"IN THE PALM OF THE PLAINS" VOL. 63, NO. 2 THURSDAY, NOVEMBER 24, 1983 [SERVING HALE, LUBBOCK COUNTIES] U.S.P.S. NO. 003-340

City To Receive \$85,000 In Community Development Block Grant Funds

The City of Abernathy will receive \$85,000 in community development block grant funds from the state, according to a recent announcement by Gov. Mark White. Abernathy is one of 12 small cities on the South Plains which will receive a portion of the \$1.8 million being made available in the grant. The \$85,000 Abernathy will receive will be used for water distribution and fire protection improvements, sewer taps, demolition and clearance, and code enforcement. The water lines to be replaced are located in the southeast

part of the town, the area from Pecos Avenue to First street, between I-27 and the Santa Fe Railroad track.

The old lines in this area will be replaced with new ones. "Most of the City's water and sewer lines are getting too old and eventually, all of them will need to be replaced with new ones," City Manager Rod Ellis said.

The southeast portion of town was selected for improvements first because these federal funds only apply to low income neighborhoods in the state which need repair.

Other area towns getting federal funds through these development grants are:

Crosbyton, \$105,000, street paving and drainage improvements.

Hale Center, \$120,000, water supply, storage and distribution improvements.

Petersburg, \$115,000, street paving; water and sewer facilities preparation.

Post, \$94,000, water and sewer distribution improvements.

Kress, \$122,000, water distribution and fire protection improve-

ments. Lockney, \$145,000, street paving and drainage improvement.

Wolfforth, \$150,000, water supply; water distribution; fire protection improvements; and expand sewage-treatment facilities.

Ralls, \$185,000, street improvements.

Some communities will be matching the federal money with funds raised locally. Abernathy will not have to raise any money locally for matching funds, but other towns, such as Hale Center will.

COTTON HARVEST IN FULL SWING last week and this week in the Abernathy area as farmers have had sunshine and pleasant weather to work in, for the most part, the past

two weeks. Pictured are Benney Turner and Mike Grimsley getting ready for a day of stripping on the Turner farm - 5 miles west of town. (Review Photo)

ON THE COUNTY LINE

BY KEITH TOOLEY

OUR COMPUTER BROKE DOWN Tuesday as we were trying to get this edition out. Therefore, you will notice a different type-style throughout the paper this week.

It is good to have a brother in the same business who will let you use his equipment on the shortest notice...part of this edition was typed at the newspaper in Slaton.

Hopefully, we will have the computer fixed by next week.

FARMERS WHO ARE THINKING about getting out of the cotton business and raising grapes should think about the big investment it takes to get a vineyard going.

We have seen an experimental plot near Shallowater, a good place to grow grapes because the water is so shallow there, and grapes need little water to survive.

Getting back to a big investment, it takes at least \$4,000 an acre to put a vineyard in. Farmers wanting just to experiment with a vineyard of 10 acres are looking at a \$40,000 investment.

We think farmers should be looking for alternative crops, hopefully one that will make them money. But in these parts, cotton is about the only plant tough enough to handle the unpredictability of the climate in this area, whether it be hot and dry, or cold and wet.

We know a few winos who would probably vote for the vineyards though.

THERE ARE THREE LADIES in town who would not think of patting themselves on the back for anything they do. Therefore, I would like to say that Diana Phillips, Betty Neve and Jane Murray deserve a big pat on the back for a tremendous job with the annual arts and crafts festival.

As usual, the festival Saturday was a great success due to the hard work by these three ladies in preparing for, organizing, then having the event this past Saturday.

These women and others have chosen to get involved in their community and make things happen to improve Abernathy and make it a good place to live.

Also Rhetta Riley deserves a big hand for helping to make the Octoberfest such a big success.

There are many others who get involved and make these and other events possible, but it takes the hard work and long hours of the person or persons responsible for organizing the project and seeing that it is carried out that makes it a success. Thanks ladies...you are appreciated.

AGAIN WE JOIN the merchants who have purchased space in this edition of the Review to wish everyone a good Thanksgiving holiday. We are indeed thankful to those who have kept us in business this year by taking out ads and subscriptions.

Most Abernathy folks we have talked to this year say that they are just thankful to still be in business this year.

There is plenty to be thankful for this year, even though times are hard. We can be thankful for our health, our community and just having the opportunity to live in this great country.

We will look forward to 1984 with hope and optimism that it will be a better year, if not a great year for Americans.

New Community Action Center Opens In Abernathy

It has been more than two years since the Neighborhood Center, which was located on Main Street east of Newton Radio and TV, was closed down due to a cutback in funding for federal programs.

Just recently, Caprock Community Action Association, Inc. of Crosbyton, opened a new communi-

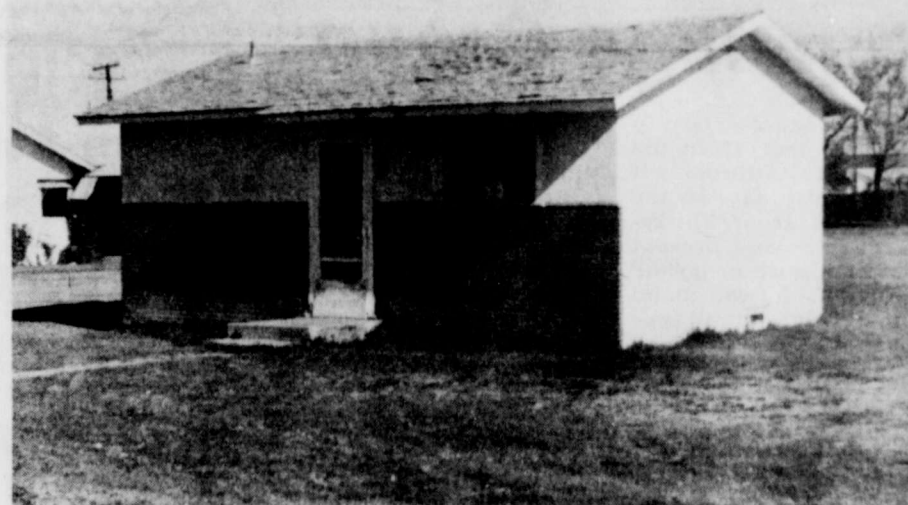

ty center in Abernathy at 1110 Ave. D, formerly Mrs. Totty's Beauty Shop.

At this new center, locals will be able to get assistance with federal programs. It will provide transportation for senior citizens to doctor appointments; be used as a food stamp office with all the

necessary forms; many programs will be offered, such as weatherization programs; emergency assistance in clothing; assistance in filling out state and federal forms; Medicaid; information on jobs and employment; surplus commodities; welfare programs; and counseling for any problems.

The director of the local community action center is Teresa Flores, a 1973 AHS graduate and presently residing at Rt. 2, Box 128, Abernathy. Office hours will be from 8 a.m. to 5 p.m. Monday through Friday.

Those who would like more information about the center or to know what services it has to offer, should call 298-2928 or come by the office at 1110 Ave. D.

COMMUNITY ACTION CENTER OPENS IN ABERNATHY...located at 1110 Ave. D, Abernathy has gone over two years without a center of

this nature and Community Action Association, Inc. of Crosbyton is responsible for this new center in Abernathy. (Review Photo)

Sales Tax Rebates Down For Abernathy, County

State Comptroller Bob Bullock Wednesday sent city sales tax rebate checks a full week early because many taxpayers paid by the 20th of last month—as all taxpayers will be required to do this month.

"We're sending these checks early because 134,000 Texas taxpayers paid before the deadline," Bullock said. "This kind of cooperation among taxpayers is helping us avoid new and higher taxes. It's obvious this change will help local governments put these tax revenues to work faster in their cities."

Starting in November, all taxpayers will be required to file by the 20th of the month instead of by the last day of the month.

The earlier deadline set by the Legislature will bring in \$500 million more for the current state budget without a tax increase.

City sales tax rebates are down for Hale County as well as Abernathy, according to reports from the comptroller's office.

Hale County is down 5.32 percent in the amount this county has received in tax rebates, compared to 1982 at this time.

Abernathy will receive a payment of

\$2,304 this period, down 6.83 percent from last year at this time, bringing the total rebated to Abernathy this year to \$42,111. Last year Abernathy had been rebated \$45,196 by early November.

Rebates were also down for Edmondson - 22.07 percent, Hale Center - 9.81 percent and Plainview - 5.23 percent. Petersburg was the only town in the county showing an increase in rebates over 1982. Petersburg will be rebated \$3,243 this period, up 5.07 percent, bringing that city's total 1983 payments to \$16,961.

Rebates to Lubbock County were up 2.64 percent, even though rebates to Idalou were down 10.89 percent, New Deal 15.87 percent and Wolfforth 2.96 percent. Lubbock was up 2.73 percent and Slaton .93 percent over 1982.

Other area counties, such as Swisher and Crosby, showed increases in rebates. Crosby County is up .40 percent and Swisher 3.13 percent in payments received. Floyd County is way down from last year with a decrease in rebates of 10.83 percent.

junior high office anytime there is a question regarding grades.

Junior High Report Cards Issued Wed.

Charles Floyd, Principal of Abernathy Junior High School, has announced that report cards will be given out to junior high students Wednesday afternoon, November 23.

Only one copy of the report will be sent home with students and this need not be returned. In the case of lost report cards, parents may request a duplicate copy from the Junior High Office.

Parents are invited to contact the

Business As Usual Friday

It will be business as usual Friday for some businesses and public offices.

The post office, bank, savings and loan and city hall will all be closed Thanksgiving Day, but will all be open Friday for regular business hours.

The school will be closed Thursday and Friday.

The Abernathy Weekly Review will be closed Wednesday through Sunday as the paper came out a day earlier this week.

Two Local Marines Kick-Off "Toys For Tots" Campaign

Two local marines, GySgt. Lisandro Olivares (an AHS graduate), and Sgt. James C. Warren, Jr., both residents of Abernathy, are trying to make Christmas bright for the less fortunate children of Abernathy by sponsoring the local "Toys For Tots" campaign.

The campaign started at 9 a.m. November 21 at City Hall with a brief ceremony in which Mayor Pete Thompson signed a proclamation designating November 21 through December 16 for the "Toys For Tots" campaign in Abernathy.

"We wanted to help our community and ensure that the less fortunate children have a merry Christmas," said GySgt. Olivares.

The Toys for Tots program is an annual toy collecting drive organized by marine reserves in more than 180 cities throughout the United States. For more than 36 years, the marine corps reserves have been collecting toys and distributing them to less fortunate children. With the help and donations of new unwrapped toys from the community, locals can show the true meaning of Christmas and lift the spirits of these children and their families.

"Last year we didn't have the Toys for Tots program in Abernathy," said Sgt. James C. Warren. "This year we wanted to show the community that we care."

The honorary national chairman of this year's campaign is Mr. William Shatner. Better known as "Captain Kirk" in the "Star Trek" TV series and movies, Mr. Shatner also stars in the TV series "T. J. Hooker."

Local businesses and organizations are donating space in their businesses as collection points for donated toys. They are: Gordon's Automotive, Struve's Department Store, Newton Radio and T.V., Pay-N-Save Grocery, Thrif-Tee Supermarket, Allsup's, Minit Mart, 924 Steakhouse, Vecchio's Burger Hut, Dairy Queen, Southwestern Public Service, Abernathy City Hall, Pinson's Pharmacy, Tuco Gin, Plains Grain, 66 Butane & Fertilizer, Joe Thompson Implement, Struve Implement, Abernathy Barber Shop, Billie's and the Abernathy Review.

Those who have toys to donate should go to one of these drop box locations.

Abernathy Firemen will also be taking donations for "Toys for Tots" as they are also helping to sponsor this campaign with the marines. Those having money to donate,

4-H County -Wide Wildlife Dinner Dec. 3

Attention all 4-H families! A county-wide wildlife dinner will be held at the Hale County Agricultural Center December 3 at 7:30 p.m.

Each family is asked to bring a wildlife meat dish and either a

vegetable, salad, dessert or bread. A Christmas recreation event will follow the dinner.

Those who have questions or need more information can call Jan Hamilton at 296-7953.

Postmaster Wants Your Response

Abernathy Postmaster Ken Moreland wants Abernathians to respond to a proposed time change at the Abernathy Post Office.

The postmaster is proposing that beginning January 3, the window service hours be changed from 8:30 a.m. to 5 p.m. to 8 a.m. to 4:30 p.m. The post office would open 30

minutes earlier and close 30 minutes earlier each day.

No other mail service would be affected by these changes.

Written comments should be sent to: Postmaster, Abernathy, Texas, 79311. Moreland stated that all comments would be appreciated.

rather than toys, should contact members of the Abernathy Fire Department, or go by the Fire Hall.

Less fortunate families who need toys should register for them at Gordon Automotive. These needy families have until December 10 to register. To register to receive toys, parents should bring the birth certificates of their children to Gordon's Automotive between 9 a.m. and 3 p.m. up to December 10.

The toys will be distributed December 22 at 9 a.m. at the Fire Hall.

Everyone is encouraged to participate in the "Toys for Tots" campaign by donating what toys they have available, or by giving a donation.

The following is the "Toys for Tots" proclamation signed by Mayor Pete Thompson earlier this week.

Community Service Award

WHEREAS, THE UNITED STATES MARINE CORPS has always been in the forefront in the defense of our country; and

THE UNITED STATES MARINE CORPS RESERVE stands ready to answer to the call of duty in defense of our country and serve the communities in which they reside; and

Kit Kveton To Join Staff At Hi-Plains Hospital

EDITOR'S NOTE: This article was taken from last week's edition of the Hale Center American.

There is no hesitancy on the part of Hi-Plains Hospital in announcing more information about the newest physician to enter practice at the

hospital next summer. The town of Hale Center clearly has outdone itself in negotiating to have Dr. Kit Kveton begin work here when she finishes Family Practice residency training at the end of June, 1984.

Kit is the oldest

offspring of John and Jean Kveton, who have a thriving farm east of Abernathy. Her given name is Kitten, a family name from the Slaton area. She has four tall

blond sisters, one tall blond brother, and a dozen other extended family members of various cultures. Dr. Kveton had a distinguished education at New Deal, with academic, athletic, and social hours in abundance. She graduated as Valedictorian in 1973, then earned a degree in Zoology from Texas Tech in 1977, graduating with high honors.

She attended Southwestern Medical School in Dallas, graduating in 1981. (Her future medical colleagues in Hale Center include two other physicians trained at Southwestern: Ray W. Freeman, who graduated in 1950, and Hugh H. Wilson, Jr., who graduated in 1969.) While Dr. Kveton was enrolled at Southwestern, she was active in the Family Physicians meeting in 1980.

During her years at Southwestern, Dr. Kveton worked as a preceptor with Dr. Glenn Payne of Slaton, and later with her future colleagues during her spring break in 1981. After completing nearly two years of her Family Practice training in the Texas Tech program at Amarillo, Dr. Kveton worked another week as an autonomous physician last spring when she was here during Hale Center Schools' spring break. She worked in Dr. Wilson's office suite, while all doctors except Dr. Freeman were away with families on trips.

The physicians who await her arrival have had nothing but exemplary reports about Dr. Kveton. She was the first woman resident to apply to and be

accepted by the Amarillo residency program, where she spent her first year with Dr. Patty Patterson of Hale Center as her roommate. (Dr. Patterson has shifted from Family Practice to Pediatrics training, and is now in Galveston again at the University of Texas Medical Branch.) Dr. Kveton was unanimously selected to serve as Chief Resident of her Family Practice program this year, so she is gaining valuable managerial skills along with her medical training. Twice, Dr. Kveton has represented her training program at the national conference of family practice residents in Kansas City, home of the American Academy of Family Physicians.

In mid-October of this year, Dr. Kveton was sent by her training program to the annual meeting of the American Academy of Family Physicians in Miami, Florida. Shortly after her return, she again left, this time to take intensive obstetric training at Darnall Army Hospital in Fort Hood, Texas, where she will work until the Christmas holidays. From all over the state of Texas, the medical staff and administrator have had people compliment Dr. Kveton for her skill and winsome personality. She has been sought by nearly every practice opportunity within 100 miles of Amarillo, yet has selected Hi-Plains Hospital because she knows the community and working environment will readily allow her to continue to expand her skills as a physician. It's a compliment to Hale Center that this talented physician has opted to begin her career here, and the American enjoys welcoming her to our community. Taken from The Hale Center American.

Sunshine Group

The Sunshine Group met November 17 in the Community Clubroom. It was a pretty day, so the crowd was larger. Thirty-five people were present to enjoy a good program. The group did the usual things, but didn't take much time, so Arno Struve could show some of his pictures taken on a recent trip to Europe.

Mr. and Mrs. Harlow Neis sent an invitation to their 60th Wedding Anniversary, which is December 11 from 2 to 4 p.m. at the City Hall. They are certainly lucky people.

Arno shared his pictures with the group. He started showing the pictures he made in Germany. It was a beautiful time of the year as there were beautiful flowers blooming everywhere. The Struve family came from Germany, or they thought so. Arno hunted the village that his family came from on the banks of the Rhine River, which is between Switzerland and Germany and found that his family came from Switzerland. That was in 1860, so I imagine over the years, in some way, the boundary line has been changed. Arno showed pictures of the Von Struve Crest awarded there. There was a picture of an old rock water trough that had been left and flowers were planted in it. It made a beautiful picture. There were pictures of turkeys, and different subjects and structures which were very interesting. The pictures went on into Egypt but the Thanksgiving dinner was waiting, so Arno was asked to return at another time.

I borrowed this poem from my friend, Billie Ankenman. I think it is cute.

My face in the mirror isn't wrinkled or down,
My house isn't dusty
My garden looks lonely and so does my lawn
I think I might never
Put my glasses back on.

This is one way to look, or not look, a problem in the face.

Those present were: Juanita Brantley, Elizabeth Harrison, Faye Ann Nelson, Wayland Nelson, Mrs. J. L. Ellison, Oma Toler, Callie Nunn, Loayl and Vida Judkins, Ona

"Autumn and Thanksgiving"

The time of the year that listens to the echoes of the happiness of summer and girds itself for the coming chill of winter is known as autumn. Perhaps no season of the year does as much to the emotions of men as does autumn. And when autumn comes, we know that Thanksgiving is not far away. A time of giving thanks for our country, our family, our homes, our town, and most of all our friends.

Autumn is a season of leaves, when nature dots each leaf with a different color and blends it into a beautiful painting that no artist can capture. It is a season of stacks and piles of leaves.

Autumn is a season of trees, when they like Joseph of old, put on their coats of many colors and thrill the hearts of each observer.

Autumn is a season of crisp air, when God's air-conditioning is turned on in full blast, causing a spring in the step and a sharpness in the air such as no other season can cause. Autumn is a season of melancholy, when mothers who had dreaded summer and the bother of the children find themselves missing Johnny and Susie in the loneliness of a quiet living room after school has snatched them away.

Autumn and Thanksgiving are a time of memories - memories of a wonderful summer, the best vacation, special trips, happy meals in roadside restaurants, picnics, ants, flies, car trips, shower baths, playgrounds, feeding the chipmunks in the mountains and catching the biggest fish ever.

Autumn is a season of the sound of footballs and the encouragement of cheerleaders. It is a time when every team is undefeated and has dreams of the championship. Thanksgiving, sitting down in front of the television, after a bountiful meal prepared by loving hands, to watch your favorite teams in their annual game - one will be a winner, the other a loser. Will the outcome of the game be what you had expected?

Thanksgiving is a time of reunion with family and friends. Forgotten are the differences of the past year. Our friendship suddenly is dearer and sweeter than before. This thanksgiving should be a time of dedication. The turning of the grass, the dropping of the flower seeds, the dying of the leaves, the fading of the summer all remind us of the "Corn of Wheat" that fell in the ground two thousand years ago at Calvary. It reminds us that One had to die that we might live. Give thanks for your every blessing.

If you're separating eggs, do it when they are cold for better results.

CUTTING THE CAKE at her 85th birthday party was Eunice O'Neill Friday, November 11 in the home of her son, Charles O'Neill. (Review Photo)

This & That

by Helen Wade

Rev. Murray Brewer will be preaching both sermons Sunday, November 27 at the First Church of the Nazarene.

Willie Ethel Myatt of Levelland, and Mrs. Pauline Durrett of Abernathy, were guests in the home of Mr. and Mrs. M. M. Bell last week.

It is that time of the year again to wish each of you a happy Thanksgiving. Thanksgiving is a time of being thankful for the blessings of the past year.

To me, it is also a time of reflection to look back at past Thanksgivings and remember the good ole days of my childhood. We always had a baked hen and lots of goodies mother would fix up for us. There was a big bunch of us with my brother and all my sisters and their families.

As we are gathered around the table with our families, let us remember the One that made all this possible. No matter what misfortunes we may have had this year, there is still lots to be thankful for.

The first issue of the famous Army newspaper, "Stars and Stripes," was published on February 8, 1918.

Curtis-Reeves Vows Exchanged Nov. 12

Lora Curtis and Michael Reeves were married Saturday, November 12 in Las Vegas, Nevada.

Lora is the daughter of Mr. and Mrs. Raymond Curtis of Lubbock. Reeves is

the son of Mrs. Dorothy Harris of Brownwood and Michael is the grandson of Mr. and Mrs. Harold Davis of Abernathy.

Brenda Taylor of Lubbock was maid of honor and

David Thomas of Abernathy served as best man.

Lora graduated from Monterey High School in Lubbock in 1971 and is employed at Tiny Tot Nursery in Lubbock.

Michael is a 1975 graduate of AHS and is employed at Heath Trucking in Lubbock.

The couple resides at 2510 38th in Lubbock.

Eunice O'Neill Celebrates 85th

Mrs. Eunice O'Neill celebrated her 85th birthday Friday, November 11, in the home of her son, Charles O'Neill and family.

Other family members present to help in the celebration of her birthday were: her two daughters, Mrs. James (Martha) Oswald and Mrs. Hays (Freda) Taylor. Grandchildren present were: Jimmy Oswald, Tammie Taylor, Mary and Sara O'Neill, Talton Taylor, wife and sons, Dustin and Eric. The celebration was

comprised of four generations.

A birthday cake, baked and decorated by her daughter-in-law, Velma O'Neill, was served with fruit punch and coffee.

Two grandchildren unable to attend were Robert Oswald of Lubbock, and Susan Vander Zanden and her daughter Renea of California.

Ryn Dunn, photographer, was present and took a number of family portraits of the occasion.

Arts And Crafts Festival Big Success

The holiday season was ushered in with the 4th Annual Abernathy Arts and Crafts Festival. Visitors were treated to a fun-filled day of entertainment provided by Abernathy locals, a variety of home-cooked foods and an array of beautiful arts and crafts from which to choose for their Christ-

mas giving.

Little guests were enchanted by Santa's visit to this year's festival.

The Abernathy Young Homemakers and Jan Montgomery's CVAE girls won the \$20 prize for the best decorated booth.

Anxiety mounted throughout the day as the winner of the drawing for

Mr. & Mrs. Michael Reeves

Gift Coffee To Honor Lora Reeves

Mrs. Lora Reeves, bride of Mike Reeves, will be honored at an informal Gift Coffee Saturday, November 26 from 10 to

11:30 a.m. in the home of Billie Ann Thomas. Other hostesses are Maureen Allen and Diann Reeves.

the quilt was announced. Judy Guerrant of Abernathy, was the winner of this year's beautiful quilt. Participants are looking forward and making plans for next year's festival. Many out-of-town guests commented on how they enjoyed coming to the Abernathy Festival and the tremendous way in which the festival helps promote the City of Abernathy. The

Arts and Crafts Festival, Fourth of July celebration, Womanless Wedding, Octoberfest, and all other community-wide events can only be successful as the people supporting them. It is through community-wide involvement of those willing to give unselfishly of their time and talents that we continue to promote Abernathy as a "Good Place To Live!"

JUDY GUERRANT was the proud winner of the quilt raffled at the Abernathy Arts and Crafts Festival this past Saturday. She is pictured with the quilt following the festival. (Review Photo)

Music Club Enjoys Songs Of The 30's

The Abernathy Music Club met Tuesday, November 15 at the Community Clubroom. Fourteen members were present.

President, Marie Riddell opened the meeting and then turned it over to the program committee. The program committee members are Cindy Robinson, Bettie Hardin, Fern Schaap and Erma Mae Spruiell.

"Songs of the 30's" was the theme for the program. Bettie dressed as a young man and sang "You Think You Are So Cute" to Fern Schaap, who was dressed as a young floozy. Alma Ruth and Fern sang, "Drifting Along With The Tumbling Tumbleweeds." Erma Mae sprinkled tumbleweeds all over the floor.

The group sang, "Back in the Saddle Again," while Marie, Terry, Cindy, Fern, Erma Mae and Ruth rode stick horses. Frances Barrick gave a short history of the 30's.

The group also sang "Smoke Gets In Your

Eyes" and several other songs of the 30's.

They closed with "Let Me Call You Sweetheart."

A most enjoyable evening was had by all and refreshments were served by Erma Mae and Alma Ruth.

Those To Remember

Frona Shadden is in Methodist Hospital.

Bruce Mason is in Lubbock General Hospital.

John Torres is in Lubbock General Hospital. He had surgery last week.

Guests at United Methodist Church on Sunday, November 13, were Lonnie, Debbie and Allison Hobbs, Odessa; Mrs. Myrtle Bench, Greenville; Donna Brauchi and Brian, Pampa; Meredith Ellis, Barbi Watson, Abernathy.

ATTEND THE CHURCH OF YOUR CHOICE

"Growing in the Grace of God"

Lloyd Riddles, Pastor First Baptist Church

I read an article "Growing in the Grace of Thanksgiving," and it suggested the title for this Thanksgiving message. The title is "Growing in the Grace of Giving," and I believe these two are linked together, because the best way to express thanksgiving is by giving.

Our growth in the grace of giving encompasses many things. It concerns not only physical gifts but also time,

talents and love. Through our physical gifts, we are able to help those in need. Through the gifts of time, we make ourselves available to the Lord, so he may use us to help others, as well as in other ways of service. Through our talents, yielded to God and working together, we, as churches and as a community, function as we should, ministering to people and being the examples that we are meant to

be. Through our love, we reach out to all people, and by our actions, we assure them that God cares, and we care.

In II Corinthians 8:5, Paul noted that the initial step of the Macedonian churches in their generous giving was that they gave themselves first to the Lord. So it should be with us, as we observe Thanksgiving, that we also consider the grace of giving.

Conservation Tillage Stretches Rainfall

Doing a better job of conserving rainfall may help farmers cope with dry conditions such as those that have plagued Texas and other states this year. One way to "stretch" rainfall is through conservation tillage, suggests Dr. Ed Colburn, agronomist with

the Texas Agricultural Extension Service, Texas A&M University System. "Conservation tillage systems often produce higher yields per inch of available water," notes Colburn, "thus making the best use of this valuable resource." Conservation tillage generally refers to tillage operations that reduce water evaporation losses and increase water infiltration into the soil.

"Conservation tillage helps improve soil moisture conditions by increasing water infiltration and slowing evaporation," points out

Colburn. "Heavy crop residues help reduce runoff and erosion. Chiseling or subsoiling deepens the root zone and leaves the soil surface in a rough state to store more water."

A deeper root zone generally increases the soil water storage as a result of deep chiseling and improved soil organic matter levels, says the agronomist. This may give an extra inch or two of stored moisture that can help carry the crop through low rainfall periods.

"Although conservation tillage practices won't give overnight results, they can improve soil conditions and can start paying dividends in several years," says Colburn.

Sorghum Check Off Board Installs New Directors

In its regular bi-monthly meeting in Amarillo on November 9, Texas Grain Sorghum Producers Board installed four new directors.

They will serve six-year terms on the board which administers the programs of the sorghum check off established in the Texas

High Plains by a referendum of sorghum producers in 1969. Directors are elected by the producers who are affected by the sorghum check off.

New directors are: George Reeves of Dalhart, Jack Cobb of Plains, Delbert Watson of Muleshoe and Weldon Shelton of Lamesa.

Following the installation of new directors, the board elected officers. Albert Scheele of Lockney is the board's new chairman. Scheele previously served as vice chairman. The new vice chairman is Jim Dowdy of Dumas. Dennis Anthony of Friona was elected secretary-treasurer. These officers were elected to two year terms. Other members of the twelve-man board are: Jack Crowl of Morse, Bob Gillispie of Gruver, Loyall Turner of Spearman, Ralph Mabry of Lubbock and K. B. Parish of Springlake.

Texas Grain Sorghum Producers Board (TGSPB) conducts and directs grain sorghum promotion through market development, research and education. Its greatest efforts are directed toward establishing and improving markets for Texas sorghum. The work is

financed by a refundable assessment of five cents per ton of sorghum deducted at the time of first sale.

Commodity checkoff programs are vital to establishing and maintaining world markets for U.S. feed grains. They provide funding for U.S. Feed Grains Council, a non-profit corporation which expands export markets for U.S. feed grains through a network of fourteen offices with programs in 50 countries of Latin America, Europe, the Middle East, Africa and Asia.

Council activities promote the sale of and demand for U.S. feed grains through technical information and assistance programs. Farmers in the United States depend upon the Council to promote the sale of corn and grain sorghum in world markets. This work is financed jointly by producers and agri-business with two-thirds of the funding from producer checkoff programs.

There are statewide sorghum checkoff programs in Kansas and Nebraska. Corn producers have established statewide check offs in Kansas, Nebraska, Iowa, Illinois, Wisconsin, Virginia and North Carolina.

John Deere Introduces New Stripper

Joe Thompson Implement Co., John Deere dealer in Abernathy, has just returned from a special announcement meeting in Lubbock, where a big new cotton stripper was introduced. It's the John Deere 740, a one-of-a-kind 4- or 5-row tractor-mounted stripper.

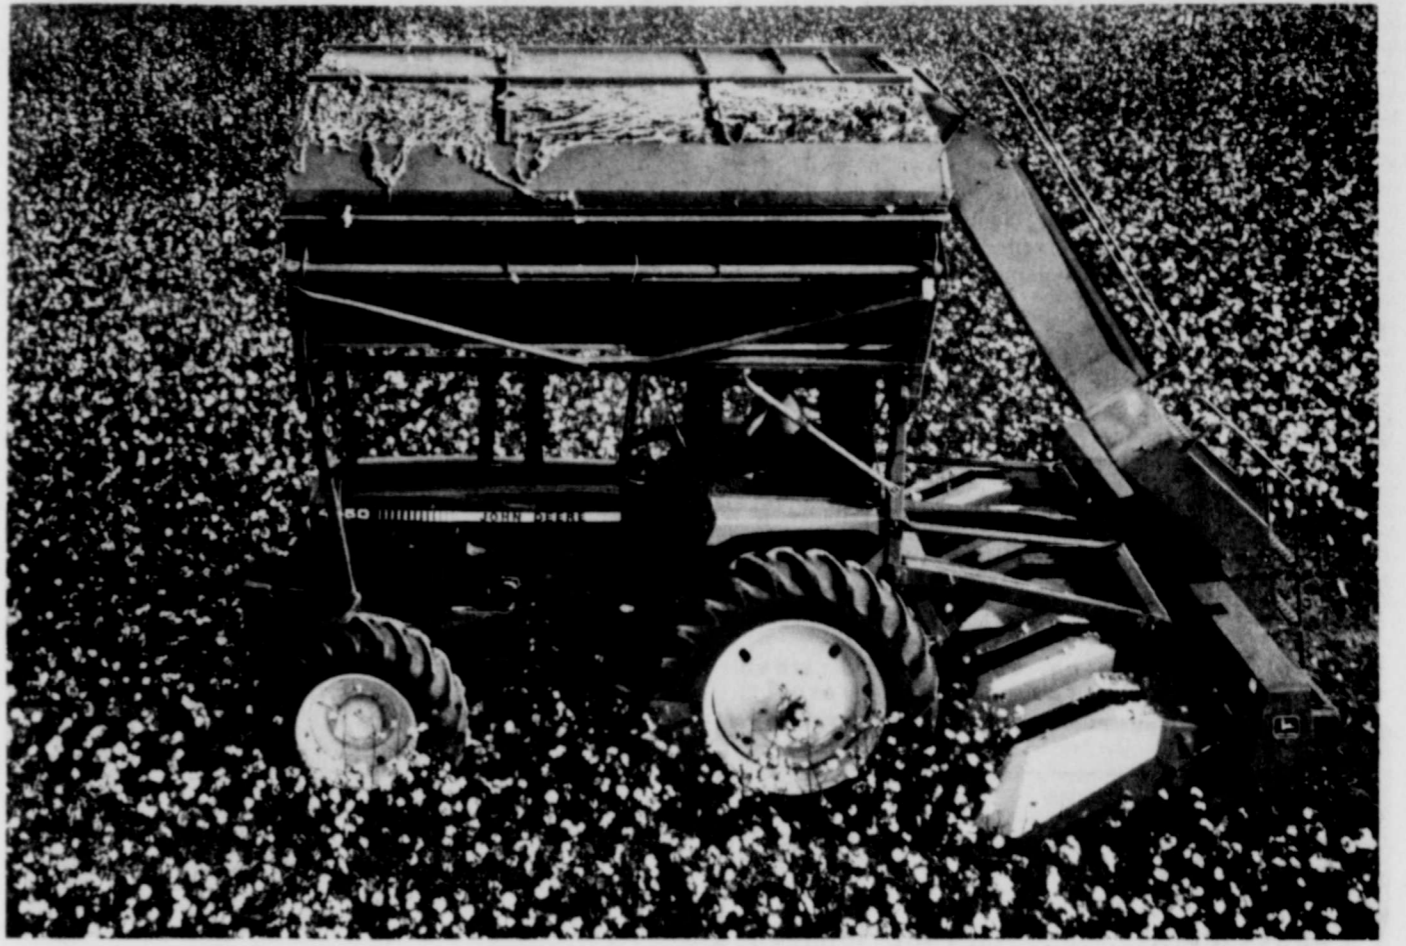

This new stripper is designed to be teamed with a high-horsepower tractor, and is said to reduce

harvesting cost by as much as 51 per cent. In a comparison test across 1500 acres, John Deere engineers reportedly found that a new 4-row 740 mounted on a 4450 tractor with front-wheel drive costs only \$14 per acre. They figured it costs about \$30 per acre to harvest with two tractor-mounted 2-rows (tractors without front-wheel drive). To keep this cost-cutting

harvester on the row longer, it comes with the largest basket in the industry for a tractor-mounted stripper—706 cubic feet. And an optional basket compactor and dump control makes it easier to fill and unload. The 740 comes with a 4-row header that's adjustable for 36- to 40-inch rows. This head can be equipped with an exclusive short or long modular cross-auger exten-

sion to let the 740 strip on five 40-inch rows and most popular skip-row patterns. The 740 utilizes the same exclusive low-profile units as the John Deere 7440 self-propelled stripper.

The highest tides in the world are found in the Bay of Fundy, which separates New Brunswick from Nova Scotia, in Canada.

HERE'S THE ONE-OF-A-KIND tractor-mounted stripper. The new 4- or 5-row John Deere 740, introduced at a special announcement meeting in Lubbock, Texas. With a new 740 teamed with your high-horsepower tractor you can reduce harvesting cost by up to 51%.

Farm-City Week 18-24

Farm-City Week, Nov. 18-24, focuses on the teamwork of farm and city people as partners in growing, processing, marketing

and consuming food and fiber.

"In Texas, movement of food and fiber from the farm or ranch to the supermarket and family table provides jobs and income for about a fourth of the working force," points out Dr. Carl Anderson, marketing economist with the Texas Agricultural Extension Service, Texas A&M University System.

"One out of every 35 Texans is a farmer or rancher, and about 35 percent of the state's retail trade business is directly associated with agricultural production and selling of food and fiber products," says Anderson.

Many businesses, financial institutions and individuals are involved in providing supplies, credit and services to farmers and ranchers and in processing and marketing agricultural commodities.

Texas ranks in third place in total cash receipts among the leading agricultural states, behind California and Iowa. Texas, however, is traditionally number one in the sales of cattle and calves, cotton, grain sorghum, sheep and wool, goats and mohair, cabbage and spinach.

You can speed up the time it takes to bake potatoes if you boil them in salted water for about ten minutes, cut off their ends, insert a nail and put them into a very hot oven.

Better Cool-Season Grasses Will Boost Livestock Production

Better cool-season grasses are essential to increased livestock productivity in Texas and constitute an important part of forage research now underway, according to Dr. Erhan Holt at Texas A&M University.

"The State's livestock industry, which usually produces more than half of our total

agricultural income, was founded on the vast array of grasses and other forages available on our rangelands," said Professor Holt, who is forage research project leader for the Texas Agricultural Experiment Station.

"We are developing grasses that are harder, more palatable, more nutritious, more

productive, with built-in disease and insect resistance. Some of our scientists are even seeking to develop the nitrogen-fixing ability, presently found primarily in legumes," Holt said.

"The perennial grass pasture still serves as the base for livestock production in Texas, as it has for hundreds of years.

Smyers Airman Of The Year

Jody Smyers, son of Billy and Jacquelyn Smyers, was named Airman of the Year by the 2054th Communications Squadron at Sheppard Air Force Base, Wichita Falls, Smyers is an air traffic controller at Sheppard. His father is an air traffic controller at Lubbock International Airport.

In a letter informing Jody's parents of this honor, his commander, Major Robert H. Woolley, wrote that competition among the airmen for honors and awards such as this is extremely keen. Jody's

nomination and subsequent selection indicate superior overall job knowledge, performance, and compliance with standards.

Jody graduated from Abernathy High School in 1980, was president of the student council his senior

year, and a member of the Antelope Band. He joined the Air Force under the delayed enlistment program in February his senior year, was stationed at Lackland AFB, San Antonio, and Keesler AFB, Biloxi, Mississippi.

PLAN FOR HOLIDAY SPENDING NEXT YEAR--
The best time to plan for next year's holiday spending is right now. According to a Texas A&M University Agricultural Extension Ser-

vice home economist, advance planning allows consumers to take advantage of the after-Christmas sales and other sales throughout the year to purchase gifts. Consumers can also set up a

special savings account to save for next year's holidays, but should avoid special holiday accounts unless they pay the same rate of interest as other savings plans.

NUCLEAR WAR IS the ultimate environmental disaster, says the National Wildlife Federation. A major nuclear exchange would trigger firestorms that could plunge Earth into two or three months of darkness, causing temperatures to drop 36 degrees Fahrenheit, stopping photosynthesis, thereby destroying much vegetation, including the delicate ocean food chain that begins with phytoplankton. The impact on the biosphere could lead to the ultimate extinction of human species.

Hale County Ranked 80th For Petroleum Production

THE SALE OF CRUDE OIL AND NATURAL GAS from Hale County wells made an important contribution to the county's economy in 1982 and accounted for \$143.4-million of the \$41.1-billion wellhead value of Texas petroleum production last year.

In its annual survey of the economic impact of oil and gas industry operations in the significant producing

counties of Texas, Texas Mid-Continent Oil & Gas Association reported that the county ranked 80th among Texas' 254 counties on the basis of value of its marketed petroleum production. Such production includes condensate and casinghead gas.

The county's well produced 4.5-million barrels of crude oil, valued at \$142-million, and 683-million cu-

bic feet of natural gas, valued at \$1.4-million. Owners of royalty in the county received \$17.9-million as their share of the output, the Association noted.

"The figures cited in this survey offer graphic evidence of the continuing importance of petroleum production to nearly every county in Texas, a situation which should continue indefinitely," said the Associ-

ation's chairman, Joe C. Walter, Jr., Houston independent producer.

"There are a number of encouraging signs indicating that the oil and gas industry's protracted slowdown in activity is coming to an end. A general economic recovery in the United States and other industrialized countries will increase the demand for petroleum products, thereby stimulating geophysical and drilling activity here and abroad. The domestic petroleum industry stands ready to drill more wells as drilling projects become feasible," Walter said.

In addition to paying property taxes to cities, counties, and school districts, producers in the county supported state government through production tax payments estimated at \$6.6-million, according to the Association survey. Crude oil taxes amounted to \$6.5-million, while natural gas levies totaled \$106,960. Based on Texas Employment Commission figures, some 34 oil and gas industry employees in the county received wages of \$348,884 in 1982.

In the search for new petroleum reserves in the county, oil and gas producers spent a reported \$2.7-million in the drilling of seven wells, including one wildcat, or exploratory, well. This effort resulted in the completion of five oil wells, although some \$920,412 was lost in the drilling of two dry holes. As of April 1, 1983, there were 218 producing oil wells in the county.

BUDGET FOR HOLIDAY SPENDING—Many families do not recall every making a conscious decision on how much money to spend for Christmas gifts and other holiday items, says home economist Nancy Granovsky. Christmas spending can have a snowballing

Carver First Place Winner In Hale County 4-H Food Show

Eight youth took top honors in the Hale County 4-H Food Show Saturday, November 12.

Winners earned first-place awards in two divisions, senior and junior, which each included four classes.

First-place winners in the senior division are Jim Bob Carver of Abernathy 4-H, main dish; Marie Hopper of Halfway 4-H, fruit & vegetable; Rosemary Shepard of Hale Center 4-H, bread & cereal; and Mandy Igo of Halfway 4-H, snacks & desserts.

First-place winners in the junior division are Brent

Hamilton of Plainview 4-H, main dish; Leslie Ann Ballard of Hale Center 4-H, Fruit & vegetable; Patti Shepard of Hale Center 4-H, bread & cereal; and Melissa Sherrod of Hale Center 4-H, snacks & dessert.

Also competing in the junior divisions were: main dish - Shane Miller, Jennifer Ramsey and James Teague. Fruit & vegetable - Dallas Goodman, Cindy Hall, Lisa Luna, Shay Miller, Gayle Motley, Nikki Reed, Tawnya Riney and Heather Zschiesche. Bread and cereal - Susan Burleson, Lisa Goodman, Terry

Norwood and Stacie Tippett. Snack and dessert - Rob Hamilton, Amy Harrell, Mandy Kelley, Clint Norwood, Tami Reese, Aimee Schwartz and Beth Windham.

Also competing in the senior divisions were: main dish - Christi Harrell and Jennifer Harrell. Fruit & vegetable - Cammy Campbell, Carla Bontke, Rodney Ebeling, John Hamilton and DeShawna Lee. Bread and cereal - Christy Barton and Carol Kerns. Snack and dessert - Donna Cummings, Lisa Bye, Robert Igo, Cindy Stair and Donna Stout. Mitzzi Zschiesche, David

Carver and Emily Parks all took part as Pee Wees in the 4-H Food Show.

Special thanks were given to all the Food and Nutrition Adult Leaders, teen and junior leaders for all their time and hard work with the food groups.

Serving as hosts for this year's show was the Halfway 4-H club under the direction of Mrs. Donald Ebeling, club organizational leader and Christi Harrell, club president. Also serving on the food show committee were Halfway 4-H Food and Nutrition Leaders, Mrs. Henry Hooper, Mrs. Lynn Barton, and Mrs. Ray Lee.

The 4-H Food Show is sponsored by the Texas Agricultural Extension Service, Hale County Extension Homemakers and The Morrison Milling Company.

BBB Warns Of Fraudulent Tax Shelters

The South Plains Better Business Bureau and the Lubbock Office of the Texas Securities Commission today released their Investor Alert for November which focuses on questionable and fraudulent tax shelters.

Local enforcement officer of the Securities Commission, Kenneth Hooper stated that, "The last quarter of the year is the time people are searching for tax shelters. Our office is getting complaints about tax write-off plans that promise four to eight times one's investment in tax savings in the first year. Some of these are outright frauds, which will be disallowed as tax deductions if the investors are audited by the Internal Revenue Service. If investors choose tax shelters that are disallowed, it will cost them four ways: They can (1) lose expected tax deductions, (2) have to pay IRS

interest and penalties, (3) lose their cash investment, and (4) be liable to make payments on loans that were part of the scheme.

Typically promoters of fraudulent tax shelters advertise in local and national newspapers or send ads through the mail. They may hold seminars or use high pressure telephone sales techniques that stress the great tax advantages of their plans. Hardly ever mentioned is the likelihood of making any money from the investment itself."

BBB President Alan Bligh said, "We would strongly caution anyone trying to save on taxes through investments in tax shelters to look first at the underlying economics of the offer. If it does not seem likely that one could make money -- regardless of the tax write-off possibilities -- this

should be a warning sign to avoid the deal. If the underlying economics of the deal are unsound, the investor cannot profit solely from tax losses; you cannot make money by losing money."

The November Alert details the problems attendant to investing in these questionable ventures and sets out questions potential investors should ask before signing up in tax shelter plans.

The INVESTOR ALERT program, launched in January 1983, is an attempt by business and government to warn citizens of the United States, Puerto Rico, Canada and Mexico of questionable investments that are currently widespread.

investors should ask before signing up in tax shelter plans.

The INVESTOR ALERT program, launched in January 1983, is an attempt by business and government to warn citizens of the United States, Puerto Rico, Canada and Mexico of questionable investments that are currently widespread.

841 Traffic Accidents In Hale County Last Year

Last year 139 persons were killed in the 17-county Lubbock area, according to Ben Alley, District Engineer, State Department of Highways and Public Transportation, of Lubbock.

"Alcohol and speeding continue to be our greatest problems," said Alley. "Here in the Lubbock district, which includes 17 counties surrounding Lubbock, we had 12,071 traffic accidents."

There were 841 recorded traffic accidents in Hale County alone, 8 of which were fatal.

The number of accidents and fatalities in this area is cited as the reason the State Department of Highways and Public Transportation (DHT) will be working more closely with local traffic officials, police departments, and the schools.

To help combat the DWI problem, DHT has provided

funding for increased enforcement programs, intoxilyzer instruments which measure alcoholic level content of drivers, rehabilitation programs, and workshops for prosecutors, judges, and probation officers. The city of Lubbock is scheduled to receive a \$62,389 grant from the department soon for a DWI traffic enforcement project. These funds will be used to pay the salaries for personnel at 20 specific locations in Lubbock where a DWI problem exists.

"We also firmly believe in education as a way to relieve future problems," Alley said. The department recently previewed a new alcohol education kit, called "NO Power," which will be made available to schools over the state free of charge, while quantities last. The kit is now being made available to junior

high schools in the District Five area. "NO, Power" is designed to help young students resist the peer pressure to drink and to educate them on the dangers of drinking/driving combination.

The department will also be supporting programs to increase the use of safety belts and child safety seats. Workshops and loan programs will be generated throughout the state, according to Alley, with spec-

ial emphasis on making child safety seats accessible to those who might have difficulty in purchasing them for themselves.

"We have the tools to reduce our traffic problems and save lives. If people would obey the speed laws, wear safety belts and eliminate drunk driving, our fatalities would drop by at least 80%," said Alley. "We build our highways with every safety precaution...Our motorists need to drive with that same kind of precaution."

Highway Dept. To Improve 27.8 Miles Of Hale Roads

The State Highway and Public Transportation Commission authorized construction of 194 miles of new farm to market roads today. The action allows the Highway Department's Districts to move forward with details concerning design and right of way acquisition for their respective farm to market road programs for the 1983-84 period.

Actual construction of the proposed roadways must await the accrual of necessary right of way which is the responsibility of local officials in the 64 counties where the 68 new projects have been authorized. That process often takes several years or more. Most of the projects involve upgrading existing county roads which have rapidly increasing traffic volumes.

In the Lubbock Highway District, a total of 27.8 miles of new roadways have been authorized. The project for Hale County will be from FM 400, 2.0 mi. North of FM 1914, East to the junction of FM 789 and FM 2883. The type of improvements will include grading, structures and surfacing and the total cost of this project will be \$539,000.

The money for the new construction comes from the State's General Fund and the \$50,250,500 is roughly the same budget as for previous years. A decrease in inflation in the last three years has allowed the Highway Department to get more miles of work with its budget. During the highly inflationary 1979-1980 budget period the Department authorized only about 60 miles of new farm to market construction per year. The current commission action allowing 97 miles per year is made possible by that decrease.

The increase in total miles of farm to market highway construction repre-

sents a small bright spot in an otherwise austere budget period for the Highway Department.

The increase is characterized by department officials as "catch-up" construction from the lean inflationary years. This increase is not nearly keeping up with the traffic volumes generated by rapidly developing Texas communities. At its monthly public hearing earlier today, the Commission listened to requests for highway projects by several Texas cities and restated its inability to accommodate traffic needs

with the current State funding level.

Earlier this month, Mark Goode, Engineer-Director for the State Department of Highways and Public Transportation, announced several new measures to cope with the dwindling highway budget. Goode's department has been authorized by Governor White to "borrow" up to \$22.9 billion in federal funds from FY 1984 allocations. Goode has also cut maintenance services by five percent and is freezing purchase of new equipment.

Highway Dept. Says "Thanksgiving Traffic Means More Collisions"

Thanksgiving often means traditional family reunions. Major V.J. Cawthon, Regional Commander of the Texas Department of Public Safety said today, "Holiday weekends also often mean more collisions, injuries and traffic deaths because more people travel, and more traffic means more exposure to accidents."

Last year during the Thanksgiving holiday weekend, Texas recorded 40 traffic fatalities. Major Cawthon said, "Some people tend to drink more during the holidays and then attempt to drive. By doing this, they show a low regard for the well being of themselves, their passen-

gers and other motorists." He said, "Drunk driving is one of the most dangerous risk factors facing the motorist."

He added, "Fatal accidents increase during night time hours, and darkness is coming earlier this time of year." He advised motorist to turn on their headlights and not parking lights at the first sign of dusk.

Cawthon concluded, "Heavy traffic calls for more caution and less speed, but those motorist who are extra careful, obey traffic laws and avoid use of alcohol can have a safe and pleasant Thanksgiving."

Let Us Give THANKS

BOBBY CUNNINGHAM

Wreck Put Trucker In Saddle Of New Career

EDITOR'S NOTE: Mr. R. E. Myers is a 1946 graduate of New Deal High School. His father, the late R. E. Myers, Sr. was on the New Deal school board and farmed east of New Deal. His mother, Lucille Myers, presently resides in Plainview, as well as his sister, Mrs. Virgil Phillips. Another sister, Lucy Riggs, is a former resident of Abernathy. Junia Speers is the aunt of Mrs. R. E. Myers, who is presently employed with Plains Grain Co. of Abernathy.

The truck ahead stopped. The one behind didn't. R.E. Myers, who was flipping a connecting chain, was pinned between two loaded semis weighing about 140,000 pounds each. "The Good Lord was riding my shoulders that day, or I wouldn't be here today," says the Lubbock saddlemaker of the accident which could have been fatal. Instead, it pointed him to a happier way of life.

For two years "in and out of the hospital" he tried to get back into the heavy-machinery business in Arizona where he was building roads in hills for housing developments.

But a damaged back and hips just couldn't take the vibration of heavy machinery.

"The last time I was in the hospital, they made aptitude tests. I came out average in everything. They had workshops - leather, pottery and stuff - and I decided I wanted to mess around with leather."

That choice is sensible for a man "born and raised east of New Deal" with horses a part of everyday work and weekend fun.

The problem was training for another profession. There are only two schools for saddle making - in Pennsylvania and in Washington state.

The answer was in a one-man saddle shop in Arizona where the saddle

maker agreed to take on an apprentice.

"He was a young fellow but he was good."

In a one-man operation, like the one he now runs south of Lubbock, he learned his leather trade in five years.

Ready to go out on his own, he returned to the South Plains, not because it was home, but because at that time no one in Lubbock was operating a saddle shop.

An outside job at night kept him going the three years it took for the shop to start breaking even.

"You've got to establish a reputation; you can't buy it. You've got to treat people right and turn out quality stuff. People who order custom saddles can go out and buy factory saddles all day long. They know what they want different."

"Word of mouth is the best advertisement you can have. I work all around Lubbock now. I've been here five years."

On the average, Myers said, a man buys a saddle every 15 to 20 years. Reasonable care - "oil and keeping repairs up" - can extend that, sometimes double the average time.

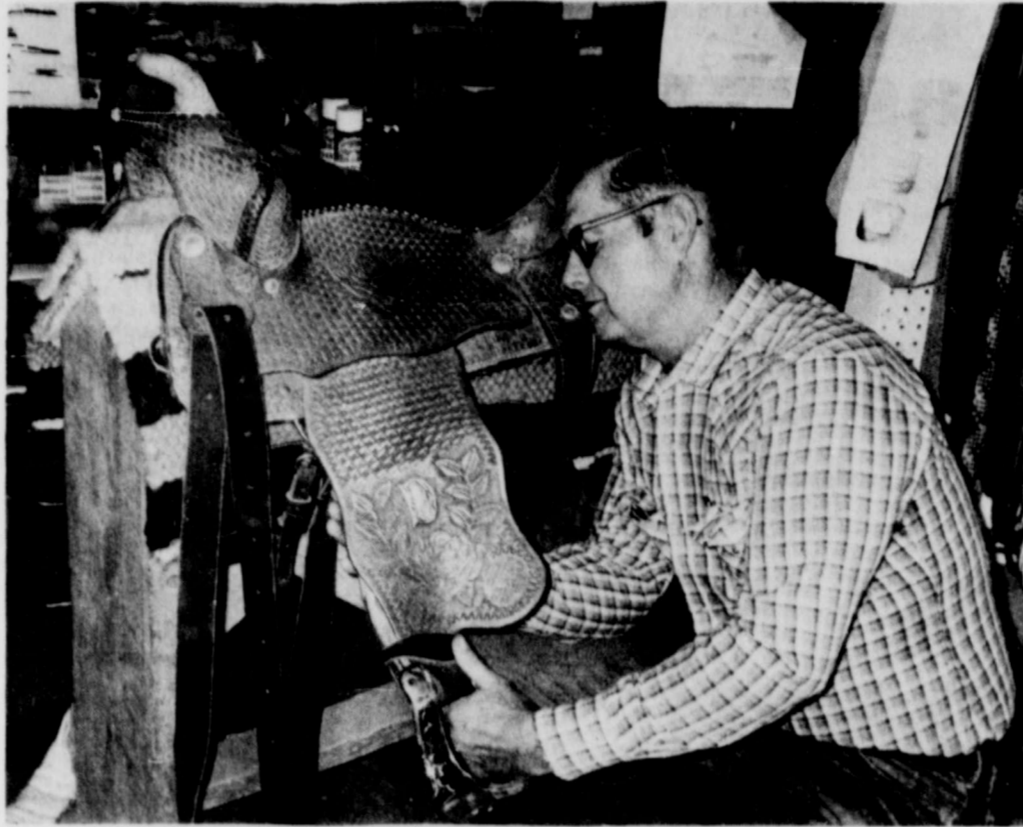

That time span keeps a saddlemaker busy. He makes a living just making new saddles. So he repairs a lot of saddles and boots in addition to making reins, headstalls, breast collars and other gear.

Tight money today has cut down on new saddle work, but has increased the amount being repaired, which brings in more money from material and labor costs.

It can be done faster than saddle making, in which Myers must stop to wait for the leather to condition.

That waiting is part of the enjoyment of the job where boredom can be turned to something fun to keep the day going. Alternating chores keeps the fascination going.

Trends today are away from flower tooling all over the saddle, he said. A

CHECKING THE PRODUCT... R. E. Myers admires the rose design he crafted onto a saddle he made for his wife. A trucking accident ended one career and put him astride another. (Photo Courtesy of Lubbock Avalanche-Journal)

mixture of basket-weave stamping and roughout is his most popular design.

It takes about 65 hours to create a saddle in a "half plain" design. That time doubles with heavy tooling.

No two Myers saddles are exactly alike. He builds to customer instructions.

A cowboy wants a strong saddle; the show-oriented customer is more interested in the appearance.

There's one type construction for a roper, another for cutting horse, another for a barrel racer.

"You learn a lot repairing old saddles. You pick up the strong points of one and stay away from the weak points of another."

Myers tells customers what requirements could cause problems, but builds exactly what the customer orders, regardless of his beliefs.

"A custom buyer gets exactly what he wants." The entire project hinges around the basics: a good tree and good leather. Making saddle trees is a whole different game, My-

ers said. He leaves it to companies custom-building the rawhide-covered wood to specifications.

If a tree breaks, he explains, he has to take the leather apart and send the tree back to the company. Even then, extreme care must be taken or the old leather won't fit back over the new tree.

For fun, there are horses and riding with the American Association of Sheriff Poses and Riding Clubs and the Hi Riders. He

makes a lot of AASP&RC awards and creates matching gear for the Hi Riders.

Sometimes he wishes he could go back to the world of activity before the accident. But that isn't often and the desire doesn't linger.

Somebody brings in some leather something they cannot find anywhere and the challenge of replacing it crowds the truck-driving world from his mind. From Avalanche Journal.

Car Insurance Rates Increased

A "typical" motorist in Hale County will be paying 2.6 percent more for his or her automobile insurance under rates approved Thursday by the State Board of Insurance.

SBI members adopted staff rate recommendations for an average statewide increase of 4.3 percent.

Auto rates vary due to such factors as the age and sex of the driver, type and age of vehicle insured, use, coverages and geographical location.

SBI's "typical" motorist owns a 1983 "low-to-medium" priced car (Buick, Chevrolet, Honda, Nissan, etc.) not used in business but driven to and from work, with no male operator under 25 and no female

operator under 21. A comparison of current and future rates for various coverages for such a driver in Hale County shows the following:

- Bodily injury and property damage, current \$87, future \$108;
- Personal injury protection, current \$30, future \$33;
- Comprehensive, current \$180, future \$174;
- Collision, current \$206, future \$201;
- Total, current \$503, future \$516.

The words to the U.S. Presidential song "Hail to the Chief," are from Sir Walter Scott's *The Lady of the Lake*.

Happy Thanksgiving
In the spirit and tradition of the very first Thanksgiving, let's celebrate this day sharing food and good feelings with dear friends and family.

Two AHS Graduates Contribute To WTSU Team

Two 1980 Abernathy High School graduates, Tony Heath and Roger Mitchell, are making major contributions to the West Texas State University Buffaloes football team.

Tony Heath, 195 pounds, 6', 21-year-old, strong safety, saw action in all 11 games this year and gained valuable experience at strong safety in a backup role. This season he is the starting strong safety. Last year Heath made 32 tackles and one fumble recovery. This season he was selected as the Big Cheese Pizza "Most Valuable Player" for his effort against Abilene Christian University. Heath was in 11 tackles, and intercepted a pass in the end zone to highlight a goal-line stand by the Buff defense. He leads the buff defense in unassisted tack-

les through 2 games with 10, including seven against ACU.

Off the field, he is a physical education major with a health minor. In his spare time, he enjoys snow and water skiing. In high school, he made 3-3A All District quarterback at Abernathy High School. Tony is the son of Mr. and Mrs. Don Heath of 1716 Ave. H, Abernathy.

Roger Mitchell, 270 pounds, 6'5", 21-year-old, offensive tackle, was the starting offensive tackle for the 1982 Buffaloes, and he continued in that position for the 1983 season. He has the most experience of any of the offensive linemen.

Roger is majoring in general business. Besides football, his interests include golf and other outdoor

sports. In high school, he was named 3-3A All-District offensive and defensive tackle his senior year. The same year, he earned All-District honors in basketball.

Roger is the son of Mr. and Mrs. Ray Mitchell of 2709 Ave. H, Abernathy.

Tony Heath

Roger Mitchell

Children in Northern Europe believe that special elves in white beards and red caps come visiting at the Yuletide season. Children leave bowls of porridge outside the kitchen door for the elves and the porridge is always gone by morning.

THANKSGIVING GREETINGS

AS WE GATHER AROUND THE HOLIDAY TABLE WITH OUR LOVED ONES, LET US BE TRULY THANKFUL FOR OUR MANY BLESSINGS. WE PRAY THAT OUR NATION MAY CONTINUE TO BE FRUITFUL AND THAT EACH HOME MAY BE BLESSED WITH ABUNDANCE.

"A GLANCE AT THE PAST"

By Helen Wade

FROM THE ABERNATHY WEEKLY REVIEW DATED JUNE 8, 1961:

Barbara McDougal will fly to New York City and leave Friday, June 9 for Europe. Barbara is a daughter of Mr. and Mrs. B. A. McDougal of Route 2, Abernathy. She teaches chemistry, biology and physics in the high school here. The 65-day tour will take the group to 12 European countries and Canada. They will visit England, Scotland, Wales, Holland, Germany, Switzerland, Austria, Italy, Monaco, Spain, the tiny Republic of Andorra in the Pyrenees, and France. She plans to visit in Quebec, Canada before returning home.

Abernathy Mayor Vincent Cunningham has announced that Friday, June 9, has been set for the Ex-Mayors' and Councilmen's Dinner. The ceremony will be held at Graham's Restaurant. All former mayors and councilmen are invited to attend. The dinner was started about four years ago and now has become an annual affair. The two newest members of the informal association, Ed Graham and Bill Wolf, will be the guests of honor of this year's fete.

Sue Suttle, the daughter of Mrs. L. A. Suttle, has been invited to play the

piano for the Music Federation at Waco. Sue has been rated an excellent pianist by the Lubbock chapter of the Federation.

Winners in Friday night's go-kart races at the Abernathy track, one mile north and four miles east of town, were the following: Don Blanchard, 8-12 age group; Joe Smith, Plainview, 580 race; W. T. Settle, under 170 on 490 race; Bob Baker, Plainview, over 170 on 490 race; and Olivia Baker, Plainview, women's race. A large turnout of spectators from Abernathy and Plain-

view were present to view the races.

The people of Abernathy are in for a glamorous, educational treat since two giant Southwestern Public Service Company trailers forming the Electric Caravan will be on display behind the company office in Abernathy. The colorful trailers were especially designed to demonstrate the latest in electric heating, electric commercial cooking equipment and advances in lighting techniques. Melvin Rape, manager for Public Service, pointed out that the equipment in the two trailers will actually be operating, making it possible for interested persons to see exactly, first-hand, what each piece of equipment will do.

Specials from Harold's Super Save are: Kraft's Miracle Whip, qt. 49 cents; Hunt's tomato juice, 3-46 oz. cans, \$1; Kraft grape jelly, 3-18 oz. jars, \$1; Ranch Style Beans, 7 for \$1; Folgers coffee, 1 lb. can, 69 cents; Delsey Toilet tissue, 4 roll pack, 49 cents; and Tide giant box, 69 cents.

Many farmers in the area, reports County Agent Ollie Linder, follow such good soil fertility and irrigation programs that yields of 6,000 pounds or more of grain sorghum per acre are not uncommon. The top farmers not only follow soil test recommendations for fertilizer usage, but also plant a hybrid capable of making high yields under the conditions on their particular farm.

Mrs. W. G. Jones gave a birthday party for her stepson, J. R. Jones. Those attending and helping J. R.

celebrate his birthday were Allen Dell and Leslie Teaff, Hershel, Thelma and Johnnie Peters, Nickey and Mary Linton, Jerry and Doyle Fuller, Eddie Jones, Pat Pettit and Harvey Greeling. Cake, Kool-Aid and watermelon were served.

AMONG THE MOST PROLIFIC CREATURES on Earth is the aphid -- an insect responsible for a third of all viral disease transmitted to plants, says National Wildlife magazine. A French biologist once calculated, if all the young survived, the number of descendants resulting from a single aphid over the course of one summer would total nearly six billion. Fortunately, millions of aphids are eaten by predators before they ever hatch.

Some say sneezing before a journey is a bad sign.

Letters To The Editor

Dear Editor:

In the course of our seed grain harvest, last week we at Northrup King Co. in New Deal had occasion to request an ambulance from EMS for a truck driver who was having a severe asthma attack. The ambulance was dispatched from Abernathy and was here on the scene within ten minutes.

The competency, ease and willingness of the attendants was impressive. They made all of us here, and especially the young man afflicted, feel secure and that helped him to recover once he got some oxygen, etc.

I personally have felt enormous responsibility for our plant facility here in the event of an accident or trauma. After this experience I feel much better

knowing there is help just "down the road"! I knew it all the time - just had not experienced it until now.

I know how difficult it must be to maintain the EMS service in your town. The demands on the attendants are tremendous with all the other personal involvement and obligations that they have. I just wanted to say "Thank You" for the effort and provision on the part of so many people who care and I sincerely hope Abernathy will be able to maintain a service which benefits not only the local residents, but the entire area as well.

Keep up the good work!
Sandra Moss

4-Her Honored At Gold Star Banquet

Three outstanding 4-H members from Hale County were honored at the 26th annual South Plains District 4-H Gold Star Banquet at 6:30 p.m. Monday, November 21, in Lubbock. Among the top 4-H'ers in the 20-county district honored was Marie Hooper,

daughter of Mr. and Mrs. Henry Hooper of Halfway; Jim Bob Carver, son of Mr. and Mrs. Jim Carver of Abernathy and Donna Stout, daughter of Mr. and Mrs. O. A. Stout, Jr. of Hale Center.

The awards presentation was narrated by 4-H'ers Earl Broseh of Lockney and Chris Caddel of Lubbock. Making the presentations was Dr. Catherine Crawford and Billy C. Gunter, district Extension Directors.

Attending to salute this year's winners were parents, government and community leaders and friends of 4-H.

To qualify for the Gold Star, highest 4-H honor at the county level, a 4-H'er must be at least 13 years old, have completed three years of club work and be active in 4-H. The award is intended to stimulate winners to higher achievement and to encourage other young people to participate in the county 4-H program.

Dear Keith:

The Abernathy Arts & Crafts Festival was again a tremendous success, but it would not be possible without the support of businesses and residents in the community.

Our thanks to those who bought raffle tickets, as this money is used to promote and advertise the festival area-wide.

A special thanks goes to Jan Hill, Keith Tooley, Arno Struve, Josh Howard, Gerald Kelley and FFA boys, L. G. Montgomery, Sally Barrick, Dovie Barron, Ruth Fulton, Scott Wells, George Riddell, Marvin Toler, the Music Club, and all individuals participating in enter-

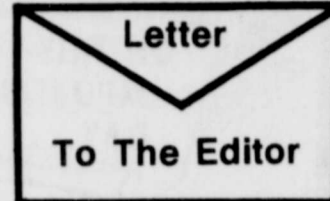

tainment. The entertainment was SUPER and everyone really enjoyed it.

We appreciate each and every one of you.

Jane, Diana and Betty

Dear Keith:

The telephone industry you and I have known for years is continuing to change. Increased competition in long-distance services, the court-approved divestiture of AT&T, and recent decisions by the federal Communications Commission have brought about the changes for all telephone companies. A major change currently

in the news is that of access charges. As a media executive involved in the financial side of the business, I feel you can best relate to this change the telephone industry is facing since the impact is similar to what you would have if required to totally separate advertising and news operations with both standing alone financially.

Access charges are divided into two categories: (1) end user charges applicable

to business and residential customers for the facilities between the customer locations and the local switching centers that give access to the network for both incoming and outgoing calls, and (2) those charges to interchange carriers (or long-distance companies) for use of the telephone company facilities and equipment.

Implementation of interstate access charges required by the FCC is now scheduled on or before April 3, 1984, subject to change since there is legislation before congress that seeks to modify the current FCC plan. If there are no modifications, General Telephone customers will pay an interstate end user charge

of \$2 for residence and \$6 for business lines. Additionally, there would be intrastate end user charges. The intrastate charges are yet to be determined by the state commission regulating telephone communications.

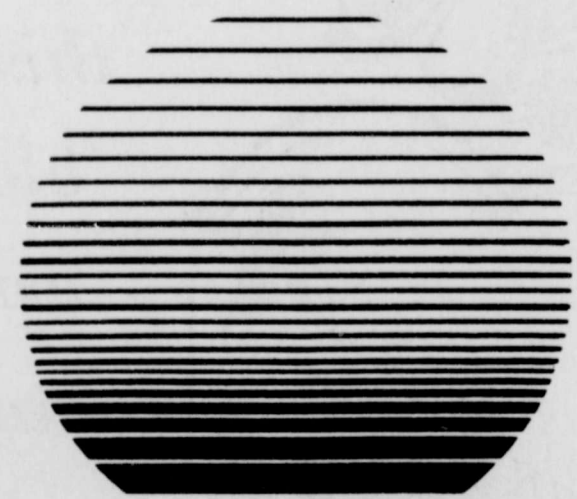

I know you are flooded, as we are, with paper. However, the access charge story is so complex, I am enclosing some questions and answers prepared to help understand the subject. Please call me at 505-397-6286, if I can provide additional information.

Public Notice

NOTICE TO BIDDERS The City of Abernathy will receive sealed bids at the office of the City Manager at the City Hall, 811 Avenue D, Abernathy, Texas until 5:00 o'clock p.m., the 12th day of December, 1983 for offers to lease the Abernathy Municipal Airport. Bids will be accepted to lease said property for a term of five (5) years, beginning January 1, 1984 and ending December 31, 1988. A Lease Agreement setting forth the terms and provisions upon which the property is to be leased will be provided as the bid form. A copy of the proposed Lease Agreement to be used as a bid form can be obtained from the City Manager at the City Hall in Abernathy, Texas. Each bidder will deposit with his bid a cashier's check payable to the City of Abernathy in an amount equal to 10% of the total bid. In the event the bid is accepted and the bidder fails to complete the transaction without legal excuse the amount deposited by such bidder will be forfeited to the City of Abernathy as the agreed liquidated damages. Any deposit by a bidder whose bid is not accepted will be returned to such bidder. The City of Abernathy reserves the right to reject any and all bids, to waive all formalities in connection therewith and to make the award of the Lease Agreement based on the bid or bids deemed to be most advantageous and in the best interest of the City of Abernathy. All bids shall be clearly marked: SEALED BID OFFER TO LEASE ABERNATHY MUNICIPAL AIRPORT Rod Ellis, City Manager

Area Events

FREE ARBOR DAY KITS AVAILABLE

To help Texas teachers and organizations conduct Arbor Day programs, the Texas Forest Service is offering free program kits. Each kit includes a loblolly pine seed packet with planting instructions, program aids for a local Arbor Day observance, suggested classroom activities for teachers, and a copy of Governor White's proclamation. Quantities are limited. Only one kit per teacher, group or organization will be distributed. Arbor Day, to be observed this year on January 20, 1984 in Texas, has been an annual celebration in Texas since 1889. The event is to promote a greater appreciation of the beauty and value of trees and forests. The 1984 official state observance will be held in Grand Prairie. Program chairpersons and teachers should address requests for Arbor Day kits to the Texas Forest Service, College Station, Texas 77843. Distribution, on a first-come, first-serve basis, will begin in mid-November.

MADRIGAL DINNER AT TEXAS TECH FOR EVERYONE

The Seventh Annual Madrigal Dinner in the Texas Tech University Center Ballroom Dec. 3-6 will recreate medieval Christmas celebrations, dinner and entertainment from the 15th century. Performances will begin at 6:30 p.m. Admission is \$9 for students, \$10.50 for the general public and \$25 for scholarship benefit seats. Benefit seats are available at eight-person tables in a choice location. As the guests dine, they will be entertained by minstrels, jugglers and the Texas Tech Madrigal Singers performing 15th century songs. Reservations can be made by calling the University Center Box Office at 742-3610.

"STAR OF BETHLEHEM" EXPLORED IN TECH MUSEUM PLANETARIUM SHOW

A question echoed through the ages -- What was the star of Bethlehem? -- is explored in a planetarium show, starting Nov. 25 at The Moody Planetarium of The Museum of Texas Tech University. The show carries viewers back to the days of the first Christmas and sorts through the possible astronomical events that could have been the mysterious star that heralded the birth of Jesus. Shows will be presented through Jan. 1 at 2:30 p.m. weekdays, 7:30 p.m. Thursdays and 2 and 3:30 p.m. Saturdays and Sundays. Admission is \$1 for adults and 50 cents for students. A brief version of the show will be presented every 20 minutes during "Candlelight At the Museum," 6-8 p.m. Dec. 7 and 8.

REGISTRATION FOR TSTI'S WINTER QUARTER NOVEMBER 29

Registration for TSTI-Amarillo's Winter Quarter will be Tuesday, November 29, 1983, from 8:30 a.m. to 7:30 p.m., in the Resource Center on the TSTI campus. Programs accepting new students will be: Auto Body Repair, Aircraft Mechanics, Automotive Mechanics Technology, Boot and Shoe Operations, Construction Technology, Cosmetology, Computer Science Technology, Diesel Mechanics Technology, Electronic Systems Technology, Industrial Instrumentation Technology, Interior Design Technology, Machine Shop Operations, Meat Processing and Marketing, Professional Truck Operations, Transport Refrigeration Mechanics, Saddle and Tack Making, Technical Office Training, and Welding and Fabrication. For more information contact Admissions 335-2316 extension 268.

AIR FORCE ASSOCIATION OFFERS SCHOLARSHIPS TO WINNERS OF STATEWIDE ESSAY COMPETITION

All Texas high school seniors, in both public and private schools, are invited to compete for \$3,000 in cash scholarships offered by the Air Force Association (AFA) of Texas through its Earle Parker Scholarship Program. Five scholarships -- one each in denominations of \$1,250, \$750, and \$500, and two in the amount of \$250 -- are awarded to winners of a statewide essay competition. Entries should pertain to this year's topic, "My Country, My Home, My Responsibility"; should be from 500 to 600 words; and must be submitted by November 30, 1983, to Captain Darrell Sechrest, 701 N. Ithaca, #2122, Lubbock, Texas, 79415. Any high school senior desiring to enter the scholarship competition should obtain an entry form from his or her high school counselor or from Captain Sechrest at the above address. His telephone number is (806) 885-3505 or in the evenings, (806) 747-0122. Each contestant should complete the entry form and mail it to Captain Sechrest's address.

ESTATE PLANNING SEMINAR NOVEMBER 29

An Estate Planning Seminar, a very important and informative meeting, will be held on Tuesday, November 29 at 7:30 p.m., in the Llano Estacado Museum Auditorium, states Mrs. Wynon Mayes, County Extension Agent. Lanny Voss, attorney, will begin the program with information on estate laws, changes which affect every household, and suggestions on ways to become more knowledgeable about estate planning. Ray Pendergast, Certified Public Accountant, will give information on record keeping, filing returns and personal records in both estate and private situations. Terry Clements, Social Security Administration will be the third speaker. He will give those attending information on laws affecting social security benefits, time that records need to be filed with the Social Security Administration and records that are necessary for completion of the request forms. A question and answer session will follow the presentations. This Estate Planning Seminar is free and open to the public, states Mrs. Mayes and should be helpful to everyone attending no matter what their estate situation is at the present time.

Transition

Otey Shadden

Services for Otey (Runt) Shadden, 82, of Abernathy were Thursday at 2:30 p.m. at the First Baptist Church with the Rev. Lloyd Riddles, pastor, officiating. The Rev. Murry Brewer, former pastor, assisted.

Burial was in the Abernathy Cemetery under the direction of Chambers Funeral Home.

He died at 2:30 p.m. Tuesday at his home. Justice of the Peace Shirley Gross ruled he died of a heart attack.

Born in Jefferson City, Tenn., Shadden came to West Texas in 1917, where he was a dairy rancher and a farmer all of his adult life. He married Frona Mae Land on Sept. 9, 1928, at Science Hill.

Survivors include his wife; three sons, Jimmy of Hico and Lynn and Otey Ray, both of Abernathy; two daughters, Donna Powell of Abernathy and Catherine Crabtree of Cotton Center; three brothers, J. O. of San Angelo, Ofis of Stephenville and Dick of Arkansas; A sister, Ora Denton of Merritt, Fla.; 11 grandchildren; and eight great-grandchildren.

Grandsons were pallbearers.

The family suggests memorials to Abernathy Cemetery Association.

Ben V. Vernon

Services for Ben V. Vernon, 91, of Lubbock were at 10:30 a.m. Friday in W. W. Rix Funeral Chapel with Condy Billingsley officiating.

Burial was in Resthaven

Memorial Park under direction of Rix Funeral Directors here.

He died at 5:15 a.m. Wednesday, Nov. 16, in Methodist Hospital after a lengthy illness.

Vernon was born in Seymour. He was a veteran of the U.S. Army in World War I. He married Minnie Oma Parchman in Altus, Okla., Feb. 13, 1924.

He had lived in Lubbock for the past 35 years and previously had lived in Tahoka and Woodrow. He was retired from Boyd Smith Equipment.

He was a member of the American Legion and the Pioneer Park Church of Christ.

He is survived by his wife; two sisters, Agnes Motheral of Abernathy and Pearl Frye of Clearlake-Highland, Calif.; one brother, Hubert of Zapata; and several nieces and nephews.

The family suggests memorials to the Children's Home of Lubbock or The Heart Fund.

Pallbearers will be Alan Young, Tommye Thompson, Red McChehran, W.C. Bryant, James Davis and Charles Nelson.

Richard N. Pope

Services for Richard N. Pope, 55, of Dallas and formerly of Lubbock, were at 11 a.m. Monday at Resthaven Mausoleum Chapel with Horace Coffman, associate minister of Broadway Church of Christ, officiating.

Burial was in Resthaven Memorial Park under direction of Resthaven Funeral Home.

He died at 3 a.m. Friday

Non-Farm Issues

Hurting Ag.

U.S. Agriculture is no longer an island unto itself. In fact, it is dominated by non-farm issues that have sent farm incomes into a tailspin since 1979.

"Farmers are experiencing severe financial distress largely because farm groups and their policymakers have exerted little influence over the many complex non-farm issues affecting and controlling agriculture," says Dr. Carl Anderson, economist with the Texas Agricultural Extension Service, Texas A&M University System.

Monetary and fiscal policies and international trade actions of governments impact heavily on the economic health of agriculture, Anderson points out. These outside influences embrace interest rates, trade subsidies of other countries, the internationally strong dollar which discourages exports and encourages imports, tariffs, trade restrictions, inflation, economic conditions at home and overseas, foreign credit conditions and required shipments on U.S. vessels.

"National farm income has fallen sharply in recent years due to these influences, plummeting from \$32.3 billion in 1979 to \$22.1 billion in 1982," the economist notes. "Not only have export markets declined sharply during these years, but this country's recession and high unemployment have caused sagging domestic markets."

While domestic markets have improved some in recent months with the economy on the upswing, overseas markets hold the key to farmers' hopes, contends Anderson. Currently, about two out of every five crop acres are devoted to production for foreign customers. In Texas, more than half the cotton, wheat and rice crops are expected.

"If farmers expect reasonable earnings from a high level of crop production, they must overcome some major hurdles in international trade," Anderson says. "Yet little action is under way to deal with the things that are curtailing our exports--the strong dollar, foreign trade subsidies, trade barriers, unfair tariffs, shipping restrictions, unfavorable trade agreements and poor foreign credit conditions."

The economist believes that considerable effort

should be devoted to an in-depth analysis of trade policies. This should include distributing Commodity Cre-

at Doctors Hospital in Dallas of an apparent heart attack.

Born in Abernathy, he was a retired salesman for the Sherwin-Williams Co. He moved from Lubbock to Dallas in 1967.

Survivors include his wife, Glenda, of Dallas; a daughter, Mrs. Reta Hirsch of Lubbock; two brothers, Harold of Lubbock and Robert of Pecos; two sisters, Freida Fulton of Littlefield and Reta French of Lubbock; and three grandchildren.

The family suggests memorials to the American Heart Association or a favorite charity.

Tressie Fields

Services were held for Tressie Fields, 46, of Lubbock Wednesday, November 23 at 1:30 p.m. in St. Luke's Methodist Church in Lubbock.

She died Friday, November 18.

Survivors include her mother, Daisy Daniels, of Lubbock, one son, Robert Fields of Lubbock and one daughter, Theresa of Waco, and a sister, Erna Meredith of Lubbock and another sister, Shirley Dunn of Abernathy.

Corporation-owned commodities to foreign customers, expanding credit to foreign buyers, and encouraging trade agreements with other industrialized countries. Trade with third world countries also offers opportunities, and expanded PL 480 shipments (food for peace) might expedite trade and develop markets with these countries.

as far as agricultural policy is concerned?

This year's PIK (payment-in-kind) program was a short-term effort to deal with the chronic surplus production problem that has been plaguing American agriculture. This program has been expensive and difficult to administer and could have been avoided by an effective supply-management program in 1981 and 1982, believes Anderson.

What does the future hold

Thanksgiving Greetings

Our sincerest wishes for a holiday that's blessed with good friends, happy feasting and much love.

Vecchio's Burger Hut

The children of Mr. and Mrs. Henry Chastain will honor their parents with a reception commemorating their Fiftieth Wedding Anniversary Dec. 4th from 4:00 to 5:30 in the home of Mr. and Mrs. Henry Chastain 1306 Ave B, Abernathy

Friends and relatives are invited to help them celebrate this special occasion.

Henry & Lottie married December 3, 1933 in Farmersville, Texas. They moved to Abernathy in 1945. Henry has been farming on the Givens Farm for 38 years. The couple has four children, Delton Chastain of Abernathy - Frances Perkins of Big Lake - Janet Mathis of Lubbock - Tammy Hayes of Lubbock. They have 6 grandchildren and 1 great-grandson. No gifts, please.
