Reese AFB, Texas

## Security policeman prevents property damage

The surprise on Senior Airman Paul Milinazzo's face was one of joy as Col. Kodak Horton, 64th Flying Training Wing commander, presented an Air Force Achievement Medal to the security policeman as he stood his post at the main gate Wednesday morning.

Milinazzo, 64th Security Police Squadron, was presented the award for his actions in preventing further damage to equipment and personnel at the recreational vehicle park Monday morning.

"You are being presented this medal for your actions above and beyond the call of duty," Horton told Milinazzo when pinning on the medal. "You averted what could have been a very serious situation."

The security policeman was on vehicle patrol, mak-

ing his rounds, Monday morning before normal duty hours. As he drove by the recreational vehicle parking lot he noticed some debris in the road.

"I stopped to pick up the debris because it could be damaging to other vehicles traveling on the road," Milinazzo said. "That's when I noticed a camper had a big hole blown out the side of it."

He immediately called in the damage and two other members of 64th SPS were sent to the scene.

Tech. Sgt. Curtis Montez and Senior Airman Marshall Taylor, 64th SPS, arrived and noticed a small flame coming from the top of the propane stove near the front burner of the blown up camper. That is when Milinazzo went into action.

He climbed the fence of the RV lot to make sure the

Senior Airman Paul Milinazzo, 64th Security Police Squadron, has an Air Force Achievement Medal pinned on by Col. Kodak Horton, 64th Flying Training Wing commander, at the Reese Air Force Base main gate for his heroic actions and quick thinking when he noticed a fire had started at the recreational vehicle park near the Reese Golf Course.

## Newton becomes third AETC commander

RANDOLPH AIR FORCE BASE, Texas (AETCNS) — Gen. Lloyd "Fig" Newton assumed command of Air Education and Training Command Monday from Gen. Billy Boles, who commanded AETC since June 1995. He retires April 1 after serving more than 35 years.

Air Force chief of staff Gen. Ronald Fogleman officiated the ceremony.

Newton, who was the assistant vice chief of staff, Headquarters U.S. Air Force, was promoted to general prior to the change of command ceremony.

"This is a very special day for both families," said Fogleman of the Newtons and Boles'. "Today's ceremony marks a significant milestone for the Air Force and Air Education and Training Command as the authority transfers from General Boles to General Newton."

"I can tell you that General 'Fig' Newton has a long history of success; he commanded two wings in the Air Training Command," added Fogleman. "He has a long appreciation for what this command and the

men and women of Air Education and Training Command can do. He's racked up a great record in the Air Force as an aviator, a warrior and a leader."

"Great moments like this only come to you maybe once in a lifetime," said Newton. "Therefore, you can well imagine that this is a great day for the Newton family. We feel very blessed that the good Lord has shared His blessing with us."

"One does not get selected to lead a command such as this without the help of so many others," added Newton. "First, I certainly want to say thank you to Secretary of the Air Force Dr. Sheila Widnall and our Chief of Staff Gen. Ronald Fogleman for having the confidence and the trust in me to take command of the greatest command in the world's greatest Air Force."

"I would also like to thank my previous commanders, supervisors and co-workers who allowed me to stand on their shoulders and make this all possible."

"To the men and women of this

great command, it's my high honor to be your commander. Elouise and I look forward to working with you as we continue to recruit, train and educate the best and brightest that America has to offer. We are extremely pleased to once again be a member of 'The First Command' and return to Military City USA, San Antonio, Texas."

Newton

# Horton on Newton: 'We are in good hands'

Horton

**Col. Kodak Horton**  
64th Flying Training Wing  
commander

AETC has a new leader! I was fortunate enough to be present as Gen. Billy Boles passed the reins of Air Education and Training Command to Gen. Lloyd "Fig" Newton Monday.

I met General Newton in 1982 at Kunsan Air Base, Republic of Korea, where we flew F-16s together. He was Lt. Col. Newton then,

but after speaking with him after the change of command ceremony I can assure you he's the same down-to-earth person I flew with.

He is a man of integrity and courage, and a true professional. He reminded me, and all of the other AETC wing commanders, that we, "are a force of standards." Whether it's "customs and courtesies" or accomplishing your piece of the mission, there are standards you are expected to meet. People who can't or

won't meet standards need to be appropriately dealt with (This sounds a lot like our Goal #5, appropriately discipline those who can't or won't meet standards.).

The general also stressed there were not going to be major changes just because there's a new "captain on the bridge" at AETC. Rest assured we are in "good hands"; the Command will prosper under his leadership.

Newton is no newcomer to San Antonio. He was at Randolph Air Force Base from May 1990 to August 1991 as the commander of the 12th Flying Training Wing. He also served as commander of AETC's 71st Air Base Group at Vance AFB, Okla., from July 1988 to May 1989.

He was then commander of the 71st FTW at Vance from May 1989 to May 1990.

He is a command pilot with more than 4,000 flying hours in the T-37, T-38, F-4, F-15, F-16, F-117 and the C-12 aircraft.

Newton is a native of Ridgeland, S.C. He earned his commission through the

Reserve Officer Training Corps at Tennessee State University, Nashville, as a distinguished graduate in 1966. After pilot training at Williams AFB, Ariz., in June 1967, he attended F-4D qualification training at George AFB, Calif.

Newton flew 269 combat missions from Da Nang AB, South Vietnam, including 79 missions over North Vietnam.

The general was selected for the U.S. Air Force Thunderbirds, in November 1974. He held several positions including narrator, slot pilot and right wingman.

From 1978 to 1982, he was assigned as an Air Force congressional liaison officer with the U.S. House of Representatives, Washington, D.C. He has commanded three wings and an air division, and held numerous staff positions. From 1993 to 1995 he was director of operations, J3, United States Special Operations Command.

Newton is married to the former Elouise M. Morning of St. Petersburg, Fla. They have five children.

## Chief Ptomey to retire at flag pole

Ptomey

Chief Master Sgt. Dave Ptomey, 64th Flying Training Wing senior enlisted advisor, will have his retirement ceremony April 3, 2 p.m., at the Reese Air Force Base flagpole. A reception immediately follows the ceremony at Ruby's.

The chief retires with 30 years of active service in the U.S. Air Force.

A retirement party will be held in his honor April 4 at Kershner's Four Bar-K Ranch. Social hour begins at 6 p.m. with dinner to be served at 7 p.m. Sign-ups and reservations are being taken at this time. Payments must be given to each squadron's first sergeant before Thursday.

Please join this event to give the chief and his family a memorable sendoff.

# Boles bids farewell to 'First Command'

As I clean out my desk and prepare to hand over the reins of the "First Command," I recall thirty-five years ago when I joined this team. I was a brand new second lieutenant at Keesler Air Force Base, and I knew there was only one way I would survive: do the best I could at whatever the task.

I've built a career on that philosophy, and it hasn't failed me yet. Over the years we've weathered many changes in the Air Force — cold wars and hot wars, buildups and drawdowns, khakis and blues. But the one constant has been the people. I'd have gotten out years

ago if I ever thought there was a better organization to join. But from the folks in Keesler's Student Record Section in 1962 to all the men and women of Air Education and Training Command today, it has been my great fortune to serve on winning teams — every time.

I'm proud to say today's Air Force is better trained and better equipped than when I raised my hand. But our numbers of people and our budget have shrunk.

Our challenge as an Air Force is to keep hiring the best people and keep taking care of them as they serve. Effective recruiting, training and education are essential to

maintaining our quality force.

During my time as your commander, I've never failed to be impressed with the professionalism of the AETC team.

From bluesuiters to civilians to contractors, you've demonstrated an unflinching commitment to our ideals, an unselfishness in your willingness to serve and a dedication to the highest standards of excellence.

It's an honor to have served for 35 years as an officer in the United States Air Force and to have commanded this fine organization.

Kay and I bid you all a heartfelt thank you and farewell. Godspeed.

Boles

# Reese youth center to hold Family Fun Day

**Elsa Summers**  
*Family support flight*

Magic shows and clowns, face painting, a space walk, fire truck demonstrations and a pinata fiesta are just a few of the activities planned for Family Fun Day.

Reese Air Force Base will hold its second Family Fun Day April 5 from 10 a.m. to 2 p.m. on the youth center grounds.

Children of all ages are invited to participate in the festivities.

Door prizes and giveaways, refreshments and lunch will be available dur-

ing the activities.

Bring the whole family out and have a good time.

Making an event of this magnitude a success requires a lot of help.

Volunteers are sought to support this activity. Personnel or agencies and units that are interested, please call Maj. Phyllis Craft, 64th Medical Operations Squadron, at 6149.

For more information about Family Fun Day, call Sara Olguin, 64th Medical Group Behavioral Medicine, at 3739.

For information about other youth center activities, call the youth center at 3820.

Photo by 2nd Lt. Chris Breighner

Cliffy the Clown kept the children in stitches during the first Family Fun Day, April 12, 1996, at the Reese Youth Center. This year's activities are guaranteed to be as enjoyable.

## Reese inactivation ceremony activities schedule revisited

The schedule of events for the week is:

### Monday, March 31:

An **icebreaker and informal evening social** will take place during registration at the Holiday Inn-Civic Center, 801 Avenue Q, from 5 to 10 p.m.

### Tuesday, April 1:

An **inactivation ceremony** for the **52nd and 54th Flying Training Squadrons**, which flew the T-1A Jayhawk and T-38 Talon trainers respectively, and the **64th Operations Group**, will take place in the Reese Club at 10 a.m.

A **barbecue picnic** catered by the internationally famous "Chuckwagon Gang" from Odessa, Texas, will be held on the Reese flight line, in Hangar 70.

Meals will be served from 1-3 p.m. **Meal tickets must be purchased no later than Monday.**

Musical entertainment featuring the Air Education and Training Command Band's Jazz Ensemble "NightHawk" with their "Nostalgic Parade" show and other vintage music from the 1950s to now will be during the picnic.

### Wednesday, April 2:

The **64th Flying Training Wing inactivation ceremony** with Lt. Gen. Clark Griffith, Air Education and Training Command vice commander presiding, will take place on the Reese flight

line in Hangar 82 at 10 a.m.

Music will be provided by the Air Education and Training Command "Band of the West" Ceremonial Band.

Room will be available in the Reese Club from 11:30 a.m. to 5 p.m. to mix and mingle in a leisurely atmosphere for visiting with old friends and new acquaintances.

Refreshments will be available for purchase from 11:30 a.m. to 2 p.m.

The final event of the week will be a **semi-formal evening banquet** in the Reese Club. **Tickets must be purchased not later than Monday.**

Social hour begins at 6 p.m. Dinner will be served at 7 p.m. Griffith is the guest speaker. An audio-visual tribute to Lubbock Army Air Field-Reese Air Force Base will also be presented.

Dancing to the Lubbock band "Masterpeace" will begin after the tribute and continue until midnight.

Coat and tie is the dress for the evening. All military personnel are requested not to wear military uniforms to this event.

### Thursday, April 3:

A **retirement ceremony** for Chief Master Sgt. Dave Ptomey, 64th FTW senior enlisted advisor will happen at the base flag pole at 2 p.m. A reception immediately follows the ceremony at Ruby's.

## ROCC Happenings

### Educational opportunities seminar available

The Reese Options Career Center (ROCC) will be offering an Educational Opportunities Seminar April 3, from 4:30-6:30 p.m. The seminar will focus on career change opportunities in the Lubbock area. Call Kay Dyer at 3305 for more information.

### Unemployment insurance seminar scheduled

The ROCC is offering an Unemployment Insurance Seminar on Thursday from 3-4:30 p.m. The seminar will be in the family support flight classroom. Call Kay Dyer at 3305 for more information.

### ATTENTION: Service members separating or retiring

If you are within 180 days of retirement or separation, or have retired or separated since Oct. 1, 1990, you are entitled to attend a Civilian Options Workshop.

The next workshop is scheduled for April 22-24, from 8:30 a.m. until 4:30 p.m. at the family support flight. Civilian dress is required.

The workshop includes: Resumes, SF-171/OF-612, VA benefits and more. A workshop will be offered every month until July. Res-

ervations are required. Call Kay Dyer at 3305 to make reservations.

### Veteran's job fair at Wayland Baptist University

The 1997 Regional Veteran's Job Fair will be at Wayland Baptist University Lubbock Center (83rd and Salem) on Thursday from 12-5 p.m. Employment fields include: Medical, aviation, management, local and more. Call Kay Dyer at 3305 for more information.

### Updating and creating SF-171/OF-612

The ROCC is offering an Updating and Creating Your SF-171/OF-612 Seminar. The workshop is April 9, from 12-1 p.m. Call Kay Dyer at 3305 to sign up.

### Completing applications set for April 10

The ROCC is offering a Completing Applications Seminar on Apr. 10 from 12-1 p.m. Call Kay Dyer at 3305 for more information or to sign up.

For other workshops or other information, call the ROCC at 3305. The personnel in the ROCC will be able to set up appointments for you.

# They don't just work on Sundays only

The Air Force employs several administrative specialists, and some of them learn administrative skills unique to their job, such as in the hospital or the military personnel flight. The chaplain service support personnel career field is also one that has some very unique duties.

Tech. Sgt. Steve Wachter, noncommissioned officer in charge of the chapel section, said the administration staff takes care of all the support duties so the chaplains have more time for counseling, visiting and performing services. Although the support staff does not counsel, they play a vital role in the process.

"A lot of people are hesitant to speak to a chaplain because they see the rank before the cross, so they talk to us first," Wachter said. "We're not here to cast judgment on people. We're here to help them get the help they need. Everything said is completely confidential."

"We don't counsel, but we might be the only people available at a critical moment," said Senior Airman

Tansa Williams, one of Reese's chapel managers. "We would have to prioritize the situation much like the hospital triages patients and decide who most needs to see the chaplain."

This is especially true during deployments and mass casualty crises. Unlike the chaplains, the chaplain support personnel serve as combatants during wartime, acting as part of a pastoral ministry team. They provide protection for the chaplains and serve as liaisons between the chaplains and those desiring their services.

"The chaplains are very vulnerable during wartime because they are the morale officers, and the enemy knows the devastating effects of low morale among troops," Wachter said.

In peace-time conditions, the staff's duties consist of three traditional areas: religious program support which involves setting up for services and organizing activities for various denominations; financial management which involves accounting for appropriated funds as well

Senior Airman Tansa Williams, left, and Tech. Sgt. Steve Wachter prepare the Reese Chapel altar for Holy Week. Part of the chapel support personnel career field requires the chapel be prepared for all occasions. The Reese Chapel will hold a Chapel Commemorative Celebration April 6, at 11 a.m.

as chaplain funds; and administrative duties which includes preparing correspondence, chapel worship bulletins and publicity.

"A lot of people have a misconception about our enlisted people's responsibilities," Chaplain (Lt. Col.) Steve

Hess, installation chaplain said.

"Some think they just set up for services and answer phones. In reality, they have several other duties that they must perform."

Williams said she enjoys the diversity of the job and

feels that the staff is more cohesive because of the situations they have to deal with.

Wachter said, "If you leave the chapel feeling a little better or clearer about a situation, or spiritually filled after a worship service, then we have done our job."

Photo by Tech. Sgt. Dave Brown

## Thunderbird flight surgeon visits Tech Med Center

Dr. (Capt.) Mark Cavanaugh, U.S. Air Force Thunderbirds flight surgeon, speaks to first-year medical students at the Texas Tech Health Sciences Center in Lubbock.

Tech. Sgt. Dave Brown  
Editor

Seeing a flight surgeon conducting a recruiting speech is a rare sight. But that is not uncommon for Dr. (Capt.) Mark Cavanaugh, U.S. Air Force Thunderbirds' flight surgeon.

The doctor was the featured speaker for approximately 100 first-year medical students at the Texas Tech Health Sciences Center Monday. He was talking about the opportunities for qualified doctors in the Air Force, supporting the West Texas Air Force Health Professions Office of Air Force Recruiting.

Cavanaugh spends as much time on the recruiting tour as he does keeping the Thunderbird pilots in top physical condition. He emphasized the need for quality medical doctors in the Air Force and especially the need for flight surgeons.

"I was a first-year medical student at the University of Oklahoma when my father heard that there was a medical doctor talking about opportunities in the Air Force," he said. "I didn't have a clue what he was talking about so I went to the session at

the school. The chance of having money in my pocket sounded exciting, so I went ahead and applied for the Air Force medical scholarship being offered."

After being accepted, Cavanaugh finished school then experienced the benefits of being a medical doctor in the Air Force, to include becoming a flight surgeon for an F-16 squadron.

"My first assignment was to the 18th Fighter Squadron at Eielson Air Force Base, Alaska," he continued. "I had a squadron commander who didn't really know what I was supposed to be doing because he had never had a flight surgeon assigned before. So I told him I needed to fly, fly and fly some more."

All of his experience in the F-16 ultimately landed him the chance to apply for the Thunderbird flight surgeon position.

"There were at least four others equally qualified for the position, but I was selected," he said. "They could do the same thing I'm doing, and just as well."

His selection was just what the Air Force needed. Now he has the desire to attend training to be an orthopedic surgeon, his love and desire in the medical field.

### MPF Relocation News for Reese

#### Special duty assignment requirements must be met

Any personnel interested in applying for a special duty assignment must contact the 64th Mission Support Squadron personnel relocations element prior to processing their application. Call Tech. Sgt. Donald Porter at 3361.

#### Passport process stops May 1

The military personnel flight relocations section will stop processing passport applications for dependent no-fee and government official passports effective May 1. Call Tech. Sgt. Donald Porter at 3361 for more information and post office locations.

Photo by Staff Sgt. Orlando Guerrero

# Children learn lessons in fire safety at home

**Michael Guzman**  
Chief fire inspector

Each year, nearly 1,000 children age 14 and under die in residential fires.

It is never too soon to teach them what to do in a fire, but keep lessons simple and age-appropriate.

Hold a fire drill three or four times a year, ideally at night, after the kids are asleep.

Most fatal fires occur between 11 p.m. and 6 a.m. Designate an outside meeting spot where everyone should gather.

Here is some advice that might be of help:

□ For children four and under, visit your fire station. A young child may hide from a firefighter if he or she is frightened by the fireman's uniform.

□ It is extremely important to tell your children what a firefighter is and explain that the equipment is used to help save chil-

dren.

□ Have the children listen to the smoke detector.

□ Explain to them that it means they must go outside immediately, without stopping to save a toy.

□ Teach them how to crawl low under smoke. Let your children know that by low crawling they can save their own life.

□ For a child five and older, add some specifics to the training.

□ Map out two escape routes for the children if possible. One exit could be blocked by fire.

□ Teach your children to touch doors before opening them, using the back of the hand.

□ If a door is hot, they should look for another way out or go to a window and call for help. If the door is cool, they should open it slowly and crawl out quickly and cautiously.

□ Demonstrate stop, drop and roll for children who will understand. Teach your children that if their

Firefighter Joe Deleon, back to camera, Reese Air Force Base fire department, helps Joey Walker, son of Staff Sgt. Joseph Walker, Reese Fire Department, try on some of the firefighter's gear.

clothes are on fire, they should stop, drop to the

ground and roll around to put out the flames.

For more information or assistance, call 3686.

## USAF places premium on service before self

*(Editor's note: This is part of a series on the Air Force's core values and core competencies.)*

WASHINGTON (AFNS) — The men and women who make up the Air Force are part of a profession that requires uncommon commitment to serve the nation. Airmen are on call 24 hours a day, seven days a week, 365 days a year. They deploy to the far corners of the globe on a moment's notice and are called on to willingly risk their lives to defend America's security interests.

The core value of "service before self" sums up this aspect of serving in the Air Force. It joins "integrity first"

and "excellence in all we do" as the three fundamental core values of the service that senior leaders reaffirmed in the Air Force's new strategic vision document, "Global Engagement: A Vision for the 21st Century Air Force."

Chief of Staff Gen. Ronald Fogleman has said, "We are not engaged in just another job. We are entrusted with the security of our nation, the protection of its citizens and the preservation of our democratic way of life. By its very nature, our military profession requires us to place the needs of our service and the country before personal interests."

Secretary of the Air Force Sheila Widnall has emphasized that "the

Air Force requires a high level of professional skill; a 24-hour-a-day commitment; and a willingness to make personal sacrifices. Air Force leaders must exemplify this value.

"A leader who is unwilling to sacrifice individual goals for the good of the unit cannot convince his or her subordinates to do so," she said. "Then, the mission suffers and the ripple effects can be devastating."

"Service before self is a crucial core value," the chief of staff said, "because it reminds military members of their duty to put the mission, the troops and the nation before personal desires." He further emphasized that "there is no room for personal agen-

das at the expense of the institution or the nation.

"Instead," the general stated, "we need professionals who strive to do the very best in the job they're in and pursue individual advancement through the success of their unit. Air Force leaders must step forward and set the example for others to follow."

In addition to setting standards, Widnall stressed that true leaders place the good of their troops before personal concerns. Moreover, she said, discipline and self-control are essential.

The chief of staff went on to say, "While we hope that the clause will never be invoked, we must realize it is an inherent part of our military profession, and it applies equally across the ranks and functional specialties — as was so graphically depicted in the tragic deaths and injuries suffered in the Airborne Warning and Control System crash in 1995 and Khobar Towers last June."

On core values as a whole, Widnall said, "They are the values that anchor resolve in the most difficult situations. They are the values that buttress mental and physical courage when we enter combat. They are the values that secure victory for our nation."

### AAFES announces laundry, service station changes

The Army and Air Force Exchange Service at Reese Air Force Base has announced changes to the laundry/dry cleaning service and the service station capabilities.

Laundry and dry cleaning service will continue after March 28 with a pick-up and delivery service in the exchange main store. The service will be located at the customer service counter. Drop off dates are Tuesday, Thursday and Friday

with delivery on Tuesday and Thursday. Please drop off clothing before noon on any of three days.

Alteration service is discontinued. Those personnel purchasing military clothing through the Military Clothing Sales Store should see one of the associates at customer service if alterations are necessary.

The base service station will no longer have a mechanic to support

state inspections and oil changes effective today. Gasoline and retail sales will be available and tires may still be ordered.

For more information regarding the laundry and dry cleaning service, contact Marilyn Braskett at 885-4581 or ask any customer service associate.

For information regarding the service station, call the service station manager at 885-4965.

## Community notes

### Make softball reservations

The Reese fitness center is accepting softball field reservations. Squadrons wanting to start practice need to reserve fields now. Call the fitness center at 6021 for reservations.

### Chapel holds celebration service

The Reese chapel will hold a chapel commemorative celebration April 6, at 11 a.m. in the main sanctuary. The Air Education and Training Command chaplain, Chap. (Col.) Robert Leeds, will deliver the message. This will replace the 11:15 a.m. Protestant service. Call 3237 for more information.

### Questions and answers

A member of the civilian personnel flight staff will host monthly question and answer sessions starting Wednesday. Other sessions are April 29, May 27, and June 24. All sessions begin at 1:30 p.m. and will be in Room 118, Bldg. 920.

### Body fat testing

Health promotions will perform free body fat testing at the gym on Thursday, 11 a.m.-1 p.m. and 3-4:30 p.m. Capt. Deborah Carlton, a registered dietician, will be on hand to answer any questions.

### "Contracting Weekend Bash"

The ninth annual "Contracting Weekend Bash" softball tournament will be held May 30-June 1, at Davis-Monthan Air Force Base, Tucson, Ariz. This has proven to be the annual military tournament you don't want to miss. Champions will walk off

with their choice of new gloves or bats. Contact Greg Manning at (520) 228-2372 (DSN 228-2372) or Dave Rochelle at (520) 228-4183 (DSN 228-4183) for information on entry fees and prices.

### At the car wash

The Reese Top III is sponsoring a car wash March 28 starting at 11 a.m. at the Visitor Center. Donations will be accepted. Call Senior Master Sgt. Marion Tate at 3561 or Master Sgt. Curtis Bartells at 6187 to volunteer.

### Keepsake Roundup available

A special edition of the *Roundup* will be published and available March 31 to commemorate Reese Air Force Base's 55 years of excellence. Each active duty member and civilian assigned to a unit can pick up their reserved copy from their first sergeant.

Contractors should stop by the public affairs office, Bldg. 11, to pick up their edition on March 31. Wing staff agency members can pick up their copy from Master Sgt. Lori DeProspero, 64th Mission Support Squadron.

### Farewell to Gary Grant

Come and call a foul on Gary Grant, fitness center chief, at a Going Away party today at 8 p.m. at Ruby's. The public is invited to wish him and his family a fond farewell. For more information, call Master Sgt. Gustavo Hernandez at 3437 or the fitness center at 6021.

### Junior Smooth Move

The family support flight is offering a Junior Smooth Move for young people, ages 6-12. The seminar will be held on Wednesday, from 5:30 to 7 p.m. The class is designed to take the stress out of moving. There will be refreshments and prizes. Reservations are required. Call 3305 to sign up.

### CPR classes offered

Monday through March 28, CPR classes will be offered. Registration is required. CPR is highly recommended, but not required for personnel PCSing to overseas assignments. If your card is near expiration or CPR certification is required in your next job, please take advantage of these dates. Call 3230 to register for any of these days.

### Equal Opportunity 101

- Q. What military operation was the largest deployment of women in U.S. military history?
- Q. Who was the last monarch of Hawaii?
- Q. Who was the founder of the American Red Cross? (Look for the answer in next week's Roundup)

- Question from March 14
- Q. Where was the first Dutch Settlement in America located?
- A. Ft. Nassau, near Albany, N.Y. (Submitted by Capt. Eric Bass, 64 FTW/SA)

• Submit equal opportunity questions and answers to 64 FTW/SA. The name will be published along with the information provided.

# Spring cleanup keeps housing in shape

**Diane Bailey**  
Housing office

Spring is just around the corner and there is a lot of work to do. So the Reese civil engineers have provided some information for the upcoming growing season.

The spring cleanup housing checklist includes some requirements for lawn care, carports and patios, trash and debris, fences, pet clean up and recycling.

It is important to put about one inch of water each week on the lawn to build up soil moisture. This assists in the growth of the Bermuda grass when the weather warms enough for it to grow.

Some other directions include, cutting grass and edging along sidewalks, drives and curbs. Also, it is important to remove the grass that is beginning to grow in the cracks, crevices, sidewalks, driveways, parking spaces and doorsteps.

If there are bushes or

plants under a window, please trim them to no taller than the window sill level. Remove the dead vegetation from your flower beds as well.

Over the winter months, there is a lot of trash and debris that collects in little used places. Personnel are encouraged to pick up soda cans, paper, candy wrappers and debris from lawns. Also tires, plywood and other items leaning against the house or carport need to be disposed of.

Strong west Texas winds over the winter months have caused some housing fences to be damaged. If your fence needs repair, call Housing Maintenance at 885-3047. Self-help fences must be maintained by the occupant.

Recycling of oil and car batteries needs to be done at the Auto Skills Center. Their hours are Tuesday-Friday from 11 a.m. to 6 p.m. and Saturday from 9 a.m. to 4 p.m. The center is closed on Sunday, Monday and holidays. They are open on goal days from 9 a.m. to 4 p.m.

Children can help in cleanup efforts around base housing. Here, Maggie Verica, top right, daughter of Maj. Robert Verica Jr., 64th Contracting Squadron commander, helps J.R. Sohan water a plant as Kelly and Cady Jo Sohan, children of Maj. James Sohan, 64th Civil Engineer Squadron commander, pick up trash and clean up fallen twigs and branches during the Reese housing spring cleanup effort. Housing yard inspections have started this year and will continue throughout the summer months.

For more information call 3142.

Housing maintenance will assist in disposing of paint and other chemicals.

Curbside recycling pick up is every Monday. Put leaves, grass clippings, hedge clippings and dead

vegetation in garbage bags and place them at curbside. Large items such as tree limbs, branches, roots and bushes should also be placed at curbside. Call 885-3815 for additional information regarding recycling.

Making this a family af-

fair can get children involved in learning the proper way to maintain yards and help in the environment.

Any other questions or problems should be addressed to the housing office, Bldg. 552, or call 3913/3603.

## 64th CES wins AETC environmental award

**2nd Lt. Chris Breighner**  
Deputy chief, public affairs

Reese's 64th Civil Engineer Squadron added the 1996 Gen. Thomas D. White Environmental Restoration Award for Air Education and Training Command to its long list of awards in a presentation here March 13.

"Winning the AETC Environmental Restoration Award for a second consecutive year is a tribute to everyone in the environmental flight," said Maj. James Sohan, 64th CES commander. "It takes a lot of hard work and dedication to oversee and manage the command's largest and most complex restoration program."

The award covers fiscal year 1996.

"We are very proud to recognize Reese as conducting the best restoration program through accomplishments in remediation, innovations to limit contamination and public affairs activities," said Gen. Billy Boles, AETC commander at the time of the award, in a letter to the wing.

The restoration program began here after Air Force initiatives for

environmental cleanup were established in the late 1980's. The goal of the program is to remediate, or clean up, environmental contamination caused by every day operations at Reese over the years.

Paul Carroll, a geologist by trade and a restoration project manager here, said the restoration program is on track and its cleanup efforts are set to expand in the near future.

Preparation and planning of environmental cleanup projects was key in garnering the environmental restoration award, according to Carroll. "We were able to speed up our cleanup projects because additional money became available through the Air Force Base Conversion Agency," he said. Some of the funding was reallocated because other closure bases' remediation programs didn't total the original amount that was budgeted, and Reese's projects were "ready to start."

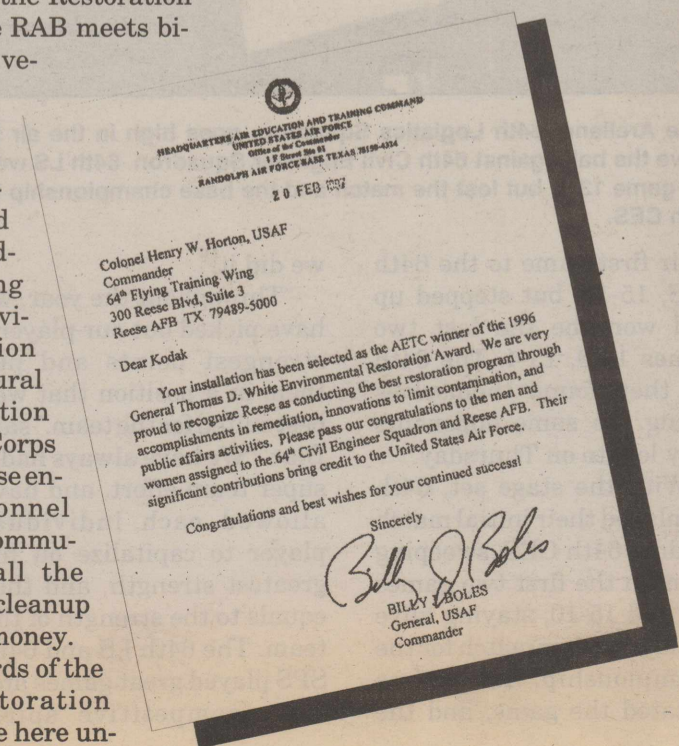

The main components of the remediation program currently operating include two large pump and treat systems to clean groundwater, a soil-vapor extraction system, which

uses a vacuum pump to pull impure vapor out of soil, and regular testing and monitoring to ensure cleanup is attained and all health risks remain eliminated.

Another key element to the award-winning program is the Restoration Advisory Board. The RAB meets bi-monthly and is the vehicle through which the local community can provide input into cleanup priorities and processes and ask questions. In addition, a Partnering Program with the Environmental Protection Agency, Texas Natural Resource Conservation Commission, Army Corps of Engineers and Reese environmental personnel helped streamline communication between all the agencies involved in cleanup processes and save money.

Being good stewards of the environment, restoration projects will continue here un-

til the affected environment is brought up to TNRCC/EPA standards, regardless of base closure.

# Civil engineers claim fourth intramural title

Staff Sgt. Orlando Guerrero  
Public affairs

The 64th Civil Engineer Squadron had to beat the 64th Logistics Squadron to win the base championship. The volleyball championships ended in an intense match-up with the 64th LS falling short and losing to the 64th CES after playing a grueling eight games March 14.

The 64th LS lost their initial game March 13th, sending them to battle it out in the losers bracket and keeping the 64th CES in perfect position to win the play-offs.

The 64th LS found that climb a difficult one, losing

level of intensity could be heard all through the gym as the supporters cheered on their respective teams.

With the teams now squared evenly, each losing once to their opponent, a final championship match was played to determine the outcome. From the onset it seemed that 64th LS was going to finish their opponents off, winning the first game 13-9. But the 64th CES kept their focus winning the next two games 14-12, 14-12.

"I just told them to do what we've done all year long, and that is play volleyball," said Lupe Diaz the coach for the 64th CES. "We knew that we had to get our serves in and that we couldn't score if we didn't get our serves in and

Mike Arellano, 64th Logistics Squadron, goes high in the air to serve the ball against 64th Civil Engineer Squadron. 64th LS won the game 13-7, but lost the match and the base championship to 64th CES.

their first game to the 64th SPS, 15-17, but stepped up and won the the last two games 13-9, 15-4. The 64th LS then found themselves facing the same opponents they lost to on Thursday.

With the stage set, 64th LS played their initial match against 64th CES, sweeping them in the first two games 9-7 and 15-10, staying alive to play another match for the championship. The scores dictated the game, and the

we did it!"

"Throughout the year, we have picked out our players' strongest points and put them in a position that was best suited for the team," said Diaz. "We have always had a super team effort, and have allowed each individual player to capitalize on his greatest strength, and that equals to the strength of the team. The 64th LS and 64th SPS played great games and their competitive spirit

The 64th Civil Engineer Squadron championship team poses for their championship photo. Pictured front row are Beau Weber, Alonzo Guliford, Lupe Diaz, Martin Taylor and Stacey Anason. Top row left to right are Maj. James Sohan (64th CES commander), Jason Schlegel, Brad Voorhees, Jason Brinkley and Master Sgt. Harry Washington (64th CES first sergeant). Not pictured are Chris Sommers, Victor Perkins, Jan O'Harrow and Doug Watts.

helped to add to the excitement of the games."

"Our team played excellent throughout the season. We all knew what we had to do," said Mike DelosSantos, 64th LS team member. "Having been the top seed coming into the play-offs and then winning six out of the eight games and still falling short kind of makes you wish you could have won that seventh game to win the championship."

"From day one, when the season started on February 5, I felt that the two teams that would probably be in the play-offs would be the 64th LS and the 64th CES," said Gary Grant, 64th Services Squadron supervisor of recreation. "You could feel the excitement in the air; these two teams were ready to play."

The 64th CES's success has not just been in the area of volleyball. They also hold four intramural championships in recent months in the areas of basketball, bowling and golf. Maj. James Sohan, 64th CES commander, considers his squadron's success in sports an extension of the esprit de corps and teamwork they've developed while preparing for base closure.

"CE is comprised of people with diverse backgrounds, talents and skills, who blend these attributes together on a daily basis to accomplish the mission. Our success in sports is just another example of these great people working together as a team!"

Despite many distractions and personnel leaving, the teams found the time to get away for a while for exercise and recreation.

The 64th Medical Group, 64th Mission Support Squadron, 64th SVS, 64th SPS, 64th LS and 64th CES all played

Mike Dickerson, 64th Logistics Squadron, prepares to spike the ball against Lupe Diaz, 64th Civil Engineer Squadron. Tommy Doan (number 42) prepares to back up Dickerson.

said Sohan.

This was a competitive season for all sports.

with excellent professionalism, team spirit and camaraderie.
