Blast rips jet; 1 killed

KAHULUI, Hawaii (AP) - A mysterious explosion ripped open an Aloha Airlines jet "like a convertible" at 24,000 feet, injuring 60 people and tossing a flight attendant to her death before the pilot landed safely

The Boeing 737, with one of its two engines aflame and about 15 to 20 feet of its cabin exposed, flew for 25 miles after the blast and made an emergency landing at Kahului Airport at 2 p.m. Thursday (8 p.m. EDT), airline officials said.

'There was big bang when it happened and everybody looked up and we were looking at blue sky," said passenger Bill Fink of Honolulu.

The cause of the blast was unknown Thursday night, said Kevin Morimatsu, a spokesman for the state Department of Transportation.

The National Transportation Safety Board was sending investigators to the scene and FBI agents were sent from Honolulu to determine whether the blast was caused by a bomb, said FBI spokesman Robert Heafner.

Another passenger, Alice Godwin of Boulder City, Nev., said she put on a life jacket and put her head between her knees. "I sang all the hymns I knew." she said. "That kept me busy.

- What are the 0 penalties for violation of the illegal alien law and when is it to be enforced?

A. - The law is already in effect, but officials with the Immigration and Naturalization Service note only warning citations have been issued to date. Effective June 1, this will change and violators may be held liable for both civil or criminal penalities. A first violation can cause a fine of from \$250 to \$2,000 for each unauthorized employee. This fine can go up to \$10,000 per employee for subsequent violations.

Arms treaty

WASHINGTON (AP) - A U.S. arms control official says the embassy in Moscow has been in touch with Soviet officials to resolve differences they raised on how to verify compliance with the treaty to ban medium-range nuclear weapons.

"We anticipate that it'll be cleared up," the official of the Arms Control and Disarmament Agency said Thursday, speaking on condition of anonymity. "We don't think this will be a big problem.

The official wouldn't discuss specifics of the disagreements on the Intermediate-range Nuclear Forces treaty.

Prices lower

NEW YORK (AP) - Nervousness about the outcome of talks between OPEC and non-OPEC producers has sent oil futures prices lower for a second straight day. On the New York Mercantile Exchange Thursday, contracts for June delivery of West Texas Intermediate, the benchmark U.S. crude, fell 29 cents to close at \$17.98 a barrel. The contract lost 33 cents on Wednesday. Among May contracts for refined products, wholesale unleaded gasoline fell 0.53 cent to 51.83 cents a gallon, and wholesale heating oil fell 0.80 cent a gallon to 50.97 cents.

Rick Craig, in the Hamlin Herald, recently noted that a lot of progress has been made in the past 50 years.

"We've put people on the moon, developed the world's most extensive television network, frozen our foods, swapped the body's organs, and made the tiniest of computer chips.

But in some areas, the progress seems backwards. While some advances have been made in the learning process, one of th many problems facing schools come from outside forces.

"Uninterested parents, broken homes, drugs and alcohol have become major factors that must be overcome at school in order for children to receive quality education.

'A recent Dear Abby letter brings the problem into focus. It listed the top seven problems faced by educators in 1940 and the seven top problems faced today

"The 1940 problems included: talking, chewing gum, making noise, running in the halls, getting out of line, wearing improper clothing, and not putting papers in the wastebasket.

"The top problems today include drug abuse, alcohol abuse, pregnancy, suicide, rape, robbery, and assault.

"Sounds like the FBI crime list. As the problems have changed, so have the teacher's role in the educational system. They must now be replacement mothers, fathers and disciplinarians. And inbetween, they must try to teach the difference between right and wrong. passing and failing, and a little bit of education.

"So much for the days when it was simply the three 'Rs.'

Council President Katherine on the specifics of the case or attempts to recover the money, said the council's funds come from several sources, including donations, fund-raising efforts and the sales of Girl Scout cookies.

The independent non-profit organization, chartered by the National Girl Scouts of the USA, has 11,000 members from 11 counties in Central Texas, Ammer said.

Court records indicate an auditor preparing for an annual audit discovered discrepancies in record-keeping in the council's accounts earlier this year.

Even the treaty signed at last year's Washington summit to scrap intermediate-range nuclear missiles is still awaiting Senate approval.

Shultz will try again May 11-12 in Geneva with Soviet Foreign Minister Eduard Shevardnadze. But he appears to be lowering his sights to a summit that would be mostly an exchange of views between Reagan and Gorbachev instead of a historic event.

Analysts differ on whether Gorbachev's decision to withdraw some 115,000 Soviet troops from Afghanistan is a victory for U.S. foreign policy or a decision taken by Moscow for its own reasons. The Soviets are resisting a U.S.

By Peter H. Gott, M.D.

DEAR DR GOTT Ten surgeries and seven years later, no one has been able to tell me what I can do to prevent future occurrences of hidradenitis suppurativa. Can you?

DEAR READER Hidradenitis suppurativa is a chronic skin condition marked by repeated infections of the sweat glands, primarily in the underarm and groin areas. Simple cases present as boils and abscesses, which are readily treated with antibiotics and hot compresses. Chronic and recurrent episodes are a different matter because the infections can coalesce, forming deep tracts of inflammation that are resistant to therapy and can make arm movement and walking painfully difficult.

As a general measure, susceptible patients should avoid skin irritants; in particular, the aluminum salts that are added to most anti-perspirants can really trigger an attack of hidradenitis. Surgical excision of infected areas may be necessary. Some experts have had success treating the condition with isoretinoin, an antiacne drug. See a dermatologist for advice about prevention in your specific case

DEAR DR. GOTT: My husband, 26, is manic-depressive, on lithium daily since age 17. Sometimes he also has to take Thorazine and an anti-depressant. He inherited this from his father. Is there a blood test which my boys (31/2 and 11/2) can have to see if they are predisposed to this illness?

DEAR READER: Unfortunately, there is no blood test that measures a predisposition to manic depression, the wide mood swings that accompany bipolar mood disorders. Aside from having your children undergo regular checkups with their pediatrician, I am unaware of any reliable preventive or predictive test that could help you deal with the possibility of your sons having inherited a sus-

DEAR DR. GOTT I had hepatitis in 1954. Can I donate organs?

DEAR READER Possibly. The answer depends on the type of hepatitis you had and the type of organ donation you wish to make. Hepatitis A. the relatively mild form of liver inflammation usually caught by eating contaminated food, ordinarily cures itself. On the other hand, hepatitis B is a more serious liver infection and, even after recovery, some patients can carry inactive (but infectious) viral particles in their systems for years. Blood tests will indicate which type of hepatitis you had and whether the infection has been cured or is simply dormant in your system.

For obvious reasons, you would not be considered a candidate for liver donation. On the other hand, some of your organs - such as your corneas might be transplantable without risk to the recipient. Check with your hospital pathology department or with the state organ transplant authorities for specific advice.

Exploring for slam

Today's deal is presented as an example of precise bidding to the best slam contract. Examine the bidding by North. No problem with the, initial response, nor with the second bid of two hearts. Then, after two no-trump by South, North bid only three diamonds. What about that bid? Isn't it possible that South just might decide to pass? The ruling principle here is that when responder makes two forcing bids (one spade and two hearts) and then supports opener's suit below game, that last bid is 100 percent forcing. After three diamonds, South did not

really want to go beyond three notrump unless North was willing. At the same time, South liked his values, so he bid three hearts to show interest. Then came the four-club cue-bid by North. South was now able to show the club king, and that was all that North needed to' bid the slam, but in diamonds. That contract was easy. Of course, six no-trump would count more for North-South, but declarer would have to make the right spade guess

If South did play six no-trump without a spade lead, his best approach would be to see if hearts split. When West shows up with the heart guard, South would have no choice but to play West for the spade queen by leading a spade up to dummy's K-J and inserting the jack. East's ace is forced out and dummy's spade king is the 12th trick

Surviving Nature's Most Violent Storms

Tornado Safe

When a tornado threatens, your immediate action can save your life!

Ornado

STAY AWAY FROM WINDOWS, DOORS, AND OUTSIDE WALLS! **PROTECT YOUR HEAD!**

Safety

- In homes and small buildings, go to the basement or to an interior part on the lowest level - closets, bathrooms, or interior halls. Get under something sturdy.
- In schools, nursing homes, hospitals, factories, and shopping centers, go to pre-designated shelter areas. Interior hallways on the lowest floor are usually best:
- In high-rise buildings, go to interior small rooms or hallways.
- In mobile homes or vehicles, leave them and go to a substantial structure. If there is no shelter nearby, lie flat in the nearest ditch, ravine, or culvert with your hands shielding your head.

TORNADO WARNING: Tornado detected; take shelter immediately.

TORNADO FACTS THAT CAN SAVE YOUR LIFE

Tornadoes travel at an average speed of 30 miles an hour, but speeds ranging from stationary to 70 miles an hour have been reported. While most tornadoes move from the southwest to the northeast, their direction of travel can be erratic and may change suddenly.

While most tornado damage is caused by the violent winds, most tornado injuries and deaths result from flying debris.

Tornado wind speeds increase with height within the tornado.

ONTHS OF PEAK TORNADO ACTIVITY

Tornado winds may produce a loud roar similar to that of a train or airplane. Although most tornadoes occur during the mid-afternoon or early evening (3 p.m. - 7 p.m.) they can occur at any time; often with little or no warning.

While hail may or may not precede a tornado, the portion of a thunderstorm adjacent to large hail is often the area where strong to violent tornadoes are most likely to occur. The tornado's atmospheric pressure drop plays, at most, a minor role in the damage process.

Dear

Co-workers of parents whose children participate in sports or other activities are subjected to seasonal pitches for fund-raising items. Whatever happened to the Girl Scouts and Little Leaguers who used to go from door-to-door to sell their cookies and candies? I frequently buy wares from these children's parents, but just once I'd like to see a handwritten acknowledgment from the child on the bulletin board in Mom's or Dad's workplace.

Scouts even exist unless my coworkers are allowed to wear their green uniforms to the office.

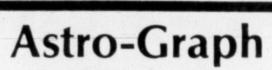

Thanks, Abby, for letting me sound off.

FORMER DOOR KNOCKER

DEAR HEIDI: 1 see your point, and you are not alone. However, let's be fair. I've seen supervised Girl Scouts selling their cookies outside supermarkets and malls - always cheerful, persistent and enthusiastic. At the workplace, you one isn't asked, then one takes are buying cookies, not gratitude. And if that leaves a bad taste in your mouth, that's the way the cookie crumbles!

DEAR SECRETARY: I agree. Here it is.

DEAR ABBY: I am a certified public accountant who recently led a workshop involving secretaries and their bosses. I asked secretaries what they wanted most from their bosses on Secretaries Day. Then I asked the bosses what they thought their secretaries wanted most on "their" day. There were 201 responses from secretaries, and 143 responses from their bosses.

Guess what 22 percent of the secretaries said they wanted most on their day? A day off with pay! I will remain skeptical that Girl Only 6 percent of the bosses said that that's what their secretaries wanted most.

Concerning flowers: Only 7 percent of the secretaries said they wanted flowers. But 25 percent of HEIDI, the bosses said they thought their secretaries wanted flowers. Interesting?

MARY L. CRAIG, CPA

DEAR MARY: Very. Unfortunately, what most secretaries want and what they get are vastly different. Moral: If one wants to know, one asks. But if what one gets.

Alcala declined to say what evidence would be presented to grand jurors or who would be subpoenaed to appear. A source close to the investigation, however, said Johnson would be among "several" people who would be called to testify before the panel, whose proceedings are by law secret.

Donaldson normally is the Dallas Mavericks' intimidating defensive center

He turned offensive machine on Thursday night and the Mavericks dropped the stunned Houston Rockets 120-110 in the first round of the NBA Western Conference playoffs.

The second game of the best-offive Western Conference series is set for Reunion Arena at 2:30 p.m. on Saturday. It will be nationally televised (CBS).

Donaldson scored a career playoff high 18 points to lead a charge of eight Mavericks in double figures against the overwhelmed Rockets.

"I just took advantage of the Girl's Dribblers situations which presented themselves," said Donaldson. "They were working so hard on double-teaming our low post people that it just left me open.

Donaldson said the Mavericks had anticipated Houston's defensive strategy.

"We talked about it before the game and my teammates made a genuine effort effort to look for me," he said. "During the regular season they would force up a shot even if they were triple teamed.

Roy Tarpley came off the bench with 24 points for Dallas, just one point short of his career playoff high.

Akeem Olajuwon scored 34 points and collected 14 rebounds but had little help from his Rockets' teammates. Joe Barry Carroll and Purvis Short had 13

playoffs.

Dallas was upset in the first round by Seattle last year when Donaldson played sparingly because of injury Dallas Coach John MacLeod said "We played hard and had

good balance which is what we've been striving for all year."

Other Mavericks in double figures included Mark Aguirre with 16. Rolando Blackman with 15, Detlef Schrempf, Brad Davis, and Derek Harper with 12 each, and Sam Perkins with 11.

Houston Coach Bill Fitch said "Tarpley and Donaldson did a

Houston guard Eric "Sleepy" Floyd said "This team just has too many veterans to lie down and quit. This team will pull itself together and be back.

Donaldson said Dallas is a different team than the one that bowed out early last year in the playoffs.

"We can't always count on Mark and Ro to carry us," he said. "We had some major contributions from Roy, Detlef, and Brad. It was great seeing everyone pitch in with some balanced scoring.

It was the first time in Dallas' 12 all-time playoff victories that Aguirre or Blackman did not score 20 points or more.

Donaldson said the series was far from over. "Houston is a lot tougher than people give them credit for," he said.

It was the first playoff meeting between the two Texas teams. Dallas beat Houston 4-2 during the regular season

Houston's Jim Peterson said the Rockets will work on stopping Donaldson in practice.

"Donaldson hurt us," he said."It seems like Dallas always puts in plays for him against us to get Akeem into foul trouble.

compete in the pole vault at 8:30

BROWNWOOD -- Charles a.m. Saturday. He qualified by Guynes is ready to challenge the placing second in the District 2odds at the Region I, Class 4A 4A meet, clearing 12-feet, 6inches. Ironically, Guynes, who is just a sophomore, placed Guynes, Snyder's only regional fourth in district the previous track and field qualifier, will year by clearing the same height. He often vaults in the 13s in

practice

"I just haven't been able to do it in a meet," mused the young Tiger athlete. "I know I can, though.

It will take the 13s, and likely 14s to finish either first or second and advance on the the state meet in Austin.

Guynes also has another hurdle to overcome. He turned an ankle the one he uses as a plant foot when he jumps - about a week ago in workouts. Wednesday was the first time he's been able to work out for Saturday's competition

"This is the first chance I've had to work out but the ankle feels pretty good," he said Wednesday afternoon. "The tape is bothering me a little because I'm not used to it, but the ankle feels solid.

Howard hires another coach

BIG SPRING - Steve Green became the sixth men's basketball coach in six years at Howard College here this week when the college board named him to replace Jerry Kassin.

Kassin resigned a week ago after coaching the Hawks to a 12-17 season record.

Green, 34, served under Pat Foster at Lamar University and the University of Houston. He also coached under Eddie Sutton at Arkansas for one season

Coaches for the past five years at Howard have been Harold Wilder, Mike Mitchell, Ed Sparling, Larry Brown and Kassin.

Green indicated he favored a 'fullcourt, up-tempo game. We'll press and be very aggressive on the defensive end.

He has yet to name an assistant. Kassin's assistant, Joe Huber, has taken a position in Delaware

Local now faces assault charges

A 41-year-old Snyder man was charged with several offenses Thursday in connection with a series of early Thursday incidents in which two women reported that he had beaten them.

Samuel Davis of 4400 Ave. U, No. 3C-8, was charged with aggravated assault, criminal mischief and violating a court order that was issued under the family violence code, in addition to the DWI charge under which he was first taken into custody at 3:38 a.m. Thursday in the 3300 Block of Ave. J.

Police said Davis' wife, Delores, came to the police station to file the complaints, but they had also taken an early Thursday report in the Cogdell Memorial Hospital emergency room from another woman who said Davis had beaten her.

He is also alleged to have kicked in an apartment door. Three young men, 21, 20 and 21, were arrested for public intoxication at 12:19 a.m. Friday in a Western Texas College parking lot A 42-year-old man and 30-yearold woman were arrested for public intoxication at 1:57 a.m. at a central Snyder nightclub, and an 18-year-old male was arrested for public intoxication at 4:10 a.m. in the 1700 Block of Ave. M.

Former First Lady honored

WASHINGTON (AP) -Chandeliers glittered and threw prisms of light as President Reagan welcomed Lady Bird Johnson back to the White House, while women in their satin and silk and men in their charcoal suits and subtle ties gathered to watch the East Room homecoming.

"Lady Bird has had an impressive career in her own right. Her concern for the poor and underprivileged helped inspire a nation, her efforts to beautify America continuing up to today still blossom in our nation's capital and beside our highways," the president told the former first lady as he gave her a congressional gold medal.
