STORM REPORT

As Reported by...
Stormie Meriwether,
Twelfth Grade Student

Dear Friends, People are getting COVID in Wheeler. I hope we get to stay in school. I have had all my shots and booster.

I am very disappointed that we didn't get to go to OKC to help feed people at City Rescue Mission. My dad and I both had a little fever and didn't feel well. Dad went to the doctor to be sure it wasn't COVID. It wasn't, but

Panhandle Gives Campaign

Dear Friends,

At this time last year we had a lot of donations to our museum through The Panhandle Gives Campaign. So far our online donations total \$1350. We raised nearly \$12,000 last

year. A donor asked me why our board members haven't made donations to our campaign. The donations from this campaign keep our doors open for one more year with

Carol Porton Announces As Wheeler Co. Judge Candidate

I, Carol Porton, am announcing my candidacy for the office of Wheeler County Judge. I was appointed as County Judge in May of this year after the untimely death of Jerry Hefley and have found this office to be very challenging and rewarding. It is my wish to continue to serve the citizens of Wheeler County.

Wheeler County has been my home for 40 plus years. My husband, Larry and I moved here in 1979 for him to pursue a career in Court Reporting for the 31st District Court where he worked for

Thanksgiving has barely concluded, and already it seems Christmas is nigh. It has appeared so for a couple of weeks with the placement of Christmas décor in retailers, but the past week has wrought an explosion in the amount of advertising delivered. For me, the ads get

delivered primarily in the form of email. Email is like a garden which must be laboriously tended in order to produce a few good fruits, but most of the time is spent just pulling weeds. Such are the promotional emails which have doubled, tripled, or quadrupled in volume over

the past week. This barrage ties in fairly appropriately to a theme I've recently been trying to increase my awareness of: the custody of one's attention. What we focus on has an overwhelming ability to determine the outcomes we experience. And perhaps more than ever, if you don't

mind your own attention, someone will rob you of it. The Internet is ground zero when it comes to attention warfare. Entering the realm of the Internet is necessary at times, and enjoyable much of the time, but one should proceed with caution and at their

Looks like it is going to be another busy month and can you believe that the Christmas Season is just around the corner! Usually, everyone is busy shopping, planning parties, planning meals and travels. I have a suggestion for you to mull over...take a break and visit the Wheeler Public Library to kick back and check out a book to read and relax in the evenings! I've always discovered that when the busy day is done I have time to sit, read and enjoy. We have some wonderful reads that have come in and we also have our Christmas Books out for you to go through, children and adults. We will have regular business hours during December which are 11:30 til 5:00 Monday until Friday. There will be a Christmas Break for us on December 23rd through the weekend and then opening back up on Monday 27th.

Be safe during the holidays and we hope you will visit us in the library!

At the age of 31 Bonnie went to college and received her bachelors in Spanish. In 1974 while living and teaching in Hereford she met the love of her life Edward Wuerflein and the two were married on January 10, 1975. Bonnie and Edward shared the love of travel and the couple traveled all over the world. She loved to open her home and entertain for family, friends and her students. Her menu would always include coffee, hot tea, wine, cheese, butter, and salt. Also, there were always fresh flowers on her windowsill and sometimes throughout the house. More than anything Bonnie loved Jesus and raised her family with the hope and assurance of eternal life. To describe Bonnie would be pure love in action at all times. Her legacy of love, travel, and Jesus will be one that is carried on through generations to come.

She is preceded in death by her parents; and her sister, Margaret Pendleton.

own risk, knowing what they are getting in to. I recently read about a concept called 'cognitive bandwidth'. The basic premise is that each day you have a limited capacity for making decisions, and each time you choose anything, you are consuming some of that bandwidth, leaving less in reserve for the next decision. Good decisions tend to beget good decisions, and poor decisions predispose one for more poor decisions. Further, it is difficult to make good decisions when one's cognitive bandwidth is exhausted. Accordingly, since learning about this concept I have endeavored to delay accessing my email for as long as possible, because accessing it early in the day is a pretty effective way for me to get knocked off-course and mentally frazzled for a while. What is the point of all of this? We have approximately four weeks left in this year. If you don't live these days under your own vision and consciousness, someone else will produce that vision and consciousness for you, often with the intention of separating you from your time, your attention, and your dollars. Mom and Dad's advice for the road remains appropriate for navigating this season: be careful, and have a good time.

Agricultural Conservation Easement Program

USDA NRCS sets Agricultural Conservation Easement Program Funding Date

Temple, Texas, Nov. 29, 2021 — USDA Natural Resources Conservation Service in Texas is accepting applications for the Agricultural Conservation Easement Program (ACEP). While NRCS accepts easement applications on a continuous basis, applications for the next funding consideration must be submitted by December 31, 2021.

"Easements are sometimes a perfect fit for a landowner who is looking to protect their land from future development or to protect and improve wetlands or provide critical habitat for wildlife," said Kristy Oates, NRCS state conservationist for Texas. "We encourage Indian tribes, state and local governments, nongovernmental organizations and

private landowners to call their local NRCS office to find out how to apply."

ACEP Agricultural Land Easements provide financial assistance to eligible partners for purchasing easements that protect the agricultural use and conservation values of eligible land. In the case of working farms, the program helps farmers and ranchers keep their land in agriculture.

ACEP Wetlands Reserve Easements allow landowners to successfully restore, enhance and protect habitat for wildlife on their lands, reduce damage from flooding, recharge groundwater and provide outdoor recreational and educational opportunities. Tribal landowners also have the option of enrolling in 30-year contracts.

To learn about ACEP and other technical and financial assistance available through NRCS, call your local USDA Service Center or visit www.nrcs.usda.gov.

Thoughts To Ponder

In the 60's, people took acid to make the world weird.

Now the world is weird and people take Prozac to make it normal.

Life is like a jar of Jalapeno peppers—

What you do today, might burn your butt tomorrow.

... and as someone recently said to me:

"Don't worry about old age-- It doesn't last that long, enjoy your time and money now !"
