NUMBER 47

## SCHOOL SUMMER PLANS TOLD

A combined Elementary-High School Library will be open to students and the general public three days a week this summer, Supt. Andy Gardenhire announced.

The community library, located at the school, will be open Mondays, Wednesdays and Fridays from 10 a.m. to 12 noon.

All books will be checked out from the high school library, according to Gardenhire.

Two recent graduates of West Texas State University have been employed to take care of the library and as special tutors.

They are Gwen Young, a math major, and Carolyn Capp, an art major at WTSU.

They also will help Supt. Gardenhire with secretarial work.

Classes offered at Hart school this summer in drivers education and summer home-making began Monday.

Twelve students were enrolled in driver training. The class is open for more students if they enroll immediately. The course will meet daily from 8 to 10 a.m.

About 10 students are expected for the summer home-making classes. The class is open for others to enter if they do so immediately. The course will meet from 1:30 to 5 p.m. each Tuesday and Thursday.

Special tutoring will be offered each Tuesday and Thursday. Although emphasis is on reading and comprehension, any course for which there is enough demand will be offered.

Students wishing to enroll in special tutoring classes must do so by June 7, according to Supt. Gardenhire.

A regular schedule as follows will be offered: first and second grade students: 9-10 a.m.; third and fourth grade students: 10-11 a.m.; fifth and sixth grade students: 11-12 a.m.; and seventh and eighth grade students: 1-2 p.m.

COMMUNITY LIBRARY--Supt. Andy Gardenhire used this poster to illustrate the fact that the Hart elementary-high school library may be used by everyone in the community

this summer. He stressed that the library may be used by adults as well as students. For further details, see story this page.

### 4 Charged In Vandalism At School

Four Hart teenagers have been charged in connection with vandalism at the Hart High School recently.

The youngsters are scheduled to appear in Castro County juvenile court to answer the charges.

Supt. Andy Gardenhire said damage to the school amounted to between \$500 and \$600.

Damage was confined to places on the roof at Hart High School, where several vents had been kicked in.

### Richardson Fire

A fire destroyed the home of Glen Richardson, about 10 1/2 miles east of Tulia Sunday afternoon. Richardson is the brother of Mrs. Milton Sharp of Hart.

By the time firemen reached the home, it had been leveled by the blaze.

Richardson, who owns the Tulia Floral Shop, and his family were away at the time of the blaze.

### Hart Woman Bowler Of Year

The Bowler of the Year Tournament was held Friday and Saturday, May 28 and 29 at the Olton Bowling Center.

Betty Seago of Hart won the tournament. The contest consists of the high bowlers from each individual team during the year. This year it was a matched play tournament.

Prizes consisted of a cash award and a trophy.

### Memorial Day Services Held

Memorial services honoring persons killed in the Armed Forces were conducted Sunday in the Hart Cemetery.

The program was sponsored by American Legion 311 of Hart. Approximately 75 relatives and friends attended the service at which Bro. E. H. Phillips gave the invocation and made a short talk.

Members of the local post participating in the program were Bud Steiret, R. G. Henderson, Jr., Tommy Cook, Bill Swindle, C. W. Seago, J. W. Nivens, W. A. Hawkins Jr., Curtis Malone and Herman Burress.

### Co-Op Gin Sets Annual Stockholders Meeting

Eighth annual stockholders meeting of Hart Producers Co-Op Gin is scheduled Tuesday at 6:30 p.m. at the school cafeteria. Manager E. E. Foster announced this week.

A meal will be served at that time, followed by a business session beginning about 8 p.m., according to Foster.

Three directors will be named to the gin board, an audit report of the year's operations will be heard and dividend checks will be handed out.

Terms of these directors will expire: E. L. Hochstein, F. L. Bass Jr. and C. B. Martin.

Nominees for the three posts will be announced at the meeting and at the same time, the floor will be open for further nominations, according to Foster.

In addition of the audit report of the gin, stockholders will hear reports from representatives of the regional co-operatives.

Entertainment will be provided for the children. Present officers of the gin

are Dean Sanders, president; David Nelson, vice-president; and E. E. Foster, secretary.

Other board members are Hochstein, Bass, Martin, S. R. Hutto and L. W. Bennight.

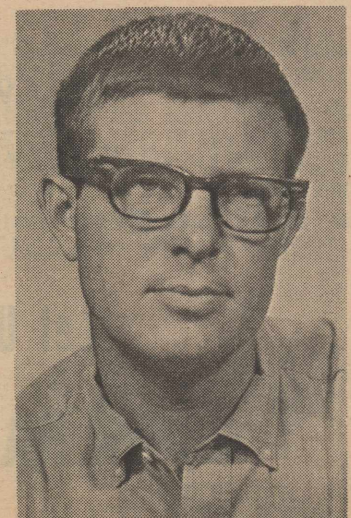

### Wall Joins Hart Beat

Mike Wall, senior journalism student from Texas Tech, has been employed by the Hart Beat during the summer months as a newsman.

A 1961 graduate of Hale Center High School, he was news editor of The Daily Toreador, The Tech newspaper, during the spring semester.

He had formerly been sports editor and assistant managing editor of the Toreador and worked last summer as a reporter for the Fort Worth Press under an intern program set up by the Texas Daily Newspaper Association.

A psychology minor, he is president and past vice-president of the Tech student chapter of Sigma Delta Chi, men's professional journalistic society.

MIKE WALL

# STATE CAPITAL Highlights AND Sidelights

AUSTIN—Political and Legislative history has been written in the 59th lawmaking session just ended.

**Highlights:**

\* A \$3,600,000,000 budget providing for expanded services in every area of state government and affecting every citizen.

\* Record improvements in higher education, including creation of the powerful coordinating board for Texas colleges and universities.

\* A \$101,000,000 salary raise for school teachers \$70,000,000,

of which will be paid by the state.

\* A sweeping overhaul in the entire system of state mental hospital and tuberculosis control administration.

\* Asking members of Congress from Texas to vote for keeping the section of the Taft-Hartley Law which permits Texas to outlaw closed union shops;

\* Prohibition of the use of .22 caliber rimfire ammunition to hunt deer, elk, antelope and wild sheep in counties not regulated by the Parks and Wildlife Commission;

Major public welfare expansions, including a proposed constitutional amendment to permit full state participation in the new federal medical care program for the aged, blind and disabled. A provision of the amendment would qualify non-citizens who have lived in the state for 25 years or more.

\* Overhaul and extension of the state's program for water control and development.

\* Congressional and legislative redistricting which will change the makeup and complexion of future legislatures, shifting the balance of power from rural to urban areas.

\* If voters approve proposed constitutional amendments, the Senate will be enlarged from 31 to 39 members and terms of the governor and other statewide-elected officials now limited to two years, as well as those of state representatives, will be extended to four years.

Gov. John Connally emerged as the most powerful governor in modern Texas history.

**WHAT IT WILL COST**

Despite its record achievements, the 59th session handed a relatively-modest tax bill to Texas citizens.

Cigarette smokers will bear virtually the entire share of the cost. Tax was increased from eight to 11 cents a pack--the nation's highest state rate. This will raise \$70,000,000 to \$73,000,000 in new money during the coming biennium.

A one-time gain of \$6,000,000 will be achieved by setting of a 15 months-from-date-of-death limitation on payment of the inheritance tax.

Teacher pay raise also will require financing at the local level. Present estimate is that the owner of a \$15,000 home will pay \$2.52 more in annual property taxes to school districts.

**BILLS PASSED**

Among the new laws passed during the final days of the regular session of the 59th Legislature were:

\* Continuation of the Bay Study Committee, which is concentrating on the problems of water pollution;

\* Regulation of the taking and processing of oysters and other shellfish for sale;

\* Creation of Permian State College, if higher education coordinating board approves, at Odessa;

\* Requirement for testing of all babies born in Texas for phenylketonuria (PKU), an inborn error in system which, if uncorrected, causes brain damage;

\* Prevention of city councils from making residence within the city limits a condition of employment;

\* Legalization of free games on pinball machines;

\* Parents liability up to \$5,000 for malicious and wanton damage by their children.

**MIGRANT PROGRAM**

Gov. Connally's Office of Economic Opportunity made application for \$5,400,000 in federal funds under Economic Opportunity act for massive program of assistance to state's 128,000 migrants.

Program seeks \$3,200,000 to extend special six-months' intensive schools for migrant children from 10 districts to 40.

A \$1,100,000 component would start adult basic education, homemaking training and occupational training in communities with large numbers of migrants.

Texas OEO also proposes to build and staff, for \$735,050 five rest stops for migrants.

A tuberculosis screening and testing project would cost \$302,665. It calls for six regional offices in South Texas.

Texas Employment Commission and Texas Education Agency plan to retain and relocate migrants into permanent jobs in West Texas. An application for \$205,626 will place Texas OEO in a coordinating position with respect to housing requirements and allow it to work with local community

officials in a program of community relations while migrants are in school.

Day care in migrant labor camps is planned at cost of \$100,858. A \$60,110 allocation would enable Texas State Library to engage in a pilot project for services to migrants in labor camps.

Governor also announced State Department of Parks and Wildlife expects to employ 427 youths during summer in a park maintenance program under a \$193,891 federal grant from Neighborhood Youth Corps.

**PRESS RIGHTS UPHELD**

A conference committee report on the new Code of Criminal Procedure, which contained the nation's toughest restrictions on pre-trial news coverage, was rejected.

Revised information restriction states:

"It is the duty of the trial court, the attorney representing the state, the attorney representing the accused, and all peace officers to so conduct themselves as to assure to the defendant a fair trial upon the presumption of innocence and at the same time afford the public the benefits of a free press."

A legislative resolution directs a study in the area of information on pre-trial activities.

**VISIT HILLS**

Mrs. Jo Hill of Hereford visited in the home of Mr. and Mrs. Homer Hill on Tuesday.

**VISIT HAWKINS**

Mrs. Lewis Goodrich of Shamrock visited Friday with her sister, Mr. and Mrs. Willis Hawkins. In the afternoon, they visited with their uncle, Mr. and Mrs. John Griffin of Littlefield and an aunt, Mr. and Mrs. Edd Sweatt in Dimmitt.

**IN NEW MEXICO**

Mrs. O. D. Dinwiddie and a sister, Mrs. Denzil White of Amarillo, are spending a few days with their sister-in-law, Mrs. Zona Stewart in Forest, N. M.

**IN HOSPITAL**

Lise and Phillip Hawkins, children of Mr. and Mrs. Robert Hawkins, spent a few days in the Plainview Hospital.

**BUFFALO LAKE**

Mr. and Mrs. Paul Brooks and girls, Mr. and Mrs. Thomas Lee Brooks and girls and Billie Witten had an outing at Buffalo Lake Monday of boating and fishing.

**FUNERAL**

Paul Brooks and Jim Brooks attended a funeral of their aunt at Lamesa last week.

**VISIT WELTYS**

Mr. and Mrs. Elmer Venable of Bovina visited in the home of their uncle and aunt, Mr. and Mrs. J. W. Welty, Sunday.

**VISIT HAMMS**

Mr. and Mrs. Loyce Warren, Carolyn and Steven Hamm of Dallas spent the weekend in the Fred Hamm home.

## Open House Will Honor Dukes On Anniversary

Mr. and Mrs. Edd Duke will be honored with an open house at their house in the Sunnyside community, south of Dimmitt, Sunday June 6 from 2:30 to 5 p.m. The occasion is their fiftieth wedding anniversary.

Edd Duke and Effie Hall were married June 2, 1915 at Wellington. They moved to Castro County Feb. 25, 1926.

Hosting the celebration will be children and grandchildren of the couple. They are Mrs. Viveline Duke; Mr. and Mrs. Wendell Payte of Big Spring; Mr. and Mrs. Bob Gunderson of Roseburg, Oregon and Mr. and Mrs. Robert Duke of the Sunnyside community.

Friends of the family are invited. The couple is requesting that no gifts be sent.

## Hart Teachers Are Honored At Barbecue

Mr. and Mrs. G. C. Graves honored the Hart school faculty with a barbecue at their home Saturday May 22 from 5:30 to 7 p.m.

The menu included charcoal steaks, potato salad, beans, pickles, relish, ice tea and for dessert brownies and homemade ice cream.

Special guests were Mr. and Mrs. C. P. Drake, parents of Ann Bell; Mrs. Eula Mae Spruill, mother of Shirley Tucker; the Rev. Joe Brooks and his mother and Miss Juanell Murphy, fiancée of Richard Cheatham.

About fifty guests attended the cook-out.

**HPRF Gets Fund Grant**

The Florence Lee and C. L. Killgore Foundation of Amarillo has given the High Plains Research Foundation at Halfway \$30,000.00 to implement the irrigation and recharge research program at the Foundation.

This new grant to the Foundation is the second given by the Killgore Foundation to the Foundation at Halfway. The first gift was in 1962 to build the office and administration building now in use at the Foundation.

Trustees of the Killgore Foundation, C. E. Weymouth, W. N. Durham Jr., and A. A. Bush, made the grant with the understanding there will be an additional \$30,000.00 raised from other sources to guarantee that the research project will be financed for a three-year period.

James Valliant, water engineer for the foundation, along with Dean Howard, assistant to Valliant, plan to speed up their research in the field of artificial recharge. This program is designed to put the rain water that collects in playa lakes and the run off irrigation water back into the underground formation in an effort to conserve the underground water supply.

# Olton-Hart Area To Get Farm Roads

The Olton area will gain 21.7 miles of new Farm-to Market mileage under the 1965 Texas FM Road Program.

In a plan released Wednesday by District Engineer Oscar Crain of Lubbock, two new FM roads in Lamb, Castro and Swisher Counties were pro-

posed.

One would start about five miles west of Olton and go south 10.2 miles to FM 1072 in Fieldton.

The other would start five miles north of Hart on FM 168 and run 11.5 miles east to FM 1424, five miles south of Lakeview in Swisher County.

The road to Fieldton is es-

timated cost is \$280,000.

The Castro County portion of the road in Castro and Swisher Counties is 6.7 miles long and its estimated cost is \$140,000.

The Swisher County portion is 4.8 miles long and is estimated to cost \$85,000 before completion.

Work authorized is part of a 911.2 mile state-wide farm-to-market road-building program for 1965 as approved by

the Texas Highway Commission. The program will include 207 individual projects in 153 counties to cost an estimated \$23.5 million.

The action brings the total designated FM system to 37,779 miles, of which 35,026 had been built by April 30. Another 773 miles were under construction on that date.

The farm-to-market road program is an annual road-building undertaking of the Texas Highway Department as provided by State law. Total cost of the 1965 program is approximately one-half million dollars in excess of the basic statutory requirement of \$23 million.

With the addition of the new miles authorized for construction by the Commission today, the designated Texas Highway System now totals 66,518 miles. Of this designated mileage,

3,027 miles represent the Texas portion of the Interstate and Defense Highway system and 25,712 miles are a part of the primary system (U.S. and State numbered highways). Remaining mileage is farm-to-market roads.

The Texas farm-to-market road system is the most sophisticated and highly-developed rural highway network in the nation. So extensive is the Texas FM-RM system that it is equivalent to 1 - 1/2 times the total combined mileage of the entire State maintained highway systems of the six New England States -- Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut.

The farm-to-market road system in Texas now represents approximately 56.7 per cent of the designated 66,518-mile

state-maintained highway system. Present projections call for an ultimate 50,000-mile FM road system in Texas.

Increasing maintenance cost of the farm-to-market system has become a major budget item of the Texas Highway Department--some \$21 million a year.

Total cost of the present farm-to-market system -- including initial cost, improvement and betterment -- amounts to about \$830 million. Much of the increased cost of construction and maintenance of the FM roads has resulted from the higher-type construction and traffic service demanded by modern-day traffic. Some of the FM roads are four-lane, divided with paved shoulders and other refined features undreamed of 15 years ago.

The minimum construction requirements for an FM road are two lanes of 10 feet each, with 24 feet for bridge width and a minimum bridge load limit of 15 tons. This is sufficient to satisfy demands of FM roads serving local traffic only, but not sufficient to meet the needs of many through routes which link Texas Farms and ranches with distant markets.
