## Antelopes Fall To Dimmitt; Loop May Be Tied

(By Mike Skipper)

After grabbing the district lead with a win over Dimmitt Saturday, February 5, the AHS Antelopes lost it by one point to the same Bobcats Tuesday, Feb. 8, at Dimmitt. The loss threw the AHS and Dimmitt into a tie and unless either team is beat in the final game of the regular season Tuesday, Feb. 15, the district will finish that way. Abernathy traveled to Floydada for the final contest while Dimmitt was on the road to Friona.

Should the district end in a tie between the 'Lopes and Dimmitt, a playoff site will be selected and the two squads will meet head-on later this week.

**'Lopes Fall 50-49**  
After a valiant, breath-taking comeback in the second half of the boys' contest at Dimmitt, the 'Lopes pulled within one shot of the Bobcats but never could take the lead. Abernathy never led as Dimmitt took the ball early and built up a 14-10 first quarter lead and 34-19 lead at halftime. At the end of the third quarter, the Bobcats still held an eight-point margin.

Led by Rex Hester and Tommy Hunley, the 'Lopes pulled within one point as Mike Tannehill and Rondall Preston threw the Dimmitt offense off. The game ended at a fever pitch as the 'Lopes took possession of the ball with 16 seconds on the clock. A controversial call gave the 'Cats the ball however and the game ended 50-49. Hester led all scorers in the crucial contest with 18 points.

The AHS girl cagers absorbed their sixth defeat of the district schedule by a 50-41 score. Mary Davis contributed 20 points to the losing effort as Dimmitt's Alain Webb was also tossing in 20 points.

**Take Two From Lockney**  
In the last home game of the 1965-66 season, the AHS cagers took two victories over Lockney basketballers Friday, Feb. 11.

The girls started the night with a 50-35 romp of the Lockney fens. Mary Davis was once again high scorer with 32 points. Strong defense by guards Cindy Shadden and Carla Collins held Lockney standout Jackie Durham to 16 points.

The boys contest followed the same pattern as the 'Lopes took a 13-8 first quarter lead and built it into a 61-44 victory. Hester was high scorer for the night with 16 points. Other Antelopes in double figures included Tommy Hunley with 14; Lane Wade, 11 and Ronald Preston, 10.

The Abernathy Junior High Intramural Tournament is scheduled for February 17th, 18th, and 19th. There will be eighty-two boys playing on eight teams and ninety-four girls divided into eight teams. Team names have been chosen and high school students have volunteered to act as coaches for these teams. There will be six sessions with the first five being played in the Junior High Gymnasium and the last session being held in the High School Gymnasium.

There will be an admission charge of 10c for students and 25c for adults for each session. Admission fees will be used to pay for the awards which will go to individual members of the first place, second place, and consolation team winners.

One of the primary purposes of the intramural tournament is to provide an opportunity for all seventh and eighth grade boys and girls who so desire, to participate. Therefore, we will have a special rule regarding substitution to insure all players a chance to play. There will be no substitutions allowed during the first two minutes of each quarter (unless a player has committed five fouls).

At the end of two minutes the buzzer will sound and all players who did not start the quarter will enter the game. Again there will be no substitutions for two minutes. At the end of this two minute interval the buzzer will again sound and during the remaining three minutes of each quarter the student coaches may substitute as they wish.

During the first four minutes of each quarter, the clock will not be stopped for any violations except fouls. During the last three minutes of each quarter, regular rules will prevail.

Sessions will be as follows: 1st session Thursday, 2:00 - 5:00; 2nd session Thursday, 5:30 - 8:30; 3rd session Friday, 2:00 - 5:00; 4th session Friday, 5:30 - 9:30; 5th session Saturday, 8:00 - 12:00; 6th session Saturday, 5:00 - 9:00.

## PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Abernathy Weekly Review as he saw conditions. These people are all leaders in their various lines of endeavor and the cooperation of those citizens in Lubbock who helped make this department possible is sincerely appreciated.

### BILL WATSON

In critical times such as these, it takes business men of more than average ability to carry on their operations successfully. In making this statement, the man we have in mind is one of the South Plains more dependable mobile home dealers, Bill Watson of Town & Country Trailer Sales, who has a wide circle of personal friends and associates scattered throughout this entire district—many of whom reside in our own community.

His contagious optimism, and freely expressed belief in the assured future prosperity of the people of Lubbock and its metropolitan trading area, are characteristics which are to be appreciated in a progressive business man. He has always taken an interest in community affairs, and has shown a willingness to shoulder his share of the civic load.

It is such men as Bill Watson who, because of the successful conduct of their business and private affairs, and their willingness to contribute to the public good, who are wholly deserving of a few words of commendation. It is a pleasure to pay him this brief tribute.

### BOBBY J. DODSON

In compiling this review of progressive Lubbock business men, it is fitting that we should include some of those who, by their aggressiveness, have definitely established themselves in the business and commercial life of this region.

Such a man is Bobby J. Dodson, representative in the South Plains for the Morgan Portable Building Company, who also deserves an additional word of praise for being more than just successful. He is a consistent and enthusiastic booster of the community, and in his way has done much to advertise the Hub City.

Mr. Dodson has pursued the intelligent policy of stepping up his business ahead of the times, thus setting a pace for which he has earned the reputation of being a go-getter, who does not sit back and wait for the business to come to him.

We are glad to pay tribute to Bobby Dodson, and to point out to our readers that his sincere desire to be of service, coupled with his determined methods, are largely responsible for the standing of the Morgan Portable Building Company throughout this entire area.

### ROY N. TEETERS

The Hub City has assumed its place of importance in this section of West Texas because of the efforts of far-seeing business executives who have helped in developing its industry, or in some manner extended the trade advantages of the locality. One of those who has taken an important part in many progressive movements is Roy N. Teeters of Slumberland of Lubbock Incorporated.

Mr. Teeters has devoted his share of time and energy to the growth and development of the city and the surrounding region, and it is fitting at this time that we attempt to express in a small way, our appreciation for his unselfish contributions to the general welfare of the community.

He is a man of wide acquaintance, whose many friends admire and respect in him, those virtues which inspire confidence and promote good feeling. His upright business methods are but an outward reflection of his inherent appreciation for fair practices. We congratulate Roy Teeters on his splendid record of service, and wish him continued success.

### RICHARD POWELL

In bestowing credit upon some of the more progressive business men of Lubbock, who in one way or another, have contributed their bit to improve both business and civic conditions, we wish to publish a few words about Richard Powell of Powell's Enco Service Station, located at 2602 on 50th Street.

Mr. Powell has set a standard for himself, and the operation of his business, that under present existing conditions, has been extremely difficult to maintain. However, that he has done so is proved by the large volume of business which his Enco station continues to handle, much of which is due to his unceasing attention to detail, and his ability to cope with new and unexpected problems.

Richard Powell is also civic-minded, and has, when asked, cheerfully cooperated on those civic activities to which he has been able to lend assistance. He more than deserves the respect and good will which he has earned, and his many friends and satisfied customers are con-

fidant that he will continue to maintain his usual integrity and high standards.

### ARNOLD GRATZEL

Lubbock has attained a prominent position in the business and industrial life of this section of West Texas because of the foresight of those men who had the ability to envision the possibilities of the community and the trade area it serves. One of those conscientious business executives is Arnold Gratzel, general manager of the Lu-Tex Brick & Stone Company.

Such men have, many times over, proven their worth to the community, both as business men and as active workers in the civic betterment and progress of the city. And Mr. Gratzel has earned the good will and respect of his fellow citizens for contributing his bit to the general welfare of the city, and the people as a whole.

It is our duty to include Arnold Gratzel in that group of progressive and civic-minded men who are doing so much for Lubbock, and to express the wish that he will continue for many years to forge ahead with the success which he has enjoyed in the past.

### George R. Arlington

George R. Arlington of the Overseas Motors Corporation of Lubbock Incorporated, is one of those foreign automobile sales and service dealers of the South Plains who has consistently forged ahead in his business.

He has also put his shoulder to the wheels of civic progress whenever concerted help was needed in furthering enterprises promoted for the general welfare of the community.

Mr. Arlington was never a man given to wishful thinking. Because his methods are those of direct action, and whether the problem at hand is one concerning his own business or that of a civic nature, he attacks it with optimism and vigorous enthusiasm. Add to this his acknowledged business ability and his keen sense of values, and it is easily understood why he is almost invariably successful in business or other matters.

We feel that it is our duty to call the attention of our readers to these worthwhile characteristics of George Arlington, and to pay him a well deserved tribute for his straight forward business methods, and for the unselfish interest he has shown in public welfare.

### CLYDE D. SMITH

It isn't the size or volume of a man's business which determines its value to the community in which he lives. But rather in the manner in which it is conducted. Which, to a greater or lesser degree, reflects the personality and character of the individual. The value of Clyde D. Smith's business to the Hub City is a reflection of his dependability, and a determination to render the utmost in service, a policy which has caused Smith's Refrigeration Company to be so well thought of, and so widely patronized by the people of Lubbock and the surrounding area.

That same progressiveness and ability which has made him so successful in his own business has also fitted Mr. Smith to be of assistance on community projects and public drives. Moreover, he does so cheerfully, and with a friendly spirit of cooperation that is always more than welcome.

It is a pleasure to include Clyde Smith in this Lubbock review, and to wish him further success in his field of endeavor.

### JEFF WHEELER

The men in a community, who work for the best interests of that community, usually are leaders in whatever they attempt. This is especially true of real estate men because they are generally among the first to be called on to help with all worthy civic projects. Such a man is Jeff Wheeler of Jeff Wheeler Realtors, and the Wheeler Construction Company, Immediate Past President of the Lubbock Board of Realtors. He stands at all times prepared to assist his city, and is always ready if necessary, to take off his coat and work for its best interests.

It is such men as Mr. Wheeler, having been in the real estate business since 1954, who have had the vision to realize the possibilities of Lubbock and the surrounding territory, and have given of their time and energy to make that vision come true, who have won the respect and good will of their fellow citizens.

We take pleasure in paying this brief tribute to Jeff Wheeler for being a far-sighted business executive who is firmly

established in the forefront of the business and industrial life of his city.

### Jerry A. Burgess

Every progressive and successful business man in Lubbock contributes in some manner to the growth of the city, and one who is always willing to do his part in both business and civic activities is Jerry A. Burgess of the Western Wrecking Company, who is well known, and has a great many friends and business associates throughout this entire district.

The prominent part that the Western Wrecking Company is playing in the business and commercial life of Lubbock and vicinity, mirrors the progressiveness and ability of such men as he. Moreover, Mr. Burgess has also at all times been steadfast in his devotion to the city and the surrounding country, and on many occasions has lent his support to the successful promotion of meritorious civic projects.

Lubbock and this area are fortunate to have such a man as Jerry Burgess in a position of responsibility and service, and this newspaper feels that it merely reflects public opinion in paying this brief tribute to one of the city's more conscientious business men.

### R. B. "BOB" TORRANCE

The true value of a citizen is not gauged by his personal success, but rather by the manner in which he shares that success by his contributions to the community in which he lives. A city grows and flourishes according to the number of public-spirited citizens who compose its population.

And R. B. "Bob" Torrance of Torrance Ready Built Homes, now located at 619 North Avenue W, is one of those men who has given much toward the development of Lubbock and vicinity. He has turned his personal success in the business field to the advantage of the people as a whole, and has accomplished much toward making the city a better place in which to live.

Mr. Torrance's thorough knowledge of every phase of the ready built home contracting business has raised him into a position of leadership in his field of activities, and gained recognition for him as one of the city's more progressive business men. We compliment "Bob" Torrance in this Lubbock review, and wish to offer him this small evidence of public esteem.

### DEWEY D. STONE

To serve the public honestly, efficiently, and cheerfully, is the route to success. In making this statement, the one we have in mind is Dewey D. Stone of the D. D. Stone Standard Service Station. The popularity and patronage enjoyed by his many services accentuates the ideals of courtesy and efficiency which he has consistently applied in the management of the business, and in the servicing of its customers.

The conduct of such businesses, and the men who operate them, have done much to make Lubbock the business center for many miles around, and it is fitting that we give credit where credit is due to such men as Mr. Stone for his part in the onward progress of the city. In doing so, we are merely putting into words the opinions of those who know him.

Dewey Stone has earned his success by the method in which he has served the motoring public, and accepted both civic and business responsibilities, and we wish him every success in the future.

### AL TEASDALE

Recognized as an authority on complete home improvement contracting problems, Al Teasdale of the Teasdale Repair Service, has turned his knowledge to the advantage of the people of Lubbock and vicinity. More than that, Mr. Teasdale is a man who has always been vitally interested in the civic betterment and progress of the city, and has backed up his interest by lending assistance, in one form or another, to the successful promotion of many things which have benefited the community as a whole. Lubbock owes much to such men for their part in making the city the business center for the South Plains.

He has always been alert to the many opportunities for service, and more than ready to recognize and accept his share of civic responsibilities.

Because of these things, Al Teasdale has become accepted as a progressive business man who is an asset to both the

business and civic life of the city, and we trust he will continue to serve the people of Lubbock and the surrounding area in his present capacity for many years.

### R. E. "BOB" GIBSON

R. E. "Bob" Gibson has proved his progressiveness by constantly adding to, and increasing the service which the R & R Service Station has extended to the people. The large volume of business handled by his Gulf station proves that "service" to him, is not "just a word", but something to be rendered to the motoring public to the fullest extent of his ability.

In addition to his close attention to his business affairs, Mr. Gibson was never a man to dodge his civic responsibilities, and help in those matters has always been cheerfully given. He fully appreciates the value of good will, and has more than his share of that intangible commodity because of the manner in which he meets all business and civic obligations. He is a credit to the community, and is thoroughly established in the forefront of the business life of the city.

"Bob" Gibson has a great many friends and customers throughout this district, and it is a pleasure to bring him before our readers in this review of progressive Lubbock business men.

### STANLEY F. SMITH

Most cities, if they amount to much, are made. They do not just happen. It has been the realization of its more progressive citizens that their city must grow and prosper, and become something other than just another place on the map, that has brought results, and made it possible for the Hub City to be an outstanding one, and for those within to prosper.

And Stanley F. Smith, well known and completely reliable building contractor, is one of those men to whom much credit must go for playing no small part in the growth and development of Lubbock and the surrounding area.

Mr. Smith would be the last man to mention the matter, but when the call goes forth to rally around something worthwhile for the community, he is among the first to volunteer. But his friends are outspoken in paying him this well deserved tribute, and they do so because of a thorough knowledge of his activities. Successful in his own building contracting business, Stanley Smith is equally successful in the promotion of civic progress.

### H. C. HUDGEONS

At the head of one of the district's more prominent wholesale lumber firms, and as a leader of recognized ability in community life, H. C. Hudgeons stands out today as one of the best liked men on the panorama of Lubbock activity.

His friends are numbered by the hundreds, and all of them are of the lasting fibre which comes of worth-while associations, both in the world of business, and in the realms of neighborhood life.

The Duke City Lumber Company has been a strong factor in the growth and progress of Lubbock; and Mr. Hudgeon's own efforts in many instances, have been the stimulant behind the outstanding accomplishments of this reliable wholesale lumber Co. The case is a fine example of a man weaving his own personal prominence into an executive's life, with lasting benefits to both organization and individual.

We take pleasure in expressing these few words of commendation to a man who is doing so much to promote the growth and progress of this entire district.

### ALLAN ROSEN

It is a privilege in this Lubbock review of progressive men and firms that have been such a great aid to the growth and development of this section of West Texas to place such a man as Allan Rosen of Recordland U S A, now located at 3819 on Avenue A, on an equal plane with all others in this rank. In the past, few men have exceeded him in contributing their time and energy to the onward progress of Lubbock and the surrounding country.

Mr. Rosen is generally recognized as one of the more conscientious business men in this district, and he retains that distinction in the admiration and respect of his wide circle of friends. Also his interest in, and the very valuable assistance he has rendered to the many projects of a civic nature, reflect the principles which he has always so successfully applied to

his business affairs. We congratulate Allan Rosen on his record, and sincerely hope that his career will be as useful, and completely successful in the years ahead as it has been in the past.

### HAZEL H. VANMETER

A city grows and prospers by reason of the public-spirited men and women who take an active interest in its development. Lubbock has its share of these progressive and civic-minded people, and one who is deserving of recognition is friendly, likeable, Hazel H. VanMeter of the Jack & Jill Nursery & Kindergarten.

Her business ability, coupled with a sense of obligation to the public, have been major factors in maintaining the Jack & Jill Nursery & Kindergarten in a position of leadership throughout this entire region. She not only in her business activities, but also in her attention to civic duty, assumed an active part in community affairs.

Mrs. VanMeter has always been ready and willing to contribute her time and energy to the promotion of any project promising to benefit the community as a whole. She has sacrificed personal interests to be of assistance to the city, and her efforts are deserving of commendation and support.

We congratulate Hazel VanMeter on her past achievements which, in our opinion, indicate a similar successful career in the years ahead.

### KEN AND JUDY ABRAHAM

Ken and Judy Abraham of the Unique Gift Shop and Intimate Apparel Shop, are two of those progressive type of citizens upon whom the community depends a great deal for leadership in business or other matters. They are also civic-minded and have, in the past and no doubt will continue in the future to give more of their time and energy for the welfare of others than themselves.

They are the kind of people who make friends, and friendships once formed by them are never broken by an unfriendly act on their part, and they spare no efforts in order that their services to the surrounding area shall be more dependable.

Mr. and Mrs. Abraham have never been known to inject themselves into a situation for the mere purpose of gaining publicity. However, they proceed in a calm and unostentatious manner, and accomplish their objectives with a quiet dignity. We do not hesitate to recommend Judy and Ken Abraham to our readers as excellent examples of the more progressive type of individuals who have aided in the growth and development of Lubbock and the surrounding country.

### S. E. HILL

In editing this review of progressive Lubbock business men, we have endeavored to select those citizens who, by the manner in which they have conducted themselves and their businesses, have earned for them positions of leadership in their various fields of activities. Such a man is S. E. Hill, manager of the Orkin Exterminating Company Incorporated, who is well known, and has a great many friends and satisfied customers throughout the South Plains area.

Mr. Hill's main interests have not been solely confined to his own business and private affairs, but have also included his contributions in one form or another, to those projects of a civic nature which come within the scope of his activities.

S. E. Hill is a man of wide experience, whose exploits in the business and commercial life of this section of West Texas merits more than a passing attention, and the writer is privileged to pay this brief tribute to a man who well deserves more credit than is accorded him here.

### City Garden Club

Mrs. Reid is 83 years old, still very active and alert. She and her late husband came to Becton with their family and settled on land here, a portion of which is now the Becton townsite. The farm joins it on the south boundary. She is one of the few remaining early settlers of this area.

Attending the dinner were Mr. and Mrs. James Reid, Mr. and Mrs. Ray Furgeson, the Gene Reids, Mr. and Mrs. J. W. Furgeson and family all of Becton. Mr. and Mrs. Andy Reid of Abernathy, Mrs. Paul Wolfe of Denver Colo., Mr. and Mrs. Bob Reid of Levelland, Dr. and Mrs. Wallace Hess and sons of Lubbock and a number of grandchildren and great grandchildren from other areas.
