Even the Auctions Have Changed

Thomas and I got to talking about how things have changed over the past few years. Specifically, how things have changed in the farming business since we ceased row cropping.

This all came about because Thomas went to an auction up at Idabel last week. He and his cousin Charles used to go to farm auctions almost as a form of entertainment, but that was many years ago.

Well, he went last Thursday, and came in amazed.

"Everyone has cell phones" he said. "I mean everyone".

He says that people buying for other people were actually doing so while they were in contact by cellular phone.

They would be strolling around, talking to their buyers about makes and models, expected prices and more.

As an item was auctioned the person could report to the buyer what the price was, and see if they wanted to bid or not.

He said the various little trills from various models of cellular phones literally filled the air as other people were calling in to the people at the auction!

Another big difference was transportation. No, I don't mean people still don't come to auctions in their pickup trucks, but that they have trailers behind them. They let down the ramps, back their four wheelers, golf carts or "mules" off and then happily cruise up and down the acres and acres of equipment, writing down auction numbers, scanning bid

sheets and generally not having to work up a sweat hoofing it up and down the aisles of equipment.

Of course, everything goes into a computer, and I suppose checks are generated through the computer too.

It's all part of a technology trend that makes itself known in every aspect of life.

I can remember one time I had to drive to Paris for parts five times in one day. Three of those trips could have been avoided with the simple addition of a cell phone. I can remember driving from field to field trying to locate Thomas...a chore that took lots of gas and time. Cell phones have eliminated that, too.

But there is one thing that hasn't changed...that's the frenzy that auctions can evoke, or provoke, depending on your point of view!

Because people get just as caught up in buying and selling, bidding and evaluating as they did way back at the turn of the century when it was horses and mules, not machinery they were bidding on! Some things, I suppose, never change!

Letter To The Editor

Dear Nanalee,
Sunday, the topic of shoes came up in conversation, and then something was said about "no shoes" and I had to laugh and tell everyone about the Nichols' Worth Column in last week's paper.

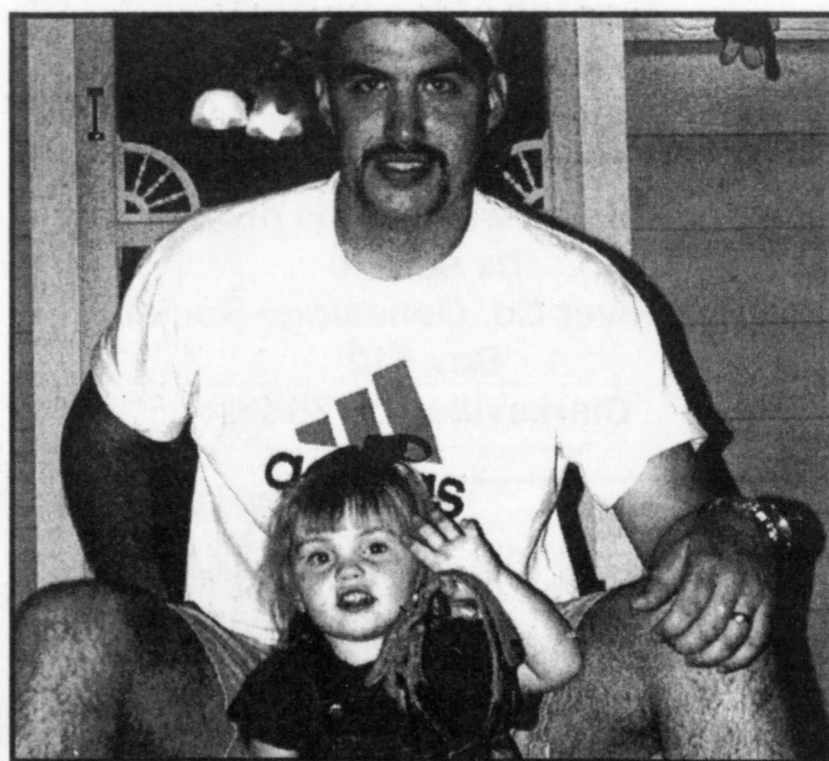

It was really cute, and really accurate! One of my girls can hardly stand to be barefoot in the shower, while another one used to go to school barefoot. I mean she would leave her shoes in the car and have no shoes at school! I think it's an inborn trait!

Gerlyn Gray

After reading Gerlyn's note, I have to report that Sunday, when I was at church, several people checked out my feet to see what kind of shoes I had on. Sure enough, I had on sandals!

That prompted me to remember that John Harold Moore, long time and much respected resident of Deport, used to have a peculiar habit. His wife, Helen, to my dear friend, said that every night he sat on the side of the bed and carefully ran his finger between each and every toe to "get the day out from between his toes". What was really funny is that his daughter, Ellen, began doing the same thing almost as soon as she could walk. Neither one of them would ever dream of walking across a floor without a pair of shoes on!

I'm with Gerlyn, I believe it is an inborn trait!

FAMILY SPURS-Ryan Michael Ballard and Rynell Davis display the "gals-leg" spurs that have been handed down through the family. The James Wilford Lowry family is sponsoring the fourth annual calf scramble at the Bogata Rodeo again this year.

Spurs are family heirlooms for James Wilford Lowry family

By Mary Jane Lowry

Wilford Lowry was breaking horses for Lester Stephenson when we started dating in 1947. We married that same year and I rode in the grand entry with him in the Bogata Rodeo for the first time. When Lester died he left his "gal-leg" spurs to Wilford. He had always admired them and was so proud to wear them. When Wilford died in 1994 he left the spurs to our daughter, Janie Ballard to be passed on to her and mike's children, Ryan Michael and Ginnifer Kaye. Ryan and Ginnifer and Bill's daugh-

ter, Ryan Alyssa Lindsey are all in a photograph together with the spurs.

Ryan and his wife, Marla, and making their home on the little ranch at Johntown and Ryan carries on his Papa's love of the rodeo. We, as a family are proud to sponsor the fourth annual calf scramble in memory of James Wilford lowry again this year.

We have a brand new member of our family to attend his first rodeo this year, Carter Stockton Lindsey.

Country Cooking

By Liz Irwin

Potatoes are the basic food for any meal and can be prepared in many ways.

The most popular and the easiest is baked of course. Scrub, butter and bake!.....can't get much easier than that. . . .and no dirty dishes to clean up! In case you forget to put your potatoes in the oven or on the grill and need a faster way to bake them, try this. Parboil them for five minutes before putting them on to bake or stick an aluminum skewer or an aluminum nail into each potato. Either one of these will speed up the baking process a good fifteen to twenty minutes.

Pricking potatoes with a fork will not make them fresh and flaky, if you let them sit around for awhile before baking. They will become soggy. Actually, the best thing to do with a baked potato is to make it fresh and flaky, it eat it immediately. An even faster way is to pop them in an open small plastic bag in the microwave and bake them. They won't be fresh-

and-flaky-right-out-of-the-oven baked, but they will do.

The following recipes are just some that will give you a little change of pace out of the ordinary. Try some of them and we hope you like them. See you in the kitchen!

Irish Baked Potatoes-Cook and mash them and layer in casserole dish and add your imagination and taste how great!

Fluffy Onion Potatoes-just add onions and butter to these mashed up potatoes and place in casserole dish! Wow!

Mushroom Potatoes-mushroom soup, maybe some bacon bits and butter and delicious!

Fancy Baked Fries-they are not cooked in hot oil, just in othe oven! Great!

Parmesan Potatoes-not for anyone on a diet, but they are delicious!

Twice-Baked Potatoes-these are out of this world, hot and fresh out of the oven!

An Open Letter to our Customers:

No one likes to see prices increase. But in the past year, energy prices across the nation have done just that. This has affected the prices you pay at the gas pump. And as you may have noticed, it also has affected your electricity prices.

Much of the electricity in Texas is generated by natural gas. In the past year, natural gas prices have gone from under \$3 per unit with temporary spikes as high as \$10. That impacts the cost of electricity. It's why the fuel portion of your bill - and of bills for all other Texas utilities - has increased since June of last year. By law, we don't make a cent on this part of your bill. While we've lowered the part of your bill that we do control, the fuel expenses have more than offset the decreases.

We're taking as many steps as we can to minimize the impact of these higher prices. We also have free information available to help you reduce your energy use. To get your free Energy Management Guide, just call or visit our local office.

Reliable, affordable service is important to you. I want you to know that it's important to us too!

Thank you for your continued support and for your business.

Society microfilming old papers, donations needed for project

The Red River County Genealogy Society has taken on an expensive but worth while task. They are having the Bogata News and Deport Times, two of the area's oldest newspapers, put on Microfilm.

Papers have been done for a number of years at the turn of the century so far. Thunder Prairie publishing has been taking the fragile old volumes to Southwest Microfilm in Arlington to be filmed and the Genealogical Society has been paying the cost of the microfilming.

Because this is an expensive proposition, contributions to the project would be most welcome. They may be sent to:

Red River County Genealogical Society
Box 512
Clarksville, Texas 75426 and marked for the microfilm project fund.

These bound volumes are deteriorating with age, and they provide a priceless glimpse into this areas his-

When Does Faith Save?

The Bible certainly says faith is one of the many things that save (Heb. 11:6; Rom. 5:1). But the question is not "does faith save?" This is an established fact. The all important question is, **WHEN** does faith save? Denominational preachers often answer by saying "Faith saves when you accept Jesus into your heart to be your personal Savior." That may sound good, but don't expect to hear a Scripture to back it up! If an attempt is made to give a Scripture, it will not be used in its proper context. No-where is such a statement found in the bible. Let's be honest and look at what the Bible does say.

Faith saves **WHEN** it brings forth fruit in causing one to **OBEY** God's commands. Faith is dead and unprofitable without obedience (works). James 2:14-16 makes this so clear one needs help to misunderstand it. And, sad to say, many are willing to give such help. Most people fight so hard to avoid and dodge the Bible's plain teaching on faith and when it saves.

Saving faith is far more than simply the mental acceptance of Jesus to be your Savior-even when it's done with all sincerity. Saving Faith is faith that **WORKS** the works that God has commanded. "Faith only" is the devil's doctrine and cannot save (James 2:24). Faith only condemns, not saves.

Saul of Tarsus, while on his way to Damascus to persecute Christians, was spiritually lost (Acts 9:1ff). After his experience on the road with the bright light and conversation with Jesus he was still spiritually lost. While waiting in Damascus for three days he continued to be spiritually lost. This is evident by the statement of Ananias spoke to Saul in Acts 22:16. This statement shows that Saul was still in his sins. When Saul wanted to be saved. Ananias did not tell him to accept Jesus into his heart as his personal Savior. Saul was told to "arise, and be baptized, and wash away thy sins." This agrees with what Jesus told the apostles to preach to the whole world. "He that believeth and is baptized shall be saved, he that believeth not shall be damned" (Mark 16:15-16). This is what Peter preached on the day of Pentecost when three thousand were saved. "Then Peter said unto them, Repent, and be baptized everyone of you in the name of Jesus Christ for the remission of sins..." (Acts 2:38).

This article is brought to you by the church that meets at 5th and Lide in Talco. Please join us for services. The church meets Sunday mornings: Bible class 9:45 a.m., 10:45 a.m. and 6 p.m. and Wednesdays-7 p.m.

Society is seeking old newspapers

The Red River County Genealogical Society is asking anyone who may have any old Bogata, Rosalie, Detroit or Bagwell newspapers to contact the society.

The society is expected to receive funding soon to have all the available newspapers of Red River County towns microfilmed in order to preserve them for future generations.

The society wishes to contact anyone who may have any such newspapers in their collection. Whether one paper or even a portion of a page, or a whole collection. Many times such papers can be found in old trunks or packed away and forgotten in unused drawers. The society has had a number of old newspapers microfilmed in the past several months and expects to continue this project as funds become available. The originals will be returned to their owners when the filming is completed.

While one paper, or even one article from one of these old newspapers may seem insignificant, having it preserved on a reel of microfilm with other such papers is important not only for local historians, but for those who travel to the county to do historical and genealogical research. In many cases, the newspaper recorded incidents that otherwise would not be found in any other source.

The following newspapers are needed:

Bogata Reformer, existed in early 1900's prior to Bogata News.

Bogata News, began in 1911

Rosalie Courier, existed between 1892 and 1898 and possibly later.

Red River County News, existed in early 1900's.

Red River County Review, existed in 1920's and possibly other years.

Bennett New Era, probably existed in 1880's.

Detroit Banner, existed probably in the late 1880's or early 1980's.

Detroit News, began in 1899.

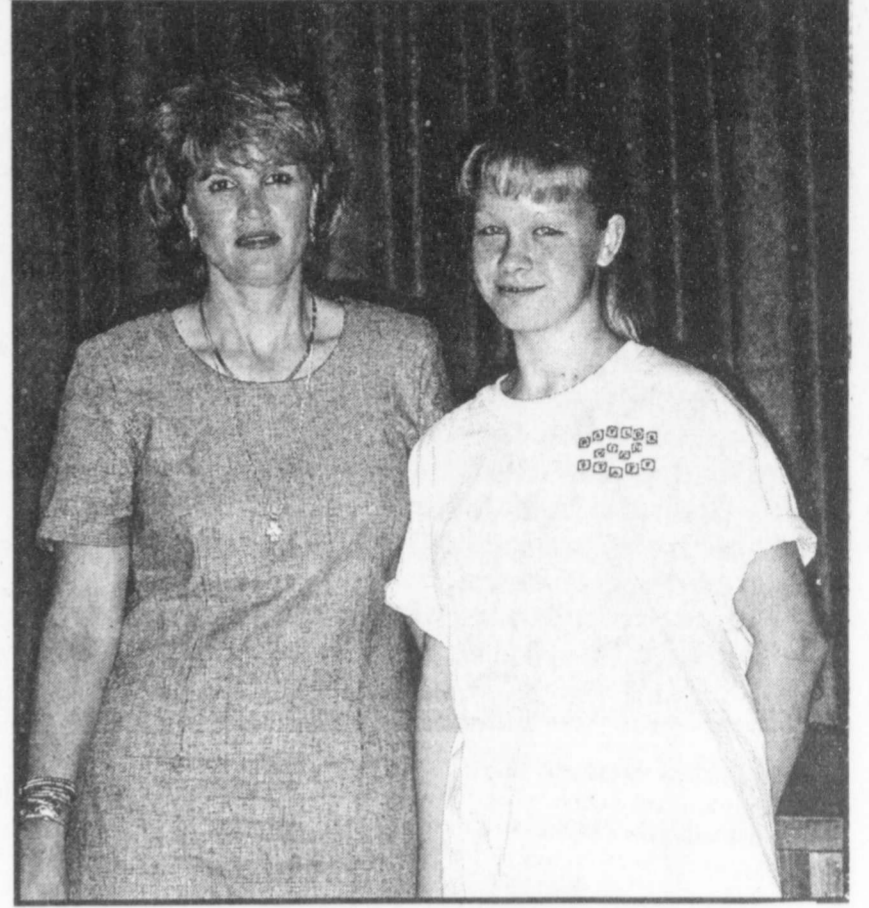

Detroit Weekly Herald, existed in early 1900's.

Detroit News-Herald, years needed 1937-1940.

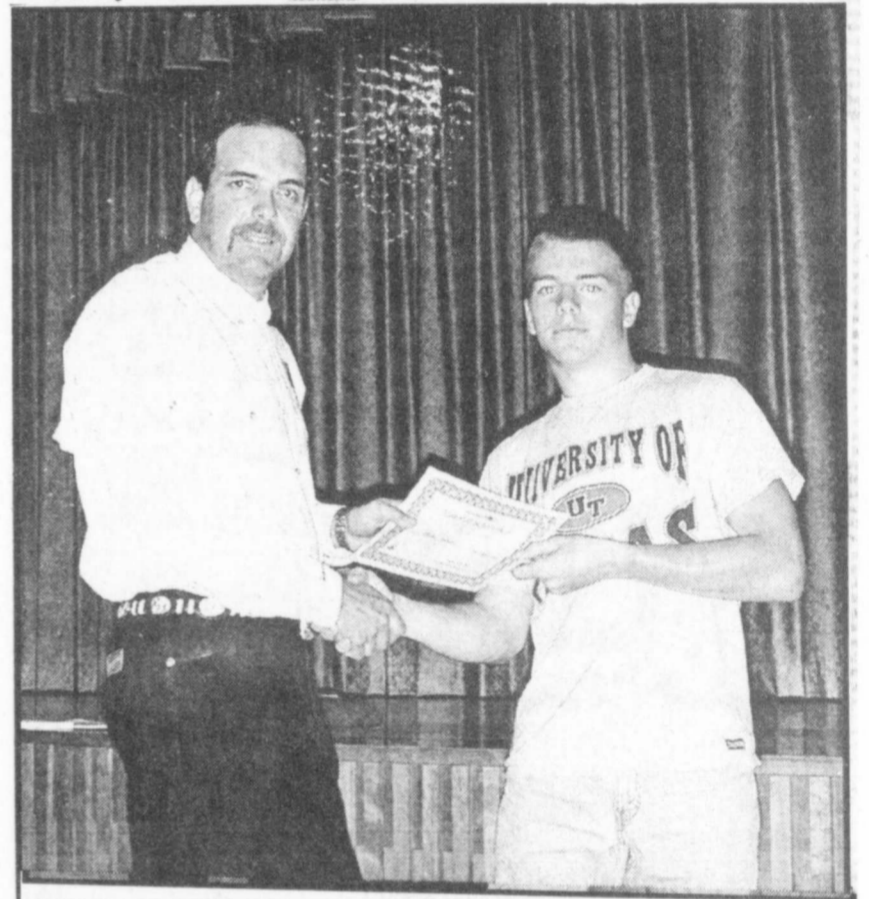

Bagwell Star.

Also any old newspaper from Clarksville, Detroit (formerly Bennett), Bagwell, Annona or Avery.

Anyone with information on any such papers is asked to contact Johnnie Lee at 903-982-5300. He may also be reached at johnnie_lee@hotmail.com.

DEBBIE HARE-Rivercrest Booster Club President, presented Larissa Borders with a \$50 award for being the student who won the annual slogan contest sponsored by the club. Special Notice for the ELDERLY,
INFANTS, CANCER PATIENTS,
PEOPLE WITH HIV/AIDS or other
immune problems.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer, undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/Centers for Disease Control and Prevention (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

OUR DRINKING WATER IS SAFE

The Texas Natural Resource Conservation Commission (TNRCC) has assessed our system and determined that our water is safe to drink. Numerous tests by the TNRCC and the employees of Red River county Water Supply are performed monthly and annually. These tests failed to detect any agent in your drinking water that exceeded the safe level.

En Espanol

Este report incluye la informacion importante sobre el agua beber. A obtener una copia de esta informacion o traducir en Espanol, llamar.

Where do we get our drinking water? Our drinking water is obtained from Surface and Ground water sources. It comes from the Blossom, Nacatoch Acquifers and Pat Mayes and W. Patman Lakes. TNRCC will be reviewing all of Texas' drinking water sources. The source water assessment process will be completed in three years.

All sample results are available at our office for your inspection, during office hours.

ALL drinking water may contain contaminants

When drinking, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline 800-426-4791.

This information is required by the U.S. Environmental Protection Agency (EPA) and does not require any action by the water user, it is for your information only. We are here to serve our members and will strive to produce the best possible product at the least cost.
