VOL. 4- NUMBER 42

HART, CASTRO COUNTY, TEXAS, THURSDAY, APRIL 28, 1966

10 CENTS A COPY

WORK STARTED last week on an addition to Farmers State Bank but rains stopped construction after foundation work was begun.

McLain Youth Fund Started

The establishment of a memorial fund for Dennis Alan McLain, along with contributions in memory of Lauren Elaine (Susie) McLain, were announced this week in Hart.

McLain was killed April 15 in an automobile accident in Hart and his sister was killed March 12 in an automobile accident near Vega.

They were the children of Mr. and Mrs. Laurence McLain of Hart.

The memorial fund for Dennis Alan McLain has been established at Farmers State Bank in Hart.

Contributions in memory of Susie McLain have been made to Camp Blue Haven at Las Vegas, N.M.; New Mexico Christian Children's Home, Portales; Westview Boy's Home in Oklahoma; Boy's Ranch; First Methodist Church, Plainview; and Hart Cemetery Fund.

Those contributing to Camp Blue Haven include the Harvey Davis family, Mr. and Mrs. Bernard Brown, Mr. and Mrs. DeWayne Brown, Farmer's Grain Co., Mr. and Mrs. Howard Mitchell and family, Mr. and Mrs. Ralph Futrell and family, Mr. and Mrs. C. B. Martin Jr. and sons, Mr. and Mrs. Kenny Hill, Mr. and Mrs. Paul Johnson, Mr. and Mrs. Deryl Clevenger, Hart School faculty and students, Hart Church of Christ, Mr. and Mrs. Jimmy Bradley, Mr. and Mrs. Bill Hill and family, the Rev. and Mrs. Dinzel

Leonard and family, Mr. and Mrs. J. D. Rodgers, Mr. and Mrs. Tom Ed Benton, Mr. and Mrs. Glenn Wilson, Mr. and Mrs. Joe Brooks and Paula, Mr. and Mrs. B. R. Bennett and family, Mr. and Mrs. Glen Exter, Mom and Dad Dellis, Mr. and Mrs. Roy Pyeatt, Mr. and Mrs. Worth Jones and Jeton, Mr. and Mrs. Dewey Davenport and Mr. and Mrs. Willis A. Hawkins Sr.

The family has been informed that an engraved plaque in the child's memory will be placed in the main building at the camp this summer.

Donations to Westview Boy's Home have been made by Mr. and Mrs. Elmer McGill and Mr. and Mrs. G. W. Locke.

Donations to Boy's Ranch were made by Mr. and Mrs. Glen Phillips, Mr. and Mrs. Jack Dyer and Mr. and Mrs. Frank Cornelius.

Contributions to the Hart Cemetery Fund were made by Mr. and Mrs. Theron Morrison, Mr. and Mrs. O. D. Dinwiddie, Mr. and Mrs. Hubert Maples, Mrs. Nora Ray and Mr. and Mrs. Jim Bennett and sons of Dallas.

Donations to New Mexico Christian Children's Home were made by Miss Opal Kirtrell, Mr. and Mrs. Jack Godfrey and Mike, and the following group of young people from the Church of Christ at Dalhart: Bert Thompson, Barbara Brown, Steve Whatley, Andrew and Claudie Craig and Nancy, Laura and Beth Jones.

Mud Foils Theft

Well, it jist don't pay .. not when it's raining anyway.

The Cliff Henderson family, after dining out in a local cafe this week, walked out to find their family car missing.

Deputy Sheriff Granville Martin came to the rescue. The lawman recovered the car, some 30 minutes later, only a few miles from town.

Seems the driver was having a little trouble with the auto, which was stuck in a mud hole.

As a result, Patric Luna was taken to jail in Dimmitt and charged with car theft. He was later released under \$1,500 bond.

Moisture's Welcome Here

Wet and welcome...

This was the general feeling over the much needed moisture coming during the past week in the area.

Although rainfall reports varied greatly over different points in the area, Hart's official rainfall was measured at 1.79 inches.

The moisture, desperately needed on cotton and grain land in the region, came on the eve of planting time.

Some felt it was "almost like we ordered it."

Things were back to normal Tuesday and Wednesday with bright sunshine prevailing.

Uncertain weather forecasts, however, looked as though there might be more rain on the way.

"It was good, it was wet and it couldn't have come at a better time," one reader summed it up.

Former Hart Man Describes Viet Nam War In Letters

BY JIM STEIERT

Earlier this year, Staff Sgt. Donald R. Minshew, brother of Mrs. Pete J. Steiert, departed for Viet Nam.

A former student at Hart High School, Sgt. Minshew is presently stationed at Nha Trang.

Following are some passages from his letters home and some meditations on how he, and many other boys over there, feel about this war.

In describing things around Nha Trang, St. Minshew wrote: "The weather is real hot here. It's around 115 to 120 degrees every day. It will be

getting up to 125 to 130 degrees shortly. We have quite a few Viet Cong around our locale, but no serious action yet.

"All in all, it could be a hell of a lot worse."

This was written shortly after Sgt. Minshew arrived.

Another passage from a letter home, approximately one month later, reveals:

"Activity has picked up all over. One thing about being busy all the time, it makes the time pass quickly.

"I don't know much about what they are writing in the papers, but things are jumping all over here, V. C. and political-wise. It will probably settle down in a month or two."

In saying "activity has picked up all over", Sgt. Minshew was probably referring to the recent Buddhist uprisings.

He and a lot of other boys would probably hold a low opinion of the Buddhist Monks who have started all this trouble in an already politically unstable country.

These uprisings have set the Vietnamese government off balance and caused inconvenience for all U. S. GI's involved. To top this, the Viet Cong

has stepped up terrorist tactics in an effort to destroy the American soldier's morale. But they will not succeed. Each American soldier has specifically expressed his determination to help win the unhuman war in Viet Nam. And they are winning!

They are all fine boys who are over there in a strange country, half-way around the world, dying to defend freedom. Every day they die in a strange land that they do not know.

They get homesick. They wish they were back in the "States", instead of in this hell called Viet Nam.

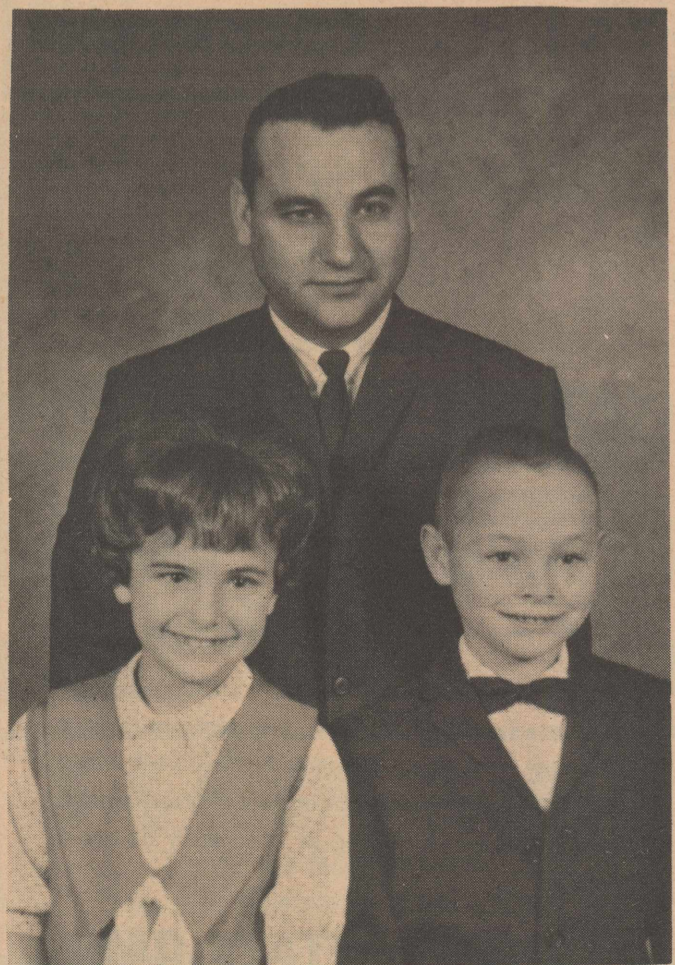

But they are brave and they stay there and do their jobs well. They want us to realize how important the job they are doing is and it is our duty to do so.

Sgt. Minshew is a career man in the army.

He volunteered for his duty. When he shipped out, he said:

"I don't really know what that war is for. But my country needs me there and I'll go to fight for you all. And I think we'll come through."

And the Viet Cong are finding out from our boys over there, that we are definitely "coming through."

SGT. D. R. MINSHEW, now in Viet Nam, is pictured above with his daughter, Nita, 8, and his son, Rex, 11.

FHA 'Aids' Servicemen

A different kind of "aid" drive is on in Hart with FHA girls sponsoring a Kool-Aid drive for servicemen stationed in Viet Nam.

Residents are asked to leave packages of sweetened Kool-Aid at any of the local grocery stores.

Girls will pick up the packages and ready them for mailing to Viet Nam.

Andy Rogers Statement Issued Here This Week

ANDY ROGERS

Due to the Federal Courts ultimatum your Texas legislature was forced to re-district. The old 30th District I have represented for nearly 14 years has been greatly enlarged -- 300 miles across.

This job of State Senator belongs to YOU, the people, not to me or any other candidate. The whole object of filling this post is that YOU elect the person best able to serve you -- not necessarily the most popular, best known and certainly not just the one who can spend the most money in a campaign.

I wish very much to see and visit personally with everyone, and will do so, as much as is humanly possible.

However, the huge size of our district, very limited money resources and the work and responsibility my Seniority places on me limits this personal contact, by me, quite severely.

Therefore, I sincerely request you to examine my record, satisfy yourself and help me spread the word to others.

I am a farmer, stockman, and small businessman. 41 years of age, have been active in church, lodge, civic work and farm and Veterans' organizations. My wife, myself, two daughters and one son are native West Texans, of the area including our Senate district. I served three years in the United States Army during World War II and have seven years of college - Texas A&M and the University of Texas.

It is dangerous in our State Legislature not to be a "go along to get along" person. It is dangerous to speak loudly and firmly against some big officeholders when you do not agree with them 100 per cent of the time or oppose some of their programs you believe harmful to your District or State. It is dangerous to seek to really stop pollution of our surface and ground waters. It is, perhaps, even more dangerous to raise your voice against corruption in high places when it arises or to oppose the great out-of-state owned corporations who have so much power in Austin -- those who seek to evade their fair share of taxes and seek to shift an ever greater burden to the worker, farmer and Texas-owned businesses.

Andy Rogers has done all of these and therefore is on their list for extermination.

When I first ran for the State Senate in 1952 -- there was then a great hue and cry to clean up the "mess in Washington." I was an oddity among candidates THEN, as I charged that "Austin is as rotten as Washington" and that "moral integrity is needed most."

I further demanded a law to require state officials and legislators to file for public record, a statement showing their income and its source.

This wasn't, and still isn't, the way to be very popular in Austin and certain other circles.

In 1954, I, and a few others, urged investigations into several matters, including the Insurance Commission, certain land transactions and certain state contracts. For our efforts we were slandered.

A few months later the lid blew off.

I have authored and passed legislation against obscene, dirty literature, pep pills and narcotics.

Yes, I have made many good friends among those who work for the interest of our District. I have also made many good enemies of those selfish minority blocs who interests conflict with those of our District.

In two of my more recent races they have used every trick; deceit, slanderous any-

mous mail and threats to me and my closest friends.

During this race they have, so far, at least, been more subtle. But their money and power behind my opponents become more obvious each day.

This is not to say that my two opponents would employ or use these tactics -- they both seem like nice guys -- but they don't have to use them -- some others will gladly and freely do this for them if they think it will work.

These methods of deceit, etc. have been perfected to an art. And, as has been said, "the perfection of art is to conceal art." But look closely -- it is obvious they are at work -- not necessarily because all of them love my opponents, but because they seek to destroy an old and proven enemy, Andy Rogers.

Meanwhile, my opponents readily seek and accept campaign money from various ones of these enemies of the people.

I and my family and some friends have suffered economically, socially and politically at the hands of some powerful lobbyists and others. But, I have not run from them in the past -- I will not do so now; or in the future.

ISSUES

1. So the first real issue in this race for the 30th Senate District post is, can those who deceive the people and try to manipulate the people and try to manipulate the Legislature and other state officials to their advantage, finally succeed with their tactics and limitless money.

2. In Wichita Falls, the main population center of our district, a group there, several of their number extremely wealthy, pretty well control their city and county. Now they intend to control your Senate representation in Austin. Recently, a banker, and very rich oilman, among their number called a "SECRET" meeting in Wichita Falls to rant and rave how horrible Andy Rogers was and to raise money for one of his opponents. He didn't bother with the facts. MORE IMPORTANT, he didn't tell why he was really against me.

The truth is that in 1959 your then Senator George Moffett and other leaders in Wichita Falls asked me to sponsor a law creating a pollution authority to control oil field pollution as Wichita Falls HAD to seek a new water supply and the proposed new lake would be worthless until firm pollution control was initiated.

I passed this bill for Wichita Falls and neighboring towns and it has brought wonderful people.

But the banker and oil man who called the "SECRET" meeting did not explain how he had been and still is considered one of the worst violators of pollution control.

Most of our oilmen, including the major companies have cooperated wonderfully with the pollution authority -- but not this gentleman.

He regularly contacts our legislators and other state officials to try to destroy the pollution authority. He is regularly known to be one of the major political contributors to candidates on every political level.

Shall we let him destroy Andy Rogers who passed the bill to protect our water for all our citizens??

3. The "Iron-Curtain press" In my 18 consecutive years in politics I have never encountered any news media as slanted and biased as the Wichita Falls newspaper.

They have persisted in making "news" for their favorite son and denied every opportu-

ity possible to let their readers know there are even other candidates running.

They have so arrogantly and flagrantly denied the public of its "RIGHT TO KNOW".

Shall the voters reward this un-American like Institution??

4. Seniority. If a candidate has a voting record to please most of the voters, the next most important thing in his ability to represent them, is his Seniority.

Andy Rogers now ranks 6th in Seniority in our Texas Senate by virtue of four years in our House of Representatives and nearly 14 years in our State Senate.

Seniority in our Senate is the most important factor in determining which committees a Senator will serve on and the ones of which he will be chairman -- and there fore his ability to serve.

Nothing else can take the place of experience and Seniority -- it can't be purchased at the supermarket or acquired by taking a pill.

This job belongs to the people, not me or any other candidate.

The people of our area have an 18 year investment in the experience and seniority of Andy Roger. To elect either of his opponents would mean at least a 12 year wait to again have another Senator with this important asset.

Should the voters throw away this most valuable asset they already own???

There are many other subjects I would like to discuss, but I will close by saying it has been a privilege to co-author and work for the bill that made Midwestern a four year state-supported school, to co-author and work for the bill that changed the name of West Texas State of a University and to have had a vital role in the efforts to place Texas Tech where it stands today.

Yes, check my record -- ASK THOSE WHO KNOW.

Andy Rogers long record of service for the people of our area is clear. You can know where he stands -- while many have been known to falter and wilt in the terrible heat and pressure of the jungle of Austin politics.

WHY TRADE A RECORD FOR A PROMISE???

I need your vote and support. It will be deeply appreciated.

Sincerely,
Andy Rogers
(Signed)

Chi Psi Meet Held

Chi Psi chapter of Beta Sigma Phi met Thursday April 21 in the home of Leta Clevenger with Marihelen Willis and Sarah Hart as co-hostess, with a combined regular meeting and a Pledge Ritual.

Program was a book review given by Mrs. George Reddinger of Plainview.

Taking the Pledge Rituals were Jo Bass, Wanda Black and Carla Franks.

Refreshments were served to 18 members and three pledges.

SCOUT NEWS

The Cadette Girl Scout troop met April 20 from 4 to 5 p.m. at the Scout house to discuss challenges.

One guest, Ann Marie Sanchez, was present.

Members present were Kathy Weatherly, Marsha Seago, Sharon Brooks, Carol Mills, Brenda Covington, Diane Lancaster, Becky King, Jeton Jones, and the troop leader, Mrs. Kenneth Covington.

Refreshments were served by Kathy Weatherly.

The troop met again April 27 at the Scout house from 4 to 5 p.m. to make cookies.

Three Attend State Meeting

Misses Meitzie Kennedy and Rebecca Futrell and Mrs. Louise Carter leave today to attend the FHA state convention in San Antonio.

They will return to Hart Saturday.

CARD OF THANKS

Words can never express our appreciation for the comfort and strength we received from the beautiful expressions of sympathy offered by our many, many friends in the recent tragic losses of our precious and beloved children. Your every act, the prayers, calls, cards, food, flowers, and memorial contributions -- shall be "Precious Memories" in the years ahead. May God richly bless each of you, always.

The family of Susie and Dennis McLain.

VICKI HANKINS

Recipe Of The Week

Our recipe this week comes to us from Vicki Hankins, 14-year-old daughter of Mr. and Mrs. Owen Hankins.

Vicki is active in basketball at school and is a member of the Baptist Church. She has one brother.

CHICKEN A LA KING (Servings - 4)

- 1/3 c. butter or margarine
- 2 T. minced onion
- 1/4 c. finely chopped celery
- 1/3 c. flour
- 2 c. chicken broth
- 1 c. milk
- 1 t. salt
- 1/2 t. pepper
- 1 t. paprika
- 1 4-oz. canned pimentoes, diced
- 1 hard cooked egg, chopped
- 1 c. diced, cooked chicken
- 4 toast cups
- Toasted bread crumbs

In heavy skillet, lightly brown onion and celery in butter. Add

flour; mix till smooth; then add chicken broth, milk, salt, pepper, and paprika. Cook slowly, stirring constantly, till slightly thickened. Add pimento, egg and chicken. Simmer till all ingredients are heated through and mixture is thick. Pour into toast cups, sprinkle top with bread crumbs, and serve immediately.

Hart 4-H Club Has Program On Electricity

Hart 4-H Club met April 19 at 8 p.m. at the home of Joe Percy Hart for a regular meeting.

The program on electricity, was given by Louis McDaniel of Southwestern Public Service in Dimmitt. He spoke on safe ways of handling electricity.

The meeting was called to order by the vice-president of the club, Gary Hart.

Mrs. Hart served refreshments to the county agent, Charles Hottel, and to the members of the club, Douglas Heck, Steve Cox, Larry Sanders, Don Sanders, Gary and Marlan Hart.

**IF YOU KNEW ALL THREE,

**CRAWFORD
MARTIN**

FOR ATTORNEY GENERAL

Lions Club Meet Held

Hart Lions Club met April 25 at noon at Alford's Cafe for the regular monthly meeting.

Rosemary Carter gave a re-

port on the activities at the district queen contest.

Guest speaker was Van Earl Hughes, who gave the program on "Guidelines We Live By."

Miss Carter and Hughes were special guests present.

Members of the club present were Andy Gardenhire, Dinzel Leonard, Joe Newman, Dwayne Brown, W. A. Hawkins, Jr., Otto Dinwiddie, W. T. Sanders, Ed Harris, Richard Franks, Joe Bailey, Bill Rich, John Holloway, and Kenneth Lambert.

WSCS Social Held April 21

The Women's Society of Christian Service met April 21 in the First Methodist Church for a regular meeting and social.

Mrs. W. A. Hawkins Sr., president, presided at the business session, at which final plans were made for a breakfast held this morning, when the society will be the hostesses for the seniors of Hart High School. The devotional was given by Mrs. C. B. Landers. Her subject was "Faith".

Mrs. Ed Bennett served refreshments to Mmes. W. A. Hawkins Sr., C. B. Landers, E. E. Foster, H. H. Parker, W. E. Yeager, Jeff Smart, Douglas Gossett, A. L. Aven, Don Rue, Robert Hawkins, Newton Rowland, J. V. Wescott and Theron Morrison.

Senior Class To Be Honored

Woman's Society of Christian Service is giving its annual breakfast honoring the Hart Senior Class Thursday morning.

The Rev. Van Earl Hughes will be the guest speaker.

IN LUBBOCK

Mrs. Paul Brooks and Mrs. Arthur Cheves attended a Girl Scout leader's training meeting at the Girl Scout council house in Lubbock Thursday April 21.

Good Neighbor Meet Slated

The Good Neighbors Club will meet Tuesday, May 3 in the home of Mrs. Buster Aven. Mrs. Let McLain will be co-hostess.

This will be an all-day meeting.

FAMILY MOVES

Mr. and Mrs. John Bannworth and Steve have moved to Mission, where they will farm.

IN IOWA

Mrs. Joe Bailey was called to her father's bedside Friday in Utumwa, Iowa.

THINKING ABOUT SUMMER?

THINK ABOUT GAS AIR CONDITIONING!

GAS answers all of your air conditioning needs. First and foremost, it does the job you want air conditioning to do... keeping every room in your house cool and comfortable. And, GAS is so economical. People who own GAS air conditioning know it costs less to operate. Maintenance costs are kept to a minimum, too, because GAS air conditioning has no moving parts to wear out. Should the need occur, you are assured of fast, dependable service because Pioneer stands behind every unit they sell.

STATE CAPITAL Highlights AND Sidelights

AUSTIN -- As State agencies charged with meeting the Federal deadline of submitting a Texas Water Plan by June, 1967, "wade" through all obstacles in the path of that plan, "water" is the topic at every turn in the capital city.

A unique statewide water plan of importance to all areas of Texas will be unveiled within the next few weeks.

In a brief preview, water experts revealed that the overall 50-year plan will cost more than \$2,000,000,000. Joe M. Kilgore, chairman of the comprehensive water planning advisory committee, said the proposals are "broader than ever before attempted by any government."

Joe G. Moore Jr., executive director of the Texas Water Development Board, said the plan will propose redistribution of water from surplus areas of northeastern Texas. Recommended diversion would follow the Trinity River, the Brazos River and a canal down the Texas coast.

Moore estimated cost of waste treatment facilities alone to bring stream "return flow" (for reuse) to acceptable standards at \$740,000,000. Figure would include regional treatment systems for both municipal and industrial wastes.

No other state, said Chairman Kilgore, has attempted to so include in one massive effort all aspects of water planning touching on its entire economy and cultural life.

ATTORNEY GENERAL SPEAKS

State Savings and Loan Department has authority to decide whether a business not under its regulation may use the term "savings" as part of its name, Atty. Gen. Waggoner Carr ruled.

In other recent opinions, Carr concluded that:

Newly-authorized farm machinery exemption from motor vehicle inspection requirement does not necessarily include trucks and jeeps primarily used on farms.

A constable who advertises he won't work traffic accidents

has not neglected his duty, but an actual refusal to attend such accidents where there is reason to believe a violation has occurred does constitute neglect.

A justice of peace may appoint counsel for an indigent in an examining trial, but a section of the criminal code permitting inclusion of fees for appointed lawyers in court costs is unconstitutional.

Appropriation for construction of a museum building at Washington State Park cannot be used for repairing or restoring historic buildings already at the park.

A person placed on probation cannot get fine and court costs back on completion of probationary period.

Unclaimed property in hands of peace officers for 30 days is to be sold (does not apply to intoxicants or autos.)

APPOINTMENTS

Gov. John Connally appointed Lewis H. Bond of Fort Worth, Robert W. Whipkey of Big Spring and William B. Blake-more of Midland to new State Judicial Qualifications Commission.

Connally named as representatives to the 15th annual Legislative Work Conference on Southern Regional Education, July 27-30:

Sens. Tom Creighton of Mineral Wells, Jack Hightower of Vernon and Culp Krueger of El Campo and Reps. Don Cavness of Austin, Lee Duggan Jr. of Houston, Gene Fondren of Taylor, James E. Klager of Corpus Christi, Felix L. McDonald of Edinburg, Rayford Price of Frankston and Reed Quilliam of Lubbock.

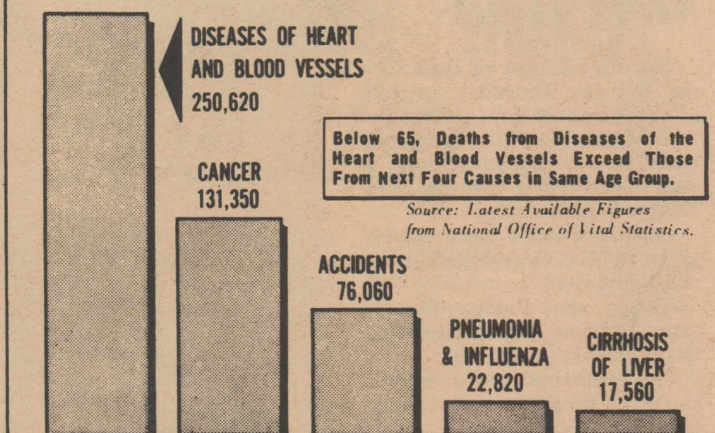

Joe Edgar Wright, formerly of Brownwood, succeeds George L. Carver, who retired April 15, as head of the Texas Highway Department Planning Survey Division.

HEARING SET

State Supreme Court agreed to hear arguments May 11 on petitions of two sulphur companies that Land Commissioner Jerry Sadler should be required to file their Pecos County claims.

Sadler maintains Duval Corporation of Houston and Piper Petroleum Company of Delaware are trying to get authority to mine sulphur for 50 cents an acre on state land worth

Leading Causes of Death in U.S. Below Age 65

Below 65, Deaths from Diseases of the Heart and Blood Vessels Exceed Those From Next Four Causes in Same Age Group.

Source: Latest Available Figures from National Office of Vital Statistics.

DISEASES OF HEART AND BLOOD VESSELS are described by Dr. Paul Dudley White, a founder of the American Heart Association, as "the epidemic of the twentieth century." Chart shows they are not an exclusive liability of the aged but instead the leading cause of death among persons below the age of 65. To speed the fight against these diseases, give generously when a Heart Sunday volunteer calls at your home for your Heart Fund gift.

\$2,000 an acre. He also contends 1895 and 1919 State laws under which the companies filed no longer are applicable and were replaced by sealed-bid statutes in 1931.

Court ordered Sadler to postpone his scheduled May 3 opening of bids until it reaches a decision on the May 11 hearing.

DRAFT QUOTA DROPS

Texas' draft quota for June is the lowest in a year -- 712.

Last June's quota was 670, according to Texas Selective Service headquarters. Allotment ran to nearly 1,000 for seven months starting in September, dropped to 979 in April and rose to 1,642 for May.

Nationwide quota during June (for the Army) is 15,000.

PLANNING PROGRAM

First of "exploratory conferences" with major state agency heads will begin April 26 as a step toward development of a coordinated state planning program for greater economy and efficiency in overall governmental administration. Study was authorized by 1965 Legislature.

Members of the governor's staff and the planning consultant firm of Harold F. Wise/Robert Gladstone and Associates will conduct interviews with Department directors. Firm was employed with part of funds from a \$65,744 Federal grant for purpose of developing basic information for the planning program.

City Considers Peace Officer

Hart city councilman met Monday to re-appoint Dr. Jack Harris as city health officer.

Councilmen also discussed the possibility of hiring a peace officer for the city but no action was taken.

This proposal, however, is still under consideration, pending further investigation.

Graduation Set May 20

Graduation time is here again with three big dates set at Hart Schools.

High school commencement will be May 20 at 8 p.m., with baccalaureate set May 8 at 8 p.m.

Grade school commencement will be May 21 at 8 p.m.

Milling Plant Set In Dimmitt

Stockholders of Dimmitt Wheat Growers Inc. have recommended to the board of directors the construction of a \$20,000,000 grain milling plant.

Plans call for the plant to be constructed adjacent to the present Dimmitt Wheat Growers Elevators at Dimmitt.

It is designed to grind 20 thousand bushels per day, approximately 7 million bushels per year, operating around the clock with expandable features.

The plant is expected to be the most modern automated grain processing plant in the world today.

Federal LAND BANK Association

Mr. Farmer— Mr. Rancher:

Too many short-term debts can cripple your total credit program, tie up operating capital and cause you to miss opportunities that require immediate funds. For these reasons, it can pay you to consolidate your short-term obligations with a long-term, low cost Land Bank loan on your farm or on your ranch.

IN HOSPITAL

Mrs. C. W. Seago underwent surgery in the Plainview Hospital Monday and is doing fine.

VISIT MYERS

Mr. and Mrs. Ode Price and Arlene of Higgins and Mrs. Ollie Breck of Olton, Mr. and Mrs. Donald Featherston and family, and Mr. and Mrs. Aubrey Myers were guests in the home of Mr. and Mrs. A. C. Myers Sunday.

IN ARKANSAS

Mr. and Mrs. C. B. Landers accompanied their daughter Mr. and Mrs. Joe West to Arkansas last week, where they visited old friends in Hot Springs and Arkadelphia, Ark. They came back by Kilgore and visited Landers' cousins. They reported having a wonderful time and a lot of rain on them at Kilgore Monday.

IN PLAINVIEW

Mr. and Mrs. Bob Reed and children visited relatives in Plainview over the weekend.

It is an accepted fact that quality planting seed is the first limiting factor in the production of a high yield, good quality cotton crop. And a maximum effort to secure and plant the best possible seed is good advice to any cotton farmer.

But even the producer who hears and heeds this advice to the fullest may still end up planting inferior seed -- simply because he doesn't have access to enough information about seed quality.

This conclusion came through loud and clear recently when Plains Cotton Growers, Inc., hosted a meeting of top-notch plant scientists to discuss ways and means of providing farmers with more complete and more meaningful information on seed quality.

It was agreed at the meeting that there is much more to the quality of planting seed than is revealed by standard germination tests. For one thing, the tests are run under optimum conditions at soil temperatures from 68 to 86 degrees -- conditions seldom found on the Plains at planting time. If he is to plant early, get a good stand and take maximum advantage of a short growing season, the High Plains farmer needs to know what percentage of the seed will sprout at from 58 to 60 degrees, or at least as low as 65 degrees.

Also, the standard tests now in use reveal only how many seed sprout. They shed no light on the vigor of the seedlings that result from germination. The question is not only how many seed will sprout, but also how many will produce a seedling strong enough to survive the attack of soil borne organisms long enough to emerge from the ground.

It was pointed out by C. B. Spencer, agricultural representative for the Texas Cottonseed Crushers Association, that seed with 80 per cent germination often give only 40 per cent emergence under the adverse conditions found on the plains. And this is true even of seed bearing certified, registered, or select tags.

Dr. Bob Berry pointed out that certified seed must be produced from plants that are typical of the variety and must be free of weed seeds. And, by law, an inspector must certify that the seed are not carry-

ing disease organisms which he is capable of detecting. He said these guarantees put the certified seed far above the average farmer-grown seed. But he went on to say that the fact that a seed lot is certified does not guarantee that the seed will be high quality from the standpoint of deterioration.

It was suggested by the scientists, and plans are being made by Plains Cotton Growers to set up a system of grading seed in seedling vigor categories to show the percentage of excellent, good, fair, poor and abnormal seedlings that result from germination. This could be done with plantings in plastic trays during winter months, and some such testing will be done prior to planting time in 1967. Also, germination tests at soil temperatures below the optimum range are planned.

Standards for seedling vigor and low temperature germination will take time to establish. But in the meantime there are things producers can look for which will help assure them of quality planting seed.

Of primary importance is varietal purity. This fact was clearly demonstrated in 1964 and 1965 by Dr. Levon Ray, agronomist at the South Plains Research and Extension Center. Dr. Ray compared yields and net returns from farmer-saved seed and certified seed. In 1964 the certified seed produced an average of 116 pounds of lint cotton per acre more than farmer-grown seed. Results from the 1965 tests were not so spectacular, but there was still an average difference of 36 pounds lint per acre -- far more than enough to justify the cost of pure seed.

There are not, of course, enough certified seed available to plant the entire High Plains crop. And Dr. Ray points out that since it is necessary for some farmers to save their own seed, extreme care should be taken to preserve seed quality and purity. First, he says, farmers planning to save their own seed should have a seed plot planted with the best and latest release of their preferred variety each year. Then, the necessary precautions should be taken to preserve varietal purity and quality throughout the growing season, harvesting, ginning and delinting.

Dr. Luther Bird of the Plant sciences department, Texas A&M, emphasizes the importance of producers knowing the history of the seed they plant as a guide to overall seed quality. The producer should know whether the seed he plants are from a fully mature and disease-free crop; whether they are kept dry in the field after maturity, during harvesting, in the trailer prior to ginning and in storage after ginning. If too much moisture is present at any time, deterioration of seed quality, loss of germination and seedling vigor will occur, Bird said.

He went on to say that good seed with at least 80 per cent germination and which have been properly handled can be planted when soil temperatures at seed depth are averaging from 58 to 60 degrees, while seed in which quality has been allowed to deteriorate may not produce a stand at less than 65 to 68 degrees soil temperature.

The continuing economic pressure on the cotton producer makes it more necessary than ever before that he attain top yields of quality fiber from every acre planted.

KITCHEN KORNER

BY LELA GALLION

We certainly all have enjoyed the nice slow rain we have had this past week and I notice the weeds have grown about 3 inches!

I use this quick cookie recipe and the little ones especially enjoy it.

CHOCOLATE SCOTCHEROOS

1 c. sugar
1 c. light corn syrup
1 c. peanut butter
6 c. Rice Krispies

1 c. (6 oz. pkg. semi-sweet chocolate morsels
1 c. (6 oz. pkg.) butterscotch morsels

Combine sugar and syrup in 3-quart saucepan. Cook over moderate heat, stirring frequently, until mixture begins to bubble. Remove from heat. Stir in peanut butter; mix well. Add Rice Krispies; stir until well blended. Press mixture into buttered 13x9-inch pan.

Melt chocolate and butterscotch morsels together over very low heat or over hot but not boiling water, stirring until well-blended. Remove from heat; spread evenly over Rice Krispies mixture. Cool until firm. Cut into bars. Yield: 48 bars, 2 x 1 inches.

Also this lemon pie is a delicious treat.

LEMON CHEESE PIE

(Just like the richest cheesecake with a sour cream topping -- and so worth every calorie-packed bite.)

Bake at 425 degrees for 10 minutes, then at 350 degrees for 50 minutes. Makes 1 nine-inch pie.

1 recipe Plain Pastry
2 pkgs. (8 oz. each) cream cheese
1 c. sugar (for filling)
3 eggs
1 tsp. grated lemon rind
2 T. lemon juice
1 c. (8 oz. carton) dairy sour cream
2 T. sugar (for topping)
1 tsp. vanilla.

Prepare pastry. Soften cream cheese in a large bowl. Beat in the 1 cup sugar until fluffy, then eggs, one at a time, until creamy smooth. Stir in lemon rind and juice. Pour into prepared pastry shell.

Bake in hot oven (425) 10 minutes; lower heat to moderate (350). Bake 50 minutes longer; remove from oven; turn off heat.

While pie bakes, mix sour cream, the 2 tablespoons sugar, and vanilla in a small bowl; spread evenly on top of hot pie. Return to oven; let stand 1 hour WITH HEAT OFF. Cool completely on a wire rack.

FOOD FOR THOUGHT

The U. S. Department of Agriculture tells us that the average housewife spends \$32.11 a week on food. And it's her favorite sport -- if you can call housekeeping chores sport.

Grocery shopping, American style, "ain't what it used to be." Our great-grandmothers, of course, did their shopping in the field -- picked their own peas, shucked their own corn and raised their own beef in days when the only container in which milk came was the family cow.

Nowadays, a single trip to the supermarket puts the housewife in the center of every food imaginable -- not to mention drug and hardware items.

Aside from the obvious lack of work involved, perhaps the main reason shopping is liked is that today's woman enjoys getting away from household routine -- and into what is usually a bright, cheery store. The problem of where to get food has been transformed into what kind to buy and how much to spend for it. Today's shopper has a good idea of where every food penny goes.

It's not easy. She must choose from hundreds of tempting foods -- the likes of which her great-grandmother or even her grandmother never saw. Agriculture has greatly improved the size and quality of just about every fruit and vegetable. Moreover, scientific breeding has made chickens, turkeys and other livestock meatier -- you can eat white meat forever, if you like.

In line with these advances, industry has come up with methods of preserving food considerably longer through freezing, dehydrating and protective packaging techniques.

Boil-in-the-bag, bake-in-the-bag and freeze-dehydrated foods menued for astronauts are becoming commonplace. Of all food, perhaps meats are the most difficult to work with. To preserve meat in earliest times man had to salt it or dry it into unattractive, unrecognizable and often indigestible forms.

Subject to rigid government inspection, meat quality is now a matter of fact to the housewife. Nevertheless, meat is still prone to rapid spoilage if not vacuum-packaged. Vacuum packaging, where all air is removed to prevent spoilage, is the same method of packaging the housewife associates with the long-used metal coffee cans. With the development of tough, nylon packaging film, the same effect is now possible in transparent, flexible packages. Now, everything from bacon to frankfurters to luncheon meats is available in flexible vacuum packages that retain flavor, improve appearance and more than triple the storage life both at home and in the supermarket display case, under normal refrigeration.

With all this industry working for her, it's a small wonder that the U.S. housewife is esteemed as a model of efficiency.

New Breakthru Hybrid for the Great Plains

DEKALB F-65

NEW DeKalb F-65 Yield Breakthru variety is a short-stalked, full-season irrigation hybrid for the Southern Great Plains area. It is especially adapted to Texas High Plains irrigated conditions. Has bred-in smut tolerance -- is short-stalked and produces big heads of dark, red grain. It's a dandy. Order yours today!
