Longhorns Prep For Grid Wars

LONGHORN BACKFIELD- - This is the way Hart's backfield shapes up this fall. From left are Halfback Billy Farris, Fullback Johnny Kittrell, Quarterback Joe Rubalcaba, and Halfback Dennis McLain. Center is Phil Green. Changes In Line-Up

Coaches Dub Cleveland and Eddie Nicholson made some switches this week in an effort to come up with a starting eleven as the Hart Longhorns continued practice sessions.

The coaches moved Johnny Kittrell from end to fullback, Tommy Morrison from center to tackle and Carl Ward from guard to end.

As a result, it appeared the following would make up the staring backfield: Joe Rubalcaba at quarterback, Dennis McLain and Bill Joe Farris at halfbacks and Kittrell at fullback.

Ward and Gary Heller are manning the end posts, with Guy Scoggins and Morrison at tackles. The guards are Jerry Shive and James Mitchell. Phil Green is at center.

Big problem at the moment is depth. The coaches have five boys who are shooting for berths in the line. They are Kenneth Bailey, David Smith, Larry Mc-Kay, Gilbert Guzman and Danny Rodriquez.

Four other boys are seeking backfield spots, brothers Mark and Doug Martin, Harvey Sullivan and Steve Myrick.

Opening game is Sept. 7 at New Home.

A federal grant for construction of a sewage treatment plant, sewer pump station and force main for the City of Hart has been approved by the U.S. Public Health Service.

This was made known this week in a telegram from Gong. Walter Rogers to Mayor Ed Harris.

City bonds for the project, which were approved by voters in an election last September, have been sold, said Mayor Harris.

Bids on the construction for the project will be taken soon, the mayor added.

Operation Leaves Off Aids Machine Harvesting

Last year 64 percent of the Texas cotton crop was machine harvested -- 13 percent by and sprays. Dust defoliants remechanical pickers and 51 per-cent by strippers. The trend is upward for this type of har-vesting, says Fred C. Elliott, cotton specialist for the Tex-as Agricultural Extension Ser-vice vice.

the machine harvesting of cotton, he says, is the use of either defoliants or desiccants for preparing the cotton plants for the harvesting process.

quire leaf moisture to activate them and therefore give best results when applied late in the afternoon or early in the morning, says Elliott. Spray defol-iants are available as chlorate An important consideration in terials. They may be used in the absence of moisture and at lower humidity levels. Thorough coverage of the plant is essential.

With ground sprayers, 10 to Defoliants are used to pre-pare the cotton plants for spind-ommended as the carrier for

the material used, depending upon the type of sprayer and the extent of plant growth, explains the specialist. Applica-tions of the defoliants should be staggered in order to stay just ahead of the harvesting operation and as a means of reducing regrowth, points out Elliott. He emphasizes that only recommended defoliants should be used. When 60 percent or more of the bolls are open most defoliants can be safely used, he says.

Arsenic acid and pentachol-rophenol are the materials commonly used for desiccanting purposes, that is preparing plants for stripper harvest. These materials can be used in water as recommended by the manufacturers. Desiccant applications should be made when more than 60 percent of the bolls are open under dryland conditions and on irrigated cotton when more than 80 percent of the bolls are open. No fiber damage should occur when recommendations are followed, Elliott says. For detailed information, he

suggests that growers get from the local county agent's office a copy of L-145, "Texas Cot-ton Defoliation Guide."

Hay Fever Preventatives Are Listed

Hay fever, producer of sev-eral million watery eyes, runny noses and sneezers each season, is produced by substances called allergens. One of the most frequently involved allergens in hay fever in ragweed pollen.

From mid-August to first frost is the worst season of the year for have fever sufferers.

When the hay fever allergen enters the body it speeds up production of antibodies. These chemical policemen rush to battle the allergen and the ac-

tion releases powerful chem-icals. One of these is hista-mine. The favorite temporary remedy is an antihistamine, to combat the effect of histamine in the body.

A tolerance to pollens can be built up by injecting a dilute solution of them under the skin, says Today's Health, the magazine of the American Medical Association. The common method is to begin three months ahead of the season and inject increasingly large doses at five-day intervals. These shots must be given only by experts. Improperly used they could cause more trouble than the hay fever itself.

Hay fever is a wide open field for the medical quack, and the sufferer will hear of a wide variety of "cures." Most of them are useless. The most

Services Held For Brother Of Hart Man

Funeral services for James T. Harris of Tulia, brother of Ed Harris of Hart, were conducted Saturday Aug. 25 at 2:30 p.m. in the First Methodist Church in Tulia. The Rev. H.B. Coggin, assisted by the Rev. Lewis W. Kourselman, officiated. Burial was in Rose Hill Cemetery.

Harris was killed Aug. 22 when his car collided with a truck about a half mile north of Tulia on Highway 87. A volunteer fireman, Harris was returning from a false alarm rural fire call when his car rammed into the grain truck.

The truck driver, Virgil Allen, was not injured.

Harris was owner of the J.T. Harris Lumer Co. He was a member of the Tulia Masonic Lodge, the Shrine Temple in Amarillo and the Scottish Rite in Dallas. He was veteran of World War II, serving in the Navy.

Survivors include his wife, Marie; two daughters, June Harris, Tulia; and Mrs. Sue Montgomery, Olen, New York; one other brother, Charles Loaraine Harris, Amarillo; two sisters, Mrs. Don Mills, Amarillo; Mrs. David Burgess, Tulia; his mother, Mrs. A.J. Harris, Tulia; and one grandchild.

IN HOUSTON

Mrs. Irene Holt, Judy Sanders and Joan Dudley left Sunday for a week's visit with Mrs. Holt's daughter in Houston.

VISIT BENNETTS

Jim Bennett and family of Dallas visited in the home of Mr. and Mrs. Ray Bennett recently and accompanied them on a trip to Ruidoso for a few days last week.

VISIT BENNETTS

Mr. and Mrs. Homer Winett of Colorado City visited in the home of Mr. and Mrs. Ray Bennett Friday and Saturday.

IN ABILENE

Mr. and Mrs. Frank Sanders visited relatives in Abilene and Hodges Sunday.

VISIT MCLAINS

Mr. and Mrs. Wendell Scott and four children of McAllen visited in the L.C. McLain home over the weekend. Bro. Scott is training Spanish preachers for Church of Christ at Mc-Allen and Bro. Scott preached in Springer while the McLains were residents there.

ATTEND REUNION

THE HART BEAT, AUGUST 30, 1962, PAGE 5

'Reasonable Time' May Be **Big Factor In Contracts**

Without an offer, no accep-tance; with no acceptance, no agreement.

But there is often a time within which you can accept the offer. And if not, the offer ends anyhow within a "reason-able time" which is determined by circumstances and the parties' intentions.

Smith had a set of books which Brown wanted. Brown wrote and offered him \$200 for the set.

Smith didn't answer for six months, and meantime Brown bought a similar set. One day Brown got a letter from Smith saying "I accept you offer of \$200 for the set of books." Brown told Smith he'd bought the books elsewhere, but Smith still claimed that his belated

"acceptance" had nevertheless sealed the contract with Brown. Was there a contract? No, the offer had lapsed because it had not been accepted in the circumstances within a reasonable time.

There are many ways to end an offer. You may withdraw it, you may say that the offer expires at a given time, or you may die, or the other party may turn it down directly or by making a counter offer.

Here Smith had failed to accept Brown's offer within a reasonable time, which ended it just as though it had been withdrawn.

What is a reasonable time? It varies. The offer could expire in a few minutes in the stock market or last for quite a while, depending upon what a court would think is a reasonable time.

But in Smith's case six months was unreasonable.

Mr. and Mrs. C.B. Landers

Canyon last week.

PPCA Sees **Peak Year**

PLAINVIEW-- (Special)----Another peak year for the Plainview Production Credit Association, with a bumper harvest in sight, has been forecast for 1962 by officials of the agricultural credit organization.

The nation's largest Production Credit Association, the Plainview association had a total loan volume of \$37,000,000 in 1961, highest in the asso-ciation's 28-year history and ranking it first among nearly 500 Production Credit Associations serving the United States.

Indications point to a new

loan volume record for 1962. officials reported, due to the bright crop prospects and the administrative leadership of Noel Woodley, new general manager and secretary-treasurer of the association.

Woodley, 51, formerly of Muleshoe, was recently named general manager of the homeowned and operated association, which serves more than 1,600 farmers and ranchers in an eight-county area of the high plains.

IN SILVERTON Mr. and Mrs. Norlan Dudley

and girls were in Silverton over the weekend visiting rel-

Foster, last Sunday. Arab women are known for wearing veils in public as a

sign of modesty. Among the Tuaregs of northern Africa, however, it's the men who veil their faces, says World Book Encyclopedia.

David Lawrence writes, in U. News & World Report:

"President Kennedy has made a serious mistake in declaring that the recent vote in the Senate against his medical-care plan should be made an issue in the coming congressional elections. For, it may be asked, which party will the President hold responsible for the defeat of his plan? Will it be the Republican Party, five of whose prominent members voted with the President? Or will Mr. Kennedy campaign against both the Democratic and Republican Senators who did not vote with him and who are up for reelection?'

"It couldn't happen to me," you may think as you read of a house burning to the ground. But it could happen—and then what? Complete disaster, or the knowledge that you are adequately insured?
