

Distance learning technology said possible by summer

By Amy Lester
Texan Staffer

The Distance Learning system at WTC is now on schedule and expected to be in effect by next fall, according to Director of Technology Britt Canada.

In addition, Canada and Dean of Instruction Jim Palmer have recently been in discussion with Midwestern University officials in Wichita Falls and it now seems likely Midwestern may be offering classes to the WTC campus as early as this summer.

Through the distance learning program, a student may be able to complete a bachelor's degree from Midwestern without leaving the

WTC campus.

This summer the tentative plan is to offer the Midwestern classes in the Learning Resource Center temporarily.

The permanent site for the WTC Distance Learning labs will be in the Workforce Training Center (now Diesel Lab 103 in Building 7D) by fall.

When completed, the total cost of the WTC Distance Learning project is estimated at \$100,000.

By summer, WTC should be able to receive the classes from Midwestern with equipment now funded. Additional money from a See **DISTANCE LEARNING**, page 5

Rodeo begins Thursday

Queen crowning set Thursday night

By Amanda Gutierrez-Baez
Texan Staffer

WTC's annual rodeo will be this Thursday, Friday, and Saturday at the Scurry County Coliseum beginning nightly at 7:30 p.m.

Tickets can be bought at the door or from WTC Rodeo Team members.

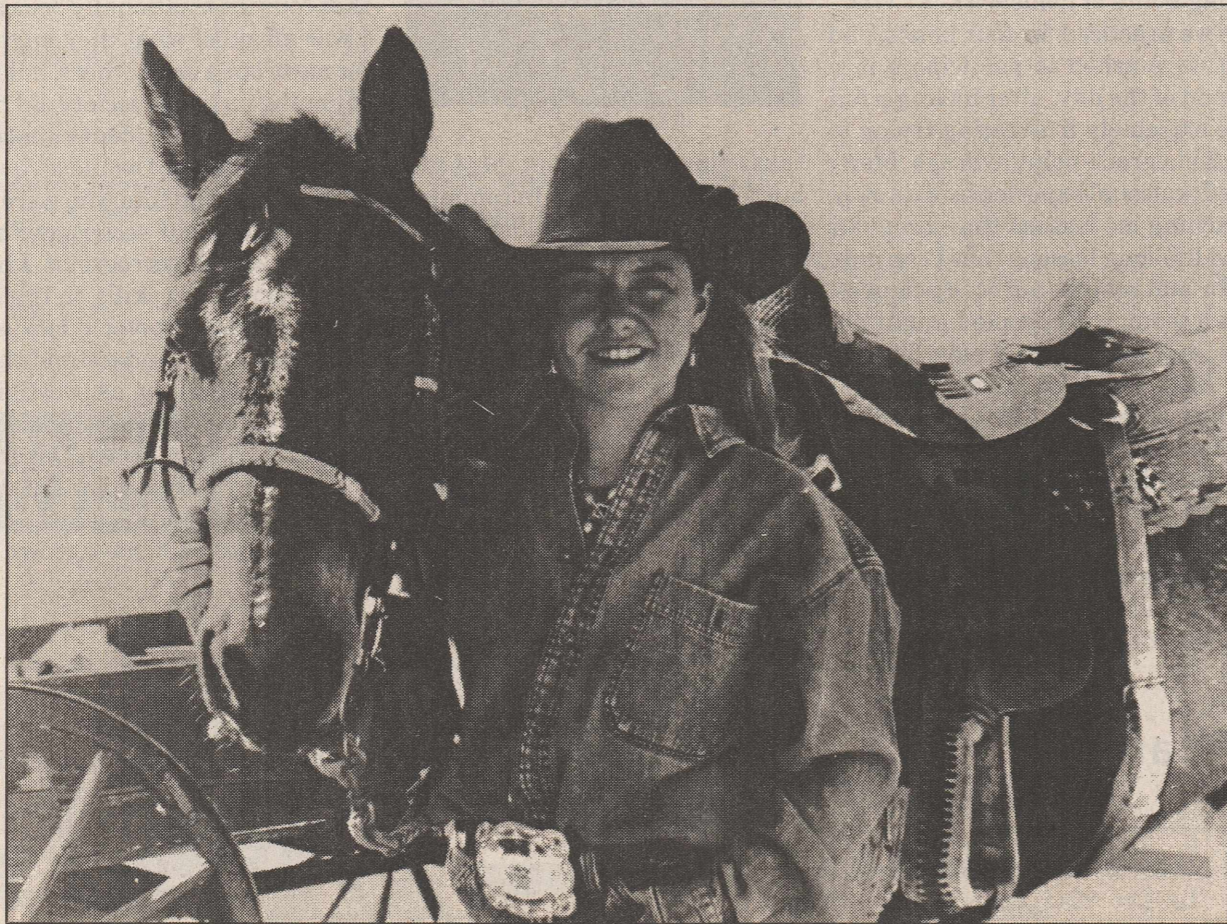

Tickets are \$4 for adults and \$2 for students. WTC students will be admitted free with their college I.D.

The 1998 Rodeo Queen is Shelley York, a freshman member of this year's WTC Rodeo Team.

She will be crowned Thursday night during the opening ceremonies.

Everyone is invited to dance to Black Water at the traditional rodeo dance Friday and Saturday night at 9 p.m.

The dance is sponsored by the Scurry County Rodeo Association and will be held in the Scurry County Rodeo Association Arena

WTC Rodeo Queen

The 1998 Rodeo Queen is Shelley York, who will be crowned Thursday night during the opening ceremonies at WTC's annual rodeo. The WTC freshman is the daughter of Larry and Keta York and a member of the WTC Rodeo Team, competing in breakaway roping and team roping. (Texan photo by Sagit Shlezinger)

which is located on Gary Brewer Rd.

Stock for the 1998 rodeo will be provided by contractor Harry Vold of Avondale, Colo.

The announcer for the event will be Tom Blanton of Geronimo,

Okl.

This year's bullfighters are Gerry Byrn of Woodway and Jayson W. Hawkins of Malaga, N.M.

Judges for the rodeo will include Ronnie Ray of Stephenville

and Mike Todd of Round Rock.

Sunday, beginning at 1:30 p.m., former WTC Rodeo Team members will compete in the annual exes rodeo.

It will also be held at the Scurry County Coliseum.

Psi Zeta takes top honors at regional PTK convention

WTC's Psi Zeta was singled out as a "Texas Top Chapter" this past weekend—making it one of 18 from throughout the 80 Phi Theta Kappa chapters in the state so honored.

In addition, for the third straight year the chapter won the right to name a representative to the five-person student board which coordinates and plans all activities of the Texas Phi Theta Kappa Region for the coming year.

Psi Zeta will soon be naming from its membership a student to serve as vice president for District 1, a post held this past year by Psi Zeta's Charlie Sweatt of Hermleigh.

The regional executive board is comprised of four vice-presidents, each serving their respective district, and a board presi-

dent. District 1 ranges from Amarillo to the north to El Paso to the west and includes such colleges as South Plains in Levelland, Midland College and Odessa College.

Sweatt was singled out also for induction into the Phi Theta Kappa Texas Hall of Honor. Only 21 students from the entire state received this recognition.

In other chapter honors, Stacey Parker of Snyder received an "award of excellence" in the Hallmark Awards essay contest for her submission on scholarship.

Phi Theta Kappa projects revolve around four "hallmarks": scholarship, leadership, service and fellowship. The student essay detailed projects conducted by the chapter during the year in See **PTK**, page 5

Early voting begins April 15 in board of trustees election

Contested race for place 4

The filing period for two positions on the WTC board of trustees has ended minus any new candidates and early voting is set to begin April 15.

The election will feature one contested race for Place 4, now held by Jay Kidd, board president, who is challenged by James C. Hanks. Both men announced their intent during the first week of the filing period.

Kidd is a Snyder dentist completing his first six-year term on the board; and Hanks is a local chiropractor who has worked closely with the WTC Rodeo Team during the past several years.

The other seat expiring on the board is Place 3 now held by Carolyn Barbee, who will be uncontested for reelection.

Early voting will end April 28. Ballots may be cast in the WTC Administration Building.

The board election will be held May 2, a Saturday, at various sites in Scurry County.

Elections to the WTC board are held every other year with each of the seven trustees on the board serving six-year terms.

Graduating seniors facing important TASP rule change

By April Martin
Texan Staffer

As of September 1998, high school seniors will be required to at least take the Texas Academic Skills Program (TASP) test before entering college.

Changes to TASP have been prompted by Senate Bill 148.

According to WTC counselor Carolyn Osborn, this is a significant change from the previous year when students could take up to nine college credit hours before taking the TASP test.

Another important aspect of the new rule is that high school students that want to take concurrent college classes while still in high school must also first take the TASP test.

The rule does not require students to pass the test before entering college, only that they take it.

To pass the TASP test, students must pass all three sections (reading, mathematics, writing). The student may take one, two, or three sections at a given time and may re-take the test as many times as needed.

Once the student passes a section of the test, he or she does not have to take that section again.

Students failing one or more sections may register again and take only the sections of the test not already passed.

Students who fail the TASP test and then complete developmental education to the satisfaction of the college or who earn a "B" or better in a freshman-level credit course in that area approved by the college will have fulfilled the state requirement.

High school students who pass one or more areas of the TASP Test will be allowed to take college-level work in those areas.

Under the new TASP law, exemption qualifications have been lowered also. A student may be exempt from TASP based upon the scores on either the ACT, SAT or TAAS exams. These exemptions are:

—an ACT composite score of 23 or higher with a minimum of 19 on both the English and mathematics tests.

—an SAT combined verbal and mathematics score of 1070 or higher with a minimum of 500 on both the verbal and the mathematics tests.

—for TAAS, a minimum scale See **TASP**, page 5

Spring Fling slated April 8

The Spring Fling sponsored by the WTC Student Government Association (SGA) will be held on Wednesday, April 8. The games will begin at 3 p.m. and will continue until dark, when a movie on a big screen will be shown outside.

A meal will also be served outside. The games include a sand volleyball tournament, a Twister tournament and a horse-shoe tournament.

The volleyball tournament is 4 on 4 play with at least one girl per team. The points will be done by rally until a score of 15 is reached.

Wildflower exhibit opens

Wildflowers are the subject of various art works created by Scurry County school students and scheduled to be on display in the Scurry County Museum beginning this week through the first week in May.

The exhibit will open Thursday. In addition, the wild flower walking tours of the WTC Prairie will begin April 7.

Students enrolled in Dr. David Kattes classes will conduct the tours.

As in years past, the various specimens of wild flowers will be marked and periodically updated with white flags. A map noting the flower's locations will be available at the Scurry County Museum.

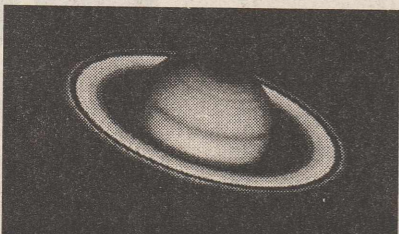

Tours can be scheduled or individuals may complete it on their own.

Planetarium presents 'Through the Eyes of Hubble'

WTC students and the general public can view the latest planetarium show, "Through the Eyes of Hubble," each Sunday through the end of April beginning at 2 p.m. in the WTC Planetarium.

Special showings of "Through the Eyes of Hubble" for school classes are also planned for any Friday in April at 10 a.m. or 2 p.m. Reservations are to be made through the Science Department secretary at WTC, ext. 312.

There is no admission charge and all interested persons are invited. The new show officially opened last Thursday.

The program marks the second WTC planetarium show since the facility was resurrected last fall.

"Through the Eyes of Hubble" features the story of the 1993 repair mission of the space telescope and highlights magnificent images of deep space taken by the Hubble.

Hubble has the ability to see objects that emitted light more than 10 billion years ago.

In April 1990, the Hubble Space Telescope was put in orbit around the earth with a 94 inch mirror ground to unparalleled smoothness.

Unfortunately, scientists quickly discovered the mirror had been ground to the wrong pattern. To repair the telescope, a space shuttle was sent in December of 1993 to fix the telescope's mirror.

That mission was a resounding success and the Hubble was able to finally see as originally

intended.

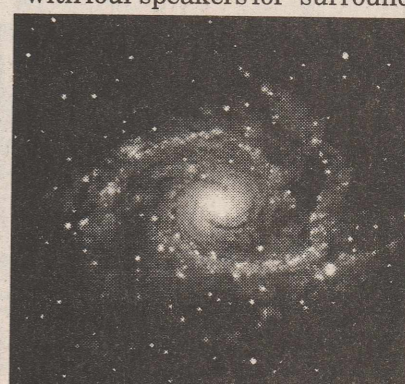

Rollin Swanson, adjunct professor for science at WTC, took on the planetarium's revival as a personal project which ended successfully last December with the first program.

The 10-meter-dome planetarium which seats some 60 persons was part of the original campus construction. Loss of personnel and the high cost of maintenance saw the facility fall into disuse, however, and it was converted into a video room around 1989.

Swanson's re-design of the facility blends four standard

slide projectors, a VCR and a laser disc player coupled with a computer.

Central to the plan also is a cassette stereo sound system with four speakers for "surround

sound" in the planetarium.

The images on the computer screen—which can include what Swanson calls "special effects"—are then projected onto the dome with a special computer projector.

The VCR is wired through the computer monitor as is the laser disc player and the images from both are similarly shown on the dome.

Three slide projectors stationed around the dome's "skyline" then provide images of the various planets and constellations. A fourth projector is used for titles.

All-State Academic nominees reflect on education

'A Lifetime of Lessons' 'A Life Lesson'

By Jennifer Shuttlesworth

When considering my most outstanding educational experience while at Western Texas College, many options ran through my mind. But, it was not until late one night when the obvious answer occurred to me. I was trying to complete a paper for my Literature class at 2 a.m., knowing that I should have been asleep two hours before, as we had an important basketball game the next day against a nationally ranked opponent. By far, my most outstanding educational experience while in college has been learning how to balance my educational and athletic lives, and realizing how much participating in collegiate athletics is helping me to prepare for the "real world."

Many arguments are begun over the treatment of college athletes. Regardless of your personal stance regarding that issue, it is irrefutable that balancing the load of training for your sport and trying to keep up with your class work is a substantial duty. Athletes often miss class when on the road, and they come in exhausted after practice, still facing hours of homework. At Western Texas, we have had days that we practiced for four hours, had treatment for another hour, and were asked to participate in a community service project at the end of the day, after having a full morning of classes. It can become extremely frustrating trying to work in enough time to study, with the hope of maintaining a respectable grade point average. Many sacrifices have to be made in order to survive both worlds, which is an educational experience of its own.

Even with all of its drawbacks, playing basketball in college is teaching me lessons that a regular student would never be able to garner in any classroom. I have learned life-long lessons that I can only thank my teammates and coaches for. First, I have learned to work for and respect authority figures, even when I disagree with them. Secondly, I have learned to work, as a team, with people I might not ordinarily get along with. I have learned to work through pain, fatigue, and frustration. I have learned time management and the importance of punctuality and presence. Also, I have been educated in a variety of ethnic backgrounds and learned not to be prejudiced against a person until I have really gotten to know them. I have discovered how to live with many types of people and how to get everyone to learn to love each other, at least a little bit. The importance of self-confidence and self-reliance are other lessons I have been taught. I have learned how to abide by stringent rules, and how to also impose those upon others, as a team captain. The most important lesson I have learned in these two short years, however, has been learning to live up to the responsibility I owe to my coaches, my teammates, my teachers, my parents, and most importantly, myself I feel blessed to have had the chance to be exposed to all of the outstanding educational experiences while at Western Texas College.

By Vanessa Early

Looking back on my educational experience thus far, I see what a huge impact attending a two-year college has made on my life. The knowledge I have acquired here at Western Texas College goes far beyond academics. I have come to realize that as an individual I am important and that I have something to contribute to society. I owe this recognition of my abilities to Phi Theta Kappa, by far one of the most extraordinary organizations I have been able to be part of.

Unfortunately, I must admit to my reluctance to join Phi Theta Kappa when I received the invitation. I came very close to missing out on what has literally been a life altering experience for me. I am grateful that I changed my mind before it was too late. In the past, I missed out on a lot of opportunities. All throughout school, I was ridiculed and talked about for being overweight. Although I did not let it affect my grades, I started keeping to myself holding everything inside. I overlooked such chances as participating in bands that tour internationally because I was afraid to be around people; I was afraid of what they might think of me. It is a difficult thing for me to open up to others, but it is now getting easier. The thought of joining an honor society did not appeal to me for the same reason running for the student council in high school did not. It was not that I did not care about these things. On the contrary, I would love to have been more involved in school, but felt I had nothing in common with the other students who were there. How could I enjoy being part of something if I felt alone? But once I thought about accepting Phi Theta Kappa's invitation, I knew that if I did not take that risk and join, I would always regret it. I have constantly pushed myself to do better, from improving my grades to sharpening my skills on the clarinet. I take pride in completing something and knowing I have done my best at whatever I decide to do.

I have worked hard to get where I am, and I now understand that if, as a result of my dedication, I am given the opportunity to be a member of something as prestigious as Phi Theta Kappa, I deserve that honor. Since joining, I have made many valuable friendships and I am starting to open up to people. With the constant care and guidance of my advisor, Carolyn Osborn, I now have confidence in myself. I even ran for vice president of our chapter and was elected. This position has enabled me to meet so many wonderful people and help others in the community, which I find very fulfilling. Phi Theta Kappa has educated me in so much more than academics and I have grown tremendously in the past year from being part of it.

Editor's Note: WTC sophomores Jennifer Shuttlesworth and Vanessa Early are the college's nominees to the Texas All-State Academic Team this year. The pair will be honored April 22 at a luncheon in Austin. Their selection was based in part on essays written concerning their most meaningful educational experience while at WTC and these are reprints of those essays.

DILBERT® by Scott Adams

WTC sneak-previews

By Gene Siskel

OUR FLICK OF THE WEEK is "Primary Colors," which is a shocking indictment of the private behavior of candidate William Jefferson Clinton during his first presidential primary campaign, as well as our national political agenda that has become more preoccupied with scandal than with social policy.

Indeed, it is significant in the Mike Nichols' film of Elaine May's treatment of Joe Klein's novel of that campaign that absolutely no political ideas are even debated. Some scare-tactic allegations are exchanged between the candidates and older voters about whom is more likely to cut Social Security payments, but that's it when it comes to our leaders and public policy.

We see the enemy in "Primary Colors," and, as Pogo said, "It's us" as much as any candidate with sleazy morals.

The bottom line for the cocktail party circuit: I think "Primary Colors" damages Mr. Clinton more than explains him. That's because it is stunning to hear four- and seven-letter words thrown at a character who becomes the commander-in-chief. This is not like the recent films "Nixon" and "JFK," in which those presidents were no longer alive.

John Travolta is quite credible as the film's version of Mr. Clinton; he nails the broad smile perfectly. Emma Thompson continues her streak of fine performances as his long-suffering wife, who is smart, opinionated and absolutely committed to gaining the big prize.

But two other characters stand out. The first is the idealistic African-American grandson of a legendary Civil Rights leader, who has to be talked into joining the campaign. His thoughts about the candidate, warts and all, are intended to mirror the general public's ambivalence. And Oscar-winner Kathy Bates ("Misery") could take home another in the supporting role of an old friend of the candidate who serves him as a self-described "dust-buster," who is paid to research and knock down any old or new allegations of sleaze thrown at him. If politics today is hardball, Bates' character is the equivalent of strike-out king Randy Johnson, the so-called "Big Unit."

"Primary Colors" is even more cynical about our political system than "Wag the Dog," and I suppose we can thank Mr. Clinton for triggering that. R. 3-1/2 stars.

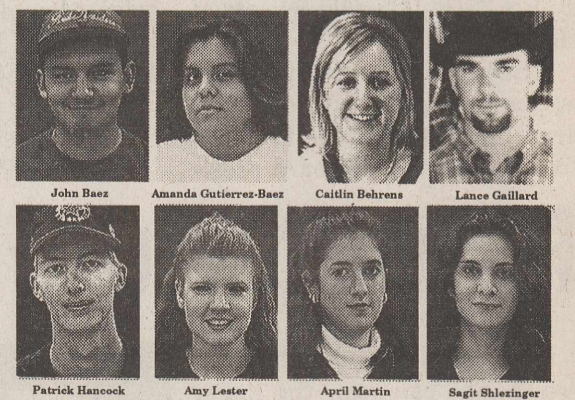

THE BIG LEBOWSKI. A major disappointment from " Fargo " writer-directors Joel and Ethan Coen. In a sendup of '70s and '90s culture, we follow the fortunes of two very different men named Lebowski: one a layabout surfer dude (Jeff Bridges) and the other a pompous rich man (David Huddleston). A case of mistaken identity puts them in conflict, as well as in a tired ransom plot. The film is being billed as a comedy with bowling scenes, but it doesn't hold a candle to 1996's bowling comedy, "Kingpin." As with their only other failure, "The Hudsucker Proxy" (1994), the Coens are undone by a film featuring art direction and a story involving the wealthy. R. 2 stars.

THE MAN IN THE IRON MASK. Yet another remake of the Alexander Dumas story about replacing King Louis XIV with his imprisoned twin brother. But if the producers of the film had been more savvy in their marketing, they would have named it "Leonardo DiCaprio's New Film." Alas, even the nation's heartthrob, a fine actor, does not save a film that has too much swash-buckling and not enough character development. In 1939, director James Whale directed a rousing version of the Dumas novel about duplicity at the royal level and the heroic efforts of the Musketeers (in the new version Jeremy Irons, John Malkovich, Gerard Depardieu and Gabriel Byrne) to do right by people of France. DiCaprio acts as well as one can in a dual role that literally envelops him in costumes. But the swordplay here seems generic in a film that too often seems all frosting and no cake. PG-13. 2-1/2 stars.

Psi Zeta named PTK 'Top Texas Chapter'

Continued from page 1

the "hallmark" scholarship. The "award of excellence" indicated she was among the top six students in this essay category.

In addition, Psi Zeta was once again named to Five-Star status. Out of the some 80 active chapters in the Texas Region, approximately 40 earned Five-Star status this year.

Psi Zeta has achieved Five-Star status every year since it was chartered in 1972.

Two advisers for Phi Theta were recognized also. Donny Brown, who serves as the adviser/coordinator for District 1, received a Regional Coordinator's Award for Outstanding Service.

In addition, Carolyn Osborn was one of 11 advisers from throughout the state receiving an "Horizon Award." It recognizes the individual's work for the past year.

All the honors were presented Saturday, March 7, at the awards banquet which concluded the Regional Convention for Phi Theta Kappa.

Twelve chapter members attended the event, held this year

6 students attend TIPA convention

Five WTC Mass Communications students were to attend the 1998 Spring Convention for the Texas Intercollegiate Press Association (TIPA) this past weekend.

The event was held at Texas A&M at College Station. Students attending were Patrick Hancock of Aspermont, Amy Lester of McCamey, April Martin of Rotan, Sagit Shlezinger of Snyder and Charlie Sweatt of Hermligh. Among the scheduled events was a tour of the George Bush Presidential Library and Museum at A&M.

The convention Friday consisted of various workshops led by noted media leaders in the field of mass communications. An awards banquet Saturday traditionally ends the event.

The student group was accompanied by WTC newspaper adviser Donny Brown.

PTK group to attend convention

Members of WTC's Psi Zeta Chapter will be traveling to Nashville Wednesday for the International Convention of Phi Theta Kappa.

Chapter sponsor Carolyn Osborn will accompany the group. Students planning to attend are Ron Baker, Vanessa Early, Mark Miles, Stacey Parker, Lacey Parker and Dena Williams.

WTC sponsors meats judging competition

An estimated 100 high school students from 20 areas schools will be on the WTC campus Tuesday for the third annual meats judging competition sponsored by the WTC Meats Judging Team.

Members of the college team will serve as judges. The competition will be held in Building 15A.

Faculty sponsor for the WTC team is Jim Judah.

Distance learning classes on schedule

Continued From Page One

Telecommunications Infrastructure Fund (TIF) grant is expected to finance additional equipment allowing the campus to send out classes originating here.

Initial funding for the project has come from the Scurry County Board of County Development (BCD), which has put in \$35,000.

The TIF Grant is expected to equal \$65,000 to pay for the remaining part.

WTC is a member of SCATE (Southwest Center for Advanced Technological Education) along with Stamford ISD, the University of Houston, Texas State Technical College (TSTC), Vernon Regional Junior College (VRJC), South Plains College and various other junior colleges and four year schools in New Mexico.

In addition, the college is affiliated with VCT (Virtual College of Texas). Through VCT, the campus is able to receive information from other community colleges in Texas.

"The distance learning program will give us the ability to send courses to public schools, to send and receive other courses from other junior colleges and then to receive courses from four year colleges and graduate schools," Canada said.

In a distance learning class, the college instructor is in a classroom most likely a far distance from the majority of his or her students. These "distant" students see the teaching and the teacher via a 37-inch television monitor.

The instructor is not on tape, however. The instruction is live or, as they say in distance learning, "real time". And like a real classroom, the technology allows the students to directly address their instructor instantly-to interact.

Meats team competes in Houston

The WTC meats judging team finished 2nd in Lamb Judging and 5th in Beef Grading at the Houston Intercollegiate Contest held in conjunction with the Houston Livestock Show in mid-March.

In addition, four team members placed among the Top 10 individually in their respective competitions.

The contest included 14 teams and 82 contestants. From WTC, Randy Dudley of Merkel was 3rd overall in Lamb Judging and 8th in Total Beef Judging.

Also, Cody Cribbs of Snyder was 7th in Beef Grading and Tanner Means of Abilene was 8th in Lamb Judging.

Also competing for WTC was Recia Allison of Maryneal.

Faculty sponsor for the team is Jim Judah.

TASP changes affect seniors

Continued From Page One

score of 1770 or higher on the writing tests and a Texas Learning Index (TLI) of 86 or higher on the mathematics test and 89 or higher on the reading tests.

Also, a student who is not a U.S. citizen seeking a degree is exempt from the state-mandated test.

The TASP test was begun in the spring of 1987 by the state legislature. Its purpose is to provide information about the student's skill levels in reading, mathematics and writing and to provide appropriate developmental classes for students falling below passing levels.

For more information, see the WTC counselors or call 573-8511, ext. 313.

Wells and Odhuong'O are named All Conference honorable mention

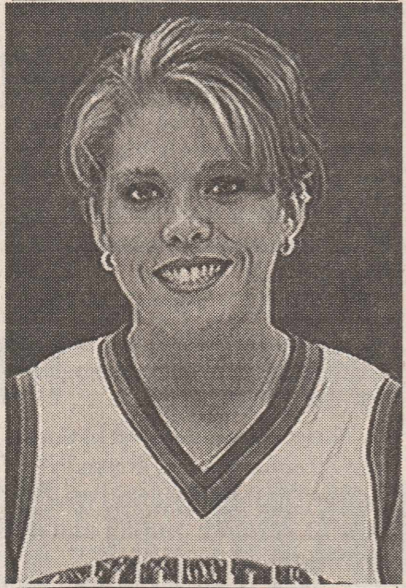

By Patrick Hancock
Texan Staffer

Two Lady Westerners received honorable mention to the All Conference team for the Western Junior College Athletic Conference this year, Christy Wells and Pamela Odhuong'O.

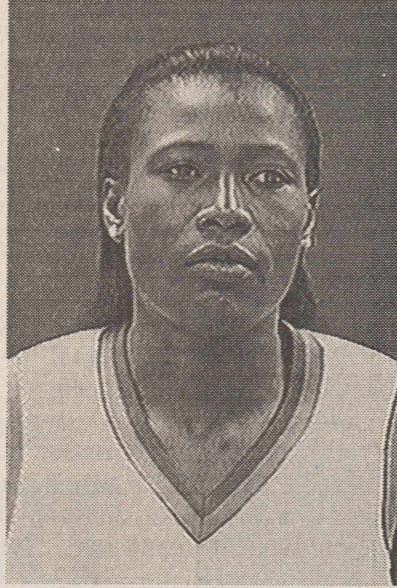

Christy, a freshman from Lubbock, averaged 13.6 points a game and just over 4 rebounds a game. She was 7th in scoring and steals and was 6th in assists.

Pamela is a freshman from Nairobi, Kenya. She averaged just over 11 points a game and hauled down an average of 9.7 rebounds per game. She was 1st in rebounding and 19th in scoring.

The Region V tournament was played during the break with Howard College ultimately ad-

Christy Wells

Pamela Odhuong'O

vancing. The final game of the tournament was between two conference foes, Howard and Midland College.

The Lady Hawks of Howard beat Midland 61-53 to advance to the national tournament in Kansas.

Rodeo team opens spring season at New Mexico Junior College rodeo

By Lance Gaillard
Texan Staffer

The WTC rodeo team started the spring rodeo season March 19-21 with the New Mexico Junior College rodeo held at Lovington, N.M.

The women's started solid, placing 2nd over all with 155 points and being beaten only by Eastern New Mexico University, which finished with 195 total points.

The mens' team finished a disappointing 6th, accumulating only 105 points.

In the bareback riding, Chad Maynard of Eastland placed 3rd in the average after splitting 3/4th in the first round with a score of 69 and placing 3rd in the short round with a score of 69

points. In the calf roping, Eric Greer of Carlsbad, N.M. placed 3rd in the average after placing 3rd in the first round with a time of 11.5 and 3rd in the short round with a time of 12.5 sec.

In the goat tying, Tona Wright of Moriarty, N.M. split 1/2nd in the first with a time of 9.3 sec.

In the steer wrestling, Luke Richards of Queens, Australia split 2/3/4th in the average after

winning the short round with a time of 4.5 sec.

In the barrel racing, Talina Bird of Post won the average after winning the first round with a time of 17.51 sec and winning the short round with a time of 17.56 sec.

In the bull riding, Jay Ross Bryant of Comanche placed 3rd in the average after placing 2nd in the short round with a score of 69 points.

Two issues of Texan remain for spring term

FOR THE EDUCATION AND RESEARCH COMMUNITY

★★★★★

-Morningstar ratings for the CREF Stock Account, CREF Global Equities Account, CREF Equity Index Account, and CREF Growth Account*

AAA

-S&P and Moody's rating for TIAA**

#1

-The 1997 DALBAR Defined Contribution Excellence Ratings ***

"Your service bowled me over."

-William Ravdin, TIAA CREF Participant

TOP RATINGS FROM MORNINGSTAR, MOODY'S, S&P, DALBAR, AND BILL.

We take a lot of pride in gaining high marks from the major rating services. But the fact is, we're equally proud of the ratings we get every day from our participants. Because at TIAA-CREF, ensuring the financial futures of the education and research community is something that goes beyond stars and numbers.

We became the world's largest retirement organization* by offering people a wide range of sound investments, a commitment

to superior service, and operating expenses that are among the lowest in the insurance and mutual fund industries.****

With TIAA-CREF, you'll get the right choices — and the dedication — to help you achieve a lifetime of financial goals. The rating services back us up. So does Bill.

Find out how TIAA-CREF can help you build a comfortable, financially secure tomorrow. Visit our Web site at www.tiaa-cref.org or call us at 1 800 842-2776.

Ensuring the future for those who shape it.™

*Source: Morningstar, Inc., December 31, 1997. Morningstar is an independent service that rates mutual funds and variable annuities. The top 10% of funds in an investment category receive five stars and the next 22.5% receive four stars. Morningstar proprietary ratings reflect historical risk adjusted performance, and are subject to change every month. They are calculated from the account's three-, five-, and ten-year average annual returns in excess of 90-day Treasury bill returns with appropriate fee adjustments, and a risk factor that reflects performance below 90-day T-bill returns. The overall star ratings referred to above are Morningstar's published ratings, which are weighted averages of its three-, five-, and ten-year ratings for periods ending December 31, 1997. The separate (unpublished) ratings for each of the periods are:

Period	CREF Stock Account	CREF Global Equities Account	CREF Equity Index Account	CREF Growth Account	CREF Bond Market Account	CREF Social Choice Account
3-Year	4/1,820	4/379	5/1,820	5/1,820	4/677	4/1,820
5-Year	4/1,199	5/205	N/A	N/A	4/445	4/1,199
10-Year	5/604	N/A	N/A	N/A	N/A	N/A

These top ratings are based on TIAA's exceptional financial strength, claims-paying ability and overall operating performance. These ratings do not apply to CREF or the TIAA Real Estate Account. *Source: DALBAR, Inc., 1997. ****Standard & Poor's Insurance Rating Analysis, 1997. Lipper Analytical Services, Inc., Lipper Director's Analytical Data, 1997 (Quarterly). CREF certificates and interests in the TIAA Real Estate Account are distributed by TIAA-CREF Individual and Institutional Services. For more complete information, including charges and expenses, call 1 800 842-2733, extension 5509, for the CREF and TIAA Real Estate Account prospectuses.
