

NEW OWNERS OF DOWNTOWN STORE - Proudly showing off the interior of their new gift store, Under the Rainbow, located at 114 Central Avenue, are from left, Donna Byrd, Shirley Hudgens, and Sequoyah Reynolds. The new store opened last Thursday and will celebrate its grand opening Saturday.

Grand Opening Saturday

Knox City Gains Another Business

Knox City gained another new business in the downtown area when Under the Rainbow, a new gift shop, opened Thursday of last week at 114 Central Avenue just north of Clonts Hardware. The firm will hold its grand opening Saturday, October 16.

Sequoyah Reynolds of Knox City and two Rochester women, Donna Byrd and Shirley Hudgens, are the new owners and operators and are responsible for converting the vacant building into very attractive surroundings. The new interior is beautifully done in colors of peach, off-white and rust, and rust-colored carpet complements the decor. The women did all the decorating themselves

from laying brick for the fireplace mantel as well as making priscilla curtains. The new business offers gifts for all occasions and also can arrange balloon bouquets for those special moments.

Hours are from 9:00 a.m. until 5:00 p.m. each day Monday through Saturday and the new telephone number is 658-3650.

Sequoyah, a resident of Knox City since 1951, has worked in a number of local businesses and is well-known to all of her customers. She and her husband Bud, a longtime West Texas utilities Co. employee, are the parents of two sons.

Donna and her husband Hank Byrd are Rochester

residents and he is employed by Terra Resources in Knox City. They have two sons. Donna is a former employee of High's Drug in Haskell and is experienced in flower designing. She will do custom silk arrangements.

Shirley Hudgens and her husband are also from Rochester where he farms. Shirley, a beauty operator, is well-known to Knox City and area folk as she operated a beauty shop in the Knox City Mini Mall for a while. Shirley and James have a son and a daughter.

The women are very excited over their new venture and are inviting everyone to come by and visit them in their new place of business.

The course will fulfill the American Heart Association's requirements of eight hours' instruction, officials said.

Instructor will be Bobby Hutchinson of Munday. Interested persons may contact Hutchinson at 817/422-4119 or Kathy Carroll at 817/474-3261.

Harvest Festival To Be November 9

Shootin' Straight
By Dave Thompson

(Editor's note: Many of our readers have asked us to write a weekly column dealing with items of interest within the area, so the *News* has persuaded one of its family members, Dave Thompson, who wrote Chief's Notes for the paper when he was Chief of Police here, to accept this challenge during his spare time. We're happy to have his comments and hope that all of you will enjoy the new column.)

Starting this week we will have a new feature here in the *News*. This column will be appearing with comments on unusual facts and features of happenings in the Knox County area. The title of "Shootin' Straight" has been picked because it describes exactly what I'll be attempting, giving you the straight talk on what we bring you.

There has been a new happening on the scene right here within the walls of *The Knox County News*; a brand new computer has either graced us or plagued us with its presence, depending on which side of the programming keyboard you happen to be sitting on!

The computer was purchased to give the *News* Office staff a modern, up to date mailing list and label printout each week, also to help with the volume of ever-increasing paperwork that a newspaper and office supply firm faces each and every day.

The plague started when the salesman who sold and delivered the equipment got into a rush and had to leave before we were really aware of all the problems that one can get into by simply pushing one wrong button! Brought to mind right away are many stories that I've heard in the past from large companies that send computer printed statements, they always claim that it is the computer's fault when you receive a wrong statement, either the computer overbilled or (hardly ever) underbilled you. After many frustrating hours at the computer keyboard this week, I have come to the startling conclusion that the computer does not and cannot make mistakes, it just allows the operator to prove just how big of a KLUTZ he can be!!!

I know that there is the theory that since man made the computer, man should be able to control it. In the midst of pulling out my hair after the computer erased 389 programmed-in names and addresses, I really doubted the validity of that theory. But, with lots and lots and lots of trial and error with the machine, I learned that man's best friend in the computer age is the telephone, because it's rather simple to call up someone else and find out the answers—providing that they know the answers.

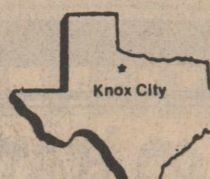

So, with the aid of the telephone and by having a lot of prayers answered, your next week's copy of the *News* should have a nice clear computer printout label to boldly proclaim our transformation to the computer age—that is, if I can manage to type in all the names on the mailing list with my fingers crossed for luck!

He also has had Sunday School lesson quarterlies for teachers and pupils for several years for adults, young adults, and young people and also Sunday School lessons for the *Baptist Standard* in 1977, 1978 and 1979.

To Meet Rule Friday Greyhounds Undefeated

Knox City's Greyhounds raised their undefeated district record to 2-0 Friday night by soundly defeating the Crowell Wildcats on their home turf, 39-6.

It was Knox City all the way Friday night as the Hounds held the Cats scoreless until the third period garnering 33 points for a decisive halftime lead.

Ricky Gutierrez scored fir-

st on a nine run with Wayne Hutchinson kicking the extra point. Gutierrez then scored again on a 30 yard pass play from Dwayne Watkins. Hutchinson's PAT was good. To round out the scoring in the first period of play, Hutchinson carried over a 15 yard pass from Watkins; however, the point after try failed.

Second quarter action saw Gutierrez run for a 28 yard touchdown with the kick failing. Watkins completed the scoring before half with a 16 yard run. The PAT attempt failed.

Hutchinson returned the third quarter kickoff 85 yards for the Hounds final score of the night. Kick failed.

Crowell's John Anderson scored on a 12 yard run for their one score of the night. Their attempt for point after failed.

This Friday night, the Hounds travel to Rule to meet the Bobcats at 7:30 p.m.

Sidewalk Sale Is Saturday

Knox City merchants are once again preparing for a gigantic Sidewalk Sale this Saturday, October 16.

The semi-annual event will be held downtown and will be an all-day affair.

Previous sidewalk sales have been very successful with shoppers as well as merchants looking forward to the sale. It not only enables merchants to mark down a slow selling item, but shoppers have fun picking out the 'goodies' from a vast array of bargains.

Area residents as well as Knox City shoppers are invited to join in the fun, Mrs. Doris Crowover, Chamber secretary-manager, said, so everyone should circle Saturday, October 16, on their calendars and remember to be in Knox City Saturday for loads of fun and bargains!

Bloodmobile Visit Set Here Oct. 19

Blood donors are silent heroes...They save lives through their unselfish act of giving and rarely know who their gift will ultimately benefit.

By giving blood, the donor becomes a member of the health services team which cares for patients. Unlike medications which can be manufactured, blood can be obtained only from human resources.

Patients with leukemia, cancer, anemia, hemophilia, chemotherapy-related problems, shock, trauma accidents, childbirth complications, bleeding problems, kidney disease, liver disease, burns and potential organ transplants all need blood.

Your next opportunity to become a silent hero by giving blood, will be on Tuesday, October 19 at the First Christian Church from 1:30 to 6:00 p.m. Contact Barbara Barnard at 658-3426 your local Blood Services chairman, to reserve a time most convenient for you.

Knox City Jaycees will unload equipment at 12 noon. Other volunteers should report at 1:00 p.m.

Revival To Begin Sunday At Methodist

Revival services have been scheduled to begin Sunday, October 17, at the 6:00 o'clock evening worship service and continue through Wednesday, October 20, at the First United Methodist Church in Knox City. Services Monday night through Wednesday night will begin at 7:30 o'clock each evening, and according to the Rev. Doug Stenberg, pastor, refreshments will be served following the Sunday evening and Wednesday evening services.

Monday, Tuesday and Wednesday mornings at 7:00 o'clock, the Methodist men will prepare breakfast for all where a devotional will be shared by the evangelist, Jerry Kunkel, pastor of the First United Methodist Church in Petersburg.

The Rev. Kunkel spoke to the Knox City-O'Brien graduates during their commencement exercises last May and many persons have remarked they would welcome the opportunity to hear him speak again.

A graduate of Lamesa High School, the Rev. Kunkel was received under Presidential appointment to the U.S. Naval Academy at Annapolis, Maryland, and even though he was junior All-American at Navy in track, the success in athletics was not fulfilling the aspiration he had to serve Christ as a preacher. He resigned from the Naval Academy to return to Texas and marry his high school sweetheart and enroll in McMurry College. He received his B.A. in Theology in 1975 and went on to Perkins School of Theology where he graduated in 1980.

He and his wife, Kathy, have three daughters, Chresta 9, Wendy 7, and Lindsay 3, and are presently living in Petersburg where he was appointed pastor in June, 1981, after serving one year as associate pastor of St. Paul United Methodist Church in Amarillo.

He has preached for 12 years serving churches at Sulphur Springs, Lone Oak and Lucas while he was in college.

The Rev. Kunkel's wife is an accomplished musician in piano, woodwinds, and voice. She was voted one of the top vocalists in the nation while attending Texas Tech University. She has a large variety of music she brings to her ministry ranging from contemporary to gospel to classic.

Everyone is invited to attend and hear these inspiring messages in word and song, the pastor said.

Bateman Ranch Is Rehab Donor

Lee Smith, one of the area chairmen for the Cattlemen's Round-Up For Crippled Children reported to the *News* office this week that Bateman Ranch had made a sizeable contribution.

Other donors were mentioned in an article which appeared two weeks ago. Smith again expressed his appreciation to all those who supported this year's Round-Up, benefiting the West Texas Rehabilitation Center in Abilene.

Auxiliary To Hear Abernathy

The Knox County Hospital Auxiliary will meet Monday, October 18, at the downtown thrift shop.

Hospital administrator Randy Abernathy will be on hand to speak to members concerning other needs of the hospital.

According to auxiliary president Peggy McGaughey, the anesthesia machine that was purchased by the auxiliary has been paid off.

All members are urged to be present.

PUBLIC NOTICE

Help Wanted
By extra conservation, you can reduce the effect of an event which temporarily increase your electric bills.

The San Miguel lignite-fired plant will be shutdown for scheduled maintenance for about 4 weeks beginning October 18. This shutdown will increase the cost of electricity throughout the maintenance period.

Normally, most of your electricity is generated using lignite for fuel. A smaller amount comes from natural gas and hydroelectric power plants. The cost of all sources are blended to determine the cost that B-K Electric pays for wholesale power from Brazos Electric Power Cooperative.

While the San Miguel Plant is shutdown, most of your electricity will come from natural gas plants. Because natural gas is considerably more expensive than lignite, your electric bill will be higher. Try to use less electricity during this maintenance period to control your electric bill.

Thank you.

NOTICE

IF YOU SMELL NATURAL GAS, FOLLOW THESE 3 STEPS TO SAFETY.

- Do not switch anything electrical on or off. Do not use the telephone in your own home. Do not strike a match. Do not do anything that might cause a spark.
- Have everyone leave the house immediately, leaving doors open to help ventilate.
- Go to a nearby telephone and call Lone Star Gas Company. Wait until we have found the source of the odor to determine whether it's safe for you to return to the house.

You may never have a natural gas leak, but we want you to be informed in case one does occur. Please make sure your family is aware of these precautionary steps. And we suggest that you keep this message for future reference.

The natural gas industry has an excellent safety record. The fact that you can smell natural gas is because we add a harmless chemical to it as a safety feature. Otherwise, it would be completely odorless. If you are outdoors and smell gas, call your local Lone Star Gas office. If you are indoors and detect faint whiffs of what you think may be gas, investigate. It may be that a pilot light has gone out or a burner valve has been left partially open. These are corrective steps you can take yourself. If your equipment seems to be working properly and the odor persists or intensifies, please follow these precautions:

On Thursday night Elder Session of Seymour preached from Matthew 15:21,25, a great message.

Bread Fair Is Held Recently

Bread-making-in-a-bag? It may sound strange, but it's a unique way to teach large groups of people breadmaking with just a few kitchen utensils and very little clean up.

Developed by the Wheat Flour Institute, this unique technique was taught during a "Bread Fair" at the 1982 Knox County Achievement Day.

Sponsored by the Knox County Extension Homemakers Council, the "Bread Fair" was conducted under the direction of April Stamps, County Extension Agent. Approximately 31 people participated in the "Bread Fair"

News Notes from the Brazos Valley Care Home By Rena Tankersley

The topic of "Nursing Home Image" keeps coming up over and over in meetings across the state. Everyone is well aware of the stereotyped image of a nursing home. We keep asking ourselves what people saw when they came into our Brazos Valley Care Home.

We realize that probably what first caught people's attention were a few confused residents aimlessly moving about in their wheelchairs or slumped over asleep. The staff at Brazos Valley Care Home are very conscious of the needs of this type resident and we do not feel that it is good to separate them from the other residents. Our activity program is geared to meet the needs of all our residents.

We only hope that the first impression will only make you realize, Brazos Valley Care Home is more interested in the resident than improving our image.

Letters To The Editor

Dear Editor:

1982 is a very important year for Texas. This year I am personally involved in Senator Mike Richard's campaign for State Comptroller.

The Comptroller is the Chief Financial Officer of Texas. It is a very sensitive and important position.

As the coach of a successful football team, I understand how important leadership is to any organization. Mike is the kind of leader that Texas needs. And he is more than qualified to be the best Comptroller that Texas has ever had.

A victory for Mike Richards, in my personal opinion, will be a victory for Texas.

Sincerely,
Tom Landry
Dallas, TX

Dear Editor:

I would like to renew my subscription for the coming year. I really do enjoy reading about the activities of my home town.

Thank You,
Jo Hagerman

A tremendous thank you goes to Vern Deibert, chief of respiratory therapy, and Debbie Bishop RN for their quick response in reviving Dave. Thanks also to Dr. Neufeld, Freida Wright RN, Debbie McCown RN, Cindy Brothers and to those who stayed with him in the intensive care unit for their care and concern.

Even though we realize daily how fortunate we are to have the medical facilities and personnel here, it is at times like these when we doubly realize how vital it is.

For the cards, flowers, plants, balloons, gifts, visits, food and prayers from our friends, we are grateful.

May God bless each of you as He has us.

STREAMS IN DESERT PLACES

By OZELLE STEPHENS

"For if you forgive men of their trespasses, your heavenly Father will also forgive you." (Matthew 6:14).

Sometimes people have a problem with forgiveness, but when you go to The Word of God, you find what to do as in all other problems and troubles. The secret of it all is the Words of Jesus Christ. He has the answer written in His Word and He is the answer, for He is the way, the truth and the life.

The Way to find this truth is, "To love the Lord thy God with all thine heart, mind, soul, and strength, and one's neighbor as one's self. When you have done this, you will have experienced forgiveness and to have forgiven others as well as self. The Lord said in His prayer, "And forgive us our debts, as we forgive our debtors." (Matthew 6:12.) He also said, "For if you forgive men their trespasses, your Heavenly Father will also forgive you; but if you forgive not men their trespasses, neither will your Father forgive your trespasses." (V. 14-15.)

Remember God's forgiveness is necessary for your salvation and his favor to you. Man's forgiveness of others is necessary for one's own health and to release others to receive God's favor. Self-forgiveness is necessary for one's own health spiritually, mentally, and physically.

Seek God while it is time and let his love make your heart pure and clean.

The United Methodist Women met Tuesday, October 3, at 3:00 p.m. for their monthly meeting. Attending were Lois Cypert, Bonnie Coats, Lillian Logan, Ruby Robinson, Mamie Watson, Myrtle White, Elizabeth Wilson and Cordelia Woodward.

In the business meeting plans were finalized for the church bazaar which will be Saturday, November 13, beginning at 9:00 a.m.

The earth does not belong to us; we belong to the earth. We are stewards of the land; we must not misuse it. Always be conscious of the needs of people in regard to justice, food and in use of the land.

Lois Cypert led us in the closing prayer.

Stretch Clothing Dollars -Make Your Own Coat-

Want to stretch your clothing dollars?

A good way to do so is by making your own coat, since it is one of the most expensive clothing items for winter wear.

Among the easiest types of coats to make are those with the following characteristics:

- *A simple design with a few tailoring techniques.
- *Very loose and requires minimum fitting.
- *Simple-yet smart--kimono, raglan or dropped sleeves.

- *May be collarless.
- *Have in-seam pockets.
- *Are unlined (but you may want to line the sleeves for easy-on, easy-off).
- *Fasten with ties, toggles or wrap with a belt.

CHOOSE COAT FOR INTENDED USE

Whether you decide to make or buy the outerwear garment, your choice of coat

should depend on its intended use.

A coat is satisfactory when it contributes to the conservation of human energy and keeps its wearer warm. Many types of fabrics and insulations are on the market. Design features, construction techniques and styles also vary.

Before making a choice for a coat, ask your self these questions:

- *To what types of activities will I wear it?
- *In what temperature range will I most often wear this garment?
- *Will I give the garment rugged, active use?
- *Will I be exposed to frequent wet and windy conditions?
- *How will I care for the garment?

THE KEY TO KEEPING WARM

While no one fabric, finish,

insulation or construction alone will give you complete warmth, the key to keeping warm is how the fabric, insulation, finish, construction, garment design and fit all combine to trap "still air" next to the body. This trapped or "dead air" space provides the necessary thermal insulation to keep you warm.

Many new fabrics--along with the more traditional ones--are used to make outerwear garments. Fabric finishes also affect a garment's performance and your personal comfort.

Body warmth is best maintained by a protective fabric layer, a layer of insulative fabric, and a "breathing" fabric layer. Regular daytime garments worn under coats serve as the breathing layer--and provide comfort to the wearer.

With coats, the main concern is the protective and in-

slulative layers. In the past, these two layers were provided by three separate fabrics--an outer fabric, an interlining of loosely woven wool, and a smooth lining fabric. Most coats have these layers combined in some way.

The size and fit of outerwear garments also help determine how warm one will be. The garments should be large enough to wear several layers of clothing underneath.

SPECIAL FEATURES OF WARM COATS

You can find fashionable coat styles--or patterns--that are attractive as well as being designed to help maintain body warmth. Some coat designs--such as those with elbow-length sleeves or a clutch-close front that can't be fastened--do not rate very high in maintaining warmth.

If you want a warm coat, look for these special features:

- *An attached hood that fits closely around the head.
- *Long, narrow sleeves that cover the wrists and have inside cuffs.
- *A neckline that fastens

securely under the chin--perhaps with a turn-up collar that closes.

- *Secure front closures, such as buttons or zippers with protective flaps, that extend all the way down the front.
- *Full length--or at least enough length to cover the torso.
- *Extra capes, scarves or shawls that provide insulation around the head and shoulders.
- *Deep pockets--large enough to hold the entire hand.
- *Belts at the waist to keep out the wind.
- *A wide overlap, or double breasted styling, to make the coat less likely to flip open.
- *An easy fit so the coat can go over sweaters or suits.

While you may not be able to find all these features in a coat, a warm coat should include many of them.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion or national origin.

ERS Taking Home Unit Applications

The Emergency Response System serving Haskell, Knox, Kent, Stonewall and Throckmorton counties is now taking applications for the first 60 government funded home units now available.

The Emergency Response System is a community based emergency response program that allows elderly and disabled persons to live independently in their own homes while still being in touch with help if needed.

In the case of an emergency, the home unit in the subscriber's home can be activated to automatically send a signal to the Emergency Response Center, which is the Knox County Hospital. Personnel at the hospital summon help which has been prearranged for each individual subscriber. The home unit also has the ability to send a signal for help even if the subscriber is unconscious.

The 60 home units will be distributed over the five county area 12 per county. Since these home units are funded under the Older Americans Act through the West Central Texas Council of Governments the units must be placed in homes of frail or handicapped persons over the age of 60. Subscribers must be mentally alert, medically vulnerable and/or socially isolated and live alone or with medically vulnerable spouse. Each subscriber must furnish a private line telephone and be willing to sign an agreement about participation in the program.

To apply for a home unit, readers can contact Trudy Hunt week-day mornings at (817) 658-3535.

Traveling to Chillicothe this past week was hot and rewarding for the Houndettes when they brought home two more wins. This made their win-loss record 19-3.

This next week they travel to Woodson and Colorado City to finish up their pre-season. District play will begin next week on Tuesday, October 19, with Aspermont here at 5:30 and on Thursday, October 21, with Weinert here at 3:30. The same schedule will be played the following week at Aspermont and Weinert here at KC.

'America!', 'Texas Bound!'

Six Flags Shows Something Special

ARLINGTON--When the Six Flags production staff began putting together this season's show for the Southern Palace, they were searching for something special.

"We wanted to do a show that made a statement," said Linda Doty, production manager. "We wanted to be patriotic, but not red, white and blue. So we decided to go with a Broadway look."

The result is "America!", a dramatic, uplifting and energetic show that takes a look at our country through its exciting music. David Blackburn, vice president of Six Flags Show Productions, wrote the show. Tom McGehee choreographed it, and the production staff selected 19 very talented young singers and dancers to perform it.

Oh, and they found that something special, too.

Consider that the show, performed six times a day, seven days a week, rarely does not receive a standing ovation, be it Monday afternoon at two or Saturday night at eight. Consider that some cast members will spend their day off back at Six Flags, enjoying the show they already know like the back of their hands.

After Neil Diamond's upbeat "America" opens the production, the 35-minute show takes off on a fast-paced journey through Broadway, jazz, boogie-woogie, rock 'n' roll and everything in between. From "I've Got Rhythm" and "Chicago" to "Oklahoma" and "The Twist," "America!" celebrates our dance songs, love songs war songs and musicals.

The show is a joy to watch, though physically very hard to perform day in and day out—a credit to the professionalism of the young cast, who range from age 16 to 25.

"This is probably the most demanding theme park show in the nation," said cast member Eddie Keener, a veteran of Six Flags Corporation shows. "It's very hard to do six times a day."

Greg Dulcie, in his third year as a Six Flags performer, agreed. "This show is a lot more professional (than some past shows)," he said. "It's more slick. This is a real step for Six Flags."

The show requires singing and dancing abilities on the part of each performer, in addition to a good deal of stamina. A daily cast of 14 men and women perform each show, with five others alternating throughout the week. They were chosen from a field of nearly 1,000

auditioners who came from all over Texas and the Midwest.

And though the show requires a lot of energy from the cast, its uplifting nature also helps produce it.

"The energy between performers keeps us going," said Paul Norris of Memphis. "If we had to depend on ourselves individually, we wouldn't make it."

Everett Caskey, known in the area for his recording of the Dallas Cowboys theme song last year and whose job it is to know all the male parts in "America!", is one of those who will come back to the park on his day off to see the show.

"It still gives me goose bumps to watch it," he said. "It's so full of energy. You feel good just to be a part of it."

Caskey is one of many performers in the show who aspire to a career in the entertainment field. Keener, a 22-year-old from Cordell, Oklahoma, has his eyes set on New York. For them, Six Flags is a stepping stone to even bigger and better things. After all, now-famous Betty Buckley and Jay Johnson once passed through the Six Flags show scene.

But several of the cast members do not wish to make profession of performing. Bruce Douglas of Lawrence, Kansas, the oldest of the group at 25, has graduated from the University of Kansas and is a director of vocal music in the city of Lakin. Kendi Brown, a former Miss Oklahoma, teaches dance in Wichita Falls and plans to remain primarily an instructor instead of a performer.

For this summer, however, they're one big happy, performing family.

"You see these people four or five months for eight hours a day and then go out together at night," Norris said. "You get mad at them, laugh with them and cry with them. You really do become a family."

Then at the end of the season they must go their separate ways—back home, back to school or back to work. Next year some of the family will be back, others will have gone on, and new members will join the cast for yet another show's celebration of music.

One type of purely American music that is not a part of "America!", however is country-western. It has become such a popular fixture on the American music scene that it earned a show all its own—"Texas Bound!", performed hourly at the Crazy Horse Saloon in the park's Texas section. A cast

of six performs the show, which utilizes the music's informal style.

With popular songs such as "9 to 5," "Elvira" and all-time favorites "Deep in the Heart of Texas" and "Old-Time Religion," the audience and cast sing and dance together. The 25-minute show passes by all too fast.

"You really get to show your personality," said Craig Ellis. "It's more relaxed and informal. There's a lot of interacting between the audience and cast."

COST OF LIVING INCREASE - RMA

As of April 1982 all Supplemental Security Income benefits have been determined by a new method. This new method is called retrospective monthly accounting. This new method is the reason why Supplemental Security Income recipients, who also receive Social Security benefits will receive a total increase of more than 7.4% in their July and August benefits.

The Supplemental Security Income benefits will be increased in July by the cost of living increase but the income that will be used to determine their Supplemental Security Income payment will be their May 1982 Social Security benefit—not the new July 1982 Social Security benefit. In August, the Supplemental Security Income recipients still have the cost of living increase on their Supplemental security Income benefits but their benefits this month are based

on the Social Security income they had two months prior which would be the June 1982 Social Security benefit. The Supplemental Security Income benefit for July and August is based on Social Security benefits received in May and June 1982.

The September Supplemental Security Income check will be determined based on the income received in July 1982 which was the first month the Social Security checks increased. Therefore, the Supplemental Security Income benefits in September will be adjusted to reflect the increase in the Social Security checks in July 1982. All recipients who receive Social Security and Supplemental Security Income benefits should expect an adjustment of their SSI checks in September 1982.
