Residents are reminded that in the event of severe weather, two blasts of the siren will warn that persons should watch the clouds and take cover if necessary. The siren does not necessarily mean that a storm is approaching the town but that the probability exists. No all clear will be sounded. In case a tornado is cited, police cars will also sound sirens.

Five blasts of the siren indicates a fire.

New York City, we stayed in the Waldorf Astoria on Park Avenue. That was exciting in itself! We had someone from Ballatines with us at all times to show us around the Big Apple -- (and keep us from getting lost.)

My mother and I took fast taxi rides, went to Saks Fifth Avenue, ate Japanese food, got cricks in our necks from were Marlene Siepel, Barlooking up, saw "Annie" and bara Pratt, Gay Spinks, "The Pirates of Penzance"

Town and Little Italy and Greenwich Village, saw for miles from the tops of the Statue of Liberty and the World Trade Center, and even took a subway ride!

The people at Ballantine Books treated us like royalty. We met the Mr. Ballantine, and Judy Lyn del Ray. We also met the president of the company, the editors, and many other fascinating people. They were all extremely busy, but they still took time to sit down and tell us about their jobs. We certainly didn't know that there was so much work put into publishing a book!

The trip was a dream come true, and something that won't soon be forgotten. What will be remembered even longer is how interested and nice all of you have been! That is what is wonderful about living in a Texas town of 1500 called Knox City.

This is the 26th year for America's largest tax service. The company was built on the \$5.00 and up tax return and today prices are starting at \$7.50. The average fee last year in Haskell was less than \$25.00. H&R Block this year is instantly processing 1040A's, which means the guaranteed 1040A return will be done in only one visit.

Taxpayers overpay their taxes because of a lack of Tax knowledge and the fear of an audit. People file the form they receive without checking to make sure that they have taken all of their deductions and credits. H&R Block believes every client should have a complete personal interview and the return done while the client is with the tax preparer. Block knows taxes.
