

Senate Candidate Makes Tour of State

The people of West Texas are keenly aware of the various problems facing the national, district, and state level," declared Mary Kirchhoff, candidate for the Senate, 30th District with the Candidates' caravan where we had the privilege of talking to our people, and listening to what they had to say.

"The theme of the caravan was 'In the interest of the people,' dealt with issues important to our district. As candidates, we need to know what our people think most. That way, we can project their needs rather than our own when we get to Austin."

Pointing out that it has been some time since an entourage of

state candidates had covered the entire state, Mrs. Kirchhoff indicated that both large cities and small communities were included in the itinerary. An entire month was spent in making the tour, which began in Houston on July 18 and concluded August 16 in Austin.

Mrs. Kirchhoff will be participating in the Texas Positive Action Committee workshop August 24 in Dallas. Included among topics for committee discussion will be ways to directly involve "grass roots" thinking in planning and decisions.

"As the campaign progresses, we realize even more the need to keep in close touch with the thinking of our people,"

New Loan Available To Local Farmers On Emergency Basis

Financial assistance to livestock and poultry producers under the Emergency Livestock Credit Act will become available next week through a new loan guarantee authority of the Farmers Home Administration (FmHA), a rural credit service of the U.S. Department of Agriculture.

Mr. Dale A. Keith, FmHA County Supervisor, said agency is prepared to implement the recently-enacted law by guaranteeing up to 80 percent of possible loss on loans made by locally organized lenders to livestock and poultry producers.

Under terms of the act, the loan guarantee program will be in effect through July 25, 1975. It may be extended for 6 months beyond that date if the Secretary of Agriculture determines that it is needed to help the livestock industry obtain sufficient credit.

The laws call for loans to be made by banks or other legally organized lenders. Mr. Keith said producers are urged to make applications to, and complete loan arrangements with lending institutions. The lender in turn will act as FmHA for loan guarantee if one is required. The lender will process the application, close the loan and service it.

The maximum loan to any single borrower that can be guaranteed by an FmHA guarantee is \$250,000. Loans will be payable in 3 years, although

renewal for 2 years may be authorized. Interest rates are determined between borrower and lender.

Mr. Keith said the agency is authorized to guarantee up to 80 percent loss a lender may incur on loans to bonafide farmers and ranchers who breed, raise, fatten or market beef and dairy cattle, hogs, sheep, goats, chickens and turkeys. A majority of the borrower's income must come from the operation, and a majority portion of the borrower's time must be devoted to the livestock or poultry production.

In the case of a corporation or partnership, assistance can be extended only when the majority partners or stockholders are primarily engaged in the livestock or poultry production.

FmHA guarantees will be made only when the bonafide farmer or rancher cannot obtain financing without a guarantee. Loans may not be used to expand operations.

Mr. Keith said the county FmHA office serving the area where the borrower's livestock or poultry operations are conducted will handle requests from lenders for guarantees, or supply information on the loan guarantee program.

The FmHA Office serving Scurry and Kent County is located at 3423 Ave. T. Snyder, Texas.

Robert Harrison III Gets Mortician Degree

Robert Harrison III, a 1973 graduate of Knox City High School, has received diplomas in Mortician Degree and Mortuary Science from the Omega Nu 1974 class of the Dallas Institute of Mortuary Science.

Charlie Brown Dies Under Car Wheels

"Charlie Brown" a dog that had lived in Jayton since last November and died Aug. 7th after being hit by a car.

So far it hasn't been determined who his former owner was, and he was such a friendly, affectionate dog he seemed to have been well cared for.

His only fault was a habit of chasing cars which may have been his way of searching for his original owners.

Named by Miss Sally Sumner of Jayton, he was a favorite of kids and grownups as well.

He lived with the Bennie Smith's and Joe Thompson.

TURKEY TETRAZZINI

6 ozs. spaghetti, broken in half
 2 pkgs. white sauce mix
 1/2 teaspoon celery salt
 2/3 cup salad dressing
 2 cups diced turkey
 1 3-oz. can sliced mushrooms, drained
 2 tablespoons chopped pimento
 1/2 cup (about) grated Parmesan cheese

Cook spaghetti; drain. Prepare white sauce mix as directed on package. Add celery salt. Gradually add white sauce to salad dressing, stirring until well blended. Add spaghetti, turkey, mushrooms, pimento, and 1/3 cup cheese; mix lightly. Pour into greased 1 1/2 quart casserole. Sprinkle with additional cheese and bake at 350° for 45 minutes. 6 servings.

MEAT LOAF IN THE ROUND

2 lbs. ground beef
 1 1/2 cups (6-ozs.) shredded sharp natural Cheddar cheese
 2 cups soft bread crumbs
 1 egg
 1/2 cup diced celery
 1/2 cup chopped onion
 1 tablespoon Worcestershire sauce
 1 teaspoon salt
 1/4 teaspoon pepper
 1 cup (8-oz. can) tomato sauce

Combine meat, 1 cup cheese, bread crumbs, egg, celery, onion, and seasonings; mix lightly. Shape into 9-inch round loaf in shallow baking dish. Bake at 350°, 1 hour; pour off drippings. Pour tomato sauce over meat; sprinkle with remaining cheese. Bake 15 minutes longer. 8 servings.

IT'S CANNING TIME!

PEACH PRESERVES

9 cups sliced underripe peaches
 1/4 cup water
 6 cups sugar

COOK the peaches in the water for about 5 minutes or until barely tender. Keep heat low so the peaches will not scorch. Drain off juice and add sugar. Boil until the sugar spins a thread. Then add the peaches and cook very rapidly 10 to 12 minutes. Remove from heat, skim if necessary. Let stand in a shallow bowl or tray for 24 hours. Pour into sterilized KERR Jars and seal with paraffin or process.

PEACH JAM

PEEL and cut well ripened peaches into small pieces. Put into large kettle without the addition of water, slowly heat. When peaches have begun to soften, crush them slightly. Cook slowly about 20 minutes or until peaches are slightly softened. Measure peach pulp and for each cup of peaches add 1 cup of sugar. Return to heat and cook until of desired consistency (about 20 minutes). Pour into sterilized KERR Jars and seal while hot.

PEACH BUTTER

SCALD, peel and pit peaches. Cook to pulp using very little water. Press through sieve. To each cup pulp add one-half as much sugar. Cook until thick and clear. Spices may be added. 1/2 teaspoon nutmeg, 1/2 teaspoon cinnamon. Pour into sterilized KERR Jars and seal while hot. Yield: 5-6 1/2 pints.

PEACH BUTTER (DRIED PEACHES)

2 cups dried peaches
 1 cup sugar
 1 pint water

WASH peaches, soak in the water several hours, cook very slowly in same water until soft enough to mash to a pulp. Mash and add sugar. Simmer slowly, stirring frequently, until thick, then pour into sterilized KERR Jars and seal while hot.

The Last Of Summer

Though some may feel that with school's opening summer comes to an end (in a way it does), the calendar tells us summer will linger through two thirds of September.

The last weeks of summer, according to the National Weather Service estimate, will bring more than normal precipitation to most of the country—but below normal amounts to the southeast and west. It will be colder than normal in northern and western states, about normal in most of the rest of the nation except in the lower southeast and Texas where it should be warmer than normal.

Autumn will arrive on the 23rd of September and remain until just before Christmas—December 21st. For those millions who see fall as the prettiest time of year, the last weeks of summer can't end soon enough, and the best of seasons lies ahead.

Library Reviews

By SALLIE HILTON

School has started now and you have a little extra with the children gone all day. Now is the time to start that knitting, crochet, tatting, needlepoint, or maybe a quilt that you have always wanted to make. The library has books on all these to help or give your ideas an extra boost. Now is a good time to start making your Christmas presents for the ones you want to give an extra special gift. For how often can you buy a handmade item that is just what you wanted?

If you don't do needlecraft but love to cook there are lots of different kinds of cookbooks that you might enjoy looking at and using. Candies, cakes or meals? Maybe one of our books has what you want to give your meal an extra taste or look instead of the same old standby that you used for years. Maybe some new quick meals that you can fix for Friday nights before you go to the Football games?

Tired of looking at the same rooms you have looked at all year—there are books to help with decorating or maybe you just need a new flower arrangement, we have some on that, too.

SATURDAY'S CHILDREN BY GILES TIPPETTI

This is college Football Texas Style. It's a game, a business, and a kind of semi-war which brightens and intensifies the strengths and weaknesses of every one involved.

Football can't teach you courage but you will find out in a hurry if you are a coward.

In the stands, on TV, or in the newspapers you see only a fraction of what is really going on. But through an agreement with Bill Patterson, Head Coach at Rice University, author Giles Tippetti actually spent a season living and working with the team. He delves beneath the obvious and into the violence, drama and just plain sweat it takes to play on or coach a high powered football team.

Food Prices "The news ain't good."

WASHINGTON, D.C. (Liberty Lobby News Service)—For those of us who feel prices have gone about as high as they can, to paraphrase Gabriel Heatter, "The news ain't good."

The Agriculture Department is predicting more increases and expect that by the end of this year, we will be paying 26-1/2% more for food than at the beginning of 1973. The Department has published a 22-page pamphlet which cost almost \$43,000. According to this report, the reason food prices are so high is because Americans eat 40% more meat than they did 20 years ago.

They also announce that food takes a smaller income slice today than it did in 1953. This appears on a par with the judgment exercised by the Secretary of Agriculture Earl Butz and top officials of the Department with regard to the Great Russian Grain Robbery.

In its final report on the sale of grain to the Soviet Union, Senator Henry Jackson's Permanent Investigations Subcommittee called the sale "a \$300 million error in judgment."

American grain reserves created farm product shortages and forced up food prices for American consumers.

That's what the committee says.

Reddy's consumer tips on ... lighting

Edison's light bulb has come a long way since it first lit up the night in 1879. Today, lighting is such a natural part of our lives we hardly give it a thought. But the fact is, the more choice we have in how we can use light, the more attention we should pay to how we buy and use light bulbs and lighting fixtures. Put a little more light in your life by following Reddy's money-saving, energy-conserving lighting tips.

CARE FOR LIGHTING EQUIPMENT

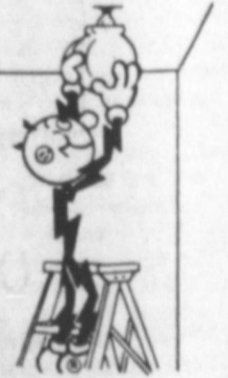

Dust and dirt alone cause substantial losses in the amount of light produced. Systematic cleaning is important. Clean lamp bulbs (when they are cool) with a damp cloth.

Check frequently for defective cords or plugs. Replace or repair them immediately if they are faulty.

LESS IS MORE

Generally, you'll get more light for your money if you use the least amount of bulbs that give the light you need. For instance, one 100-watt bulb gives more light than three 40-watt bulbs—and costs about one-third less to buy and replace.

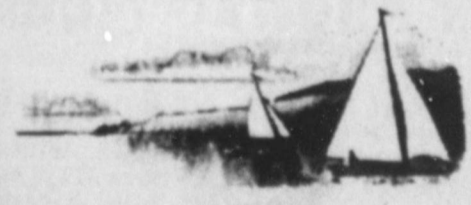

READ THE LABEL

Speaking of "lumens," you'll find that all light bulbs have three ratings on their packaging. Lumens tell you what the light output or performance of the bulb is. "Watts" tell you how much electricity is needed to produce that light, and "bulb life" is the estimated length of time it will take the filament inside the bulb to burn out. When brightness is more important than bulb life—for reading, studying or working—choose the "standard" life bulb that gives you the most lumens for its wattage.

Remember, Reddy supplies the energy, but only you can use it wisely!

there is **comfort** in quietness...

In the quiet of solitude, there is a special sort of peace that brings consolation to the bereaved. That is why our chapel is open for meditation at any hour of the day or night.

West Texas Farmers Visit Congressman

WASHINGTON, D. C.—Congressman Omar Burleson reported on the meeting in Washington involving West Texas Congress-several farmers from West Texas and officials of the

Department of Agriculture. Because of the great amount of difficulty being experienced by those in disaster areas because of crop losses due to weather conditions, the specific problems were discussed in efforts to reach some better understand-

ing. Congressman Burleson, Congressman George Mahon and Congressman Bob Poage, Chairman of the House Agriculture Committee, were on hand to discuss the difficulties farmers are having with the disaster program which have mainly been due to the fact this is the first year the program has been used under the new Farm Bill.

One direct result of this exchange of ideas has been the computation where a substitution of crop is involved.

Agriculture officials, consisting of Under Secretary J. Phil Campbell, ASCS Assistant Deputy Administrator Programs Congressman Burleson indicated it was of real benefit to have those farmers from West Texas make the effort to come to Washington to discuss firsthand the specific problems being encountered in the program and commended them. Those attending the meeting were Mr. C. A. Daugherty of Scurry County, Mr. Donnell Echols of Dawson County, and Mr.

Donavon Phipps of Dawson County.

Victor Senechal, ASCS Associate Director Glenn Weir, and George Melvin with ASCS Programs, also advised that there would be a change made in the sign-up or certification date from July 15 to September 1 to sign up for cotton, as to how much cotton had been planted. With regard to grains, farmers can now wait to certify until they come in for a payment. In other words when they apply for disaster payment, that is

equivalent to certification. Also, a procedure was approved to allow farmers to have their crops reappraised. The Department has waived a requirement which disallowed reappraisal.

George Wallace, Governor of Alabama, in Maryland: "Regardless of one's physical condition, if you have Christ in your heart, you are whole."

PERSONALS

CARD OF THANKS
I want to express my sincere thanks to each person who tried to help Clyde at the time of his passing away. I want to thank Frank Chisum and all of the Fire Boys, the Judge, Norman Hahn, and each person who had a hand in any way. For the \$200.00 check given me last week as a love gift in Clyde's memory. I lost a wonderful husband and father to my boys. We miss him very much. May our Lord be with each of you in my prayer. Mrs. Clyde Jackson, 29-1tc

THE FAMILY LAWYER

Safeguarding the Tenant

Olga returned from the market to find that a burglar had broken into her apartment and decamped with some jewelry. Upon reflection, she decided that the landlord ought to pay damages for the loss.

"His caretaker had left the front door of the building open the entire day," she pointed out in a court hearing. "Obviously that made things easier for the thief. A landlord has a duty to shield his tenants against crime."

But the court said that generally speaking, a landlord has no such duty. Rejecting Olga's claim, the court said crime prevention is primarily the job of the government, not of private property owners.

This is the traditional rule of law, leaving tenants pretty much "on their own" with regard to crime. However, a few courts have ruled recently that at least in certain situations, the landlord may bear some responsibility.

Another case involved an apartment building that was located in a high-crime district. The lobby had only dim lighting, and the front door lock, having once been broken, was left that way.

One night an elderly tenant, entering the lobby, was beaten by an unknown assailant who had been lurking in the darkness. In these circumstances, a court said later, the landlord could be held liable for "creating a condition conducive to criminal assaults."

But even a neglectful landlord won't be blamed if his negligence was not the "proximate cause" of the crime.

Thus, another landlord was held not liable for a robbery, even though he had failed to repair a faulty lock on the tenant's door.

It seems that on the day of the robbery, the tenant had left a ground floor window open. Since the robber may well have gained entry through the window instead of the door, the court said it was impossible to pin the crime on the landlord.

"Seek ye first the Kingdom"

Let the word of Christ dwell in you

Let the word of Christ dwell in you richly in all wisdom, teaching and admonishing one another in psalms and hymns and spiritual songs, singing with grace in your hearts to the Lord.

And whatsoever ye do in word or deed, do all in the name of the Lord Jesus, giving thanks to God and the Father by him.

Wives, submit yourselves unto your husbands, as it is fit in the Lord.

Husbands, love your wives, and be not bitter against them.

Children, obey your parents in all things: for this is well pleasing unto the Lord.
