According to tradition, the Groundhog saw his shadow Sunday and very quickly winter weather appeared.

Light moisture started to fall in the Hart area around 6:30 a.m. Monday and by 8:30 a.m. the snow had started to cover the ground.

Soon after the noon hour, wind was up and blowing snow made streets and roads hazardous, with drivers moving slowly and lights on most vehicles.

By 8 a.m. Tuesday, snow drifts were piling up and the temperature was recorded at 28.

By 5 p.m. Tuesday between four and five inches of snow was on the ground with snow still falling.

IN HOSPITAL

Willis A. Hawkins is reported to be improving and was to have come home Monday after undergoing major surgery in the Canyon Hospital last week. Hawkins injured both heels about two years ago when he fell from a wind mill tower.

HIGHLIGHTS AND SIDELIGHTS
 AUSTIN, Tex.--A controversial section of the new Texas Regulatory Loan Act, passed last year after 36 years of legislative wrangling over loan control, has been declared unconstitutional.

District Judge Herman Jones of Austin held invalid the provision that at least 51 per cent of stock in lending firms operating in Texas must be owned by Texans.

Jones emphasized this was the only section of the 1963 act affected by his ruling in a suit brought by three out-of-state firms.

The companies whose subsidiaries operate in at least eight Texas cities charged the in-state ownership requirement violated state and federal due process and equal protection guarantees.

Mr. and Mrs. Buster Aven spent Sunday in Lazbuddie with her uncle and aunt, Mr. and Mrs. J. E. Williams, who were host for the Williams family reunion. There were approximately 50 relatives with some from as far away as the state of Oregon.

TOURIST PLAN UNVEILED- A pilot plan designed to bring more foreign visitors to Texas was announced by Governor Connally.

Sen. Walter Richter of Gonzales, the governor's representative, and Walter Meyer of San Antonio, who originated the plan, took off for Germany Sunday to test the program.

They hope to encourage 40 or 50 German citizens to make a 16-day red carpet tour of Texas' leading cities and historic spots from October 15 through Nov. 2.

Texas Tourist Development Agency is sponsoring the projected program in cooperation with Chambers of Commerce and interested private citizens. No public funds are involved.

The tourists, of course, will pay their own way, although some will benefit from hospitality in Texas homes. First visitors will get special low plane fare and at-cost prices all around.

It is hoped the initial visit by the Germans will establish guidelines for a continuing long-range program to boost travel in Texas by globe-trotters from other lands.

This & That

BY MYRT LOMAN

The following paragraphs were passed to me by a teacher not long ago, who is very interested in our YOUTH, especially in Hart.

"America is concerned with the problems of humanity, whether it be in Agriculture, Industry or Government and now that today new frontiers are appearing on the horizon, it is going to be up to our YOUTH to surmount these obstacles.

"A boy is a person who is going to carry on what you have started. He is to sit right where you are sitting, and attend to things which you think so important, when you are gone. You may adopt all the policies you please but how they will be carried out depends on him. Even if you make leagues and treaties, he will manage them. He will take your seat in Congress, assume control of your cities, states and empires. He is going to move in and take over your churches, schools, universities, corporations,

councils and prisons. All your work is going to be judged and condemned by him. The future and destiny of humanity are in his hands, so it might be well to pay little attention to him now."

Cotton is a *natural* pacesetter—out front in the fashion parade. Designers love cotton. Its complete flexibility and versatility make cotton the medium they turn to for expressing their best ideas. Style is a look, and no fiber can assume so many different looks. In both decorator and apparel fabrics, cotton stands for casual good taste and a way of life that is *today*.
