## Jayton Teams Divide Pair of Games With Klondike

The Jayton Jaybirds got off to a great start in the football season as they put down the Klondike Cougars, Friday night at Klondike in their first of many victories.

The Jaybirds pulled ahead of the Cougars and attained a 12-4 lead at the end of the first quarter. They over the Cougars and finished the half with a 27-15 lead. They kept the lead all through the third and fourth quarters and ended the game with a decisive 56-34 victory over the Cougars. High scorer was Harold Parker, 6 ft. 5 in. Junior with 17 points. Junior Gene Cleveland and Junior Gary Sumner had 13 points each. Senior Boyed had 10 points, Senior Otis Chunn had 2 points and Senior Kyle Jackson had 1.

Keep up the good work, guys.

—Janet Johnson

The Lady Jays traveled to Klondike Friday to take on the many-time state contenders, the Klondike Cougarettes. The Lady Jays played their best game of the season as they battled the Cougarettes for the lead. The first quarter, was neck-in-neck until the Cougarettes pulled out in front by 2 points in the end of the quarter for a score of 20-18.

Klondike got an edge on the Lady Jays with a first half score of 48-26.

Despite a tremendous hustle by the Lady Jays, they couldn't quite overcome the Cougarettes lead by forward Bradford, high scorer with a total of 64 points. The Lady Jays fought for a 47-60 third quarter score in favor of Klondike and a final score of 83-62 in an overwhelming victory for the Cougarettes. High scorer was Danella Sartain with 31 points, adding to the score were Brigette Hamilton, 27 points and Pam Trammel, 4 points. Great Job Girls.

## Farm Bureau Membership Is Up

WACO--The Texas Farm Bureau has recorded one of its largest membership gains in its history, according to Carol Chaloupka of Dalhart, president.

Official tabulations just completed show that the state's largest farm organization now has 195,571 member families, an increase of 15,101 over last year. The TFB membership year runs from November 1 to October 31.

"This makes the 24th consecutive year for the Texas Farm Bureau to gain in membership," Chaloupka said. "Just as significant is the fact that this is the fourth year in a row for all 210 organized counties to show a gain."

The Dalhart grain and livestock producer said that 97 counties gained more than 75 members this year.

"This tremendous gain in membership strength indicates that farmers and ranchers are realizing more than ever the need for a strong organization to represent them," Chaloupka said.

The present Texas Farm Bureau dates back to 1934 when it was organized as the Texas Agricultural Association. The name was changed a few years later when it affiliated with the American Farm Bureau Federation. The original TFB was organized in Texas in 1920, but had ceased functioning by the early 1930's.

## Community - Wide Thanksgiving Is Planned For Jayton

The annual community wide ecumenical Thanksgiving service in cooperation with the various churches in Jayton will be held this coming Sunday night, November 21 in the Jayton United Methodist Church, beginning at 7 o'clock.

The Rev. J.C. Owen, pastor of the Jayton Assembly of God Church, will delivered the message. Prayers will be offered by various ministers, as well as special music provided.

Those wishing to sing in the choir, from the various churches, along with the congregation, are asked to arrive at the church a little early and fill the choir.

During the service a benevolent offering will be taken and a report given by the treasurer Odell Harrison. This offering is used for needy causes within the community.

Everyone in the Jayton community is urged to make plans to be at this special service. "We in America truly have so very much to be thankful for," a spokesman said.

## American Lung Assn. Memorial Program Is Pointed Out

When a loved one is lost...relative, friend, employee, or associate, those who wish to honor his memory often seek a way to do so which is particularly fitting and appropriate. Many people are comforted by the thought that their gift serves a double purpose. It benefits the living, and it is a gracious way to honor the memory of the person in whose name it is given.

The American Lung Association of Texas, West Texas Area Memorial Program was initiated especially for this purpose. More and more people are turning to Memorial Gifts as a particularly thoughtful tribute, and such gifts to the Big Country Area have been increasing in both frequency and amount.

Making a Memorial Gift is extremely simple. Gifts may be sent to:

American Lung Association of Texas  
West Texas Area  
1961 Texas Ave.  
Lubbock, Texas 79405

Or attractive Memorial envelopes are available at two locations in Jayton. See Mrs. Dorothy Judy at the County Judges Office or Mrs. Haldean Cave at the Jayton School.

Your contribution should be accompanied by a full name of the deceased, and the name and address of the family member to whom the Memorial Card acknowledging your gift is to be sent.

When a Memorial Gift is received, an acknowledgement card is sent the same day to the family of the person honored. An acknowledgement card is also immediately sent to the donor. The acknowledgement simply states the donor's name and not the amount given. Your Memorial Gift is tax deductible.

Contributions in any amount are needed and welcomed. Your gift will help provide newer ways to treat and prevent lung disease. It helps support community services, education and research in the fight against emphysema, tuberculosis, bronchitis, asthma, smoking and air pollution.

The 23 county West Texas Area of the American Lung Association of Texas has its headquarters at 1961 Texas Ave. in Lubbock. Until April of 1973, the Lung Association was known as the Tuberculosis and Respiratory Disease Association. The new name, American Lung Association of Texas, better reflects the wider aim of the agency.

## Local Bond Sales Report Is Given

August sales of Series E and H United States Savings Bonds in Kent County were reported today by County Bond Chairman, County Judge Norman Hahn. Sales for the eighth-month period totaled \$11,144, for 56 percent of the 1976 sales goal of \$20,000.

Texas sales during the month amounted to \$26,412,532, while sales for the first eight months of 1976 totaled \$188,888,470 with 69 percent of the yearly sales goal of \$272.4 million achieved.

## ARTS AND CRAFTS CLUB HAS THANKSGIVING MEETING

The regular monthly meeting of the Jayton Arts and Crafts Club met Thursday, November 11, in the Community building in Jayton.

The group met in the morning and worked on various arts and crafts projects, such as painting, macramé, sewing, crocheting, and knitting.

A covered dish dinner was served during the noon hour. The table was decorated in the Thanksgiving theme, featuring two wicker horn of plenty baskets filled with artificial fruit, nuts, fall flowers and leaves, paper pumpkin and turkeys.

Mrs. John Fowler presided over a short business session in the absence of the club president.

In the afternoon a period of working on projects was held.

The December meeting will be the Christmas party. Each one in attendance is asked to bring a hand-made gift to exchange.

Troubled cities seek Lebanese officer to head Arab Peace force.

## Kent County HD Clubs Have Meeting

The Council members of the Kent Co. Home Demonstration Clubs met November 10, at the Kent Co. Community Center. Mrs. Ernest Thomas presided for the meeting in the absence of Mrs. Bennie Smith. Mrs. Don had the game, "A Fortune Sand Sifting."

The Council will give awards for the 4-H girls, Write Food Show, that will be December 6 from 10:00 to 2:00 a.m. at the Community Center in Jayton. The girls invited to attend this meeting.

All Club members will drop educational program in a box at each club for the next year program list. There will be a Christmas Bazaar December 11, at the Community Center in Jayton.

Gifts for the State Homes are to be in the Extension office by December 10. These gifts are not to be paid.

Mrs. Judy Fowler reported on the 4-H club work. She is taking for 4-H leadership for these girls. The training class work will begin in January. If you are interested in membership for this work, contact Mrs. Fowler and Mrs. Stanaland.

Mrs. Ben Boland, Kent Co., THDA Chairman presided at the District III training meeting to be at Jayton, January 29, 1977.

The reports from the Girard and Jayton Clubs show a strong interest in the Extension Clubs work. The Jayton Club will have a Thanksgiving Luncheon and a Christmas Dinner. Girard will have a Thanksgiving supper, November 20. There will be no council meeting in December. Eight members and one visitor answered roll call. After council members attended the program given by Ender from the West Texas Utility Co. Mrs. Ender excellent speaker and displayed many foods ideas, suggestions, and suggestions for the three coming days, Thanksgiving, Christmas, and the New Year. A book was given to each person attending, some of the recipes were Christmas Supreme Spinach Balls, Ham Roll-ups and Pecan Roll Candy. A large crowd came to the program.

Come meet with the clubs.

## Predictions --

### NATIONAL FOOTBALL LEAGUE

By Henry D. Taylor, Jr.

It looks like the Dallas Cowboys have come up with their outstanding football team. Dallas and Oakland set the best records in the N.F.L. at 9 wins and one loss. The Cowboys have come up with 12 more outstanding wins. The Cowboys have one loss, to the St. Louis Cardinals, 21-17.

There are other good football teams in the N.F.L. such as the Baltimore Colts 8-2, St. Louis Cardinals 8-2, Minnesota Vikings 7-2-1 and New England Patriots 7-3.

It is too early to make any predictions yet, but if the boys go to the Super Bowl they will have a tough fight. The Cowboys must play the St. Louis Cardinals and Washington Redskins in their own divisions.

Roger Staubach is having another outstanding year with the Dallas Cowboys. The Pokes have two fine wide receivers in Drew Pearson and Golden Richards. The boys have a number of fine running backs including Preston Pearson, Scott Laidlow and Charley Johnson. Leroy Jordan, Jethroe Pugh, and Larry Cole have outstanding in the Defensive line.

## Individual Costs for Medicare Is Now Going Up

Beginning in January 1977, a person who goes to the hospital under Medicare will be responsible for the first \$104 of his hospital bill. The present deductible of \$104 will remain in effect for Medicare hospital admissions during the rest of 1976.

In announcing the new \$124 deductible, James B. Cardwell, Commissioner of Social Security, noted that the law requires an annual review of hospital costs under Medicare and an adjustment of the portion of the bill for which a Medicare beneficiary is responsible, if these costs have risen substantially. The law provides a formula for determining the amount of any adjustment in the deductible amount.

Commissioner Cardwell said the increase in the deductible results from continuing increases in hospital costs. He pointed out that hospital costs have been rising over twice as fast as the overall cost-of-living index and that these inflationary increases in hospital costs are largely responsible for the 19 percent increase in the present hospital deductible.

## Cattle Producers To Attend Conference In Lubbock, Dec. 9th

LUBBOCK--More than 150 cattle producers are expected to attend a conference at Texas Tech University, Dec. 9 to learn, among other things, proposed revisions to the U.S. standards for grades of feeder cattle.

Frame size and degree of muscling are likely to be included in the revised standards, the Ned Tyler of the livestock division marketing service, United States Department of Agriculture, will discuss the changes and their effect on the producer.

"Beef Production--Tools for the Future" is the theme of this second annual Beef Business Conference, which will also feature talks by a leading beef producer and several animal scientists. Most of 150 delegates are expected from Texas, New Mexico and Oklahoma.

Tyler will only discuss the changes under consideration by the USDA. Final draft of the revised standards will be announced later.

How ranchers can use wind and solar energy will be discussed by Dr. James H. Strickland, assistant professor of mechanical engineering at Texas Tech.

Rob Brown, cattle producer from Throckmorton, will make a joint presentation with Dr. Leif H. Thompson on artificial insemination.

Brown, a breeder of purebreds, has been using artificial insemination techniques for almost eight years. Thompson, assistant professor of animal science at Texas Tech, has as his current research interest reproductive physiology.

Genetics in improved beef production efficiency will be the subject of Dr. Robert A. Long's discussion. Long, professor of animal science at Texas Tech, is conference coordinator.

Dr. Billie E. Dahl, professor of range and wildlife management at the host university, will talk on brush control. Following will be a discussion on feed processing by Dr. Reed C. Richardson, ruminant nutrition specialist and assistant professor of animal science at Texas Tech.

The chairperson of the Animal Science Department, Dr. Max A. Lennon, will review current beef cattle research at Texas Tech.

Registration for the conference begins at 9 a.m. with individual sessions beginning an hour later. The conference will end at 4 p.m.

Proceedings of the conference will be published by the Texas Tech College of Agricultural Sciences. Copies will be available on the day of the conference.

## Harmon Meador Rites Are Held In Jayton Sunday Afternoon

Harmon Meador, 88 of Jayton died at 8:15 a.m. Friday at Fisher County Hospital. Services were held at 2:30 p.m. Sunday at First Baptist Church in Jayton.

The Rev. Truett Kuenstler officiated. Burial was in Jayton Cemetery under the direction of Weathersbee Funeral Home.

Born Oct. 22, 1888, in Lafayette, Tenn., he came to Texas when he was three. He moved to Kent County in 1905 and had lived there since. He married Laura Dell Rose, April 27, 1907, in Clairemont. She died Oct. 21, 1976.

Survivors include two sons, Martin of Jal, New Mexico and Marvin of Monroe, La.; three brothers, Bruce of Peacock, J.A. of Boerne and Boyd of McLean; a sister, Ethel Hahn of Amarillo; a grandson and three great-grandchildren.

The hospital deductible amount, Commissioner Cardwell explained, is intended to make the Medicare beneficiary responsible for expenses approximately equal to the average cost of one day of hospital care. At the present time the average hospital stay under Medicare costs about \$1,600.

**In Other Words**  
By DON RICHARDS

How many new words could you invent if you put your mind to it? The National Observer, as quoted in The Reporter's little monthly brochure of cheer and good news, "Have a Good Day", was flooded with letters when editor Henry Gemmill invited readers to send in descriptive words which they had invented:  
Here are a few.  
Xerocracy: Government by photocopy.  
Idiolectuals: Overschooled and under-educated nitwits who have solutions to all problems.  
Conservationist: One who talks about preserving the environment without doing anything about it.  
Mademeanor: Any offense against women's liberation.  
Condomoniums: Too many unsold condomoniums in one place.  
Dietribe: An entire family watching its calories.  
Senadent: Any senator who aspires to become president.  
Crinklafenda: Game played by motorists in shopping plaza.  
Casservationist: A Monday night 'clean out the refrigerator' casseroles invention.  
Pastimist: One given to reminiscing.  
And here's one you will agree with:  
Idiotimist: A columnist like me who writes like an idiot.

If you have ever wondered where all that money for all those hours went, you might find these figures interesting.  
Taxes take a total of 2 hours and 39 minutes of each working day. That figures out to one hour and 41 minutes for federal taxes and 58 minutes for state and local taxes.  
Food and beverages take one hour and five minutes worth of work from your day while housing and household operation takes another hour and 32 minutes. Clothing takes 29 minutes, transportation takes 39 minutes, medical care takes 25 minutes, recreation takes 19 minutes and 52 minutes of your working day is spent under the "other" category.

**THE SPLENDOR OF THE SNOW**

Snow falls and puts a beautiful white blanket over the mountains, and even before this one is gone, others will fall. It will become deeper and deeper until the spring, when it begins to melt and provides life giving waters to many streams. These streams meet with others and become rivers and provide water for irrigation and lakes throughout our land.

Our Lord, Jesus has said that He will give to any that seek Him... "a well of water springing up into everlasting life." — John 4. 14

**EVERYONE IN THE CHURCH**  
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

- 1/2 cup oleo
- 1/2 cup (Packed) brown sugar
- 1/2 cup milk
- 1/2 cups powdered sugar
- Combine sugar, potatoes, shortening, salt and spices; beat for 4 minutes. Beat in eggs. Stir soda into buttermilk; add to creamed mixture alternately with 2 cups flour. Fold walnuts with remaining flour; fold into batter. Bake in 13 x 9 x 2 inch pan. Bake at 350 degrees for 50 minutes to 1 hour. Cool.
- Melt oleo in saucepan; stir in brown sugar. Cook over heat for 2 minutes. Add milk; bring to full boil. Cool to warm; blend in powdered sugar. Frost cake.

**Pecan Sour Cream Pie**

- 1/2 cup broken pecans
- 1/2 cup flour
- 1/2 tsp. cinnamon
- 1/2 tsp. cloves
- 1/2 cup sour cream
- 1 egg
- 1/2 cup sugar
- 1/2 tsp. lemon extract
- Line pie plate with pastry and sprinkle with pecans. Make custard by mixing flour, cinnamon, cloves with a little sour cream, gradually adding balance of sour cream. Beat in eggs, well beaten, sugar and lemon extract. Pour into pie shell. Put a few pecans on top if desired. Place in oven preheated to 450 degrees. Lower temperature immediately to 325 degrees. Bake until firm, about 40 minutes. Serve warm or cold with whipped cream.

**Sourdough Biscuits**

- 1/2 cup sourdough starter
- 1/2 cup milk
- 1/2 cups flour
- 1/2 tsp. salt
- 1/2 tsp. sugar
- 1/2 tsp. baking powder
- 1/2 tsp. soda
- 1/2 cup (approx.) salad oil

Mix the starter, milk and 1 cup of the flour in a large bowl from 8 to 12 hours before you plan to serve biscuits. Cover the bowl and keep at room temperature. When ready to make biscuits, stir in 1 cup flour. Combine remaining ingredients, except salad oil, and sift over the mixture. Mix well by hand then knead on a lightly floured surface. Roll out into 1/2 inch thickness. Cut out biscuits with a 2 1/2 inch cutter. Dip each biscuit in salad oil and place close together in a 9 inch square pan. Let set in pan place to rise for about 30 minutes. Bake at 375 degrees for about 30 to 35 minutes. Yield: about 16 biscuits.

**THE HIDING PLACE** by Corrie ten Boom  
Corrie ten Boom shares with you the secrets of her faith in this surprising and dramatic Christian adventure of the Dutch underground.  
How a gentle, past-50 spinster is suddenly transformed into a daring secret warrior against ruthless invaders is surely one of the greatest adventures in faith ever lived! Here again as in their earlier book, God's Smuggler, the Sherrills have discovered a fantastic example of how an average person can endure and conquer anything through God's extraordinary power.  
The Hiding Place is a book you will not be able to put down! It is only when you have turned the last page that you will realize that you have read more than a spellbinding adventure. You will have in your hands a key to your own deep questions.

**More About November**

This November Jimmy Carter was elected the President of the United States. Five Presidents were born in November, three in the last half.  
James Abram Garfield, 20th President, born in Cuyahoga County, Ohio, on the 19th in 1831, descended from Massachusetts ancestors. He was elected President as a Republican in 1880, and was assassinated in 1881.  
November 22nd will be the 13th anniversary of the assassination of President John F. Kennedy, in Dallas, Texas.  
Franklin Pierce (pronounced purse), 14th U.S. President, was born on the 23rd in 1804, at Hillsborough, N.H., and served his state in various capacities, resigning a U.S. Senate seat because the pay was insufficient. He was nominated and elected as a Democrat in 1852. He attempted to annex Cuba, tried to pacify North and South, but was not renominated by his party. He became very critical of Lincoln during the Civil War.  
Zachary Taylor, 12th U.S. President, was born in Orange County, Virginia, on the 24th in 1784, preceded Pierce as President. He was a military hero in the Mexican war, son of a Revolutionary War officer of Virginia, grew up in Louisville, Kentucky (then Virginia), and won a great victory over the Seminole Indians in Florida, dying in office in 1850.  
Thanksgiving, a truly American observance, falls on the 25th this year. It is the principal holiday of November, and the grandest of the autumnal season. It is, in reality, a national religious festival in thanksgiving for our many blessings.  
November 28th is the first Sunday of Advent.

**The Unemployed**

Milton Friedman, who recently won the Nobel prize for his work in economics, startled many when he told a national television audience recently that the number of unemployed no longer indicated the state of the economy.  
He said one way to reduce unemployment rolls was to get the government out of the unemployment compensation business! Few politicians will be so bold as to embrace this principle. But Friedman has a point.  
He notes that baseball players making more than \$100,000 a year are now eligible for unemployment compensation in their off months, that the wife of a friend of his during a year's study abroad is currently drawing unemployment compensation over there, etc.  
Many others who could find work or who do not choose to try are on the unemployment rolls illogically. Friedman supports President Ford's general thesis that it's better to expand the economy and create permanent jobs than to create government jobs with the taxpayers' money. He agrees that inflation costs jobs, rather than the reverse.  
As with the food stamp program, most Americans want the genuinely needy to receive unemployment aid. But both the unemployment compensation and food stamp programs have been badly abused, at heavy cost to the working taxpayer. Somehow, such programs should be cleansed of chislers, racketeers and deadbeats.

**Tech Employees Are To Be Honored For Service**

LUBBOCK--Five employees of Texas Tech University who have shown "loyalty to the institution and quality service" have been named 1976 recipients of the Top Technisan Staff Awards. This year's recipients are LaVerne Patrick, travel services coordinator, 23 years of employment; Marshall A. (Joe) Winegar, supervisor of stenographic services and mail, 23 years; Nelson H. Longley, director of the University Center and Student Activities, 21 years; B.G. Daniels, chief of University Police, 18 years; and Fernando G. Romo, foreman of the greenhouse, 15 years.  
Announcement of their selection was made Wednesday (Nov. 10) by Wayne James, executive director of the Texas Tech Ex-Students Association, sponsoring agency for the awards. Recipients are chosen by an anonymous committee on the basis of loyalty to the institution and quality of service, service to students, faculty, the university community and the city of Lubbock, integrity and moral character.  
Nominees must be non-teaching untenured personnel with a minimum of 10 years' employment.  
The awards are presented annually, usually during Homecoming week. Recipients will be honored at a 3:30 p.m. reception, Friday (Nov. 12) in the Ex-Students Association Building to which the public is invited.  
The five also will be recognized at the Century Club dinner at 6:30 p.m. Friday, in the University Center Ballroom. Glen Cary of Dallas, president of the Ex-Students Association, will make the presentation of the awards at the dinner.  
This is the fourth year of the Top Technisan Staff Awards program, James said.

**Sourdough Starter**

Crumble two cakes yeast in a pint of tap water. Make sure yeast is thoroughly dissolved. Add 1/3 cup of sugar and stir in enough all-purpose flour to make a thick batter (about the consistency of hotcake batter). Place in a mixing bowl, cover and let set overnight at room temperature.  
In the morning, pour into a jar, cover and keep refrigerated for three days.

When it comes time to pay your income tax, and it hurts like pulling an old tooth, here is something to think about, that may not help any.  
The government is spending \$45,734.00 of your tax money to study the sex habits of Belgians who have been dead for 100 years--that's right.

The Federal Government is squandering \$45,734 of your hard-earned tax money so a college professor can study the sex habits of a 19th Century Belgian village--and one member of Congress says his feelings about the project are X-rated.  
"It's outrageous--absolutely outrageous," thundered Sen. William Proxmire (D-Wis.), who has demanded that the General Accounting Office--watchdog over government spending conduct a full scale investigation of the project.  
The program under fire is a grant made by the tax-supported Population Study Center to Dr. Etienne van de Walle, a Belgian professor at the University of Pennsylvania.  
Dr. van de Walle, who isn't even a citizen of the U.S., will spend the \$45,734 trying to find out if and why the people of the tiny Belgian village of LaHuipie used birth control methods or devices or both between the years of 1846 and 1880. Naturally, Dr. van de Walle will have to make several trips back and forth to his native Belgium to gather data.

In his application for the \$46,000 grant, Dr. van de Walle admitted: "Although there is little hope to ever go back to the broad generalizations that characterized the classical statements of transition theory, there may yet be policy lessons hidden in the interrelationship of demographic, cultural and legal issues in 19th Century households."  
"I know that at the beginning period of the study, in 1846, they were not practicing contraception."  
"At the end, they were--and I want to know why."  
To which Sen. Proxmire snorted, "The Population Study Center has a record of wasting the taxpayer's money. Evidence gathered by my staff appears to show mismanagement of taxpayers funds and that's why I've called for an investigation."

Stupid and often conflicting government regulations force American companies to close, add to unemployment and cost taxpayers billions a year!  
That angry charge comes from U.S. Rep. Charles Grassley (R-Iowa) and his outrage is shared by other Congressmen serving with him on an informal committee which wants to halt government interference with private business.  
"In just two cases, for example, a total of 200 people lost their jobs because government agencies compelled plants to shut down when they couldn't cope with bureaucratic idiocy and red tape."  
Seventy people were thrown out of work when Headford Brothers and Hitchins Foundry of Waterloo, Iowa, strangled to death in a squeeze by two government agencies--the federal Occupational Safety and Health Administration (OSHA) and the Iowa Dept. of Environmental Quality--who saddled the company with an impossible financial load.  
Herbert Cole of Waterloo, executive vice-president

of the firm before it closed, "OSHA demanded changed in lighting, dust control and hygiene in the foundry, which had been in business since 1888.  
"The state environmental people also insisted that plants in Waterloo, a sparsely populated area, meet the same requirements as plants in Des Moines (a city of over 200,000).  
"It would have cost us more than the assets of the company to comply with both OSHA and state demands. We closed. I'm madder than hell about it."  
In the other case, 130 workers lost their jobs because

the H.C. Hemingway Co. food processing plant in Clyde, N.Y. had to shut its doors after operating for 99 years. The firm didn't have \$185,000 needed to build a waste water treatment plant ordered by the state Dept. of Environmental Conservation.

Hemingway asked the federal Small Business Administration for a loan and also applied for a U.S. Farmers Home Administration grant.

Russell Fowler, administrator of the Wayne Economic Development Corp., which worked with Hemingway on the requests, said the funding question dragged on until it wasn't feasible to try to get the treatment facility built in time for the next harvest season. Fowler said Hemingway pleaded with the state to extend the deadline on putting in the antipollution facility, but was turned down.

"Two weeks after Hemingway decided to close, the loan came through," Fowler said. "But that time, he was fed up. He ran out of time and I know he ran out of patience."

Grassley declared: "We need to examine our process of formulating regulations, give Congress veto power over unnecessary or conflicting regulations, give Congress veto power over unnecessary or conflicting regulations, tear down our bureaucracies and cut through red tape which threatens to strangle our country."

China's Computer

The United States, obviously bidding for closer relations with Red China, recently agreed to the sale of two sophisticated computers to that country by a private U.S. firm.

The computers remain barred from Russia. They are known to be potentially useful in limited military and nuclear programming. The State Department felt, and was backed President Ford, that sale of the computers was in the national interest.

The implications of the sale, pending a year, are considerable. If it helps strengthen U.S. ties with the new regime in China, and eventually this trend translates into a U.S.-Chinese counterweight to increasing Soviet military power, it will have constituted a major step in world relations.

Longer Lives?

The newspaper "Grit" reports that living to the age of 100 might soon be commonplace. Doctors are finding ways to arrest the aging process, it's said.

The elderly might soon be living to age 130 or 140. Retirement might start at 85, rather than 65, etc.

The thought of working to age 85 is enough to kill some of us, so maybe that'll even out the averages!

Parents should be careful not to compare their child to their neighbor's child. While all children develop in the same sequence, the rate of development varies with every child, reminds Debby Johnson, family life education specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Make a batch of baby food and freeze some for future use. Freeze food in ice cube trays and snap out into plastic bags once frozen. Seal well and store in the freezer. These cubes will be just the right size serving for your baby. Do not freeze for longer than one month, advises Mrs. Sally Coble, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.
