**TEAM UP FOR YOUR COMMUNITY THE COOPERATIVE WAY.**

Cooperatives help communities grow in a unique way. Cooperatives are owned and operated by the people they serve. That's you, your neighbor, people across town or the city, people in the next county or two.

Local control and local ownership make co-ops special. And the variety of goods and services provided by co-ops benefits the entire community.

Co-ops are organized for credit unions, electric and telephone service, farm marketing and farm supply, housing, florists, news services, insurance, health and day care, and anything else people need that can be provided both efficiently and economically.

All across America there are 45,000 cooperative organizations serving 90 million people. That's quite a team — people working together to build a better community.
