Knox City, Texas

When we started SHOOTIN STRAIGHT last week, I mentioned that I would be writing the column with reference to unusual facts and features of happenings in the Knox County area. During this past week I have personally experienced something very unusual that I hope you too will get a chuckle out of...

It all began with a decision to have my hair restyled. That wasn't such a major decision to make, nor was the choice of a stylist, I picked one that came with good references and was located right here in Knox City. Now there is one thing that we all have to keep in mind these days and that is the fact that hair styles have changed and if one wants to keep up with the times then one should not stand in the way of a change to update self-image. So, with this in mind and being rather bold, I went to a Hair Stylist and told her that I would like to wear my hair different, changing it from straight to curly. That is where the fun began!

Unless one is brought into this world with curly hair, a solution called a permanent is needed to accomplish the change. Now you women out there reading this will right away know what I am talking about, now I will enlighten the men to some of the "other" facts of life:

Being like most other MEN, when I entered a shop that had "Beauty Shop" on the front door, I found myself glancing from left to right and behind to see if any one that I knew was watching me enter. After all, it might be hard to explain while still trying to keep up a manly image! Once inside I felt as if I was safe from prying eyes until I noticed several older ladies eyeballing me with curiosity. Oh well, I was already there, so I kept my chin up and decided to go ahead with my idea. After getting a shampoo that was nice, the stylist started to roll my hair for the curly look. To my surprise and horror, she started to place curlers in my hair! Now, these were not just any ordinary curlers, they were bright yellow ones! I sank a little further down into the chair trying to hide each and every time that the front door opened. I had mental visions of a good friend walking in while I was wearing enough hair curlers to bring in all 40 T.V. Channels with startling clarity! But, as I mentioned before, I

KC News Observing 11th Birthday

It was exactly eleven years ago today, Thursday, October 21, that *The Knox County News* published its first edition after the former publication, *The Knox County Herald*, was closed by voluntary bankruptcy.

With the tremendous support of the Knox City Chamber of Commerce, local merchants, and a number of individuals who were determined that the town would not be without a local newspaper, *The Knox County News* emerged.

The News takes pride in publicizing the community, its many civic endeavors, the businesses, the excellent school facilities, the personnel and facilities of the Knox County Hospital and Clinic, the government offices and their skilled personnel, and last but certainly not least, the fine churches. It's people working with people that creates the closeness enjoyed by small town folk.

The News began officially on October 14, 1971, one day before our neighbors in Munday began the same process of starting over, and about three weeks before Rochester did. The former publisher had all three weeklies and all three towns were in "the same boat".

Since 1971, we have graduated from typewriter to just-writers to phototypesetting equipment. Just the past two weeks, we have added a computer, which incidentally will be able to print our labels when we receive the correct diskette, hopefully within the next ten days. Some of the labels will be used this week, but others will have to continue to use the old addressograph until our new disk arrives.

Even though much of the area's economy depends on agriculture and oil, and the past two years have been hard years, we realize how vital it is for merchants, farmers, ranchers, and other business people to support one another and with friend helping friend, we can make it.

The News staff is made up of publisher Billye Angle, editor Stacy Thompson, clerk Elaine Lewis, and typesetter Barbara Vaden. Stacy's husband, Dave Thompson, has been helping with the computer in his spare time and Billye's husband, Buddy who in 1971 helped get the newspaper started, now helps the crew in his spare time as chief "go-getter".

Countses Home From Puerto Rico

Mr. and Mrs. David Counts returned home last week from San Juan, Puerto Rico, where he attended a four-day conference of the National Guard Association of the United States.

David, who is a lieutenant colonel in the Guard, flew by military plane from Bergstrom AFB near Austin, and his wife Mary joined him in Puerto Rico.

They also made a side tour to St. Thomas in the Virgin Islands and reported a very enjoyable trip.

Hounds Continue Winning Ways

BY DAVID COUNTS

The Knox City Greyhounds continued their winning ways Friday night by soundly defeating the Rule Bobcats, 33-14.

The Bobcats were fired up and ready. Taking the opening kickoff, they moved steadily downfield until James Earl Stafford intercepted a pass at the Hounds' 12 yard line. Stafford returned the ball to the Hound 29.

The Hounds used a well-balanced running attack to move the ball steadily downfield. Ricky Gutierrez carried the ball four times, James Earl Stafford carried four times and Dwayne Watkins carried twice with the last a 13 yard keeper into the end zone for a Hound touchdown. Wayne Hutchinson then kicked the first of three extra points.

The offensive line blocked exceptionally well in this drive, nothing fancy in the drive, just good blocking and hard running.

Following the kickoff, Wayne Hutchinson recovered a Bobcat fumble on the second play of the second quarter to set the Hounds up on their own 40 yard line. The Hounds were not able to move the ball. Watkins then unleashed a 48 yard punt to

the Bobcat 7 yard line.

The Hound defense rose to the occasion and forced a fourth down punt to the Bobcat 38 yard line.

Aided by a pass interference call in the end zone against the Bobcats, the Hounds took over the ball at the one where Stafford ran it in on the first play. Hutchinson again kicked the extra point. Score was 14-0 with 5:04 remaining in the first half.

Wayne Hutchinson intercepted a Bobcat pass as time was running out in the first half to allow the score to standup, 14-0.

The Hounds received the second half kickoff. Following an excellent return by Hutchinson on four running tries, the Hounds fumbled the ball on the Bobcat 20 where the Bobcats took over.

The Hound defense held forcing a punt. The Hounds were unable to move and punted to the Rule 16.

The Hound defense played tough and on fourth down the center snapped the ball over the head of the punter and the Hounds took over the ball at the Bobcat 15. On the third play, Ricky Gutierrez ran 6 yards for the touchdown. The kick was good. Score was 21-0.

The Hound defense let up a little on the kickoff and the Bobcats ran it back to the Hounds 49. The Hounds' Kevin Eaton intercepted a pass but a pass interference call against another Hound gave the ball to the Bobcats on the Hound 26.

On the third play of the fourth quarter, Rule passed 9 yards for a touchdown. A pass for 2 points was batted down to leave the score 21-6.

The Hounds could not move the ball following the kickoff and punted. Four plays later, Wayne Hutchinson intercepted a pass returning it to the Bobcat 20 but a clipping penalty moved the ball back

to the Bobcat 45. It took only 6 plays to score when Ricky Gutierrez ran for 6 yards. The kick try for the extra point was blocked. Score 27-6.

The kickoff proved disastrous as the Bobcat runner ran 90 yards for a touchdown. A quarterback draw added 2 points. Score 27-14.

With time running out, the Bobcats tried an onside kick but the ball did not go 10 yards so the Hounds went to work at the Bobcat 40 yard line. Gutierrez ran for 22 yards in 3 tries and "Earl The Pearl" Stafford ran 18 yards in 3 tries with the last a 5 yard scoring play. The kick again failed going wide left.

This is the way the game ended. Several players played a very good game. James Earl Stafford ran like Earl Campbell on several of his runs. Ricky Gutierrez was not feeling well but when he did play he made everyone aware he was on the field. Dwayne Watkins had a good night even though he only passed six times. The offensive line blocked outstandingly.

Both offensively and defensively, Wayne Hutchinson had a big night. Running hard when asked to spell Gutierrez

The Benjamin Mustangs scored at will against the Patton Springs Rangers Friday night. Troy Oxford started the scoring with a 31 yard run. Chad Tolson. Alan Baty ended the scoring with a 67 yard TD run. Baty scored two other times during the contest.

The Mustang defense played an outstanding game. Allen Heard intercepted a Ranger pass and returned it 15 yards to set up a touchdown by the Mustangs.

MUSTARD ADDS ZEST, FEW CALORIES

Two major consumer trends are increasing mustard's usage and popularity: a preference for more flavorful foods, and the desire to shape up and stay slim and fit. Naturally low in calories, mustard gives even the simplest of foods an interesting touch of spice and individuality.

The R.T. French Company, maker of America's most popular yellow mustard, now has created a spicy brown mustard to give foods new zest while adding few calories. French's new Bold 'n' Spicy Deli mustard has a hearty, more robust taste than traditional yellow mustard.

BAKED FISH MEDITERRANEAN
1 tablespoon butter or margarine
1-1/2 pounds fillet of sole or flounder
Salt and French's Pepper
1/4 cup Chablis or other dry white wine
1 tomato, chopped
2 tablespoons French's Bold 'n' Spicy Deli Mustard
French's Parsley Flakes

Melt butter in large skillet. Season fish with salt and pepper. Roll up, pinwheel style, and arrange, seam-side down, in large skillet. Combine wine, tomato, and mustard; spoon over fish. Cover and simmer 10 to 15 minutes, until fish flakes easily when pierced with a fork. Garnish with parsley flakes. 4 to 5 servings. 280 calories in each of 5 servings.

STUFFING BEEFS UP THE MEAL

When beef is on the family menu, how do you add eating excitement instead of serving the usual potato and fixings? It's deliciously done with a new kind of stuffing mix made with real beef broth especially to go with beef. You'll enjoy the convenience of the new flavor because it's packaged with toasty bread crumbs, and a separate vegetable/seasoning packet. Set the clock, time yourself and see how easily it can be prepared in about 15 minutes in a saucepan on top of the stove. Serve plain on the dinner plate, as a side dish, or as a major ingredient in this Beef and Stuffing Pie entree. A mixture of prepared stuffing mix for beef and vegetable is baked in a ground meat "shell" for just 10 minutes. Strips of cheese on top of the pie melt, complementing the beef flavor. This recipe makes two 3-serving entrees. Serve one for supper; freeze the other, labeled as an "emergency" meal.

BEEF AND STUFFING PIE

- 1 pound ground beef
- 2 eggs
- 1 package (6 oz.) Stove Top stuffing mix for beef
- 1/4 cup butter or margarine, cut in pieces
- 1-3/4 cups hot water
- 1 package (9 oz.) frozen cut green beans, thawed
- 2 slices (1 oz. each) process American cheese, cut into strips

Combine meat and eggs. Press lightly into bottom and up the sides of two 7- or 8-inch pie pans to form shells. Place contents of vegetable/seasoning packet and butter in bowl. Add water; stir just to blend and partially melt butter. Add stuffing crumbs; stir just to moisten. Add vegetable and spoon into shell. Bake at 350° for 20 minutes. Arrange cheese around edge and bake 10 minutes longer. Cut into wedges. Makes 5 cups plus meat or 6 servings.

Winterize Your Car for Cold Climate Protection

Your car needs winterizing as much as your house does if you expect it to provide hassle-free transportation during cold winter months.

Some simple precautions and preventive care can make sure your vehicle will carry you to work each blustery winter day.

Winter driving is tougher on your vehicle than summer traveling. In addition to the obvious dangers to its finish from corrosives like salt and sand, your car's engine needs protection from the cold in the form of the correct viscosity motor oil.

Use Lower Viscosity Oil
"Most vehicle manu-

facturers recommend either a 5W-30 or a 10W-30 weight motor oil for 4-cylinder and 6-cylinder engines used in cold climates," said Norm Hudecki, an engineer for Valvoline Oil Company of Lexington, Ky.

To determine which oil you should use, estimate the lowest winter temperature in your area. Then check your vehicle owner's manual for its lubricant recommendations and choose the viscosity recommended for that temperature.

If you don't change your oil to a lower viscosity (5W-30, 5W-40, 10W-30 or 10W-40) oil before the weather turns to zero, it is very likely your engine may be

damaged, explained Sam Mammolite, another Valvoline engineer.

"If the oil is too heavy for outside temperatures, moving parts inside the engine will not be lubricated. That could cause the bearings to 'freeze' or other engine damage," he said.

Change Oil Frequently

Motor oil should be changed twice as frequently as vehicle manufacturers recommend, year-round, because

80 percent of the driving done in the U.S. is considered severe service, Mammolite said.

"Severe service" means stop and go trips or a lot of idling.

In the winter, short trips stress your vehicle's engine even more, causing condensation to form inside the engine. "If the car isn't driven very far, that condensation doesn't evaporate, and can lead to rust and corrosion," Hudecki explained.

Having fresh oil with

good corrosion inhibitors in your engine's crankcase will help prevent that kind of costly problem.

"Even if you live in a warm climate, it is best to change your oil in the fall for the slightly cooler weather that occurs during winter in the sun belt," Hudecki said.

News Notes from the Brazos Valley Care Home By Rena Tankersley

The word "elderly" invokes in too many people the image of someone wrinkled and bent, with thinning hair, who dwell on the good old days. Older people are often viewed as not being able to adjust, change or learn.

Unfortunately, elderly people are stereo-typed as dependent. The facts are that only 5 percent reside in nursing homes at any one time, and most of these individuals have the capability for some independence. Another stereotype is that the elderly are sick and feeble. All chronic illnesses certainly do not depend on age. As a whole, the old are much happier than we realize.

The staff at the Brazos Valley Care home realize that the elderly can adjust, change and continue to learn daily.

Shootin' Straight

From Page One

was determined, so -- on with the story.

When a man goes into an old fashioned barber shop there are always two things that he can count on: Good MANLY conversation and MANLY magazines to read. Not so in a beauty shop! My stylist happens to be expecting an addition to her family and I guess that women customers could always talk about that with her, but it was not a subject that I really know anything about! If I wanted to read, I could choose from GOOD HOUSEKEEPING and the latests edition of REDBOOK, neither seemed to interest me. We settled on a topic of football, but after all, how much can you expect a lady stylist to know about a MANLY sport?

I began to enjoy myself as the stylist gritted her teeth and mumbled under her breath about hair that was too short to roll, but she was quick to react to my grins and took out her frustrations by working extra hard with a spray bottle of cold water--mostly right down my neck! She tried to keep me busy by having me hand her pieces of tissue paper that she used on each roller, and I entertained thoughts of keeping up with her until I discovered that it was almost impossible to separate the pieces with my big clumsy fingers!

From the front of the shop, we traveled to the back where I felt secure from anyone who might see me and I sat there with a very smelly solution and a plastic sack on top of my head. My security was short lived as a well known area farmer walked in to inquire about a haircut. I'm not positive, but I thought I saw a smile on his face as he left! But, soon all was finished and my stylist was justifiably proud of the job that she had done. I had achieved the look that I had set out for and had also learned some lessons along the way: If one desires to keep up with the times, a survival kit of sorts should be furnished by the Beauty Shop, or taken in by the customer. It should contain a set of curtains, a mask, a recent copy of SPORTS ILLUSTRATED and a rather large towel!!

I am not suggesting that everyone should experience an event like this, but by going through it myself, it made me once again realize that Knox City is a community of very special people, people that go out of their way to care for their neighbors and customers. Just one of Knox City's special people is a hair stylist named Cindy. Thanks.

Seafood USA

... a better choice for October!

Celebrate October Fish and Seafood Month by serving your family this delicious and unique fish entree. What makes it unique? The fish fillets are threaded onto skewers and then lightly marinated in a refreshing, tangy sauce; then broiled for just a few minutes to tender perfection. The sauce, made with naturally brewed Kikkoman Soy Sauce brings out all the delicate flavor of any fish fillet--fresh or frozen. Seafood is a great value for today's busy cook; it's nutritious and pound for pound a bargain. You'll love this savory change of pace entree and your family will too!

TANGY FISH FILLET RIBBONS

- 1 pound fresh or frozen fish fillets, (thawed, if frozen)
- 1/4 cup Kikkoman Soy Sauce
- 1 tablespoon brown sugar, packed
- 2 tablespoons tomato catsup
- 2 tablespoons red wine vinegar
- 1 tablespoon vegetable oil
- 1/4 teaspoon grated lemon rind
- 1/4 teaspoon curry powder

Cut fish into strips about 2 inches wide and 1/2 inch thick. (If skin is attached, score skin diamond-fashion.) Thread strips onto metal or wooden skewers, ribbon-like fashion; place in single layer in shallow baking pan. Combine remaining 7 ingredients; pour over fish. Turn fish over to thoroughly coat both sides. Marinate 30 minutes, turning over occasionally. Remove fish from marinade; reserve marinade. Place skewers on broiler pan. Broil 3 inches from heat, about 3 minutes on each side, or until fish flakes easily with fork. Combine reserved marinade with 1/4 cup water in small saucepan; bring to boil. To serve, place fish on bed of hot rice and spoon sauce over all. Makes 4 servings.

JUNIOR CLASS NEWS
By Sarah Jones

What a relief! Nine weeks tests are over, and the Junior class members are certainly glad. Each of us took the Preliminary Scholastic Aptitude Test (PSAT), on Monday, October 18. This test is designed to prepare us for the Scholastic Aptitude Test (SAT), which is required for admission to many colleges.

This week, it was the Junior's turn to decorate the halls. The KC Hounds are playing the Throckmorton Hounds this Friday, and they're going to find out what a Real Greyhound is! We're still working diligently on our themes. The outlines are due on October 22.

SOPHOMORE CLASS NEWS
By Cyndy Griffith

The hall decorations turned out pretty good. They would have been better if more of the class could have come. Maybe the next time more will show up. Well, the first nine weeks of school is now completed. Most of the class is doing fine as far as grades but some aren't.

This school year is passing very fast and is really a lot of fun.

FHA NEWS

By Karae Beason
"We are the Future Homemakers of America; We are the builders of homes, homes for Americas future." Though many of us do not realize it, in the very near future, we will be out on our own, raising families and turning a house into a home. No matter what type careers we pursued, our chief duty will be making a home for our families. Participating in FHA is an excellent preparation for the lives we all hope to lead. It acquaints us with the many responsibilities and exposes us to situations that are apt to occur throughout our homemaking careers. "We are the Future Homemakers of America; We face the future with warm courage and high hopes."

We are still in our separate groups and will be for at least one more week. Mrs. Reid's class has finished their nutrition studies but Mrs. Newton's class hasn't finished cooking yet. Thursday, we had our nine weeks test. It covered areas from the creed and flowers, to bread and cereal group, to how many teaspoons to a tablespoon. I hope everyone did well on their test.

STREAMS IN DESERT PLACES
By OZELLE STEPHENS

"If you forgive men their trespasses, your Father will forgive you." (Matthew 6:14).
We learn from the Word of God one of the deepest needs of man is forgiveness. For all have sinned and come short of the glory of God. There is a power within you that will change your life. This amazing power is the life of God within you. But you cannot make the right change by yourself; you must give yourself to God and release your faith to him. Let the Holy Spirit do his work within you. His amazing power produces love, joy, peace, patience, kindness, goodness, faithfulness, humility, and self-control. There is no law against such things as these. (Gal. 5:22-23).
Let the love of God dwell in you richly by the in-filling of the Holy Spirit that give you love and forgiveness and will help you to be kind one to another, tenderhearted, forgiving one another, even as God for Christ' sakes hath forgiven you." (Eph. 4:32).

Houndette News

By Dale Wainscott
The Houndettes rounded up their pre-season this past week defeating Woodson and losing to Colorado City. Both nights were exciting play even though they didn't end up the same. The Houndettes beat Woodson 15-1, 16-4 while losing the next night to Colorado City 10-15, 9-15. This moves them into a 20 win 4 loss record for pre-season.

The district play will be played this week on October 19, in Knox City against Aspermont and October 21 at Weinert. The following week it will be October 26 at Aspermont and at Knox City on the 28th against Weinert. Both Aspermont matches start at 5:30. Varsity only and both Weinert matches start at 3:30 Varsity only. This is the first year in a while that we have played an opponent for the district championship. This is also the first year they take the first and second place winners from a district to play a bi-district match, so our chances of playing a bi-district match are widened.

The Houndettes have represented Knox City well this year. We've had our ups and downs and hope we are on our way up at this point.

HONEST ANSWERS TO FAIR QUESTIONS

Our Customers Are Concerned About The Cost of Quality Electric Service, and So Are We. Here's a Sample of the Questions They're Asking and the Answers We're Giving.

- Q. Why is WTU asking for a rate increase?
A. There are three related reasons: inflation, the rising cost of capital, and WTU's massive construction program. Mainly, the request is based on capital expenditures during the past year.
- Q. When was the last time you raised retail electric rates?
A. WTU has had only three rate increases in its history, while it has lowered rates 14 times. The last increase was February, 1982, and it amounted to an average of just over 8 percent.
- Q. Why is WTU having to raise its rates again so soon?
A. The rate relief granted to us by the cities and the Public Utility Commission of Texas last time proved inadequate. It did not keep up with the cost of additional plant, inflation and high interest rates. Our revenues have not provided an adequate rate of return.
- Q. What are other utilities doing about rates?
A. Without exception, all electric utilities are having to increase their rates. Some have been filing rate cases every year. Bill comparisons reported by the Public Utility Commission of Texas show that WTU's rates are second lowest among investor-owned utilities in Texas.
- Q. Why are you building a big new plant? Isn't energy use declining?
A. Energy use in WTU service area is growing. This summer our peak demand reached 994 megawatts. Our current generating capacity is 1,054 megawatts. The summer peak left us with insufficient reserve margin. We will purchase power from neighboring utilities as a stop-gap measure, but the time has come when we must expand our own generating system, if we are to continue providing service our customers are used to.
- Q. What would happen if you could not get a rate increase?
A. The financial condition of our Company would deteriorate rapidly. Our credit rating would suffer. We would no longer be in position to attract capital at reasonable interest rates to finance necessary major construction. We would have to pay higher interest rates at the expense of our customers.

SERVICES OF THE CHURCH OF GOD IN CHRIST

The Rule Church held a blessed revival five nights of last week.

Minister Landers was greatly blessed of the Lord as he ministered to the people during the revival.

Some of the messages were concerning the Necessity to be Holy and the Necessity to Believe.

On Wednesday night the scripture was read from I Kings 13:1,6.

The revival in Rule was held October the 11-15 and not the week of October 18 as I had written earlier.

On Friday night a part of the members from the Knox City Church attended a church anniversary service in Seymour.

Elder Pierce of Wichita Falls preached over there that night from Genesis 22, "God Will Provide".

Sunday School had a good attendance with Supt. Manuel in charge.

During the morning service Missionary Patricia Ward brought the message from Psalms 121.

The Goree Church celebrated their church anniversary on Sunday afternoon.

Assistant Overseer Ward preached over there from Philipians 2:5, "Let this mind be in you, which was also in Christ Jesus", a great message.

YPWW was the last service of the day here with Sister Manuel teaching the lesson from Romans 8:26,31.

Casillas Children Celebrate Birthday

Gilbert Jr. and Michael Casillas celebrated their birthdays with a joint celebration, Friday, October 15, at 4:00 p.m. The party was held in the backyard of their parent's home with approximately 30 friends helping celebrate. Playing games and the breaking of a pinata was enjoyed.

During the party, a surprise visit was made by a clown who sang "Happy Birthday" to Michael and Gilbert and handed out balloons to each of the children.

Refreshments of chocolate cake decorated with Disneyland characters, pink, blue and green cupcakes and punch were served.

Gilbert Jr.'s birthday will be October 24 with Michael's being October 11.

Reduce home heating bills

Your heating dollars are escaping through the chimney!

When a furnace or boiler is running constantly at peak capacity, about 50 percent of the heat produced escapes through the chimney. A significant amount of heat loss also occurs when the burner is off. Heated household air escapes and, at the same time, cold air is drawn in through cracks and openings around doors and windows.

If you're looking for a way to block this expensive heat loss, consider vent dampers. They've been in use in Europe for many years, and are now gaining in popularity in the United States due to rapidly rising fuel costs. In

Wisconsin, where they are mandatory in new homes, tests by the Wisconsin Public Service Company found that heat consumption savings averaged 19 percent in homes with vent dampers, with an estimated payback of only three years.

Automatic vent dampers are basically blocking devices installed between the furnace or boiler and the chimney flue. They can be used on either forced hot-air or hydronic heating systems. Many units, such as Walton's Pre-vent dampers, are electrically operated for faster reaction time and less heat loss than thermally operated units which cost less but are also less efficient.

For safety, Walton advises homeowners to buy only units certified by the American Gas Association for use with gas appliances or U.L. Listed for use with oil appliances. All vent dampers should be installed by a professional. It's also wise to invest in a vent damper that has a safety interlock with the burner mechanism.

Average cost, including installation, for dampers is about \$250 to \$300. Some automatic vent dampers, such as Walton's Pre-vent, qualify for a 15-percent federal energy tax credit, giving them even faster payback.

Check with your local heating contractor for more information.

AUXILIARY

noted by their ad elsewhere in this week's News. Dates for closing of the Thrift Shop during the upcoming holidays was discussed and decided upon.

Auxiliary treasurer Pansy Russell reported to members that the first check from the baby picture project had been received and that pictures were very good and everyone was pleased with the quality of the pictures.

Guest speaker Abernathy thanked the ladies for their outstanding work on behalf of the hospital and then discussed a series of needs that might be considered when planning the next project. Suggestions included the color TV project in which the hospital board would be working jointly with the Pink Ladies. Also mentioned was storm windows and screens to help cut down on utility costs, an additional defibrillator which is needed to comply with the Medi-Care and Medi-Cade program as well as the possibility of new furniture for the hospital lobby.

The small enclosed patio area is scheduled to be cemented and refurbished enabling patients to go out for fresh air. Another item discussed were small plaques for hospital doors noting a memorial for a family member of relative.

A called meeting for the auxiliary will be held in three weeks.

IN AMARILLO

Mr. and Mrs. Doug Meinzer and Tyke visited in Amarillo over the weekend with Mr. and Mrs. Floyd Baker.

Skin Needs Special Care In Winter

Fall and winter pose a definite threat to your skin, particularly if you are outdoors a lot. Winter air has low humidity which dries the skin—and the chilly winds compound the damage by drying and cracking it. Indoors, ironically, steam heat also tends to dry out the skin. The combination of all of these indoor/outdoor factors makes skin lose precious moisture, and can result in an older, weather-beaten look.

Dermatologists frequently suggest using a mild soap, such as Purpose, for face and body needs during the winter months. It is specifically designed to restore natural moisture removed by the elements. A companion product, Purpose Dry Skin Cream, is especially effective after bathing when the skin has a tendency to lose additional moisture. The formula contains emollients that keep the skin moisturized and smooth.
