Mother City Celebration

Four Days of Activities

The mother city of the panhandle has been celebrating Labor Day for decades. The first years were held at the Old Jail Museum in Old Mobeetie, Texas under the shade trees. People would pack picnics and just enjoy being a part of this historic town. Though times have changed and the event

has grown in size, the “Old Settlers” still enjoy getting together with friends and neighbors and celebrating this holiday. This weekend long celebration now funds a few organizations in the Mobeetie. Proceeds largely

go to the Old Jail Museum as the major fund raiser that helps keep this museum operating and funds special projects and exhibits.

Friday night will kick off the festivities with a fajita meal, live music, and cowboy po-

etry at 6pm at the Old Jail Museum. Camping spots are available for the night or whole weekend and this is always a fun time for the whole family.

Saturday opens with a fun

Last week I read a headline to the effect that the Tesla company planned to create a humanoid robot, that is, a robot in human form, by next year. I did not read the story, only the caption of the headline, or the sub-heading, or perhaps the byline – whatever the appropriate term is. It mentioned that the robot would “reduce labor costs”. That is one way to describe it. It could also have been written as follows: “The availability of the robot will cause companies to terminate jobs currently performed by humans, and replace the humans with robots.” The failure to mention this reality suggests

that whoever wrote the article might be slanted against humans and in favor of robots and/or big corporations (except, I'm confident the writer was just as happy to not have been replaced by a robot as of

yet). I can see the possibility of robots performing certain tasks more efficiently than humans, but I question how extensive the task/skill sets are to which this statement

PUBLIC NOTICE

Explanatory Statements for the November 2, 2021 Constitutional Amendment Election

Proposition Number 1 (HJR 143)

HJR 143 proposes a constitutional amendment expanding the circumstances in which a professional sports team charitable foundation may conduct raffles to raise money for the foundation's charitable purposes. The proposed amendment would allow professional sports team charitable foundations of organizations sanctioned by the Professional Rodeo Cowboys Association or the Women's Professional Rodeo Association to hold charitable raffles at rodeo events.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the professional sports team charitable foundations of organizations sanctioned by the Professional Rodeo Cowboys Association or the Women's Professional Rodeo Association to conduct charitable raffles at rodeo venues."

Proposition Number 2 (HJR 99)

HJR 99 proposes a constitutional amendment allowing the legislature to authorize a county to issue bonds or notes to finance the development or redevelopment of an unproductive, underdeveloped, or blighted area within the county and to pledge for repayment of those bonds or notes increases in property tax revenues imposed on property in the area by the county. The Texas Constitution gives the legislature the power to authorize an incorporated city or town to issue such bonds or notes but does not expressly give the legislature the power to grant that same authority to counties. The proposed amendment also provides that a county that issues bonds or notes for transportation improvements may not pledge for the repayment of those bonds or notes more than 65 percent of the increases in ad valorem tax revenues each year, and a county may not use proceeds from the bonds or notes to finance the construction, operation, maintenance, or acquisition of rights-of-way of a toll road.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing a county to finance the development or redevelopment of transportation or infrastructure in unproductive, underdeveloped, or blighted areas in the county."

Proposition Number 3 (SJR 27)

SJR 27 proposes a constitutional amendment barring the State of Texas or a political subdivision from enacting, adopting, or issuing a statute, order, proclamation, decision, or rule that prohibits or limits religious services. The proposed amendment would apply to religious services, including those conducted in churches, congregations, and places of worship, in the state by a religious organization established to support and serve the propagation of a sincere-

ly held religious belief.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to prohibit this state or a political subdivision of this state from prohibiting or limiting religious services of religious organizations."

Proposition Number 4 (SJR 47)

SJR 47 proposes a constitutional amendment changing certain eligibility requirements for a justice of the Supreme Court, a judge of the Court of Criminal Appeals, a justice of a court of appeals, and a district judge. The proposed amendment provides that a person is eligible to serve on the Supreme Court if the person, among other qualifications, is licensed to practice law in Texas; is a resident of Texas at the time of election; has been either a practicing lawyer licensed in Texas for at least ten years or a practicing lawyer licensed in Texas and a judge of a state court or county court established by the legislature for a combined total of at least ten years; and during that time has not had the person's license to practice law revoked, suspended, or subject to a probated suspension. The same eligibility requirements would apply to a judge of the Court of Criminal Appeals and to a justice of a court of appeals. The proposed amendment further provides that to be eligible for appointment or election as a district judge, a person must be a resident of Texas; be licensed to practice law in Texas; and have been a practicing lawyer or a judge of a court in Texas, or both combined, for eight years preceding the person's election, during which time the person's license to practice law has not been revoked, suspended, or subject to a probated suspension.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment changing the eligibility requirements for a justice of the supreme court, a judge of the court of criminal appeals, a justice of a court of appeals, and a district judge."

Proposition Number 5 (HJR 165)

HJR 165 proposes a constitutional amendment allowing the State Commission on Judicial Conduct (SCJC) to accept complaints or reports, conduct investigations, and take any other authorized action with respect to a candidate for a state judicial office. Currently, the Texas Constitution only permits the SCJC to take such actions as to persons holding a judicial office.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing additional powers to the State Commission on Judicial Conduct with respect to candidates for judicial office."

Proposition Number 6 (SJR 19)

SJR 19 proposes a constitutional amendment establish-

ing that residents of certain facilities have the right to designate an essential caregiver with whom the facility may not prohibit in-person visitation. The proposed amendment would apply to a nursing facility, assisted living facility, intermediate care facility for individuals with an intellectual disability, residence providing home and community-based services, or state supported living center. The proposed amendment also would authorize the legislature to provide guidelines for these facilities to follow in establishing essential caregiver visitation policies and procedures.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment establishing a right for residents of certain facilities to designate an essential caregiver for in-person visitation."

Proposition Number 7 (HJR 125)

HJR 125 proposes a constitutional amendment permitting a person who is 55 years of age or older at the time of death of their spouse who is receiving a limitation on school district property taxes on their residence homestead on the basis of a disability to continue receiving the limitation while the property remains the surviving spouse's residence homestead.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to allow the surviving spouse of a person who is disabled to receive a limitation on the school district ad valorem taxes on the spouse's residence homestead if the spouse is 55 years of age or older at the time of the person's death."

Proposition Number 8 (SJR 35)

SJR 35 proposes a constitutional amendment authorizing the legislature to exempt from ad valorem taxation all or part of the market value of the residence homestead of the surviving spouse of a member of the United States armed services who is killed or fatally injured in the line of duty. The Texas Constitution provides a property tax exemption to the surviving spouse of a member of the armed services who is killed in action, but the current exemption does not include members of the military who die during their service due to injuries sustained that are not combat-related.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for an exemption from ad valorem taxation of all or part of the market value of the residence homestead of the surviving spouse of a member of the armed services of the United States who is killed or fatally injured in the line of duty."

We went to the Hinton Fair Saturday evening; don't know too many people after 64 years. William had spent the night and attended the fair with Jennifer, Barbara and I. It was 30 years ago that William Thomas was introduced to Jennifer and Liz at the Hinton Fair.

— cwe —

I mowed the lawn (weeds and stickers) one more time and this may be the last time for this year. The grass had not grown much in the past week and a half.

— cwe —

THANK YOU, BARBARA, for putting up with me these past 62 years.

Have you ever known **Another Kind of Eden**? There is a **Blind Tiger** and some **Elephants**. **Once Upon A Tiger** was living there also. **Maybe Someday** you'll get to visit **Damnation Spring** leave behind the **Madness of the Crowd** and not worry about the **Enemy At the Gates!** **Once A Soldier & Once A Spy** went and they **Survived The Shark Attacks** which was really **Out of the Ordinary** for that time of the year. There were the most awesome **Dinosaurs Before Dark** and some guy named **Andrew**. You don't want to be **Caught by Surprise** and loose **Total Power!**

I had a friend once that **Had a Perfect Life** and was a **Friend Like You**...needless to say there were **Complications!** But then, a **Blessing In Disguise** came! She moved and went **To Dwell Among Cedars** so **Now and Forever** she is **Calm and Bright!**

Hope you enjoy reading this and you will notice that all the darker words are new books we have on display for you to pick up. My imagination got the best of me so...

would be applicable. Contrary to popular belief, or fantasy, machines are not infallible, and the more computers there are involved, the more finicky they can be, and the less comprehensible with respect to how they are to be repaired. If you have any question as to the reality of this statement, talk to any engine mechanic with experience and ask if automobile engines are easier to understand, diagnose, and repair now, compared to thirty years ago.

Another potential hazard concerning relying on robots is the reality that anything that has been programmed to operate for you can also be programmed to operate against you. When programmed to do so, computers can override their operators' wishes. And the problem with that is the typical user of the computer-assisted device, the person whom the computer is supposed to be helping, is typically vastly unequipped to be able to override the programming, or reprogram the machine. The computer's ability to override its operator's desires is one of the strong arguments against self-driving automobiles - would you want to entrust your desire to reach your destination safely entirely to a computer? At least if I am the one driving, I have some control over my fate. It is the same reason I would prefer to gamble on something that requires some action on my part, rather than only pushing a button and letting a slot machine tell me I am a loser. I'd rather prove it to myself.

We will see what happens; and I can't imagine Tesla will be the only firm developing bionic humanoids. There are certainly beneficial effects robots could have; just the same, we may be creating our brave new world. But if I have a choice, and if I have

to be transported, counseled, or operated upon, I'll take the real thing, every time.

Weldon (from Page 1)

remodel and rebuild churches across many states.

A lifelong resident of Wheeler, Weldon was Mustang fan through and through. He not only followed but enjoyed all the sports and activities the Mustangs were taking part in. Whether it was the marching field, the show ring, football field or anything in between, Weldon could be found cheering for the kids. He was a sports fanatic and could usually be found with some sport on every TV in the house. He spent many hours keeping up with the stats in the rodeo world. He particularly enjoyed the PRCA and PBR. Attending the National Finals with his family was one of the highlights of his year. Weldon was known as The Fun Guy! Children were drawn to him. He played an important role in many children's lives as he poured his love and knowledge in to them. Many encountered his love as they passed through Bubby and Lorse's home for daycare. He led youth groups where he shared his love of Christ. His nieces and nephews held a sweet spot with their Bubby. He followed them on all their fun in activities, sports and rodeos through the years.

Those who love him most will be left with memories to last a lifetime. Weldon enjoyed food and finding "the best" which sometimes was a hole in the wall spot or may be a 5 Star restaurant. Following "The Fun Guy", the family has traveled a million miles taking trips, sailing seas, seeing sites and having adventures.

Those left to cherish Weldon's memory are his wife of 46 years, Dolores of Wheeler, daughter Jotana Henson and TA Taylor, grandchildren Kellan Quarles, Kayleigh Coomer, A'Dyn Garza, and Ty Taylor, brothers: Steve Simmons (Suzy), Walter Simmons (Phyllis) and sister: Deleise Atwood (Riley) and brother-in-law: Tim Patterson (Terrie), 4 nieces and 4 nephews as well as 26 great and great-great nieces and nephews.

Memorials in Weldon's honor may be made to Riding High Ministries PO Box 402 Shelley, Idaho 83274.
