Election judge will be Abe Watson.

For Associate Justice, Supreme Court, Place 1, James P. "Jim" Wallace will face John C. Phillips.

### Knox City Gains New Car Wash

Knox City gained another new business last week when the Prairie Car Wash opened Friday.

The new car wash, termed the "Cadillac of all car washes", has the latest equipment and is located just east of Allsup's.

The self-service establishment will be open 24 hours a day, seven days a week.

Plenty of hot water and high pressure make car washing easy, according to the owners Vernon Bridges and Barney B. Arnold. Patrons can wash, wax, rinse, and vacuum their vehicles. Towels and whitewall cleaner are available, also.

The new car wash has three bays, two for cars and one for trucks.

Everyone is invited to come by and look it over, the owners said.

### West River Bridge To Be One Lane

Effective Monday, June 2, the Brazos River bridge on State Highway 222 about six miles west of Knox City, will limit traffic to one lane.

According to Terry Keener, resident engineer for the State Department of Highways and Transportation, traffic lights have been installed on each side of the bridge to allow two directional traffic to take turns crossing the bridge. Keener explained that traffic would be halted by a red signal, and a double red signal would allow all traffic on the bridge to clear before the other lane crosses.

He said that it would be an inconvenience for motorists for awhile, but by doing this traffic would not have to be detoured through Benjamin while the bridge is being widened.

Loads will be limited to a maximum 14 feet and anything above this will be impassable, he said.

Gary Latham and the Kuntry Kings.

Many have expressed an interest in holding various class reunions. In order to adequately publicize these events, those who plan to hold such reunions are asked to contact Melanie Whitley at the high school no later than June 17 at noon.

Homecoming officials also noted that there has been some interest expressed in a tennis tournament for those who will not be participating in the Country Club's Fourth of July golf tournament. Persons interested should contact Steve McIlhenny at 658-3459.

## Homecoming Plans Continue

Preparations are continuing for the 1980 Homecoming of exes and friends of Knox City High School to be held July 4, 5, and 6. All ex-students should be receiving a mail out within the next two weeks outlining the schedule of events, according to Bobby D. Burnett, homecoming president.

Registration will be at the high school beginning at 9:00 a.m. and continuing until 12:00 noon on Saturday.

The annual business meeting will be held at the City Park, Saturday, July 5, at 7:00 p.m. featuring entertainment by former Knox City graduates, Tommy Guy Waldrip and The Angle Sisters. A meal will be served and a food committee of local women has been organized to recruit volunteers to provide a covered dish. Attendance at this event by out-of-towners has always been excellent and local exes are especially encouraged to attend this year.

Highlight of the homecoming will be the community church service and memorial service Sunday morning, July 6, at 11:00 a.m. At this time, the 1980 homecoming honoree will be presented. More details of this service will appear in a later edition of the News.

The Homecoming Dance will be held at the Benjamin Community Center on Saturday, July 5, at 9:00 p.m. Music will be provided by

### Patterson Reassigned KC-Benjamin

The Rev. James P. Patterson has been reassigned to the Knox City-Benjamin United Methodist Churches following the annual conference held at McMurry College in Abilene last week.

Appointments for the churches in the Northwest Texas conference of the United Methodist Church were approved by conference delegates during the annual event.

Also returned was the Rev. Jarrell H. Sharp as district superintendent of the Seymour District. Sharp is a former pastor of the Knox City church.

### Booster Club Officers Are Elected

New officers proposed by the nominating committee, chaired by David Counts, were elected by acclamation at a recent meeting of the Knox City-O'Brien Greyhound Booster Club.

Officers for 1980-81 are Mary Ann Boone, president; Doug Meinzer, vice-president; Sharon Rutherford, secretary-treasurer; C.L. Hacker and Gus Cowart, two year directors; and J.B. Rutherford and Jimmy Lynn, one year directors.

### First Baptist To Hold Breakfast

The First Baptist Church of Knox City will be host church for the monthly Community Men's Breakfast set for Saturday, June 7, at 7:00 a.m. in the church fellowship hall.

All men and boys of the community are invited to attend.

TIME IS OF THE ESSENCE right now for cotton farmers in the area. With many lacking moisture to plant, the big rains came at an opportune time; however, with showers continuing every few days, soil had dried out enough in places for planting to begin in full force Monday. This huge 12-row planter belonging to E.H. Tankersley was busy in a field east of town, and was one of many hard at work Monday afternoon. Wheat farmers are casting nervous glances at the skies too in hope that what grain they have can be harvested before another rain.

## Benjamin Completes Homecoming Plans

All systems are 'go' in Benjamin for the homecoming slated to begin Friday, June 13, and continue through Sunday, June 15.

Friday's schedule begins at 3:00 p.m. when the Benjamin Memorial Center as headquarters opens with hostesses R.B. and Mae (Brown) Tucker, Buster and Louella Tolson, and Judy Shipman.

Registration will begin there at 5:00 and free snacks will be served from 6:00 to 8:00 p.m. Also, during this time a musical with Son Propps and others will be held followed by a square dance on the town's square at 8:00 p.m. Then from 9:00 until 1:00 a.m. a free dance will be held in the Benjamin Memorial Center with music by the Moonlighters.

On Saturday, the building opens at 9:00 a.m. with hostesses Joy Sams Spikes,

Lois Spikes, Allie Moorhouse, and Frank William and Bertha Driver. Activities also begin Saturday at 7:00 a.m. with roping at the Benjamin Arena. Races will begin at 8:30 a.m. with roping and games following the races.

According to officials, a concession stand will open at 11:00 a.m.

Saturday's registration begins at 1:00 p.m. with a parade scheduled at 3:00 p.m. A business meeting will begin at 4:00 p.m. followed by barbecue from 5:30 until 7:30 p.m. The Westernaires will play in the Club Room at 8:00

p.m. and from 9:00 until 1:00 a.m. the Kuntry Kings will play for a dance in the Benjamin Memorial Center. Officials explained that a charge would be made for the barbecue supper as well as the dance.

Sunday church services will be held in the District Court Room in the Knox County Courthouse at 11:00 a.m.

The Sunday cafeteria-style meal will begin at 12:30 p.m. in the Benjamin Memorial Building. The food is being prepared and served by The Ranch House Restaurant, and the meal will be open to the public. A reasonable fee will be charged for the noon meal, officials said.

## Winners Told In Student Projects

Top winners in the Ag I class's spring project have been announced by class advisor Jim Dillon.

In the gun rack division, Dell Guinn and Teddy Espinosa tied for first place. Four judges chose the winners by number, not knowing the name of the student who made the gun rack.

The gun racks were judged on the basis of construction, cut, sanding, staining, varnishing, and overall appearance, Dillon explained.

Other students participating included Craig Watson, Billy Reynolds, and Robert Sutton.

This year's project also included a cutting board. Winner in this category was Joe Rocha. Others who participated were Mike Oliver, David Lankford, James Earl

Stafford, Ricky Gutierrez, Tyke Meinzer, and Eddie Ramos.

The projects, all done by hand tools, were on display at the Citizens State Bank, last week.

# O'Brien Happenings

By CHARLENE BROTHERS

Wasn't the rain nice? Last Tuesday, May 27, we ran into a little too much. We had gone to Springtown for my niece's graduation and coming home that night just a little this side of Jean, Texas, we came upon all these red lights, and there was a small river running across the road. One car had washed completely off the road and one was in the middle of the stream and about all you could see was part of the top. You know traveling at night when it is raining could be very dangerous. In fact they were not sure that two people had not been in the car that washed off the road. We never did find out. We had to turn around and go back nearly to Jacksboro and come in by Wichita Falls. Got home about 1:30 or 2:00 a.m.

The following is the storm warning I was telling about last week. It is copied from another paper: Your TV set can detect a tornado. The following instructions should be available for quick reference when a tornado warning has been broadcast for your area.

First - Tune in channel 13. Darken the screen to almost black (use the brightness control.)

Second - Turn to channel 2 and leave the volume control down (unless you have a broadcaster on that channel.)

Your tornado detector is now in operation. As a storm approaches, lightning will produce a totally white screen and remain white (color sets produce a colored band). A tornado withing 15 to 20 miles will produce a totally white screen and remain white (color on color

sets). Should this occur, turn off your TV set, take your portable radio and go to a place of shelter immediately.

This system was discovered by Newton Weller of West Des Moines, Iowa, after 12 years of study. It works because every TV set has channel 2 set at 55 megacycles. Lightning and tornadoes generate a signal near this frequency overrides the brightness control, Channel 13 is the "high" end of the frequency band and is not affected. This is why the darkness must be set on that channel. Keep a portable radio on hand for emergency instructions and in case of power failure. Lightning will cause intermittent static on a radio turned to 559 kilocycles. A tornado will cause steady continuous static.

You might want to try this if a tornado warning is given.

## Texas Oil Production Continues Downward Trend

DALLAS - The eighth consecutive year of production at the maximum efficient recovery rate in nearly all of Texas' fields once again pushed the state's output of crude oil and condensate above the one-billion barrel mark. The total of 1,066,845,138 barrels included almost 980-million barrels of crude oil and just over 28-million barrels of condensate, according to figures compiled by Texas Mid-Continent Oil & Gas Association.

## Guthrie Residents Give \$2,231.10 To CF

Guthrie residents held their Cystic Fibrosis "Ride-A-Thon" on Saturday, May 10, and according to Sue Moorhouse, chairman, the event was termed a "big success". Mrs. Moorhouse continued by saying that residents of Guthrie and King County can be very proud of the help they have given the Cystic Fibrosis Foundation. This area, with a population of approximately 450 people, raised \$2,231.10.

Twenty-seven participated in the event, with 12 riding bicycles and 15 on horses. In the bike division, first place cash prize went to Donald Lee Miller, 11 year old son of Kay and Don Miller of Guthrie. Donald Lee had 34 sponsors and raised a total of \$319.00 for his efforts. Donald Lee, Chris Gartrell, and Cary Coppedge each rode 40 miles.

Second place prize money went to Scotta Masterson, who is 12 years old, for bringing in \$291.00. Scotta's little sisters, Laura and Lisa, were the youngest bike riders. These five year olds rode seven miles and raised \$49.00 each. The girls are the

daughters of Bill and Kathy Masterson.

All but five riders completed the 20 mile "Horse-A-Thon". Avery Hammonds, 12, won first prize with \$119.50 and 34 sponsors. He is the son of Mr. and Mrs. Ron Lewis. Eight year old Tonya Sursa, daughter of Tommy and Evelyn Sursa, won second with \$96.00. Youngest riders in this division were four and one-half year old Keri Moorhouse, daughter of Bob and Linda Moorhouse, who completed 20 miles, and Jody Moorhouse, four year old daughter of Tom and Sue Moorhouse. She rode 18½ miles. Everyone earning \$25.00 or more will receive a CF T-shirt from the Cystic Fibrosis Foundation.

Mrs. Moorhouse expressed appreciation to all riders and their sponsors, to co-chairmen Linda Moorhouse, Evelyn Sursa and Judy and Gerry Gartrell, who were in charge of the Bike-A-Thon; Shirley and Larry Fitzgerald, who provided refreshments; and to Mildred Ballard, Debra Moorhouse, Faye Coppedge and Mary Lois Keith who helped serve refreshments and keep track of miles ridden.

A special thanks went to the fathers of riders in the Horse-A-Thon, Tom Moorhouse, Bob Moorhouse, and Tommy Sursa and the donors of cash prizes including Bob and Doris Tidmore of the Ranch House Package Store, Elmer Keith Exxon Station, Hauley Graves Texaco, and 6666 Ranch and Supply House.

Fifty Years

# Plans Announced For TCR Anniversary

Eugene C. Swenson, president of Texas Cowboy Reunion, Inc., has announced plans for the gala 50th Anniversary Texas Cowboy Reunion in Stamford, Texas, July 2-5.

In addition to attracting the top amateur rodeo cowboys from a wide area as in the past, this year's 50th Anniversary edition will also include four days packed with entertainment and activities.

Top name entertainers will perform during the rodeo each night. Opening and

closing this year's rodeo on July 2 and July 5 will be six-time World Champion All-American Cowboy Larry Mahan, along with the All-American Cowboy Band and Riders in the Sky. On July 3, Cal Smith and the Country Bumpkins will appear. On July 4, Anson's own Jeannie C. Riley and her band The Red River Symphony will be the featured entertainers during the rodeo. July 2 through July 5 a dance will be held after each performance utilizing the band of the day. On July 4 and 5, at 2:00 p.m.

country and western variety show is set for visitors to the Texas Cowboy Reunion. The afternoon entertainment area will be located under the big top adjacent to the John Selmon Memorial Art Gallery on the Reunion Grounds. On July 4, there will be an amateur contest under the direction of Truby Musical with a guest performance by the Texas Travelers' Cloggers from Fort Worth. Jeannie C. Riley will be on hand to greet fans as well as award prizes to the winners of the best single and

best group performance. July 5, South Plains College of Levelland, Texas, will present a two hour salute to "The Golden Years of Country Music" under the big top. The Texas Travelers will also perform. Having recently signed with the "Good Old Nashville Music show, the Texas Travelers, who have been featured on the West Texas Rehabilitation Center's "Rehab Telecast" for the past two years, will perform for the rodeo audience just prior to the Friday and Saturday rodeo performances.

As in the past, the Stamford Art Foundation, will present the works of more than two dozen of the top western artists in the nation for the enjoyment of the reunion visitors. The Collector's Preview is set for 6:30 p.m., July 1, at the John Selmon Memorial Art Gallery, with the exhibit being open to the public for a one dollar donation throughout the Texas Cowboy Reunion.

In keeping with the half century of tradition that has been a part of the Texas Cowboy Reunion, all of the old-timers events and meetings will play an important role.

The Texas Cowboy Reunion which features the world's largest amateur rodeo, is dedicated to keeping alive that part of Americana that played a most important part in building this great nation.

The 50th Anniversary Texas Cowboy Reunion is loaded with excitement and entertainment for every member of the family.

### WHERE TO FIND COUPONS

Where to find coupons is a question with four answers: About 41 percent of them appear in print -- newspapers, magazines, supplements.

Another 26 percent are on tear-off pads in grocery stores.

Around 16 percent are in food packages -- or on them.

A remaining 17 percent appear in a combination of the above methods.

Dr. Postel says most of us overlook coupons in the print forms -- where coupons appear most frequently. On the other hand, we use coupons on packages and inside them seven times as much as we use those in print forms.

### FROM FORT WORTH

Mr. and Mrs. D.C. Dillon of Fort Worth spent the weekend here with their son and his family, Mr. and Mrs. Jim Dillon and Jaci.

## Save \$1,000 On Food Budget With Coupons

COLLEGE STATION-- You might save \$1,000 a year on your food budget--if you attack it with coupons!

That's almost a promise from Dr. Rose Tindall Postel, a foods and nutrition specialist on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

"Manufacturers have offered special coupons and other saving devices for years, but until recently consumers may not have been diligent about using them," she reminds us gently.

A study by the Nielsen Clearing House found that in 1977 only 27 percent of U.S. households took advantage of coupons--although 74 percent of those same households were aware of coupons.

### ATTACK WITH CARE!

Of course, consumers should use coupons with wise-shopping tactics -- make sure the refund offer actually ends up being a savings, Dr. Postel cautions.

Don't buy a much higher-priced item just to get a small refund, she explains.

### COUPON VALUES

Here's a look at today's coupon values compared to those a few years back:

In the 1960s, the average refund offer was worth about 30 cents. By 1977, it was about 80 cents.

Now the average refund is about \$1.25.

Last year manufacturers offered about 7,000 different refunds. Most were for cash, about 62 percent. Another 22 percent were good for further food purchases, and the rest

Streams In

By OZELLE STEPHENS

"If you ask anything in my Name, I will do it." (John 14:14).

The Name of Jesus has a strength and power beyond any other. When you ask anything in His Name, it will be done. Jesus said to all who believe in Him "Whoever you ask the Father in my Name, he will give it to you." (John 16: 23.) James said, "You have not because you ask not (Jas. 4:2.) Sometimes it may seem we do not have enough of God's good in our lives. When that happens, we can ask more, and expect God's answer as he promised.

When God hears us pray in Jesus' Name, it's the same Jesus Himself asking for us. And we will receive the miracle we need.

In these days we need God's wisdom, knowledge, understanding, and most of all His love and grace. We need His mercy, comfort, and power to stand and be faithful and steadfast and merciful in our love for others. For as we love others so will we be loved by our wonderful Lord and Father. He wants us to know He alone is the Source of total Supply.

WATCH HEMLINES -- TO  
PREDICT ECONOMIC  
TRENDS!

You can watch hemlines and sometimes actually predict the nation's economy.

Researchers say much of our behavior depends on the economic climate of the times -- and hemlines are part of that behavior.

As economic upswings occur, women raise their dress lengths.

As hard times approach, they are lowered.

One theory predicts that economic in the western world flow in long-term cycles of 45-60 years.

In this type of cycle, there are about 30 years of economic climbs -- and about 15-20 years of hard times.

Behavior and economics work like this:

ECONOMIC UPSWINGS  
During economic upswings, several things happen.

That's the time for social revolutions -- a period in which younger generations rebel against established traditions and norms.

People, in general, adopt attitudes which show a striking contrast to those held a few years earlier.

On a more personal level, people tend to liberate them-

selves from conventional behavior.

For example, divorce rates increase, publications of sex magazines increase, and scandals are more likely to be uncovered.

This is a period of time in which people can and do enjoy the pleasures of life.

This also tends to be a productive period for the arts and the social sciences, because there is time, money and energy which can be devoted to these areas.

In addition, people who have stable economic resources can more easily take risks.

They feel more confident about their own powers, and they believe they have control over their own destiny.

During economic upswings, people also believe that life can be made better, and injustices, therefore, are less tolerated.

As a result of all this, the political climate changes, too, to one of individualistic capitalism.

ECONOMIC HARD TIMES  
When the economy becomes unstable, the nation's personality also changes.

People become disenchanting with capitalism, and they sway toward socialistic policies.

On the whole, there is much less tolerance of unusual

social behavior.  
Young people regain respect for the older generations, the traditional attitudes and behaviors.

Marriages and family life take on a "new meaning," and they become stronger units of society.

Mobility of people slows down, and families spend more time together at home.

...AND HEMLINES  
And here's where the hemlines change.

Women tend to lower their skirts (and pursue the women's movement "underground") during hard times.

SO, WATCH  
Now that we better understand the tie in, we can take up "hemline watching" just to help sort out the reasons why people are behaving as they are.

IN LOGAN HOME  
Sunday guests in the home of Mr. and Mrs. Neal Logan were their son and his family, Mr. and Mrs. Lanny Logan, Ethan and Christian of Lubbock, and Mrs. Lanny Logan's parents, Mr. and Mrs. George Gatewood of Chillicothe.

Serve A Surprising One-Dish Meal

You can savor the flavor of canned salmon and save money at the same time when you mix it with other favorites—cut asparagus and economical cooked rice. Then top with grated cheese and bake until bubbly hot. Sauced with sour cream, a can of cream of chicken soup and seasoned with dill and onion, a can of salmon goes a long way.

#### SALMON SUPREME

- 1 can (15-1/2 or 16 ounces) pink salmon
- 1 can (10-3/4 ounces) condensed cream of chicken soup
- 1/2 cup sour cream
- 1/3 cup minced onion
- 1/2 teaspoon dried dill weed
- 1/2 teaspoon salt
- 1/4 teaspoon pepper
- 3 cups cooked rice
- 1 can (14-1/2 ounces) all-green asparagus cut spears and tips (drained)
- 1 cup grated Cheddar cheese

Drain, bone and flake salmon; reserve liquid. Heat soup, salmon liquid, sour cream, onion, seasonings, and rice. Fold in salmon. Turn into a greased, shallow 2-quart baking dish. Arrange asparagus over salmon mixture. Sprinkle with cheese. Bake at 350 degrees for 20 minutes. Makes 6 to 8 servings.

# Therwanger Named 'Outstanding Farmer'

The Board of Directors of the Wichita - Brazos Soil and Water Conservation District selected Bobby Therwanger as the outstanding conservation farmer for 1979. The Board entered his name and record in the Texas Conservation Awards Program.

Bobby Therwanger was described as "truly a full time Soil and Water Conservationist, carrying out a fine conservation program on his diversified farm."

Therwanger's farm, containing 243 acres and located four miles south of Goree, is located in the rolling Red Plains land resource area consisting mainly of Abilene Clay Loam, Rowena Clay, and Vernon Clay. Land uses include 205 acres of cropland (dryland), 28 acres rangeland, seven acres pastureland, and three acres headquarters. A wide range of conservation practices has been carried out by Therwanger.

Old standard terraces have been leveled and replaced by parallel terraces constructed where needed on Therwanger's cropland. Terrace work and critical area shaping was accomplished by use of a custom operator.

Therwanger entered into a Great Plains Conservation Program Contract February 27, 1975, and has done all his conservation work through this program.

Therwanger's operation is a diversified crop and livestock operation consisting of cotton, milo, small grain, and stocker cattle.

Therwanger was reared on a farm in the Weinert community within 15 miles of where he now resides with his wife in Munday. He attended Hardin Simmons University at which time he married the former Miss Ann Derr, also of

Mr. and Mrs. Therwanger taught school for several years before he became engaged in farming full time. Mrs. Therwanger is still teaching in the Munday school system. The Therwangers have three children Barry, age 23; Teresa, age 20; and Bobby, age 19.

The board of directors was unanimous in its choice

of Bobby Therwanger as the outstanding conservation farmer for 1979. The board's decision was based on his conservation accomplishments on his farm and other places he rents or leases. Its opinion was influenced by his good moral character, willingness to work, and his missionary work for soil conservation and the district program.

## Use Moderation In TV For Preschoolers

COLLEGE Station -- Preschoolers miss out on personal development when parents use television as an electronic babysitter.

Cindy Wilson, a family life education specialist on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System, says let moderation be the byword.

Preschoolers, like adults, have a job to do -- grow and develop, Mrs. Wilson explains.

A CHILD'S DEVELOPMENT Children develop primarily through play--active play.

Muscle development, eye-hand coordination skills and social skills all start in a child's first few years of life.

A child's active play provides the exercise necessary to assure proper muscular development. Active play includes learning to run, jump, skip, hop, climb, balance and dance, for example.

To acquire eye-hand coordination skills, children also should learn to cut with blunt scissors, to color, to draw, to finger-paint or string beads.

To develop social skills -- communicating with others and getting along with others a child needs to spend time with other children. This can include playing together and working cooperatively together on projects, such as constructing building-block cities.

PARENTS, CHOOSE PROGRAMS Because each child's per-

sonal development is at stake, it's important that parents and other child-rearing people choose with care the television programs children are permitted to watch, Mrs. Wilson stresses.

Preschool age children, in particular should not be over-exposed to television viewing that depicts violence, brutality to animals, natural calamities or the distasteful portrayal of human sexual behavior.

Frequently the young impressionable child cannot handle these in a psychologically healthy manner.

In deciding what preschoolers should watch, the best way to start is to watch with them for awhile, the specialist advises.

## Your Social Security

### APPLYING FOR A SOCIAL SECURITY NUMBER

Everyone who applies for a social security number must provide evidence of age, identity, and U.S. citizenship or lawful admission status, including young children, James Harper, Social Security Branch Manager in Vernon, said recently.

Parents sometimes have difficulty finding the required evidence for their children, Harper said. They especially have trouble with the idea of providing evidence of identity.

Proof of age is relatively easy--public or hospital record of birth recorded before age six or religious record of birth or baptism recorded before age five. One

### KEEPING YOUR COOL?

Trying to keep your summertime air-conditioned temperature above 75 degrees and wondering how much you're really saving?

You save three to four percent in energy for each degree, depending on geographic location, says Sue Young, housing and home furnishings specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

of these documents will also establish citizenship, Harper explained.

Documents which will establish a young child's identity, and which are usually available to most families include report card, school identification card, baby's hospital wrist band, newspaper birth announcement, baby book, court order for name change, church membership or confirmation record, doctor or hospital records, vaccination certificate, daycare or nursery school records, or child's membership in Boy Scouts, Girl Scouts, or other young organization.

This is not an exclusive list Harper said. Any document providing identifying data such as a physical description, photograph, or signature may be used as evidence of identity.

Harper said at least two documents must be presented--one to establish age of citizenship and one to establish identity. Only original or copies certified by the issuing agency can be used.

For more information readers may contact the Vernon Social Security Office where they can obtain a free leaflet, "Applying for a social security number." The office is located at 1701 Cumberland and the telephone number is 817-552-9346.

Posters were first placed on the local level and awards presented with the first three places in each grade competing for district awards.

District winners, teachers, and hometowns are as follows:

First grade winners are first, Jayson Morgan, Decker, Munday; second, Three Vasquez, Kemletz, Knox City; third, Sara Lorenz, Kemletz, Knox City.

High Air-Conditioning Setting Can Wrinkle Carpet

Air conditioning thermostats set at 78 degrees F. or above during the summer may result in a "wavy" wall-to-wall carpet.

The possibility of ripples developing in carpet increases as reduced cooling removes less moisture from carpet fibers.

As moist air circulates over carpet, fibers absorb moisture from the air until their capacity is reached.

Elongation or a lengthening of the fibers results.

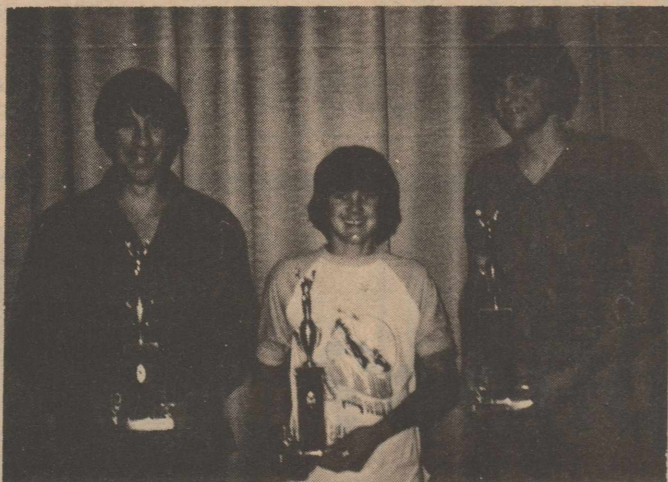

Fibers absorb moisture at different rates. Wool, cotton and jute absorb more than man-made fibers.

IN FORT WORTH

Mr. and Mrs. Z.I. Smith visited over the weekend in Fort Worth with their children, Mr. and Mrs. Harold Statts and family and Mr. and Mrs. Ben Smith and Mary Beth's mother, Mrs. Nomah Francisco.

FROM COLORADO

Mr. and Mrs. Robert Cunningham and Robert of Wheatridge, Colorado, visited here last week in the home of his sister and her family, Mr. and Mrs. John Turner, Len, John and Dawn.

WASHINGTON, D.C. - Results of the second District-wide poll conducted by Congressman Charles W. Stenholm have been completed and the overall message is a clear one: Cut government spending.

"The thread that ran throughout the responses was a fiscally-conservative viewpoint that I honestly feel my service in Congress has reflected," Stenholm said in reviewing the results.

Respondents strongly favored tighter restrictions for individual eligibility of Food Stamps (61.8 percent), compared to only 2.4 percent favoring a general increase of benefits. A total of 51.1 percent favored the elimination of benefits for individuals on strike; 38.2 percent for an increase in benefits for the elderly and disabled; 22 percent for a general reduction in the availability in benefits and 16.2 percent for the elimination of the Food Stamp Program altogether.

"I was especially pleased to hear the overwhelming support for some of these views which I, personally, have about the Food Stamp Program," Stenholm said.

Some 61.6 percent of those answering the questionnaire felt that a balanced budget and limited government spending would be most beneficial to the private business sector, as opposed to the choices of a limit on Small

Business Administration loans (11.3 percent favoring); accelerated depreciation for business capital investments (15.2 percent); more Congressional oversight of regulatory agencies (18.3 percent); and the revision of estate tax laws to ease tax burdens on family-owned businesses (35.2 percent).

When given choices ranging from increasing foreign aid assistance (only 2 percent favored) to no foreign aid at all (8.3 percent favored), the majority favored reducing foreign aid and all other programs to help balance the budget (39.2 percent).

What might be considered a surprising range of attitudes was evidenced in replies to a question regarding registration for a draft, as more respondents favored the drafting of men and women (40.8 percent) than those favoring drafting men only (36 percent). Only 8.6 percent opposed registration and drafting of men and women and 3.7 percent favored drafting women for front line duty, compared to 37.4 percent in favor of women for non-combat roles only.

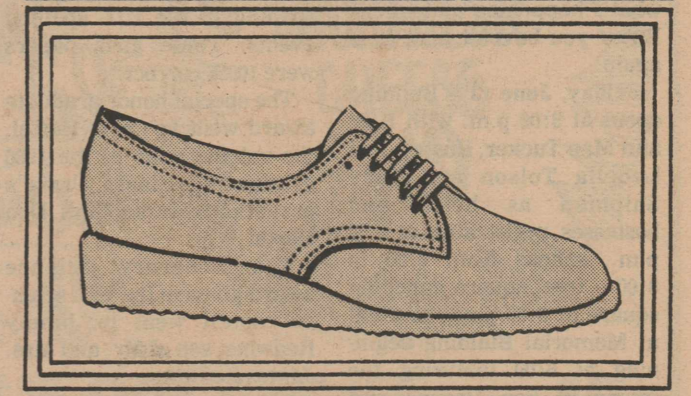

Respondents opposed the imposition of wage and price controls, favored the restoration of voluntary prayer in public schools and opposed a National Health Care Program.

"I was extremely pleased with the over 14,000 answers

we received and the promptness of the replies," Stenholm said. "The use of a poll such as this is an excellent way for me to obtain a wide range of views district-wide and I have found this information very useful to me in making decisions in Congress."

## Energy-Saving Ideas

**COLLEGE STATION** -- Maximize energy saving to live with today's energy limitations, advises Bonnie Piernot, a family resource management specialist.

Start with the hot water heater and hot-water-using appliances, she recommends.

Mrs. Piernot is with the Texas Agricultural Extension Service, The Texas A&M University System.

Hot water accounts for 12 percent of the energy used by Texans, the specialist points out.

For a beginning, try these tips:

Wait until you have a full load before using the dishwasher.

Run the dishwasher at night during hot summer months to reduce heat-load during the day.

Insulate your water heater. Repair leaky hot water faucets -- they can waste as much as 100 gallons of hot water a month.

Water heaters are most efficient when clean.

Therefore, once a month, drain out two to three gallons of water to remove rust and sediment.

This saves energy and extends water heater life.

## Benjamin 4-H Club Meets May 22

The Benjamin 4-H Club met Thursday, May 22 in a special session.

Motion concerning camp was amended so that each club member participating in a camp at the Texas 4-H Center in Brownwood will be sponsored by the club in the amount of \$15.00. All club members have turned in their Skate-A-Thon money and the club wishes to express their gratitude to their community for supporting 4-H. Those attending the meeting were SuLynn Oxford, Kim Cash, Lori Rolston, Kemp Jones, Becky, Amy, and Lori Griffith, Sue and Lana Gideon, Shane Spinks, Misty Pierce, Beverly Tolson, Debbie Bufkin, Stacia Ryder, Sharon Book, Jim Mazurkiewicz, Linda Griffith, Janice Tolson, and Gay Spinks.

### SAVE ON ENERGY

Improve "use-habits" with major appliances to provide the greatest potential energy savings, says Bonnie Piernot, a family resource management specialist.

Mrs. Piernot is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

### SHOW YOUR LOVE

Hug your infant.

Studies reveal that societies in which babies receive an abundance of physical affection produce adults who are relatively non-violent, says Cindy Wilson, a family life education specialist on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

## IF IT RAINS ON YOUR PICNIC

### PICNIC CHICKEN

- 1 packet Oven Fry coating for chicken, crispy crumb recipe
- 1/4 cup oil or melted shortening
- 1 egg
- 1 tablespoon water
- 2-1/2 pounds chicken pieces

Preheat oven to 400°. Empty packet of coating onto a sheet of waxed paper or into a shallow bowl. Spread oil in a 15x10x1-inch jelly roll pan. (A flat-bottom pan with sides not more than 1 inch deep gives best results.) In a large bowl, beat egg with a fork; add water and blend. Add all the chicken and toss gently to moisten each piece on all sides. Starting with large pieces, place chicken in coating, one piece at a time. Pile coating on chicken, then press firmly on all sides until the piece is thickly and evenly covered. Place chicken in pan, skin side down. Fry in oven 25 minutes, then turn and fry 25 minutes longer, until chicken is tender. Remove from pan immediately. Makes 4 servings.

Happy Birthday Today!

We Love You!

## Benjamin 4-H Group Tell Of Activities

The Benjamin 4-H Club met in regular monthly session May 13 with Lana and Sue Gideon, Amy, Becky, and Lorie Griffith, Lori Rolston, Shane Spinks, Beverly and Chad Tolson, Debbie Bufkin, Misty Pierce, Mitzie Lindsey, Kim Cash, Kemp Jones, and 4-H leader Janice Tolson.

The Benjamin Club had two girls, Beverly Tolson and president Lorie Griffith, to attend the Teen-Leader Lab in Brownwood at the Texas 4-H Center. Sharon Book accompanied the girls. They put their newly-learned training into effect by outlining and organizing their meeting. Debbie Bufkin also participated in organizing the meeting. Leaders were reportedly very pleased to see such fine youngsters taking a leadership roll.

The Skate-A-Thon was a huge success. All of the members participated and the group had several outstanding 4-H'ers. Turning in over \$40.00 was Debbie Bufkin with Beverly Tolson and Shane Spinks turning in over \$50.00. "All pledges were to be turned in before or at the meeting, and those who have not turned in their money, are urged to do so soon," the leaders said. A financial report was given and members expressed their appreciation to the community for their generous support.

Eleven club members who have signed up for 4-H camp at Brownwood at the Texas 4-H Center July 30, 31, and

August 1, 2, include Shane Spinks, Kemp Jones, Mitzie Lindsey, Kim Cash, Lori Rolston, Amy and Becky Griffith, Stacia Ryder, Sherri Parker, and SuLynn Oxford. Susan Jones and Gay Spinks will accompany the group.

Beverly Tolson made the motion have a "Thank You Community Day" by hauling the residents' trash free. The motion carried and a committee of Beverly Tolson, Lori Rolston, and Lana Gideon was set up to finalize the plans.

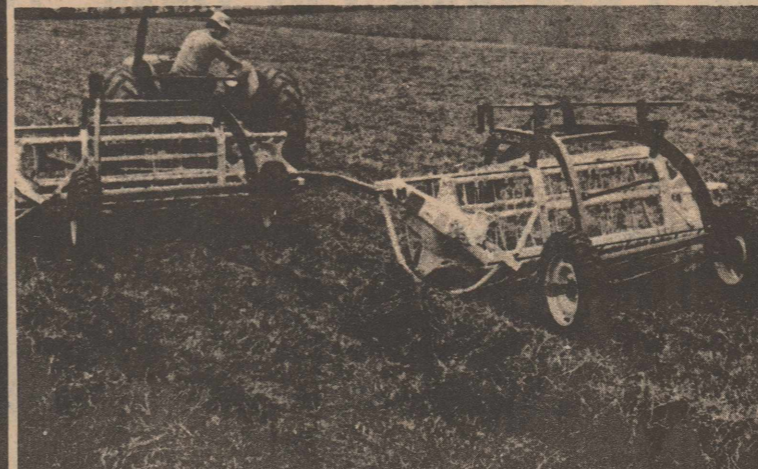

It was noted that 4-H usually doesn't meet during the summer months, but the Benjamin club reported that members had been having so much fun 4-H'ing that they made the motion to have regular meetings throughout the summer months. The Rally Day will count as the June meeting and the club will meet the second Wednesday during July and August.

The club will also be participating in the June 14 Benjamin Homecoming Parade. Plans are not underway for the 4-H float with Ivalene Pierce as adult sponsor for the project.

Janice Tolson worked with the Benjamin club May 10 in setting up and decorating tables at the Memorial Building for the annual Mother's Day barbecue, sponsored by the Knox County Adult Leaders Association.
