School Official Makes Plea

Traffic Safety Asked

BY RUDY HARRELL

"It would not be as bad to kill a child as it would be to badly cripple one for life." This was the view expressed by Paul Kennedy of Hart, superintendent of the Hart Public School System.

In recent weeks Kennedy has become gravely concerned over the speeding of adults in Hart school zones. He reports that there are over 500 pupils attending classes daily in Hart and this large enrollment has created a traffic problem. When several hundred parents bring their young ones to classes, they seem to forget that there are speed signs and traffic laws. The 15-20 mph zones go unnoticed.

Even as I talked with Kennedy I noticed one mother who picked up her young girl and zoomed away without even looking for smaller children who may have been crossing the street. Such carelessness cannot continue without eventually creating drastic circumstances.

The school officials have deemed it necessary to block off the street in front of the school. Ropes are used as blockades from 11 to 1 p.m. Thurs before 11 and after 1 are causing the major concern on Kennedy's part.

To avoid any morning accidents Kennedy has erected a sign requesting parents to deliver their children on the west side of the road. This would lessen the likeliness of mishaps since the youngsters do not have to cross the street. Many parents have found this request inconvenient. Kennedy states that he is "not concerned with convenience as much as safety."

"If the adults would observe the regulatory speed laws we would not to worry about children darting in and out of the road. A reasonable speed would allow cars to stop."

Perhaps it will take one youngster killed to make residents aware of the danger involved here. Statistics and the "law of averages" point to the eventual death of a Hart student. It may be your child!

PAUL KENNEDY HAS HAD THESE SIGNS placed in front of the Hart Public Schools each day. Kennedy requests that parents heed them in order to make the school zone safe.

Edmonson Elects Officials

Thirty four qualified voters turned out in the newly incorporated town of Edmonson Tuesday to elect city officials.

The incorporation and election is the beginning of a dream to many of the Edmonson resident who see tremendous growth in the near future for the town.

Ben Merrill was elected Edmonson's first mayor with 33 out of a possible 34 votes cast his way. Merrill has resided in the small town for five years and is a prominent farmer of the community. Merrill is also a member of the First Baptist Church.

Couple Arrested Texas Taxpayers Report For Disturbing The Peace

Two Latin American farm workers are reported to have attempted to break into the home of Mr. and Mrs. Warren Lemons Friday afternoon. The Lemons' home is located one mile south of Hart on the Olton Highway.

The couple was said to have previously tried to stop Mrs. Ed Bennett as she returned home from Hart. Mrs. Bennett refused to stop and her car hit the shoulder of the road.

Mrs. Lemons was returning home from Hart High School where she is employed as a teacher.

Mrs. Lemons and her children locked the front door of their home in an attempt to keep the Latins out. The pair was said to have tried to pry the door open. Mrs. Lemons used her husband's two-way radio to call for help.

Norlan Dudley, president of Farmers State Bank of Hart, heard the call over his radio and headed for the Lemons residence. Dudley met Jerry Bean who works at Jones Seed and Farm Supply and the two went to the house. As Dudley and Bean turned into the driveway of the Lemon's home, Claude Cox also followed.

The three subdued the Latins' and took them to town to the sherriff.

Sherriff Granville Martin charged the couple with disturbing the peace.

Texas taxpayers reported \$13.6 billion adjusted gross income on the 2,873,000 Federal income tax returns filed for 1960, Ellis Campbell, Jr., district director of Internal Revenue, said this week.

Income statistics, after allowance for deductions and exemptions, showed taxable income in Texas of \$7.17 billion resulting in income tax liability of \$1.69 billion.

Both items represent increases over the income year 1959 -- an increase of 0.3

per cent on taxable income (\$7.15 billion in 1959) and an increase of 0.2 per cent in income tax liability (\$1.69 billion in 1959).

Internal Revenue reports that Texas tax returns showed an increase in 1960 over the pre-

vious year in salaries and wages, dividends, interest, and combined other income and loss. Largest increase reported was the 14.1 per cent rise in interest with \$213 million reported in 1960 as against \$187 million in 1959. Dividends were 8.3 per cent higher with \$321

million in 1960 and \$297 million in 1959. Combined other income and loss reported in 1960 was \$2,284 million in 1960 as compared with \$2,376 million in

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITAL

Austin, Tex.—Attorney General Will Wilson issued an opinion that the Constitution Party of Texas cannot nominate members for district offices at its state convention.

But the opinion came a bit late. Election ballots already have been printed, and the tardy nominations are listed.

Secretary of State P. Frank Lake made the request for an opinion on Constitutional Party nomination procedure in September. The "third party" didn't release its list of nominations until early summer, whereas Republicans and Democrats had to comply with a law that says candidates must announce by the second Monday of February.

According to Wilson, the same law applies to the Constitutional Party.

HIGH COST OF LEARNING—Tuition for Texas' 20 state universities and colleges may be doubled by the time members of the 1964 high school graduating classes are ready to enroll.

Texas Commission on Higher Education decided to ask the Legislature to double tuition—from \$50 to \$100 a semester—and increase appropriations by 55 per cent during 1964-65.

Commission approved a \$4,000,000 boost in the previously-recommended biennial budget of \$162,000,000; agreed

to raise college presidents' salaries; and ordered its staff to look into the elimination of remedial writing and reading and tours from college curriculums.

Request for more money came after it was noted that this fall's enrollment of 110,000 students in 19 colleges was an increase of 9 per cent over last year, and the "war babies" will soon be knocking at the doors.

DEFICIT RISES—Deficit in the State's General Revenue Fund increased by almost \$13,000,000 during mid-October, according to a report from State Treasurer Jesse James.

On October 9, the State was in the red to the tune of \$41,250,349. By October 24, the deficit was \$54,074,283.

MAP PROJECT PUSHED—Absence of topographic maps of the entire state may be holding us back in the nationwide race for new industries.

At the meeting of the Texas Mapping Advisory Committee, Harry Clark, director of the Texas Industrial Commission, said that topographic maps are very necessary to industries considering sites here. Chairman John J. Vandertulip said the maps are essential to industrial and agricultural planning.

Topographic maps are those that show the physical features of a region in minute detail.

When a mapping program of 73 counties is completed, Texas will be half-mapped.

ATTRACTIVE NUISANCE—State Health Department officials issued a warning against the use of arsenious acid containers for water bottles.

Field engineers recently found about 40 of the one-gallon size containers along the highway in Collin County. One had about one and one-half ounces of arsenic left in it—enough to kill more than 100 people.

Death of three members of a Josephine farm family was attributed to accidental poisoning caused by drinking water out of a container which had been used for cotton defoliation.

"These plastic bottles are attractive nuisance...and deadly", an official said.

RADIATION DETECTION PILAN—An officer of the Texas Department of Public Safety soon should be able to help out at the scene of a radiation accident or incident anywhere in the State in about 30 minutes, Col. Homer Garrison Jr. announced.

A stepped-up training program in radiation detection which began on October 29 is expected to provide enough trained men to handle any emergency.

Officers who have completed the course already are driving vehicles equipped with a Geiger Counter to measure very low amounts of radiation, a mid-range survey meter, and a high-range meter.

Men also carry personal "Dosimeters" on their persons so they periodically can determine the amount of radiation they have been subjected to during the survey of an area in which radio-active spillage has occurred.

Department's also helping to train members of city police departments, sheriffs' departments, rescue squads and other groups.

MOST SCENIC—Two Texas highways are finalists in Parade Magazine's Scenic Highway Award contest, and rank among the 20 "most scenic" in the U.S.

One is Interstate Highway 45 "The Way of the Pines," which

runs through a wooded area southeast of Huntsville. The other is a section of F.M. Road 170, "El Camino Del Rio," which traverses rough country along the Rio Grande between Lajitas and Redford.

A-G RULINGS—Sen. Louis Crump of San Saba asked the attorney general whether newspaper publication of a new State Constitution would be required before one could be adopted. "It would not," says Wilson.

A male juvenile, between 10 and 17, or a female juvenile, between 10 and 18, cannot be tried in a county court for negligent homicide in the second degree, Wellington County Attorney R. L. Templeton was informed.

A county court cannot commit a person to a mental hospital for temporary hospitalization for any longer than 90 days.

A school district which does not teach high school grades cannot cancel or annul the transfer of one of its resident scholastics to a school district which provides high school grades.

CODE REVISIONS—Texas State Bar officers and directors have selected revisions in the Code of Criminal Procedure as number one on its 12-point legislative program for 1963.

Bar president Leon Jaworski said "There is particular need for criminal procedure reforms in our State."

Other proposals will include a statute regulating the execution of bail bonds in Texas, a Uniform Commercial Code, a Uniform Arbitration Act, and amendments to the Texas Securities Act.

Bar also will propose a constitutional amendment calling for the local option abolition of justice of the peace courts and replacing them with courts of record.

Legislature also will be asked to repeal acts of its last regular session making jury findings, conclusive in custody cases.

MILITARY DUTY RULING—State employees requesting another year of active duty with the 49th Armored Division can have their jobs back when they get out.

So says Attorney General Will Wilson.

He held that those staying on for another year "are entitled to restoration of state employment."

Many members of the 49th Division were recalled to active duty when the Berlin situation became tense last year. Most of the men were released in August. Some requested and were assigned another year of active duty.

LONG BALLOT—Texas' general election ballot will be about as long as a newspaper.

November 6 ballot will contain not only the lists of party nominees for congressional, state, legislative, district, county and precinct offices, but also "for" and "against" questions about 14 proposed constitutional amendments.

NO WAITING—There is no longer a waiting list of applicants for land purchase under the veterans' land program, says Land Commissioner Jerry Sadler.

Sadler said that 70,000 veterans were given land-buying opportunities the past 21 months.

Commissioner reported a backlog of 40,672 veterans on January 1, 1961. Many of them had been waiting their turn for three years.

A total of 116,885 applications have been received since the program began operation in 1949.

VALUABLE MARKERS—Historical markers are worth their weight in gold according to the Texas Highway Department. Three tourist markers recently erected to mark significant historical sites are proving this.

THD says each of the markers earns nearly its original cost in added tourist revenues each month. Original cost was about \$630 each. They will earn this cost ten times in a year. Each marker is credited with earning an average of \$17.55 per day.

Markers—first of 25 to be erected during the next year—are at Camp Ford near Tyler; at Meteor Crater near Odessa; and at Castle Gap in Upton County.

Vega Stomps Lazbuddie

The Vega Longhorns tromped over Lazbuddie Friday evening by the score of 52-12. A large homecoming crowd cheered Vega onto their first district win of the season against one loss.

Wayne Taylor scored four of Vega's touchdowns and turned in a brilliant running performance. Taylor has been highly regarded as one of the top runners in district play.

The game put Vega at 3-4 for the season and 1-1 in district play. The Lazbuddie team is 2-5 for the year and 0-2 in league competition.

Happy Takes District Lead

A homecoming crowd of 3000 saw the Happy Cowboys upset the Bovins Mustangs at Happy last Friday evening. Bovina's touted backfield was unable to move as the Cowboys held them to a total of only 169 yards.

Swift back Dick Kennedy scooted around left end for 35 yards untouched to score for Happy with 13 seconds remaining in the second period. Gary Culp kicked the extra point and Happy led 7-0.

Happy and Bovina went into the game tied for the lead in District 1-B.

The fracas ended with the Cowboys undefeated in two district outings and Bovina in second place with one win and one loss. Happy is 7-1 for the season while Bovina is 5-2-1.

NOTES

Texas-Rice Tilt Tosses Entries

The Hart football contest this week attracted many new entries but everyone of them missed at least two ballgames, every contestant lost out on the Texas-Rice tilt and all three of the money winners missed the West Texas-Arizona game.

Sherry Phillips of Kress was the only one of the three money winners who picked correctly on the Texas A&M-Baylor fracas. She missed out on the Texas-Rice and West Texas-Arizona games. She also chose SMU over Tech 32-8. This score was a long way off but it was not necessary to use the tie-breaker. This score is used only in the event of a tie among money winners.

It was necessary to use the tie-breaker on the second and third place winners. Connard Riddles, placing second, and Jerry Phillips, who placed third, each missed out on the same three games. They missed the Texas A&M-Baylor, Texas-Rice and West Texas-Arizona tilts. Riddles picked SMU 10-7 so he was 11 points off while Phillips picked SMU-24-17 and was 17 points off.

Several other entries came close to placing but lost out in the total number of games missed. Monte Phillips of Levelland, Todd Varner of Nazareth and one unnamed entry picked SMU 14-0 but each missed four games.

Congratulations to the top three! Checks will be mailed out during this week.

"Boys, we can beat Happy if we hustle." So began the skull session last Monday afternoon as Coach Dub Cleveland preped his Longhorns for the Happy Cowboys. The Cowboys hold the lead in District 1-B Football and Hart is about as far in the cellar as a team can be.

Listened closely as Cleveland talked to his players and noted that many of the Horns seemed to feel that beating Happy is an impossible task. How could a small lightweight team like Hart defeat the big, fast and confident Cowboys?

The answer to that question is repeated only a few times each year. How could winless Rice tie a great Texas team?

The answer to all of these questions is desire and hustle. Almost every football fan in Hart has at one time or another tried to figure out why Hart has had such a poor season. All of these fans, including myself, have arrived at one answer or another.

Regardless of the cause as I see it, I firmly believe that Hart can beat Happy. Happy has a better team. Texas had a better team than Rice! The difference seemed to be found in desire and hustle.

As Hart goes to Happy Friday night, almost every fan is expecting the Horns to fall hard. Happy should romp Hart by sixty points. Chances are that Happy will romp Hart...but to let it go at this can cause even greater defeat.

Friday evening several fans will make the trip to Happy. The student cheering squad, cheerleaders, some parents and the football team will go. The whole crew is expected to return with Happy recording another win.

The score will range from 50 to 70 points for Happy and 18 for Hart. This is the way game should go. We will know Saturday morning just how much hustle Cleveland is able to instill in the Horns.

Junior High Girls Season Ends Play Anton

The Hart Junior High football team has finished the 1962 football campaign. The youngsters compiled a record of two wins against four losses.

Coach Don Ewing guided the juniors and he emphasizes that the season was a success in many ways. Although the won-lost record isn't extremely attractive the coach was able to build for a brighter future.

Many of the players will be returning next year including such standouts as W. A. Hawkins and Jim Swindle.

There were seven seventh graders on the team this year who will be playing experienced ball in the '63 efforts.

Coach Ewing named George Bennett, W. A. Hawkins, Joe Bob Sanders, Wes Bennight, Jim Swindle, Ralph Speer, and Tommy Gonzalez as outstanding players on offense and defense.

Thursday evening Coach Eddie Nicholson will take his Hart High School girl's basketball team to Anton. The girls will play a regular-game type scrimmage in preparation for the regular season.

Nicholson feels that he is coaching some of the top players in this area. He especially emphasizes the talent of Jo Sanders, Joy Talley, Connie Popejoy, Connie Bailey, Dixie Kendrick, Estella Rubalcaba and Carol Futrell. There are several other players who have the potential of becoming good players before the season is over.

Nicholson will carry all of the girls to Anton but plans to cut his squad to around fifteen players before the season begins.

Monday evening Farwell will visit Hart in another practice game at 7:30.

1958—U.S. begins gearing for major space effort; Wernher von Braun gets job of developing big booster. Announced budget of \$138 million cut by Pentagon to \$70 billion.

OBERLIN KAN. HERALD:

"Recent polls reveal that three out of four Americans polled do not want to see a tax cut if it means not balancing the budget. This is a good omen. The only way Americans will get responsible legislation is to act like responsible citizens. If the politicians find that we are fed up with so-called something-for-nothing schemes, we're on our way to better things. The road may be a little harder to travel, but it will be far better than getting into the trough now and letting our children and grandchildren worry about trying to pay for our gluttony."

"A fool and his money are still very soon parted, but it doesn't make him very much different from the rest of us."

its services.

Outside, a colonial exterior features the all-new building. Gas lights in front of the building illuminate a spacious driveway and parking area.

Interior decoration is early American.

A 10 by 23-foot reception room stretches across most of the front of the funeral home. Adjacent to the reception area is an office.

Behind the reception area are four other rooms, including two 13 by 15-foot repose rooms, a casket display room and a preparation room. A long hall, running from front to back separates the repose area from the display and preparation rooms. The new building also has two restrooms and a coffee bar.

The funeral home has neutral wool tweed carpet throughout, except for a small area near the entrance. Walls in the reception and repose areas are done in a colonial style paper. The office has walnut paneling on two walls.

Color scheme in the reception area incorporates hues of green and brown. Bone white drapes with beige stripes and gold flecks add to the quiet, distinctive atmosphere of the reception area.

The firm, in addition to funeral arrangements, offers funeral service insurance, monument sales, and day-night service by air-conditioned, oxygen-equipped ambulances.

Parsons has been in the funeral home business for the past 14 years. For 10 years prior to coming to Olton, he was a partner with Victor and Marvin Hudman in Post. He was born and raised in the same town, graduating from high school there in 1946.

He entered the Dallas Institute of Mortuary Science after high school and served two years internship at El Paso and Post.

Percy and his wife, Margaret, who serves as receptionist, have two sons, Mike, 9, and Dale, 7, and a daughter, Rhonda, 3.

They are members of the First Methodist Church. Percy is a member of Olton Lions Club, serving as its secretary, and is a past president of the Olton Chamber of Commerce and Agriculture. He also is a member of the Olton Volunteer Fire Dept.

OF ANY PARTY
ON THE NOVEMBER 6TH BALLOT**

Governor Price Daniel, while Attorney General, wrote an opinion on the question of party loyalty in which he said, "The courts of Texas have answered this question by holding that the pledge taken at the time of voting in the primary election DOES NOT create a legal obligation."

Recently Governor Daniel repeated that opinion by saying that the pledge on the primary ballot does not obligate anyone "legally or morally" to vote for the Democratic ticket in the general election.

USDA Announces Quota

The U.S. Department of Agriculture announced on October 15 a national marketing quota of 14,367,000 bales and a national acreage allotment of 16 million acres for the 1963 upland cotton crop. December 11 was set as the date for grower referendum on 1963 marketing quotas.

The announcement also said an additional 310,000 acres would be available as a national reserve to be used for establishing minimum farm allotments. It was further stated that it is not anticipated that this will be the final national acreage authorized for 1963 since new legislation is to be recommended to Congress by the President.

The 16-million acre allotment is the maximum permitted under present law in view of the present supply-demand situation. It now appears that more than a million bales will be added to the carryover and increase it to 8.7 million bales by August 1, 1963.

The President has announced that he will recommend legislation to remove the inequity in the present two-price cotton system and has requested the USDA to make recommendations to him as to the means for accomplishing that purpose. This legislation would increase the domestic use of U.S. cotton and may also contain other provisions which would permit increases in the acreage to be planted.

In the December 11 referendum, a two-thirds majority of those voting is needed to make marketing quotas effective on the 1963 upland cotton crop. Extra long staple growers will vote on the same day on marketing quotas for their type cotton. If marketing quotas are approved, price support to cooperating growers will be available at a level to be announced by the Secretary. It can range from 65 to 90 percent of parity. The parity price of cotton is now 39.51 cents per pound.

THAT WASHINGTON FISHBOWL OR JACK SEALE VS THE FACTS

During the current congressional campaign Republican Jack Seale an admitted John Bircher and the candidate of the John Birch society, has repeatedly accused congressman Walter Rogers of voting for a "Fishpond" for Washington, D. C. The implication has been that this was some useless frills and a waste of taxpayers money.

WHAT ARE THE FACTS?

Editor Tommy Thompson of the Amarillo Globe-Times writes: "I thought Walter Rogers did a proper job of squelching the fish-bowl jeering on the part of his opponent. Congressman Rogers told the group last week that 'Had the opposition investigated the matter, it would not have appeared so comical.'"

The bill is for the purpose of authorizing a national fishery center and aquarium for scientific research and development, similar to the soil research center at Bushland.

The purpose of the bill is to help pump some life into our "decaying fish industry." As Walter Rogers explained, our fishing industry has been going down hill for a long time. Almost one-half of the fish consumed in the United States is imported from foreign nations. Our fishing fleet is old and obsolete. Other nations are fishing adjacent to our shores, processing the produce overseas and re-shipping it to us. The national fishery center and aquarium is for the purpose of saving an industry that could mean several billion dollars a year to our national products. It is an investment that will pay for itself and make the nation self-sufficient in obtaining an additional three billion tons of fish that will be needed by 1980.

And, while we're quoting editor Thompson, here's another interesting paragraph: "The New York Times says in a Washington dateline story that 46 conservative candidates for Congress are receiving assistance in one form or another from the Americans for Constitutional Action.

Admiral Ben Morrell, board chairman of the group, said that "Publicity might jeopardize the candidates." Texas Congressmen receiving aid from the ACA group include John Dowdy, Bruce Alger, Desmond A. Barry, William A. Steger, Ed Foreman, and Jack Seale. The retired admiral told the New York Times that his group had been linked unfairly in the press with the John Birch Society."

1959, an increase of 0.3 per cent.

Salaries and wages showed the largest dollar amount in individual returns filed for 1960, 42 per cent showed income above the \$5,000 level.

As might be expected, the bulk of the increase in income from taxpayers reported nat-

ionally during 1960 came from salaries and wages, and it dwarfed the changes from other sources. Salaries and wages totaled \$257.9 billion for 1960, a \$10.5 billion increase over 1959.

On a nationwide scale, Internal Revenue's Preliminary

Report for 1960 indicates the vast change in taxpayers' adjusted gross income over the past decade. In 1950 only 14 per cent of the returns had income over \$5,000.

This information is available in the Preliminary Report, Statistics of Income -- 1960, Individual Income Tax Returns, prepared by the Internal Revenue Service. This publication is available from the U.S. Government Printing Office, Washington, D.C., for 20 cents.

There were two performances, one at 7 p.m. and another at 8 p.m.

Acts were judged and three prizes were awarded.

Roger and Baynetta McCurry took first place with the story of "The Three Bears." Baynetta, 4 year old daughter of Mr. and Mrs. Bayne McCurry, Edmonson, told the story while her brother, third grader Roger, stood behind her and with his hands in front of her acted out the story as she told it.

Other contestants in the talent show from this area were Larry Settle, Ronald Baker, Jan Graham, Beth Sisemore, Clarence Sisemore, Debby Lewellen, Randy Schoppa and Freddie Holmes.

The program was under the direction of Mrs. Robert Graham, Halfway.

Republicans Hold Meet

AMARILLO--The Republican Party has announced plans for a giant rally to be held in the Amarillo Municipal Auditorium Saturday night (Nov. 3).

Delegations from every county in the 18th Congressional District are expected to attend the "Pre-Election Jamboree".

Free hot dogs and coke will be served beginning at 5 p.m. Saturday, with the Jamboree program beginning one hour later. Several hundred Republicans are expected to attend the West Texas State-Bowling Green University football game at Canyon Saturday afternoon, and attend the rally afterward.

A brass band, hundreds of balloons, 100 pounds of confetti and GOP candidates from all over the 18th Congressional District will appear on the Jamboree.

Honor guest at the rally will be Senator John Tower, who will deliver a brief address.

One hour of the Jamboree will be telecast on two AMARILLO TV stations (6:30 to 7:30 p.m. on Channels 4 and 10).

THINK, IRRIGATION FARMER!

WATER is a commodity so precious that no tyrant has ever dared deny it to his people.

The earliest records of our civilization are linked to the spring and the waterhole, the river and the well.

The Children of Israel faltered in the wasteland and were ready to revolt until Moses struck the rock and brought forth a spring.

Wars have been fought over water rights and mighty nations have vanished because their water resources failed.

In view of these facts, can you afford the luxury of irrigation
