Counts Begins Fifth Term As State Representative

AUSTIN - State Representative David Counts (D-Knox City) was officially sworn in for this fifth term as state representative for the 70th District during the opening ceremonies of the 74th Texas Legislature.

"I am excited about the possibilities for the new session," Counts said. "In previous sessions, we have always come in with a number of court mandates and deadlines to deal with. This time, we are going to have the opportunity to really explore in depth some of the issues facing Texas.

Counts noted education, welfare reform, crime, juvenile crime tort reform, and property rights as some of the key issues for the 74th legislature.

"Education has to be our top priority," Counts said. "The advances in technology and the opening world economies are changing our job markets daily and the only way our kids are going to be able to compete is with a top notch education. It is really encouraging to see how our schools are trying new and innovative ap-

Counts also commented on the issue of juvenile crime. "There is a real movement to crack down on juvenile violence and crime," Counts stated. "It makes sense to go after these kids and help them straighten out their lives now rather than spending thou-

Benjamin Superintendent Has Contract Extended

The Benjamin ISD Board of Trustees has extended the contract of Weldon Koepf as Superintendent for an additional year. The action was taken at the board's regular meeting on Monday, January 9. The new contract will extend through June 1998.

In other action, the board approved monthly bills and salaries and adopted several budget amendments. Amended budget figures show that the district expects to receive approximately \$230,000 more in revenue than

was originally projected for the 1994-95 school year. The increased revenue is partially attributed to increased enrollment and attendance figures for the current year.

Superintendent Weldon Koepf reported that plans are being developed for possible renovation of science lab facilities. Board members also directed Koepf to develop a Handicap Accessibility Transition Plan in order to comply with the standards of the Americans with Disabilities Act.

Youth Basketball To Register Thursday Night In O'Brien Gym

The Knox City-O'Brien Youth Basketball League has announced a meeting of parents at 7:00 p.m. on Thursday, January 26, in the O'Brien school Gym. The meeting will be held to register those youth wanting to play youth basketball this year and to obtain the names of parents who are willing to help with the league.

Parents are needed to help coach teams and to help with a tournament hosted by the league.

Registration fees this year will be structured to help families with more than one child playing basketball. The fee for one child in a family will be \$15.00, two children in the same family will be \$25.00 and three children in the same family will be \$35.00.

Registration fees have to be paid in order for the league to pay for t-shirts, insurance, awards and concession stand food.

If your child plans on playing

in the league this year, parents need to make plans to be at the January 26 meeting with the registration fee and the size of t-shirt the child will wear.

For more information on the league, or on the registration meeting, parents may call Danna Campbell at 658-5145 or Dwayne or Lori Johnson at 658-3082.

Rites Held Saturday For Myrtle Lowrey White, 94

Funeral services for Myrtle Lowrey White, 94, a longtime Knox City resident, were held Saturday afternoon, January 14, at four o'clock in the First United Methodist Church. The Rev. Jim Teeter, church pastor, and the Rev. James Patterson, officiated. Burial was in the Knox City Cemetery with Smith Funeral Home in charge of arrangements.

Mrs. White died Friday, January 13, at her residence.

Born October 13, 1900, in Knox County, she had taught school in Knox City and Union Grove. She was the last survivor of the late Mr. and Mrs. A.B. Lowrey Sr., who were pioneers of Knox County. She was a secretary/bookkeeper for West Texas Utilities for eight years. She married Henry Lester White on December 24, 1919, in Knox City. He preceded her in death on May 6, 1943.

Mrs. White graduated from Knox City High School and attended Simmons College in Abilene. She was a member of the Knox City Study Club and the First United Methodist Church in Knox City where she was active in all departments as long as her health permitted. She was active in civic and school organizations

of her community.

Mrs. White was also preceded in death by six sisters and three brothers.

Survivors include a son, Henry Lowrey White of Knox City; a daughter, Ellena Fayne (Mrs. W.H.) Tamm of Cibolo; six grandsons, six great-grandsons, two great-granddaughters, several step-grandchildren and numerous nieces and nephews.

Grandsons John Clay, William Clay, Patrick Clay, Michael Clay, Wade Arledge and Adam White served as pallbearers.

AHA Makes It Easier For Locals To 'Get Message'

More Knox City residents will "get the message" about heart disease and stroke, the American Heart Association's Knox County Division announced.

To reach more people, the AHA has produced six "easy-to-read" educational brochures on each of the four major risk factors for heart disease and the warning signs of stroke and heart attack.

"These brochures are targeted to adults with low to moderate reading skills, lower socio-economic status populations, people over 55, or those who like simpler reading materials, Dorothy Dykes, president of the American Heart Association's Knox County Division.

The brochures, which also are printed in large type with colorful illustrations, include: "Doctors Answer Your Questions About Blood Pressure", "Your Heart and Cholesterol", "Smoking and Heart Disease", "Why Exercise?", "Signs of A Heart Attack", and "Signs of a Stroke".

Knox City patients can learn more about their treatments when they experience a cardiac event or stroke, thanks to the AHA's easy-to-read Patient Information Kit which is available primarily through the American Heart Association's North Texas Regional Office.

The kit has 11 reproducible illustrated sheets on topics related to the causes and treatment of cardio vascular disease - the nation's No. 1 killer. Presented in an easy-to-read format, the topics

are angina, heart failure, angiograms, heart valve, aphasia, intensive care unit (ICUs), coronary angioplasty (PTCA), pacemakers, coronary artery bypass surgery, stroke and heart attack.

"The sheets will be given to the patient and family members by the appropriate patient educator in the intensive or coronary care unit," Mrs. Dykes said.

"Ideally, they will be given out when there is an opportunity for question and answers about the patient's diagnosis, treatment options and need for lifestyle change."

For more information, contact the American Heart Association's North Texas Regional Office at (817) 761-5994 or call 1-800-AHA-USA1 (1-800-242-8721).

The American Heart Association spent more than \$226 million during fiscal year 1992-93 on research support, public and professional education, and community programs. The AHA is the largest voluntary health organization fighting heart disease and stroke, which annually kill more than 923,000 Americans.

METER TAMPERING NOW A FELONY

The State of Texas has recently adopted an amendment to the State Penal Code making meter tampering a third degree felony. A third degree felony comes with a punishment of confinement in the Texas Department of Corrections for a term of not more than 10 or less than 2 years. In addition to imprisonment, an individual adjudged guilty of a third degree felony may be punished by a fine not to exceed \$5,000.

Before the amendment of the new law, it was a class A misdemeanor for meter tampering unless the loss of service was more than \$200. Under the new law, any meter tampering regardless of the amount of loss is now a felony of the third degree.

Meter tampering consists of, but is not limited to:

- (1) Diverting electricity from passing through a meter device.
- (2) Preventing electric service from being correctly registered by a meter device.
- (3) Unauthorized activation of electric service.

As a special note to our members, it will also be considered meter tampering if a meter is reset and electrical service is restored by anyone other than a Cooperative employee.

All Cooperative meters are sealed. This seal should not be cut or broken without special authorization. In cases where the seal must be cut for emergencies the Cooperative should be notified as soon as possible so that the meter can be resealed.

Foodfaraw - Following a brief hospital stay, my husband received a questionnaire asking him to grade the facility in several different categories. For the most part, he gave them high marks. However, at the end of the form, under "other comments," he wrote: "My principle motivation in striving to lead a law-abiding and upright life is the fear that prison food might be the equal of that served in your hospital."

Representative Counts Begins Fifth Term In State Legislature

sands of dollars to keep them in prison as adults."

"One of my proudest accomplishments is helping promote fiscal conservatism in Texas government," Counts said. "There are alot of folks who like to talk about not raising taxes, but the legislature was actually able to pass a budget without raising taxes for 1993-1994, and we are going to do it again for the 1995-1996 biennium." Counts also noted the proposal to abolish the state treasury and his own efforts which have already helped to cut 486 employees from the Texas Department of Insurance as ways in which the legislature has been cutting fat from the budget and reinventing state government.

Counts, who has served as Chairman of the House Natural Resources Committee and as a key member of the House Insurance Committee, also plans to be active in these endeavors, especially regarding protection of pri-

vate property rights and insurance reform.

Despite his active participation in a number of various issues, Counts says his main objective is representing the people of District 70. "I am so proud to represent the fine folks of this district. I have lived in Knox County my entire life and feel it is an enormous privilege to represent my friends and peers here in West Texas."

In an effort to make his office more accessible to his constituents during the 74th legislative session, Representative Counts announced a new 800 number of his capitol office. The new number is 1-800-308-2769. The previous number, (512) 463-0480, can still be used to contact Counts' Capitol office as well.

Constituents from the 70th District can also call 1-800-253-9693 for information regarding the status of a bill.

End Of Year Reminders From Social Security

By Patty Brandt, Resident Representative in Vernon

Do you have a child age one or older who doesn't have a Social Security number? Have you changed your name this year (through marriage, divorce, or any other reason)? Are you receiving Social Security Benefits and you've moved this year? Did you work this year while receiving Social Security benefits and earned more than the annual earnings limits?

If you answer yes to any of these questions, you should be talking to Social Security as soon as possible. If you are receiving benefits, failure to report these changes may affect the amount of your benefit or whether you receive them on time. If you are not receiving benefits, failure to report them may affect the amount of your future benefits.

Check Social Security Numbers On Tax Returns

The law requires you to list a Social Security number on your tax return for all dependents over age one. Also, for the first time, the IRS will be delaying returns that have incorrect Social Security numbers until they are corrected. So you should be sure you have a correct Social Security number for yourself and any dependents before you file your next tax return.

Report Name Changes To Social Security

If you changed your name this year (through marriage, divorce, or any other reason) and haven't made sure your new name is listed on your Social Security card and in Social Security's records, there may be problems posting your earnings to Social Security's files. (This could reduce your future Social Security benefits.) Also, the Internal Revenue Service may have problems processing your tax return.

To get a replacement, you need an identifying document, such as a driver's license. To change the name on your card, you need documentation that shows both your old name and your new name. If you were born outside the United States, generally you also must show proof of U.S. citizenship or lawful alien status. Your replacement card will have the same number as your old card.

Report New Address Changes To Social Security

If you're receiving Social Security benefits and you've moved this year, make sure we have your new address. (Sometimes people who have their checks sent directly to their bank forget to tell us about a change in their mailing address.)

You must notify the post office and Social Security immediately if you change your mailing address. In fact, failure to report a change of address is the leading cause of checks not arriving on time. Your report should include your claim number, your old address, and the new address, including Zip code. Give the names of all family members who receive benefits or information at the new address.

You should report a new address even if you have direct deposit because important letters from Social Security are sent to your mailing address, even though your benefits go directly to a bank. Your benefits could be stopped temporarily if Social Security cannot locate you because you have not reported a change of address.

Report Excess Earnings To Social Security By April 17, 1995

If you received Social Security benefits, worked in 1994, and earned above the annual limit, you need to report your earnings to Social Security by April 17, 1995. The 1994 limits were \$8,040 for people under 65 and \$11,160 for people 65-69. If you were age 70 for the entire year, the earnings limits do not apply to you.

Texas Licenses To Have New Look In '95

Texas driver licenses will have a new look beginning early in 1995. The new licenses will be more convenient for Texas' 15.6 million license and identification card holders and will provide more security features, according to the Texas Department of Public Safety.

"We're always looking for new ways to prevent criminals from using driver licenses for illegal purposes," said DPS Director Col. James R. Wilson. "The new licenses and identification cards will be much harder to forge or alter. A real bonus is that the same technology that makes the new licenses more secure will greatly reduce the time it takes to get the card into the hands of the owner."

The DPS will begin phasing in the new technology in January. New licenses will be available in all 243 towns and cities with driver license offices later in the year.

Current licenses need not be replaced. They will continue to be valid until their expiration date. Fees will remain the same.

The new license will have a look similar to a credit card, but will be easy to distinguish because of colorful images of the Texas flag and Texas seal against a beige background. New digital imaging technology also will enhance the licensee's photographs.

"The new format will include a magnetic stripe, a bar code and a special laminate to maximize security," said Judy Sibert, DPS project manager for the digital image driver license system. "Licenses issued for Texans under the age of 21 will look different from regular licenses, making it easier for merchants to determine a customer's age."

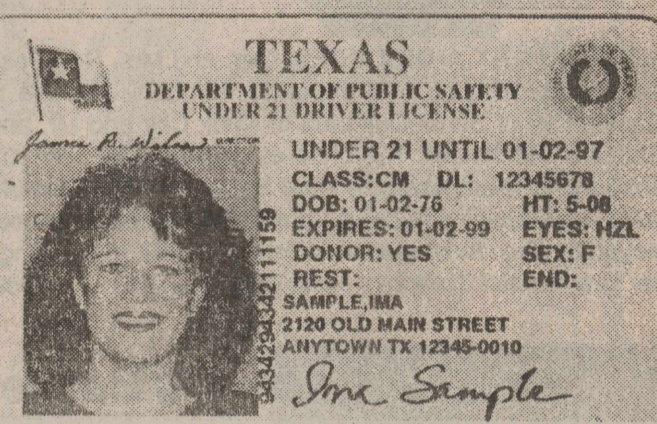

The application and renewal procedures will change very little. Applicant's thumb prints will be taken using imaging equipment, eliminating the mess of ink. Photos will be taken with video cameras linked to computers, allowing technicians to better assure a good likeness of the applicant.

"A real benefit to licenses is that the new system will allow us to get the license in their hands in fewer than 10 days, instead of the current four to six weeks," Sibert said. "And as merchants adopt equipment capable of reading the magnetic stripe, these new cards will speed up check acceptance."

Sibert said another security feature will be a laminate embossed with the word "TEXAS" in lines on the front. The "TEXAS" will glow under ultraviolet light.

Drivers with good records will continue to be able to renew for a second four-year period without returning to a license office.

The last major change in licenses was made in 1968, when pictures were added and the use of paper licenses was discontinued except for temporary licenses, learners' permits and certain special needs licenses.

A study in the Archives of Internal Medicine maintains that living wills can save about \$60,000 per patient in medical costs. Researchers studied 474 patients who died in a hospital during 1990-92. Bills for those without living wills were three times as high.

In a fitness study, 40 residents of California nursing facilities were able to increase stamina dramatically by participating in a 5 month walking program, 1/3 of participants increased the distance they would walk by 200%.

CBI Students Learning Valuable Skills Through Involvement In Community

By STACY ANGLETHOMPSON

Students in Knox and Haskell counties with special needs and challenges are being given the opportunity to gain skills in Community Based Instruction. The program is a cooperative effort of the two county school districts served by the Haskell-Knox Consortium.

This program is provided for students who receive special education to gain skills in the natural environment, providing experience for life after graduation. Local community members offer most of these opportunities for students needing to utilize their skills. Students and their training schedules are coordinated with their individual education plan.

Training sites are chosen to meet the appropriate needs of each group of students. Students are not paid as they are obtaining training experience in the actual community setting, as well as gaining job skills.

A job coach (school personnel) will be present at each site to provide the students with independence on task.

Time on the job training site is usually 1 to 1 1/2 hours, two to three days a week, depending on the individual needs. Training sites can be churches, community buildings, school facilities or private businesses.

Students rotate among the job training sites every six weeks. The same site may be used each six weeks for a different group or individual. At any time an employer is dissatisfied with the program, they may relay this information to the job coach and the student will not return for further training.

ABRAM ESPINOSA is among students participating in the Community Based Instruction program giving the students the opportunity to gain skills.

mation to the job coach and the student will not return for further training.

Data is collected concerning the progress of each student with the goal in mind for each student to progress toward independence.

All parents, principals, and employers are informed of all aspects of the program and encouraged to work together to benefit the student's needs.

With this program, hopefully, the needs of each student are best met through direct instruction in the local community settings where the students live, work and play and will most likely function productively in the future.

Students participate in the program two days per week to training sites and one day a week with job exploration, such as a field trip; and two days in classroom instruction.

Each six weeks, students move to another location to provide a sampling to see what best interests the students.

Claudia Tidwell is the instruction and job coach; assisted by Melanie Dillon and Pat Grimsley, as job coaches. Mrs. Tidwell noted that the reception to the program has been "fantastic" and that businesses, as well as the community, had "opened their arms to both the coaches and students."

Participants in Knox City are Supply House, Carolina's Cleaning Service, the Knox City lunchroom, the Foursquare Church, the Methodist Church, the Art Stall and Frame Shop, Debbie's Restaurant, Dillon Greenhouse, First Baptist Church - Knox City, First Baptist Church - O'Brien, and the Lady Bug Shoppe.

Mrs. Tidwell is grateful to those participating in this important program for their cooperation which is providing successful and stable futures for these students.
