## Grand Opening Slated

Thursday and Friday of this week are the days set aside for the Grand Opening of the Plants Etc. Too Greenhouse, located in downtown Knox City on North Central.

Open from 9:00 a.m. to 5:00 p.m. each day, the grand opening of the greenhouse will feature door prize giveaways and special discounts on hanging baskets, geraniums, tomato plants and bedding plants. Also featured will be Easter items such as Easter Lillies, silk & fresh flower arrangements and corsages.

Owned and operated by Shirley Welch and Glenda Decker, Plants Etc. Too has been open for business in Knox City since early 1983.

Shirley and Glenda invite everyone to come by during the grand opening of the greenhouse and tour that new portion of the floral shop. Along with the normal downtown area parking, additional parking is available at the rear of the greenhouse.

**STATE BOUND!** These Knox City seniors, Steve Rutherford, at left, and Nathan Staggs will compete at the University of Texas at Austin on April 27-28 in debate competition. Under the able direction of Coach C.H. Underwood, the boys won district at Vernon Regional Junior College and then placed second in regional competition at McMurry College in Abilene to win the trip to state. Steve's parents are Mr. and Mrs. J.B. Rutherford, and Nathan is the son of Mr. and Mrs. Larry Staggs.

## Pageant Details Announced

Events for the upcoming Knox County Vegetable Festival pageant have been announced, according to Kerri Urbanczyk, coordinator.

On June 1 at 7:00 p.m., a swimming party will be held in the home of Floyd Reed Sr. in Munday. Requirements for the pageant will be discussed. No judges will be present and there will be lots of swimming and good times to be had by all.

At 2:00 p.m., June 22, a formal tea will be held in the home of Mrs. Johnny Cook in Munday. Contestants will be required to wear a dress and speak to the judges on an individual basis about hobbies, interests and current events.

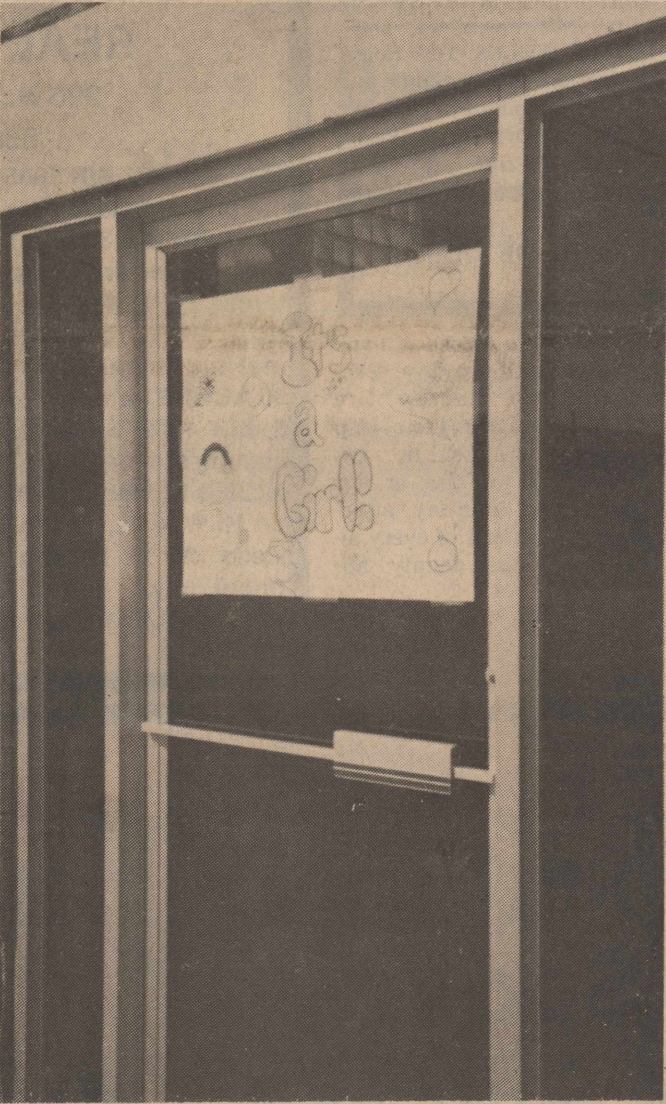

At 7:00 p.m. the same evening the beauty pageant will begin. Contestants will model formal gowns and ten finalists will be chosen. A question will be asked of each finalist. The queen and runner-ups will be chosen.

Entry deadline is May 12; however, pageant officials are urging each business to contact a girl as soon as possible. To enter a contestant, readers should call Mrs. Urbanczyk at (817) 422-5137.

## Screening Clinic Set Here April 24

A screening clinic, sponsored by the Texas Department of Health, will be held at the Knox County Aging Center on April 24, from 9:00 a.m. until 12:00 noon.

Screening tests will be offered for blood pressure, diabetes, anemia, skin disorders, height and weight.

**IT'S A GIRL!** This sign was proudly displayed Saturday morning, April 14, at the City Hall when City Secretary Teri Anderson and husband David became the proud parents of a baby girl born at 7:40 a.m. in a Haskell hospital. The young miss has been named Alesha Kay and she weighed in at eight pounds, nine and one-half ounces. Mother, daughter, and daddy are all 'doing fine'.

**CANDIDATE VISITS** -- James M. Morris of Paducah, candidate for District Attorney of the 50th Judicial District, visited recently in Knox City and took time out to have lunch at the new Knox County Aging Center. ## Working Women To Be Honored

Deviating from the past tradition of a coffee honoring secretaries only, the Knox City Chamber of Commerce is hosting a coffee this year that will honor all working women of Knox City.

To be held at the Knox City Community Center on Friday, April 27, at 10:00 a.m., the morning coffee will feature a fashion show sponsored by the Mini Mall.

Also giving up the practice of mailing out individual invitations for the coffee, the Chamber of Commerce has placed an invitation elsewhere in this edition of *The Knox County News* to publicly invite all working women of Knox City to the annual event.

To allow proper planning, the coffee committee of Chamber of Commerce Directors Jean Kuehler, Barbara Barnard, Judy Perdue, and Chamber Secretary/Manager Doris Crownover request that all working women planning to attend the coffee R.S.V.P. the Chamber office at 658-3442 prior to April 25 for reservations.

## Knox City's 80th

By DOUG STENBERG

June 30 we will celebrate our 80th birthday as a city with a full day of celebration.

The buckle design you see is a copy of the finished commemorative buckle. You may order a bronze, gold and silver, or solid silver buckle at The Book & Skein next to the Pink Ladies Thrift Shop. The solid silver buckles have

been increased to \$150 due to the increase in the price of silver. All proceeds from the buckles will go toward a much needed new ambulance for Knox City.

A great day is planned for the enjoyment of all. We will have a tremendous parade and a festival of fun and food all day in the park with many games, booths, various com-

petitive events, drawings, and live entertainment.

Readers are asked to order their buckles and plan to be in Knox City to help us celebrate on June 30th.

## Bake Sale Slated For Saturday

Everyone in the community is invited to participate in a fund raising activity for a new ambulance.

A pre-Easter bake sale is planned for Saturday, April 21, at 8:00 a.m. at the Post Office, "M" System, and the Mini Mall.

All persons and organizations of Knox City and the surrounding community are invited to donate baked goods such as cakes, pies, breads, cookies, brownies, candy and other goodies for the benefit. Baked items should be labeled with the name of the product and the baker's name. The items will be priced at the sale.

The benefit is sponsored by the Knox City Eightieth Birthday Celebration Committee. All proceeds from the sale will go in the New Ambulance Fund.

Rev. Doug Stenberg is the Birthday Celebration Committee president. Becky Baker and Linda Carver of the Knox City Circle Extension Club are bake sale chairwomen.

## KC Firemen Respond To Rhineland

By Ken Lawson

Firefighters have had only one call since March 8 and that was April 14 at 2:45 p.m. to Myers Grain in Rhineland. Munday and Benjamin Fire Departments were on the scene on our arrival. We took the tanker truck because water was needed and our tanker is slow but sure. There was some damage to old box cars used for storage and grass around some more buildings.

We have been working on our equipment van trying to get it in shape for future use, but it will take awhile. Hopefully, it will be ready in time for the City Celebration on June 30.

## Watson Named To TSTI Honor Roll

Craig Watson of Knox City has been named to the vice-president's Honor roll for the winter quarter at Texas State Technical Institute in Sweetwater, according to Dr. Herbert C. Robbins, campus president. A minimum of 12 hours must be taken before the student is eligible for the honor roll.

Watson is the son of Mr. and Mrs. Leon Watson of Knox City.

A student in the Computer Science Technology program, Watson maintained a 3.5 or higher grade point average in all classes for the quarter.

## NEWS OF HEALTH

### CUTTING COSTS

The cost of health care continues to outpace the overall rate of inflation. While the CPI climbed nearly 3% in 1982, medical costs soared higher than 11%. The average American's health care bill now totals \$12,500 per year--

a cost level more than four times what it was in 1971. Fortunately, there are some things being done about the situation--and things you can do.

For some people, one of the things to do is to participate in a good health plan. Thousands of postal and federal employees, for instance, are covered by the National Alliance of Postal and Federal Employees' Alliance Health Benefit Plan. It offers: catastrophic medical benefits; hospital inpatient and outpatient benefits; maternity benefits; sur-

gical benefits; other medical benefits; dental surgical benefits; and no lifetime maximum.

Another thing you can do is to learn and practice good health habits. Assume responsibility for understanding hypertension, diabetes, stress, nutrition, proper exercise and how to prevent chronic disease.

These changes can make it possible for people to live longer, more productive lives--and help our nation combat skyrocketing health care costs.

What you know and teach your children about electric power lines could save a life -- yours or your child's.

Alert your children to the dangers of flying kites, model airplanes or toy rockets near electric lines. Instruct them to use wood-and-plastic or all-plastic kites with dry string. Always fly kites or other flying toys in open areas. If something does become entangled with overhead wires, do not try to get it down, leave it there. And never touch any dangling strings or wires. Call West Texas Utilities for assistance or for more information about safe electric living.

Last week, Michelle Bateman, Sarah Jones, Steve Rutherford, Becky Smith, Nathan Staggs, and Peggilee Wupperman all participated in various regional UIL events. Everyone did a good job, and Steve and Nathan will be going to State in debate! Congratulations and good luck!

## Houndettes Lower Track Records

By Coach Wainscott

The Houndettes lowered the records a little more this week at a Regional Qualifiers Practice meet at Rising Star, Friday.

Earlier in the year Rita Ramos, Stella Eddington, Linda Mayes and Tammy Rogers lowered the school record in the 400 meter Relay from 53.0 to 52.1 at district, they lowered it more with a 51.97 while this week even more with a 51.04.

In the 1600 meter Eloise Agraz lowered it from 6:19.48 to 6:19.37 and Temple Fristche lowered that to 6:16.30.

Other records broken earlier were the 100 meter hurdles from Tammy's 15.51 to 14.97 again this was Tammy. She also lengthened the triple jump from 32'6 1/2" to 32'8 1/2".

In the 800 meter Relay the record has been lowered from 1:54.4 to 1:53.26 to 1:51.69 now 1:51.27 by Christina Agraz, Stella Eddington, Linda Mayes and Tammy Rogers.

All these girls along with Vera Sweat have at least one more meet to lower these records some more. One other record is being pushed at, that is the 1600 meter Relay with Vera Sweat, Stella Eddington, Christina Agraz and Linda Mayes. The record is 4:26.8, these girls ran a 4:28 this last week. Hopefully all will be lowered at Regional this week.

By Danny Balis

These past few weeks have been quite busy ones for the Sophomore class. We have been continually spending our time with tennis, track, UIL and golf.

In track, the girls won district, while the boys competed at their district meet Tuesday April 17.

Well, school's almost out, and I think all the

Sophomores are just about ready for the summer vacation. I think there's only

about five weeks left and we are all anticipating the end of school.

## STREAMS IN DESERT PLACES

By OZELLE STEPHENS

"Through Him all things were made: without Him nothing was made that has been made. (John 1:3).

God has placed us in this world, right where we are and for a purpose. We are very technical, highly-engineered. We didn't just happen, we were planned by someone very intelligent and logical. The Creator's Book, the Bible, tells us that this Great Designer is Jesus Christ. It says, "Through Him all things were made." He also designed a way for us to live in this world, as one of God's children. He knew that we cannot make ourselves good enough to be in God's family.

The Bible says, "All have sinned and fall short of the Glory of God." (Rom. 3:23). So came to the earth and took the blame for all our sins, and for all the wrong we have done. He died on the cross and rose from the dead so that we can be forgiven. Blessed be The Name of The Lord our God.

## April Is Cancer Month

April is Cancer Month and the Knox County Unit of the American Cancer Society began their crusade kick-off with a salad supper at the First United Methodist Church in Munday Tuesday evening.

Katherine Smith, president, called the meeting to order and presented Mrs. Myrtle Everett, County Crusade chairman for 1984. Purpose of this year's crusade is to "inform the public of what they can do to help themselves." Half of those who die from cancer could and should be saved, Mrs. Everett stated. "Our goal is to save as many lives as possible by telling the people what they can do about cancer prevention and early detection," she said. This year trained volunteers will be distributing information on the two most common and deadly forms of cancer. A quick test on cancer risk for lung, colon, and rectum will be given to all residents.

Serving as chairmen are Lillian Moorhouse of Ben-

jamin, Wilma Beck of Vera, Beverly McGaughey of Munday, Grace Welch of Knox City, Valera Hertel of Rhineland, Margie Allen of Goree, and Sheryl Simmons for Gilliland and Truscott.

Serving as memorial chairman is Shirley Amerson and memorials may be mailed to Post Office Box 507, Munday, Texas 76371.

Mrs. Everett stated that this year 450,000 people will die of the dreaded disease and of that number 148,000 might have been saved by earlier diagnosis and prompt treatment. The battle isn't over yet but we are "winning." This crusade in Knox County is a part of a statewide and

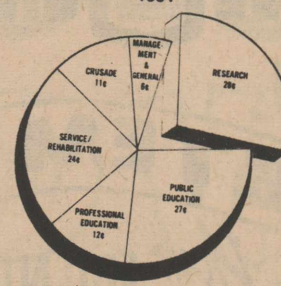

national effort involving more than 2,000,000 volunteers.

Listed at the bottom of this article is an illustration that shows how your dollars to the American Cancer Society fight cancer in Texas.

Plans were made for a county special event in June.

Attending the Tuesday night meeting were Katherine Smith, Frances Coffman, and Bertha McKinney of Vera, Shirley Amerson, Ruby Rhoden, and Myrtle Everett of Munday, Valera Hertel and Loretta Albus of Rhineland, and Lucille Moorhouse, Ruth Ressel, Veta Campbell, and Pearl Ryder of Benjamin.

## ENTERTAINING IDEAS

From Western New York Apple Country

You don't have to sail the seven seas to discover buried treasure. Just open a can or jar of applesauce and create Apple Treasure Bread. Each bite reveals a wealth of chocolate chips, walnuts and golden raisins hidden in a moist cake-like bread.

Quick breads are jewels in any busy cook's recipe collection. As the name implies, they're made in minutes without the bother of kneading or lengthy rising times. Simply assemble ingredients and stir together in just one bowl.

### APPLE TREASURE BREAD

- 2-1/3 cups buttermilk baking mix
- 1 cup old-fashioned rolled oats
- 3/4 cup sugar
- 1/4 teaspoon salt
- 1/2 cup semi-sweet chocolate pieces
- 1/2 cup golden seedless raisins
- 1/2 cup coarsely chopped walnuts
- 3 eggs, well beaten
- 1/3 cup vegetable oil
- 1 cup sweetened applesauce

## Former Resident Shares Fun Of Trip

Former resident Jill Bishop, daughter of LaVerne Thompson and the late Travis Thompson, attended the Home Interiors and Gifts Seminar in Louisville, Kentucky, March 12 through March 15. Also attending from the West Texas area were Jill's manager and husband Karen and Louis Carlisle and Penny Lawrence of Brownwood, Diane Kirking of San Angelo and Betty Latos and Rhonda Robertson of Snyder.

Jill reported a very unusual flight to Louisville. She and Penny were scheduled to leave D-FW Airport at 10:30. They arrived early and were told the 8:10 flight had not yet left and they could leave on it. The flight left at approximately 9:00. This flight was scheduled to land at St. Louis, Missouri at 10:49. It was in St. Louis that Jill and Penny were suppose to change plans and fly on to Louisville.

After circling the St. Louis airport for over an hour the pilot announced to the passengers that he had some good news and not so good news. The good news was the passengers were going to Milwaukee, also.

The plane landed on a snow and ice covered runway in Milwaukee and all the passengers departed.

The next flight Ozark Airlines had to Louisville was at 7:10 the next morning. Ozark was very efficient and within two hours had the passengers re-routed. Jill and Penny were given Comair tickets. (They had no idea what they were in for this time.) They had to slip and slide in the ice and snow to walk out to a small airplane that had a pilot, co-pilot and fourteen passenger seats. After the 12 Milwaukee businessmen boarded the plane, they left for Cincinnati, Ohio. Here they again walked through ice and snow to reach the terminal. Jill went to buy T-shirts for the

children and Penny checked on their tickets. When Jill went back to the Comair counter, no one was in the seating area. She described her friend as the lady with red hair and kelley green jacket. The ticket agent said, "Oh, she's on the plane! Hurry out, they're waiting on you!"

They left Cincinnati and finally arrived in Louisville, Kentucky, only ten minutes after they were suppose to arrive on the original schedule. Meanwhile, back in Dallas, the two displayers from Snyder (they had tickets on the 10:30 flight, also) finally got to leave Dallas at 5:00 after spending all day at the D-FW airport. They arrived in Louisville shortly after 7:00 Monday night.

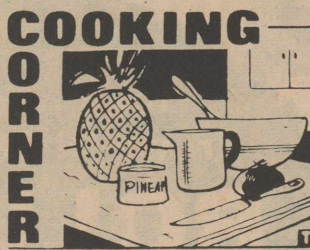

Jill reported over 5,000 displayers from approximately 20 states attended the seminar. Many workshops, conducted by national sales leaders, were attended and benefited by all. Wednesday night, Home Interiors president Mary C. Crowley of Dallas, spoke to the displayers at a candlelight dinner.

The Brownwood group left Louisville at 2:31 p.m., Thursday, March 15, changed planes in St. Louis with no trouble at all and arrived in Dallas at 5:53. It was at the D-FW airport while waiting on their luggage that Jill saw Knox Citizen Ray Penman, walking across the airport. When she walked back to her friend after talking to Ray, she was told, "Why is it you grew up in such a little town and everywhere we go you always see someone you know!"

Beau and Bly Bishop and Tyson and Amber Lawrence have their spring T-shirt wardrobes completely taken care of after their mothers visited so many airports.

While their mother was flying around the country, Beau and Bly spent the week with their Uncle Ray and Aunt Christy Thompson in Clyde.

Jill has been with Home Interiors six years. She is a member of the Preferential Displayers Group and an applicant for Professional Displayers Association. She has won her complete silver punch bowl ensemble, two pair of diamond earrings, two diamond necklaces and three diamond rings.

She carried a cascade of white roses, miniature carnations, English ivy and gypsophilia.

## NEWS OF HEALTH

### New Plasma Product Approved

A new plasma product recently approved by the United States Food and Drug Administration, will soon be aiding in the treatment of hemophilia.

The heat-treated Factorate antihemophilic factor products are derived from human plasma and are manufactured and distributed by Armour

Pharmaceutical, a subsidiary of Revlon, Inc. Factorate concentrates are used in the treatment and prevention of bleeding associated with hemophilia A.

The heat treatment of Factorate is intended to reduce the possibility of the transmission of hepatitis, an event frequently encountered with the use of coagulation factor concentrates. Experimental data obtained indicates that the heating procedure is effective

in preventing the transmission of infectious quantities of a non-A, non-B hepatitis virus. Non-A, non-B hepatitis is thought to be responsible for at least 90 percent of the incidents of post-transfusion hepatitis.

## FLBA Representative Home From Meeting

Weldon Walker of Stamford has returned from Austin where he represented the Federal Land Bank Association of Haskell at the 39th Annual Stockholders' Meeting.

The March 9 meeting was held at the Hyatt Hotel on Town Lake, and it was attended by members of the 49 Federal Land Bank Associations in Texas. There were approximately 580 persons in attendance.

Land Bank President Thomas H. Benson in his report to the stockholders stated, "While there has been some improvement in commodity prices last year adverse weather conditions diminished this benefit in many sections of the state." He outlined several areas in which the Bank and Associations are adjusting their operations and relying on the financial strength of the Bank and Associations during this period, making every effort to provide a stable, low cost source of credit to farmers and ranchers. The decline in bond sales experienced in 1983 was reversed in July. Since that time, bond costs have risen over one percent. The cost of money now exceeds the Bank's lending rate. To avoid the necessity of a rate increase at this time, your local representatives have joined with 48 other FLBAs to forego the Bank's payments of Compensation in 1984. Compensation, which represents a large portion of association's earnings, has been paid by the Bank for originating and servicing loans. This action is a result of a "grass root" movement among the directors of the Federal Land Bank Associations in Texas. Recognizing the adverse times which agricultural producers are experiencing, the official delegates at the annual stockholders meeting approved the use of some \$5.2 million that would normally have been paid to the associations by the Bank to forego an interest rate increase on the Bank's variable rate loans.

Since the Federal Land Bank in Austin is the prime lender, the only way it has to increase its earnings is through an increase in the variable interest rate plan.

The Federal Land Bank has planned an increase in its rate on March 1, 1984, to offset a projected loss for 1984; however, association directors of the locally owned and managed Federal Land Bank Associations across the state recognizing their excellent financial strength, developed through good management practices and sound loan policies over the years, voted unanimously to forego some \$5.2 million in income which would normally be paid to the associations by the Federal Land Bank for making and servicing loans. By voting to forego this income, the Federal Land Bank will not increase the variable interest rate to all of its variable rate borrowers at this time. This action is an example of the Land Bank System's continued policy to maintain strong and viable operations which enables it to be a reliable and low cost source of credit during both good and adverse times.

The French TGV system, for instance, is the world's fastest, at 170 mph. The German Inter-City System operates at 125 mph. Swiss trains are renowned for their regular interval service hours. Italian trains now have better connections between major cities — and almost all are air conditioned and fully carpeted.

Many Europeans travel by train. So this is a chance for you to meet them, to start new friendships and to share experiences in their own environment.

Members of the board of

directors are J.E. Nix, Weldon Walker, Lavon Beakley, E.H. Burnett, Ralph Howe, and Ernest Beck, Jr. Others from this area who attended the meeting include Mrs. Weldon Walker, Dale E. Bullinger, association President, and his wife Valiene and Lynn Cook, association Vice-President.

## Parallel Terraces Ease Farm Work

According to Clint Jones, Conservation Technician with the Soil Conservation Service in Knox City, erosion may reduce soil productivity if it occurs faster than the top soil can be replenished through natural processes. Many cropland soils, including some of the most productive, have been severely eroded in this country.

As a rule of thumb, on deep soils commonly used for cropland, five tons of soil per acre can be lost annually without damaging the soil's productive potential. Holding erosion within these rates permits indefinite use of the soils. If you can see erosion taking place on your cropland under normal rainfalls, then more than five tons of soil is being lost. In most cases it would take terraces to cut soil erosion down to an acceptable level.

Terracing the land is a practice that gained popularity back in the late 1930's when soil erosion first came to the attention of farmers. Terraces in those days in this area were run on the contour. This meant that you could not farm with the terraces because they were not parallel. This made terrace maintenance a problem and farming more difficult (especially when planting row crops).

Today, equipment is bigger than ever, labor costs are much higher and fuel cost is always going up. This means that you, the farmer, want to get over the land as quickly as you can to keep cost per acre to as low a figure as possible. Today, the Soil Conservation Service recommends parallel terraces for

ease of farming and still protect the soil by keeping soil loss to an acceptable level. This means that terraces will be designed to fit your equipment so that you can farm with the terraces rather than farming over them. There will be some land that will be too rough to parallel and there will be some odd areas on some fields that cannot be paralleled. Nevertheless, having an SCS technician make a contour map of your field, will result in a good terrace design that you can live with and still control erosion.

If you feel that your cropland may need terracing, contact the local Soil and Water conservation office at Knox City.
