## Parties end, work begins for new president

WASHINGTON (AP) — The parties over and his own team in the White House, President Reagan is tackling the economy in earnest, with his aides promising to deliver a "unique and different" recovery plan in three or four weeks.

The president arranged a series of meetings today with his economic policy group and congressmen who chair economic-related House committees.

Budget Director-designate David Stockman said, meanwhile, Reagan is working on a "sweeping, comprehensive, bold, far-reaching economic plan," including tax and budget cuts.

"Our program will be one designed to jolt the economy," he said Wednesday. "It will be a full-throttle, four-year plan in which there will be no equivocation."

Just as Reagan has telephoned several foreign leaders Wednesday to establish friendly relations from the outset, aides said today's meetings with congressmen were designed for informal consultation.

Easing into his White House routine, Reagan performed a mixture of ceremonial and official duties Wednesday that ranged from cleaning house of

most Carter administration holdovers to throwing his first White House party.

His aides, too, began unpacking in their new quarters after taking a oath of office administered by Chief Justice Warren Burger. The White House switchboard, trying to adapt to a new list of names and phone numbers, was jammed all day.

After four days of inaugural celebrations, the new president's first full day on the job began with a live rendition of "Ruffles and Flourishes" and "Hail to the Chief" by the Marine Band as Reagan entered the East Room for his staff's swearing-in.

"I want you to know that I don't expect every morning to be greeted by the Marine Band," Reagan joked. Then he turned serious, telling them their loyalty now is "only to this nation and the people we represent" and banning any discussion of political considerations in making decisions.

Nine hours later, the official day ended with a star-studded party, a thank-you reception for Reagan's inaugural committee. The guests included Jimmy Stewart, Frank Sinatra, Johnny Carson, Ed McMahon,

Audrey Meadows and Charlton Heston.

The Reagans' well-publicized intention to return hard liquor to White House functions did not materialize. California champagne was the only drink provided.

Between those two ceremonial events, Reagan held his first Cabinet meeting at a long oval table that bore a Waterford crystal jar full of jelly beans. The talk was mostly of the economy, press secretary James Brady said.

Reagan signed a memorandum requesting the resignations of 1,845 Carter administration appointees, 200 of which are to be accepted in the next few days.

The memo wished the departing employees well with assurances that "this step in no way reflects upon them personally." He also fired 15 department watchdogs whose jobs were to investigate waste and fraud and promised to replace them with his own team, which Brady said will be "meaner than junkyard dogs."

There were an additional 1,500 political appointees whose resignations were requested by their department heads but were not specifically mentioned in the memo, deputy press secretary Larry Speakes said.

## Americans report brutality at hands of Iranian captors

WIESBADEN, West Germany (AP) — The freed American hostages gave new reports today of brutal treatment by their Iranian captors — beatings, mock executions, grim games of Russian roulette, death threats — and former President Carter accused Iran of "savagery against absolutely innocent hostages."

At the military hospital where the 50 men and two women are recovering from their 14½-month ordeal, a State Department official said, "it is clear we are continuing to uncover evidence of serious mistreatment of our people during their captivity."

A member of the medical team examining the Americans told The Associated Press some of the physical abuse "was not unlike that which some of our boys got from the North Vietnamese."

A group of the former hostages emerged from the hospital today and walked across the street for a dental examination. They wore blue pajamas or Air Force parkas and many waved to well-wishers at the hospital gate.

Following an emotional meeting with the former hostages Wednesday that left him visibly shaken, Carter said the Iranians were guilty of "depicable acts of barbarism." On his return to Plains, Ga. today, Carter said that even as the hostages boarded a freedom flight to leave Iran they were forced, "one by one," to run a gauntlet of jeers and kicks.

He said "these are the acts of animals, almost."

But Carter said the "solemn agreement" that won the hostages' release should be kept because it involves the word of honor of the United States. The Reagan administration has said it will examine the agreement "very closely" before deciding whether to carry it out.

State Department spokesman Jack Cannon said in Wiesbaden that mistreatment included poor food, solitary confinement and being blindfolded. "On a number of occasions a number of persons were threatened with loaded revolvers," he said.

"On a number of occasions some were threatened with death. Some were ordered to strip and lie on the floor and were threatened with

death," Cannon said.

Barry Rosen of Brooklyn, N.Y., chatting with reporters on the way to a dental examination, said the former hostages had "many stories to tell" and that the agreement with Iran should be reviewed.

Rosen was not specific about his treatment as a captive, but said, "I just feel that Iran is an outlaw country and it does deserve tremendous criticism from the world."

At a press briefing near the hospital, Cannon said he had no reports of specific injuries suffered by the hostages and in reply to a question added, "we have no reports so far of sexual abuse." He said some hostages were deprived of sleep, "some were

forced to stand in the cold weather outside at night and some were manacled to chairs for 14 or 15 days."

Cannon said the Americans were expected to return home toward the end of the week and that they "feel it is very necessary that they have this period of private rest and recuperation."

Malcolm Kalp, an economic adviser accused of being a CIA agent by his captors, told his family in a telephone call he was beaten and spent 374 days in solitary confinement because he repeatedly tried to escape.

Michael J. Metrinko, a political officer from Olyphant, Pa., said he was held in solitary for 8½ months, and Moorhead C. Kennedy Jr., the economic counselor from Washington, D.C., said he and others were lined up in their underwear, guns to their heads, for a mock execution.

Marine Sgt. Johnny McKeel told his parents in Balch Springs, Texas, that an Iranian guard knocked out his tooth and an interrogator said his mother had died. He said he was told if he wanted to go to the funeral he had to give the Iranians information, but that all he gave was name, rank and serial number.

Richard Queen, a consul freed in July because he was suffering from multiple sclerosis, said he and others were held nearly five months in a windowless warehouse basement.

Israeli Prime Minister Menachem Begin sits alone Tuesday as he listens to debate over legislation recently presented to Israel's par-

liament — much as he stands alone against the measure. The proposed legislation would dissolve the house and set elections July 7, four

months ahead of schedule. See related story, Page 2A. (AP Laserphoto)

## Officials seek Loop extension

By ED TODD  
Staff Writer

Midland County commissioners, the county judge and representatives of the Greenwood Independent School District were to argue today in Austin for a Loop 250 North extension that would give Greenwood residents ready access to Interstate 20.

The Midland-Greenwood delegation was to appear before the Texas State Highway and Public Transportation Commission to propose the 1.3-mile paved extension.

The proposed extension would link Farm Road 307 (Cloverdale Road) to the interstate by way of the now caliche-covered strip of County Road 1130. The north-south CR 1130 is five miles west of the Greenwood School.

More than the convenience, the Loop extension would allow the school system's three buses to bypass the railroad tracks and U.S. Highway 80, which each bus now crosses four times daily. The proposed access also would provide emergency vehicles with a quick route to Greenwood, which is about 10 miles east of Midland.

"It might be a little farther to travel later on," said Greenwood ISD Superintendent James Warlick, "but it might be safer."

Warlick said his principal concerns in getting the Loop extension are the safety of the school children and the ready access by fire, sheriff, constab-

le, ambulance and other emergency services to the community.

"Plus," said Warlick, "with our growth as it is, it would be nice to have ready access to the city of Midland."

The Greenwood community is expanding and seemingly is transforming from a rural to an urbanized atmosphere due to the influx of Midland families moving into the Greenwood School District. The school has an enrollment in excess of 600 students from kindergarten to the 12th grade.

Expected to appear before the commissioners were County Judge Bill Ahders; Commissioners Durward Wright, Charlie Welch, C. DeWayne Davis and Win Brown; Greenwood ISD trustee John Underwood; Fred Tyler, executive vice president of the Midland Chamber of Commerce, and Warlick.

If the state commission agrees to extend the loop, then the Midland County commissioners would acquire the right-of-way land needed for the road.

CR 1130 runs north-south from about Golladay Road northward, across FM 307, beyond the interstate and U.S. 80, and then become Wallace Road until it ends at its junction with CR 60. In its westward route, CR 60 runs into the Lamesa Highway (Texas 349). At the intersection is FM 868.

The expanded and newly constructed FM 868 will form part of the link making up the proposed Loop 250, which will provide a northern route from Midland to Odessa.

## Midland Community Theatre's fund-raising effort successful

By GEORGIA TEMPLE  
Staff Writer

"We made it."

A happy William C. Morrow, president of Midland Community Theatre, announced Wednesday that the theater has successfully raised more than \$300,000 in its drive to secure the matching gift of \$250,000. The total collected figure to date is \$570,000.

An anonymous donor had pledged \$250,000 if the theater could raise \$300,000 in a month's time. Through the efforts of such people as Rosiland Glenn, Janice Thomas, Jim

of a variety of setbacks. The Moody Foundation was running out of time to hold on to the money. In late December of 1976, ground was finally broken to the great relief of the Moody Foundation which wanted to be rid of the money before the beginning of another fiscal year.

By April, Cole said, "the pledges added up to a fair amount of money."

The building fund was begun under the leadership of the late C.J. Kelly. It was later chaired by James N. Allison Jr., until his death in 1978. By this time, more than \$1.8 million had been raised. The amount was still short \$700,000, which the theater borrowed.

That debt of \$262,000 has been retired.

"We are completely out of debt and have money in the bank and a balanced operating budget," Morrow said.

"It's always been tough to keep up with inflation, but the budget was already balanced for the fiscal year of 1981," Morrow said, explaining that the money raised went to "clean up the building fund," pay off the "slight operating deficit from previous years and the balance to the theater's endowment fund."

Not all of the money collected came from Midland Community Theatre members. Once again, the people of Midland have shown their support of MCT.

The desire for local theater productions is just as alive in Midland in 1981 as it was in 1930 when the Fine Arts Club was formed. Its first play, "The Valiant," received an enthusiastic response, just as Art Cole and his wife, Ruth, were greeted with a warm response when they came to Midland in 1946 to begin the Midland Community Theatre of today.

Theatre Midland stands as a proud reminder of what one man's vision combined with tremendous local support, both timewise and moneymwise, can achieve.

And it's paid for.

Midland Community Theatre is 'completely out of debt and have money in the bank and a balanced operating budget,' a spokesman said.

'It's always been tough to keep up with inflation, but the budget was already balanced for the fiscal year of 1981.'

Salners, Art and Ruth Cole, Charlie Henderson, Tom Fowler and Bill Pennebaker, what seemed impossible to many was accomplished.

MCT's present facility at 2000 W. Wadley Ave. was started with a donation from the Moody Foundation, Art Cole, former director of the theatre, noted Wednesday.

Originally, the grant was intended to be used to pay for the roof, but the land hadn't even been broken because

## Midkiff Road repaired; Battle still 'at draw'

By ED TODD  
Staff Writer

A dip in Midkiff Road washed out by waters of Monahans Draw Wednesday was fitted with four tinhorn culverts to allow passage of the draw's waters and topped with dirt and caliche to prepare for re-newed paving.

The washout was caused by the new rush of waters, partly fed by Odessa's dumping of effluent from its over-taxed sewage treatment plant, from the heavy (officially, 9.70 inches) September rains and, by some accounts, the rising water table.

"Conservatively speaking," County Commissioner C. DeWayne Davis said Wednesday as he viewed the repair work, "this looks it's going to cost us \$4,000." Fresh hard-topping will up the cost.

But, noted Davis, "evidently" Midland County is going to send Odessa the bill via an impending law suit alleging damages.

"We shouldn't have to take these damages out of our tax dollars," he said.

Davis said that County Road and Bridge Superintendent Albert Stewart and his crew took the initia-

tive to repair the washout and to install the metal culverts in an "emergency situation."

"The emergency is here and on the east side of town," he said in referring to the road washouts caused by the overflowing of Midland Draw.

Monahans Draw, which starts west of Odessa, runs through that city, past Odessa's sewage treatment plant and

Related Photos  
on Page 2A

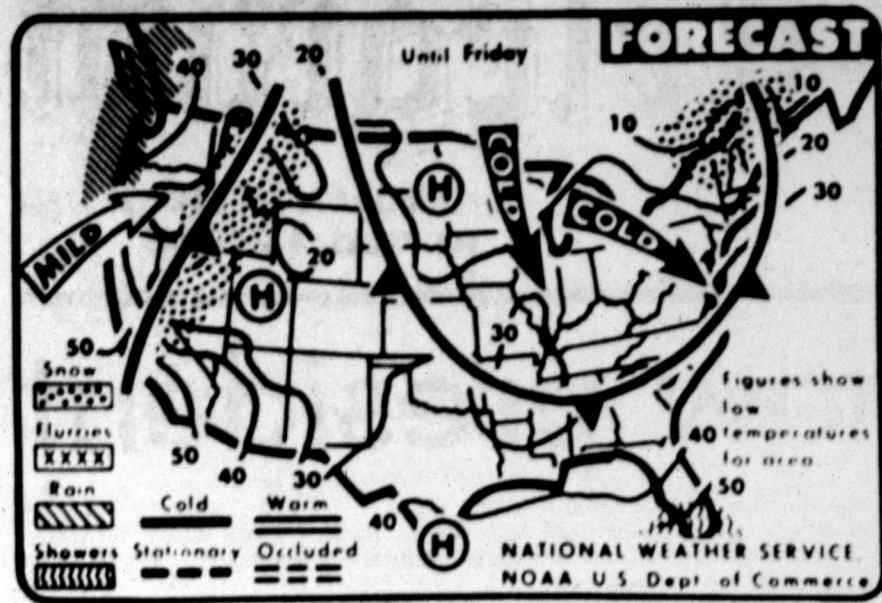

a petro-chemical complex and runs into Midkiff Road about five miles south of Interstate 20 just southwest of Midland.

Midland Draw, which starts out as Scharbauer Draw northwest of Midland, meanders through Midland, flows alongside Midland's sewage treatment plant and near the sanitary landfill and merges with Monahans Draw in the far eastern part of the county.

Midland County residents along both drainage canals have complained of flooding and of the contamination of the waters and of those waters polluting water wells.

WEATHER SUMMARY

Cold weather is expected in the forecast period, today until Friday morning, from the northern Plains to the upper Mississippi Valley and into the mid-Atlantic and Northeast.

Midland statistics

Table with weather statistics for Midland, including readings, precipitation, and local temperatures.

Texas temperatures

Table listing temperatures for various Texas cities such as Abilene, Amarillo, and El Paso.

Clear, cold days expected in area

Skies should be sunny through Friday with highs expected in the mid-60s, according to the National Weather Service at Midland Regional Airport.

Extended forecasts

West Texas: Dry with warm afternoons. Warmer nights Sunday and Monday. Highs mostly in the 60s except low 70s Big Bend. Lows in the 30s Saturday and mostly 30s Sunday and Monday.

Montgomerys moving to Atlanta

FAIRVIEW, Texas (AP) — Candace Montgomery is moving. Husband Pat watched his wife become increasingly upset as reporters gathered in the front yard of their suburban home.

Scheme devised to finance fast building of Jewish settlements

TEL AVIV, Israel (AP) — Prime Minister Menachem Begin's government has devised a scheme to finance accelerated construction of Jewish settlements in the occupied West Bank of the Jordan River before this summer's election, Israel Radio reported today.

Trucker reports equipment stolen

An out-of-town truck driver told sheriff's deputies various pieces of equipment valued at \$2,100 were stolen from his rig sometime Sunday or Monday while it was parked at the Warfield Truck Terminal on I-20.

U.S., Iran deal being reviewed 'very closely'

WASHINGTON (AP) — The Reagan administration says it expects to live up to the deal with Iran that gained freedom for the 52 American hostages but is reviewing it "very closely" before implementing the final terms.

Officials of the former Carter administration said the United States could not breach the agreement without disregarding international principles. And Jimmy Carter himself, returning today from visiting the ex-hostages in West Germany, told reporters that the "solemn agreement" should be kept because the country's word of honor is at stake.

Alexander M. Haig, talking to reporters Wednesday at the White House shortly after the Senate confirmed his nomination as Reagan's secretary of state, said he "would certainly anticipate" the new administration would live up to the Carter agreement.

Watt near final vote; Haig gets OK

WASHINGTON (AP) — James G. Watt, President Reagan's nominee to become secretary of the interior, is heading toward a final vote in the Senate with environmentalist groups refusing to concede defeat in their effort to block his confirmation.

The committee, which held two days of hearings on the nomination, voted unanimously to recommend Watt's confirmation. Democrats said that while they might disagree with Watt, they could find no legitimate reason to deny Reagan the interior secretary of his choice.

Theft, burglary, vandalism highlight police activities

Theft, burglary and vandalism reports highlighted police activity during the past 24 hours. Clyde Turner of 2600 Country Club told officers someone broke a window at his residence and made off with miscellaneous items worth \$1,000.

Midland County road and bridge department crewmen, top, repair a washed-out dip in Midkiff Road southwest of Midland, as heavy machinery operator Guy Stewart walks along the repaired segment, which is to be paved.

# Governments clashing over water

SACRAMENTO, Calif. (AP) — The traditional struggle between federal and state governments over control of Western water returns to the U.S. Supreme Court today, with environmentalists — for a change — pulling for the federal side.

**THE CASE** involves control of two key water projects in California, and 16 states have joined California to challenge a 1979 federal appeals court ruling that an 1899 law requires the state to get federal permits for the projects from the Army Corps of Engineers.

The ruling, if upheld, would make the corps "a kind of super water agency" in the West, said California Deputy Attorney General Roderick Walston.

On the other side are environmental groups like the Sierra Club and Friends of the Earth who say such water projects promote uncontrolled growth and hurt the environment.

**THOSE GROUPS** want the federal government,

including the courts, to serve as a last line of defense against state decisions on water projects and water distribution, so crucial in the economy of the arid West.

The two California projects in limbo are an existing pumping plant, which the state wants to expand, on the Sacramento-San Joaquin Delta and the Peripheral Canal, a proposed 43-mile ditch around the delta that would greatly increase north-south water flow.

The delta, stretching east from the San Francisco and San Pablo bays to inland shipping channels leading to Sacramento and Clopton, is the hub of the State Water Project. The project pumps water from the delta to the main southbound aqueduct, and to water contractors south and east of San Francisco.

The Supreme Court is scheduled to hear oral arguments Wednesday, with a ruling expected later this year. State officials say they are worried about what conditions or allocation re-

quirements the Corps of Engineers might impose if the court upholds the permit requirements.

The corps "could determine that Los Angeles should get more water as against the Central Valley, or just the opposite," said Walston, the state's lawyer in the appeal. However, it is not clear that the corps would have that authority, or would choose to exercise it.

**THE POSSIBILITY** of federal control has prompted Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming to submit a written argument supporting California.

The Supreme Court addressed a similar issue in 1978, ruling that federal water projects could be made to comply with state law, if the law didn't conflict with the intent of Congress.

In the case prompting that suit, California — then backed by the en-

vironmentalists — has delayed filling a federally built reservoir behind the New Melones Dam on the Stanislaus River in the Sierra Nevada.

But alliances are reversed in the current suit, which involves state rather than federal water projects. "We would much rather keep the decision in the state rather than in Washington," said Clifford Schultz, lawyer for the Kern County Water Agency, one of several water suppliers entering the case on the state's side.

**SCHULTZ SAID** the 1899 Rivers and Harbors Act is "an old navigation statute that the Sierra Club is trying to turn into a federal environmental protection statute."

The scope of the 82-year-old law, which requires federal permits for projects that alter navigable waterways, has become the central issue of the current case.

The state claims the law applies only to projects that have a "substantial effect on navigation," Walston said. He acknowledged the pumping plant and the canal could affect delta navigation in the future by lowering water levels, but said the effect would be minimal.

Robert Thum, a San Francisco lawyer for the Sierra Club, said the 1899 law probably was intended to stop people from building bridges or dams that would impede shipping, but has taken on new meaning. "There is a series of cases saying the Rivers and Harbors Act can be used by the Corps of En-

gineers to protect environmental interests," he said. "History has caught up with the Rivers and Harbors Act."

The argument is that as soon as a project threatens or has any harmful effect on navigable waters, the entire project comes under federal authority.

Environmental groups contend the pumping plant has hurt delta water quality, disrupted fish migration and contributed to deteriorating water quality in San Francisco Bay. They make many of the same arguments against the \$600 million Peripheral Canal.

**THE CASE NOW** before the Supreme Court began in 1971, when environmental groups sued the federal government under the River and Harbors Act. The suit sought to force the government to require permits for the Peripheral Canal and the pumping plant.

# Hostages' release also liberated Ronald Reagan

By WALTER R. MEARS  
AP Special Correspondent

WASHINGTON (AP) — In a way, President Reagan has been liberated, too.

He never did say exactly what he would have done about the American hostages had Iran held them captive into his administration. Now it won't be necessary.

Instead, Reagan took office freed of the agonizing, marathon crisis that had defied Jimmy Carter for a year and more.

The 52 captives' release cleared Reagan's foreign policy agenda of a burden that could have become a troublesome for him as his predecessor.

It was a subject Reagan had addressed repeatedly during the campaign that led him to the White House. Sometimes he spoke cautiously, sometimes in tough terms. One theme was consistent: he blamed Carter for foreign policy failures for the fact the hostages were seized in the first place.

"I believe that this administration's foreign policy helped create the entire situation that made their kidnap possible," he said two weeks before the election. "And I think the fact that they're still there is a humiliation and a disgrace to the country."

He said he had some ideas on steps to get them out but wouldn't discuss them publicly. "I certainly wouldn't stand by and do nothing," Reagan said.

Talk like that would have been an instant problem for the new administration were the hostages still captive. He'd promised action, but unspecified action.

And the frustration of America's power to act had rested for more than 14 months in the fact that force beyond that already applied could have jeopardized the very lives the United States sought to save.

Reagan the candidate said that had he been in office when the Americans were seized, he would have set a deadline for release and warned the captors that he would take unpleasant steps if they did not comply.

That campaign statement could foretell the outlines of policies the new administration will have to shape if such a thing happens again. That will be difficult, but not nearly as difficult as handling an existing crisis in which Americans are pawns.

While the new president often talked tough — perhaps a factor in the Iranian decision to let the hostages go as he took over — Reagan said more than four months ago he would accept most of the terms written into the release agreement.

That was on Sept. 15, amid signals that the hostages might be freed during the campaign, to Carter's benefit. Reagan strategists wanted a piece of that action, if action there were. So the Republican presidential nominee accepted the Iranian proposal before the Democratic president did. Carter criticized him for it.

"We can and should agree to unfreezing the Iranian assets now held by us," cancellation of any and all claims against Iran and non-intervention in Iran's domestic affairs," all conditioned on release of the hostages, Reagan said then.

But he said the United States couldn't agree to deliver the property of the late Shah Mohammad Reza Pahlavi because it could not be confiscated without due process of law.

Those were the ingredients of the settlement that came too late for Carter. The hostage agreement includes a freeze on assets of the shah in the United States while the new Iranian government files legal claims against them.

Carter made the deal, but it worked only after his presidency was done. So Reagan announced it. "They're now free of Iran."

Ironically, Carter made a more formal announcement, apparently from a text like that he had tried so long to deliver as president. At home in Plains, Ga., he told townspeople that "every one of the hostages was alive and well and free."

He also thanked Reagan "for the care with which he has approached this issue." Carter didn't always feel that way; before the election he accused Reagan of butting into a delicate issue, of playing politics with the hostage situation.

Reagan's restraint in the latter days of the transition cut two ways: it left Carter free to negotiate even though his days were numbered, and it made the final agreement the handiwork of the old administration, not the new one.

Now that the captives are free, there's no guarantee against recriminations over the handling, or the settlement, of the crisis.

After all, it was Reagan who said in campaign debate with Carter on Oct. 28 that there should be a congressional investigation of the whole episode once the hostages were home.

"Then, I think, it is time for us to have a complete investigation as to the diplomatic efforts that were made in the beginning, why have they been there so long."

"And when they come home, what did we have to do in order to bring that about, what arrangements were made?"

## Business for all

With the American economy deteriorating the way it has been the past few years, it's become tougher and tougher for businesses to survive. New businesses, particularly, suffer and die early.

There is an organization that is on the side of new businesses. It helps educate young businessmen and businesswomen in the principles of business while they're still in high school. That, in turn, prepares them for the all important world of business they enter after graduation from high school or college.

The organization is Junior Achievement and the chapter in Midland is now holding its 1981 fund-raising campaign. The campaign began last weekend and JA officials are hoping to raise \$77,000 by Feb. 18.

Junior Achievement teaches the principles of business by allowing its young men and women to actually organize and operate their own businesses, develop production plans, manufacture goods, and sell their products to pay their expenses and realize a profit.

The method of "learning by doing" has been proven effective countless times throughout history; it's again proving effective

in teaching the principles of business to young Junior Achievers.

But the organization of business cannot succeed without your help. Junior Achievement, in the true tradition of free enterprise, accepts neither government funding or national grants. It depends solely on its annual fund-raising drive to collect necessary capital for awards and scholarships, and to pay the JA professional staff and the electric bill.

Gary Petersen, executive director of JA, explained recently that JA is a business education institution and, therefore, chooses to be funded by people who want to perpetuate the free enterprise system.

In this day and time, that is a commendable and admirable attitude.

Free enterprise has made this nation great and will keep it great. We all owe a debt of gratitude to the Junior Achievement organization. Midlanders should support the organization financially because it will benefit us all in better prepared businessmen and businesswomen in the future.

That will ensure the continuation of the free enterprise system, our way of life.

## TODAY IN HISTORY

Today is Thursday, Jan. 22, the 22nd day of 1981. There are 343 days left in the year.

Today's highlight in history: On Jan. 22, 1901, England came to the end of an era with the death of 82-year-old Queen Victoria.

On this date: In 1517, Turkish troops captured the Egyptian city of Cairo.

In 1528, England and France declared war on the Holy Roman Emperor, Charles V.

In 1917, President Woodrow Wilson proposed a League of Nations.

In 1973, former President Lyndon Johnson died of a heart attack at the

age of 64.

Five years ago: the United States and Spain agreed on a defense treaty that allowed the U.S. to continue maintaining military bases on Spanish soil.

One year ago: the Soviet Union stripped Nobel Peace Prize winner Andrei Sakharov of his state awards and banished him after accusing him of "subversive work."

Today's birthdays: Former Sen. Birch Bayh of Indiana is 53. Actress Ann Sothern is 70.

Thought for today: Take the world as it is, not as it should be — Anonymous.

## THE BIBLE

### CAN YOU QUOTE IT?

By ELIZABETH ROSS WIERSEMA

1. "Repentance is a change of mind. We are to have the mind in us which was in Christ Jesus." The Interpreter's Bible Gleason tried to make excuses in order that he would not have to fight the Midianites. Who gave him courage? Judges 6: 12-16

2. What was so unusual about King Jehoshaphat's army marching to the battle of En-gedi? 11 Chronicles 20: 21-22

3. Does God will all things? Romans 8: 28 Mark 16: 16

4. What aged man prayed for a son and his prayers were answered? Luke 1: 13

5. Four hundred years after Joseph's death and a change in rulers had taken place; why was the new king afraid of the Hebrews living in Egypt then? Exodus 1: 6-13

Four correct ... excellent Three ... good.

## HEMISPHERE REPORT

### Cuba will continue to be socialist and revolutionary

Even before President Ronald Reagan's inauguration, Fidel Castro was saying that Cuban-U.S. relations may be taking a turn for the worse.

In the Cuban Communist leader's opinion, relations between the two countries have been tense for some time now.

Castro said that early in the Carter administration, the U.S. president made some positive gestures toward Cuba. Later, though, the reactionary ideas of some of Mr. Carter's advisers prevailed "over the less aggressive currents of the State Department under Vance and Muskie, and relations again became tense."

Then came Nov. 4, and the Republican victory at the polls, that Castro disparages as representing the support of only 26.7 percent of the U.S. voters entitled to ballot.

"The election of Mr. Reagan introduces into Cuban-U.S. relations an element of uncertainty or, more properly, of danger."

"Statements have been made which threaten the world, which threaten Latin America and which particularly threaten Cuba," Castro declared in a lengthy report he delivered to the Second Congress of the Communist Party in Cuba in Havana Dec. 17.

(A translation of the report was subsequently obtained by Copley News Service. It runs 81 single-spaced pages, some 50,000 words, in length. The Spanish-language original has not yet been printed, outside of Cuba,

William Glandon

at least, presumably because of its extreme length.)

Castro complained that Mr. Reagan's Latin American policy "has been presented to the U.S. people as a national necessity required for the security of the nation."

He said the United States thinks itself "supposedly threatened by a Latin American subversive movement in which Cuba plays a major role, as well as by a secret and ominous USSR intervention in the area."

Later in his hours-long address, Castro said that the Cuban Communist Party regards itself "a modest but definite unit of the international Communist movement," and that the party has maintained "frequent and fruitful contacts" with socialist and social democratic parties and personalities from Latin America and Europe.

He pledged that "we will work together with all those — regardless

of class, political ideology or religion — who are willing to do something on behalf of peace and detente."

And then, as if to confirm his own appraisal of the Reagan administration's estimate of the threat from Cuba, Castro said, "We will also join with all the patriotic governments and with the anti-imperialist movements that are combatting, in one way or another, the domination of Washington."

In the Western Hemisphere, at least, there seem to be very few governments that Castro would consider "patriotic." In the course of his discussion of Cuba's relations with the rest of the world in general and Latin America in particular, he criticized the governments of Argentina, Bolivia, Brazil, Colombia, Costa Rica, Chile, El Salvador, Guatemala, Paraguay, Peru, Uruguay and Venezuela, by name.

Mexico, Castro praised several times, terming it "friendly and prestigious." Guyana and Panama were lauded as members of the so-called non-aligned movement that he heads. Ecuador, for seeking to imitate Mexico, Nicaragua and Grenada, for their revolutionary changes.

Clearly, Castro can claim relatively few friendly governments in the Americas, just six of the 18 countries mentioned, and only one of them, a nation of true prestige.

But Castro blusters nevertheless. "Cuba believes that the normaliza-

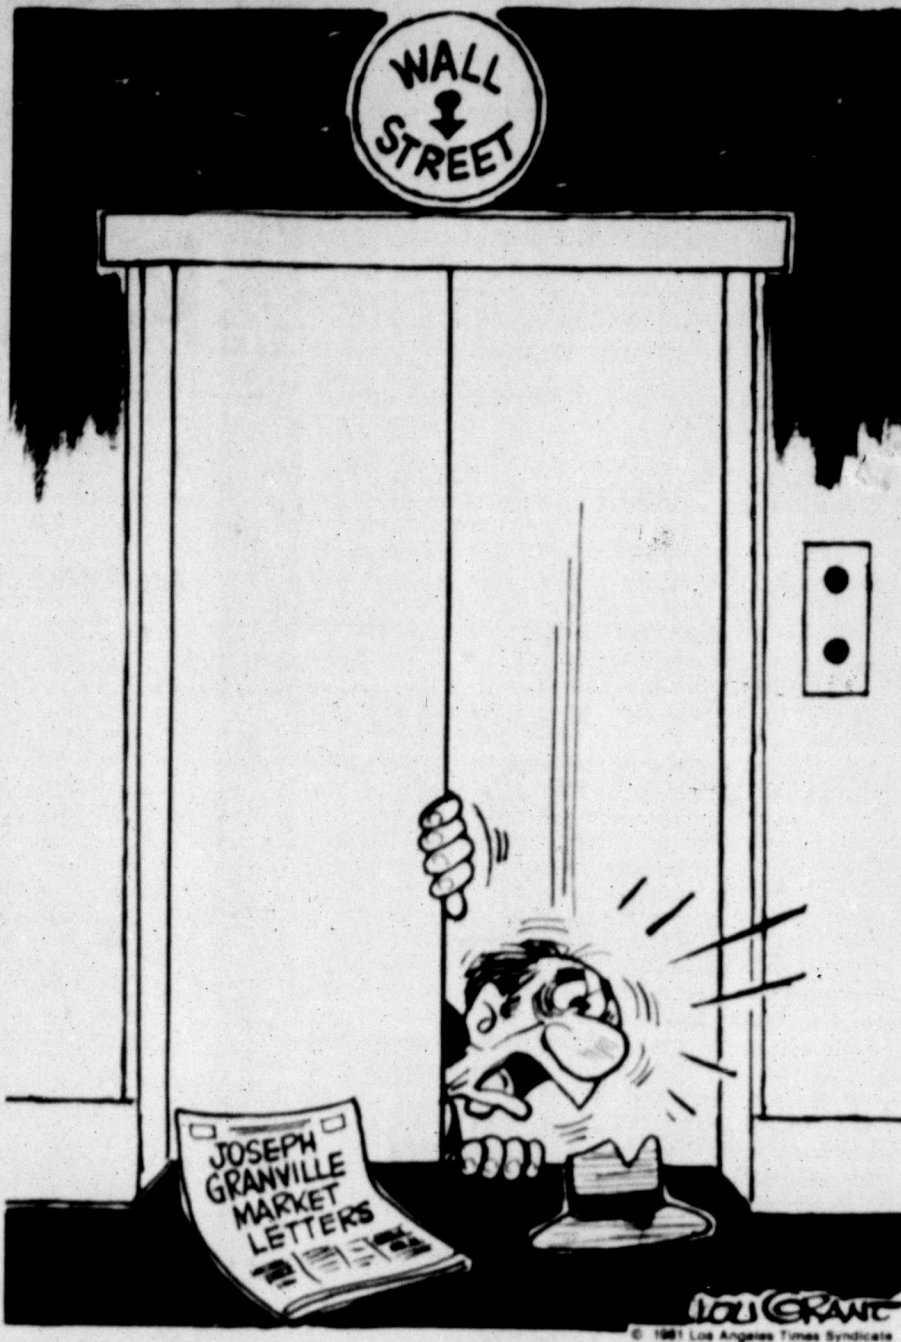

tion of its relations with the United States would be favorable to the political atmosphere of Latin America and the Caribbean, and would contribute to world detente," Castro said.

"Cuba is, therefore, not opposed to resolving its historical differences with the United States, but no one should expect Cuba to change its position or renounce its principles.

"Cuba is and will continue to be socialist.

"Cuba is and will continue to be a friend of the USSR and all the socialist states.

"Cuba is and will continue to be an internationalist country." That means to say that Cuba will go on trying to export revolution, anything to harass the United States.

ART BUCHWALD

## Cartoonists, columnists hoping for brief honeymoon

WASHINGTON — "I would like to see President Reagan," I told the man in the frock coat and striped pants behind the desk.

"I'm sorry," the man replied. "The president is on his honeymoon."

"Who is he on his honeymoon with?" I demanded.

"The American people, Congress and the press. Every president is entitled to a honeymoon after he is sworn into office."

"That's ridiculous," I said. "The president of the United States doesn't have time for a honeymoon. There is too much work to be done."

"He's working in the honeymoon suite, but he is not to be disturbed."

"For how long?"

"It depends. Some presidents have had a honeymoon period for as long as six months. Others have had one for as little as a month."

"I can't wait around for the president to have a honeymoon with the American people for six months. I've got a job to do."

The man behind the desk said, "We're sorry, sir. But our orders are the president is not to be disturbed until his honeymoon is over."

"Can't I speak to him on the phone?"

"What do you want to speak to him about?"

"The economy, inflation, the state of the world, and the price of heating oil which people can't afford."

"We couldn't let you speak to him about those things or you'd spoil his honeymoon. We have instructions to

Art Buchwald

only let him speak to friendly members of the press, congressional leaders and influential friends, who think he's a wonderful person. Every president is entitled to that. Even President Carter had a honeymoon with the American people when he was first sworn in."

"And so I'm supposed to cool my heels in the lobby while President Reagan is drinking champagne and cuddling up to the American people?"

"You can sit over there on the couch if you want to. He might come down, but I doubt it."

"I think there is more going on upstairs than meets the eye. I believe you're keeping something from me that the American people should know about."

"I told you. The president is on his honeymoon with the American people. You should know, sir, that on a honeymoon you can't believe anything bad of the person you're with. That's why it's called a honeymoon. You've got four years ahead of you. What's the big rush in writing about him now?"

"He's the only president I've got. I owe it to my readers to point out what he's doing wrong."

"But he's only been president for two days. What could he possibly do wrong in two days?"

"That's what I'm trying to find out. Couldn't I just peek in the honeymoon suite and see what they're doing?"

"It's out of the question. The American people would never stand for it. If you busted in on the president's honeymoon, they would have your hide."

"I'll bet you anything that if columnist George Will came in right now, you would let him go up to the suite."

"Yes, we would. But that's because he's part of the honeymoon party."

"I thought this was a free country."

"It is, sir. That's why presidents are permitted honeymoons."

"I don't suppose if I slipped you 20 bucks you could overlook the rules."

"I'm afraid not, sir. The presidential honeymoon suite is off limits to people like yourself, and there is nothing you can do to persuade me to let you go upstairs."

Political cartoonists Herb Block, Oliphant, Conrad, and columnist Jack Anderson all came into the lobby at the same time.

"Is the honeymoon over yet?" Block asked me.

"Heck no," I said. "As far as I can tell, it's only just begun."

"Oh boy," said Anderson, "are we in trouble."

"I gave Nixon a week," said Oliphant. "I'm afraid this one could be a lot longer."

"Well," I said, "might as well sit in the lobby and relax. Did anyone bring a deck of cards?"

## BIBLE VERSE

Let every soul be in subjection to the higher powers: for there is no power of God; and the powers that be ordained by God. Rom. 14: 1.

## Column opinions not always ours

Writers whose columns appear on this page are selected on the basis of their reputations, their philosophies and their writing skill, but opinions expressed in their columns are not necessarily shared by The Reporter-Telegram.

On the contrary, the editorial opinion of the newspaper and positions taken by columnists often differ greatly.

Opinions of The Reporter-Telegram are restricted to our own editorials which appear daily on the left side of the page.

Readers whose views differ from our own editorials or those of columnists whose writings appear on this page are invited to express their opinions in our "Letters to the Editor" column which appears Sundays.

## Laxalt suddenly at summit

By W. DALE NELSON  
Associated Press Writer

WASHINGTON (AP) — A year ago, Paul Laxalt was about as far from the summit of power as you could get and still be a senator.

He was close to Ronald Reagan, though, and with Reagan in the White House, Laxalt becomes the president's man in Congress.

The unofficial liaison position is believed to be without precedent, and the Nevada lawmaker admits he can't precisely describe its duties even though he has been warming up for them as the new administration takes shape.

"I don't know exactly what the hell I am," he said in an interview. "It's unique. It's unprecedented." He certainly is a good deal more than what he was last year: a freshman senator, in the minority party, from the fourth smallest state in the union.

He will sit in on meetings of leaders of the new GOP majority in the Senate and accompany congressional leaders when they meet with the president.

Already, Laxalt has been so busy fielding queries about Cabinet and other administration positions from colleagues — "either pushing somebody or trying to get rid of somebody" — that he has had to add part-time help in his office.

"It's been mainly personnel," he said. "There hasn't been too much by way of policy yet, but that will come."

Laxalt, 58, the lawyer son of an immigrant Basque sheepherder and a hotelkeeper mother, met Reagan in the 1960s when they were governors of neighboring states — Laxalt in Nevada and Reagan in California.

Laxalt, who was elected to the Senate in 1971 and re-elected overwhelmingly this November, was one of three senators to support Reagan's unsuccessful candidacy for the GOP presidential nomination in 1976.

Both that year and in 1980, he was Reagan's national campaign chairman. When Reagan defeated President Carter in November, he asked his fellow Westerner to be his point man on Capitol Hill.

Laxalt said he foresees no awkwardness in his relations with Sen. Howard H. Baker Jr. of Tennessee, who as majority leader will have the job of shepherding administration programs through the Senate.

"He is leadership and we have a clear understanding on that," Laxalt said. "I don't intend in any way to invade his legislative prerogatives."

"I will help where needed. At leadership meetings, the Senate leadership has volunteered to simply have me included as a de facto member. So I will sit down with them and be participating in White House meetings with them."

Laxalt said his role will be as liaison with members of both houses, with Rep. Thomas Evans, R-Del., assisting in the House.

## Checking Plus-Interest

**"Teaching school can be very rewarding. We should never stop learning. Recently, I learned how to make the money I earn work for me every month. It's a Checking-Plus-Interest account and I got it at First National."**

A great bank to call your own.

## Trustees want to move Cowboy Hall of Fame

OKLAHOMA CITY (AP) — National Cowboy Hall of Fame and Western Heritage Center trustees in at least five states have made overtures to officials of the Oklahoma City showpiece requesting that the center be relocated.

The director of the National Cowboy Hall of Fame, who last week complained to the City Council about commercial encroachment in the museum's area, said Tuesday a study will be made about moving the hall.

Dean Krakel said trustees would meet Saturday in Denver to appoint a committee to study problems here "and we'll know then where we stand."

Krakel, in an emotional talk before the council last week, accused it of failing to adhere to a 1969 study that recommended that the museum area in the city's northeast quadrant be protected from commercial encroachment.

He said at that time if it were within his power, he would move the museum from Oklahoma City.

The board is expected to form a committee to review proposals by trustees in Texas, Colorado, California, Oregon and Wyoming who have requested that the \$10-million facility be relocated in one of their states. Krakel and other officials said.

## Export program at UTPB

ODESSA — "Learning How to Export Your Products" is the title of a program to be presented Jan. 29 in the Devonian Room of The University of Texas of the Permian Basin in Odessa.

The program is sponsored by UTPB, Odessa Chamber of Commerce, the Odessa SCORE/ACE chapter, U.S. Department of Commerce (International Trade Association), and the U.S. Small Business Administration. The program begins with registration at 8:15 a.m.

Edward R. Maldonado, trade specialist with the International Trade Administration, U.S. Department of Commerce, will be the featured speaker for the program. The purpose of the program is to acquaint the would-be International Trader with the basic steps involved in exporting, thus encouraging new export activity.

The topics of discussion will be introduction to U.S. export statistics, exportability — market research; marketing; documentation; financing; credit insurance; banking; marine insurance; promotion; and miscellaneous topics.

The session is open to the public and a \$6 registration fee (payable to SCORE) is required and should be mailed to Tom Schaefer, 1801 N. Washington St., Odessa 79761. For additional information, contact the SBA in Lubbock, 1-806-762-7462.

## Body Control at new time

Central YMCA at 800 N. Big Spring St. has begun offering Ladies' Body Control at a new time to accommodate the businesswomen in the Midland area. The class is offered on Tuesday, Thursday and Friday during the lunch hour, 12:10-12:30 p.m.

This particular body control class is designed on a low cardiovascular level to prevent perspiration, but the class does contain routines to music for toning, stretching and figure control. The class will be in the Dore Roberts Room with members and limited members welcome to participate.

The class is also included with the Passport to Fitness card, which may be purchased at Central YMCA for \$20 for limited members, with members of the Central Y admitted free. For further information, call the Y at 682-2551.

# Texas Oil & Gas completes prolific oil discovery in Pecos

Texas Oil & Gas Corp. has reported potential tests on two wildcats, one a prolific oil producer, in Pecos County, and discoveries have been finalized in Irion and Runnels Counties.

Wildcat operations have been announced for Terry and Scurry counties.

**PECOS DISCOVERIES**  
Texas Oil & Gas No. 5 Blackstone-Slaughter "B", 10 miles northwest of Sheffield, completed for a calculated 24-hour potential of 1,320 barrels of 47-gravity oil, no water, through a 1/2-inch choke. The gas-oil ratio is 151.5-1.

The potential was based on a two-hour flow from pay behind casing perforations from 8,630 to 8,636 feet opposite the Pennsylvanian detrital. The pay was acidized with 500 gallons.

Total depth is 8,715 feet, 5 1/2-inch casing is set on bottom and hole is plugged back to 8,680 feet.

The top of the pay and the top of the Pennsylvanian detrital is 8,630 feet on ground elevation of 2,767 feet.

Other tops include the Grayburg, 2,638 feet; Clear Fork, 4,048 feet; Wolfcamp, 6,190 feet; Strawn, 8,151 feet; and Devonian, 8,686 feet.

Location is 660 feet from north and 2,750 feet from west lines of section 59, block A-2, TCRS survey.

\*\*\*  
Texas Oil & Gas No. 2-60 Canon, 3/4 mile northwest of the No. 5 Blackstone-Slaughter "B", was completed from the Pennsylvanian detrital for a 24-hour flowing potential of 432 barrels of 47.7-gravity oil and no water, with a gas-oil ratio of 917-1.

Completion was through a 3/8-inch choke and perforations from 8,598 to 8,630 feet. The pay was acidized with 250 gallons.

Total depth is 8,750 feet, 5 1/2-inch pipe is set on bottom and hole is plugged back to 8,702 feet.

The Pennsylvanian detrital was topped at 8,596 feet and the pay was topped at 8,598 feet on ground elevation of 2,739 feet. Other tops include the Grayburg, 2,690 feet; Clear Fork, 4,058 feet; Wolfcamp, 6,150 feet; Strawn, 7,927 feet and Devonian, 8,634 feet.

Location is 1,530 feet from south and 467 feet from west lines of section 60, block A-2, TCRS survey.

The operator has requested that one of the Yucca Butte, Northwest (Pennsylvanian detrital) field.

\*\*\*  
**IRION DISCOVERY**  
Tucker Drilling Co., Inc., of San Angelo No. 2-59 Henry Lindley has been finalized as a Wolfcamp lime discovery in Irion County, three miles west of Mertz.

The operator reported a daily flowing potential of 31.28 barrels of 38.3-gravity oil, no water, with a gas-oil ratio of 5,350-1.

Completion was through a 15/64-inch choke and perforations from 5,951 to 6,008 feet after a 7,000-gallon acid treatment.

The upper Wolfcamp lime was topped at 4,812 feet on ground elevation of 2,419 feet. Other tops include the Clear Fork, 3,250; Canyon sand, 6,853 feet; and Strawn lime, 7,707 feet.

Total depth is 7,795 feet, 4 1/2-inch pipe is set on bottom and hole is plugged back to 7,745 feet.

Location is 660 feet from north and 1,787 feet from west lines of section 59, block 1, H&TC survey.

The well is 7/8 mile northwest of the Christi (Canyon southwest of Loco Hills).

\*\*\*  
It is No. 1 Eastern Shore-Federal "DV", 660 feet from north and 1,980 feet from east lines of section 17-19S-27E and 2 1/4 miles northwest of the Pecos River (Morrow gas) field and 1/2 mile southwest of a 1-0,415-foot failure.

Amoco Production Co., operating from Hobbs, N.M., No. 1 Federal Communized "BB" is to be drilled as a 10,000-foot wildcat in Eddy County, 20 miles northwest of White City.

Operator staked location 1,980 feet from south and 1,104 feet from west lines of section 30-22S-23E. Ground elevation is 10,000 feet.

The drillsite is 2 1/2 miles southwest of the Indian Basin (Cisno gas) field which produces at 7,200 feet, and five miles southeast of the Rocky Arroyo (Morrow and Wolfcamp) field.

\*\*\*  
**LINCOLN EXPLORER**  
Lincoln County, N.M., gained a 3,000-foot rank wildcat with the staking of Mesa Petroleum Co. of Midland Np. 1 Asparas-Federal.

It is 660 feet from south and 1,980 feet from west lines of section 11-4S-14E.

\*\*\*  
**CHAVES FIELD WORK**  
Yates Petroleum Corp. of Artesia no. 1 Dee-State "OO" is to be drilled as a 4,500-foot test to test the Abo in an undesignated Abo field of Chaves County, 28 miles northwest of Boaz.

Location is 660 feet from south and west lines of section 32-5S-24E. Ground elevation is 3,793 feet.

\*\*\*  
Mesa Petroleum Co., Midland, No. 1 Camack-Federal has been spotted as a 4,200-foot Abo test in an undesignated Abo field of Chaves County, 28 miles northwest of Boaz.

Drillsite is 1,980 feet from south and east lines of section 9-5S-24E. Ground elevation is 4,015 feet.

\*\*\*  
The Bulls Eye (San Andres) field of Chaves County gained a 2,650-foot test with the staking of Carl A. Scheiloinger of Roswell No. 1 Bach.

It is 660 feet from north and 1,880 feet from west lines of section 13-8S-28E and five miles south of Eikins.

\*\*\*  
**EDDY WILDCATS**  
Yates Petroleum Corp. of Artesia, N.M., announced location for a 10,250-foot wildcat in Eddy County, 22 miles

6800) field.

\*\*\*  
**RUNNELS OPENER**  
Thomas-Powell Royalty, Inc., of Dallas, has completed its No. 1 Mikeka as a lower Strawn lime gas discovery in Runnels County, two miles northwest of Wingate.

A dual well, it was completed earlier as a well in the Wingate, Northwest (Gray) field.

From the lower Strawn, it finalized for a calculated absolute open flow potential of 1,800,000 cubic feet of dry gas per day, through perforations from 5,223 to 5,231 feet after a 4,500-gallon acid treatment.

Total depth is 5,280 feet and plugged back depth is 5,249 feet.

The well was completed in December for a 24-hour flowing potential of 204.1 barrels of 41.6-gravity oil, with a gas-oil ratio of 1,296-1. Completion was through a 20.64-inch choke and perforations opposite the Gray from 5,110 to 5,154 feet.

Location is 949 feet from south and 4,209 feet from east lines of N. Smithwick survey No. 452, abstract 440.

\*\*\*  
**TERRY WILDCAT**  
Kenal Oil & Gas Inc., of Midland No. 1 Mannett is to be drilled as a 10,500-foot wildcat in Terry County, 4 1/2 miles south of Brownfield.

The prospector is 1,980 feet from north and west lines of section 97, block T, D&W survey.

\*\*\*  
**SCURRY EXPLORER**  
JEM Petroleum Corp. of Midland No. 1 Kris is to be drilled as a 7,000-foot wildcat 1/2 mile west of Snyder in Scurry County.

The drillsite is 330 feet from south and 660 feet from west lines of tract 45, section 13, block 1, J. P. Smith survey.

\*\*\*  
**HOCKLEY TEST**  
Texas Crude Inc., of Midland No. 1-10 Magers is to be dug as a 7,600-foot project in the Linker (Clear Fork) field of Hockley County, four miles southwest of Levland.

Location is 467 feet from south and east lines of labor 10, league 31, Baylor County School Land survey.

\*\*\*  
**IRION PRODUCE**  
MWJ Producing Co. of Midland No. 1 Jay is to be dug as a 1/2-mile south stepout to production in the north-east side of the Rock Pen (Canyon) field of Irion County, 3.4 miles west of Mertz.

Scheduled to 7,500 feet, it is 1,980 feet from north and east lines of section 42, block 1, H&TC survey.

\*\*\*  
**SCHLEICHER RE-ENTRY**  
Trans-Intercontinental Drilling Corp., of Sonora will re-enter the former R. A. Mendenhall Associates, Ltd., of Midland No. 1 Humphrey, a 6,626-foot wildcat failure in Schleicher County.

The operator will clean out to total depth. It will be operated by the new operator as No. 1 George R. Humphrey.

Location is 467 feet from south and 1,980 feet from west lines of section 17, block A, HF&WT survey and three miles east of Eldorado.

It is 1 1/4 miles east of the two-well Eldorado, East (Canyon gas) field and 7/8 miles northeast of a 6,980-foot dry hole.

\*\*\*  
**EDDY OPERATIONS**  
Jake L. Hamon of Midland No. 1-33 Federal is to be drilled as an 11,000-foot Morrow test in the Catclaw Draw (Morrow) field of Eddy County, seven miles south of Lakewood.

The location is 1,980 feet from south and 660 feet from east lines of section 33-20S-26E. Ground elevation is 3,280 feet.

\*\*\*  
Getty Oil Co., operating from Midland, staked No. 1-11 Salt Draw-Federal Communized as a 13,500-foot Atoka-Morrow project in an undesignated Atoka-Morrow field of Eddy County, five miles south of Malaga.

Drillsite is 1,650 feet from north and 2,130 feet from west lines of section 11-25S-28E. Ground elevation is 2,952 feet.

\*\*\*  
Beico Petroleum Corp. of Midland No. 1 Cassidy is a new 12,750-foot Morrow project in the loving, North (Morrow) field one mile southwest of Loving in Eddy County.

It is 1,980 feet from north and 660 feet from west lines of section 29-23S-28E. Ground elevation is 3,114 feet.

\*\*\*  
Yates Petroleum No. 1 North Carlsbad Communized "DK" is to be dug as an 11,400-foot project in an undesignated Morrow area of Eddy County, two miles northwest of Carlsbad.

Drillsite is 660 feet from north and 1,650 feet from east lines of section 26-21S-26E. Ground elevation is 3,131 feet.

\*\*\*  
The Teolote Peak (Delaware) pool of Eddy County gained a new project with the staking of Sledge Oil & Gas, Inc., of Kermit, No. 1 Pogo-State.

Scheduled to 2,800 feet, it is 15 miles south of Malaga and 990 feet from north and 330 feet from east lines of section 33-26S-28E. Ground elevation is 3,070 feet.

\*\*\*  
Perry R. Bass of Midland No. 86 Big Eddy Unit has been staked as a 12,700-foot project in the Sand Point (Morrow) field of Eddy County, nine miles northeast of Carlsbad.

Location is 1,980 feet from north and 660 feet from west lines of section 9-21S-28E. Ground elevation is 3,217 feet.

\*\*\*  
PHILADELPHIA (AP) — First Pennsylvania Corp., corporate parent of the ailing First Pennsylvania Bank, has issued another unfavorable earnings report.

For all of 1980, the bank holding company reported a net loss of \$164.1 million, made up of an operating loss of \$73.6 million, net securities losses of \$71.8 million and a loss of \$18.7 million from discontinued operations.

\*\*\*  
ATLANTIC CITY, N.J. (AP) — Shell Oil Co., Gulf Oil Corp. and several other major oil companies have given up some of their five-year leases in the offshore Baltimore Canyon area because they are convinced there is no significant oil or gas to be found.

Eight tracts of nine-square-miles each, valued at \$90.9 million when leased in February 1976, have been returned to the U.S. Interior Department well before their leases were to expire in April and May 1982, government officials said Tuesday.

The government extended the 93

# West Texas counties gain locations for wildcat tests

Wildcat operations have been staked in Loving, Reeves, Pecos, Valverde and Coke counties.

\*\*\*  
**DEEP LOVING TEST**  
Tenneco Oil Co. of San Antonio announced location for a 17,500-foot wildcat in Loving County, 16 miles northeast of Mentone.

Scheduled as No. 1-14 Brunson, it is 1,000 feet from south and east lines of section 14, block C-26, psl survey.

The drillsite is one mile southwest of HNG Oil Corp. no. 1-6 Ludeman.

## ENERGY OIL & GAS

Atoka gas discovery completed at 15,702 feet in October 1980.

\*\*\*  
**REEVES EXPLORER**  
Sabine Production Co. of Midland No. 1 El Camino is to be drilled as a 7,000-foot wildcat 10 miles east of Pecos in Reeves County.

The prospector is 1,320 feet from north and west lines of section 2, block C-5, psl survey.

\*\*\*  
**PECOS PROSPECTOR**  
Sioux Natural Gas Corp. of Houston No. 1 H. Q. Lyles has been staked as a 10,400-foot wildcat in Pecos County, 17 miles south of Bakersfield.

Drillsite is 2,300 feet from south and 660 feet from west lines of section 71, block 2, CCSD&RGNG survey.

\*\*\*  
**CULBERSON AMENDMENT**  
Pennzoil Co. of Midland has amended proposed depth from 12, to 12,636 feet on its No. 1 W. W. West, wildcat operation in Culberson County, 22 miles northwest of Orla.

The prospector is 1,980 feet from south and east lines of section 10, block 60, T-1-S, T&P survey.

\*\*\*  
**HOWARD CHANGE**  
Location has been amended for Ike Lovelady, Inc., of Midland No. 1 Wegner, wildcat operation in Howard County, 1 1/4 miles southeast of Luther.

The new location is 467 feet from north and 1,320 feet from east lines of section 33, block 32, T-2-N, T&P survey.

The project is scheduled to 9,400 feet.

\*\*\*  
**GLASSCOCK COUNTY**  
Operator name has been changed on an 8,000-foot new pay staked in the Blalock Lake, East (Wolfcamp) field of Glascock County.

Originally staked as Sanchez-O'Brien Minerals Corp. No. 1 Glenn W. Hilliger, it now will be drilled as Sanchez-O'Brien Oil & Gas Corp. No. 1 Glenn W. Hilliger.

Location is 1,980 feet from south and east lines of section 13, block 35, T-3-S, T&P survey and nine miles northwest of Girvin.

\*\*\*  
**VAL VERDE WILDCATS**  
Four wildcat operations have been staked in Val Verde County.

Hunt Energy Corp. of Dallas will drill two of the projects.

No. 1 Adah Cauthorn, an 11,000-foot explorer, is 2,126 feet from north and 1,697 feet from east lines of section 8, GC&SF survey, abstract 2282. Ground elevation is 2,167 feet.

The drillsite is 1 1/2 miles northwest of the Vinegarone (multipay Strawn gas) field and 18 miles northeast of Juno.

\*\*\*  
Hunt Energy No. 1 Will F. Whitehead, a 15,300-foot wildcat, is to be drilled 1,568 feet from south and 1,337 feet from west lines of section 15, block L, GC&SF survey and 20 miles southeast of Juno. Ground elevation is 2,056 feet.

\*\*\*  
The drillsite is four miles northeast of a 19,315-foot dry hole and 16 miles south of the Vinegarone field.

\*\*\*  
Pennzoil Co., operating from Midland, spotted two 2,500-foot wildcats in Val Verde County, five miles southwest of Carta Valley.

No. 1-8 murray is 533 feet from north and 1,426 feet from east lines of section 8, block AZI, A. J. Hutt survey, abstract 3058. It is 3 1/2 miles southeast of a 1,915-foot failure.

\*\*\*  
Pennzoil will drill No. 1-11 Murry 467 feet from north and 2,005 feet from west lines of section 11, block AZI, E.L.R.R. survey, abstract 1767. Ground elevation is 1,905 feet.

The drillsite is three miles east of a 2,500-foot duster.

\*\*\*  
**COKE TEST**  
Natamos North American, Inc., of Midland staked No. 1 Davidson Unit No. 1 as a 7,300-foot wildcat in Coke County, nine miles southwest of Robert Lee.

Location is 467 feet from north and 1,980 feet from west lines of section 11, block Z, D&SE survey. Ground elevation is 2,482 feet.

The drillsite is one location south of a 7,310-foot dry hole, 1/2 mile west of a 6,908-foot failure and 2 1/4 miles northwest of the lone producer in the Scrub Oaks (Ellenburger) field.

\*\*\*  
**WINKLER FIELD TESTS**  
Sage Energy Co. of Midland staked its No. 1-14 Sealy-Smith "B" as a 9,300-foot project in the Monahans, Northeast (Pennsylvanian) field.

Scheduled to test the regular pay, it is 467 feet from north and east lines of section 14, block A, G&MMB&A survey and 14 miles southeast of Kermit.

\*\*\*  
Amoco Production Co., operating

from Midland, spotted a 10,800-foot project in the Kermit (Ellenburger oil) and Kermit, South (Devonian gas) field of Winkler County, one mile north of Kermit.

The project is No. 3 Basham-Prothro, 1,980 feet from south and 1,320 feet from east lines of section 17, block B-3, psl survey.

\*\*\*  
**PECOS PROJECT**  
Tom F. Marsh, Inc., of Midland No. 1 Gomez-Eaton Gas Unit has been changed from an Ellenburger test in the Gomez field to a Fusselman project.

Scheduled to 21,645 feet, it is 1,800 feet from south and 1,320 feet from west lines of section 15, block 146, T&SL survey and four miles northwest of Fort Stockton.

\*\*\*  
**CULBERSON CHANGE**  
Orla Petco, Inc., of Midland No. 2 Hawkins-Grubb, originally staked as a 3,600-foot wildcat, now is being operated as a project in the Ford, West (4100) field and the Ed Kennedy (Cherry Canyon gas) field 12 miles northwest of Orla in Culberson County.

Location is 2,300 feet from north and 2,449 feet from east lines of section 28, block 58, T-1, T&P survey.

The depth also was amended to 4,100 feet.

\*\*\*  
**ECTOR TEST**  
Amoco Production Co., operating from Midland, staked a project to test the regular pay in the Cowden, South

(Canyon 8790) field of Ector County, eight miles west of Odessa.

It is No. 3 Eva B. Kayser, 1,980 feet from south and 720 feet from east lines of section 34, block 43, T-2-S, T&P survey.

\*\*\*  
**VAL VERDE TEST**  
Phillips Petroleum Co. announced it plans to complete its No. 2 Cauthorn "F" as a dual well from the Canyon and Strawn in Terrell County, 35 miles southwest of Sonora.

The project is 660 feet from south and 1,980 feet from west lines of section 12, W. Sultemeyer survey, abstract 2737.

It is 1 1/2 miles southeast of the 8,200-foot Canyon gas pay in the Jo-Nell field, and 1/2 mile east of the Vinegarone (Strawn gas) field.

\*\*\*  
**CROCKETT PROJECTS**  
The Canyon Co. of Midland will dig three Canyon projects in the American field of Crockett County, 28 miles southwest of Ozona. They also will test for production in the Spraberry A and B zones which produce in the field.

Each of the projects will be drilled to 8,000 feet.

No. 2-1 Hoover Estate Sec. 1 Bike MM is 2,310 feet from north and 1,000 feet from east lines of section 1, block MM, T&SL survey and four miles east of Spraberry B oil production, 4 1/4 miles east of Spraberry A gas production and five miles east of Spraberry B gas production.

The test is surrounded by Canyon gas production.

# Task force recommends dropping broadcast cash

The Los Angeles Times

The task force assembled by President Reagan's transition team to review public broadcasting has concluded that the principal conduit of federal money to the system should be abolished by 1983.

Frank Griffin, a Washington public relations consultant and the chairman of a six-member team charged with reviewing the operations of the Corporation for Public Broadcasting confirmed Wednesday that her team had suggested the agency be abolished.

"It's more than just CPB," Griffin said. "The whole issue is whether public broadcasting should be public. Should it use public funds?"

According to Griffin, the transition team charged with answering that question said "no." She added, however, that she was uncertain what, if any, action the new administration

will take on her group's recommendations.

"We don't know who's going to get it," she said. "It's going to take a month or two just to shake down on all this."

CPB is a government agency that funnels federal money to the public television and radio systems. Currently operating under a five-year congressional authorization, CPB is to receive \$162 million from the government in fiscal 1981. The authorization is to rise to \$182 million in fiscal 1983, the final year of the current appropriation.

CPB board members are appointed by the president, and there are presently four vacancies on it.

Griffin, formerly the media director of the American Conservative Union, said she does not know whether the task force's 15-page report will be adopted as administration policy.

# DRILLING REPORT

**WILDCATS**  
**CROSBY COUNTY**  
Cities Service No. 1-A Balford, 9,100 feet, has been plugged and abandoned.

\*\*\*  
**HOCKLEY COUNTY**  
Undesignated, drilling 11,311 feet in shale and lime.

\*\*\*  
**LEA COUNTY**  
Towers Exploration No. 1 Bates, 8,903 feet in lime and shale.

\*\*\*  
**VAL VERDE COUNTY**  
Four wildcat operations have been staked in Val Verde County.

Hunt Energy Corp. of Dallas will drill two of the projects.

No. 1 Adah Cauthorn, an 11,000-foot explorer, is 2,126 feet from north and 1,697 feet from east lines of section 8, GC&SF survey, abstract 2282. Ground elevation is 2,167 feet.

The drillsite is 1 1/2 miles northwest of the Vinegarone (multipay Strawn gas) field and 18 miles northeast of Juno.

\*\*\*  
Hunt Energy No. 1 Will F. Whitehead, a 15,300-foot wildcat, is to be drilled 1,568 feet from south and 1,337 feet from west lines of section 15, block L, GC&SF survey and 20 miles southeast of Juno. Ground elevation is 2,056 feet.

\*\*\*  
The drillsite is four miles northeast of a 19,315-foot dry hole and 16 miles south of the Vinegarone field.

\*\*\*  
Pennzoil Co., operating from Midland, spotted two 2,500-foot wildcats in Val Verde County, five miles southwest of Carta Valley.

No. 1-8 murray is 533 feet from north and 1,426 feet from east lines of section 8, block AZI, A. J. Hutt survey, abstract 3058. It is 3 1/2 miles southeast of a 1,915-foot failure.

\*\*\*  
Pennzoil will drill No. 1-11 Murry 467 feet from north and 2,005 feet from west lines of section 11, block AZI, E.L.R.R. survey, abstract 1767. Ground elevation is 1,905 feet.

The drillsite is three miles east of a 2,500-foot duster.

\*\*\*  
**COKE TEST**  
Natamos North American, Inc., of Midland staked No. 1 Davidson Unit No. 1 as a 7,300-foot wildcat in Coke County, nine miles southwest of Robert Lee.

Location is 467 feet from north and 1,980 feet from west lines of section 11, block Z, D&SE survey. Ground elevation is 2,482 feet.

The drillsite is one location south of a 7,310-foot dry hole, 1/2 mile west of a 6,908-foot failure and 2 1/4 miles northwest of the lone producer in the Scrub Oaks (Ellenburger) field.

\*\*\*  
**WINKLER FIELD TESTS**  
Sage Energy Co. of Midland staked its No. 1-14 Sealy-Smith "B" as a 9,300-foot project in the Monahans, Northeast (Pennsylvanian) field.

Scheduled to test the regular pay, it is 467 feet from north and east lines of section 14, block A, G&MMB&A survey and 14 miles southeast of Kermit.

\*\*\*  
Amoco Production Co., operating

26 barrels of load water in 24 hours, through a 15/64-inch choke and perforations at 1,771.9, 800 feet.

\*\*\*  
**REEVES COUNTY**  
Cities Service No. 1 Matthews "C" is to be drilled as a dual well from the Canyon and Strawn in Terrell County, 35 miles southwest of Sonora.

The project is 660 feet from south and 1,980 feet from west lines of section 12, W. Sultem

# 210 more oil, gas projects staked in Permian Basin areas

Oil and gas operators in the Permian Basin of West Texas and south-east New Mexico filed applications requesting permission to drill 210 projects last week.

Fifty-two of the requests were for projects in wildcat areas, including 25 in District 7C of the Railroad Commission of Texas, headquartered in San Angelo.

Eleven of those wildcats were scheduled in Runnels County.

District 8, headquartered in Midland, processed application on 61 projects, while the District 8A office in Lubbock handled 43, including 12 wildcats.
