WHY LYNCHING IS PREVALENT.

The New Orleans Pycaune says: "The growing prevalence of lynch law is apparent on all sides and in every state of the Union. The cause of it is not in the people, but in the public officials whose public acts have done so much to destroy public confidence in the official administration of justice."—New Orleans Pycaune.

Well, you, Mr. Pycaune, are not at the bottom, yet. You say "the cause is in the public officials." Now what causes it to be in the public official? There must be a reason, and there will be no solution without a reason. The prime cause must be reached before a remedy can be applied. Why do "officials act so as to destroy public confidence?" Is it because of their innate meanness, or is it because of their environments, that induces them to turn from the administration of justice? This is the trouble with most editors—they do not go to the bottom. The editor of the Amarillo News believes with Henry George, that property and the fear of poverty has degenerated the morals of the people, and that the cause of poverty and the fear of poverty lies in defective political economy. The definition of political economy, reduced to its minimum by Mr. George, is "how to get a living." Prevailing political economy robs the masses for the special benefit of the class es. and this injustice drives to universal injustice. Try the stopping of monopoly, dear Pycaune, beginning with the mother of them all,—that of the lands—ane you will discover it is not primarily with public officials that lynching or any other outrages originate. "Equal rights" is the remedy. Try it.

TO EX-CONFEDERATE VETERANS.

Comrades, we are growing old, and will soon be off the stage of action. We are becoming serious. We need a close organization—an early one—or none at all. Suppose we meet at Amarillo on the 1st. Friday in July, the 5th, prox. and reason together, preparatory to the reunion at Canyon City, July 30, and 31st. If this suggestion is agreed to, then leave your name with J. L. Caldwell, at the Amarillo News Office, himself an ex-Confederate, who I am ready to say is standing for the best that is in it. Panhandle City, Tex. J H Rockwall.

The Amarillo Cemetery Association is a movement in the right direction. Every body ought to become interested. The Evening News has a friend who will take five memberships with nine others who will do the same, and he has no relatives buried there, and doesn't think himself will be. Let all do the same, and the ladies will soon put up the work. Pile in your subscriptions into this office and they will be sent to the association.

Some of Stringfellow & Hume Saddlery Shop boys went a fishing Saturday on the Canyon; but they were back yesterday with full carcasses, and willing minds, and now are spoiling tanned cow hides as usual.

They say that Pat Donahue is a first class harness maker at Stringfellows.

A very capable critic—but possibly a little influenced—said to the reporter: "Miss Sue Beverly sang solo at the Presbyterian church last Sunday—sweetest, best trained voice I ever heard, for her age." All right.

John Reed, erstwhile of this burg, now of Channtng, was with us Mondoy looking well kept.

Mr. J. H. Rockwell, of Carson county was in the city Monday. He says the article in the Amarillo News of the 14th, from Tolstoi was worth a year's subscription. When it comes to economic thought, Mr. R's head is pretty level.

THE CHOCTAW, IS BEING RAPIDLY EXTENDED TO AMARILLO.

Austin, Tex., June 17.—The charter of the Choctaw, Oklahoma and Texas Railway Company, with a capital of \$1,680,000, was filed in the Secretary State's office here today. This is the Texas corporation of the Choctaw, Oklahoma and Gulf railroad. The purpose of the new company is to extend the former road from the boundary of Oklahoma and Texas to Amarillo, Tex., a distance of 112 miles. This extension will pass through the counties of Wheeler, Gray, Donley, Carson and Potter. The incorporators of the company are Francis J. Gowan, Chas. E. Ingersoll, Effingham B. Morris, William H. Jenks and Jas. B. Hood of Philadelphia; J W McCloud of Little Rock, G L Blackford of Denison, S M Madden, R L Stringfellow and W H Fuqua of Amarillo. The general offices of the company will be at Amarillo. Work on this extension is already in progress west from Weatherford, Ok. When completed to Amarillo, where connection will be made with the Fort Worth and Denver City, a new through line between the Texas Panhandle and Memphis will be established.

Shaws resort is, of all others, the popular one.

A couple of men traveling missionaries for the Latter Day Salats, have been in the city a week or more, distributing tracts.

The trial of James Logue for the killing of Mr. Lightfoot, near Washburne, was taken up Monday. A venire of 60 men was summoned, and seven jurors obtained. Another batch of 20 were summoned and the odd juror obtained. Some 60 or 70 witnesses are attending, and the case progressing, but may consume the week.

Miss Sallie Vaughn Douglas of Ft. Worth is visiting her aunt, Mrs. C. M. Hardin.

Go when you please, you will find the elite at Shaw, s After July 1, no stamps will be required on telegraph or telephone messages, bank checks, bonds, certificates of deposit, express receipts, life insurance policies, leases, mortgages, power of attorney, promisorv note, money orders, protests and warehouse receipts.

THE E. C SKINNER DRUG STORE has opened up for business in the old paint shop, first door south of McGee's grain store. Not a very stylish place but they are there with the goods and would be glad to see all their customers at the new stand.

Go when you will, you'll find cash customers at Shaw's,—'cause he gives more for the money.

R. E. McQueen says Harry Beverly is, eminently, a practical man and keeps up the ends of his rows; that as soon as he heard a good rain had fallen on three of his sections he ran forthwith and shelled out three dollars to his pastor.

R. E. McQueen says a good rain fell in Harry Beverly's pasture, 6 miles north of town, on Sunday night.

Rev. Mr. Adkisson, of Amarillo, returned from Stratford Monday and has been assisting Rev. A. W. Rodgers in the meeting all week. He has bought property in Dalhart and will probably move his family here later on.—Dalhart Sun.

The Swift Packing Co., of Chicago posts notices forbidding swearing on the premises. This action of the company covers a multitude of its other sins. There is but a step from profanity to obscenity, and neither ought to be tolerated in any business, much less in social life.

Lulu Kennedy, for killing her husband, was convicted in Kansas City, after a trial lasting more than a week. The following is the verdict: "We, the jury, find the defendant guilty of murder in the second degree and assess her punishment at ten years in the penitentiary." p oik.

Col. L. J. Polk, general manager of the Gulf, Colorado & Santa Fe railway, speaking of the matter of opening up the coal mines on or near the line of the Santa Fe, said it would be an important thing for the railroad, but not as important as it would have been a year ago. "What do we care for oil now—we have oil," he continued. "The Gulf, Colorado & Santa Railway company uses from 750 to 1000 tons of coal a day. Four barrels of oil are equal to a ton of coal. We will get the oil at 20 cents a barrel—it is not being sold at that figure now, but it will come to it. That means that we will get fuel at 80 cents that is equal to a ton of coal. Coal costs \$3.50 a ton. Yes; there is quite a saving in sight. We are having quite a number of engines equipped for burning oil—in fact, one of them is now ready."

Notwithstanding the fact that the local delegates to Democratic state convention are booming Mayor Johnson for governor, Johnson sent a dispatch this afternoon to a Hamilton paper, which asked him if he was a candidate, saying: "There is absolutely no truth in the statement. I would decline the nomination. I would refuse to serve if elected. Is that strong enough? Nothing on earth would tempt me to break my two years' contract with the people of Cleveland.—Cleveland Plaindealer.

Austin, Tex., June 15.—The first State eleemosynary institution to adopt oil as fuel is the North Texas insane asylum at Terrell. In the requisition of the state purchasing agent for supplies for the year beginning September 1, the Terrell asylum applies for 7,500 barrels of fuel petroleum.

Notice to Contractors.

The commissioners' court of Sherman county, Texas, will receive sealed bids and plans up to July 8, 1901, for the erection of a two-story frame court house at Stratford, the new county seat of said county, on the Rock Island railroad; the building to be of best material, four offices and cross halls below, district court room and two jury or witness rooms above, oiled ceilings, shuttered windows, vault, dome, etc. Do not bid unless you can give good bond and begin work at once. Right is reserved to reject any and all bids. Address proposals to undersigned, at Stratford. C. F. RUDOLPH, County Clerk Sherman County.

Amarillo Commercial Club or City Council, or citizen's mass meeting ought to have a committee to look after getting the Denver shops here. Grounds could be donated, anyhow.

EXPLANATION OF WEATHER FLAG DISPLAYS.

The display of weather flags indicates the probable weather for the 24 hours from 7 p. m. of the day on which they are displayed to 7 p. m. of the following days. When the weather changes demand it this period is divided into two 12 hours periods ending 7 a. m. and 7 p. m. of the following day.

The white flag alone indicates fair weather with stationary temperature for the entire period.

The white flag with the black triangular or (temperature) flag above indicates fair and warmer weather; with the black flag below, fair and colder weather.

The blue flag alone indicates rain or snow with stationary temperature; with temperature flag above it rain or snow and warmer; with temperature flag below it rain or snow and colder.

The flag half white and half blue alone, indicates local rain or snow and stationary temperature; with temperature flag above, local rain or snow and warmer; with temperature flag below, local rain or snow and colder.

When more than one flag is displayed they are to be read from the top downward, the upper flag for the 12 hours ending 7 a. m. of the following day. Should the temperature flag be displayed between them it is to be read with the flag closer to it. If closer to upper flag it means colder tonight, if closer to lower flag warmer tomorrow.

When the 3 flags are displayed on equal distance apart, the temperature flag at top means warmer for the entire 24 hour period, and at bottom colder for entire 24 hour period.

When the square flags are displayed with the space between them decidedly greater than the space between temperature flag and the one next to it, the temperature flag next is to be read only with the flag next to it and stationary temperature read for the other 12 hours.

The white flag with black center during winter season indicates a cold wave; during the late spring and early fall it is used to indicate frost.

Cards with key to interpretation of displays can be received by calling at Weather Bureau office.

Responsible parties can secure the forecast daily, stamped on cardboard, and holder for same, by applying to the observer, provided these are to be displayed in a conspicuous place easily accessible to the general public.

It is the purpose of the Bureau to serve the public and measures suggested with that end in view will be very gladly received and if practicable will be adopted.

Any parties desiring any information at our command are always heartily welcome. JAS. F. ATHERSTON,
Amarillo, Tex. Observer in charge.

TO CONTRACTORS.

Sealed bids, for the construction of a courthouse for Hutchison county, Tex., will be received at my office, at Plemons, Hutchison county, Texas, or at H. W. BE AT HOME OF NIGHTS.

Rev. Tom Barcus, preaching at the Methodist church last Sunday night, said the proper place for boys of night was at their homes. This cannot be too strongly emphasized. It may seem a small matter, but it is by no means a small matter. The fact is no other proper place for boys—or fathers either—but at their homes of nights. The mother and wife is miserable—and miserable is a mild term—when the boys are out; and it cannot be otherwise. Besides in the interest of education, proper training and good breeding and family ties, there can be no place substituted for the home. Of course it is not meant that there are not occasions when they may properly be out of nights. The sacrifice of the happiness of home cannot be compensated from any source. It is a serious matter.

"WE THINK HE IS RIGHT."

Chairmen of county and city Democratic committees from many points in Ohio are beginning to drop into Cleveland to confer with Mayor Johnson as to what will be doing at the state convention.

Among these visitors yesterday was H. J. Mertz, chairman of the city Democratic committee at Canton.

"McLean," said he, "will get a delegate from our county this year. Three years ago he got three, but that was due to internal factional disturbances.

"We have no use for the Washington boss down our way, and the outlook for the Democrats sweeping the county was never brighter. Stark county, under normal conditions is strongly Democratic, but the fact that the nation took its president from our county caused a change to take place in its political complexion. That, of course, was due to local pride, but now that McKinley is on his last term and can ask for nothing more, we are going back to our early convictions. If Mr. Johnson will point the way we will do our part.

"Auditor Reed of our county hasn't the sympathy of the people in the stand he took against Mr. Johnson in favor of the railroad corporations. The people are with Cleveland's mayor in this fight that he is making to compel the railroads to pay their share of the taxes. The farmers of this section are especially taken with his plans and will be for him. They are enthusiastic over the matter.

"I see some effort has been made to discredit the mayor's motives in this matter. We don't care anything about his motives. The question is, is he right? That is all we are concerned about. We think that he is.—Cleveland Plaindealer.

"Harrell, what are you working at, now?"

"Workin' nothin'—tried that when a young man—don't pay—make more doin' nothin'."

Sam Thomas brought his little ten-year-old daughter to a physician yesterday. She is afflicted by a new complaint in this region, a swelling and inside bleeding of the cheeks, superinduced from billiousness, so said.

"It is proper that you understand what I deem the essential principles of our government, and consequently those which ought to shape its administration. I will compress them in the narrowest compass they will bear, stating the general principle, but not all its limitations. Equal and exact justice to all men, of whatever state of persuasion, religious or political; peace, commerce, and honest friendship with all nations; entangling alliances with none; . . . a jealous care of the right of elections by the people; . . . economy in the public expense, that labor may be lightly burdened; . . . the diffusion of information, and the arrangement of all abuses at the bar of public reason; freedom of religion; freedom of the press; freedom of person under the protection of the habeas corpus; and trial by juries impartially selected.

"These principles from the bright constellation which has gone before us, and guided our steps through an age of revolution and reformation. The wisdom of our sages and the blood of our heroes have been devoted to their attainment. They should be the creed of our political faith, the text of civil instruction, the touchstone by which to try the services of those we trust; and should we wander from them in moments of error or alarm, let us hasten to retrace our steps and regain the road which alone leads to peace, liberty, and safety."—From Jefferson's inaugural address.
