

As we write this column Tuesday it is colder than an ice cake in a deep freeze, and the weatherman says more is on the way.

Hope he is wrong again. Friend George Houston says we are getting old . . . and he is probably right, although we hate to see him win an argument.

You may not agree with old George, but you can be certain you always know where he stands, 'cause he will tell you!

This has been the worst winter for us, personally, we can ever remember, and will be thankful when the temperature reaches a 100.

It was so cold Friday, our son and his pop failed to ride the horses, which proves it was bad.

We got in enough saddle time however, to break two young broncs. It was so cold they, too didn't want to do anything!

We feel sorry for today's kids who don't know what milking a cow, breaking a horse, or harnessing a team, means. True, it was hard work, but it was satisfying, also. We read somewhere the other day that what was wrong with kids today was that we have turned the wood shed into a two car garage. This is no doubt true to a certain extent, but if we had had the money, time and fast cars when we were young, we probably would have showed today's kids a thing or two.

True, delinquency and crime go up the ladder each year, way beyond the per capita basis, but you show me a bad boy and I'll show you a delinquent parent . . . fair enough?

Let's face it — kids have always been kids, and they always will be, they will do anything we let them get away with.

At least I like to think mine are as human as I was back 30 years ago!

The Herald feels greatly honored to add to its list of friends and new subscribers Mr. C. W. Robinson, now of Bethany, Okla., who is in Knox City to be with his brother, Vol Robinson, who is seriously ill in the Knox Co. Hospital. Mr. Robinson, who is 91 years young, and his wife drove from Oklahoma, Tuesday. He said he was born in Erath Co., and had lived around these parts for many years as a cowboy, cattle inspector, deputy sheriff, city marshal, and among other things had taught school near Haskell when he was 17 years of age. He said that was a hard job, as some of his pupils were older than he was, and on some occasions had to resort to fisticuffs in order to keep discipline in his school.

Later he was a deputy sheriff in two counties at the same time — Jones and Fisher — and was elected city marshal in Hamlin. He was also the first person there to own a 1914 Model T. Another oddity, Mr. Robinson still drives everywhere (like he did Tuesday from Oklahoma) — and has never had a wreck.

He comes from a family of 12 children, seven girls and five boys, of which he is now the oldest and four of the boys are still living. Mr. Robinson, who is tall and erect as a soldier, doesn't look a day over a young 60 and moves around as though he were 40.

He has never, in all his 91 years, spent one cent for intoxicating beverages, nor tobacco, he said. He does own a pair of glasses, however, but wears them only when reading in dim light!

Mr. Robinson is president of the Robinson reunion, held the third Sunday in August each year, and he is looking forward to a big turnout and get-together of the many people represented by the 12 Robinson children.

He tells some interesting and hair-raising stories about the early days in this part of the country, and we are looking forward to another visit with him in the near future.

FORMER RESIDENT DIES

Word was received Wednesday that Mr. J. R. (Josh) Jennings, formerly of Knox City and a farmer, died in Hedley, Tex., Saturday, March 20.

THE KNOX COUNTY HERALD

NUMBER 18

50th ANNIVERSARY — Mr. and Mrs. Charlie Hamilton will celebrate their 50th wedding anniversary Saturday at the Foursquare Church Fellowship Hall from 2 to 4 p.m.

Kennel Board Has Meeting; Set New Rules

Members of the adult board of the kennel met Monday night to discuss the rules and regulations of the organization. Meeting with the club were Mrs. Jerry Cobb, president of the 1946 Study Club, and Mrs. Bobby Jo Helton, incoming president of the club. The 1946 Study Club is sponsoring organization of the Kennel.

Adult board is composed of two members from the following civic organizations: 1946 Study Club; Mrs. R. P. Barnard Jr., and Mrs. Paul Hoge; Knox City Study Club; Mrs. H. D. Bankston and Mrs. Alton Fitzgerald; American Legion; Kenneth Crownover and Drew Holcomb; American Legion Auxiliary; Mrs. Oleta Fitzgerald and Mrs. Guy Robinson; Chamber of Commerce; Charles Lankford and David Counts; Lions Club; Paul Hoge and Doyle Graham.

KENNEL CLOSED FRIDAY

Kennel Board of Directors informed the Herald that the Kennel would not be open Friday, due to the revival services at the First Baptist Church.

Those who are eligible are teen agers having reached the age of 12 and not having reached the age of 20. No drinking of liquor. No gambling. Members must assume responsibility for Club property. Smoking permitted in the rest rooms only. Closing time will be 11 p.m., 11:30 p.m. after home games. Everyone must sign in and will not be allowed to leave building and return again. Each member will be stamped when they sign in.

The following amendments were made to the constitution and by-laws — The Kennel will be open on Friday nights instead of Saturday nights and after home athletic events and on other occasions approved by the adult board.

Students of the eighth grade and the four high school grades of Knox City and O'Brien High School may be admitted. The treasurer shall be a member of the adult board and shall be responsible for all money received and expended.

Representatives will be selected from the eighth grade and the four high school grades by the adult board. The representatives from the classes will be responsible for the food, clean-up before and after, and decoration.

Every teenager whose application is approved by the board shall receive a membership card of admittance, entitling them to club privileges. Dues will be 25 cents each time.

HERE FROM HASKELL

Mr. and Mrs. P. C. Spenny of Haskell visited friends in Knox City Sunday.

No Room For Mediocrity—

Junior Colleges Need More Funds

By HARLEY PERSHING

Many financial avenues are open to Texas' tax-supported community junior colleges for operation and expansion.

Top educators believe, however, that additional sources of revenue should be made available if the community junior college is to be effective and fulfill its role in the ever-changing 20th Century.

One of these is Dr. C. C. Colvert, professor for junior college programs in the University of Texas' College of Education.

Dr. Colvert, considered one of the top men in his field in the South, thinks it is time the Legislature takes a long look at the junior college program and re-evaluate the tax structure now employed to help finance it.

He is particularly concerned about additional finances to help the community junior colleges

in operating and improving their technical and vocational programs.

Basic financing for the community junior college comes from the region it serves, the city, the district, the county or the bi-county area.

This comes from grants, local taxes and from tuition.

The state also makes a sizable contribution in the form of appropriations based on the number of students enrolled in courses equivalent to those available in an accredited four-year college.

For the biennium which started Sept. 1, the state appropriation is based on a formula of \$375 for each of the first 350 fulltime students plus \$285 each for the number students in excess of 350.

A college having an enrollment of 500 students in fully qualified courses eligible for state aid would receive \$175,000. There are limitations on how this money can be spent. The rule is that it can go for salaries to professors and instructors, and purchase of supplies and materials required for instructional purposes.

This means the money can not be used for capital outlay, purchase of heavy equipment or for expansion of the college teaching plant.

Money from local tax sources must be used for such programs. Here is where Dr. Colvert thinks a change is in order.

For one thing, the state does not contribute funds for use in the technical training program unless such a course is available in the four-year college program. Few such courses are. And these are not the type that answer the express needs of the community which the junior college serves.

There is some state financing available for vocational training. This is money under the federal government's national education act. The money can be spent on instruction and materials.

Dr. Colvert points out that Texas is lagging behind in the field of finances for the junior college program.

He suggests that funds be made available to the junior colleges anxious to improve, expand and develop their technical and vocational training program.

Money should be made available for equipment, machinery, and tools, costly items that frequently cannot be financed at the local level.

Other states undertake such a program and there is no reason Texas can not, he says.

The state of Mississippi, far down on the ladder of excellence in education, makes funds available to junior colleges for these programs, said Dr. Colvert.

If Texas is to meet the challenges of the present and the future, it must be willing to finance some of the cost of upgrading higher education, Dr. Colvert and other educators believe.

And unless higher education keeps pace with the hourly advances in the field of science and technology, the state will suffer irreparable losses in its economy, its development, its growth and its advancement.

With the many changes exploding in the field of technology and research, the junior college is hard pressed to find sufficient money to outfit itself in machinery, tools, equipment and instruments to keep pace with these revolutions.

For instance, equipment for a data processing center runs into thousands of dollars.

Such equipment is vital, however if the school is to train technicians to operate them. Other expensive equipment and machinery are needed, too.

Some schools depend on contributions and grants from interested individuals and firms. These can be few and far between, especially if the number of industries served by the college is limited.

The cost of equipment apparently is the reason the state does not enter the field.

After all, say educators, it is easier and less trouble to teach history and government than it is to tackle electronic computers.

"But," warns Dr. Colvert, "A \$20 does not supply all the answers. We must strive for the best in all fields. There is no room for mediocrity."

Final Rites For H. A. Smith To Be Held Friday

Funeral services for Herbert A. Smith of Truscott, who died at the Ford County Hospital in Crowell Tuesday morning after a week's illness, will be held at 2 p.m. Friday in the First Christian Church in Truscott with R. C. McCord, minister of the First Christian Church of Crowell officiating, assisted by the Rev. F. D. Hankins, pastor of the Truscott Baptist Church.

Burial will be in the Truscott Cemetery.

Mr. Smith was born August 22, 1884 in Texarkana, Ark. He married Myrtle Craig in Lubbock in 1918. They moved to Knox County in 1922, when he helped construct the Humble pipe line through the area. He retired from Humble Pipeline Co., in 1949.

He was a member of the First Christian Church in Truscott.

Survivors include his wife; a son Billy, of Jackson, Miss.; two grandchildren, two brothers, Jack of Boulder, Calif., Kenneth of Pampa; two sisters, Mrs. Gertrude Cantley of Downey, Calif., and Mrs. Maybelle Karouz of Monterey Park, Calif.; and several nieces and nephews.

Pallbearers will be Paul Bullock, Ed Tomaneck, Curtis Casey, J. B. Eubank, Tommy Westbrook and Ray Glasscock.

Pavilion Almost Completed--

City officials and employees are working each day to terminate construction of a pavilion at city park.

All materials and labor are being donated and a list will be compiled at the completion.

Chief of Police Bill Stone was busy Monday digging holes for the posts, Mayor Buddy Angle, Paul Clayton and Jessie James, are also on the scene.

The new pavilion will be a welcomed addition to the park and should be popular during get-togethers and family outings.

Pavilion is located just north of Kennel Club.

Pvt. Jimmy Joe Reid Gets Assignment

FORT BUCKNER, Okinawa — Army Pvt. Jimmy Joe Reid, son of Mrs. LaVina Reid, was assigned to U. S. Army Broadcasting & Visual Aids Activity, Pacific, at Fort Buckner, Okinawa, on March 14, as an offset pressman. Reid entered the Army in May 1964 and completed basic training at Fort Polk, La.

The 21-year-old soldier is a 1961 graduate of Knox City High School and was employed by Childress Office Supply before entering the Army.

Reid served his apprenticeship as a printer at The Knox County Herald, as well as learning to operate offset presses.

His father, O. D. Reid, lives in Stamford.

MISSOURI BOUND

Mrs. E. Q. Warren will depart today for Nevada, Mo., to attend the homecoming of her alma mater Cotley College. She will return home by way of Dallas and attend the National Music Teachers convention there on March 29, 30, and 31, before returning to Knox City.

VISITS HERE

Luncheon guests in the home of Mrs. John Atterbury last Tuesday were Mrs. Jim Reeves, Munday; Mrs. Will Berry, Lubbock; Miss Dorothy Perry, Washington D. C.; Mrs. B. B. Campbell and Mrs. T. S. Edwards, Knox City.

Cancer Crusade Slated For April 27

Cancer Crusade date has been set for April 27, Mrs. Ed Bateman, Jr., County Chairman for the American Cancer Society announced Wednesday.

Names of town chairmen for Knox County are:

Mrs. W. N. Rake, Truscott; Mrs. Mary Stone, Benjamin; Mrs. O. D. Burgess, Gilliland; Mrs. George K. Cotton, Goree; Mrs. Robert Friske, Rhineland; Mrs. Nellie Russell, Vera; and Mrs. Bobbie Jo Helton, block chairman for Knox City.

SCS Says Many Benefits To Feed Grain Program

Growers who participate in the 1965 feed grain program will have definite advantages over growers who elect not to participate, according to O. E. Moore, chairman, Knox Agricultural Stabilization and Conservation Committee.

First, he explained, the diversion payment earned for reducing the farm's 1965 acreage of corn, barley, or grain sorghum, assures the participating grower of a substantial income from the diverted acres, regardless of drought, flood, insects, hail, or crop disease.

This is also true of the price-support payment which is made on the acreage planted in 1965 to one or more of the three feed grains — no matter what disposition is made of the crop, the price-support payment is assured.

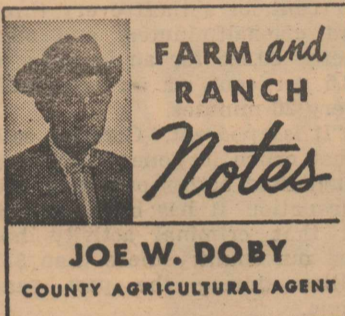

And, third, price support is available through loans and purchases on the participating farmer's entire 1965 production of the three feed grains.

Furthermore, the chairman said, if the farm operator requests it, and advance payment of one-half of the estimated and diversion payment will be made at the time of signing up or as soon as possible after that time.

Growers take part in the feed grain program by diverting at least 20 per cent of the provisions of the program. If more than the minimum acreage is diverted, a higher rate of payment will apply. Maximum diversion is 50 per cent of the farm's feed grain base or 25 acres, whichever is larger.

The minimum rate of payment is based on one-fifth of the county's total price-support rate (the county loan rate plus the price-support payment rate). A higher rate (one-half the total price-support rate for the county) applies to diversion between 20 and 40 per cent of the base. If 40 per cent or more of the base is actually diverted, the higher rate applies to the entire acreage diverted.

Farm operators may file applications to take part in the 1965 feed grain program at the Knox ASCS County office. The sign-up extends through March 26.

The Southwest Animal Health Research Foundation is again asking livestock producers for help in screwworm eradication.

The Federal government is due to take over the normal program of maintaining barrier zones on July 1. It will take \$1,100,000 between April and June 30, to run the program.

The Texas Legislature has recently appropriated \$250,000. If livestock producers will raise \$300,000, then these two figures will be matched by federal funds.

Contributions are based on 10 cents per head for cows or horses and 10 cents for each five sheep or five hogs.

J. D. Smith, Truscott, is Knox County Chairman and B. B. Campbell, Sr., Knox City, is the treasurer.

Producers may turn in their contributions over to any of the following men: Truscott — J. D. Smith; Gilliland — J. T. Cook; Vera — Gaylon Scott; Benjamin — Pate Meinzer, Ed Moorhouse; Knox City — Victor Thomas, Clifford Cornett; Munday — Kenneth Baker, W. R. Moore Jr.; Goree — John Broach, George Hunt; Rhineland — Marvin Zeisland.

Results of analysis of irrigation well water from two wells near Munday show an alarming increase in salt content of the water. One well has a total salt content of 1.6 tons per acre foot while the other has 2.4 tons.

This would indicate that salt water is breaking through to the Seymour formation. This amount of salt added to the soil could cause accumulation of salts that would be very injurious to cropland.

The Soil Testing Lab at College Station will make analysis for salts in irrigation water.

Forms and instructions for taking samples are available from my office.

Plastic bottles should be used to mail the sample. Be sure the bottle is clean. Let the pump operate for two to three hours before sampling and take the sample at the well. With each water sample, include a soil sample. Cost of testing irrigation water for total salts, ph, cations and anions is \$5 per sample. Cost of testing the soil sample is \$4 per sample.

Lions View World Series Film

Knox City Lions Club members were entertained at their Wednesday noon luncheon with a film prepared by Coca Cola Bottling Co., of the World Series baseball games.

Monty Penman was program chairman this week.

IN OLD MEXICO

Paul Hoge, Roy Stewart, Larry Don Lain, W. L. Conn and Pat LeRoux departed Knox City Sunday for three days in Tampico, Mexico.

Mrs. Darland Is Party Honoree

Mrs. Ted Darland was honored with a going-away coffee, Friday morning at the home of Mrs. John L. Grindstaff Jr. Mrs. S. L. Hansard, Mrs. Darland's mother, was also an honored guest.

Mrs. Darland was presented a gold bedspread, gold magazine rack, and Fostoria Coin Glass candy bowl from the hostesses.

Mrs. Hansard was presented a gold pin and earring set.

Coffee and donuts were served to approximately 30 guests. The table was decorated with yellow daffodils, with a yellow bow and streamers with "Best Wishes From K. C." on it.

Hostesses for the coffee were Mmes. Jerry Guinn, Wynndol Stephens, David Counts, Jerry Cobb, Bobby Joe Helton, Don Railsback, Robert Ferrier, Donald Johnson, Guy Robinson, Tommy Richardson, John L. Grindstaff, Jr., and Jim Bate-man.

Federal Insurance Deadline March 31

The time is growing short for accepting applications for Federal All-risk Protection on '65 cotton crops in Knox County. March 31 is the final date that a producer may apply for cover. Federal Crop Insurance cov-

ers the approximate cost of producing a cotton crop, against all hazards, such as weather conditions, insect infestations, plant disease, or any other cause of loss beyond the farmers control.

Federal Crop Insurance, an agency of the U. S. Department of Agriculture has an office on the third floor of the Courthouse in Vernon.

Information may be obtained at the office or by calling one of the following fieldmen, Dick Wilcox, 658-7763, Knox City or Dude Coffman, 436-2533, Goree.

O'Brien News
MRS. SAM JOHNSTON

Mr. and Mrs. R. M. Johnston left Sunday for Toledo, Ohio, to visit Mr. and Mrs. Walter York and children. Mrs. York is the former Jozelle Johnston. Clifton Duncan, Mrs. Ruth Johnson and Mayo Morris visited relatives in Weatherford over the week end. Debbie Burleson returned home with them for a visit.

Mr. and Mrs. B. E. Henry visited relatives in Vernon over the week end.

R. B. Johnston of Iowa Park visited relatives here Saturday.

Mr. and Mrs. Grady Murry, Kevin and Reed of Edmondson spent the week end with Mr. and Mrs. Grady Ellis and David.

Mr. and Mrs. Keith Fry spent the week end in Frederick, Okla. visiting relatives.

Mr. and Mrs. Eddie Adkins, Jim Edd, Mary Lynn and Jean Carol Hester were in Abilene Sunday to visit Mrs. Jim Tankersley, who is in Cox Memorial Hospital.

Mr. and Mrs. W. R. Baker and Mrs. Veda Reed spent Friday night and Saturday in Stephenville with the following F. H. A. girls who attended a district FHA meeting; Betty Henry, Betty Middlebrooke, Brenda Conn, Nelda Covey, Roxye Day, Sandra Walling, Shirley Johnston, Connie Bryant and Carol Cox.

Mr. and Mrs. Jessie English and family moved to Bronte last week where he was transferred.

The S. Lopez family moved to Raymondville last week where they will be employed.

Billy Vannoy and County Supervisor Loyd Jones were in San Angelo Monday.

Andy and Julie Hines of Munday spent the week end with their grandparents, Mr. and Mrs. Ranzy Herring.

Sam Johnston is in Dallas this week where he will be employed for a week.

Mr. and Mrs. Clyde Williams of Hale Center visited Mrs. Elmo Stephens and Butch last week.

Mr. and Mrs. Ayres Cox and Carol spent the week end in Anson visiting Mr. and Mrs. James Creel and family and Mrs. Tommie Duncan.

Mrs. Adlerle Herring visited her mother, Mrs. J. W. Hewitt in Rochester, Monday.

Recital Held For Warren Pupils

The first in a series of recitals to be presented by pupils of Mrs. E. Q. Warren was given Saturday in the Educational Building of the Methodist Church.

Title of the program was "Fun on Saturday." The following children presented the program:

Doak and Timi Graham, Jarre Sharp, Melinda Bankston, Tex Ann Partridge, Karen English, Susan Mullino, Donna Keathley, David Ivie, Martha Jones, Rob Harrison, Patricia Lewis, Jan Guinn, and Diane Clonts.

In one number they were assisted by younger brothers and sisters who were Mark Clonts, Gary Keathley, Cherri Sharp, Reida Mullino, Sheryll Guinn.

David Hoge was Mr. Candid Camera and took pictures of the children as they performed.

Soils--The Key To Proper Land Use, SCS Claims

By U.S. Dept. of Agriculture
Our soil and water conservation program begins with the soil. Most of our soil and water problems are tied closely to the oils of the area where the problem exists. The productivity and potential productivity of all tracts of land are determined, to a large extent, by the soils.

Soils differ from one another in many ways. Some soils are sandy while others are clayey. Many soils differ from one another in the rate that they will take in water. Wind erosion may be a problem on one oil while water erosion may be a problem on another soil. Some soils can be cultivated with few limitations while other soils have many limitations and are best suited for rangeland. Some limitations can be corrected while other limitations we recognize and have to learn to live with. Each soil has a unique set of characteristics.

By knowing the kinds of soils

Deadline Drawing On Vehicle Inspection Sticker

Less than one month remains for some 1,500,000 vehicles registered in Texas to secure the 1965 safety inspection sticker, Col. Homer Garrison, director of the Texas Department of Public Safety said today.

"The period set by law for securing the 1965 sticker ends at midnight, April 15, and there can be no exception of that deadline," Garrison said. "Any Texas motorist whose vehicle does not display the new sticker after April 15, is subject to arrest by any sheriff or his deputy any city policeman, or by officers of the DPS."

Garrison said that in the remaining month of the inspection period there is sufficient time for the 5,300 official inspection stations to inspect the remaining vehicles without undue inconvenience to the motorist, provided the vehicle owners act promptly.

"From now until the deadline, every minute of the inspection station's time will be at a premium," Garrison warned, "and waiting lines will become general throughout the state."

Garrison suggested that congestion at inspection stations would be lessened if known defects in a vehicle were repaired prior to presenting the vehicle to the station for inspection.

O'Brien Seniors To Sponsor Bingo Party

The O'Brien Senior Class will sponsor a bingo party Friday, March 26, at 7 p.m. in the school cafeteria. Price will be ten cents a card.

Seniors will be at the John Deere house in Rochester April 3, and will receive a certain percent of John Deere products sold that day.

HERE FROM GOREE

Mr. and Mrs. Joy Glidewell and children of Goree visited Mr. and Mrs. C. S. Woodward Sunday afternoon.

on our farm or ranch we know the limitations of our land. We determine which limitations are economical to correct. We can predict how our land will respond to various types of use and treatment.

To know the kinds of soils for a given area we need a soil survey. Soil surveys are made by soil scientists. In making soil surveys soil scientists determine the depth of the soil, its texture, structure, color, rate which the soil will take water, and other characteristics which influence the behavior and potential behavior of the soil. The boundaries of the soils are located and plotted on aerial photographs. These are called soil maps.

Soil surveys are made through the National Cooperative Soil Survey. All soils are classified and named according to a national system. A copy of these surveys are on file in your local Soil Conservation Service office.

Charlie Hamiltons To Celebrate 50th Anniversary Satur.

Mr. and Mrs. Charlie L. Hamilton will celebrate their 50th wedding anniversary Saturday, March 27, in the Fellowship Hall of the local Foursquare Church. Their children will host open house from 2 until 4 p.m. The Hamiltons were married March 28, 1915 in Troupe, Texas, and made their home there until moving to Knox City in 1942. Their children are Mrs. Judy Cox of San Benito, Mrs. Ida Strickland, Mrs. Nell Watson, and Chester Wayne of Dallas, and Jack of Knox City; five grandsons and nine granddaughters.

RETURNS HOME

Mrs. J. C. McGee returned home Saturday afternoon after receiving surgery in Fort Worth Hospital last week.

IN MIDLAND

Mr. and Mrs. Bill Sams spent last week end visiting his mother, Mrs. Amelia Sams in Midland.

Salmonellosis, A Disease, Caused By Contaminated Food

Salmonellosis may sound like a new dish to eat, but instead, it is a disease.

Fatalities from the disease occur usually in the older person or the very young, but anyone who has had Salmonellosis will vouch that he doesn't want it again.

The number of cases in the nation has greatly increased in the last 20 years — from 726 cases in 1945 to 9,680 last year.

First, some basic facts about the disease. It is carried when a Salmonella bacillus enters man, usually through eating or drinking contaminated foods.

About 12 to 48 hours later, the person becomes ill — with diarrhea, vomiting, fever.

Almost all types of warm and cold blooded animals have been found infected with Salmonellae — The organisms are shed in the body discharges of the infected animals and man. Either a man or an animal may carry the bacteria without seeming to

HERE FROM LEVELLAND

Mr. and Mrs. Howard Mayfield and children visited her parents, Mr. and Mrs. J. C. McGee last week end.

RETURNS FROM ROSWELL

Mrs. Hass Huntsman has returned home after spending several weeks with her daughter-in-law, Mrs. Harold Huntsman, in Roswell, N. M., who had spinal surgery there March 9.

have the disease.

What is being done to combat this ever-growing problem?

Public health wise, careful efforts to record and check the incidence of Salmonellosis, both state and nationwide, are underway to aid detection and isolation of trouble spots. Food and drug leadership, physicians, veterinarians, industrialists and others are concerned about the situation.

But the quickest and surest preventive methods lie with individual efforts, either in your own home or if you work in the food service industry.

Thoroughly cook meat and other foods before tasting, eating or serving them. Also, avoid the possibility of contamination of work areas in the kitchen by preparing foods on a disposable paper and washing them thoroughly with hot detergent water.

Refrigerate both cooked and uncooked foods to prevent multiplication of bacteria.

And when preparing ready-mixes, cook them well before tasting and wash containers with hot detergent water before re-using.

Thorough hand-washing before eating and after a visit to the toilet is also important.

Salmonellosis, statistics show, is on the increase, but you can cut your chances of contacting it in your own kitchen and through your own efforts.

Major Crime Still Going Up In State

Major crime spread across Texas at the rate of one offense every two minutes in 1964 to chalk up a sharp 13.8 per cent increase over the previous year and set a new all-time high in crime, the Texas Department of Public Safety reported today. Col. Homer Garrison, DPS Director, said that all seven categories of major crime showed alarming increases for the past year. The report is compiled from data reported to the Department by Texas sheriffs and chiefs of police.

The estimated number of major offenses totaled 260,860 compared with 229,254 during 1963. "Even more alarming than the tremendous number of offenses is that the rate of crime (the number of offenses for each 100,000 population) is steadily increasing," Garrison stated. "The crime rate for 1964 was 2,723.0 compared to 2,393.1 for 1963.

In breaking down the major crime categories, Garrison told the estimated number of offenses and the frequency with which they occurred. These are: Murder and homicide, a total of 1,153 for an increase of 6.7 per cent, or one offense every seven and one-half hours; rape, a total of 1,569 for an increase of 18.4 per cent, and one offense every five and one-half hours; robbery, an estimated 4,052 for an increase of 25.8 per cent, or one robbery every two and one-quarter hours; burglary, 64,446 for an increase of 10.2 per cent, or one every eight and one-quarter minutes; aggravated assault, 16,551 for an increase of 22.4 per cent, or one every thirty one and three-quarters minutes; theft, 152,863 for an increase of 13.6 per cent, or a theft every three and one-half minutes; and auto thefts, 20,226 for an increase of 18.5 per cent, or an auto theft every 26 minutes.

"It is apparent," Garrison said "that crime in general is riding rough-shod across our state and our nation. It has been estimated that criminal activity has cost our country more than \$27 billion during the past year alone.

"The people of our times have been presented a challenge of overwhelming proportions. This challenge cannot be met until every citizen realizes that crime is everyone's problem. Everyone is involved, and it is the duty of each citizen to follow principles of good citizenship and accept responsibility in combating this menace."

ATTENDS BANQUET

Mr. and Mrs. John A. Smith attended the Chamber of Commerce banquet in Munday Tuesday night.

HERE FROM TEMPLE

Mr. and Mrs. Clyde Graham, Bill, Susan, and Janet of Temple spent last week end here with his parents, Mr. and Mrs. L. W. Graham and other relatives.

CUB SCOUTS MEET

Den 3 of the Cub Scouts met Wednesday March 17, at 4 p.m. in the John Egenbacher home. All members with one exception were present. Officers elected for the coming year were: President, Greg Clonts and secretary Leslie Fitzgerald.

VISITING IN LUBBOCK

Mrs. Lilah Campsey and Mrs. H. S. Patterson are visiting relatives in Lubbock this week.

MIDLAND VISITORS

Visiting in the home of Mr. and Mrs. Guy Robinson and Mr. and Mrs. Jim Bateman were Mr. and Mrs. Jim Robinson, Jami and Julie of Midland, and Guy T. Robinson, of Lubbock.

ATTENDING SCHOOL

Clarence S. Woodward is attending a County Service Officer school in Lubbock this week. He will return home Friday afternoon.

ANNOUNCE MARRIAGE

Mr. and Mrs. C. C. Hoge announce the marriage of their daughter, Mary Leone, to Mr. Robert A. McMurray, on March 20, 1965, in the Central Methodist Church in Richmond, Indiana.

The couple will make their home in London, Ohio.

ATTENDS CONFERENCE

Attending the Northwest Texas Conference of the WSCS of the Methodist Church meeting in Stamford March 18-19 from the Knox City church were Mmes. L. N. Bridges, T. S. Edwards, Ernie Wilson, Rosa Wilson, George Davis, L. W. Graham, Joe Clonts, Marvin Jones, V. R. Dodd, Jarrell Sharp, Travis Thompson, Kenneth Crownover, Clyde Bouldin, C. C. Hoge and Allen McGaughey.

CARD OF THANKS

We want to express our sincere appreciation to our many friends who assisted at night, to the doctors and nurses of the Knox County Hospital for their devoted care, to those who sent flowers and cards, to the ladies of the Methodist Church who prepared and served food, and all others who helped in many ways during the illness and of our beloved father and grandfather, Mr. Ed Helms. May God bless each of you. The Helms Children and Grandchildren.

ABILENE VISITORS

Mr. and Mrs. Ronald Voss of Abilene visited their parents, Mr. and Mrs. Doyle Graham and Mr. and Mrs. Clyde Voss over the week end.

HERE FROM TEMPLE

Mr. and Mrs. Clyde Graham and children of Temple were week end visitors in the home of Mr. and Mrs. L. W. Graham and other relatives from Friday to Sunday.

ATTENDS GUILD

Mmes. Paul Hoge, Doyle Graham, Oleta Fitzgerald and Alton Fitzgerald attended the Wesleyan Service Guild on Saturday and Sunday.

ON TWO WEEK'S LEAVE

Richard Averitt, Sonar Technician for the Navy, arrived in Knox City from San Diego, Friday to be with his wife Nellie and son Ricky for a two weeks leave. He is the son of Mr. and Mrs. Gerald Averitt. He will return to Viet Nam where he is stationed on a missile destroyer.

HERE FROM DALLAS

Dr. and Mrs. Charles Markward and Chuck of Dallas were here visiting friends Friday and Saturday.

TO GO TO RIO HONDO

Mrs. Hass Huntsman will depart Knox City Saturday for Rio Hondo to join her husband who will work there for the next few months.

VISITS DAUGHTER

Mr. and Mrs. L. D. Raynolds spent last week with their daughter and family, Mr. and Mrs. Tommy Brightwell, Larry and Leslie in Amarillo.

VISITS HERE

Week end visitors in the L. D. Reynolds home were Mrs. Oddie Brightwell of Gorman, and her son Tommy Brightwell and family of Amarillo.

Texas A&M College furnished more officers to the Army in World War II than did West Point.

Tyler, Texas, raises more than two-thirds of the commercial rose bushes grown in the United States.

WE NEED YOUR HEAD IN OUR BUSINESS

8 Ozs. Insecticide—Enough For 1 Acre?

Sounds impossible, yet it's true. Amazingly enough, 8 ounces (one cup) of pesticide is enough to effectively control boll weevil infestations on an acre of cotton. In two years of testing the U. S. Department of Agriculture proved it could be done by employing a new concept in aerial pest control — ultra-low volume aerial spraying with Malathion LV Concentrate.

Plant Pest Control Division officials find that this revolutionary spray technique eliminates 97 per cent of the total material it once took to spray an acre of cotton for boll weevil. And they have successfully sprayed cereal grains for cereal leaf beetles and range-lands for grasshoppers—achieving effective control in both cases. Their findings — low-volume aerial spraying is more effective, saves time, cuts down on extra equipment (1 plane does the work of 4) — actually makes obsolete all formerly used methods by air. It enhances safety in flying (applicators fly higher) and makes aerial insect control more economical than ever before.

Here's how low-volume spraying makes 8 ounces of malathion cover an acre of cotton:

The secret lies in slightly modifying a plane's spray equipment — both in the plumbing and on the trailing booms. To each boom, the applicator attaches flat spray nozzles. These are equipped

DROP SIZE and DISTRIBUTION

Rate: 8 Fluid Ounces Per Acre

DIAMETER OF DROPS IN MICRONS LEAVING NOZZLES 100

DROPS PER SQUARE INCH ON PLANT SURFACE 72

U.S.D.A., P.P.C.

with nozzle tips that can break up 8 ounces of pesticide fine enough to leave a deposit of 72 drops per square inch of crop surface. In other words — one-half pint of total material is enough to cover an acre of cotton — and effectively kill boll weevils.

Ultra-low-volume spraying of Malathion LV Concentrate is earmarked for large scale commercial use in 1965 against the destructive weevil. This insecticide was recently accepted for aerial use against the cereal leaf beetle, grasshopper and beet leafhopper as well as the boll weevil.

Plant Pest Control Division officials reported excellent control of all these insects through low-volume aerial sprays with Malathion LV Concentrate. They also selected this pesticide because of its low mammalian toxicity, non-persistence, and its clearance for use on hay and grass crops on the day of harvest or grazing.

Chevelle Malibu Sport Coupe

No matter how you look at it, this car makes a lot of sense.

If you're interested in value (and who isn't), the eleven features above give you a good idea why more intermediate-size car buyers are thinking Chevelle.

If you're looking for a wide power choice, Chevelle starts out with a standard 120-hp Six, an ideal city performer. After that you may order from a variety of engines that turn it into an even greater highway performer.

Room? Large door openings. Wide

curved side windows for extra shoulder room. Great front and rear leg room. Those four, five or six passengers have it made. And so do you. Chevelle may seat like a big car but it handles like a smaller car.

Comfort? Thick wall-to-wall carpeting in Malibu models. Foam-cushioned seats. Easy-to-read instrument panel. The whole interior looks like those in cars costing far more.

Come on down to our showroom and take a drive soon. Chevelle begins to make even more sense after you've gone a couple of miles.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Gov. John Connally's push for four-year terms for governor and other statewide officials who now are limited to two years between elections is being bottled up in a balky committee.

While the Senate Constitutional Amendments Committee advanced the proposal with minimum dissent, its House counterpart has postponed action until Mar. 30. Rep. John Allen of Longview is chairman of this House Committee.

Opponents, led by Rep. Bill Hollowell of Grand Saline, made

no secret of the fact they hope to block it indefinitely.

The resolution has tremendous political impact, agrees House sponsor Rep. Gene Hendrix of Alpine.

If Connally runs for re-election, as many feel he will, a four-year term would place him only at the mid-point of his 3rd term when the national elections roll around in 1968. He thus would be free to concentrate his efforts on helping old friend President Lyndon Johnson in his expected bid for another four years in the White House.

Opponents offer a variety of reasons for their stand. Some say they don't want the governor in a position to take a hand in legislative races during his "off" year. Others claim they have no objection to the governor's having a four-year term but don't want to extend the benefit to other statewide officials now limited to two years. Still others believe officials should be answerable to the voters often.

Proponents argue just as convincingly that most states already allow four-year terms to their chief executives, and that longer terms would give officials more time to concentrate on their duties without pressure of frequent political campaigns.

Odds are that the governor eventually will find a way to get a floor vote on the proposed amendment to the constitution before session's end. Then, assuming the necessary two-thirds of lawmakers approve, it will be up to the voters to judge the issues raised.

WATER BILL — Most important piece of water legislation to come before the current session was introduced in the deadline rush.

Bill by Rep. Raleigh Brown of Abilene lays out a way for Texas to find out how much water it has in its streams and who can use it.

Water belongs to the state.

Streams In Desert Places

Ozelle Stephens

"Blessed are the peacemakers: for they shall be called the children of God."

To be a peacemaker one must have the Power of God in his life; the power that God gives to the believer to make him need never defend itself. So, if

Bill was sent to sub-committees in both panels. House may pass it, but chances in the Senate appear dim indeed.

FARMER SELF-ASSESSMENT — A bill by Rep. Felix McDonald of Edinburg to authorize agricultural producers to assess themselves up to one per cent the value of their produce for advertising, research and marketing funds was assigned to study by a subcommittee of the House Constitutional Amendments committee.

Bill provides that if voters authorize the amendment in 1966, farmers within specified areas still would have to vote the assessment on themselves by at least a 2-to-1 vote. Amendment could be canceled by a simple majority vote later.

Proponents say the assessments would be much less than authorized and that any farmer who requested refund of his assessment would get it back.

Opponents believe the assessment would be a tax authorized by the Legislature, but imposed by a non-governmental body and that the money, as the bill is written, could be used to the detriment of farmers who contributed to it.

Rep. Jake Johnson of San Antonio says he will continue to push for hearing of his open saloons bill but admits it has little chance.

"OPEN MEETINGS" CHANCES DIM — Legislation to restrict secret sessions of government agencies again is in trouble.

Bill received a cold reception in the Senate State Affairs committee. Sen. George Parkhouse of Dallas suggested it should be killed on the spot. Sen. Tom Creighton of Mineral Wells offered an amendment to force newsmen to disclose their sources of information when questioned in court.

House State Affairs committee offered a more sympathetic

become a son of God. Truth one has the truth in himself and in his life he has peace with himself and with God. This is very necessary before you can help others. People sense your inner serenity and often times you do not need to say a word to cause dissention to dissolve.

Through prayer and faithful communion with God we attain inner peace and serenity that passes the understanding of man.

MEDICAL CARE OR "MEDICARE" WHICH DO YOU WANT?

TEXAS today has one of the nation's finest, most comprehensive programs of medical care for the aged. These programs—the Texas approach, we call it—include medical benefits to Old Age Assistance recipients and extensive health cost protection through the use of special insurance plans for the aged. The Texas legislature is also expected to implement a medical care plan for those who are not on Old Age Assistance but who do need help in meeting medical expenses.

Consider these facts:

- 229,000 needy aged, representing 30 per cent of Texas' entire aged population, now have a Blue Cross-Blue Shield health insurance policy paid for by the State,
- This State program provides hospital, medical, surgical, x-ray, and nursing home benefits,
- 72% of the aged in Texas now have one or more health insurance policies,
- Through the "Texas 65 Health Insurance Plan," Blue Cross' "Senior Texan Service," and other special programs offered to the aged by private companies, health insurance is available to all who want it at a reasonable cost,
- Studies by Belden Associates indicate that only a small percentage of the aged actually still need and want help in paying health costs (these aged would be covered by the program now being considered by the Texas Legislature).

In view of these facts, the national "medicare" tax proposal (the King-Anderson bill,

H.R. 1) is not needed. "Medicare" benefits are very limited, covering about one quarter (25%) of the total yearly health care costs of the average aged person. "Medicare" would not cover physicians' services or surgical charges, nor would it cover the cost of drugs outside of institutional care.

The "medicare" proposal is an extremely expensive one. While we all are starting to enjoy a reduction in federal income taxes as a result of action by Congress last year, the "medicare" program would cost an estimated \$1.7 billion dollars in additional taxes the first year. "Medicare" would increase payroll taxes to cover everyone over 65—even the wealthy. The employee who now pays a maximum tax of \$174 annually would find the amount for Social Security benefits and "medicare" increased to \$291 by 1971. Employers would pay a similar increase for each employee, thus resulting in higher prices for goods and services.

The Texas approach of providing medical, surgical and hospital care to those who need it is a more comprehensive, more economical program than "medicare," and it provides more benefits. If you object to paying higher payroll taxes for an undesirable, unneeded program, write your Congressman today. Ask him to oppose the "medicare" tax proposal, mentioning the programs for the aged now available in Texas. Ask him to support the Herlong-Curtis Elder Care Bill (H.R. 3727), which would make possible the broadening of the existing Texas program to provide medical, hospital and nursing home care for those few remaining aged who are still in need of help.

PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT

- \$360,000 utility expansion
- \$206,000 in new homes
- \$209,000 paving and sewers
- \$140,000 commercial buildings
- \$300,000 school auditorium
- \$85,000 new church

Stamford blossoms out with a bouquet of community improvements

Projects totaling \$1,300,000 are under way or recently completed in Stamford covering a multitude of community improvements. In addition to church and school construction, new commercial buildings, a \$206,000 new home program and major utility expansions, the city has a record breaking \$209,000 street paving and sewer improvement program. Stamford is one of the many towns in our service area engaged in community development programs of this type. The Stamford record is a PATTERN FOR PROGRESS showing what can be done in community development, improving the chances of continued economic growth and attraction of new industry to the town. Growth conscious towns are invited to contact their local WTU manager for assistance from our area development representatives.
