crowd attended the reunion, of course the rain hampered things somewhat.

Last Thursday Mr. and Mrs. John Love of Ranger and Mr. and Mrs. Floyd Smith of Kerrville came visiting the Meadors and stayed until Saturday. They are the sisters of Mrs. Meador.

Word has been received

that Mrs. Tom (Earla) Wilson of Van formerly of Jayton is very ill after a stroke on Thursday of last week. Saturday Tom thought she recognized him. Earla is in the Tyler hospital. Ruby York went to Tyler to be with Mrs. Earla Wilson while she is ill.

Folks if you happen to have some Campbells chicken vegetable soup and wonder if it is bad and should be returned etc. The number on the cans that are bad is O7-PB, 70DX, so look on your cans if they have these numbers out they go.

Received a letter from Mildred (Lafon) Hayden sending some news of her son and niece. Great going, we are glad you let us share this good news with you.

Visiting in the home of Mrs. Oleta Moore over the weekend were Mr. and Mrs. Gerald Boyd of Fort Worth and Mrs. Edna Boyd and Nita of Graham.

Mrs. Seawalt was recently in Snyder visited with granddaughter Dianne. While there she visited with her sister Mrs. W. H. Jones of Fluvanna, hearing that Bessie Maynard was in the hospital in Snyder she visited with her. Pat is staying with her sister while she is in the hospital. Bessie had surgery since then.

While there she visited with a friend, Mrs. Carrie Almsworth of Fluvanna. They were children playing and going to school together. A lot of memories for them to reminisce about.

Mr. and Mrs. Ben Postol, Jerry, Terry and Ricky, have moved to Lubbock for the fall school term. But they will be down each weekend to keep the work of the local Church of Christ going.

Food Mill Speeds Feeding of Infants

The one way to serve babies natural unseasoned baby foods without additives is to prepare them at home. An indispensable utensil for straining the foods is a Foley food mill. It takes the work out of straining and mashing fruits and vegetables and is ideal for foods such as cooked egg yolk and chicken livers.

In cooking vegetables for baby, it is particularly important to preserve all the natural vitamins and minerals. Scrub and rinse, but do not peel, vegetables. Cut vegetable into small pieces and cook in the barest amount of water in the shortest possible time until soft and water is absorbed. Strain through a food mill. Do not add salt or other seasonings.

Almost any vegetable is suitable for straining. Spinach, however, because of its lack of bulk and its slippery nature, is easier if it is strained along with another vegetable such as potato.

For homemade applesauce, wash apples; don't peel or core them. Cut them into 8ths and place in a small heavy saucepan. Add a small amount of water (about 2 tablespoons for 2 medium apples.) Cover and cook over medium heat about 5 to 8 minutes or until apples are soft. Strain through a food mill. Do not add sugar. Two medium apples make about 1/2 cup applesauce.

Frank Sandell of Lubbock visited his mother Mrs. M. S. Sandell and his sister Hartense North Sunday.

We miss seeing Greg Vencl since he went home to Odessa to start school. Greg, when asked if he was ready to go home to start school, he said yes, so I can get it over with, and can come back to Jayton. We will be glad when he comes back to Jayton. His grandparents miss him. He is lots of company and lots of help also.

Mr. and Mrs. Robert Harrison and Mr. and Mrs. Marvin Mayes of Edmond, Okla., have just returned from a vacation at the "Lake of the Ozarks," in Missouri. They had a wonderful time. This lake has a shore line of 1372 miles so there was a ample room for all kinds of sight seeing and sailing. They were not in rain till getting back to Oklahoma City.

Mrs. Ben Hagar returned home Sunday after a visit of tendays with relatives. After a vacation it is nice to be home.

How To Find A Doctor In A Foreign Country

"What if you were sick or injured in a foreign country?" Almost every traveler worries about this, and with thousands of Americans traveling for business or pleasure, it can be a real problem.

To aid travelers, Intermedic was established in 1965 to provide members with a list of English-speaking doctors in 175 cities in 75 countries. They are all qualified to treat patients themselves, and if specialized treatment, dental work or hospitalization is necessary, they can refer patients to the proper facilities. Physicians listed agree to charge \$8.00 for an office visit, \$10.00 for a hotel call, and \$15.00 for a night emergency call, except in a few countries where laws prohibit fee agreements.

GOthenburg HAS GOT IT

Come join in the 350th anniversary celebration of Gothenburg, Sweden's unforgettable city. A beautiful waterway running through the heart of the country and laid out more than 100 years ago is known as the "Gota Canal." Here a scenic route worth discovering is a photographer's paradise.

Food-wise, sillbricks is a culinary treat found in many Swedish restaurants and homes in this and other cities. Consisting of different types of herring arranged on a tray, it can be thought of as a mini-smorgasbord and is usually served as an appetizer before the main course.

There's something doing in this town of renown throughout the year, but especially during June, July, August and September.

In June there will be a Jubilee Week with parades and fireworks. Also featured will be entertainment by artists including several performances by large choirs. July attractions include a theatre performance, the New Philharmonia Chorus from London, chess competition and football tournaments. There will be entertainment at Nya Alvsborgs fortress at the estuary to the port of Gothenburg. After having been a prison for some time, the fort has been restored and now offers visitors quiet relaxation, a meal in genuine 18th century surroundings and a pure baroque chapel where religious services are held in different languages.

Music lovers will particularly enjoy entertainment scheduled in August, when the international Folk Dance Festival with dancers from 15 countries will be held.

You can apply the word "fancy" to "Nectarine Butterscotch Pie." But actually, here's a dessert that requires very little preparation. Packaged butterscotch pudding mixes the kitchen chores. Just before serving the chilled concoction, you whip up nectarine meringue puffs as the glamorous garnish. Golden sliced nectarines provide the final juicy fillip. Should you prefer to simplify the garnish, just fold diced nectarines into sweetened whipped cream instead of making the meringue puffs. Either way, this is a delectable summer pie.

- NECTARINE BUTTERSCOTCH PIE**
- 2 packages (4 oz. each) butterscotch pudding and pie filling
 - 1 envelope plain gelatin
 - 2 eggs, separated
 - 3 1/2 cups milk
 - 1 baked 9-inch pie shell
 - 2 to 4 fresh nectarines
 - 1/4 cup sugar

Combine in saucepan pudding mix and gelatin. Blend egg yolks and milk; stir gradually into pudding mixture. Cook and stir over medium heat until mixture comes to a full boil. Cool 5 minutes, stirring once or twice. Pour into pie shell. Chill. Just before serving, dice nectarines to make 1 cup; slice remainder. Beat egg whites until foamy; add sugar gradually and continue beating until soft peaks form. Fold in diced nectarines. Spoon puffs of meringue onto cookie sheet. Bake at 425 degrees 3 or 4 minutes until golden. Garnish pie with nectarine meringue puffs and nectarine slices. Serve at once. Makes 1 pie (9-inch).

HOME BUYER CLINIC

BY WM. J. McAULIFFE, JR. EXECUTIVE VICE PRESIDENT AMERICAN LAND TITLE ASSOCIATION

Child's Claim My Cloud Title Laws in a number of states provide that children born after their parents make a will are entitled to a share of the parents' estate. These well-meaning laws can result in trouble for home buyers.

In a typical instance, a couple in a southern state Wm. J. bought a home McAuliffe, Jr. from a widow who had been left "all" the property of her late husband. Later, it was learned the husband had made his will early in their marriage -- before the couple had any children.

There were children in the family when the husband died, including one child under 21 years of age -- all born after the date of the will. State law provided that the children inherited a share of their father's estate, just as if he had left no

will. The couple who had purchased the home from the widow were left with a defective land title, in spite of paying full price for the real estate. Fortunately, title insurance cured the defect by paying the children's inheritance -- including the cost of obtaining deeds from the children over 21 and of obtaining court approval of the amount paid to the minor child.

This type of land title defect, and many others, emphasize the need to safeguard an investment in a home against possible land title defects that may have occurred before the real estate purchase. Effective protection is available to home buyers through a title search and owner's title insurance.

For free information on things to consider in buying a home, write American Land Title Association, 1828 L Street, N.W., Washington, D.C. 20036.

ATTEND THE CHURCH OF YOUR CHOICE

IN MOTHER'S FOOTSTEPS

What joy in life is seen in those eyes. That smile is given freely to everyone. Now look at them both. Which one am I talking about? Aren't they both the same? No, she's not an exact, carbon copy, of her mother -- for when you look again, you see that there is a generation between them. She wears the bright colors in her dress with the cute designs. Her dreams are different than her mothers. She is more outgoing. Yet in the mother you can see a quiet humor and in her closeness to her daughter, a gentle protectiveness. Her mother's dreams are sometimes too ambitious, but in the "Encouragement Department" she works just fine.

There is one dream and ambition they both have, however; and that is to be like our Lord and Saviour Jesus Christ, and to be of service to the church. Their goodness is of God.

"For the eyes of the Lord are over the righteous, and his ears are open unto their prayers: but the face of the Lord is against them that do evil." 1 Peter 3:12.

EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Meet Your Friends Here for Coffee

This is Jayton

This is Jayton, a thriving little city, in the Rolling Plains country, at the foothills of the Cap Rock, the community with 25 friendly merchants, a city that has more churches than filling stations and more preachers than bootleggers. A city with no racial problems, no strikes, no floods, no riots, no air pollution problems, no hurricanes, no earthquakes, no Communists, and no hippies. Jayton, in a rich ranching and farming country, with rich fields of "Black Gold"

and the home of the finest Hereford and Black Angus cattle. Jayton, the place where they grow white cotton fine, grain, fat cattle, and pretty women. Jayton has all the natural resources, and the manpower to support any number of small industries. If you come to Jayton, plan to stay. Not the most people in the world, but some of the best. Jayton is the largest town in the world named Jayton, Texas.

GROWING OFFSHORE DRILLING INDUSTRY

Offshore fields currently provide about 18 percent of the world's oil output and this could rise to as much as 50 percent by the late 1980's according to Value Line, a major investment advisory service. As an illustration of the growing need for oil during the next 30 years the United States is expected to require more than twice as much petroleum than it consumed in the past 110 years. To meet the growing demand, the oil industry is accelerating its offshore drilling activities throughout the world.

Value Line notes that you can name practically any country with a coast line and you will find an intense interest in its offshore-oil potential. There is substantial exploration activity in such areas as the North Sea, Nigeria, Venezuela, Indonesia and the Gulf Coast and each year new countries continue to be added to the list of offshore producers. Spain, Tunisia and Libya are recent additions and waiting to be developed are large offshore oil fields in Australia, Brazil, Britain, Netherlands, Iran, Saudi Arabia, Mexico, Norway and other countries.

The rising tempo of offshore exploration activity has resulted in a growing investment in equipment and facilities. Value Line points out that offshore contractors have been placing orders for new units at a record pace in recent months. There are 18 rigs currently under construction along with a tender and two inland water barges and the total value of these projects alone exceeds \$215 million.

According to Value Line, there is a trend in the industry toward working in deeper water and developing new structural designs that deviate radically from the traditionally accepted designs of the past. One new design embodies a shipshape hull and a jacking system, is self-propelled and moves between locations as a ship. Once located, it elevates itself with its four legs and drills like a jack-up. Another new concept incorporates the

principles of a ship, a semi-submersible, and a jack-up into one unit. Value Line says that another trend developing in the industry, although it may only be temporary, is that U.S. shipyards are getting a larger share of the worldwide business. The service notes that nine of the 18 rigs under construction are being built in the United States. It appears that mobile rigs can be built cheaper and faster in the U.S. than in foreign yards and this is a reversal of the situation in the past.

where in the world. Their flower is the yellow chrysanthemum, their birthstone aquamarine and their main trait versatility. With their widespread interests, Geminians must guard against flightiness, disorganization and superficiality.

Diamonds disappear when they are strongly heated.

Judy - Vitopil Wedding

Beacon Hill Baptist Church of San Antonio was the scene of the double ring ceremony in which Miss Marilyn Vitopil, daughter of Mr. and Mrs. Frank Vitopil of San Antonio, became the bride of Virgil Judy, son of Mrs. Dorothy Judy of Jayton, and the late Mr. Judy, at 3 p. m. on Saturday, July 31st.

A reception was held at the Fellowship hall of the church immediately following the ceremony. Serving in the house party were Misses Sharon Brzozowska, Mary Cook, Janice Vitopil, and Mrs. Ed Fletcher.

The Rev. Jim Whitliff officiated at the nuptials. Soloist, Mrs. James Carson, sang "One Hand, One Heart" and "The Wedding Prayer."

The bride graduated from San Houston State University in 1970 with an English major. She was a member of Alpha Chi Scholastic Society and Kappa Delta Phi Honor Society. She taught school at Edna.

Given in marriage by her father, the bride chose a street length dress of taffeta and applique lace featuring an empire waistline and a yoke in the back. Her veil of illusion fell from a bandeau of seed pearls. She carried a cascade of white rosebuds. She wore a cultured pearl necklace, a gift from the bridegroom.

The couple will live in McLean where he will coach and she will teach English.

taffeta designed with fitted Empire bodice of Alencon lace overlay, a Victorian neckline and long sheer sleeves caught at the wrists by cuffs of lace. Her A-line skirt was appliqued in Alencon lace bands. Her detachable train fell to chapel length. She wore a matching Camelot coil of Alencon lace accented by a satin bow and seed pearls. Her lace edged veil fell to the full extent of her train.

A reception followed immediately in the fellowship hall. The bride's table was laid with silver and crystal appointments on a white applied cloth over pink. The groom's table was laid with silver and milk glass on a gold cloth. Serving the guests were Mrs. John Dane Gholson of Lubbock, Clydene Rice of Tulla, Mrs. Arden Kenady of Amarillo and Mrs. Steve Hampton of Wheeler.

Mrs. Doug Taylor of Tahoka registered the guests. The bride attended West Texas State University and was a member of Chi Omega Sorority.

The bridegroom graduated from Hillsboro Junior College and has recently returned from a tour of duty in Viet Nam.

After August 21 the couple will be at home at Fort Campbell.

Sidney Ann's parents were raised in Jayton. Also her grandparents, the Wilson's and the Kenady's lived in Jayton and were pioneer residents here.

FOOT NOTES

How To Keep On Your Toes

For on-the-job foot health, keep your shoes in step with your work.

Foot-care specialists recommend wearing rubbers or boots when working in wet surroundings. Reinforced caps are essential when there's danger of heavy falling objects. And if there's oil or other slippery substances underfoot, wear nonskid soles.

Also, check your feet frequently. Peeling, cracking and

itching between the toes can mean athlete's foot, a skin fungus infection that afflicts 16 million Americans every year -- typically, men in the 20- to 34-year-old group.

Podiatrists recommend the application of a fungicidal cream for immediate topical treatment of fungus infection and the regular use of a medicated powder to help reduce the risk of re-infection. Among these medications is Tinactin cream and powder, which account for 90 percent of the prescription market. Tinactin only recently became available without prescription at drug stores nationwide.

Proper foot care improves job efficiency, prevents accidents and keeps you off the sick list -- and on the payroll.

Water, water everywhere, And boaters should be keen. Water, water everywhere; Let's pitch in and keep it clean!

Flowerology

(Gemini, May 22 - June 22)

Those born under the sign of Gemini are genial and ingenious. Intelligent, quick-witted and lively, Geminians are "jacks-of-all trades," but particularly in the trades where action is the attraction.

Coolly affectionate and expressive but rarely deeply held in love, they exude joy when they get the chance to

experiment and explore, ask questions and make connections. Vocationally, they are frequently the last word in the communications field, where they can gather and connect facts.

Geminians jump at the chance to send flowers through FTD from the places they enjoy during travel. These flowers are easily accessible and can be sent by the ingenious Geminians any-

LOANS AT LOW BANK RATES

From The Recipe File of Opal Richards

Garden Fresh Vegetables

CREAMY CORN AND CUCUMBER

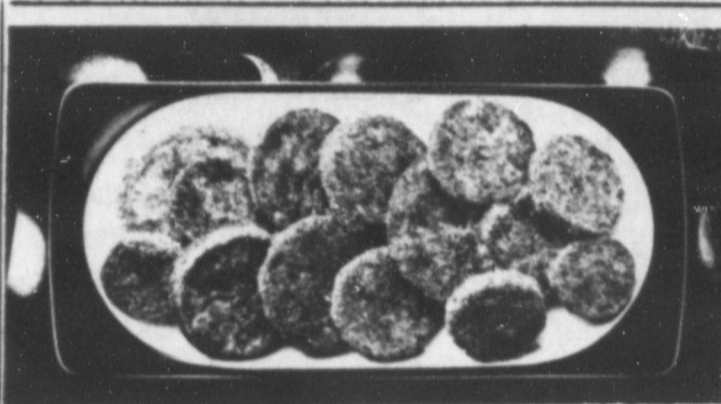

1 envelope (1 1/2 ounces) white sauce mix
1 teaspoon instant chicken bouillon
1 medium cucumber
1 can (17 ounces) whole kernel corn, drained
Prepare white sauce as directed on package except-- stir instant chicken bouillon into white sauce mix before adding milk.

Cut unpared cucumber lengthwise into quarters, then crosswise into 1-inch pieces. Stir cucumber and corn into white sauce; heat through.

CORN SESAME SAUTE

1 tablespoon butter or margarine
1 clove garlic, crushed
2 tablespoons sesame seed
1/2 teaspoon salt
1/4 teaspoon basil leaves
1/8 teaspoon pepper
1 can (12 ounces) vacuum-pack whole kernel corn

In medium skillet, cook and stir all ingredients except corn over medium heat until sesame seed is toasted. Stir in corn; heat through.

OVEN-FRIED EGGPLANT

1/2 cup seasoned crumbs
1 teaspoon salt
1 small eggplant (about 1 lb) pared
1 egg, slightly beaten
Heat oven to 375°. Grease jellyroll pan, 15 1/2 X 10 1/2 X 1 inch. Mix seasoned crumbs and salt. Cut eggplant into 1/2 inch slices.

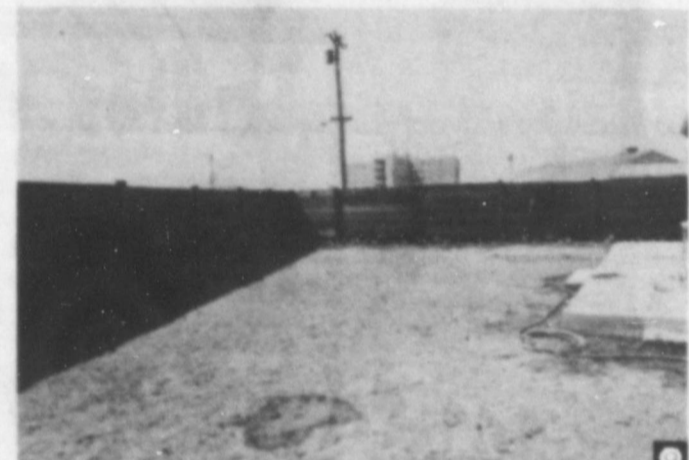

Dip slices into egg, then coat with crumbs. Arrange in pan. Bake uncovered 15 minutes; turn and bake 15 minutes longer.

SUBSTITUTION:

For seasoned crumbs: 1/2 cup dry bread crumbs and 1/4 teaspoon pepper.

A Picture Story . . .

STARTING FROM SCRATCH?

If you're starting a garden from scratch this year, take a tip from people who've done it before—depend on annuals. Bare as the yard is before there are grass and flowers, its appearance can speedily be changed. See the difference made by the first small plants set along the fence in the background.

The whole family enjoys the transformed yard. Daughter waters the stocks, snapdragons and lobelias blooming so gaily, son takes his first steps on soft grass. Mother and Dad are proud of the results of their plantings earlier in the season.

Tomorrow's Housekeeping

By Samantha of Lestoil Homemakers Service

A lot of "household accidents" can occur outdoors, where heavy cleaning jobs are undertaken without caution, or where heavy cleaning is put off until hazardous conditions result.

Proper cleaning of outdoor areas, tools and equipment are necessary for your family's safety, and a strong, grease-cutting liquid cleaner like Lestoil can help you maintain safe grounds and

equipment with a minimum of drudgery. Following are some general hints, as well as some safety tips for outdoor work.

Grease on the Garage Floor is dangerous as well as unsightly. Keep a bucket of sand and a kid's shovel in the garage at all times. Sprinkle sand on any slick spots immediately. Later, sweep up the sand, which absorbs most of the grease. To clean up remaining stains, pour on Lestoil and hot water. Let stand a few minutes to allow the grease to dissolve, and then rinse off with the hose or a sponge.

Dull and rusty tools can be dangerous, as well as exasperating. Keep the blades of lawnmowers, hedgecutters, lawn edges, etc., clean and well-oiled. To clean, use a solution of 1 quart hot water and 1/4 cup of your liquid cleaner. A sponge on a handle

THE FAMILY LAWYER

Civil Rights For Cinderella?

At first glance, Mr. Harrison will seem plain enough. It left his entire estate to his "children," a word that obviously included his own three daughters. But did it also include his stepdaughter, the child of his second wife?

After a court hearing, the judge decided that the stepdaughter was just out of luck. He said the word "children" did not include stepchildren unless the will expressly or impliedly said so.

This ruling illustrates that even today, in traditional areas of the law, our Cinderellas may still be treated like under-privileged members of the family.

"Although it may appear unjust," commented one court, "we must take the law as we find it."

This applies not only to the right of inheritance but also to the right of support. In most states, the mere fact that a stepchild joins the family circle does not impose upon the stepfather any legal obligation to pay the upkeep.

As a practical matter, however, stepfathers generally do support their stepchildren—and may, of course, go through a formal adoption ceremony.

Furthermore, especially in the newer fields of law, there is a growing tendency—sometimes by specific statutory enactment—to place stepchildren on an equal footing with natural children. Consider this case:

A factory worker was killed in an industrial accident. When his family put in a claim for workmen's compensation, the company readily agreed to pay the victim's widow and young son. But it refused to pay anything to his stepdaughter, even though she had been living for years as a regular member of the family.

However, when the matter was tested in court, the judge took note of the humanitarian purpose of the modern workmen's compensation system.

"Compensation is not inheritance," he said. "Its purpose is to give relief to dependents of one killed in industry."

Thereupon the court ordered the company to pay a full share of compensation to the stepdaughter, since she 1) did indeed need relief and 2) was indeed a dependent.

will poke the cleaner into all the spots that are hard to reach. Dry thoroughly with a clean rag.

Oil your tools without smearing them with a lot of slippery, excess oil. In cases where the oil holes are hard to reach with the spout of your oil can, use a long, thin nail, and let the oil drop down the nail and into the hole.

Small rust spots can be removed from tools with a secretary's ink eraser. It has enough grittiness to remove the rust, but won't scratch the metal.

Patio, terraces and cement walks should be kept clean and free of potentially dangerous debris like sticky food-stuffs, kiddie bubble fluid, chewing gum, spilled cleaning or lighter fluid, etc. For easy cleaning of large, outdoor surfaces like these, use a stiff-bristled scrub brush with a long handle and a solution of 1/4 cup Lestoil per gallon of hot water.

Wobbly ladders can be secured this way. Place each leg inside a tennis shoe. The rubber soles provide traction.

Encrusted barbecue grills can be soaked clean if you place them in a tub filled with hot water and a cup of your grease-cutting liquid cleaner. Allow to soak for several hours, then rinse with the hose nozzle adjusted to full force. Note: When building a barbecue fire, never squirt charcoal fluid into an open fire, or even embers!

JAYTON WORK UNIT STAFF
SOIL CONSERVATION SERVICE

WHAT IS SOIL CONSERVATION SERVICE

The Soil Conservation Service (SCS) is an agency of the U.S. Department of Agriculture (USDA) and was officially established in 1935 by the U.S. Congress.

Congress had already recognized the need for Federal help in solving land and water problems and the SCS was established to furnish this needed assistance to land owners.

The SCS was established during the Dust Bowl days when wind and water erosion had literally destroyed or severely damaged millions of acres of once lush rangeland that had been overgrazed. Millions of acres of cropland had either been severely damaged or practically destroyed by wind and water erosion.

Something had to be done if our precious commodity, our land, was to be saved.

During this formative stage of the SCS, some people felt the work could be speeded up by giving more responsibility to the landowner. Farmers and ranchers own and control the land and have the final decision as to any work carried out on their land and the responsibility for land care is largely theirs. This is why the Soil and Water Conservation Districts are legally constituted units of State Government, created to administer soil and water conservation work within their boundaries. They are not branches or agencies of any Federal Department. Each district is directed by a board of local farmers and ranchers that live and work in their districts. This board formulates a plan of action for the local area and then arranges for assistance to put this plan into effect. This is where the SCS comes in. The SCS is the federal agency created to furnish technical assistance to farmers and ranchers, through their SWCD, that want to carry out a sound program of conservation on their land.

Now, does this affect you as a local farmer or rancher? What assistance is available to you in carrying out a sound plan of conservation on your land? The Duckcreek Soil & Water Conservation District is your local district and the Board of Directors consist of Victor Arrington, Chairman, Norman Hahn, J.B. Morrison Jr., J.H. Gibson and Clyde Crousbey. By signing a cooperative agreement with the Duckcreek SWCD you become eligible for all the as-

stance available to the district which includes the SCS. This agreement can be mutually terminated at any time.

What will the SCS do when you sign this agreement? One of the local SCS planners will assist you in preparing a conservation plan based on your decisions on how you plan to operate your farm or ranch. This plan will include a soil map that has been prepared by SCS Soil Scientists that will tell you what type soils you have on your land, what the capability of your soils are and what erosion hazards your soil is susceptible to.

Your conservation plan will include a plan of operations and a schedule of application based on your decisions and the capability of your soils. An aerial photograph of your farm or ranch, if you have rangeland, a range conservationist will assist you analyzing your forage production by the kind of forage your land is producing and your past experience, and then work with you in the development of a grazing plan that is "tailor made" for your land and conservation objective.

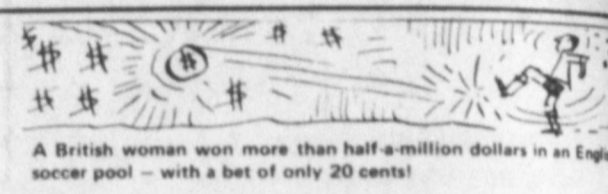

SCS technicians can and will furnish you technical assistance for all the conservation practices you desire to install that are planned for your farm or ranch. These services include engineering assistance for planning and construction of terraces, diversions, ponds, waterways, pipelines and other engineering practices. Technical assistance on conservation cropping systems, crop residue management, brush control and range seeding, rotation grazing systems and many other practices. All this assistance, is rendered on the basis of the capability and needs of your particular soil and is based on years of research by Agriculture Research Stations and by actual trial and observation on farms and ranches across the state. Besides technical assistance, some financial assistance is available through the Great Plain Conservation Program administered by the SCS and through the Rural Environment Assistance Program administered by the Agricultural Stabilization and Conservation Service.

Although the work of the SCS is mainly with local farmers and ranchers, policy permits the SCS to work with town and country planners; to give assistance to urban landowners; school systems and to give program on conservation to civic clubs, schools and other organizations.

JOSH BILLINGS Sez . . .

Self-made men are most always apt to be a little too proud of the job.

SCS technicians also work with landowners and sportsmen to provide better hunting and fishing and added income for landowners. SCS administrators the small watershed program under Public Law 566 for flood prevention. SCS technicians are trained Radiological Monitors and would examine food and water supplies and conduct personnel monitoring in fallout shelters in

case of national emergency. All these services are available, free of charge, to you here in Kent County and urge you to take advantage

For further information, contact Rhett Johnson, Carroll Johnson or Glenn Phillips your local SCS office located in the basement of the Kent County Court House.
