SUSPICIONS CONFIRMED!

Time was when men were men and the girls were proud of it—so the old saying goes and looks as though the girls are trying more and more day by day to get out of a dress and into the mens britches.

As you know Texas Aggies will be known as Aggiettes in the near future.

We've been a big booster of the Aggies for years—first because of their background and tradition, and second—the most important—scholastics. The proud heads in shame, and well they may, if all goes as directed.

We have long envisioned the day our son could go there to study to be a vet, now we are wondering if the daughter will get to beat him there.

If the girls have to act like boys, a few trips through the freshman belt line should make them change their minds.

And to think its only been a few years back that mom couldn't vote and would hardly ever be guilty of even expressing a simple opinion!

FACE RED — Yes, 'cause it was Douglas and not Anthony who broke the track record at McMurry last week. The story was correct but the heading was the culprit.

The head writer received forty lashes and will have to write D-o-u-g-l-a-s forty times too!

Occasionally someone will ask if we wrote this or that—Sometimes we did, but a lot of the time we didn't.

Very few times do we write a wedding story and never unless some of the parents request it—and there are numerous meetings—obviously—that we cannot attend and report on them—so, as you can see—y-o-u are the reporter—and we love you for it.

Due to this policy—and we don't know any newspaper anywhere who doesn't subscribe to this—we, all of us, are sometimes the innocent party to an erroneous story... one of the worst was our first encounter in the newspaper business—a girl called in and said her grandmother had died. We mentioned the fact to a friend on Wednesday night just before putting the paper to bed. Grandmother did not die however, for another two weeks.

We never did understand the why, how or wherefore of the girls mistaken story, but have often thought how unpopular we and the Herald would have been if we had printed that story.

The dailies are plagued with this type stuff all the time and being in the same business we can't help but marvel at the few times they are wrong and the small percentage of suits newspapers have to combat for this type skullduggery.

We've noticed that Mom, bless her, has even had to accept a large portion of disciplinary action to the small fry of the family. A classic example happened in our presence a few years ago.

It had been a trying day for Mom and Daughter had acted in a manner that Mom thought Dad should attend to.

"I want you to speak to that daughter of yours," Mom exclaimed.

"Hi, Candy, how are you today, honey!" Pop gave a reassuring smile and pat on the head.

SUNDAY IS MOTHERS Day and we do not want to leave you with the impression that we aren't for Mother 100 per cent—we have just pointed out one or two of the many things Mom has to do in this day and age and since we make her shoulder so many tasks, the least we can do for her is to give her equality in the good as well as the bad aspects of a masculine environment.

CLOTHES — Actually we have never been much aware of clothes and style changes—until we quit smoking! of all things!

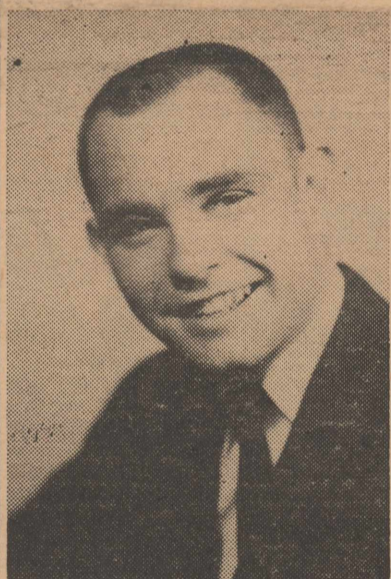

Anyway, we have a few pairs of slacks that we bought several years ago at a fire sale, that we have always admired and like.

HONORED ON 98th BIRTHDAY — Mrs. Alice Pullig was honored on her 98th birthday Sunday at her home. Mrs. Frank McAuley Sr., and Mrs. Ida King honored her with an open house and guests called during the day. Mrs. Pullig was "up and around," Sunday visiting and greeting callers. She and her friends are looking forward to the "big day," her 100th!

Charlie Bateman Receives Honor

Charlie Bateman, pictured above, has been announced as the winner of the 1963 DeKalb Agricultural Accomplishment Award given to outstanding seniors in vocational agriculture departments. To receive this award he excelled in scholarship, leadership and farm program activities during his four years in high school.

Charlie is the son of Eddie Bateman of Knox City, and attends the Knox City High School here and has been president and vice president of the FFA, president of the Junior Class and Captain of the football team, and All District and All Area in football. His farming program consisted of raising Hereford cattle and sheep.

After high school, Charlie plans to attend Texarkana Jr. College. He is the seventh DeKalb Agricultural winner from Knox City High School.

KC Places 3 and 5 At State Meet

Knox City track stars Freddie Smith and Douglas Logsdon turned in fine performances at the State Meet in Austin last week end, and since we make her shoulder so many tasks, the least we can do for her is to give her equality in the good as well as the bad aspects of a masculine environment.

Logsdon came in fifth in the 880 yard run with a time of 2:01.7.

HERE FROM DALLAS

Mr. and Mrs. O. B. Buffalo of Dallas spent last week end visiting her daughter Mrs. L. E. Armstrong in Knox City.

MAYOR ANGLE ASKS COUNCIL TO "CUT CORNERS AND ECONOMIZE"

Knox City's City Council held their regular meeting Monday at 8 p.m. in the city hall.

Attending were Mayor Buddy Angle, and Aldermen A. T. Holcomb, Monty Penman, Ottis Cash, Vaughn Gruben and City Secretary Duck Robinson and City Attorney Dennis Ratliff.

The Council asked a series of questions concerning the tax situation in the city and Ratliff gave opinions on various questions.

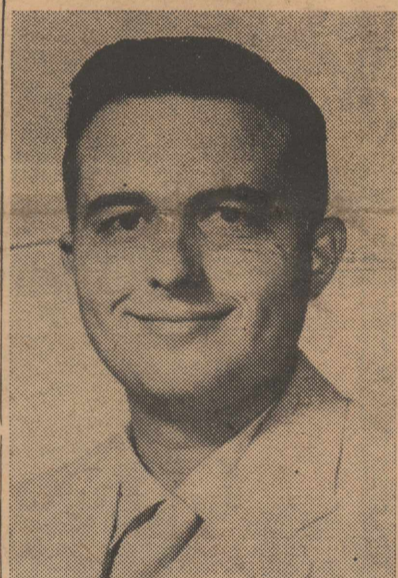

Mayor Angle told the council he had been to the bank that day and that he and City Secretary Robinson had checked the books and found the city was out of money.

Do any of you know the financial condition of the city?" Angle asked.

Most of the members said they supposed it was all right.

Angle said the water fund was approximately \$3,900. in the red and that they had \$3,700 in bills

Burkham Elected President Oil Belt Teachers Assn.

Leon Burkham, Vocational Agriculture teacher in Knox City High School was elected chairman of the Oil Belt Agriculture Teachers Association for 1963-64 recently.

Leon is also a member of the Educational Committee for the West Texas Chamber of Commerce, Second Vice President of Knox County Unit of the Texas State Teachers Association, and chairman of the Advanced Awards Checking Committee for the State F. F. A.

He has taught for two years in the Knox City High School.

Benjamin F.H.A. Elects Officers

The Benjamin F. H. A. elected officers for the 1964 school term at a meeting held recently.

They are: President, Jodie Dowd; Vice President, Patty Meinzer; Secretary, treasurer, Brenda Young; Reporter, Judi Gilbert, Sergeant at Arms, Janis Hall, and Parliamentarian, Linda Bufkin.

Out going senior officers are Nan Gilbert, Barbara Kilgore, and Sharon Patterson.

Transfers Must Be In By June 1!

County School Superintendent Merick McGaughey announced that pupils who intend to transfer from one school to another should have their applications in the superintendent's office by June 1.

Transfer forms may be obtained at the County Superintendent's office or at the local school superintendent's office.

SS Representative Will Be Here May 15

A representative of the Social Security Administration will be in Knox City at the City Hall on Wednesday, May 15, from 10 a.m. until 12 Noon.

You are invited to meet with the representative to file your claim or to obtain information or assistance concerning Social Security.

due at the present time. The general fund had approximately \$5,000 in its account, he informed the council.

One councilman asked what the condition of the city happened to be one year ago this month and at that time the city was \$748.17 in the red.

City Secretary Robinson said he had made a deposit of \$800 and that overdrafts and bills due would amount to approximately \$6,900.

Angle also told the council that a payment of \$2,000 was due on city hall.

Angle told the group he was of the opinion that the city could get out of the red and operate on its budget, but that a number of corners must be cut and concessions made.

He pointed out that all city taxes had been collected with the exception of the delinquent ones, and that if it continued to rain the water bills would fall off—"In other words we have to quit spending and cut down on expenses," he said.

Mayor Angle said the city had \$9,000 in its sinking fund, but pointed out that this money, was by law, used strictly for bonded indebtedness and could not be used for any other purpose than for paying off bonded indebtedness.

"We are \$1,000.00 short in this account, too," he said.

One councilman said he had no idea the city was in the financial shape Angle showed them by the books Monday, but all agreed the new mayor was right and pledged full support to get the city on its financial feet again. The meeting was adjourned.

Salvation Army Drive To Begin Here Thursday

The annual Salvation Army campaign will get underway, Thursday, May 16, 7:00 a.m. at Garrison's Cafe, according to Bob Harrison, campaign chairman.

Harrison will name seven captains who will in turn name five workers each for the kick-off.

A goal of \$750 was set last month by the Knox City Salvation Army Service Unit.

Jeff Graham is chairman of the volunteer unit. Other members of the committee include: L. A. Parker, G. W. Coates, Rev. Floyd Bailey, R. G. Averitt, Erwin A. Youngblood, Rev. Jarrell Sharp and James Hill.

Last year the Unit served more than 100 people who were in need of food, clothing, shelter, and transportation. The Unit also cooperates with the state-wide welfare services of the Salvation Army, the major one of which is the disaster relief service.

Munday Boy Dies In Car Accident

Bob Curry, 18-year-old Munday High School senior and star football player, was critically injured in an automobile accident one mile west of Munday at approximately 2 p.m. Sunday.

Curry was rushed to the Knox County Hospital and a neurosurgeon was flown here from Wichita Falls to perform surgery.

He died at 9 a.m. Monday. Jack Morrow, 17-year old Munday youth was driver of the 1953 Chevrolet.

He received only minor cuts and bruises. Another youth, Paul Reed, a passenger, also escaped serious injury.

Curry is the son of Mr. and Mrs. Odis Curry and Morrow is the son of Mr. and Mrs. R. T. Morrow.

Officers said the Morrow auto had just passed another vehicle and was crossing back to the right side of the road when it struck the wet shoulder and went out of control.

GRUBEN SPEAKS TO LIONS CLUB ON RECENT TRIP TO FAR EAST

John Crownover, program chairman for the Lions Club this week, had as featured speaker a fellow Lions Club member Vaughn Gruben, who has recently returned from a trip to the Far East with a large group of Baptist pastors, laymen and song leaders.

Gruben told the club he was honored for the chance to speak at his home club and would tell of his experiences abroad.

Gruben said of the three countries—the Philippine Island, Japan and Hong Kong, China, he was extremely impressed with the Philippines.

Although 85 per cent of them speak English and English is taught in their schools, he said they were furnished a person to interpret their speeches.

"The Filipino is a person you can't help loving and admiring," he said.

Gruben said their first meeting brought about 29 decisions, and that a number of them had to walk up to 30 miles in a day to attend the services.

"How foolish we Americans are that most of us have air conditioned automobiles and go to air conditioned churches, yet there are a lot of us who can't journey three blocks to attend church," he told the group.

Despite the hardship of travel and other hardships to keep them away from the services he said a rival religious order was one of the chief worries of the people and that unless one belonged to that church a person could "not even get elected to a post on the P.T.A."

Gruben pointed out that relig-

Former Resident Dies In Oklahoma

Harold DeMoss, 37, a former resident of Knox City, died Wednesday, May 1, after suffering a heart attack at his home in Bartlesville, Okla.

Funeral services were held at 2 p.m. Friday in Bartlesville. Interment was at Pryon, Okla.

DeMoss, an associate of the Cities Service Petroleum Co., was born September 15, 1925, in Stroud, Okla. He was a graduate of Oklahoma State University, and a member of the First Presbyterian Church at Bridgeport, Texas, where he was stationed after leaving Knox City last year.

Survivors include his wife; one daughter, Marcella DeMoss, of the home, two sons, Michael Roy of the home and Harold J. DeMoss of Locust Grove.

Type III Vaccine Scheduled May 19

Dr. C. G. Markward announced this week that the Type III Oral Polio Vaccine (Sabin) would be available for all citizens of this area on Sunday, May 19, from 12 Noon until 5 p.m., at the Knox City Elementary School.

There will be no charge for the vaccine, however people receiving the vaccine will be given an opportunity to make a donation to help defray costs of the program.

Plans are at present to only offer this Type III vaccine on the one Sunday afternoon, instead of having it available on the following Sunday as was done with the Type I and Type II vaccines.

WF Man Critically Injured In Wreck

Jessie Courtney, 72, of Wichita Falls, was in a critical condition in the Knox County Hospital Wednesday as a result of a two car accident at the intersection of Highways 277 and 222 in Munday about 7:30 Wednesday morning.

A 1961 Comet, driven by Fred Courtney of Frederick, Okla., brother of the injured man and a pickup driven by a Mr. Lowe of Munday were involved in the accident.

ious freedom was not true in the Philippines but that the people were hungry for religion, and said that 6,037 were converted during the tour, despite the fear of beatings, ect.

Gruben said it was easy to tell a Christian in the Philippine Islands because they live close to God day by day, but "unfortunately we are unable to tell a Christian in our country."

Although life was primitive in the Philippines, it was modern in Manila, he said. He was extremely impressed with the fact that out of two million people in the city there were only three traffic lights and yet he witnessed no accidents while he was there.

Life was extremely low in Hong Kong, he said and recalled that at one spot there were 150,000 people living on small boats—"they are born, live, and die on these small craft and sometimes they have never walked on land," he said.

The biggest surprise however, was when he visited Tokyo—here every building was modern with every convenience known in this country in existence there.

"That is the country we are going to have to watch," Gruben said, "for they are strong financially as well as wanting to find out more in the religious direction." He named incidents where they were worshiping idols, and washing out their mouths in a religious rite to cleanse themselves of sins, etc.

Gruben said there they could tell one man of the plan of salvation and they would ask them to go 50 miles to tell the story to one of their family. He said he felt America should send more people to tell them of God and "do as we did... tell them of the plan of salvation and not of any particular church he concluded.

First Christian Laymen To Speak Here Sunday

Sunday, May 13, an outstanding lay speaker and his wife will have charge of the services at the First Christian Church at the evening services at 7 p.m. Mr. and Mrs. John B. Rhea of Wichita Falls, will discuss and show color movies of their trip last year to the Holy Land. Both are early residents of Knox County, and Mr. Rhea was county attorney of Knox County in 1914-17.

They joined a group of college professors and students in March of last year, bound for work and touring in those ancient lands. That group remained to excavate the Bible city of Dothan, where Joseph was sold by his brothers into slavery just north of Jerusalem, and to establish a school of Archeology on the Mount of Olives.

For 12 days on board ship across the Atlantic and through the Mediterranean, daily lectures were given by able teachers on the important sites to be visited and the Scriptures applicable.

The party toured Lebanon, Syria, Jordan and the Jewish State of Israel, with extended stops at Beirut, Damascus and Jerusalem. They were suddenly barred from Damascus by one of the perennial Syrian revolts, but just as quickly the border was opened to admit them for a day, only to be closed again three hours after their party had crossed into Jordan.

Mrs. Rhea will describe her impressions of the places visited, the apparent nearness of Bible towns, where during Christ's ministry a "day's journey" was about ten miles. Mr. Rhea will show movies of the main points of interest visited, such as the ruins of Baalbeck, the "Street Called Straight" in Damascus, the Jordan River where it empties into the Dead Sea about 1200 feet below sea level, and many, many, other points of interest.

The public is invited to attend these services.

(Continued From Front Page) to wear. They are summer pants and although we've worn them for years, for some reason this winter they must have gotten unusually damp—for the darn things are at least three inches too small.

The wife has been making snide remarks about the middle age spread we've acquired, and although we've had her eyes examined twice, we've finally had to admit that our 31 waist has suddenly expanded slightly.

Now, when I draw up to a size 31, my chest expands six inches farther than it used to, but I've also discovered that I don't have any place left for my lungs.

STYLES—We don't know what to think of the latest wear for the girls, nowadays. The wife came in the other day with a dress that I thought I had seen someplace before, but when I saw the price tag, I was positive that it was new and that I must be mistaken.

Actually, I wasn't; the dress was made out of a mattress cover—the blue and white pin-striped variety.

Later she came home with another creation of similar design—this one was old blue denim—sorta like cotton sack material only blue—not white.

Time was when a woman wore clothes like these only through necessity, but not so today. This is the latest in feminine attire!

I remember when Mom used to buy a certain brand of flour—not because it was the best, for in those days, you could eat anything—it did have the best flowered material for a dress, and many was the time that she put the flour in a barrel and started peddling our old sewing machine to whip out a dress for the Saturday night promenade down town.

That was back in the "good old days" and we hope and pray we never see those "good old days" again!

IT'S THE LAW IN TEXAS

THE SUPREME COURT

"I'll take this case all the way up to the U. S. Supreme Court," you say. Chances are, you'll never make it. That court can only hear a few cases, involving those dealing with federal or constitutional questions. Now and then the Supreme

Court hears a case from the start instead of waiting until the case goes through all the lower courts.

It can hear such cases: (1) involving ambassadors and consuls, and (2) those where a State sues another or the federal government. But only about 123 such (original) cases have come before the Supreme Court in history.

Why the Supreme Court's original jurisdiction? Only three cases involving diplomats have ever come before the Court.

As a rule, the State Department prefers to give the diplomat his walking papers, if his conduct might otherwise have to go to court. But only the high court may hear such cases affecting our relations with other nations, or in fact, our federal and state structure.

Yet Congress allows lower courts power to hear cases involving the 50 states. In the past the Supreme Court has helped to promote harmony by offering a forum to adjust differences among our states.

What are some of the cases?

California had a dispute with Arizona over Colorado River water rights.

Texas and other states claimed tideland oil rights against the federal government. As guardians of the interests of its people, states have sued other states, for example, when the other state lets its citizens discharge sewage to the harm of another state, or allows local businesses preferential treatment injuring citizens of another state. But the court will

not give legal relief unless injury is real.

No one has yet solved the problem of how the Court enforces its decisions against a state. Thus in 1793 law-makers declared Georgia would hang anyone who complied with a certain unfavorable decision. In 1860 Kentucky wanted to force Ohio to give up a fugitive. The Court would not comply because the Court said it couldn't force Ohio to act.

In 1915, Virginia got a judgment against West Virginia for \$15 million. But West Virginia didn't pay. When the Court threatened to enforce the judgment by "Appropriated remedies," West Virginia paid. Nobody knows what the Court could have done, had West Virginia failed to comply.

Sometimes the Court relies on the President or the U. S. Marshall as officers of the Court, as in Little Rock's school case.

Yet, other presidents have not cooperated so well. One said, "John Marshall (the Chief Justice) has pronounced his judgment. Let him enforce it if he can."

In the past, however, the Court has prevailed because the people have usually supported it, even in its unpopular decisions.

For only hard cases ever reach that Court, and people usually prefer the rule of law rather than the violence that would come if the Court was not supported.

Study Club Has Final Meeting Saturday

Members of the Knox City Study Club met May 4 for the last meeting of the club year for a Friendship Luncheon at the Womans Club House.

Hostesses were Mmes. Claud Reed, C. C. Hoge, Abe Watson and Joe Roy Smith. Mrs. L. W. Graham was leader for a program following the luncheon.

She presented Mrs. O. L. Jamison who told of her recent trip to Europe in which she visited 13 countries in a seven week tour and traveled by jet, bus, train and helicopter. She said her impressions were that Norway was the most beautiful country; Venice the most beautiful city and the city hall in Stockholm was the most beautiful building.

Mrs. Jamison served as the first president of the Knox City Study Club when it was organized in 1924. Mrs. E. R. Carpenter also a past president of the club told of her recent trip to Old Mexico.

Mrs. George Davis presided for a business session. Mrs. Everette Bolte was elected to serve as corresponding secretary, to fill the place of Mrs. Lee White who moved to Oklahoma recently.

All other officers will serve another year, they are:

Mrs. Davis, president; Mrs. Otis Cash, first vice president; Mrs. Carpenter, second vice president; Mrs. Morris Denton, secretary-treasurer; Mrs. H. E. Wall Federation counselor; Mrs. T. S. Edwards, parliamentarian; Mrs. C. C. Hoge, reporter; and Mrs. C. J. Reese, club house custodian.

More Information Concerning The National Wheat Referendum ---

By **JESSE T. GILPIN**
Knox Co. ASCS Office Manager

For the 1964 Wheat program to become law, two-thirds of farmers voting in the May referendum must vote "yes."
If less than two-thirds vote approval, we will still have a wheat

program, but, in the opinion of six land-grant college economists "for all practical purposes we will have no program at all."

That will be substantially true unless Congress enacts new legislation to take its place.

At this point, let us remind farmers that in May they will be voting only for a 1964 program that will pertain to wheat and nothing else. They will have a chance later to vote whether or not they want it in subsequent years.

Now, what will happen if the program is disapproved next May? Here is the conclusion of the six aforementioned economists who analyzed both sides of the issue: If the program is approved, farmers nationally will be allotted 49 to 50 million acres, or some 10 per cent less land than they were allotted in 1963.

If they vote disapproval, they will still have an allotment of from 49 to 50 million acres, but they will receive no diversionary payments and receive no price support if they overplant.

By approving, they will receive 30 per cent of the support level times normal yield on 10 per cent mandatory diversion, and 50 per cent of support level times normal yield on voluntary diversion.

And they will receive price supports per bushel of \$2 (national average) on 80 per cent of normal production on acreage allotment.

If the program is not approved, there will be no farm marketing quotas nor marketing allocations.

What will be the probable results?

According to the land-grant economists, the national gross income from wheat, if the program is approved, will amount to \$2.3 billions. If disapproved, the national gross income will amount to only \$1.6 billions.

This means, according to their figures, that disapproval will cost American farmers roughly 700 million dollars.

According to the economists' analysis, the national production under the program would be 1.1 billion bushels, compared with 1.5 billions without it, or if farmers vote "no" in the referendum.

Wheat and grain stocks will be increased substantially without the program, but reduced by 150 million bushels under the proposed program.

Briefly, their findings indicate that farmers' incomes will be substantially higher under the program even though national production will be slightly less.

Moreover, surpluses will be drastically reduced with the program while they will be greatly increased without it.

Here is how the program will work for a Knox County farmer with a 90 acre allotment, 10-acre mandatory cut, a normal yield of 25 bushels and an actual production of 25 bushels.

He could, under the proposed program, expect a gross income from the 90 acres of about \$4,335. Without the program, to achieve the same gross return, he would need to plant 108 acres at \$1.60 per bushel, 144 acres at \$1.20 per bushel, and 173 acres—almost twice as much—at \$1 a bushel.

If more than one-third of growers vote "no" wheat price supports will drop to 50 percent of parity, about \$1.20 per bushel but even that only for those who plant within their acreage allotment will be eligible for price support loans.

What's more, a "no" vote, in the opinion of the experts, would

Streams In Desert Places

Ozelle Stephens

"For the Kingdom of God is not meat and drink; but righteousness, peace and joy in the Holy Ghost." (Rom. 14:17).

According to the New Testament if we are without the Spirit we are without joy, the awareness of God's love, the conviction of Christ for our sins, Gifts

have repercussions felt throughout the world. For the first time in many years, U. S. prices could be lower than the minimum under the International Wheat Agreement.

of the Holy Spirit, fruits of the Spirit, guidance, healing, and proof of eternal life. From a study of the teachings of Jesus it is obvious that He saw the presence of the Helper as the one gift that includes all other gifts.

The first we mentioned is Joy. Luke tells us that Jesus rejoiced in the Spirit. By the way a lot of Christians live we might think, they think of Jesus as a man of sorrows and acquainted with grief. But He overcame that on Resurrection Morning and became our rejoicing Saviour.

AUSTIN — Gov. John B. Connally signed 27 bills into law . . . then he and Lt. Gov. Preston Smith left the state.

Their departure was to permit Sen. Martin Dies Jr., of Lufkin to take over a "Governor for a Day."

Each bill applied to a special area of interest. For example:
1. House bill 16 by Rep. Olen R. Petty of Levelland interests State banks. It exempts them from the State sales tax and franchise tax so long as federal banks are exempt. Saves them \$1 million a year.

House Bill 588 by Houston Rep. Tom Bass interests firemen and policemen. It enables them to credit toward "job seniority" time taken off for military service and guard duty. This speeds up their promotions.

3. House bill 614 by Rep. Amado Canales of San Diego and Rep. Jerry Butler of Kenedy interests hunters. It puts a "No-Hunting" sign on Duval County for the next five years.

These laws will go into effect in August.

LOOPHOLE IN LOOP — Municipal annexation bill, which has passed both houses, is ready for Governor Connally's signature. It gives every city an "extra-territorial jurisdiction" — from five miles for cities of more than 100,000 population to one-half mile around cities of 5,000 or less population.

It sets up an extra-territorial area of one mile around cities of \$5,000-25,000; two miles and 25,000-50,000; and three and a half miles around those with populations ranging from 50,000 to 100,000.

Under this proposed law a city could annex in a year no more than an acreage equal to 10 per cent of its size on the first day of that year. In computing this, many have drawn concentric circles around sample cities.

But this is not the limitation it would appear to be.

Actually, instead of extending its whole perimeter, a large city could annex a five mile strip along major highways without approaching the 10 per cent limit.

VOTERS REGISTRATION — A registration system to take the poll tax's place is all but decided by the Legislature.

Senate-passed bill by Sen. Tom Creighton of Mineral Wells calls for a 25-cent registration fee in lieu of the \$1.50 or \$1.75 poll tax. It retains the present system of registering voters each year.

El Paso Rep. Malcolm McGregor tried to include the Texas League of Woman Voters' plan for permanent registration but it was turned down.

House took the 25 cent fee provision out of the bill. So a House Senate conference committee will have to settle this dispute. Another House amendment would require rural people and those residing in small towns to register every year, if they are over 60 years of age.

At present, these people are allowed to vote without registering at all.

Entire registration revision hinges on a constitutional amendment to repeal the poll tax.

This bill, by Rep. Abraham Kazen of Laredo, passed the Senate, but is tied up in a House committee.

CRIMINAL CODE REVISION — The much-opposed revision of the State Criminal Code now has the approval of the District and County Attorneys Association, through an endorsement by its president, Alton Griffin of Lubbock.

Endorsement applies to the House Criminal Jurisprudence committee's version of the State Bar Association's plan for streamlining the code. House version is so different from San Angelo Sen. Dorsey Hardeman's bill which passed the Senate that it may be a long, hard fight for approval. And there's less than three weeks left in this session. It must end by May 27.

MISSION FOR MIGRANTS — Laredo Rep. Honore Ligarde told the House Appropriations committee that a program of basic education—grade school level reading, writing and arithmetic would be:

"One of the greatest bargains available to you today—the re-education of human beings in such a way that they cease to be a

burden to the state and assume the dignified role of contributing taxpayers."

Ligarde has introduced alternate bills to set up an educational program under the Texas Education Agency, through the urging of the Texas Committee on Migrant Farm Workers.

There are about 127,000 illiterate migrant farm workers in the state. In addition there are 800,000 other adults who rate as illiterates and who would also be eligible for courses if a plan is adopted.

FOR MEN ONLY — Decision by Texas A&M board of directors, to make the college co-educational provoked introduction of a House resolution against the board's decision. Also a bill designed to prevent entrance of females.

Rep. Will Smith of Beaumont introduced both measures.

1962 VOTERS REGISTRATION — State Comptroller Robert S. Calvert reported a total of 2,020,183 voter registrations issued thru January 31, 1963.

This included 1,654,805 poll tax payments and 365,378 exemption certificates, to be used in any elections held through Jan. 31, 1964.

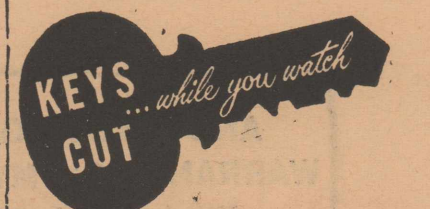

Loving issued the least poll tax receipts—90. Harris County the most—282,768.

MUNDAY, TEXAS

"Only good fly is a dead fly!"

ORTHO has two sprays—a fog spray and an all-purpose spray—that kill flies fast and sure. Without harmful residues.

You know what a hassle fly killing can be. You want a spray that's effective. But you don't want to have to hide your animals in the next county. And you don't want a spray that's so gentle every other fly gets away.

The two fly killers made by ORTHO take care of both problems. Their main ingredient is DIBROM, a remarkable insecticide that kills flies outright—without harmful residues. DIBROM doesn't just knock flies down—it knocks them stone cold dead. Even if they're resistant to other sprays.

And because they contain DIBROM, both these fly killers are registered to spray over and around cattle. You can spray in a barn without taking the cows out, or a poultry house without removing the birds.

So if you use a fog sprayer, try new ORTHO DIBROM Fly Spray. It comes already

mixed—you just pour it from the can. And it kills the flies that a lot of fog sprays miss.

If you want an all-purpose concentrate, for use through a pressure sprayer, or as a dry bait or a wet bait, use ORTHO Fly Killer D. (The D is for DIBROM.) Diluted with water, a quart of Fly Killer D makes up to 40 gallons of ready spray. And costs less than 22 cents a gallon.
