Cotton Sale-Lease Vote Set

Cotton farmers in Castro County will vote this month to decide whether they want to be able to sell or lease their cotton allotments outside the county, Jim Elder, chairman, Agricultural Stabilization and Conservation County Committee, has announced.

The referendum on the question will be conducted by mail during the period May 16 through May 25. Ballots may also be delivered by hand to the ASCS county office.

The only question to be decided by the balloting is whether upland cotton allotments may be transferred during the next three years to other farms outside the county which are owned or controlled by someone else. Such transfers may be made by sale or by lease. In no case may transfers be made outside the state. An affirmative vote by at

least two-thirds of the county's cotton farmers who vote will permit such transfers for the next three upland cotton crops, 1967-69.

A referendum on the same question was conducted last fall throughout the cotton belt, and growers in 349 counties at that time approved the allotment transfers. The vote this May will be held only in counties which disapproved such transfers in last fall's vote.

The upcoming vote marks a first in program administration, according to Elder. Farmers previously have been able to vote by mail in annual ASC Committeemen elections, but the method has never before been used in a commodity program referendum.

Elder said, "It's easy to vote by mail, and we hope all producers will vote. The vote

Light Voter Turnout Goes Along With State

Less than 50 voters turned out here Saturday for the state-wide primary elections.

The Hart box went along with the rest of the state on all except three races, going with W. T. McDonald for judge of court of criminal appeals, Andy Rogers for state senator and Franklin Spears for attorney general. Crawford C. Martin led the state in the attorney general race and now faces a run-off with Spears.

In the only contested race on the county level, Mrs. Robert (Bud) Leinen polled 722 to Mrs. Irene Carpenter's 629 for county treasurer.

Mrs. Leinen took 23 in the Hart box and Mrs. Carpenter had 19.

In the 30th Senatorial District race, Rogers led the county with 796 to Jack Hightower's 317 and James Ray's 232.

Hart voters gave 29 to Rogers, 8 to Hightower and 5 to Ray.

Hightower polled approximately 53 percent of the votes in the entire race.

In the governor's race, John Connally polled 946 in the county, 24 in Hart; Stanley C. Wood, 363 and 16; and Johnnie Mae Hackworthe, 44 and 1.

For lieutenant governor, Preston Smith had 1157 in the county and 29 in Hart; Bill Holwell had 281 in the county and 13 in Hart.

For United States senator, Waggoner Carr took 1011 in the county and 29 in Hart; John R. (Jack) Willoughby had 332 in the county and 11 at Hart.

In the attorney general race, Crawford C. Martin took 579 in the county, 12 at Hart; Franklin

Spears had 525 in the county, 23 at Hart; and Galloway Calhoun had 207 in the county, 4 at Hart.

For commissioner of general land office, Jerry Sadler had 951 in the county, 25 at Hart; Fred Williams, 363 in the county and 14 at Hart.

ing, 280, 10 at Hart; and P. S. (Puss) Ervin, 165, 1 at Hart.

Smith Selected As Star Farmer

David Smith was selected Star Lone Star Farmer of Area I at the convention Saturday at Lubbock.

He had earlier been named Star Lone Star Farmer of the Plainview District, which enabled him to compete with winners from the other five districts in the area.

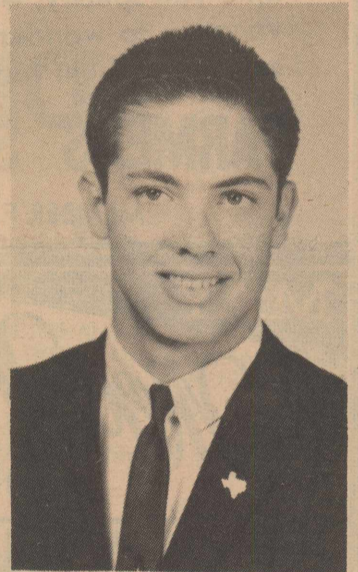

Smith is now eligible to compete with other area winners for State Farmer Degree in June. This degree is awarded to two percent of the active FFA members each year and is the highest FFA degree that can be awarded on a state basis.

Serving as FFA president this year, Smith's farming program includes cotton, milo, potatoes corn, layout ground, commercial steers, sows, gilts and a boar.

He has been active on judging teams, leadership teams, chapter committees, co-operative activities, served as a class officer and has been active in church and school activities.

Six other members of the chapter met all qualifications and passed the area check for the State Farmers Degrees.

They are Billy Bob Bell, Doug Martin, Bob Crick, Jerry Smith, George Bennett and Darryl McLain.

Clean-Up Scheduled By City

Hart Mayor E. E. Foster issued an appeal this week to residents "to help make Hart a cleaner city in which to live by joining in the city-wide clean-up week."

The week is set Monday May 16 through Saturday May 21.

During the week, residents are requested to clean premises of trash, rubbish and refuse and to put this in an alley for pickup.

Owners of vacant lots are required to remove trash at their own expense and to keep weeds under control throughout the season for protection against mosquito breeding.

Foster said if vacant lots are not kept clean by owners, the city will clean the lots and bill the owners for the service.

During clean-up week, each business firm is asked to furnish either a truck or help. Trucks will pick up trash and rubbish Friday and Saturday, May 20 and 21.

"Your co-operation is solicited in the observance of this clean-up program," Mayor Foster said this week.

HART FFA UNIT AT STATE MEET

Members of the FFA dairy products judging team will be at Texas A&M University at the state judging contests this weekend.

The dairy cattle judging team placed 16th in the Texas Tech contest and second in district. More than 120 teams competed at Tech in this division. Members of the team are Bob Crick, Jerry Smith and George Bennett.

The land judging team, composed of David D. Harris, David A. Harris and Danny Rice, placed sixth at Tech and second in district.

THREE YEARS AGO
Hart voters returned to the polls Saturday for the second time within a month to cast ballots in the school expansion program. They favored the \$360,000 bond for construction of a new junior high-senior high school and gymnasium, but failed to pass the bond for the \$75,000 for construction of a 600-seat auditorium.

ONE YEAR AGO
Two delegates from Hart High School, Rene Brooks and David Smith, have been named to attend Boys' and Girls' State in Austin in June. Candidates were nominated by teachers in Hart Schools and final selections were made by Hart American Legion Post 311 and American Legion Auxilliary Post 311.

Roy Taack and Jim Steiret of Hart were among those honored as outstanding district farmers and essay winners at a banquet May 8 in the community building at Dimmitt.

Hart Junior Riding Club traveled to Lubbock Sunday to bring back a total of 35 points for their club.

Baccalaureate services for Hart High School graduating class were held Sunday, May 9 in the First Baptist Church here. Commencement exercises are set for Friday, May 21 in the high school auditorium.

Hart grain elevator managers said this week that wheat fields in this area will be way off this season, due to the late freeze. Damage was especially severe on dryland crops. Cotton gin managers thought about 50 to 65 per cent of the cotton had been planted.

City council members and volunteer firemen were out this week in an effort to curb the mosquito before it becomes more of a nuisance.

KITCHEN KORNER

BY LELA GALLION

Well, I think most of us will try different recipes especially if they sound good. Nowhere is one you may not think sounds good but surprisingly is very good and moist. A friend brought me a piece of this cake and what a surprise to find out what was in it. If you try this on a friend or husband, don't tell them what is in it before they eat it.

2 1/4 c. sifted flour
1 tsp. baking powder
1 tsp. soda
1/4 tsp. salt
1 c. cold water

Cream oleo, sugar and eggs, add sifted dry ingredients alternately with creamed mixture and water. Add kraut last and vanilla. Bake until done in 9 x 13 x 2 inch greased and floured pan.

Stockstill Will Attend Institute

R. L. Stockstill, Hart, will be among the 100 high school teachers of physics, chemistry, earth science, mathematics and biology to participate in a Summer Institute of Science and Mathematics at Texas Christian University from June 6 to July 15.

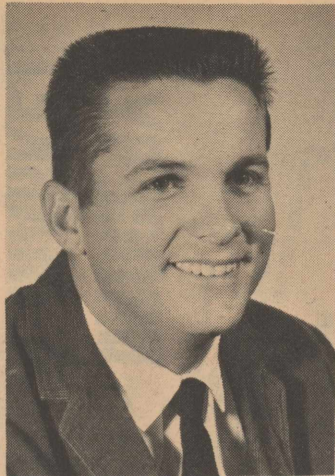

Made possible by a grant from the National Science Foundation, the six-week session will be directed by Dr. Daniel Jarvis, associate professor of geology, according to an announcement by Chancellor James M. Moudy.

The institute, the eighth consecutive NSF-sponsored one for TCU, will have a program planned to provide an opportunity for the teachers to enrich their basic knowledge in their particular fields, acquaint them with some of the more modern aspects of the subject areas, emphasize the inter-

relationship of science and mathematics and the importance of the specific fields in the world of industry.

The participants, divided into one group in each of the sciences and two in math, will earn six semester hours of college credit after successfully fulfilling the institute's requirements. Transfer credit to institutions other than TCU can be given.

In order to qualify for selection for the institute, applicants were required to hold bachelor's degrees from accredited colleges, be employed as a high school science or mathematics teacher, have received no more than three previous NSF grants and have acceptable academic and professional training as well as teaching interests.

R. L. STOCKSTILL

Methodist Men Elect Officers

The Methodist Men's Fellowship of the Hart Methodist Church met May 4 at 7 a.m. in the banquet room of Alford's Cafe for the regular breakfast meeting, held the first Wednesday of each month.

The pastor, the Rev. Douglas Gossett, presented the short devotional from the Upper Room family devotional guide, on "Keeping Family Life in Repair -- Fathers".

The devotional was followed by the election of officers for the year 1966-67. Officers will be installed into their respective offices beginning with the July meeting.

New officers are Joe Bailey, president; Bob Bennett, vice-president and program chairman; Andy Gardenhire, secretary and treasurer; Ed Bennett, and W. A. Hawkins Jr., publicity and telephone attendance committee.

Those present were the officers elected and Waymon Foster, E. E. Foster and Ed Harris.

The men planned a solicitation of funds from the membership of the church to meet the church's goal for the year by the date of the Conference Treasurer's meeting, May 16.

The official board of the Church set up the goal of \$3211 for others in the Conference year closing. One-half of this has been paid and the church has set out to raise the balance. This money goes to support several ministries, four in general. They are:

1. Ministerial support, pensions for retired ministers and their widows, ministers' insurance program, minimum salary support and salary for superintendents and Bishops.

2. World Service program through Conference and National Boards and Agencies including the Board of Missions, which supervises more than 1500 missionaries in 47 countries.

3. Conference ministries

through Church Hospitals, Nurses' School at Lubbock, Methodist colleges in Texas, and Wesley Foundation work at State-owned college. Seminars, church camping.

4. Special Offerings Budgeted, such as World-Wide Communion Offering for the needy and suffering, and chaplains' work in the armed services.

Theron Morrison is chairman of the official board, and Ed Bennett is chairman of the commission on stewardship and finance.

STATE CAPITAL Highlights AND Sidelights

AUSTIN, Tex. -- Next year's legislative session may see state employees battling as hard for a pay raise as school teachers.

Furthermore, help is assured, Gov. John Connally says that "substantial pay raises for state employees" will be among his "strongest recommendations" to lawmakers.

Indications are that the pay boost could run as high as \$17,500,000 a year.

According to Connally, state government is slipping farther and farther behind in its efforts to keep qualified workers -- not only in the lowest pay levels but in the higher brackets of professional personnel.

Connally says that:

*More than 7,800 of the 45,000 state employees (not including those at colleges and universities) make less than \$3,000 a year, the federal "poverty line."

*Turnover is running 30 per cent per year.

*Lower-bracket hospital aides get as little as \$193 a month.

*There are 313 vacancies in the hospital system, 77 in parks and wildlife operations, 100 in the prison system, 135 in the highway patrol and 148 in the Texas Education Agencies.

"If we do not reverse the trend," warns Connally, "not only will the stability and efficiency of our operations be threatened, but we will also weaken our entire system of local self government and responsibility."

Salary issue promptly was injected into the governor's race.

Stanley Woods, Connally's opponent for the Democratic nomination, chided the governor for not having spoken out on the subject before election time.

Woods' ticketmate, State Rep. Bill Hollowell, running for lieutenant governor, said Connally should submit the raises to an immediate special session of the Legislature rather than waiting eight months until the regular session opens.

GINNERS FIRST ON CONTROL LIST?

Texas' new nine-member

State Air Control Board now has held its second meeting since Governor Connally named the group, whose purpose it is to protect the public from air pollution. Indications are that Texas' more than 1,300 cotton gins will be the first area subject to air control rules and regulations.

Conclusions after a year-long study of pollutants caused by cotton gins is that smoke emitted from burr burning contains significant quantities of arsenic and tars. These poisons, along with gin dust, have contributed to the 20 to 30 per cent increase in complaints

about respiratory diseases suffered by downwind residents during ginning season. Also, there have been adverse effects on trees and vegetation downwind from arsenic and other evidences of pollutants.

Report states that much of the increased pollutants from the gins are caused from an increase in trash -- leaves, limbs, immature bolls, and dust -- picked up by mechanical harvesters. Recommendations for curing these problems will be in the report of the Board's staff.

WATER QUALITY COSTS GOING UP
Taxpayers, as well as the men who run the sewage treatment plants in growing cities, must get used to the fact that in the future they are going to have to maintain high standards of operation of their plants. Higher quality water means higher cost of treatment.

This came out in the Texas Water Pollution Control Board's meeting when the City of Dallas objected to a doubling

of the Board's usual chlorination requirement, arguing it would cost more than it would be worth.

Dave Smallhorst, the Board's executive secretary, said: "The cities, including Dallas, have to recognize the fact that an increase in water quality requirements is going to mean an increase in cost." Smallhorst said chlorination is necessary to protect public health and the Board's first concern is the health of the public.

COURTS SPEAK

A trial court ruling that Rice University must integrate can be appealed by school alumni, Texas Supreme Court held.

Houston Court of Civil Appeals was ordered to consider the appeal. A provision of charitable trust establishing the school specified that it admit only white students. Trial court said the restriction is invalid and the court of Civil Appeals held that only Atty. Gen. Waggoner Carr could appeal.
