Children between the ages of 7- 16 attend at no cost to their parents. The camping program is specially adapted in order to accommodate each child's individual needs. A well-trained staff supervises each camp activity with a ratio of one counselor to two campers.

## Sunday Storms Hit Area Again

The area was hard hit again Sunday evening when strong winds and heavy rain pelted several miles south of the Brazos River.

The storm hit about 7:30 p.m. and the M.L. Verhalens said it was "scary". At the Verhalens place, about six miles north of town, the winds blew 12 pieces of sheet iron off the barn, ruined a gazebo, and uprooted a number of trees.

The Bruce Railsbacks, who live near the Verhalens, had a covered deck blown over, a heavy cover over the chimney was blown off, their mailbox was blown down, and a big mesquite tree in their yard, split into.

The Jimmy Ray Albus, who live about two miles east of Knox City, had a TV antenna blown down, a swing set in the backyard slammed into the fence and shed, tearing a hole in the shed, and the trampoline was whisked away during the storm. Stan Wojcik, crop duster, spotted the trampoline from the air, 200 to 300 yards from the house in a tangled mess, Mrs. Albus said.

The place across the highway from the Albus had the long-standing windbreak destroyed, snapping off and breaking most of the shelterbreak trees. A rolling sprinkler was blown onto the road out of the field from the dangerous storm that was moving from the east to the southwest.

Baker Performance, just east of the Albus place, had its south fence toppled after a dumpster was blown into it. Several of the chemical tanks were blown out into the field south of the plant. Julie Schur, an employee, said they suffered some ceiling damage, and a number of electrical lines were down.

Jack Tankersley, who lives about two miles south of town, lost a roof off a 14'x100' barn just west of his house.

## Tom Moorhouse: Living His Dream

Wichita Falls TX, (August 7, 1996) ... At the 1955 Texas Ranch Roundup, one man, with his family and his cowboys, took home all of the honors. Tom Moorhouse of the Moorhouse Ranch, won Top Hand, his horse was named Top Horse, and he and his cowboys earned the Winning Team honor. Any one of those wins would have put a smile on a cowboy's face, but the triple win had the crowd erupting with cheers.

The crowd waited for Tom Moorhouse to step forward when his horse, Shiney, was named Top Horse. However, what they saw was a long-legged cowboy running, with the stops out, to the other end of the arena; Tom rode Shiney back and then accepted the award.

Right in the middle of the rough and tumble arena of roundup, here was demonstrated a sensitivity that spoke volumes about this man named Tom Moorhouse. "I gave Shiney his name because he just reminded me of walking along the path, looking down and finding a bright, shiny silver dollar," says Tom. "He is my all time favorite horse because he can always do what needs to be done - and now, when my little six year old boy rides him, Shiney knows how to take care of him."

Appreciation, respect, trust - these are the words that Tom Moorhouse uses when he speaks of his family, his cowboys, his friends, his horses. These values and his philosophy about life started 49 years ago, when he was born in Knox City, Texas to Togo and Louise Moorhouse. He is the third of four boys in the family, and with the exception of four years while attending Sul Ross College in Alpine, he has always lived on the family ranch.

He remembers his young life and tells of the beginning of his dreams. "I can remember when I was too little, but wanted to go with my Dad and the hands when they left home to ride and work cattle. And then, when they came home, I would listen to all of their stories, says Moorhouse. "I can remember their smell - like dirt, and I thought it was neat. And then, I recall the chuck wagon camp site; a bunch of men working, riding bucking horses, telling yarns. They made a very high impression, they were my idols and I thought that anyone who was anything was a cowboy," continues Moorhouse.

The ranching heritage was strong in his young life; his grandfather ran cattle in the Indian Nation of Oklahoma. He remembers listening and absorbing the business manners of his father. "A friend would stop by to do business and he and my dad would stir up a little toddy and make a trade."

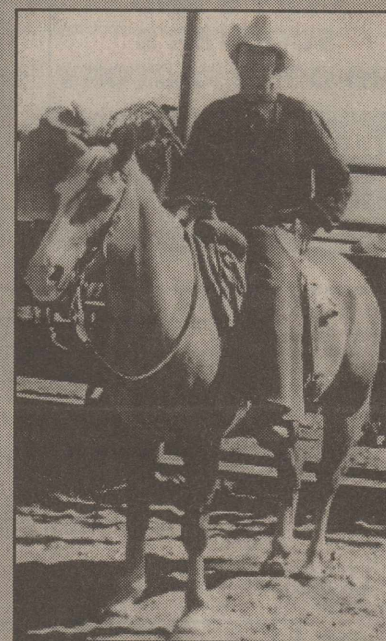

Moorhouse reflects on his decision about his own choice in becoming a rancher, "I don't know how much is genetics and how much is environmental," he says. "But I know the main motivating factor for me being a rancher and living this lifestyle is the feeling like I am where I belong, doing what I understand...doing what God put me here for. My inspiration comes from God, my wife, my family, my co-workers, my friends. I also have a great appreciation for nature and animals."

Living on the ranch may seem pretty isolated to urban people, but for Moorhouse, it has some important pluses. "I don't know if we are more naive, or we are more trusting; whichever it is, I like it," says Moorhouse. "We don't change as much and things are much slower than urban life. But, we have to keep moving; sometimes all day and all night if fighting fires or calving a heifer. But we don't consider this a hardship - we think of it as a challenge. I know there are a lot of differences in our lifestyle and urban people, but I think we can learn from each other."

Along with the dreams of "handling a lot of men, a lot of horses, and a lot of cattle, there was another dream - one which started early and has grown with the man. "I want to be known as a Christian man. I want to continue to improve my personal self doing more for others - thinking more of others. Being able to maintain friendships, having people know they can trust me. The older I get, the more I realize that these are the things that are important."

When asked about his favorite days, Moorhouse quickly breaks the topic into two areas. "On the personal side, a favorite day is being with my family, visiting and having a good time, cooking a little beef steak outside. And then, there is the time in the spring and fall - not too hot, just cool, perfect weather

"Vanishing Tact - As our company's only female executive, I took care to dress in a professional manner. One morning, I was feeling especially spiffy, sporting a new outfit. "You look fantastic," said David, my new co-worker. "Your clothes are so stylish, and your hair always looks great." And then to add a final compliment, he said, "Gee, you must get up at the crack of dawn!"

### 1996 Property Tax Rates in KING COUNTY

This notice concerns 1996 property tax rates for KING COUNTY. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

	General Fund	Farm to Market/ Flood Control Fund	Special Road/ Bridge Fund

#### BIRTH OF THE TAXPAYERS PARTY

"... a new independent force called the United States Taxpayers Party has been started to counter the political philandering of professional Washington officials and bureaucrats - both Republican and Democrat. This new political party convened its historic initial National Convention in September of 1992. Some of America's most eminent political activists, authors, and advocates gathered in New Orleans to craft a platform and a plan of governance based on a return to America's founding principles of Constitutional liberty."

"... And let us all now summon to our banner all who would join us to battle for the reconstruction of the American republic - and the restoration of these United States to our Biblical and constitutional heritage of liberty and freedom under - not freedom from - the laws of God..." ## Tom Moorhouse

From Page One

when we take the wagon out," says Moorhouse. "The day starts before dawn; you can smell the cookfire, hear the bacon cooking, and then we will shoot the bull, get the horses ready and talk about plans for the day. We will work hard all day so hard that we can barely unroll our beds, lie down and know that a lot has been accomplished. That is another kind of good day, states Moorhouse. "It makes me happy."

"I am thankful because I've gotten out of life what I wanted," says Moorhouse. He doesn't linger much about "difficult times" when it comes to his business; "Sure, we've had some tough times, but never terrible times in business." However, when reflecting on the worst time in his personal life, he tells of his loneliness, his searching for answers and his not understanding when his first wife, Sue, died. "I couldn't understand why it happened. It hurt me. I remember walking the roads at the ranch at night, thinking about all of it. I still don't understand it, but now I know that is just a part of life."

"And then I met Becky and I am happy," says Moorhouse. "Having my children with my first wife and then having a child with Becky have been the happiest times of my life."

Family, his heritage and his personal values are the things that Tom Moorhouse has dreamed about, grown into and contributed to for 49 years. As dedicated as he has always been to this lifestyle, he states "Yes, I want my children to continue this lifestyle ... but only if they want to. They may not all be in the cattle business, but I think they will remain knowledgeable and remember their heritage."

It seems likely that his children will remember because they have a father who has followed his dream, captured it, and continues to share the richness of it with them - and all who know him.

Becky remembers hearing about her future husband from other members of her family, but it wasn't until 1989 that she met him after returning to her hometown, Seymour. Six months later they were married. Her admiration for her husband covers the spectrum of their lives together. "He has kept up with the ranch as it has doubled in size - and he has kept up with his family as it doubled in size."

His daughter, Jody, becomes thoughtful as she speaks seriously of what her dad has meant to her. "He is an admirable person. He is unselfish. He has been a teacher to me - not only has he taught me about cowboying, but he has taught me about working with people. He believes in treating people equally, no matter what their status is in life." And then, a grin sweeps her face as she tells of the side of her father that is not

always the first impression of Tom Moorhouse. "He has a sense of humor - he can be witty - really kinda smarty. He is serious about many things, but he has that side that is fun and mischievous."

It seems that Tom Moorhouse, the 1995 Top Hand at The Texas Ranch Roundup, has long been considered a "top man" to all who know him.

The Texas Ranch Roundup will celebrate its sixteenth year at Wichita Falls, TX on August 16th and 17th. Nine historical ranches in Texas will gather to compete for the honors that Tom Moorhouse won last year. "Yes, I'm proud of what we won. Getting Top Hand rejuvenated my personal confidence and I thought ole' Shinye was the Top Horse there. As far as getting Winning Team - yes, we were, but every ranch there is a winning team. The wind just blew a little different for us; it could have been any of them, says Moorhouse.

## Letter To The Editor

August 13, 1996

Friends, it is time to restore Godly morals in an immoral world. This letter is in response to a Letter To The Editor written last week which claimed that homosexuality was a "genetic issue" rather than a moral issue.

As we begin this search for truth, it must be known that the information recorded in this article is based on the infallible Word of God, the Bible; not from fallible mankind. 2 Tim. 3: 16, 17 informs us that "All scripture is given of inspiration of God and is profitable for doctrine (teaching), for reproof, for correction, for instruction in righteousness: that the man of God may be perfect, thoroughly furnished unto all good works."

Looking to the book of Genesis chapter nineteen we find God's lack of tolerance for the sin of homosexuality. For one to gain a fuller understanding of this lack of tolerance, read the entire chapter. But in verse 24, we read, "Then the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven". God has no tolerance for the sin of homosexuality! Furthermore, one would be wise to read Leviticus chapter eighteen. We are told in Lev. 18:22 that "thou shalt not lie with mankind, as with woman-kind: it is an abomination. Homosexuality is an abomination in the sight of God!

Finally, we are told in Heb. 13:8 that God is the same yesterday, and today, and forever. As God had no tolerance for homosexuality in the days before Christ, the same is true in the days after Christ. We read in Romans 1:31, in a list of sinful activity, that homosexuality is not natural. So for one to claim that this is not the case, that homosexuality is a "genetic issue", shows a lack of knowledge of the Word of God.

In regard to the leaders of our country, may we do what is instructed in 1 Tim. 2: 1-4; may we pray for them that they will base all laws on the Word, the only source of infallible knowledge.

Restoring Godly morals in an immoral world requires that we all, without exception, make a return to the Bible.

## Help Your Student... Make the GRADE!

Being in good physical shape helps your student achieve excellence in the classroom and on the playing field. Be sure that your student can see the blackboard, hear the teacher, and has enough energy to complete homework assignments. And, if your student is participating in sports (even if it's just kickball or jump rope on the playground), it's a good idea to get a pre-school checkup. How long has it been since your child had a general physical, hearing test, or eye exam.

You'll have a more successful athlete AND student if you take the time for a pre-school checkup.

NEW FACULTY ON THE KNOX CITY ELEMENTARY campus this year are Lorra Lierly, first grade teacher; and Lou Ann McGowan, special education. (NEWS Photo)

NEW FACULTY FOR O'BRIEN MID-SCHOOL are from left, Dala Young, language arts and also high school girls' volleyball and basketball coach; Becky Renfro, math; and Eddie Bland, principal. High school faculty will appear in a later issue of the News. (NEWS Photo)

O'BRIEN MID-SCHOOL PRINCIPAL Eddie Bland is starting a tradition he brought with him from his metroplex employment. The award "Above and Beyond" will be presented to those who do just that and the recipient of the first "crowning" honor is school secretary Judy Lain. Bland praised Mrs. Lain for her handling of this year's school registration. With his being new to the administration, her efforts were invaluable. (NEWS Photo)

NORTH TEAM 'ALL STAR' DUANE TOLIVER of Knox City had his own team of supporters when he played in the McDonald's North-South High School Football All Star game on July 30 in Houston. Shown here with Duane are the children of Rob and Joany Wills, Duane's former high school football coach and high school counselor here in Knox City. From left to right are: Michael, Duane, Marshall, and Mitchell. The Wills family moved to Christoval this summer. Others from Knox City attending the game to watch Duane were Kent DeVille, and Jimmy and Sandy Chappell, along with their children, J.C. and Taylor. (Sandy Chappell Photo)

### Rule Changes For 1997 Market Goat Show

The Knox County Junior Livestock Show Board of Directors met Monday, August 5, in Munday to discuss changes in the Market Goat show division. This division was added into the rule books recently. After the rules were released to the public, several suggestions were made for changes.

Only two rules have been changed. The first deals with the horns. Originally it was decided to have all goats dehorned. After visiting with local veterinarians, Show Board members realized that dehorning a goat can be fatal. The rule has been changed to "all goats must have tipped horns." The second rule that has been changed is the weight restrictions.

Originally set at a minimum of 50 pounds and a maximum of 110 pounds, the rule now sets the limit between 50 and 135 pounds.

Anyone planning to show a market goat at the 1997 Knox County Junior Livestock Show needs to contact their ag science instructor or the Knox County Extension Service. All goats will be required to be validated for this show in October. An accurate count of goats to be shown is needed so the proper number of ear tags may be ordered.

*We wish to express our heartfelt thanks and appreciation to our many friends, relatives and neighbors for the kindness and sympathy shown us in the loss of our beloved husband, father and grandpa, Dwayne. A special thanks for all the phone calls, cards, food and the beautiful flowers. We appreciate everything so much.*

## Benjamin News

By Gladene Green

The "stormy-like" weather on Sunday did not bring much moisture but did provide a little and made it much cooler. Neighboring towns and communities did get some rain but also had some minor damage in places so guess in a way, we were very fortunate.

### CONCERNING OUR ILL

Bud Clower is having some pretty good days now. As his wife, Debbie put it - "he's improving all the time". We are so glad to hear that. Bud began physical therapy on his leg recently and hopefully after a while that will alleviate some of the pain he has had for some time. He stays in a good frame of mind and we all know that is good medicine for anyone.

Great news concerning little Devin Jones! Remember she was to begin chemotherapy last week after having had a tumor removed from her brain? But the Lubbock doctors checked, re-checked and kept conferring with M.D. Anderson and they determined that the tumor was not malignant and no treatment was necessary at all. She will have to determine just what caused the trouble but the fact that it is not as bad as first thought is such good news. Please continue to remember these friends in your prayers.

### SHOWER HONORS BRIDE

A post-nuptial kitchen shower honoring Kathy Bufkin Rainwater was held Sunday in the home of Susan Cartwright.

Refreshments of cookies, mints and punch were served the guests.

The honoree received many useful things for her kitchen and cookbooks to go by when she's using them.

Hostesses were Linda Waggoner, Sue Oxford, Barbara Pierce, Jo Cartwright and Susan Cartwright.

### SHOWER HONORS MOTHER-TO-BE

A pink and blue shower honoring Bonnie Bohannon was held Tuesday night in the meeting room at BJ's Country. Special guests were Bonnie and her mom, Betty Bohannon.

Many useful things were received for the new baby-to-be.

Cookies and punch were served the guests by the hostesses, Cindy Josselet, Judie Whitten, Gaye Neal, Connie White, Janet Reed, Joy Lynn Ledesma, Charlotte Welch, Marsha Condron, Louise Hertel and Janice Tolson.

### HERE 'N THERE

Bob and Bobbie Goodwin of Earth were weekend guests of Roger and Betty Bohannon and family.

Pat Garza of Petersburg is here for an extended visit with her sister, Barbara Pierce and family.

Kenneth and Jessie Roberts spent several days last week with her brother, Art Stoy and his wife in Hereford.

Casey Conner of Big Spring visited his granddad Bud Conner last week. He returned home on Monday with his sister and her husband, Bobby and Stephanie Brannan, who spent the weekend with Bud and also with his mom, Gertrude Brannan and other relatives and friends.

Kim Moore and daughter of Spur spent the last of the wee with homefolks.

Donna Millican and children have moved to Benjamin and are living in the rent house of W.T. Cartwright. Donna has two children, ages 13 and 8, who are looking forward to life in a quieter place. They have always lived in the Fort Worth area. We are glad to have these new residents and welcome them to our community.

Rebel Rainwater was in Austin

last week having some dental work done. I saw her on Sunday and she's still got a sore mouth but it's getting better. She had her talking and eating habits curtailed for a few days.

Jeff Pierce of Gail visited briefly with his parents, Sammy and Barbara, during the weekend.

Dorothy Spikes tells me that her kids, Guy and Donna and family, have a Japanese exchange student in their home for six weeks. He's 12 years old (the age of the Spikes' son, Matthew) and is having a good time learning about ways of life in Texas. This coming weekend they plan to go to the Ranch Roundup in Wichita Falls. This exchange program is a 4-H project.

### NOTICE !!

Louella Tolson has lost an amber colored deviled egg plate sometime during some community gathering at the Ex-Student Building. The dish was special to her as it was a gift to her from a dear friend. If you know anything about this plate, give Louella a call. She would appreciate it.

## Bloodmobile To Visit August 20

Type O donors are in high demand: O-positive blood is needed because it's the most common blood type. More than 39 percent of the population has O-positive blood. While only seven percent of the population have O-negative blood, it is the type of blood most frequently used.

Eligible donors - no matter what blood type - are encouraged to give at the upcoming Red Cross blood drive August 20 at the Knox City Aging Service Center in Knox City from 4:00 to 7:00 p.m. Donors must be 17 or older, weigh at least 110 pounds and be in general good health. Blood donors are in no danger of contracting HIV/AIDS or hepatitis. A new and sterile needle is used for each donor and the needle site is made aseptic before the blood is drawn.

In order to schedule an appointment, call Charlene Brothers at 658-3428, walk-ins are also welcome.

A study in the Archives of Internal Medicine maintains that living wills can save about \$60,000 per patient in medical costs. Researchers studied 474 patients who died in a hospital during 1990-92. Bills for those without living wills were three times as high.

In a fitness study, 40 residents of California nursing facilities were able to increase stamina by participating in a 5 month walking program. 1/3 of participants increased the distance by 200%.
