AT TULIA

Col. Homer Garrison Jr., director of the Texas Department of Public Safety, has joined the Texas Farm Bureau in urging operators of "slow-moving vehicles" such as farm tractors, combines and road construction and maintenance equipment to display special luminous "SMV" warning emblems on the rear of the equipment.

Garrison said the emblems, developed as the result of extensive research at the University of Ohio, are available through all county Farm Bureau offices and a number of farm equipment dealers, gins, elevators and warehouses.

He emphasized that the emblem is not designed to replace any other warning devices, such as lighting, which are required by law, but to supplement such devices.

"While this emblem is not required by law in Texas, we feel, as does the Texas Farm Bureau, that it can make an important contribution to the safety of operators of such equipment as well as other motorists sharing the streets and highways," Garrison said. "We would like to urge all

motorists to familiarize themselves with this warning sign and watch for the bright orange emblem with the red border and the triangle shape which identifies slow-moving vehicles."

The DPS Director said that "slow-moving vehicles" are described as those designed to travel not more than 25 miles per hour. Purpose of the emblem on the rear of such vehicles is to identify them at distances allowing operators of faster moving vehicles to slow down in time.

The emblem, made of lightweight aluminum materials, has a solid center triangle of fluorescent orange with a one and three-fourth inch outer border of red reflective material. The orange material has been proven to be highly visible to approaching motorists at distances exceeding one-fifth mile. At night, the reflective border glows brilliantly in the path of oncoming headlights-- producing a hollow, red triangle which immediately identifies a slow-moving vehicle. The overall dimensions are 16 inches wide and 14 inches high. It should be mounted at the rear of the vehicle, three to five feet from the ground. The symbol is endorsed

by the National Safety Council, American Society of Agricultural Engineers, Automotive Safety Foundation and other groups.

Joe Smetana, Texas Farm Bureau safety director, said the research at Ohio State University revealed that two out of three accidents involving slow-moving vehicles are rear-end collisions. These collisions account for two-thirds of the fatalities and injuries and 70 per cent of the property damage in accidents involving slow and fast moving vehicles.

He pointed out that a majority of the injuries and fatalities occur to the operator of the slow-moving vehicle. Nine out of every 10 of the accidents occur in daylight hours on dry highways, according to the studies.

I AM A TIRED AMERICAN

(Note: The following editorial was written by Alan McIntosh for the Rock County Herald, Luverne, Minn., and is being widely reprinted.)

I am a tired American.

I'm tired of being called the Ugly American.

I'm tired of having the world panhandlers use my country as a whipping boy 365 days a year.

I am a tired American—weary of having American embassies and information centers stoned, burned, and sacked by mobs operating under orders from dictators who preach peace and breed conflict.

I am a tired American—weary of being lectured by General De Gaulle (who never won a battle) who poses as a second Jehovah in righteousness and wisdom.

I am a tired American—weary of Nasser and all the other blood sucking leeches who bleed Uncle Sam white and who kick him in the shins and yank his beard if the flow falters.

I am a tired American—weary of the beatniks who say they should have the right to determine what laws of the land they are willing to obey.

I am a tired American—fed up with the mobs of scabby faced, long-haired youths and short haired girls who claim they represent the "new wave" of America and who sneer at the old-fashioned virtues of honesty,

integrity, and morality on which America grew to greatness.

I am a tired American—weary unto death of having my tax dollars go to dictators who play both sides against the middle with threats of what will happen if we cut off the golden stream of dollars.

I am a tired American—who is tired of supporting families who haven't known any other source of income other than Government relief checks for three generations.

I am a tired American—who is getting madder by the minute at the filth peddlers who have launched Americans in an obscenity race—who try to foist on us the belief that filth is an integral part of culture—in the arts, the movies, literature, the stage.

I am a tired American—who has lost all patience with that civil rights group which is showing propaganda movies on college campuses from coast to coast. Movies denouncing the United States. Movies made in Communist China.

I am a tired American—who is angered by the self-righteous breast-beater critics of America, at home and abroad, who set impossible yardsticks for the United States but never apply the same standards to the French, the British, the Russians, the Chinese.

I am a tired American—sickened by the slack-jawed bigots who wrap themselves in bed-sheets in the dead of night and roam

the country-side looking for innocent victims.

I am a tired American—who dislikes clergymen who have made a career out of integration causes, yet send their own children to private schools.

I am a tired American—who resents those who try to peddle the belief in schools and colleges that capitalism is a dirty word and that free enterprise and private initiative are only synonyms for greed.

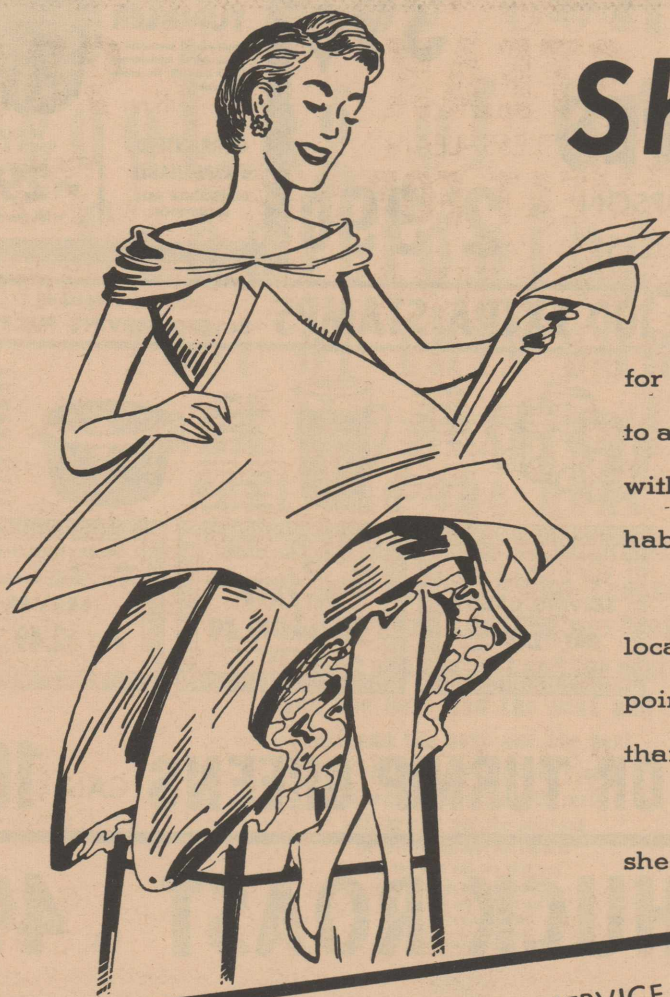

They say they hate capitalism, but they are always right at the head of the line demanding their share of the American way of life.

I am a tired American—real tired of those who are trying to sell me the belief that America is not the greatest nation in all the world—a generous-hearted nation—a nation dedicated to the policy of trying to help the "have nots" achieve some of the good things that our system of free enterprise brought about.

I am an American—who gets a lump in his throat when he hears the "Star Spangled Banner" and who holds back tears when he hears those chilling high notes of the brassy trumpets when Old Glory reaches the top of the flag pole.

I am a tired American—who thanks a merciful Lord that he was so lucky to be born an American citizen—a nation under God, with truly mercy and justice for all.

WHILE SHE READS THE NEWS... YOU CAN BET...

She reads the ads

According to the U. S. Bureau of Advertising, ADVERTISING ranks first with women, over all other newspaper content, for interest and readership! Women actually read ads in preference to anything else in the newspaper. (For that matter, ads rank third with men for readership!) And reading the newspaper is a favorite habit with American women.

So, if you have a product to sell—display it in an ad in your local newspaper. If it's for the home, write it to the housewife's point of view. For, more than anyone else, she'll read it. And, more than anyone else, she's the one who does the buying for the family!

LETTERS TO THE EDITOR

Dear Friends & Editor:

The year of 1966 is now one-half gone! How the time does fly! Many things have happened—of course, it would be impossible to relate all of them to you, but we would like to tell you of some of the blessings that have been ours, especially during these last two months.

The most important thing is, that, after being in Mexico almost eight years as tourists, we entered the country the 24th of June as Rentistas, on permanent papers! How we rejoice and praise the Lord that He worked everything out to make this possible.

On June 27th, 39 young people and their counselors from First Methodist Church Shreveport, La. arrived and were with us for three full days in a "work camp". And work they did! My, what a blessing it was to have them—they worked in teams; one team made adobe for our new dining hall we are beginning, another made a good start on the foundation, another painted, and still another team did all the mending for the children. Truly, it was a real blessing to have them with us.

Then, on July 3rd and 4th, we had our annual Missions Conference. We feel that those of you who came can say with us, that it was a time of spiritual refreshment and wonderful fellowship for everyone. To those of you who were not able to come, we say that you missed a real blessing, and we do trust that right now you will mark these dates on your calendar, and not let anything stand in your way next year!

Another blessing for us is, that our swimming pool-reservoir is completed and awaiting water! Our own well we feel is inadequate for filling it, therefore we covet your prayers that the Lord will supply the need soon to drill a deep well, so that we can fill it, and irrigate and be able to raise many vegetables here, as well as plant grass, and have all the water we need for household use.

Bro. and Mrs. Bill Stround from North Carolina continue to make preparations and hope to be with us in September. We feel that they will be a real blessing to us. Pray with us for them, that the Lord will supply their needs and that soon they will be on the field.

We especially praise the Lord for Miss Bernita Jain, who gave of herself to the Lord in a wonderful way for six years here in the orphanage. She will not be returning to us, but we know she would ask your prayers for her as she seeks to know the Lord's will for her life. We have been so grateful to Miss Judy Dodge who came to help out with the girls temporarily. She has been a real blessing to us. We trust you will pray for her as she returns to school in the fall.

We are so grateful for the many people who have so faithfully shared in the financial burden of Ranchi to Del Rey, and all of you who have so faithfully prayed for us during these many months. We appreciate so much those of you also, who have come and have donated real physical labor. Dr. Tom Snow, two of his children, and two boys from the First Baptist Church, Shreveport., Frank Kappen and Harold Jones came for about 8 days. Mrs. Dewey Smith was here from Canyon, Texas and did a lot of sewing for us. Nelda's Father and Mother from Yoakum, Texas came and spent almost a week. They brought three girls from their church, Mariam Harbors, Sharn

McDonald, and Claudia McLarry who helped out during busy days, Mike West, my brother Joe's oldest boy, came and spent three weeks and was a real help to us also. At the present time we have Bro. Garlon Allen and his daughter Linda from Central Baptist Church, Plano, Texas here working. Sandra Cherry from Dallas is also here and she is learning a lot of good hard work also!

Also, we are so grateful for the food, clothing and other things that have been given and sent to us. May He continue to bless each of you and make you a wonderful blessing to others.

We ask your prayers for us, as we seek to know His mind in the many decisions we face, and the changes that must be made. The Lord has given us many wonderful helpers in the past, and we know He has more for us. Also, we thank Him for the precious children He has placed in our care—they are so

willing to carry their load and are such happy obedient children. Will your pray for us that He will give us a special amount of strength and love for them, that we may train them to be real servants for Him?

All Because of Calvary,
Dale and Nelda West

GRAIN FARMERS CAUTIONED
John C. White, Commissioner of Agriculture, advised Texas grain farmers to "make certain your harvest is stored in a state-licensed warehouse and to demand a valid Texas Grain Receipt."

Approximately 70 warehouses have failed to renew their licenses this year, though the grain harvest is well under way in many parts of the state. Grain stored in these warehouses is not protected by bonds and license required by law, said White.

KITCHEN KORNER

BY LELA GALLION

As I'm sure most of you are aware of the way your grocery bills are going up from month to month, you are trying to find ways of preparing the cheaper cuts of meat to be good to eat as well as acceptable. Here is a suggestion you might like. Buy a thin cut of round steak for this.

MOCK DUCK

Spread a thin slice of round steak with the following dressing and roll. Tie strips of salt pork or bacon to the outside. Place in a roasting pan and bake in a medium oven 1 1/2 hrs. or until done.

STUFFING:

- 1 qt. dry bread crumbs
- 1 small onion
- 2 T. butter
- 1 c. hot water
- 1 c. tomato sauce
- 1 t. salt
- 1/2 t. pepper

Since Hamburger is an inexpensive meat try these.

PORCUPINE BALLS

- 1 lb. hamburger
- 1 c. cornflakes or cracker crumbs
- 1 small onion
- 1 egg
- 1/2 c. milk
- 1/3 c. uncooked rice
- 2 c. tomato juice
- pepper and salt to taste

Mix all ingredients except tomato juice. Shape into small balls. Brown in skillet all around. Place in casserole. Pour tomato juice over the balls and bake 1 1/2 hours at 350 degrees.

Making a mistake is quite a bit like making a "home run." In six months or less 'most everyone has forgotten it but you.
