Student poll favors off-campus exercises

As a result of the recent poll of students scheduled to graduate, spring commencement exercises will be Thursday, May 20 at 6:30 p.m. in the Scurry County Coliseum.

According to Dr. Duane Hood, dean of student services, 53 responses were received. Of these, 30 favored a coliseum ceremony and 23 wanted a central courtyard graduation here Friday, May 21.

Because some parents want

to attend WTC's rites and Snyder High School's commencement, the Thursday scheduling is a compromise to avoid arranging a separate Friday or Saturday event, said Dr. Ben Brock, vice president.

The high school exercises follow WTC's at 8 p.m. A reception for college students, families and friends is planned, but plans for a location are incomplete.

WTC's catalog lists graduation as 8 p.m.

Board accepts funds audit

College district trustees Nov. 24 accepted the annual audit of school funds, approved a proposal to increase insurance coverage on the buildings, and agreed to seek new proposals for health insurance for WTC employees.

In commending the business office, auditors suggested that additional help may be needed to take care of revamping the system of accounting for movable assets, fund balance transactions and expensing of encumbrances at the end of the fiscal year.

The board approved pay-

ment of \$7,000 for the regular audit and \$4,000 for audits of federal funds.

Insurance coverage on the college plant was increased from \$12,451,852 to \$13,697,037.

After notice of an increase in rates was received from the current carrier, the board asked for reports on personnel health insurance. These should be ready for consideration at the regular meeting in January.

Meanwhile, WTC is continuing its coverage at the higher rate.

Reps. Lewis, Grubbs visit WTC

The frontrunner for next year's Speaker of the House position in the Texas Legislature, Gib Lewis of Ft. Worth, and new 78th district representative hopeful, Walter Grubbs, of Merkel, spoke to an assembly of students, faculty and local citizens Nov. 30 in the Student Center.

Lewis, who claims to have more than two-thirds of the necessary 149 House votes, is expected to succeed Bill Clayton. The 10-year House veteran has been considered a front-runner for the Speaker's post for some time.

Grubbs, the former Abilene district representative, will contend for the new 79th district in the 1982 elections. He moved to Merkel to qualify for election to the new district.

Scurry County was switched from the old 63rd district.

His former district was eliminated by the new redistricting plan currently under fire in a lawsuit by Blacks and Hispanics in Austin.

The minorities of Dallas County are upset with the new redistricting plans because they reduce the odds against electing two friendly minority leaders from both districts, according to Senator Oscar Mauzy, Dallas democrat.

Hispanics in South Texas are also against the plan because two Hispanics on the House redistricting committee, Hugo Berlanga, Corpus Christi democrat, and Bob Valles, El Paso democrat, were only allowed limited in-

fluence in redistricting.

Gov. Bill Clements has played a central role in redistricting, according to depositions from several state legislators, and has been ordered by the three-judge panel hearing the lawsuit in Austin to answer questions about his part in drawing congressional boundaries.

Clements was denied use of executive privilege and was required to hand in the deposition last Friday. He is appealing the ruling.

Ray Keller, state representative from Duncanville, accompanied Lewis and Grubbs.

The reception was hosted by the Scurry County Political Action Committee.

- J.D. Helm

Welfare committee acts on conduct case

The college Student Welfare Committee took decisive action Dec. 2 in the case of a knife-wielding dormitory student.

Removed from the residence hall, the male student was accused of threatening another student with a knife on the evening of Nov. 24, in the east wing of the men's dorm, according to Dr. Duane Hood, dean of student services.

Forced to place stringent rules on his behavior for the rest of the semester, the com-

mittee referred to "Student Conduct" guidelines in the Student Handbook.

Specifically, the case was considered a violation of the statement regarding "Hazing or Physical Abuse."

The rule states: "Any student...who directs violence...on another student for the purpose of intimidating him...has committed a major offense and is subject to suspension."

According to Dr. James Tully, committee chairman,

"Because the student had an excellent record, the committee restricted him to the buildings where his classes are."

He added that the student could not visit other campus buildings and that he has been denied readmission to WTC after this semester.

"Hopefully, this will deter some other related experiences on campus...in life itself, we learn by other peoples' mistakes," Tully said.

- Cheryl Wright

NOTICE

The annual Faculty/Student Christmas Supper will be Monday in the cafeteria. This traditional meal features faculty members serving students, according to Mickey Baird, student activities director.

IN SYMPATHY

The Western Texan staff expresses condolences to George Gann and family on the death of Mary Frances Gann. She died Nov. 25. The Ganns moved to Snyder 10 years ago when he became manager of campus food services.

Idea exchange necessary

If you could name one aspect of academic skill that permeates all the ranks of the educational experience, a most reasonable reply would be communication. The execution and planning of this ability can make a difference in the future and the quality of such in everyone's life.

Even now, one of the many forms of communication is taking place. My expounding on ideas and the thought processes of those who read them are small but obvious modes by which two different entities may exchange information. Although there are many forms by which thoughts may be shared, and they are as numerous as they are different, how much concern is given to making these communications efficient and effective?

For every word that one speaks, an almost infinite number of interpretations can be taken. It is the responsibility of the conveyor of any certain message to see that his thoughts are taken in the proper meaning and context. The way others receive the message can have as much or as little consequence as a misunderstood reply or the disastrous loss of many lives. It is vitally important to all who aspire to live a functional and personally satisfying life to be able to comprehend and process information to a point where two-way interchanges of ideas can be carried out.

These interchanges can be achieved in many ways. From the unconscious signals of body language to complex binary compositions useful for talking with technologically-advanced machines. Also, it is of no wonder, in this ever-increasingly paced world, that efficiency of mastering diverse languages will propel the practiced into a world of communion with others that will inevitably enrich the quality of the individual life.

Through experience in education, most all can experiment in the more important forms of communication necessary to maintaining full, healthy existence. Particular interests by individuals are extremely important methods of getting one's point across. Consider the artist. Whether he be a painter, musician, poet or sculptor, every work that is produced carries a certain message. When others try to comprehend the works, a communication has occurred. Talking to a friend, writing a paper and taking a test are also ways of conveying both concrete and abstract ideas to another.

Each person controls the quality of his intercourse with others. It is wise to develop dynamic ranges within communication to increase the meaning of one's life with others.

- J.D. Helm

Immaturity hurts learning

Often it's a good idea to slow down and check with ourselves about what we're doing in college and why. It's a plain fact that many people are in school here to "party and have a good time," period. What's wrong with that? Maybe more than you think.

For one, some folks' ideas of "a good time" are a little weird. Like tearing up the dorm — literally.

The maintenance department has submitted an incredible list of damages. Rex Hopkins, maintenance director, reports 89 repair trips to one dorm wing in TWO MONTHS this fall. That amounts to nothing more than vandalism by a number of resident punks. (You mean you didn't know we had some real live punks enrolled here? Yes, Virginia, they do exist, and some of them live in the dorm.)

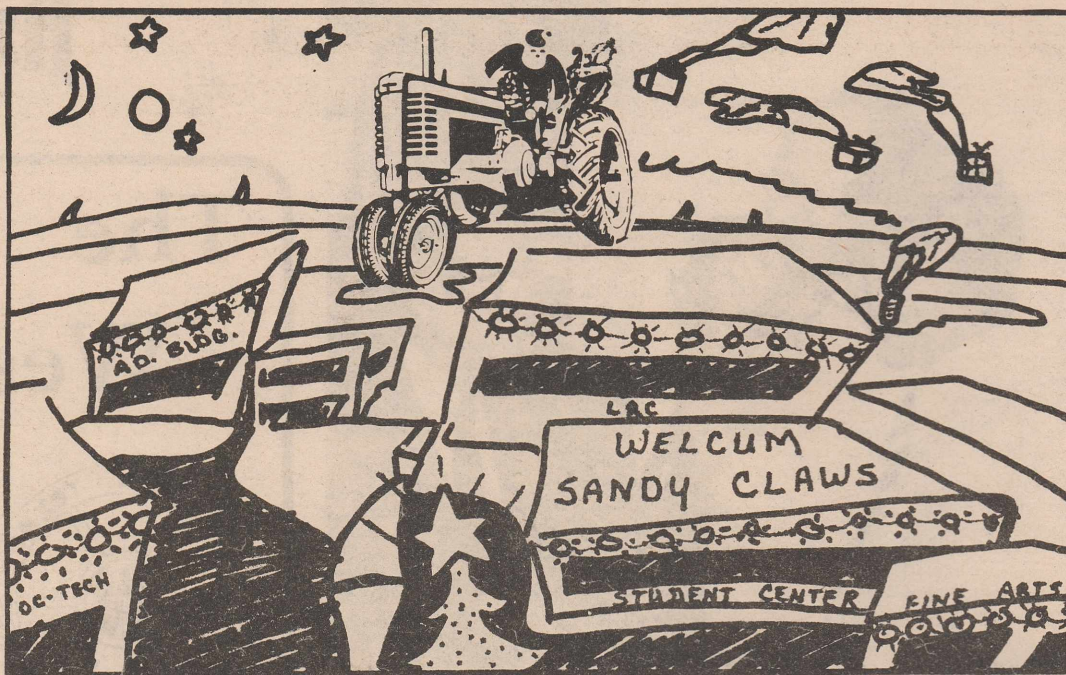

Sadly, most of the students who are simply drifting through school hurt only themselves. A fine education is a treasure to be cherished — and you must at least partially agree with that or you wouldn't be here. Or would you? This is a community college and, as such, the staff seems to have a policy of "bending over backwards" to help each student as much as possible. Sometimes, in this opinion, they bend too far.

In class, one often hears remarks like, "These test questions are too hard," and "We can't do all these assignments." If only some instructor would fire back something like, "Look, this is college, not junior high. If you can't cut the mustard, why don't you fold up your sandwich and go home?"

Granted, some of the assignments ARE tough, but how much would we learn if they were easy? Besides that, boys and girls, LIFE is tough, and the real world doesn't bend over backwards to help you...ever.

We all want to be treated like adults, but shouldn't we earn that privilege by behaving in a manner faintly resembling maturity? This place can help us have "the good things" in life, but there are still no free lunches. Pass the mustard, please....

- Randall Gray

Feedback from readers

Dear Editor:

The Scholarship Bank wishes to express its gratitude to your newspaper for publicizing the private financial aid opportunities available to your students who use the services of The Scholarship Bank. We have received a number of inquiries from your students who have requested further information on our service and believe that this information will be helpful to them:

(1) *Which students are eligible to use The Scholarship Bank?* All students, undergraduate and graduate, may apply to us for financial aid. We are the only complete source of ALL private financial aid in the U.S.

(2) *How much private aid is available?* We estimate there are over 25,000 private aid sources. These include private foundations, trade groups, other non-profit institutions, civic groups and commercial lenders. The average scholarship is valued at approximate-

ly \$750, and many are renewable annually.

(3) *How many different aid sources will we send each student?* We promise the student at least 20 different sources for which he/she is potentially eligible. In fact, the average student has been receiving well over 75 aid sources.

(4) *How do you know which sources a student is eligible for?* The key is the questionnaire which each student fills out. We ask about major, occupational goal, religion, parent's employer, union and military service, where the student wants to live, any graduate school plans and special interests, hobbies, sports and the like.

(5) *Is financial "need" the most important factor?* That is true in only about 30 per cent of the scholarships. The others look for things like occupational goals, leadership or academic merit.

(6) *What information is sent on each scholarship?* The student receives the name of the grant, the eligibility factors, the amount of money available and where to write. The Scholarship Bank will send the actual application for

the scholarship to the student if requested.

(7) *Is it too late for this academic year?* Probably not. With the number of sources to apply through, each has its own deadline. It all depends many times on whether the private source still has funds to give away. By law, non-profit foundations must give a percentage of their assets away every year, and that process continues throughout the year until that is done.

(8) *What areas of study are well funded?* We have funds available in every academic discipline from anthropology to zoology. Business, teaching, engineering and the health fields are very well-funded, as are all fields for older female students. There are funds in virtually all disciplines.

(9) *How do students apply, and what is the charge?* Send a business-size stamped self-addressed envelope to The Scholarship Bank, 10100 Santa Monica Blvd., No. 750, Los Angeles, Ca. 90067. Cost is \$17.50 when students sign up with a friend.

Sincerely,
Steve Danz, Director

Newsbriefs

VA cards

Annual income cards must be returned to the Veterans Administration by Jan. 1 for many veterans and survivors to retain disability or death benefit eligibility, according to Dan Dever, registrar and veterans service officer.

The report cards were sent to all claimants Nov. 1, he said.

Senate dance

The Student Senate will sponsor a back-to-school dance Jan. 19 in the cafeteria.

Randy McCown's "Disco-tist" will provide music from 8:30 p.m. - 12 midnight.

Western photos

Twenty-two colorful photographs of the American West form a traveling exhibit on display in the museum through December.

Photographer Milton Goldstein donated the works, titled "The Magnificent West: An American Heritage," to the National Park Service in 1978.

Brown bag lunch

Sharon Sutton, museum director, discussed Christmas decorations in colonial Williamsburg, Va. during a brown bag luncheon Monday.

She also demonstrated how some of the decorations can be produced for homes here. Christmas decoration workshops are held there each year.

Pledge-raisers

C.L. Casey, Chris Osborne and David Coats were the top three pledge-raisers in the recent Turkeywalk sponsored by

the Student Senate. Almost \$800 in pledges went to the Scurry County unit of the American Heart Association.

Casey, of Hermleigh, finished third in the 10-mile walk but was the top pledge-raiser. Osborne, of Lubbock, placed second in both areas, and Coats, of Proctor, was first over the course and third in pledges.

Osborne and Coats are WTC students.

Benefactors

Mr. and Mrs. Roger Mize have become the first Sustaining Benefactor members of the Scurry County Museum Association.

Mize presented a check for \$1,000. The gift will be recognized with a plaque on the donor wall of the museum on campus.

Geology class

Geology 143, offered in the spring, will be an in-depth study of physical geology such as faults, joints and folds, with emphasis on geologic problems in engineering. This is primarily for engineering students but is open to anybody interested, according to science department sources.

Cont-Ed class

A "Travel Without Troubles" class will meet tonight from 6:30 to 9:30 at the Snyder Travel Agency in Varsity Square.

Anyone wanting first-hand help on how and when to use the services of a travel agency must pre-register.

Fees are \$4 per person or \$5 for a married couple. Call ext. 240 for more information.

Young 'sapling' finds a purpose

I still recall the time I was nothing more than a tiny, inexperienced and unknowing evergreen tree. I had no idea of my real purpose in life.

It seemed as if I was inferior to all my fellow trees...I was the stubby "stick" which protruded from the earth; they were the towering monstrosities casting their shadows over smaller trees like me.

I never could understand why "they" were so much larger and more beautiful than I, until the day a wise, old tree took the time to explain. He not only helped me to understand my "stunted" growth (at least that's what I called it), but he also helped me to figure out my real reason for being.

My complex about being so small was shattered to pieces after a chat with my sage friend. I was merely a "young" tree! In due time, I would be just like all the other evergreens--as long as I could remain strong and healthy. My solitary purpose was to become a Christmas tree.

This Christmas tree business made me so anxious! I wanted to become one so badly...

As the yuletide seasons

passed, more people came to look at us. They touched our limbs and plucked our needles. Now, that didn't exactly tickle, either!

Finally, my dream came true. A family spotted me among all the other trees. I couldn't believe my "needles"--they were all saying how beautifully shaped I was and how green I looked!

Suddenly, I felt a sharp pain on my torso. I became very frightened, until a fellow tree whispered to me: "My friend, have no fear. You're only being cut down so that you can become this family's Christmas tree. It's been good knowing you, and I'll meet you in tree heaven."

I was still afraid, for I knew that my life would soon be gone--I couldn't possibly live for very long without my roots!

I'm on the verge of death now. I've gone through the entire season with my limbs adorned by crystal ornaments and glittering lights--the center of attraction and presents.

I've served my purpose...and, for this, I'm sincerely grateful.

Merry Christmas!

-Cheryl Wright

County museum schedules exhibits, trip in January

Two major art exhibits, a trip to Dallas, and a Texas Historical Commission workshop are among events scheduled in 1982 for the Scurry County Museum on campus.

The first traveling exhibit will be a mini-art display from the National Park Service, opening Jan. 7.

"Works by Women" from the Gihon Foundation of Dallas will open Jan. 28.

The museum plans to sponsor a trip to the Dallas Museum of Fine Arts Jan. 28-30. Attendants will see master paintings from the Phillips Collection.

Feb. 6, the museum and the Diamond M Museum of Fine

Arts will host a Texas Historical Commission workshop on "Developing Community Involvement Through Art And History." It is one of only two presentations planned by the commission during the year.

Other events and dates include: Panhandle-Plains Museum (Canyon) exhibit, "Folk Islands," March 15-31; "Gold Age of Painting," Sarah Campbell Blaffer Foundation (Houston) loan, April 4-30; "Crossroads of Empire" map display, Amon Carter Museum (Ft. Worth) loan, June-July, and Second Annual West Texas Amateur Photography Competition and Show, September.

Job, leisure family affair for veteran English profs

Richard and Marilyn Lancaster exemplify a situation that's quite prevalent among staff members at WTC. They are married colleagues who work together at the same school, in the same department, often teaching the same classes to the same students.

Some twenty people on the staff fit this category, a fairly large percentage of the total faculty.

A few of these "hitched instructors" responded to questions about their interesting job situation. Predictably, different people had different ideas on the topic.

To begin with, how do they feel, personally, about this arrangement?

Mr. Lancaster, associate professor of English, said, "I like it better than I thought I would...I like my wife having an identity and a sense of something that's important to her, other than just being 'mommy'..."

Asked about disadvantages, he thought for a moment and said, "I have to keep reminding myself...here's a colleague, not a spouse, and she speaks with a professional point of view on this issue. If it's not the point of view I have," he laughed, "I can't jump up and say, 'That's not right, go fix supper!' I very much respect her as a teacher. She has a lot of strengths I don't have."

In response to, "Who's the better teacher?" Lancaster said, "That's a tough question. I'm the most experienced...she's still relatively new, therefore, she's more surprised by some things. Her strength is that she's more approachable. I tend to ruffle students."

Marilyn Lancaster, his wife and fellow instructor in the English department, was also quite candid in her response. "We work very hard at avoiding each other. I see him in the lounge at break, and that's it. I don't really have a sense of working with my husband. Once we're here, he's at one end of the hall and I'm at the other. I see him in the hall and he'll say, 'Did you fix the car?' and I'll say 'Yeah'... things like that."

Asked, "Who's the better teacher?" she unhesitatingly replied, "He is. He's a good lecturer...in that sense he is a much better teacher than I am. I think I'm better working individually with students. I've always had the feeling I know everyone in the class."

Mrs. Lancaster also shared insight into the home life of a family parented by college English instructors. "I've got a fifteen-year-old, and I know her English teacher asked her, 'Who are you going to let check your paper, your mother or your dad?'"

She said their children had to put up with "a lot of correction at home...you don't say 'we was' or 'ain't got no' around our house."

Janet Halbert, wife of business administration instructor Bill Halbert, and another associate English professor, was asked her opinion about her situation. She was obviously ready for the question. "I love it," she said, "blackmail me with that if you can. I taught high school for a year in Lubbock and eighth grade in Mesquite, and I would rather be shot than to go back to public school."

On the subject of disadvantages, she said, "I don't like the hours that we're not together...at night when he has a class, or I do, and we don't get to see each other..."

Bookstore manager, Marsha Krenek is married to Dr. Harry Krenek, history/sociology professor. "I like being on campus together," she said. "I taught some courses out here, and what I disliked was seeing him TOO MUCH. I like to talk shop at home. All of our friends are faculty, and I find that very interesting."

Dr. Mary Hood, wife of Dr. Duane Hood, dean of student services, is a psychology professor and student counselor. She sees a disadvantage in the fact that her husband is "often in a disciplinary role, and some students hesitate in coming to me for counsel."

She also said, "We've never made a rule (about not discussing work problems at home) and talk about school all the time. We sit around and watch TV and talk about it..."

So like a lot of situations in life, these teachers face advantages and disadvantages. Mostly, they enjoy their arrangement, some more than others. Most of those interviewed said they struggled to maintain separate identities and individual teaching styles so as to contribute something to the college curricula that is uniquely their own.

- Randall Gray

Clubnotes

A simple-looking, multi-colored, six-sided plastic object.

Each of its faces of nine smaller cubes may be rotated row-by-row about its center. And each side is arranged in a different color.

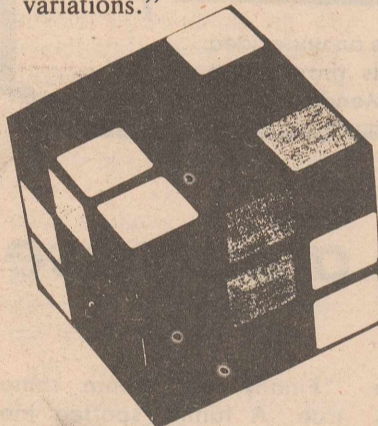

What is it?

A "Rubik's Cube," the puzzle that's been described as challenging, maddening and addictive.

Why?

A few random rotations, then the challenge is to reassemble the cube in its original color formation. Simple enough, eh? Not really. You see, there are precisely 43,252,003,274,489,856,000 possible positions.

Even according to its designer, Professor Erno Rubik, an interior design instructor at the Academy of Applied Arts in Budapest, Hungary, "The great challenge to the mind is to find a way out for the labyrinth of practically endless variations."

It's certainly a craze...the Ideal Toy Corporation has sold more than 10 million worldwide.

Some look at it and say, "Forget it." They walk away.

Others look at it, think it looks easy enough and understand how it works. Then they go into shock when they can't do it.

Interested?

Contact any Office Education Association member at ext. 266, 217 or 240. The club is selling the two-square-inch Rubik Cube for only \$4 and the one-square-inch Rubik Cube key chain for \$3.

They make great "stocking stuffers" or "just-for-fun" puzzles--but hurry! Deadline is Friday, Dec. 18.

This is OEA's fall term fund-raising project.

But remember this advice from Rubik himself:

"You can't transfer your knowledge of the cube. Everyone has to find out for himself in his own way. Changing one part changes the whole."

Eight PTK members are pictured with Dr. Don Newbury, honorary Kappan Fellow. -WTC photo

The Psi Zeta chapter of Phi Theta Kappa celebrated Founder's Day Nov. 19. Founded in Missouri in 1918, PTK was officially recognized by the American Association of Community and Junior Colleges Nov. 19, 1929.

It is the only nationally recognized honor fraternity for junior college students. PTK promotes scholarship, develops leadership and service, and cultivates fellowship among its members, said Dr. Mary Hood, co-sponsor.

A large sign was placed in the Student Center. Psi Zeta members were recognized in their classes.

Milton Ham, Snyder mayor, proclaimed Nov. 19 Founder's Day in the city, as Dr. Don Newbury, president, was recognized as a PTK Fellow for his support of the fraternity.

Psi Zeta members are currently making plans for a Christmas party Sunday.

Officers Darrell Collins, president; Tammy O'Day, vice-president; Tammie Polk, secretary; Elena Garcia, historian, and Robby Trevey, reporter, are planning the spring induction of new members. Several freshmen are expected to be invited.

Induction will be early this year because of an early state convention. The Texas PTK meeting will be Feb. 4-6 in San Antonio.

Sponsors are Drs. Duane and Mary Hood.

Press Club officers were elected by secret ballot Nov. 17.

Officers are Robert Mendoza, president; Patricia Quiros, vice-president; Margaret Langis, secretary, and Cheryl Wright, treasurer.

The club is planning many fund-raising activities, including the "Great Giveaway" planned for early spring. The

giveaway is made possible by local merchants who donate valuable gifts and services. A couple of successful giveaways which were big fund-raisers netted over \$500 each.

"I feel this is an interesting service to the faculty and students because of the nice prizes donated," Dr. Mike McBride, Press Club co-sponsor, stated. "One year, a color TV was the grand prize and there was everything else from free meals to free gasoline," he added.

Fund-raising is the main function of the Press Club, in addition to promoting journalism. Currently, the goal is to offset expenses of the Rocky Mountain Collegiate Press Association trip in the spring.

Other members of the club are J.D. Helm, Pat Farmer, Denny Cox and Danny Massey.

Anyone interested in journalism is invited to join.

Step aside, St. Nick

God gets especially upset whenever he sees mommies and daddies all around the country teaching their children about being good for Santa...

"Now Johnnie, if you don't stop picking your nose, Santa won't bring you presents."

"Susie, Santa doesn't like to make house calls for sassy little girls."

Whatever happened to the idea that Jesus was born around this time of the year? Shouldn't Jesus, the present that God sent to benefit mankind, be taught to children before some make-believe character by the name of Old Saint Nick?

Happy Birthday, Jesus!

- Cheryl Wright

Debbie Lindsey displays no look of concern during the recent blood drive in the student center.

-Billy Fowler photo

'Twas a Christmas Happenin'...

Annual rite popular

'Twas a Christmas Happening — as sights and sounds of the holiday season swept through the south campus Sunday.

There were pinatas and pictures, carols and coffee, cards and candy, and 'ole Saint Nick himself. Fun aplenty for "youngsters" of all ages...

Indeed, the Sixth Annual Scurry County Museum Christmas Happening drew hundreds from the community for an afternoon of delights.

Shortly after 1 p.m., Santa Claus arrived to visit with small tots. Ira High School homemaking students offered assorted candies for sampling, with recipe copies available to interested partakers.

Campfire coffee a la Jerry Baird and popcorn a la Mickey Baird whetted tastebuds, while curious onlookers were introduced to the finer art of Christmas-card making by Donna Holt and Donna Sullenger. Even creating unusual home decorations was offered by Sue Travis in a mid-afternoon demonstration.

Charles Dickens' "A Christmas Carol" came alive in an adaptation of the classic by Mrs. Ben Brock's Stanfield Elementary School fifth grade class in the fine arts theatre. Junior high students of Mrs. B.J. Dryden performed "Tis the Season" on stage later in the day.

WTC's choral ensemble, directed by Jane Womack, even got in on the action with special seasonal music in the theatre.

"Great Photographs by Gerald (Corkran) and Edward (Dr. Barkowsky)" saw subjects seated in an antique buggy for old-fashioned flicks, as children thrilled over colorful, candy-stuffed pinata-breakings outdoors, thanks to Robert Adams.

Indeed, a Christmas Happening — 1981-style — was a perfect way to usher in another yuletide holiday season.

Married student adjusts to new college routines

Although junior colleges sometime tend to overlook today's married students, Mrs. Carla Nunley feels her place is here at WTC. One of many housewives on campus, she's carrying a full academic load of 16 hours and plans to graduate in the spring.

"Being a married student has its advantages, because you are settled down. You don't have time for running around," she admits.

Although studying often can be difficult, "I have to divide my time accordingly between cooking, cleaning, studying, and my husband, of course, but being a wife helps me to find time to get my studying finished," the former Carla D'Ann Franks claims.

Carrying the responsibilities of a wife and student seems to conflict, but Mrs. Nunley says, "I spend

more time studying at home than I would if I lived in the dorm. I have plenty of quiet, just not living the single life of running and going says a lot."

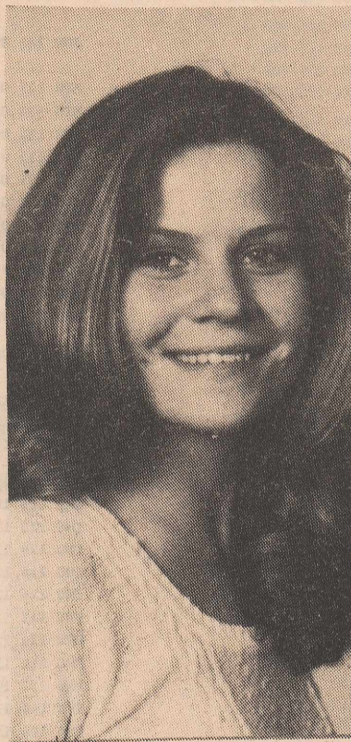

Mrs. Nunley adds, "Last year, I was an unmarried student, and I find that I am much happier this year. I am not envious of the single college students."

What's her advice? "I would encourage students who are anticipating college to go back. This makes you feel good about yourself. It IS possible to be a student and housewife."

With an encouraging spouse who attended WTC before, Mrs. Nunley believes, "This makes life a little bit easier. You are never too old to start your college education."

Marrieds, Western Texas College Wants You!

- Pat Farmer

Carla Nunley

Investing, broadcasting classes commence in spring

General investing and radio broadcasting will be subjects for two continuing education courses starting next month.

The 18-hour investing class will begin Jan. 11 with Tim Riggan, representative of Edward D. Jones and Company, instructor.

Mutual funds, the stock market, corporate and municipal bonds, real estate, oil income, deferred annuities, and IRA and Keogh plans will be covered.

The radio broadcast class will run Jan. 13 through Feb. 24 with Larry Genuchi,

KSNY-1450 news and sports director, instructor.

Air work experience will be possible for students, he said, who will study writing for broadcast, programming and FCC regulations.

The course is designed for students interested in possible employment at KSNY and receiving the third-class license. How to write radio news and commercials will be included.

For information on these or other non-credit short-courses, contact the community services office at ext. 240.

Diverse communications classes slated

General interest and specialized mass communications classes are on tap for the spring term, according to Dr. Mike McBride, associate professor of journalism.

A course considered an important elective for all liberal arts majors and a requirement for journalism and mass media students is JOU 132, Introduction to Mass Communications.

Offered 11:15-12:05 MWF, or on an individualized instructor-approved basis, the class will acquaint students with the major mass media in modern society, including newspapers, magazines, radio and television, as well as advertising, book publishing, photography and public rela-

tions.

College typesetting facilities will be used by students wanting to work on *The Western Texan* (JOU 112, Newspaper Publication). Additional staff members are needed, and a limited number of journalism scholarships are available.

In JOU 113, Typesetting, class members will learn how to use the Compugraphic Edit-writer 7500, a \$20,000 typesetting system, and how to prepare various publications for printing and release. The course can be taken on an individual study format.

Additionally, JOU 231, News Editing and Copy Reading, meeting 9:55-11:10 TTH, will offer students opportunities to learn practical

skills in improving and correcting many types of copy and layouts, including articles and pages suitable for *The Western Texan* and other official college newsletters and brochures.

Finally, photography students who have completed a basic college photography course or who are experienced can enroll for JOU 234, Introductory Photography II, scheduled 6:30-9:20 p.m. Thursdays. A new darkroom equipped with six enlargers will be open for the first time to these class members.

For more information, contact McBride in the Student Center or Beverly Cross, typesetting coordinator, in the LRC.

Judoists place at A&M, Colorado Springs meets

WTC's judo club members earned five awards at the Texas A&M University Judo Tournament Nov. 28 in College Station.

Tania Mackey of League City won second in the women's lightweight class, while Margaret Anderson of Snyder was third.

Marjann Morrow of Snyder took third in the women's heavyweight class. All women competed in the Brown Belt division.

Blake Riggs of Midland was third in the men's Black Belt division, as Jerol Morrow was third in men's Brown Belt.

Four students earned honors Saturday as judo team members participated in a dual meet with the U.S. Air Force Academy in Colorado Springs, Colo.

Despite thin air at the 8,500-foot altitude, WTC had four winners, Chuck Wood, Tonya Moore, Mark Thomas and Jerol Morrow.

Next tournament will be Jan. 16 in Dallas.

Western Texas will host the Texas State Collegiate Championships Feb. 27 in the gym.

Team coach is Dr. Shell Hillis, science-math division chairman.

Spurs fall 'mural champs

The Spurs won the intramural basketball first-half title Dec. 1, 83-78, over the Golfers.

Like a championship pro team's namesake from South Texas, the Spurs got 25 and 24 point productions from Eric Arnold and Mark Preston, respectively. Gary Ray bucketed 28 for the losing squad.

Final fall standings are: Spurs 4-0, Golfers 3-2, 250's 3-2, Jerk-offs 3-2, Rockers

2-2, Super Loopers 1-2, Shady Ladies 1-2, Green Berets 1-3 and Unknowns 0-3.

The grand champion will be determined after the season's second-half in the spring. Competition gets underway a week after classes resume.

A new rule states that Spurs players cannot switch to other teams, but students can be added to the squad. The rest of the teams can rebuild, according to Mike Boles, student intramural basketball director.

Linksters dominate WJCAC

Golfers win five of eight fall tourneys

WTC's golf team breezed through the first half of its season, winning five of eight tournaments entered. The Westerners dominated district play, sweeping all three Western Conference meets this fall.

The linksters of Coach Dave Foster served notice of their ability in early September by winning the New Mexico Junior College Tournament in Hobbs. WTC posted a three-round score of 868, four strokes over par. Philip Jones won medalist honors by firing a 216, even-par on the Ocotillo Golf Course.

On Sept. 18, the Westerners won again, this time the first Western Conference tourney held at Levelland Country Club. The team shot an even-par score — and again Jones led the attack.

WTC continued to play red-hot golf, blistering Midland and South Plains in dual matches later that month. They remained unbeaten through the second Western Conference shootout, this one on home turf, Oct. 3. Freshman Petey Petri was low man with a 72.

The third Western Conference match was held at the Ranchland Hills Country Club, Midland, Oct. 9. The Westerners won again, this time by a full ten shots. Jeff Seger displayed his ability by turning in an even par 71 to take medalist bows.

WTC rounded out its fall schedule by playing in the NMSU Intercollegiate at Las Cruces and the Sam Houston Intercollegiate in Freeport, Bahamas. The Westerners won their division at Las Cruces with Seger again win-

ing the individual competition. At Freeport, the team finished sixth — some say they were distracted by their surroundings...who wouldn't be?

Individually, the Westerners claimed the top four scoring slots in the conference. Jones and Petri tied for first, followed by Rick Woodson and Seger. In overall competition, Seger leads the Westerners, averaging 3.4 strokes over par, followed by Petri, Woodson, Ronnie Fletcher and Jones.

Coming up in the second half of the season, WTC plays host to 17 teams in the T.W. Holder Intercollegiate Tournament, to be played here Feb. 20-21. Later in the spring, the Westerners will travel to a meet in Alabama and will close out conference play at the Odessa Country Club.

THERE'S ONE PLACE TO GET \$15,200 FOR COLLEGE IN JUST TWO YEARS.

Soon you'll have your associate's degree. And if you're thinking of continuing your education, you know just how expensive that will be.

But consider the Army. In the Army, if you participate in the Veterans' Educational Assistance Program (VEAP), you can accumulate \$15,200 for college in just two years.

That's significant for two reasons. Obviously, that's a lot of money. But what you may not have realized is that two years is the shortest military enlistment available.

VEAP is a great way to make it on your own. Since it's not a loan, you won't need a co-signer or collateral. And you'll never have to worry about making payments after graduation.

It's strictly a savings program, and the money is all yours for school.

VEAP is surprisingly simple. If you save between \$25 and \$100 each month while you're in the Army, the government will match your savings two-for-one. And, on top of that, you might even qualify for the exclusive Army education incentive of \$8,000.

And remember, in just two years, you'll be back in school.

Serve your country as you serve yourself. Call 800-421-4422. In California, call 800-252-0011. Alaska and Hawaii, 800-423-2244. Better yet, look in the Yellow Pages under "Recruiting."

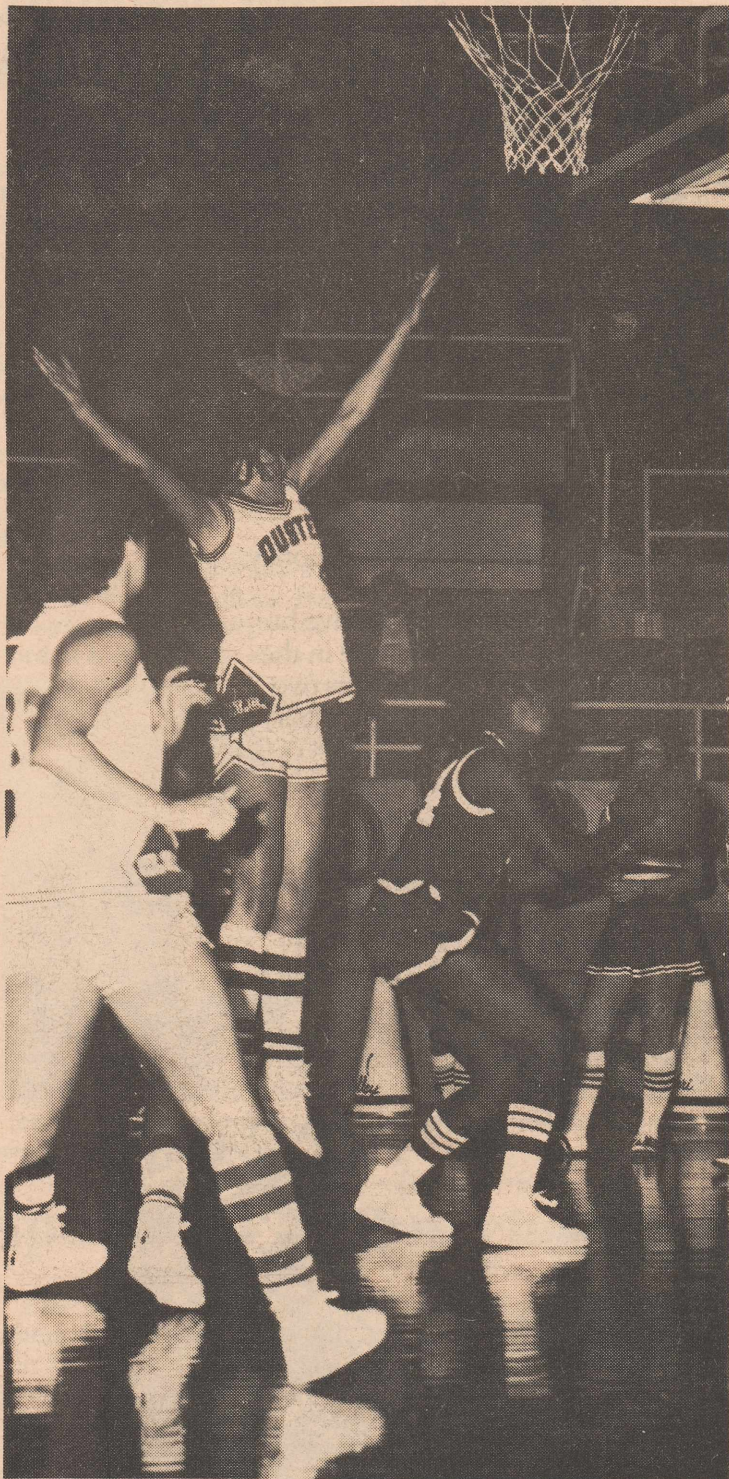

MAXIMUM VEAP BENEFITS

	Per Mo.	2 Yrs.
You Save:	\$100	\$2,400*
Gov't Adds 2-for-1:	\$200	\$4,800
Total:	\$300	\$7,200
Army Adds:		\$8,000
Total Benefits:		\$15,200**

*Maximum individual contribution in the program.
**Certain four year enlistments can get you as much as \$25,100.

**ARMY.
BE ALL YOU CAN BE.**

Vickie Teal of the Dusters guards against the Hawks' Nell Haskins. WTC won the game, 85-62. —Robert Mendoza photo

Fems take two loop games

An impressive loop-opening 70-63 win over rival Howard College and an easy 85-62 victory over conference foe Odessa College has propelled Coach Joe Cushing's Dusters into the front of fall Western Conference play.

The 12-1 Dusters travel to Clarendon tonight for their third WJCAC game at 6 p.m., the last of the semester. They return to action Jan. 7-9 in the Northern Oklahoma Tournament at Tonkawa.

The team's eleventh victory against one loss came Dec. 3 in the coliseum against a Don Stevens-coached squad WTC edged by a point for the recent Hawk Queen Classic title.

An offensive show between Howard's 5-11 freshman, Nell Haskins, and WTC's 6-1 freshman, Vickie Teal, highlighted the first half. Western Texas took a 33-31 lead into the locker room after trailing early, rallying back

and holding on.

Howard outshot the hosts, 12-6, to start the second period, but freshmen Dale Pieper and Shara Fredenburg turned the tide for the Dusters. WTC broke a 45-all score at 11:25 and never fell behind again.

Though it was close several times, the clincher came with 2:02 left as sophomore Valorie Wells blocked a Haskins pass. Norma Frazier converted two points, and Cindy Maddox got two charity tosses to freeze it at 68-58.

Teal paced WTC with 26 points and 11 rebounds. Wells notched 14 points, while Pieper tallied 12.

Haskins accounted for 27 of Howard's points.

Monday night in the Scurry County Coliseum, the Dusters jumped out to a quick five-point lead against OC's Wranglerettes and never looked back.

After taking a 38-26 halftime advantage, Cushing substituted freely as nine Dusters tallied and five hit double digits.

Dorcas Perkins pointed 16 for WTC, Teal 15, Wells 14, Pieper 12 and Frazier 10. High for Odessa was Connie Horton with 28.

Odessa is 0-2 in WJCAC play and 9-4 on the year.

In non-conference activity, the Dusters took their tenth win of the year, 89-78, here Nov. 30 against Howard Payne University and their ninth Nov. 23 at Ranger against RJC, 63-52.

The Dusters won't return home until Jan. 23, when they host Kilgore in a non-conference match-up at 7 p.m. Only two home games are scheduled next month, but WTC will stage the last six regular season games here in February, four of them loop contests.

Dusters win Hawk Queen Classic crown

In "classic" style, WTC's Dusters squeaked past Howard College's women, 70-69, to win the Hawk Queens Invitational Classic in Big Spring Nov. 21. Coach Joe Cushing's forces also defeated Ranger and McLennan in first and second-round matches of the three-day meet to run their season record to 8-1.

WTC took the lead early in the title game but lost it twice as Howard stayed close throughout. The Queens went in front, 34-33, with 2:15 showing until the Dusters canned a bucket for a 35-34 intermission advantage.

One to five-point bulges were maintained in the second period until the hosts went back in front, 56-54, for the

final time. Late WTC scores and a strong defense kept the tilt from changing direction.

Vickie Teal notched 17 points and 13 rebounds to pace the Dusters. Dorcas Perkins added 14 points and 13 boards, as Cindy Maddox netted 12 points and Dale Pieper 10.

Nell Haskins, the tourney's MVP, led the Queens with 38 points. The freshman post has averaged over 24 per outing for the 4-5 Howard club.

WTC had opened the affair with an 81-60 victory over Ranger, with all 15 Dusters seeing action.

Teal again topped WTC with 30 points, while Valorie Wells had 19. Top rebounder was Wells with 10.

Dana Arnold fired 19 points for Ranger.

In second-round action, Western Texas turned back McLennan of Waco, 68-63, despite leading early by as much as 15. The Dusters held a 37-28 halftime edge.

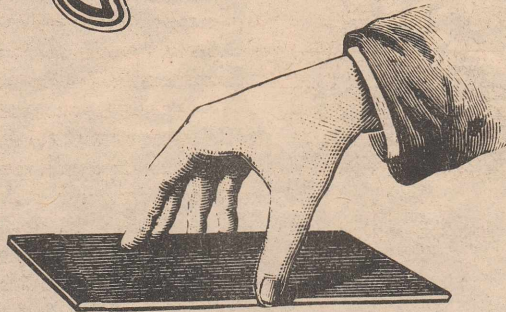

Three fems hit in double digits for "the Green and Blue." Wells posted 20 points, followed by Perkins with 17 and Teal 11. Maddox was credited with 10 assists, one short of the school record. Rebound leaders were Teal and Wells with 13 and 12, respectively.

McLennan defeated Abilene Christian University for third place, Odessa won consolation over Temple, and Ranger took seventh over Weatherford.

Westerners hold Howard to win 90-82, drop next two tilts to NMMI, Odessa

WTC's Westerners went into a spread offense late in the game to hold off Howard College's Hawks, 90-82, in the conference lidlifter for both squads here Nov. 24. But the next two loop contests with NMMI and Odessa were different stories.

With Derrick Grow and Dwayne Hunt hitting from outside and Darren Lee and Pete Thomas taking over inside, Western Texas built a 10-point halftime edge and dominated late in the second stanza.

Lee's 25 points and Thomas' 23 were high for the hometowners. Teammates Grow and Hunt added 18 and 16, respectively.

In their eleventh road test out of 13 total games played, but in one counting for conference "points," the Westerners bowed to New Mexico Military Institute, 89-74, Nov. 30 at Roswell.

Darren Lee fired in 22 points for WTC, while Pete Thomas, Derrick Grow and

Dwayne Hunt contributed 14, 12 and 12, respectively.

Dunaway's summation? "We just gave it away. We just pulled the biggest choke act since Tom Dooley was hanged."

If that game was sad, Monday's match here with Odessa was a shame. OC left the coliseum with a 78-71 overtime victory.

As the Westerners head into tonight's fall semester closeout in Clarendon at 8, thoughts of trying to even their conference record at 2-2 will recall memories of the game that saw WTC fold after leading 35-34 at the half and after having a shot at winning at the end of regulation, with the scoreboard reading: 66-all.

Odessa's control of the five-minute overtime was the difference, with Wayne Lister's 24 points overall and Paul Hamilton's 21 leading the way. High for WTC were Pete Thomas and Darren Lee with 18 apiece and Dwayne Hunt with 13.

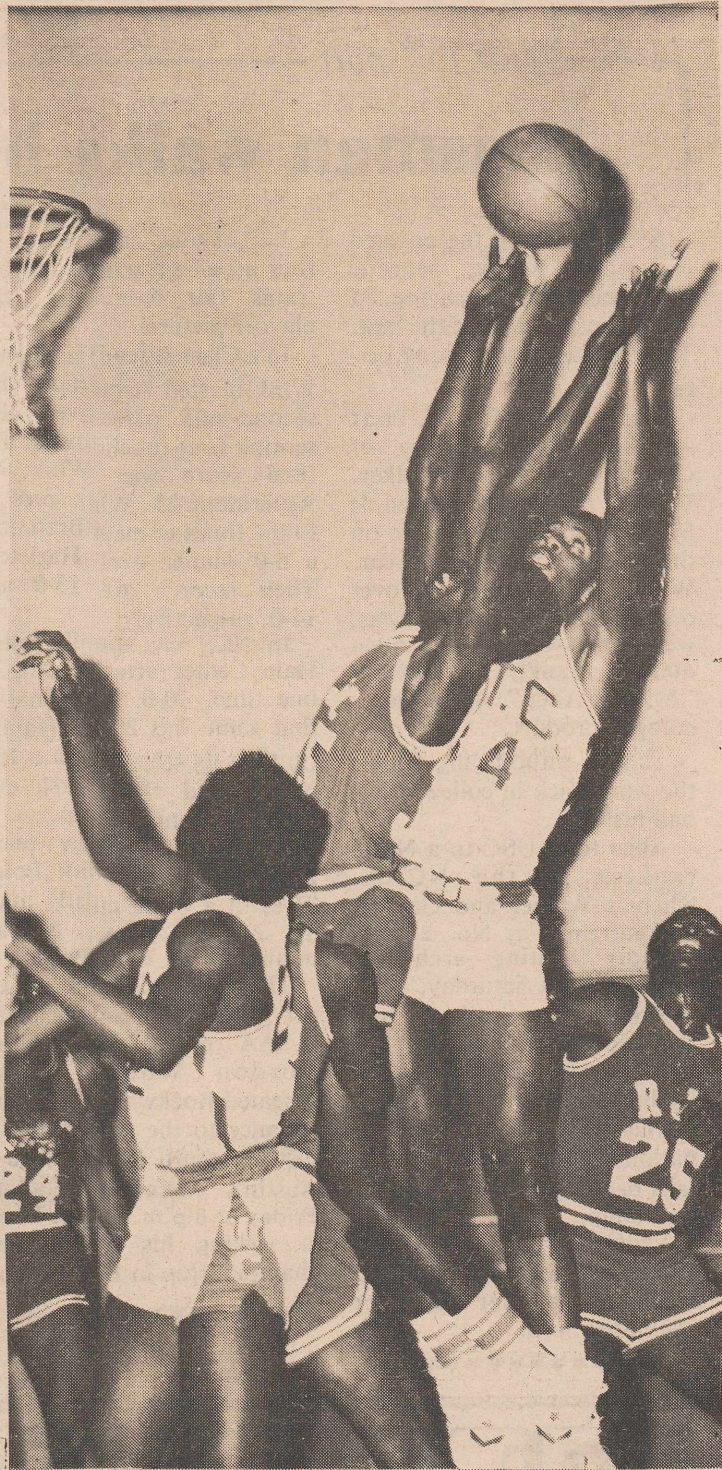

After an impressive early-season start, the Westerner cagers dropped some non-loop matches on the road, one in Ranger and two in the Tyler College Classic at Tyler, but rebounded against Angelo State's JV.

WTC broke from behind to take the lead with about four minutes remaining against Ranger Nov. 23, but they couldn't hang on as RJC posted a 66-60 tally.

At Tyler, Western Texas fell to Navarro Junior College, 62-42, and to Tyler, 96-83.

Dec. 3, WTC broke the "loss column" string in San Angelo by defeating the Ram junior varsity, 90-69.

After the holiday break, the Westerners open at home Jan. 7 at 8 p.m. against ASU's junior varsity, followed by a string of Western Conference contests: NMJC here Jan. 11, Amarillo there Jan. 14, Frank Phillips there Jan. 18, Midland here Jan. 21, South Plains there Jan. 25 and NMMI here Jan. 28.

Westerner forward Pete Thomas goes up in a crowd during a clash with Ranger in the WTC gym. —Robert Mendoza photo

Dunaway's team tops at Waco

Coach Larry Dunaway's Westerners made it one-two in taking the McLennan Community College cage Classic in Waco Nov. 20-21. They defeated Temple, 99-83, in the first game and Wharton, 51-49, in the second.

In hitting 66 per cent from the floor and grabbing 42 rebounds, high for the year, WTC led Temple at halftime only 52-45 as four players had three fouls apiece. But the second stanza saw "the Green Machine" build up a 21-point bulge with just over four minutes remaining.

Temple went to the free throw line 23 times in the initial half, compared to WTC's four. WT's Darren Lee picked up three fouls the first three minutes and spent most of the period on the bench. Pete Thomas, Keary Bolden and Jerrold Whitmore were also in foul trouble.

In his best game of the year, Thomas collected 21 points and nine rebounds to pace the visitors. Dwayne Hunt notched 16 points and 12 assists, Derrick Grow had 10 assists, and Bolden got 10 rebounds to aid WTC's cause.

Against Wharton, the Westerners trailed, 25-23, at the half but rallied to go ahead in the second period, despite missing three charity tosses in the final 40 seconds.

Dunaway described the win as "by far our worst game of the season." One reason? A 27 per cent field goal mark.

Whitmore scored 19 points to pace WTC, while Bolden pulled down 10 rebounds.

According to Dunaway, the early road season (10 of the first 13 games) took its toll. "Our minds were willing, but our bodies weren't," he said.

Heisman walks by Walker

After receiving the coveted Heisman trophy, Marcus Allen was quoted as saying, "I don't consider myself the best. There's always somebody better."

That's no lie! That somebody is University of Georgia's Hershel Walker. Walker, runner-up to Allen, is by far the better of the two on the football field. Last year, Walker was running all over opponents, while Allen was, well, what was Marcus Allen doing? Frankly, I thought "Marcus Allen" was a lady's cologne product.

This is, without any doubt, the worst pick in college football history.

Allen took USC to a No. 8 ranking in the NCAA, whereas Walker and Georgia are currently at No. 2 after soundly beating arch-rival Georgia Tech Saturday, 44-7. Walker scored four touchdowns and ran for 225 yards. Although Allen is leading the nation this year, neither did his team win the national title nor have the Trojans been a threat for the No. 1 ranking.

I guess the NFL in 1982 will show us who the REAL Heisman winner was or should've been.

Last Friday saw three of four area high school football teams fall from the state playoff picture.

In a Class A semifinal game, Wink blasted Aspermont in a second-half offensive blitz, scoring four touchdowns. The final score was Wink 40, Aspermont 23. Wink goes on to the finals to meet Bremond, a 6-0 winner over Harleton. Their records are 13-0 and 14-0, respectively.

In Class AA, Hamlin lost to Hale Center after leading at one time, 10-0. The final in that game was 20-13. Hamlin finished its season with a 10-3 record and their first ever regional championship.

Another area AA team, Eastland, fell to Pilot Point, 21-8, in a game mostly made up of big plays, all administered by Pilot Point.

The only team in our area to survive the weekend was Class AAAA power Brownwood. Gordon Wood's Lions defeated Rockwall, 19-13, and advance to the state finals to meet Stafford Willowridge in Austin's Memorial Stadium Friday at 8 p.m. Coach Wood is seeking his eighth state championship in Brownwood.

Coach Joe Cushing's Dusters jumped out to an early lead Monday night against tall and talented Odessa — and never really looked back as they won by 23 points. The Dusters are 12-1 and 2-0 in conference play going into tonight's fall wrapup game at Clarendon.

The Dusters controlled the whole game. At half-time, the score was 38-26, in their favor. They wasted no time in the second stanza, starting where they left off. WTC had five players in double figures, with high point Dorcas Perkins (16).

But not all the credit can go to the women — there's good coaching behind them. Good job, Joe!!

Monday night's Westerner match-up with Odessa JC was a run-away turned into a close match. The WTC men had control early in the game, but due to some very poor shooting they let the tilt turn into a dog fight they eventually lost in overtime, 78-71.

Maybe it was an off night for the Westerners. Let's hope so. These guys really have talent. Darren Lee probably has the hottest hands in the conference, Pete Thomas is the terror of the boards, and Keary Bolden has the quickness of a cat and the moves to prove it!

So what if they lost ONE game — they'll win the rest. Besides, win or lose, all in all, it's "Just For Sport."

- Jesse Sanchez

Richardson's Hurricanes break into NCAA Top 10

"Rollin' with Nolan." That's what t-shirts emblazoned with Nolan Richardson's likeness signify.

Routine sellouts expected at the 8,500-capacity Tulsa Assembly Center, with 6,500 season tickets sold a whole month ago.

The hullabaloo is this: WTC's former cage mentor has a chance to do the impossible — contend for the "triple crown" of basketball in successive years this season.

He guided Western Texas to the national JUCO title in 1980 and Tulsa University's Golden Hurricane to the National Invitation Tournament championship in 1981.

This season, he seeks the college "Super Bowl" jewel of the sport, the NCAA throne. And his chances, though "outside," are there.

Ranked eleventh nationally during preseason and ninth early in the 1981-82 polls, Tulsa joins the elite — North Carolina, Kentucky, Louisville, Wichita State, Virginia, De Paul, Iowa, UCLA and Minnesota — in the "Top Ten."

The Hurricane even managed a non-conference game with the top-ranked Tarheels in Chapel Hill, N.C. Dec. 3. They lost, 78-70, but impressed nationwide television viewers with their ability to "come back," a team trait characteristic of Western Texas College ball from 1977-80, the three years Richardson compiled a 97-13 record here.

Perhaps four Tulsa seniors

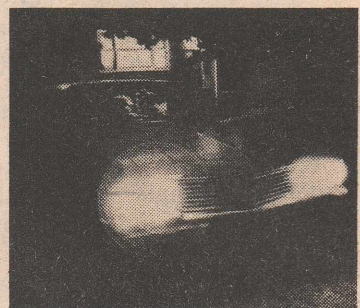

are one reason — they all were WTC stars for two seasons: Paul Pressey, David Brown, Phil Spradling and Greg Stewart. Now, they're joined by 1980-81 WTC standout Chuck North.

These performers, blended with five holdovers from an 8-19 Tulsa squad, compiled a 26-7 record enroute to the 1981 NIT crown in New York's Madison Square Garden last spring.

Richardson's success formula? Hard work and conditioning. Add a third ingredient now: experience. And a fourth that's already paying dividends: solid recruiting (which isn't as hard when you're a national champion.)

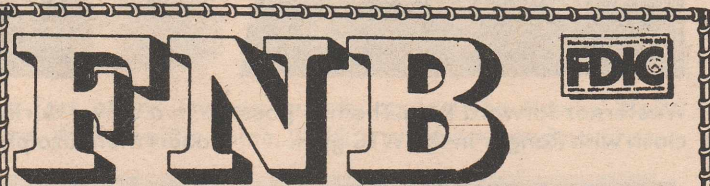

The eyes and ears of Snyder are glued to Tulsa University — and for good reason.
