NUMBER 31

The Knox County Vegetable Festival held in Munday last week was termed a big success by Knox Citizens attending the show. The wife noted a number of Knox Citizens who were "gifted" that we hadn't known before.

She was especially impressed by a self-portrait of Tom Campbell. It could have been that she was surprised that he could paint, although she claimed it was "extraordinary."

The only thing wrong with it, as far as we can ascertain, was that it wasn't our idea!

For some time now, we have wondered why we haven't capitalized on the fact that Knox County is a wonderful vegetable center, too. Mr. L. B. Patterson, Sr., is to be commended upon his foresight and determination in getting someone in the county interested in something that boll weevils can't eat.

Have had several inquiries about the city's financial condition and although we ran as complete analysis as we could not too long ago, we also ran another story two weeks ago saying we owed the bank approximately \$30,000.

The inquiries have been that "is that all we owe?" and "\$30,000 isn't much for a city to owe."

Answer—The \$30,000 plus is all we owe in warrants! Bonded indebtedness, as far as we can find out, is—

1946 Sewer System Bonds—\$25,000.

1946 Water & Sewer Bonds—\$31,000.

1954 Permanent Improvement—\$115,000.

Total Bonded indebtedness—\$171,000.00.

The books are being audited at this time and as soon as they are returned we will publish an itemized accounting of the city's financial stature. Hope this enlightens those who were concerned enough to ask for a recount.

We have detected considerable interest in taxes since last week's paper hit the streets and all we can say is that if you aren't satisfied you have no one to blame but yourself.

The school board, as far as we know, is one governing body that has always had a budget hearing, and so far, no one (a private citizen) has attended.

Taxes have been increased 10 per cent—the county will want at least that much or more and the city should be granted the same consideration, no less.

Does 30 per cent increase in taxes interest anyone, now?

Uncle Joe Smith was in the Herald office last week and during our visit he told us about an incident taking place many years ago—around 1909. Uncle Joe grew some fine onions and brought one of the largest ones in to the editor of the Herald. It weighed a full pound. Uncle Joe said, After the editor published this in the paper another subscriber who was then farming the T. E. Robbins farm, brought several one and a half pound onions in to the editor!

Speaking of Munday—ran in our friend Dr. Delmon Alexander the other day and he told us he had been to Waco to visit his family, and all were well and happy in their new home.

Dr. Alexander is keeping his office in Munday open until his replacement arrives either at the end of August or sometime in September.

He told us several months ago he planned to move to Waco, but would not leave until he found a good replacement.

In the meantime Dr. Alexander is continuing practice as usual.

## Givens Purchase Garrisons Cafe

Mr. and Mrs. Charlie Givens announced Monday that they had purchased Garrison's Cafe from Jerry Tucker of Seymour, Saturday.

Tucker, who owns a drive in in Seymour, purchased Garrison's from Wesley Garrison several months ago.

## Knox County Historical Survey Com. Meets; Discuss Survey And Plans

The Knox County Historical Survey Committee met in County Judge L. A. Parker's office in Benjamin June 25 at 10 a.m. for a discussion with Mrs. H. A. Smith of Truscott, presiding.

Representatives from Benjamin, Gore, Munday, Rhineland, Truscott, Vera, and Knox City were present.

First project of the group is to try to locate all Civil War veterans graves in the county and mark them with suitable markers.

Each community is being responsible for their own cemetery survey. Plans were discussed for having a Pioneer Day next March as that will mark the month the county was organized in 1886.

Mrs. R. M. Almonrode of Munday was named chairman of this project, and the next meeting of the committee will be Sept. 24 in the courthouse.

The Knox City Committee is trying to locate all Civil War veterans graves. They have made a survey of the Knox City Cemetery and by checking the birthdate on the markers the following men could have served in the Civil War:

Ben T. Lanier, J. L. Reese, P. Judson Farmer, Thomas H. Humphries, Dr. Ira J. Culver, John Thomas Gore, Tom Carpenter, Z. T. Rogers, J. C. Hardberger, W. E. Gound, Mart Jones, N. S. Reynolds, M. H. Jamison, J. G. Jones, Wm. F. Guthrie, John Pfrimmer, Joshua Sanders, Mas Bradley and Robert Goree.

Anyone who can verify as to the service any of these men gave during the Civil War, or know any relative who can give the needed information please contact Mrs. E. F. Branton, Mrs. B. B. Campbell or Mrs. C. C.

## LETTER to EDITOR

I would like to take this opportunity to express my appreciation to you for your help in publicizing the highly successful Knox County Vegetable Festival. Your cooperation was greatly appreciated. I hope you will also pass on my thanks to other groups that participated or supported the festival by entering their things, or by exhibiting their products.

May I also take this opportunity to invite everyone to be thinking of how they can participate in the bigger, better Vegetable Festival of Knox County in 1964.

Sincerely,  
Jesse G. Smith  
Publicity Chairman  
Munday, Texas

## Emerson Shows Color Slides To KC Lions Club

## Sammy Stubbs On Board USS Oriskany

Samuel E. Stubbs, fireman apprentice, USN, son of Mrs. Mildred P. Stubbs, is serving aboard the attack aircraft carrier USS Oriskany, a Pacific Fleet unit which recently participated in First Fleet exercises off the coast of California during the President's two-day visit June 6-7.

The Oriskany's principal role consisted of anti-air warfare exercises conducted with the attack aircraft carrier USS Kitty Hawk.

Other operations included in the exercises were amphibious-mine warfare demonstrations, missile exercises and anti-submarine maneuvers.

The Oriskany is homeported at San Diego, Calif.

Hoge. The Federal Government will furnish a suitable marker for each grave without cost to the family. If the grave already has a marker, a bronze plate will be placed on the grave with the person's name and dates he served.

## Services Held For Mrs. Boydston Saturday June 22

The body was taken to Decatur for graveside services at 4:30 p.m.

Mrs. Boydston was born near Decatur Jan. 28, 1880. She had lived in Knox City since 1948, and was a longtime member of the Baptist Church.

She is survived by four sons, Clyde W. of Olney, Fred E. of Nocona, Glen R. of Mesa, Ariz., and John H. of Bowie, and three daughters, Mrs. May Fralin of Hereford, Mrs. Orene Terrell of Hawley, and Mrs. Zelm a Large and Mrs. Delma Hickman of Knox City; 24 grandchildren, 31 great-grandchildren and three great-great-grandchildren.

Pallbearers were her grandsons; Sammy Terrell of Winters, Wayne Terrell of Odessa, Gene Boydston of Sherman, Rev. Buddy Boydston of Decatur, Jackie Boydston of Bowie and Roger Norton of Knox City.

## Benjamin's ZIP Number Is 79505

Postmaster Tom West of Benjamin informed the Herald that Benjamin's ZIP code number would be 79505.

The Herald did not receive this information in time to run with last week's announcement that beginning July 1, all towns will be designated by number, to expedite mail deliveries in the future.

Postmaster West cited this example of the proper use of ZIP code:

Postmaster Tom West  
Benjamin, Texas, 79505

# Knox Vegetable Festival Was Huge Success

Knox County's first Vegetable Festival was proclaimed a tremendous success and plans are already in the making for another festival next year.

The "festival" was on the order of a country fair type basis with merchants and citizens of the county participating by contributing hobbies, vegetables, canned foods, products, etc.

The event was climaxed with a beauty contest Saturday night when Miss Vicki Dawn Coulston, 17, daughter of Mr. and Mrs. Carl Coulston of Vera was chosen Miss Knox County.

Miss Coulston was selected from 39 entries.

First runner-up was Miss Ann Moorhouse, 19, daughter of Mr. and Mrs. Wallace Moorhouse of Munday. Second runnerup was Judy Anderson, 18, daughter of Mr. and Mrs. R. J. Anderson of Munday.

Other girls among the final five from which judges selected the top three were Miss Vera

## Slow Moving Farm Vehicles Spells Disaster -- Dept. Of Public Safety Says

Using the farm tractor for an all-purpose runabout is a dangerous practice. Do not use a tractor for trips not directly related to field work.

Slow moving vehicles are one of the major problems of rural highway travel. Many of them are inadequately lighted or lack proper identification with which to warn motorists.

It is up to the operators of slow moving farm vehicles to practice courtesy whenever they can. When it is possible the farm operator should pull his equipment onto the shoulder and allow faster moving traffic to pass.

Although the farm operator has a privilege to move his farm vehicles and equipment upon the roadway he should be willing to pull off the roadway for his own protection. This may prevent himself, his farm vehicles and farm equipment from being involved in an accident.

It has been observed that many farm tractors, vehicles, and motorized equipment while upon the roadway are so designed or pulling other vehicles and equipment that the operator is unable to ascertain the approach of traffic from the rear. Under such conditions these vehicles and equipment should have a rear view mirror like on a truck and bus enabling the operator to see the approach of traffic from the rear. However, in many instances where there were no such obstructions in rear of the operator it has been observed the operator has been negligent in failing to turn his head around to check for the approach of traffic from the rear. This "hog", creating traffic congestion type of operator becomes a "road and endangering the lives of others as well as himself. Farm vehicles should be operated only by mature, responsible persons upon the highways.

Utilization of a farm tractor as an all-purpose runabout is a dangerous practice that can sharply increase the chance of a serious accident. The farm tractor is not built or equipped for all-purpose travel. The increasing tendency of farmers to jump on the tractor for short trips not

directly related to field work must be discouraged. In many areas of our state, the use of farm tractors as utility vehicles is becoming an increasing problem in highway safety.

Besides offering little protection for the driver, the farm tractor has poor brakes, instability and low speed. Tractor operators should allow extra time when crossing travelled roads and not try to beat approaching cross traffic. If he has attached farm trailers, or equipment it will take him even longer to clear the crossing.

Most rural two-lane roadways are 16 to 20 feet wide. In this problem let's use the 20 foot width. The stop sign on the side of the road is 40 feet from the pavement edge, plus about 12 feet for the length of the tractor, adding up to a total of 72 feet the tractor operator must go in order for the rear of his tractor to clear the pavement edge on the far side of the roadways. Here are some actual results that were conducted using a tractor 12 feet in length with no equipment attached. It took anywhere from 7 to 8 seconds, occasionally 9 seconds to cover this 72 feet. An approaching automobile traveling 69 miles per hour or 88 feet per second is approaching from the tractor's right side then taking the minimum second count of 7-7 times 88 equals 616 feet the automobile would have to be 616 feet down the roadway when the tractor started in motion from the stop sign. In other words just as the tractor cleared the pavement on the far side the car would whiz by, close shave!

The second test involving the same tractor crossing over a distance of 100 feet. This represented the 20 foot pavement width plus 40 feet to the stop sign, plus 12 feet length of the tractor plus 26 feet for a cotton trailer and coupling adding up to a distance of 98 feet, so 100 feet was used for practical purposes.

No attached trailer was used in this test only the tractor itself travelling the distance of 100 feet. The time tests varied anywhere from 11 to 12 seconds.

### Streams In Desert Places

Ozelle Stephens

"A good man out of the good treasures of his heart bringeth forth that which is good; and an evil man out of the evil treasures of his heart bringeth forth that which is evil; for out of the abundance of the heart his mouth speaketh." (Luke 6:45).

Every man should check up on himself at the close of each day to see where he stands with God, and to be ready for the beginning of the next new day.

What is uttermost in your thoughts each day and night? Who are you loving most Yourself, others, or God? Really, does your talk, your walk, and the way you treat others tell the world that the Love of God is within?

Can anyone watching you, (and you can be sure they are) tell which you care for most—and is uppermost in your heart? How are you measuring yourself? by your self, by others, or by the Word of God? What is the abundance of the words from your mouth speaking to the world? Count all the words that fall from your mouth some day; find out whether they are full of love, tenderness, kindness and compassion, or are they complaints, criticism, and full of slander. The Scripture says . . . "he that slandereth his neighbor, him will I cut off." and "The mouth of the righteousness man is a well of life, but violence covereth the mouth of the wicked."

## How millions of Americans help make every day "Independence Day"

When you buy a U. S. Savings Bond you do more than save money. You continue a tradition which was begun 187 years ago . . . and needs your support today more than ever before.

Tens of millions of Americans put their strength into this fight by buying Savings Bonds month in, month out where they bank or on the Payroll Savings Plan where they work.

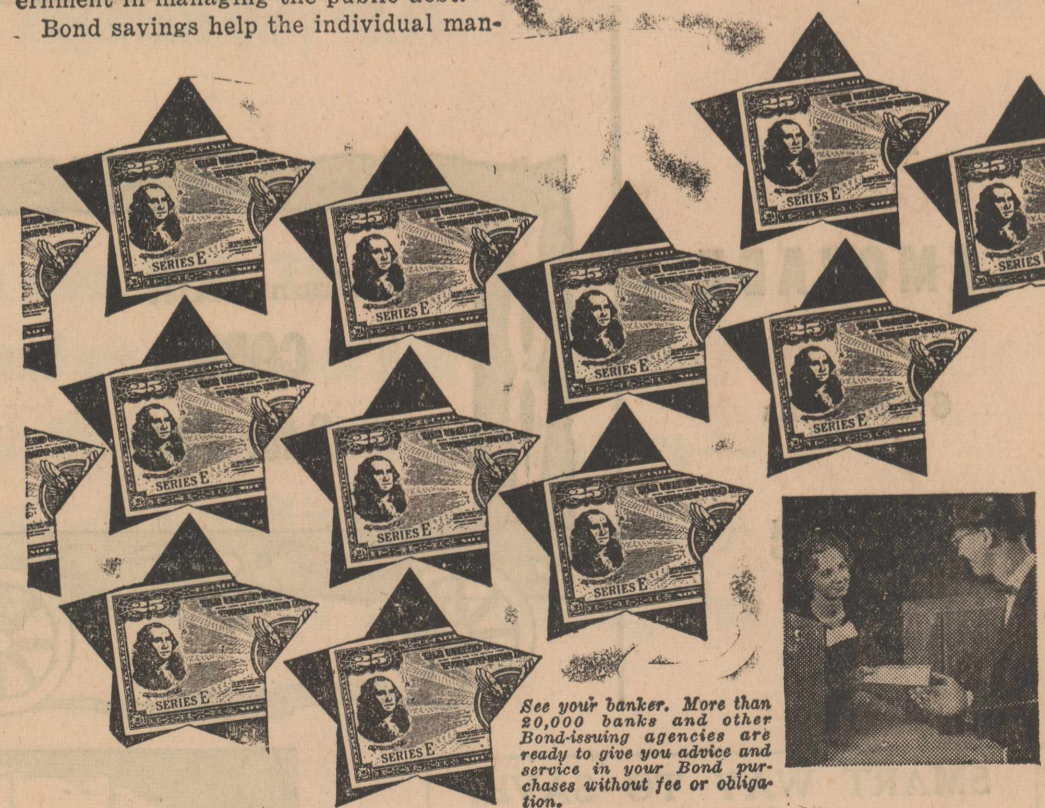

Dollars for freedom. Bond purchases help keep our Nation strong in a number of ways. Perhaps the most important is the dollars-and-cents assistance to our government in managing the public debt.

Bond savings help the individual man-

age his "public debt," too—another important step to national strength.

Your own "bill of rights." The Savings Bonds Program can help you build for a financially independent future, just as it has helped millions of others. Since 1941, Americans have spent \$87 billion in Bond savings for new homes, new businesses, college educations, and happier retirement years.

Series E Bonds return \$4 at maturity for every \$3 invested, and are protected against loss, theft, or destruction. Start saving for your independence today—with U. S. Savings Bonds.

See your banker. More than 20,000 banks and other bond-selling agencies are ready to give you advice and service in your bond purchase without fee or obligation.

Keep freedom in your future with

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN — Former Railroad Commissioner Bill Murray has been exonerated by the Travis County grand jury of any criminal wrongdoing in his personal business relations with the oil industry while a member of the commission.

Murray's duties as one of the commissioners included the drafting of rules regulating the oil industry.

It was the feeling of the grand jury that his personal investments in the oil business had in no way influenced his decisions as a commissioner.

Gov. John Connally previously had released a report, present-

ed to him by Atty. Gen. Waggoner Carr, to the effect that an investigation of Murray's personal income tax reports had revealed that he had made more than \$1,600,000 from his oil investments while serving on the commission.

This report was given to the grand jury.

Murray resigned from the commission several weeks ago when the conflict of interest question arose. He admitted at the time that he had been making such investments but emphatically declared they in no way influenced his decisions. Gov. Connally says the Senate-

House appropriations conference committee, which came up with the state budget bill that he has protested so vigorously, never bothered to look at his budget recommendation.

Connally claims this was one reason higher education was "short changed" in the appropriations bill.

In a recent meeting of the Legislative Budget Board, Lt. Gov. Preston Smith said the same sort of situation, were in legislators disregard governor's recommendation, could apply to the Governors Committee to Study Education Beyond the High School No legislators serve on the 25-member committee).

So the Legislative Budget Board, made up of state Senators and Representatives, set up its own college study committee, and ordered its staff to study problems of financing the state's 20 colleges.

Sen. Calloway Calhoun of Tyler, who asked for the board study, said he was afraid the state might run private colleges out of business by creating more tax supported colleges. He also said that students bear "a more reasonable portion of the cost"

of their college education.

This statement could be interpreted as a preface to state-college tuition increases in the fall of 1965.

INDUSTRIAL PICTURE Looks Good—Texas fell from the second place to fourth among the Top ten states in industrial development last month.

But B. R. Shelton, assistant director of the Texas Industrial Commission said the report does not show a clear picture.

Actually, says Shelton, industry is developing in Texas at a more rapid pace than it did in 1962. At that time the state finished third among the 50 states contending for new industries.

In the month preceding the report, 24 new plants were opened in 15 cities. These included small towns like Georgetown, Refugio, Littlefield and Lewisville, as well as metropolitan cities.

DEATH KNELL FOR BRACERO PROGRAM — Congress killed the Bracero program and set a burial date of Dec. 31, when it refused to extend the agreement to import Mexican farm laborers for two more years.

It may help agriculture workers in other states, but Henry LeBlanc, Director of the Texas Employment Commission's farm labor division, says it won't help Texans' farm workers.

It might even hurt local workers, LeBlanc allowed, "because the Bracero program has kept the pay rate up."

Absence of the Bracero competition, LeBlanc explained, could result in lower wages for this state's workers.

It is rumored that Colorado lawmakers plan to introduce a bill to extend the Bracero program there for one year. Purpose is to allow more time for readjustment of the farm labor system.

### CARD OF THANKS

### IN DALLAS

Mr. and Mrs. G. W. Coats and Mr. and Mrs. G. W. Coats Jr., spent last Thursday in Dallas where they attended Six Flags Over Texas. They went from Dallas to Quitman, where Mr. and Mrs. G. W. Coats Jr., will visit her parents, Mr. and Mrs. W. H. Colley until July 6, when they will return home to New Haven, Conn.

COASTAL PARK PIER PLANNED — State Parks Board has granted a permit for an elaborate, 900-foot fisherman's pier which would stretch across narrow elasco State Park into the Gulf of Mexico.

Park is a 26-mile long stretch of sand, of undetermined width, covering the coastal front of Brazoria County in the Freeport area.

Developers expect to complete the \$40,000 pier and connect it with a \$25,000 acre land development in two months.

PLEASURE CITY — State School Land Board accepted the only bid it received for a contract to lease state submerged land to build a 10,000-foot long channel from Corpus Christi to a proposed multi-million dollar pleasure city on Mustang Island.

Bid-winner was Mustang Beach Development Corp. It is the same organization (owned by Piper Aircraft Corp.) that intends to develop 900 acres of Mustang Island into a Marina City, complete with homes, personal boat slips, industry and recreation facilities.

Channel is expected to cost \$100,000 and it will be available, free, for public use.

SUPREME COURT HOLDS firm — State Supreme Court overruled Attorney General Carr's motion for a rehearing of the case, Government Services Insurance Underwriters et al versus 53rd District Judge Herman Jones.

It stood firm on its earlier ruling that legislative continuances are constitutional.

Texas' 20-year-old legislative continuance law provides automatic postponement of court hearings and trials for parties represented by legislator-lawyers when the Legislature is in session.

Carr has been backing Judge Jones' contention that the law is unconstitutional.

ATTORNEY GENERAL RULING — Atty. Gen. has ruled that a recently-passed bill by Rep. Forrest Harding of San Angelo gave the State Highway Commission authority to alter maximum speed limits. Commission could set them as high as 70 miles per hour.

Also it could set minimum speed limits on controlled access highways, whether within or without a city's limits, regardless of any speed limit set by

city ordinance.

ESCHEAT PROCESS SLOW — It took the 1961 Legislature two special sessions to pass escheat-reporting laws to insure the state's right to dormant personal property and bank accounts, unclaimed for more than seven years by owners whose whereabouts are unknown.

To date more than \$1,600,000 has been collected by the state.

Most came from the "bank escheat" law, which became effective on May 3, 1962. Law requires banks, savings and loan associations and credit unions to publicize dormant accounts in an attempt to uncover lost owners. Unclaimed deposits then are turned over to the state.

So far, this has totaled \$1,340,493.15. A provision in the law allows a person claiming interest in escheated properties to recover his money. This has caused \$1,686.68 to be refunded.

Originally, utility companies, county treasurers, insurance firms, court officers and others affected by the escheat-reporting

law required more than \$3,300,000 worth of unclaimed holdings.

However, by the time public notice was given, the amount dwindled to \$2,260,691.88. Newspaper publicity relative to the new act resulted in numerous inquiries and claims.

### Another nice thing about Savings Bonds is the way they grow on you

Besides growing 33 1/2% bigger at maturity, Bonds tend to settle in and become members of the family.

So, although you can get your money anytime with U. S. Savings Bonds, most people hate to do it. To them a Savings Bond is for the long pull. Sort of an ace-in-the-hole. When the roof needs new shingles, or the living room needs carpeting, a Bond isn't likely to get cashed in if there's any other way to finance the job.

This can come in handy if you're the type who finds it almost impossible to put money aside—and leave it there.

You don't have to worry about the money you put in Bonds, either. It will keep on growing even beyond the maturity date. (People who hold those first Series E Bonds issued back in the early '40s are still earning interest—and at a better rate than they started with.)

Investing in Savings Bonds is popular as well as profitable. Right now Americans own over \$46 billion worth—an all-time high. Besides building financial strength for millions of families, this money is doing an important job for America at a time when the enemies of freedom are stronger than ever.

This month, ask your employer to put \$18.75 (or more) into the Payroll Savings Plan for you. You'll soon have a nest egg you can hang onto. What's more, you'll feel pretty good about it.

**Quick facts about U. S. Savings Bonds**

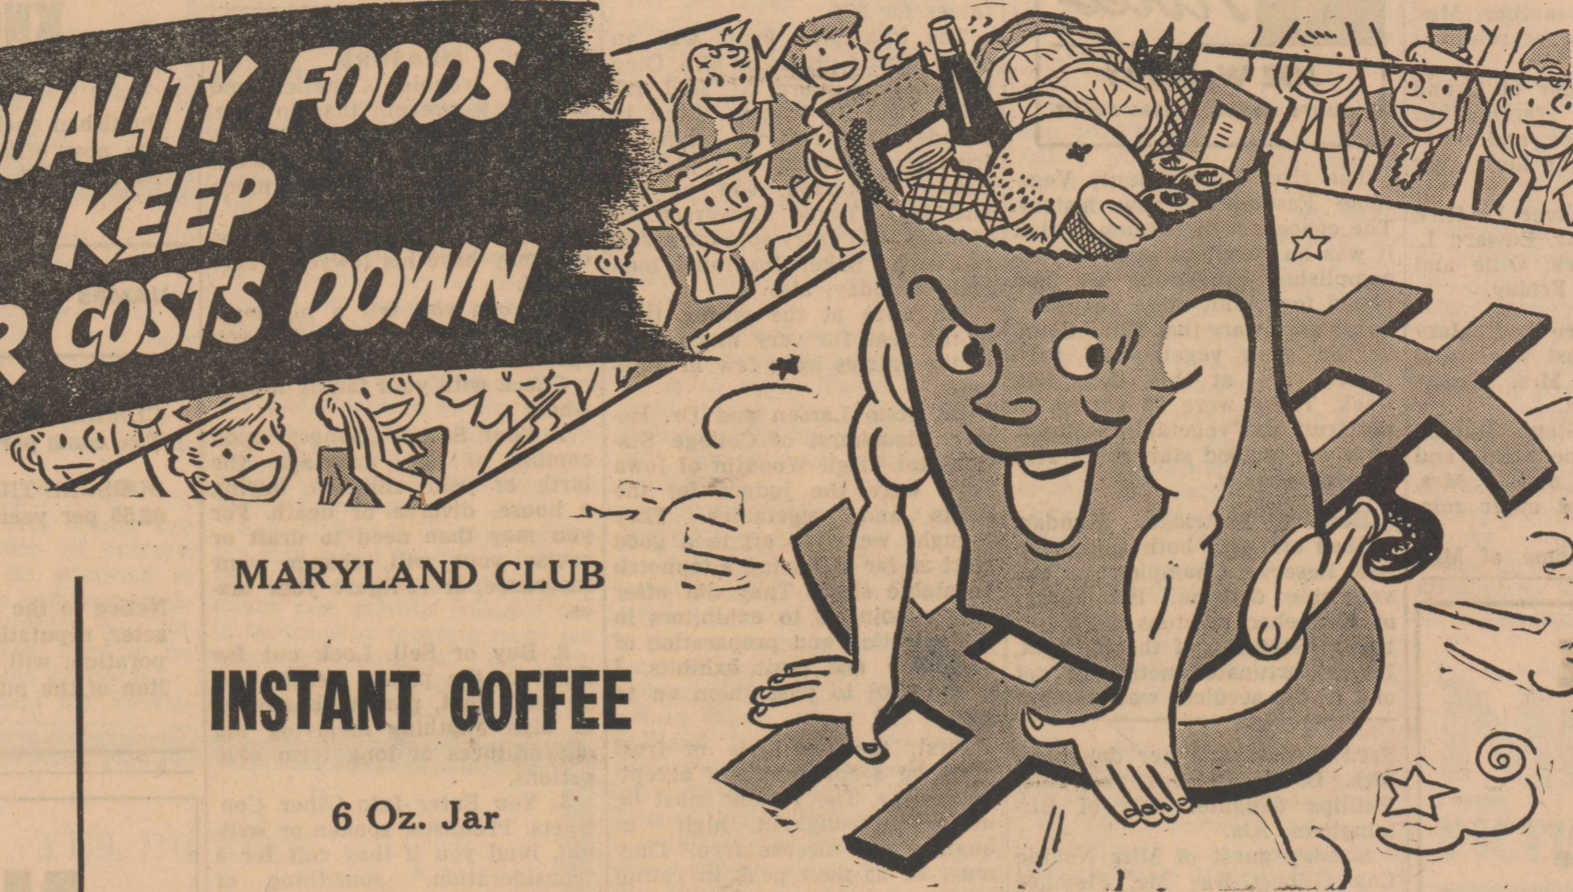

- You get \$4 for every \$3 at maturity
- You can get your money anytime
- Your Bonds are replaced free if lost, destroyed or stolen
- You can save automatically on Payroll Savings

Keep freedom in your future with

**Uncle Ben from Benjamin says:**

DEAR MISTER EDITOR:

I see by the papers where several colleges is complaining that the honor system for taking exams at the end of this school year wasn't working none too good. We used that system back when I was a boy. The teacher would announce that we was on our honor and would we please all set three desks apart. It worked pretty good in them days and I'd recommend it for this generation.

It looks like the value of money is getting less ever day. For instant, I was reading this piece in the papers where penny weighing machines was about to disappear in this country. A feller in Memphis claimed he used to operate 500 of these machines but he's now down to 161 and aims to go out of business. He says they just ain't no profit no more in traveling all over the area collecting the pennies. And up till it took a nickel to mail a letter, the nickel was about to git extink like the Buffalo.

The fellers at the country store Saturday night was setting around giving each other the benefits of their doubts and Ed Doolittle said he had noted where Congressmen from some of the farm states was trying to git a special item in Kennedy's tax cut plan for giving the farm-

er a better deal with taxes. Clem Webster allowed as how this would bring on a heap of confusion on account of ever city gardner claiming he was a farmer. I don't know how this would work out, Mister Editor. I recollect hearing my Pa say one time that a real farmer could hear a hen cackle and tell whether she was laying or lying. If we get this new tax benefit for farmers, we might have to use the laying and lying test.

Zeke Grubb told the fellers he had saw a piece in the papers where the Government was spending \$80,000 at Beltsville in Maryland to build a hospital for the whelping of special dogs. Zeke said he recollected that when old Charlie Wilson took a job in Ike's cabinet he said that

what was good for General Motors was good for the country, and Zeke figgers that what is good for dogs ought to be good for people. He's in favor of the Government building special hospitals for expectant mothers. This bring a round of applause from all the fellers and it was

so voted.

And my pamphlet yesterday from the U. S. Department of Agriculture reported they just completed a "study" showing how much more it costs to feed a teenage boy than a teenage girl. They announce, for instant that it costs on average \$11.40 a week to feed a teenage boy between 16 and 19, and only \$8.80 for a girl the same age. It probably didn't cost more'n \$25,000 to make this "study," so I reckon it was worth it to the taxpayers.

Yours truly,  
Uncle Ben
