### IT'S THE LAW IN TEXAS

#### Voluntary Confessions

Our courts decide where our rights and our security conflict. For example, in the days of

the rubber hose, police sought easy confessions. But, today, the U. S. Supreme Court allows only voluntary confessions to go into evidence at a trial. Those obtained by force or threats are barred.

Recently the Supreme Court spelled out that it means by "voluntary."

1. In one case the sheriff brought the accused into court. The judge told of his rights and of the charges against him. The prisoner said: "I'm guilty. I killed the woman."

A rancher had lassoed him, but the sheriff had stepped in to protect him from a gathering crowd.

Despite the roping, the court found the confession voluntary and upheld it. For only the judge and the prisoner's protector were in court when he confessed. No force or threat.

2. But the U. S. Supreme Court rejected another conviction when the "Totality" of the conduct of the officers amounted to a denial of "due process of the law." It concerned a 19-year-old prisoner who had only fifth grade education.

Why did the Supreme Court

upset this conviction? Because the trial court admitted a coerced confession in evidence. Officers had arrested the prisoner without a warrant, had held him without much food for two days, and had not allowed him to see anybody he knew. Finally, the police chief had told him that a mob outside wanted to "get him," but if he "confessed," the police could hold them off. He broke down and "confessed."

Such confessions, the court held, were not an "expression of free choice."

"Jesus saith . . . I am the Way, the truth, and the life; no man cometh unto the Father but by me." He said to Martha, "I am the resurrection, and the life: he that believeth in me, though he were dead, yet shall he live; and whosoever liveth and believeth in me shall never die."

Christ is a path, if any be misled. He is a robe if any be needed, if any hunger, He is bread. He sets the bondsman free. He makes the weak strong. To the dead man He is life. To the sick, health. # How Ford spent \$100 million to give you more quality for your money

The Ford Motor Company spent \$100 million in the past two years alone to bring you a combination of quality features found in no other cars. And here's how Ford quality pays off for you...whether you drive the big Super Torque Ford, the middleweight Fairlane, or the fun-filled compact Falcon!

FALCON—AMERICA'S ALL-TIME ECONOMY CHAMP!

FAIRLANE—HOT NEW MIDDLEWEIGHT!

SUPER TORQUE FORD—  
FEELS LIKE THUNDERBIRD!

F.O.A.F.

**Superior ride and performance.** For example, \$10 million was poured into the development of the Super Torque Ford's incredibly smooth new ride. Additional millions went to design 6- and 8-cylinder engines that let you choose sensational performance or sparing gas economy... all with minimum maintenance.

**More care-free driving.** Millions more were spent to perfect Ford's twice-a-year or 6,000-mile maintenance features... now in all Fords and Falcons\*. You save time and money. Example: you roll 36,000 miles between major chassis lube!

**Greater safety.** Brakes adjust themselves when necessary. Roofs are reinforced. Doors have safety locks.

**Added luxury.** Richer, longer lasting upholstery. Carpeting that wears up to twice as long as in some cars. Improved insulation insures a quieter ride.

**Smarter styling.** Ford's Thunderbird-inspired lines have set the trend that the whole industry now follows!

**Greater resale value.** From the big, important items like specially galvanized vital underbody parts and long-life batteries... to the "tremendous trifles" such as extended-life light bulbs and stainless steel exterior screws... your Ford or Falcon will stand up better over the years. Will be worth more when time comes to trade.

**And don't forget—Ford Dealers are quality dealers!** We want to keep you happy after you buy... and this is your finest guarantee of value!

 TEXAS PRESS ASSOCIATION

AUSTIN — The ordeal of the "black beans" has been repeated in the Texas Senate, although without the usual dire consequences.

Texas' Constitution requires "choice by lots" every ten years to determine which members of the Senate shall begin the decennial with two year terms and which shall receive four year terms.

Among those whom the fate of the "Black Bean" drawing decreed must run again next spring, if they are to remain more than two years in the Senate, were veterans George Moffett, Dorsey Hardeman, Chas. F. Herring, Frank Owen III, Bruce A. Reagan and William T. Moore.

Other returning senators with half-term assignments were Gal- loway Calhoun Jr., Martin Dies Jr., Abraham Kazen Jr., David Ratliff and A. R. Schwartz.

Freshmen senators who got the two year terms were H. H. Blanchard, Don Kennard, Jack Strong and J. P. Word.

Returning senators who held onto four-year terms were A. M. Aikin Jr., Mrs. Neveille H. Colson, Tom Creighton, Louis Crump, Grady Hazlewood, Culp Krueger, George Parkhouse, William N. Patman, Andy Rogers and Franklin Spears.

New members drawing full terms were James S. Bates, Criss Cole, Ralph Hall, D. Roy Harrington, Walter Richter and Murray Watson.

However, there is a possibility that a constitutional amendment and new redistricting act may require election of all senators again next year.

**COIN TOSS CHOICE**—Selection of the president pro tempore of the Texas Senate was determined by the toss of a coin. Senator Martin Dies Jr. of Lufkin won over Senator Louis Crump of San Saba when the pair decided to flip a coin for the position, rather than to oppose each other.

Customarily, the selection is made on the basis of seniority. In this instance, Dies and Crump had equal seniority.

**HOUSE RULES FIGHT** Election of Speaker of the House Byron Tunnell, fourth-term representative from Tyler, took

place at the opening of the 58th Legislature with only token opposition—nine votes cast for Rep. John Alaniz of San Antonio.

But the rules fight that followed Tunnell's ascension to the speaker's stand was a different story.

A group led by Rep. Eckhardt of Houston sought to adopt the permanent rules of the 57th Legislature as the temporary rules of the 58th—a custom that has been followed by previous sessions.

The last session operated under temporary rules until its waning days. It then adopted its amended rules as its own permanent rules. Thus if the current session had followed suit, it would have necessarily adopted the changed rules, under which no Legislature has operated, as its own.

It decided not to do so, by a vote of 108 to 39.

**HOUSE COMMITTEES NAMED** — Most members of the House of Representatives felt that House Speaker Byron Tunnell was "very fair" in his committee assignments.

Rep. John Allen of Longview, who made the nominating speech for the new Speaker, will head the committee on state affairs; Rep. Ben Barnes of DeLeon will be in charge of hiring and firing for the House as head of the rules committee.

Other choice chairmanships include: Rep. W. S. Heatly Jr. of Paducah, Appropriations; Rep. Menton J. Murray of Harlingen, Congressional and Legislative Redistricting; Rep. James Cotten of Weatherford, Constitutional Amendments; Rep. Jerry Butler of Kenedy, Labor; and Rep. George Cook of Odessa, oil, gas, and mining.

**FAMILY TRADITION**—When Senator Strong took oath of office as senator from the second district, it marked the 40th anniversary of the day his father, James G. Strong of Carthage, was first sworn in to represent the same area.

The "elder" statesman in the Strong family and his wife were

witnesses to the swearing-in ceremonies for their 32-year-old son.

**"HOT CHECK" BILL PROPOSED** — A bill which would help small town merchants with the problem of bad checks has been prepared by Sen. Bruce Reagan who wants an act authorizing justice of the peace courts to try bad check cases up to \$25.

Under the present hot-check law, a merchant must travel to a county seat to file charges in a county court for a \$10 hot check. If Reagan's bill becomes law, the merchant could file a complaint in his local justice court.

Rep. George Richardson of Fort Worth is preparing a bill which would allow justices of peace to try cases involving hot checks of less than \$50. He feels that the peace court justices are closer to the people of their areas and can handle complaints quicker than district attorneys.

**INSURANCE LEGISLATION** — Sen. A. R. Schwartz hopes to find a solution to a problem made apparent by Hurricane Carla. After the record force struck the Texas coast, many homeowners had difficulty collecting for water damage because they had fled the scene and didn't know exactly how the damage occurred.

Schwartz's bill would require the State Board of Insurance to make the insurance firms, instead of the homeowner, carry the burden of proof.

Another insurance bill is being drafted by Rep. Don Glad-den of Fort Worth who will fight for legislation to protect persons injured in automobile accidents by uninsured motorists.

Hiss bill calls for a special state fund to pay for personal injury costs incurred in accidents with uninsured drivers.

Any car owner who couldn't prove ability to pay liability when he registered his car, would have to pay \$20 into the fund.

**"BIG COLLEGE" VOTE IS WANTED** — Senator W. T. Moore of Bryan says he will introduce legislation requiring a vote of the people before a four year state-supported college can be created.

**70 MPH SPEED LIMIT** Rep. Forrest Harding of San Angelo will introduce a bill to increase the maximum speed limit on Texas' highways to 70 miles per hour.

**"OLD FOLKS" MARCH**—Tex- as legislators have received a petition which says old folks

of the state will camp on the Capitol lawn until they get higher pensions.

The printed petition was signed by Russell Jack Ballard. He identified himself as president of the Good Citizens League of Texas, Wichita Falls.

**CHILD CONTROL** — A house committee seeking economy in state government has recommended stricter regulation over state aid for illegitimate dependent children.

The committee on Saving Taxes adopted a sub-committee report bearing this recommendation, after argument over whether such aid encourages illegitimacy.

**PHONE RATE FIGHT ENDS** —A phone rate dispute, between the City of Weslaco and General Telephone Company of the Southwest, ended in the Texas Supreme court. Court upheld the city's right to set local rates and the phone company's right to set rates for long distance calls within Texas.

Controversy began three years ago when General Telephone sought an injunction to keep Weslaco's city commission from setting local rates which the firm considered too low; and to keep the city from establishing intrastate call rates on the same basis as that set by the Federal Communications Commission.

It often costs more to call someone in a city within the state than it does to call the same distance, or even farther, to someone in another state.

Supreme Court upheld a decision made by the 4th Court of Civil Appeals.

**SECURITIES RECORD** — State Securities Board says Texas made significant gains as a source of public investment funds in 1962.

In its annual report to Governor Daniel, the Board said the sharp decline in the stock market was no deterrent to public investment in funds which it regulates.

During the year the board

granted 695 permits for the sale in Texas of securities valued at \$357,340,707.

On the policing side of the board's activities, it reported that three applications, for permits to sell to the public securities valued at a total of \$745,000 were denied.

Report also noted that 22 applications representing \$22,417,-826 were withdrawn.

More than \$445,000 in fees were collected during the year.

**GOOD NEIGHBOR** — Austin attorney J. Manley Head has stepped into the role of Texas' No. 1 "good neighbor."

The former legislator has been named chairman of the Texas Good Neighbor Commission.

## Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

I see by the papers where the U. S. Department of Labor is taking a few tips from them Pentagon boys on how to unloose the taxpayers from some of their money. They come up with a rule here awhile back that Mexicans working on American farms was "prohibited" from driving tractors.

Well, this piece in the papers reports that a few Mexicans has been sneaking behind the steering wheel and the Labor folks has set up \$247,000 to hire 25 more inspectors to catch 'em.

This brings up another problem. Who was going to drive the tractors? They was a big shortage, fer instant, of tractor drivers in the Yazoo delta in Mississippi and crops fer storage was wasting away in the fields. The Department of Labor, working on the theory that it was better fer the crops to rot in storage than in the fields, appropriated \$482,056 fer training tractor drivers in the Yazoo delta area.

Just why workers that knows how to drive tractors, can't drive 'em, and why the taxpayers has got to spend \$729,056 on this situation is somepun I can't explain fer you, Mister Editor. I reckon it's like Franklin Roosevelt, father of the New Deal and Godfather of the New Frontier, explained these matters onct to the voters. "We planned it that way."

We're also having a little problem with television sets over in the Congo. The Congress appropriated \$250,000 to distribute TV sets in parts of the Congo that ain't got no electricity.

The fellers at the country store Saturday night was paying their respects to this new five-cent stamp they got to put on letters January 7. Ed Doolittle said his neighbor was showing him a item in Time Magazine where France was putting out stamps now with mint-flavored glue. Ed

allowed as how they ought to put a little flavoring in the glue fer this new 5-center we got —claimed it might take some of the bad taste out of the public's mouth.

Clem Webster said he couldn't git too excited over Ed's suggestion. He figgered it would take them Congressmen 5 year to agree on a flavor. But Clem did admit it wouldn't hurt nothing fer the Congress to git started on this idea at the next session.

Zeke Grubb reported he was reading a piece in the papers where the Post Office officials was estimating they would be 4 billion Christmas cards mailed this year, that they would weigh 80,000 tons and the postage would come to around \$123 million. As a general thing, Mister Editor, I always send a 10-center to my Congressman at Christmas time, but on account of not knowing how he voted on this postage hike, I'm leaving him off this year. That'll cut the estimate down a hair.

### WALK AROUND IT. SEE THE DIFFERENCES.

Start at the rear of this Fleetside pickup. Grab the tailgate and pull hard. No give. Two wedge latches keep it tight. Now unfasten them and let down the gate. Jump up and down on it. Does it sag? Notice how the chains are wrapped in rubber so they won't rattle or mar paint.

Now look at the lower side panels. Two walls. You might dent the inside one but it won't show through. The floor will never rust. It's select wood, not metal.

Now please sit in the cab a minute. Comfortable? It also is double walled and the roof is insulated. Let's start'er up and look for a washboard road. Chevrolet coil-spring suspensions fight road shock better than other types, good for the truck, load and the driver. There are other things. But you can see why this is a truck that does a job without a lot of pampering. It's built right. Which is why it's usually worth more at trade-in. When would you like us to deliver it?
