## Steer validation will be Tuesday

All youth who plan to show a steer at local or state-wide livestock shows this fall or next spring must have their steers validated in June. This policy has been in place for many years. However, there are some changes.

This year steers will be required to have a tattoo, an ear tag, nose print and Polaroid picture. The date chosen to validate Knox County steers is Tuesday, June 17. Location will be the same as last year's at the Tony

Myers pens in Munday from 8:00 a.m. to 10:00 p.m.

Validation cost this year is \$3.75 per calf. This covers the validation ear tag, Polaroid film, nose print ink and cards, and tattoo ink. This fee is payable at the time of validation.

Anyone who plans to validate a steer for the 1997-98 show year should plan to attend. If this date conflicts with previous plans, notify Paul Weiser in the Knox See Steer validation, page 2

# NINE WEEKS REVIEW

For The Students

## Senior news - for the last time

By: Amanda Baker

The seniors of 1997 are on their roads to the future of which they have all been dreaming. All are entering college of the work force. This has been a great year for the seniors to spend together. It is not the end, but simply a new beginning. Each of their lives are just beginning. They will meet new people, go new places, and always remember their senior class of 1997. They will separate now, but not forever; time will bring them back together again.

Graduation is here at last, 'tis the day of days, sweet music, so they can laugh, be happy, recall and remember the fun they had each school day. Their share of memories will last always. Today they hear the footsteps as they walk across the stage to receive their diplomas, knowing tomorrow they will part and enter the "real world." These are their memories: their high school years, their times shared together, their joys and fears.

## Juniors finish another prom

By: Audra Dale

Time has brought an end to another school year for the class of 1998. Many activities have taken place, causing the approximately 180 days of school to fly by unnoticed.

The eleventh grade is and has been an especially busy one as compared to the others. Aside from schoolwork, sports, and UJL, these courageous students have, following in the footsteps of generation past, planned and successfully completed another prom. From the selling of the tickets for the turkey dinner, to decorating the night before, the whole process ran very smoothly. The steaks, potatoes, green beans, rolls, and salads were definitely a hit at the reception, and the actual prom afterwards went well.

It is assured that the whole class of juniors is relieved that they are only juniors once, hopefully.

## Journalism class meets sportswriter Nick Gholson

The high school Journalism class found out firsthand just how busy and talented a professional sportswriter has to be. They met the man who should know; head sportswriter Nick Gholson of the *Times Record News* in Wichita Falls.

The group met with Mr. Gholson in his Wichita Falls office. He first took them on a tour of the news office, showing them some of the historical stories and photos from the paper's archives. They then were treated to a demonstration of how a page is put together on a highly advanced computer, a far cry from the typewriters of days gone by. Mr. Gholson showed the students some of the stories he had recently covered, including the Byron Nelson Classic Golf tournament. He shared some of his memorable experiences which include attendance at three superbowl. Mr. Gholson showed the students "backstage" where the actual presses print the newspapers, then escorted them on a tour through all of the departments.

Students attending were R.J. Rizan, Natalie Bloxham, Jonathan Rizan, Jesse Rios, Audra Dale, and teacher Greta Waldrip.

## Freshmen survive

By: R.J. Rizan

The freshmen have survived their first year of high school with only a couple of bumps. Several activities took place, such as the homecoming decorations in the halls (which was a success). Much hard work has been invested into sports and literary events.

The freshmen really made a good showing in spring. Kudos to the fish who participated in spring sports.

Representatives for the ninth grade have already been elected; Natalie Bloxham and Myles Richardson. Good luck to these two leaders.

This class has braved everything that Knox City High School could dish out, including the competitive basketball pick-up games during lunch, and the end-of-year tests. So, as this year closes, hopefully the future sophomore class can look forward to a better year next school term.

## Student Council guests at Capitol

by: Lauren Clonts

Eight members of the Knox City High School Student Council attended the Annual Convention held in Austin, Texas on May 1-3. Over 4,000 student council members across the state were in attendance. The theme of this year's conference was "It's Our Time To Shine." Governor George Bush was one of the guest speakers.

In addition to the conference, the group also toured the State Capitol Building. They visited the office of State Representative David Counts. Representative Counts' aide then showed the group around. On Friday morning, Mr. Counts treated the students to breakfast.

After attending the convention meeting Friday afternoon, the Council members took a carriage ride on Congress Street. While on the ride, they say the Governor's Mansion and the Capitol lit up for the night.

Council members attending were Diana Estrada, Michael McGaughey, Adrian Serrano, Anthony Ainsworth, Sara Dillon, Tamara McGaughey, Lauren Clonts, and Hardy Coffman of Benjamin. Sponsors were Marsha McGaughey and Shea Edmonds.

## Block scheduling ends for next year

The administrative decision has been made to end block scheduling for the next school term. Mr. Lowe informed the teachers that they will be on an eight-period schedule with shorter classes. He feels this will allow greater flexibility in utilizing personnel and building facilities, in addition to improving attention spans of students. He felt ninety-minute classes were too taxing on students and teachers alike.

## O'Brien Gifted Students travel to past, future

The O'Brien Gifted/Talented students spent an action-packed day in the Abilene area during an end-of-school field trip that took them both into the past and the future. The day started with a tour of Dyess Air Force Base. Sergeant Jim Biggerstaff escorted the group through the engine rooms for a view of the latest technology in jet engines. He explained that the cost of one engine is approximately two million dollars; one blade in the engine runs five thousand dollars; and damage to the blades can be made by some small object such as a rock or a bird. The group enjoyed a visit to the radar control tower where students saw first-hand how instructions are given to in-coming aircraft. Of special interest was the feeling students got of what it is really like to fly a jet as they took turns sitting in the actual training simulator cockpit. After an enjoyable meal in the Air Base Dining room, the students boarded a retired Air Force transport plane and learned many interesting facts about it's missions. From there it was "back to the past" as they walked through nineteen historical buildings at the Buffalo Gap Museum. Students attending the trip were Landon Weiershausen, Ashley Harrison, B.J. Stewart, Scooter Thompson, Jennifer Eaton, Sondra Lankford, Brandon Espinosa, Brad Johnson, and Cody Brockett.

These fifth and sixth graders from O'Brien's Gifted/Talented class explored the interior of a U.S. Air Force troop carrier during their trip to Dyess Air Force base. Atop the loading ramp are Brandon Espinosa and Wes Parker; middle row-Brad Johnson, Cody Brockett, and Landon Weiershausen; bottom row standing(left to right) Scooter Thompson, Jennifer Eaton, Sondra Lankford, Ashley Harrison, B.J. Joshua- My most memorable day was when we had a great softball game and when it was my turn to bat I busted the ball and a girl actually caught it. Also someone hit an easy pop fly and our teacher missed it (she even played softball years ago at the national tournaments) That's how we won. And when the teacher hit the ball, it was so hard no one caught it. It even went straight to Jon and he missed it. I thought the ball was rigged. Dustin kept hitting it in the water. But it was still exciting.

## O'Brien News

By Audie Johnston, O'Brien Correspondent

"A Discouraging Word - My brother's friend was distraught over the death of her beloved parakeet. One of her co-workers, unaware of the loss, invited her to go out that night to see a local musical production. "That's great. Maybe it'll cheer you up," my brother told his friend. Tears began to flow anew, however, and she told by brother she wasn't going to go. "Well, why not!" he asked. "What show is it?" "Bye Bye Birdie," sobbed the woman.

### HERE AND THERE

Visiting in Billie Walker's home last weekend were Dale, Julie and Billie Ann Sanders of Amarillo and Mary Beth Seney of Minden, Louisiana. The Lubeck family who are friends of Billie's have worked for 24 years to learn the Chorti language, put it in writing, teach the people to read, then translate the New Testament and get it printed. Billie gave a wonderful talk on what she went to and participated in and learned lots of good things.

### ARTICLE IV DIRECTORS

**SECTION 4.01. NUMBER AND GENERAL POWERS.** The business and affairs of the Cooperative shall be managed by a Board of seven (7) directors. The Board shall exercise all of the powers of the Cooperative except such as are by law or by the Cooperative's Articles of Incorporation or Bylaws conferred upon or reserved to the members.

**SECTION 4.02. QUALIFICATIONS.** No member shall be eligible to become a director or to hold any position of trust in the Cooperative who is not a member receiving service from the Cooperative at his primary residential abode in the area served by the Cooperative, or is in any way employed by or financially interested in a competing enterprise or a business selling electric energy or supplies to the Cooperative, or a business primarily engaged in selling electrical or plumbing appliances, fixtures or supplies to the members of the Cooperative, and no person shall take or hold office as a director who is the incumbent of or candidate for an elective public office in connection with which a salary is paid. When a membership is held jointly by a husband and wife, either one, but not both may be elected as director, provided however, that neither one shall be eligible to become or remain a director or to hold a position of trust in the Cooperative unless both shall meet the qualifications herein above set forth. Any director who shall miss three (3) Board of Directors' meetings in a row, without an excuse duly accepted and noted by the Board, shall lack eligibility to further serve and it shall be the duty of the Board of Directors to remove him from the Board. No former employee whose employment has been terminated by the Cooperative may be eligible to serve as director. Any employee who resigns or retires from employment by the Cooperative shall not be eligible to serve as a director for a period of ten (10) years following such resignation or retirement. Nothing contained in this Section shall, or shall be construed to, affect in any manner whatsoever the validity of any action taken at any meeting of the Board of Directors, unless such action is taken with respect to a matter which is affected by the provisions of this Section and in which one or more of the directors have an interest adverse to that of the Cooperative.

In the event an incumbent director, having served on the Board of Directors a minimum of six years, ceases to meet the requirement of receiving service from the Cooperative at his primary residential abode, such incumbent director shall nevertheless be qualified to continue to serve as director so long as he remains a member of the Cooperative and his primary residential abode is located within the area served by the Cooperative, or in close proximity thereto.

**SECTION 4.03. ELECTION.** At each annual meeting of the members, directors shall be elected by secret written ballot by the members and from among those members who are natural persons; provided however, that when the number of nominees does not exceed the number of directors to be elected, and if there is no objection, secret written balloting may be dispensed with and voting may be conducted in any other proper manner. Directors shall be elected by a plurality of the votes cast unless the members in advance of any balloting resolve that a majority of the votes cast shall be required to elect, and this Bylaw provision shall be drawn to the attention of the members and explained to them prior to any balloting. Drawing by lot shall resolve, where necessary, any tie vote.

**SECTION 4.04. TENURE.** The business and affairs of the Cooperative shall be managed by a Board of seven (7) directors which shall exercise all of the powers of the Cooperative except such that are by law, or by the Articles of Incorporation of the Cooperative, or by these Bylaws conferred upon or reserved to the members. Beginning with the Annual Meeting of the members of the Cooperative held on August 21, 1954, two (2) members of the Board of Directors shall serve for a period of one year, two (2) members shall serve for two years, and three (3) members shall serve for three years, and that lots be cast as to the length of time each director shall serve; and beginning with the Annual Meeting of the members held in 1954, those directors whose terms expire, such vacancy shall be filled for a period of three years.

**SECTION 4.05. NOMINATIONS.** It shall be the duty of the Board of Directors to appoint, not less than sixty (60) nor more than ninety (90) days prior to the date of a meeting of the members at which directors are to be elected, a Committee on Nominations, consisting of not less than five (5) nor more than eleven (11) members of the Cooperative who are not existing Cooperative employees, agents, officers, directors or known candidates for director, who are not close relatives (as hereinafter defined) or members of the same household of such existing employees, agents, officers, directors or known candidates for director, and who are so selected so as to give equitable representation on the committee to the geographical areas served or to be served by the Cooperative. The Committee shall prepare and post at the principal office of the Cooperative at least thirty (30) days prior to the meeting a list of nominations for directors to be elected. Any fifteen (15) or more members of the Cooperative, acting together, may make additional nominations in writing over their signatures, listing their nominee(s) in like manner, not less than twenty (20) days prior to the meeting, and the Secretary shall post such nominations at the same place where the list of nominations made by the Committee is posted. The Secretary shall mail to the members with the notice of the meeting, or separately, but at least ten (10) days prior to the date of the meeting, a statement of the names and addresses of all nominee(s) showing clearly those nominated by the Committee and those nominated by petition, if any. The chairman at such meeting, after all nominations so made have been duly announced, shall call for additional nominations from the floor. Notwithstanding the provisions contained in this Section, failure to comply with any of such provisions shall not affect in any manner whatsoever the validity of any action taken by the Board of Directors after the election of directors.

## Property Tax Protest and Appeal Procedures

The law gives property owners the right to protest actions concerning their property tax appraisals. You may follow these appeal procedures if you have a concern about:

- The value placed on your property.
- Any exemptions that may apply to you.
- The cancellation of an agricultural appraisal.
- The taxable status of your property.
- The local governments which should be taxing your property.
- Any action taken by the appraisal district that adversely affected you.

### Informal Review

If you think that you have something wrong with the appraisal of your property, you may contact the Knox County Appraisal District. The telephone number is 454-3891. We will try to help you with these problems, but if we are unable to solve any questions that you have, you still have the right to file a protest with the Appraisal Review Board.

### Review by the Appraisal Review Board

If you can't resolve your problem informally with the appraisal district staff, you may have your case heard by the appraisal review board (ARB).

The ARB is an independent board of citizens that reviews problems with appraisals or other concerns listed above. It has the power to order the appraisal district to make the necessary changes to solve problems. If you file a written request for an ARB hearing (called a notice of protest) before the deadline, the ARB will set your case for a hearing. You'll receive written notice of the time, date and place of the hearing. The hearing will be informal. You and the appraisal district representative will be asked to present evidence about your case. The ARB will make its decision based on the evidence presented. You can get a copy of a protest form from the appraisal district office at P.O. Box 47, Benjamin, Texas, 79505.

Note: You shouldn't try to contact ARB members outside of the hearing. The law requires ARB members to sign an affidavit saying that they haven't talked about your case before the ARB hears it.

### Review by the District Court

After it decides your case, the ARB must send you a copy of its order by certified mail. If you're not satisfied with the decision, you have the right to appeal to district court. If you choose to go to court, you must start the process by filing a petition within 45 days of the date you receive the ARB's order. If the appraisal district has appraised your property at \$1,000,000 or more, you must file a notice of appeal with the chief appraiser within 15 days of the date you receive the ARB's order.

### More Information

You can get more information by contacting your appraisal district at P.O. Box 47, Benjamin, Texas, 79505, Phone (817) 454-3891. You can also get a pamphlet describing how to prepare a protest from the appraisal district or from the State Comptroller's Property Tax Division at Post Office Box 13528, Austin, Texas 78711-3528.

### Deadline for Filing Protests with the ARB

#### Usual Deadline

On or before June 25 (or 30 days after a notice of appraised value was mailed to you, whichever is later).

Late protests are allowed if you miss the usual deadline for good cause. Good cause is some reason beyond your control, like a medical emergency. The ARB decides whether you have good cause.

Late protests are due the day before the appraisal review board approves records for the year. Contact your appraisal district for more information.

#### Special Deadline

For change of use (the appraisal district informed you that you are losing agricultural appraisal because you changed the use of your land), the deadline is before the 30th day after the notice of the determination was mailed to you.

For ARB changes (the ARB has informed you of a change that increases your tax liability and the change didn't result from a protest you filed), the deadline is before the 30th day after the notice of the determination was mailed to you.

If you believe the appraisal district or ARB should have sent you a notice and did not, you may file a protest until the day before taxes become delinquent (usually February 1). The ARB decides whether it will hear your case based on evidence about whether a required notice was mailed to you.

## O'Brien student council enjoys trip to Lubbock

By TIFFANY JOBE

The fund raising efforts of the Student Council allowed them to take an educational trip to Lubbock to the OmniMax Theater and exhibits. The movie "Special Effects" was exciting especially for those students viewing the big screen for the first time. Members also toured a Science Spectrum and Museums. Afterwards, they enjoyed a meal at CiCi's Pizza. On the way home, they stopped at a roadside park and explored a waterfall and enjoyed climbing on the rocks.

They would like to thank Mrs. Burnett, Coach Deville and Mrs. Bartley for organizing their activities during the year and sponsoring the trip to Lubbock.

Offers were elected for the 1997-1998 school year: President - Melissa Ruiz, Vice-President - Lezlie Villa, Secretary - Sondra Lankford, Treasurer - Tiffany Jobe, Corresponding Secretary - Ashley Jobe, Assistant Treasurer - Gemile Roberson and Historian - Chere Pierce.

Members include Mandi Kimmel, Tommy Trevino, Nathan Lierly, Sedrick Roberson, Ashley Garcia, Brian Homstad, Carlos Ruiz and Ariana Gomez.

The Student Council is looking forward to next year and providing fun activities for the student body at O'Brien Middle School.

## Little-known 'vitamin' makes love grand

McKinney, TX-Little did Dr. Phillip Handler know, back in 1941, that his newly discovered nutrient "Vitamin 15" would one day have men and women all over the country smiling quietly to themselves.

Today, N,N-Dimethylglycine (DMG) is no longer classified as a vitamin. But it has changed the lives of thousands of men and their mates.

A naturally occurring nutrient sold under the brand name Nutri-Surge (but more often called simply "The Love Pill"), DMG works by increasing energy, improving metabolism, enhancing oxygen utilization and increasing the flow of blood to key areas of the anatomy.

Nutri-Surge has a cumulative effect: the more you take it, the better it works. Most users take two, but up to six tablets may be taken daily. Satisfaction is guaranteed.

See for yourself why thousands swear by Nutri-Surge. Send \$29.95 plus \$4.95 postage & handling for a 60-tablet supply to TDM Research, Dept. NSC31, 123 South St., Oyster Bay NY 11771. Or call toll free 1-800-645-9199 and ask for Operator C31. Use the whole supply; then, if you are not completely satisfied, return the box for a full refund.

## JUNE BRIDES: ADD NAME CHANGE TO MUST-DO LIST

June brides are urged to add a name change to their list of things to do.

Social Security reports that one of the most common mistakes in Social Security wage records occurs when brides forget to change their name. The result is that their earnings may be reported under their new name and Social Security computers may then be unable to process the earnings because the name and number are not consistent with Social Security records.

Social Security retirement, survivors, and disability benefits are based on the earnings credited to a worker's Social Security record.

Social Security says you can change your name by calling its toll-free number, 1-800-772-1213.

## Don't let the '97 freeze chill your '98 wheat yields

### Plant wheat seed cleaned and treated by Bronco Seed

If ever there was a year to clean and treat your wheat, this is it. With the freeze damage suffered by this year's winter wheat crop, you'll likely harvest a lot more immature kernels than usual.

Have Bronco Seed clean your wheat seed and remove the shriveled, damaged, immature and weak seeds. Planting cleaned seed provides benefits that pay off all season long:

- You plant mature, heavy seeds.
- Valuable moisture and nutrients are not wasted on poor-quality seeds.
- Your crop can achieve more of its yield potential.
- An average yield increase of 2 bushels per acre compared to uncleaned seed.

Along with having your seed cleaned, be sure to have it treated with Vitavax-200, the world's most widely used seed treatment. With Vitavax-200 on the seed, you get:

- Proven protection against early season diseases, including true loose smut and bunt.
- Healthier, more extensive and vigorous root system.
- Helps wheat emerge faster.
- Helps allow for earlier grazing, and crop can better withstand cattle stress.
- In hundreds of field trials, Vitavax has boosted yields by an average of 3.6 bushels an acre compared to untreated seed.

That's a combined potential yield boost of nearly 6 bushels an acre with cleaned and treated wheat. Call Bronco Seed today to have your wheat seed cleaned and treated with Vitavax-200.

## Protect Your Bt Cotton Investment

With its built-in resistance to worms, Bt cotton has become one of the most exciting industry innovations since pyrethroids. But with growers being charged a \$32 technology fee

Bobby Shelton  
Zeneca Ag Products

for every acre of Bt cotton planted, additional pest management tools have become a critically important way to protect the Bt investment.

Fill in the gaps in your Bt cotton insect control program by using a

broad-spectrum pyrethroid, such as KARATE<sup>®</sup> insecticide. By mid-season, a wide variety of crop-damaging insects can destroy the bottom fruiting branches of the plant, which account for the most profitable yields. Bt cotton can handle the tobacco budworm on its own. It also suppresses the cotton bollworm. Therefore, that pest and others may escape its protection.

As for boll weevils and secondary pests, such as plant bugs, stinkbugs and fall armyworm, Bt cotton is as vulnerable as any other variety. In fact, Bt cotton may be more at risk since its control is aimed at budworm and bollworm.

Over time, resistance among worms to the *Bacillus thuringiensis* (Bt) toxin can develop. Uncontrolled secondary pests can significantly reduce yields and threaten profits. Karate can help you avoid Bt resistance by controlling any worms that come through the Bt cotton.

Karate comes from a class of insect control completely unlike the Bt toxin. It provides greater residual control than other pyrethroids and gives you the most performance for your dollar.

A summary of 18 evaluations from five different Zeneca field trials showed that Karate outperformed the competition by controlling nearly 99 percent of the worms after treatment.

Additionally, Karate shows greater ovicidal activity than any other insecticide, which means further reduction of insect populations. Also, the pest control Karate offers is so complete, tank mixing with other insecticides is often unnecessary.

The fewer pests your cotton crop has to battle, the more lint you'll put through the gin.
