Longhorns Tackle Owls Friday

LONGHORNS PREPARE--Coach Dub Cleveland's Longhorns prepare for action against the Silverton Owls Friday night.

Silverton will be slight favorites but Cleveland hopes to spoil the Owls home game.

Jane Alexander Defeats Gentlemen In Contest

Jane Alexander of Hart won the Hart Beat's football contest this week missing only one of the ten games listed. She was wrong only on the Arkansas-TCU tilt and picked Anton to beat Hart by a score of 36-0. Monte Phillips of Littlefield

EdmonsonProgresses

Last Saturday 38 out of 48 qualified voters turned out in Edmonson to vote their approval of the incorporation of the small town. This is a step forward for the whole area due to the fact that incorporation makes necessary the election of city officials and the improvement of the town. All the votes were in favor of the move.

The next step will be the presentation of a bond issue. The bonds will be sold to provide a water system for the town.

Procedure for election of city offices will be announced later.

CHOIR BANQUET

The Baptist Choir held a banquet Thursday night at 7:30 in the dining room of Lilly's Cafe. The choir director, Milton Sharp, was presented with a choir pen by the president of the choir, Mrs. Ralph Futrell.

Approximately 25 attended the banquet.

won second prize with two misses and beat out third place winner Harold Jordan with the tiebreader. Phillips picked Anton over Hart by a score of 20-6 while Jordan picked Anton by 30-12.

Checks will be mailed to the winners this week.

This weeks games will be a little tougher to pick so why not get your copy of the Hart Beat immediately and start to work. Deadline for entries to be turned into one of the sponsors is by 4 p.m. Friday.

RUDY HARRELL

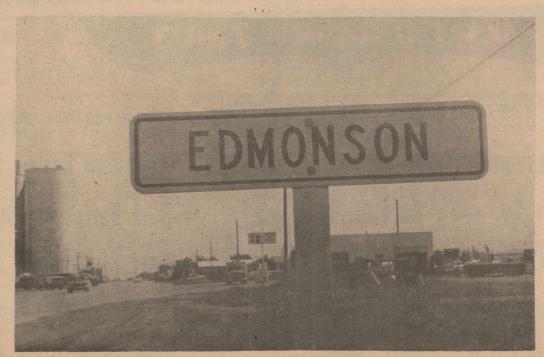

Rudy Harrell New Editor

Rudy Harrell, formerly of Tampa, Fla., assumed duties this week as editor of The Hart Beat.

Harrell and his wife, Jeanie, are members of The Hart Baptist Church, where Harrell was youth director this past summer.

They are now living in Plainview and plan to move to Hart in the near future.

Harrell attended Norman College at Norman Park, Ga. and Wayland Baptist College, Plainview.

FAMILIAR SIGN--This sign, familiar to most Hart residents, stands between Hart and the newly incorporated city of Edmonson. Voters last Saturday gave their approval of the incorporation of the small town.

Silverton Favored

The Longhorns of Hart High School seek to improve their 1962 football record Friday evening when they clash with the Silverton Owls. At Silverton, the winless Owls will be out to touch the victory column in a game which should, according to past performance, fall easily into their hands. The lightweight Horns will be out to prove that statistics are not always right.

Last Friday night, for example, the Anton Bulldogs ran into a brick wall when they played Hart. The Dogs seemed stunned at the end of the first half of play when Hart held

them scoreless.

To top off the first half of play Coach Dub Cleveland's hopefuls knocked on the touchdown door twice but found it impossible to muster upenough offensive power to score. Had the power been found Hart could have changed the final outcome. As the gun sounded Anton went away with a 26-0 victory and the Horns went away realizing that lack of depth is still their major problem.

When the football practice session began Monday, several changes had been made. In an effort to help the Horns improve their status, Cleveland moved Ken Fincher to quarterback. "Fincher needs experience but we expect him to do a good job for us," Coach Cleveland said. Joe Rubalcaba will start the Silverton game at fullback to give the injured Johnny Kittrell a rest. Kittrell will most likely see some defensive action but Rubalacaba will be responsible for offensive chores.

The lack of player situation has been helped by the addition of center Don Sharp. Sharp will back up Phil Green and should see plenty of action.

Jerry Todd, Felix Rodriquez, Danny Guzman, and Darryl Mc-Lain will add to the reserve strength of the Horns.

The starting lineup will include Gary Heller at left end, Jerry Shives at left tackle, James Mitchell at left guard, Phil Green or Don Sharp at center, Tommy Morrison at right guard, Guy Scoggin at right tackle, and Carl Ward at right end. In the backfield Coach Cleveland will start Fincher at Quarterback, Rubalcaba at fullback, Billy Farris at left half, and Dennis McLain at right half,

ATWOOD REPRESENTS HART
Malcolm Atwood, principal of
Hart High School, will attend
the Texas Association of secondary principals in Houston
Monday and Tuesday Oct. 15
and 16.

MRS. O.C. KITRELL

Social News RECIPE OF THE WEEK

Mr. and Mrs. O.C. Kitrell first came to Hart in 1953 were they

farmed and they have farmed since they came to Hart. They are members of the First Bap-

tist Church. The Kitrells have four children, Johnny and Jerry, Mrs. Bud Roberson and Mrs. Mack Davis of Lubbock, and four grandchildren.

Mrs. Kitrell says her favorite hobbies are sewing and gardening. She also enjoys cooking very much and one of her favorite receipes is smothered steak. Mrs. Kittrell gives the following directions for her

SMOTHERED STEAK

Take round, tenderized steak Salt and peper to taste and roll in flour or batter. Fry in hot grease until brown. Turn the heat down low, add a cup of water and steam until tender. Stir in flour as for gravy and add a can of mushroom soup to which a can of water has been added and mix well. Cook slowly until gravy thickens.

Girl Scout Meet Held

Girl Scout Troop No. 2 met Tuesday Oct 2 for a regular meeting. Mrs. Dwight Miller is in charge of the troop.

The group toured Eloise Paint and Hobby Shop to study the making of ceranics.

Approximately 15 members were present at the meeting.

VISIT MAPLES

Mr. and Mrs. Paul Bowling and children, Cindy and Phillip of Denver, Colo. and Mrs. K.R. Hunter of Hereford visited with Mr. and Mrs. Hubert Maples

WSCS Meeting Held Thursday Is Honored At

Christian Service met Thursday Oct. 4 at 9 a.m. in the fellowship hall of the Methodist Church.

The devotional was given by Mrs. Don Rue.

A short business meeting

was conducted by the president.
A study was started on "To-day's children for Tomorrows World", given by Mrs. R.C.

Bailey.

Present for the meeting were Mmes. Willis Hawkins Sr., J.D. Murray, Don Rue, M.L. Aven, Elra Phillips, R.C. Bailey, T.B. Cox, E.E. Foster, Hubert Maples, Claude Cox, C.B. Landers, and two new members, Mrs. Ed Bennett and Mrs. Paul Armstrong. One visitor present was Bro. Elar Phillips.

Good Neighbor Meeting Held

The Good Neighbor Club met Thursday Oct. 2 for a meeting and luncheon.

Mrs. McKinney from the Big Square Club gave a demonstration on making purses.

Those present were Mmes. Buster Aven, Paul Brooks, E.E. Foster, Percy Hart, Fred Hamm, T.B. Cox, Lenora Smith, Lee Harris, Jimmy Davis, R. C. Bailey, Earnest Martin, T. R. Davis, Mabel Aven, J.D. Murray, Willis Hawkins Sr., E.H. Phillips, and two guests, Mrs. Ena Bowden and Mrs. Hubert Maples.

Shelly Bitner Womans Society of Birthday Party

Shelly Bitner celebrated her 4th birthday in the home of her parents, Mr. and Mrs. Jimmy Bitner, Monday Oct 8 at 2 p.m. Halloween cupcakes and punch were served to the guests and favore of home and hubble

and favors of horns and bubble gum were given.

Guests present were Dean, Terry, Kent and Tammy Hill, Dana and Cary McLain, DeAnn Richburg, Dee Anna Bailey, Donna Dudley, Lisa and Jana Hill, Mike Clevenger, Lisa Burrus and Lee Ann Friday.

DeeAnna Bailey Is Honored At Birthday Party

DeeAnna Bailey, daughter of Mr. and Mrs. Joe Bailey celebrated her 6th birthday in her home Saturday Oct 6 at 2:30 p.m. Cake, ice cream and punch were conved as refreshments. were served as refreshments and party-favors of blow bubbles and bubble gum were given. Guests present were Karen,

Jeanie Foster, Jerry McAdams, Donna and Laura Dudley, Shelly Bitner, James Warren and her sisters, Debbie and Linda.

Bristle Cone Pine Takes High Interest At HPRF

and garden enthusiasts visiting the newheadquarters at the High Plains Research Foundation. The descendent of this ancient pine has been planted at the northeast corner of the new Killgore Foundation office building at Halfway.

The keen interest evinced is attributed to the fact that this pine species is the oldest living thing in America. According to the March 1958 issue of the National Geographic Magazine, a bristle cone pine started its growth in the Inyo National Forest in the White Mountains in East Central California 4,600 years ago. This stunted old tree growing at 10,000 ft. timberline is still alive and occasionally produces cone bearing seeds. These seeds still GROUP PLANS produce trees. The old tree has been proven to be 1,500 years older than the oldest known living sequoia. This oldest bristle cone pine has a life line a few inches wide on. but the rest of the tree is a standing knarled ruin. The small pine at the Foundation is

very much alive. Another interesting feature, among the 35 different trees and shrubs, is a line of ponderosa pine planted west of the Killgore Memorial Building and the Jim Hill greenhouse. It forms the border line be-

A bristle cone pine is the tween the headquarters and the focal point of interest for lawn First Bantist Church of Half-First Baptist Church of Halfway. This pine variety has recent fame through the TV popular program of the same name. The trees and shrubs were labled for the recent field day by the 4-H Club of Halfway.

The 15 lawn demonstration plots south of the Killgore building and east of the Jim Hill greenhouse are also attracting garden clubs and lawn enthusiasts who desire to compare the various grasses and clovers seen side by side. The trees shrubs and grasses are gifts of nurseries, seed houses, and individuals in Plainview, Kress and Lubbock.

The Christian Mothers Society of Nazareth will hold a rummage sale on Saturday, October 6th in the church basement.

The hours will be from 2 p.m.

Careful Handling Means Better Seed And Plants

The manner in which seed is for safe storage. However, arhandled during harvesting, processing, and storage can have a marked effect on the condition of the seed and the resulting performance of the variety when planted, according to Lee C. Coffey, department of soil and crop sciences, Texas A&M College.

Harvesting of the seed when they are too wet or too dry the vigor of the plants and the or with a combine operating too fast or with one that is incorrectly adjusted can literally beat the life out of the

Seed are less easily damaged grading if these operations are

tificial drying is necessary if high moisture seed are harvested, says Coffey.

Fumigation is another process that may lower the seed's performance. If seed are too wet or the temperature is too high the germination of the seed will probably be harmed. Also germination of the seed will be affected if they are fumigated too long in fumigant of too high a concentration, according to Coffee. Hydrogen cyanide or carbon tetrachloride during harvesting, cleaning, and are less detrimental to germdone when the moisture content is higher than desirable germination, he adds.

Cotton Moisture Good Indicator Of Quality

At present the only reliable chase of a moisture meter if method of checking the qual- the operation justifies it or a ity of cotton on the farm or check of the moisture content at the ginning point is grade at the gin. specialist, Texas A&M College, the cotton moisture meter can be used as a good indicator of quality.

This device make it possible to determine the proper time for harvesting and the way to conduct the ginning operation to preserve cotton quality, the specialist adds. The moisture content of the cotton fiber when harvested and when in storage prior to ginning and during ginning is definitely cor-related with spinning quality.

The fiber strength, the length uniformity of the fibers, and the amount of tangled fibers or neps in the cotton affect its spin-

ning quality, and the fiber moisture level in turn affects these. Research has shown that moisture levels above eight percent make more drying necessary in the ginning operation and cotton with excess mois-ture tends to deteriorate in storage prior to ginning, says Reeves.

Cotton moisture level is also affected by the amount of trash in the harvested fiber. When trashy cotton is stored for long periods moisture moves from the trash into the cotton, explains the specialist. There-fore, dry, careful harvesting is needed to produce quality cotton and a moisture meter can help achieve this, he adds.

Reeves recommends the pur-

Fall Lawn **Care Hints**

Beautiful lawns just don't happen, but are the result of carefully made and carried out plans. A fall application of a complete fertilizer made 30 days before the first expected frost is suggested by E.M. Trew, extension pasture specialist, as a part of the lawn care program.

Such an application, he says, will keep the grass green long-er in the fall and give it an earlier starting next spring. Too, when lawn grasses go into the winter in a healthy, vigorous condition, winter and spring weeds have less chance to grow

and are less of a problem. But don't wait too long to make the application, advises Trew, for summer grasses pushed into lush growth by late fertilization may be damaged by a hard freeze. Applying the fertilizer too late prevents the grass from making full use of

it before going dormant. The specialist suggests using a fertilizer with a 2-1-1 or 1-1-1 ratio at a rate to supply two pounds of actual nitrogen for each 1,000 square feet of lawn. Twenty pounds of 10-5-5 or 10-10-10 or 25 pounds of 8-8-8 will provide this amount of nitrogen, he says. Though some soils do not need potash, Trew says its use is good insurance and the cost is small. The results may be very good.

He suggests dividing the fertilizer into two equal parts apply half -- then spread the remainder at right angles to the first application. This will help insure even distribution, he adds.

After the fertilizer has been applied, the lawn should be irrigated. If the soil is dry, apply enough water to soak
