Vega Tests Longhorns Friday Night

Vega moves into Hart Friday night, hoping to put the clincher on the District 1-B crown.

Vega currently leads the district race with a 3-0 record, while Hart was eliminated earlier in the season.

The Vega crew handed Texline its first district loss last week, 28-0, while Hart kept Nazareth from breaking into the win column in the district by blanking the Swifts, 32-0.

Should the Longhorns down the strong Vega crew, both Texline and Lazbuddie would have a chance at the title, since both are currently 2-1 for the season and meet each other in Lazbuddie Friday.

The game could prove to be a defensive battle, since Hart has allowed but 20 points to opponents in three district contests, while Vega has given up but 22 to the opposition.

In the offensive department, the Vega team boosts 70 points through three, while Hart has collected 32.

For the season, Texline is still on top of the district with a 6-1 record, while Vega is 5-2-1 and Hart is 4-3-1.

Voting Slated Here Tuesday

Hart voters go to the polls Tuesday, with more attention centering on 16 amendments to the state constitution than on the candidates.

Two statewide races have drawn local interest. The race for the U. S. Senate between John Tower and Waggoner Carr, and the contest for the U. S. Representative post sought by Bob Price and Dee Miller are the most prominent.

Voting will be in the Hart City Hall from 8 a. m. to 7 p. m.

SHORT SNORTS

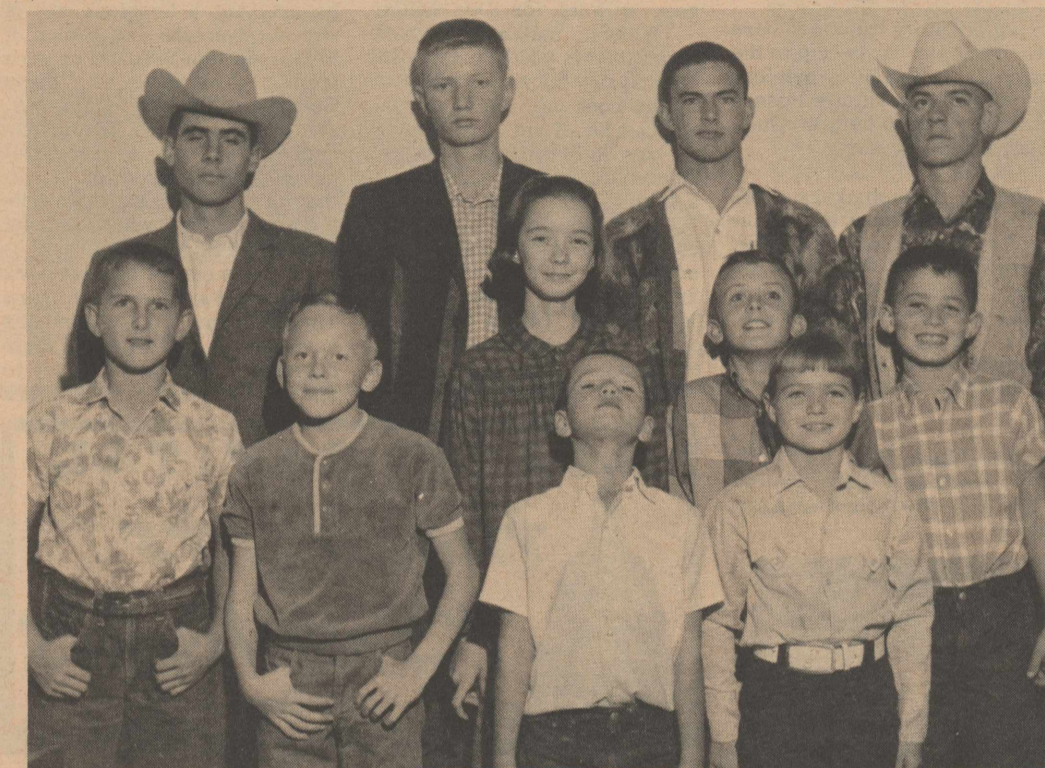

Governor Connally announced approval of \$112,607 Head Start project grant for Del Valley Independent School District, Travis County, and \$147,209 for South Park Independent School District, Jefferson County.

H. E. Loman Retires After 50 Years With Railroads

H. E. (Pappy) Loman retired from the railroad business Tuesday after 50 years of service.

Loman, who will be 78 Dec. 1, has spent more than 23 of those 50 years in Hart.

He first started railroad work in 1904 in Jamesburg, Ill.

He was the first telegraph operator in Lubbock when the town was little more than the railroad depot and a few downtown businesses.

He left the railroad business in 1914 to go into farming.

He was a relief man for six months in 1918 at Hartley, then went back to farming until 1928. In 1927 his first wife, whom he had met in Lubbock, died, and the next year Loman went back into the railroad business.

At that time he was an agent in Dalhart for the Fort Worth and Denver, the company he has been with ever since.

Shortly after that he was working at Hartley again, and met Myrt Pistole. They were married at Lelia Lake, near Clarendon, in 1930.

They were stationed at sev-

eral posts in the Panhandle before moving to Hart in 1942.

Loman was just starting to high school the year his dad died in his hometown of Longview, Ill. The telegraph agent across the street said he'd teach him how to use the telegraph, "So I took him up on it," said Loman.

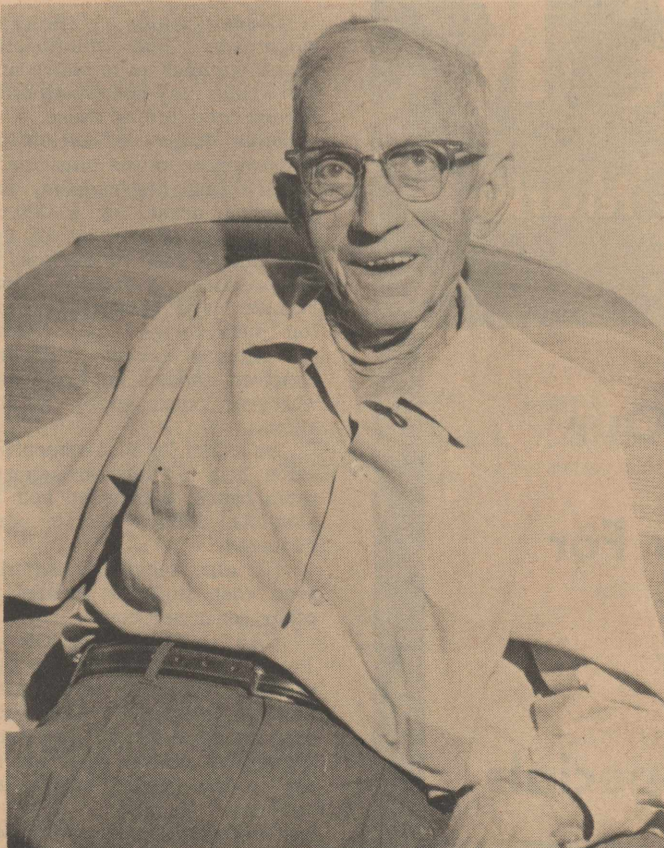

On the first job, Loman

worked 12 hours a day, seven days a week and received \$37.50 a month.

He served at several posts in Illinois, then moved west.

He worked for both the Fort Worth and Denver, and the Rock Island line before joining up with Santa Fe in Clovis, N. M.

He was with Santa Fe when he was sent to Lubbock.

LETTERS TO THE EDITOR

Loyal Democrat Backs Dee Miller

Dear Editor:

To the voters of the Hart community and the southeast corner of Castro county which everybody knows to be the best part of the best county in the state of Texas: We loyal Democrats make this earnest appeal to all the lukewarm Democrats hereabouts to not be caught napping or too busy one week from today, to go out and cast a vote for Dee Miller.

Without making any apologies for his youth or any other cynical objection his opposition might cook up, he is the one we can be proud of and worthy of our fullest trust and confidence for the next quarter of a century.

The most foolish thing we can indulge in is to allow ourselves to be drawn into a heated argument and debate with his best friend (which often happens) over non-relevant points in politics. Such experiences should be avoided at all times.

Let us boil it down to the issues. They are few, fundamental and easily understood. We all know we don't want any more seven-cent cotton or seventeen-cent wheat. It is no secret that the voters in Texas very often vote for the things they don't want.

When we refuse to vote for Dee Miller in this campaign we are asking for a return to poverty and a hopeless way of life to overtake us. Some of his opposition is based on such frantic statements as "these Govt. controls, and regulations, and Welfare State". Bless your soul if you know a successful business in the good old U.S.A. that is not under rigid government regulation you know a lot more than I know.

We are essentially farmers and how can any merchant figure himself better if his customers have just twenty percent of their customary amount of money to spend with him? That is where

decontrol of agriculture would lead us. There is a little of that odor in the anti-union labor movement. Driving a wedge between the farmer and the laborer is like locking the stable door after some one stole the horse, lest he get back in there.

Another WOLF WOLF cry Dee Miller's opposition tries to capitalize on is this "UNION MOVEMENT" on the farm.

Yes, it is serious. I think it will ruin the farmer just like it did Westinghouse and General Electric. Plus thousands of others. Let us not panic over this wolf wolf cry about Union labor. Union laborers are the farmer's chief patrons so why should the farmer hate the laborer that happened to belong to the union.

The farmer's family, doctor, lawyer, banker, merchant and insurance agent don't buy a drop in the bucket of the products he has to sell. It is obvious he needs more than that before he can have prosperity.

You often hear the question of "MORALS" introduced. That is another wolf cry that has nothing to do with the issues. We well remember over forty years ago when there was a church wheel in my bunch stole well over a million dollars and as far as I know has never been apprehended yet. There was no exodus of Baptists to other groups. We are still going strong and expect to keep it up.

You can find exaggerated ingratitude any direction you look but we hope every good Democrat will avoid letting that be said about him next Tuesday and let nothing prevent him from being on hand and vote for Dee Miller.

AUSTIN, Tex.-- Gov. John Connally has given three of Texas' leading universities a hurry-up research assignment--a detailed analysis of food costs in the state and of the causes of recent price increases.

Connally set December 1 as target date for reports by the University of Texas, Texas A & M University and Texas Tech College. He gave the assignment to the heads of the three schools and left it up to them how to conduct the study.

"I share the concern of Texans with the dangers of inflation," Connally said in announcing the study. "And I am particularly disturbed about mounting food prices, and their effects on the homemakers of our state."

Connally said, "While rash judgments and emotionally based opinions as to blame are inevitable, they contribute little toward determining cause, or a sensible course of action for improvement of the situation."

Detailing his request, the governor asked for a determination of what part of the consumer's food dollar goes to the producer or grower, to the retailer, and how much goes for such things as transportation, advertising, sales incentives, added services and whatever other costs are involved.

He asked for that determination both on long and short-term bases, expressed both in absolute dollars and in percentages.

He also suggested that the food cost study be related to other consumer costs.

GAS TRANSMISSION -- Texas' big gas pipeline operators disagree with their smaller colleagues over whether the state should assume regulation of the pipelines so the Federal Power Commission will not.

Major interstate gas transmission companies contend that they are doing well under the

present regulations of the USA Standards Institute under sponsorship of the American Society of Mechanical Engineers. But the companies which transmit gas on a part-time basis want state regulation.

Both sides are to file written statements with the Texas Railroad Commission by November 25. Commission then will consider all arguments and reach a decision.

COURTS SPEAK -- State Supreme Court rejected City of San Antonio's appeal for supplemental water supply from Canyon Dam reservoir on the Guadalupe River. Decision backed a 1958 award by the predecessor to the Texas Water Rights Commission (and affirmed lower court decisions) providing 50,000-acre-feet of water a year to Guadalupe Blanco River authority for municipal use.

Cities of New Braunfels, Seguin, Gonzales, Cuero and Victoria, along with Calhoun and Refugio Counties, joined GBRA in fighting the San Antonio application during the prolonged, historic water fight.

High court reversed the lower courts and ordered a retrial of the Lubbock land condemnation case where the jury awarded \$48,000 to owners without holding a hearing.

Texas Court of Criminal Appeals set November 9 for hearing on whether it should uphold, rather than reverse, the death penalty for Jack Ruby in the slaying of presidential assassin Lee Harvey Oswald. On October 5 the court held that Ruby should get a new trial.

ROAD REVENUE HIGH -- Texas Highway Department has been informed that Texas is expected to reap \$456,000,000 in State highway-user tax revenues this year.

This would make Texas third among the 50 states in road revenue. California is expected to take in \$941,000,000 in 1966. New York's income will hit

\$497,000,000.

Road-user taxes include state fuel and vehicle registration taxes, but not toll fees or parking-meter money.

AIR POLLUTION CONTROL --Texas' new Air Control Board came up with a tentative plan for regulation air pollution starting in 1967.

Plan includes air quality surveys and continuing studies particularly in urban areas, assistance in developing local programs, procedure for investigating complaints and plans for public education on pollution hazards.

Board is thinking about a graduated set of standards for industrial emissions from cotton gins, petrochemical plants, dry cleaning establishments and any other that could possibly add pollutants to the air.

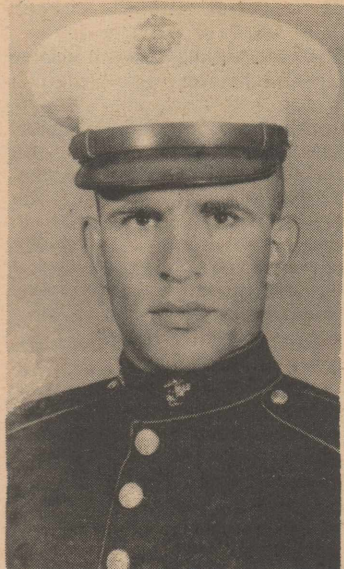

Although the plan is directed toward pollution from smoke and particulate matter, board members indicated it would be made to apply to other air pollution sources after six to eight months compliance notice.

TEACHERS SEEK RAISE -- Legislative committee of the Texas State Teachers Association has proposed a new plan calling for \$61 to \$100 per month raises in teacher pay minimums.

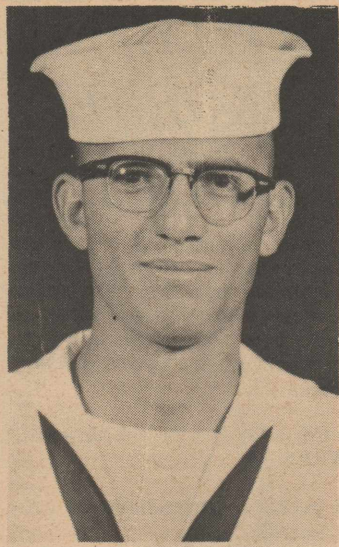

Proposal would cost \$85,000,000 the first year with the state paying \$68,000,000 and local school districts \$17,000,000.

TSTA committee also recommended increased benefits to retired teachers, minor retirement system change, clear legal status for voluntary teacher-school board consultation agreements, sick leave benefits, and a continuing contract and professional employment practices law to strengthen job security.

TSTA spokesmen said proposals are needed to combat teacher shortage.

TEXAS IS ON THE MOVE!

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

IMPROVED EDUCATION — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

WATER RESOURCES DEVELOPMENT — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

CONCERN FOR THE AGED AND NEEDY — Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

OUTDOOR RECREATION — More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

INDUSTRIAL EXPANSION — A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion. Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

INCREASED TOURISM — More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.

MENTAL HEALTH AND MENTAL RETARDATION — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

BETTER HIGHWAY TRANSPORTATION — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.

COMBAT AIR AND WATER POLLUTION — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

NEW CULTURAL GROWTH — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

BUSINESSLIKE ADMINISTRATION — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

HEALTHY, GROWING ECONOMY — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

KITCHEN KORNER

By Lela Gallion

It's November already, doesn't the year roll around fast. We will be thinking of pretty and good salads to serve with the holiday season just ahead. Here are two very pretty ones.

PINEAPPLE IN EMERALD WREATH

- 2 packages lime-flavored gelatin
- 2 cups hot water
- Dash salt
- 3 No. 1 flat cans pineapple slices
- 3 tablespoons lemon juice
- 1 1/2 cups green seedless grapes

Dissolve gelatin in hot water; add salt. Drain pineapple, reserving syrup. Add lemon juice to pineapple syrup, then add enough cold water to make 2 cups. Add syrup mixture to gelatin and chill till partially set. Arrange pineapple slices on edge, two together at 6 intervals around 6 1/2 cup ring mold. Place grapes between pineapple dividers. Pour gelatin over fruit. Chill till firm.

If the pineapple slices extend above gelatin, trim before unmolding.

ROSY FRUIT MOLDS WITH CHEESE

- 1 No. 2 can sliced pineapple
- 1 1-pound can(2cups) fruit cocktail
- 1 package raspberry-flavored gelatin
- 3 tablespoons lemon juice, fresh, frozen or canned

- 1/4 teaspoon almond extract
- ***
- 1 3-ounce package cream cheese
- 8 walnut halves

Drain pineapple and fruit cocktail; reserve syrups. Add enough water to mixed syrups to make 2 cups. Heat 1 cup of liquid to boiling; pour over gelatin and stir till dissolved. Add remaining liquid, lemon juice, and almond extract; chill till partially set.

Cut cream cheese in 8 squares. Form each square into ball, around a walnut half. Place cheese balls in bottom of individual molds. Stir fruit cocktail into gelatin mixture. Pour over cheese balls. Chill till firm. Unmold on pineapple slices. Makes 8 servings.

And it is just the season for a good hot Pizza.

PIZZA

Dough:

- 1 cake yeast
- 1 c. hot water
- 1 1/2 tsp. salt
- 1/4 c. lukewarm water
- 2 Tbsp. butter
- 3 1/2 c. unsifted flour

Topping:

- 1/2 lb. ground beef
- 1 clove garlic
- 2 Tbsp. Worcestershire sauce
- dash pepper
- 1/2 lb. pork sausage
- 2 6-oz. cans tomato paste
- 1/2 lb. Cheddar cheese
- 1/2 tsp. salt
- Parmesan cheese

FFA To Sell Record Books

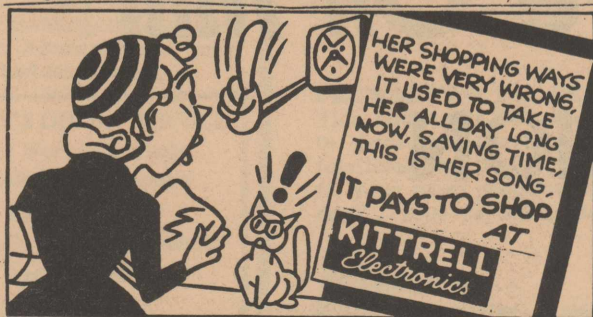

The Hart FFA boys will begin selling School record books this week.

The book enables parents to keep records on children from kindergarten through high school.

It has sections in which to place such information as inoculations, illnesses, report cards and school pictures.

The book sells for \$1 and the money raised by the Future Farmers will go toward purchasing a camera to use at stock shows and other contests.

Man Damages Building With Pickup Truck

Simone Martinez Jr. was jailed for drunkenness after doing approximately \$500 damage to Bob's Farm Supply.

Martinez did the damage by ramming a pickup into the door of the business several times, tearing up the steps to the building and knocking in part of one wall.

He allegedly took the pickup without permission from J. M. Reed of Olton.

Booster Club Holds Meeting

The Hart Longhorn Booster Club met Oct. 25 to review films of the Texline game and heard a report on the Nazareth football team.

The group also discussed payment for a seven-man blocking sled the club has already bought for the football team.

The group also discussed the chartered bus expense for the Texline game. The club lost money on the charter, but decided to make up the difference of \$1.60 per person itself. The club said it would appreciate contributions from any rider who made the trip.

Club members also heard officers, coaches and school officials thank everyone for the support shown the Longhorn football team so far this year, and heard them encourage everyone to continue and increase this support for a very fine, hard-trying group of young men.

Medical Group Suggests Fire Drill For Home Use

More than 2,000 children die every year in home fires.

Yet, most of them could walk swiftly away from death if they were given the most elementary fire instructions, says Today's Health, the magazine of the American Medical Association.

A parent would be horrified to discover his child's school did not hold fire drills. But a child is 200 more times likely to be trapped in fire at home than at school.

Here are some pointers from Today's Health for setting up your own fire drills at home:

*Map out, with the children helping, two separate escape routes from each room--a main

route and in case that is blocked an alternate. Main exits usually are doors and stairways. Alternates usually are windows.

*A portable ladder provides an excellent escape from upper windows. These range from an inexpensive rope ladder to those of light weight aluminum. A sturdy trellis outside a window may be ladder enough for an agile child.

*If the window is jammed or frozen shut during a fire, children may not think of the obvious: break the window. Show them how to smash the pane with a loose shoe, and then run the shoe around the inside of the

frame to clean off jagged edges before climbing out.

*The most important life-saving command to impress upon children is: Escape immediately. Don't let them try to put out the fire or pause to gather up possessions. Minutes even seconds, are crucial. Fires can spread unbelievably fast. And set a specific place outside to gather promptly for a quick head count.

*Impress upon the children the deadliness of smoke. The majority of fire victims are asphyxiated by smoke long before the flames touch them. Warn the children against brav-

ing a smoke-filled hall, or flinging open a door and letting the smoke pour in. Wet handkerchiefs over the mouth do NOT filter out poisonous gases in smoke.

Once you work out your family fire drill, make a note on the kitchen calendar to repeat the drill at regular intervals. Some households feel once a month isn't too often.

Adults also die in home fires, and these same basic rules apply to all ages and both sexes. Practice drills will help much to reduce the natural panic that grips most folks when they realize abruptly that their house is on fire.

Memo To GRAIN GROWERS.....

TIDE'S Fall Plow-Down Program Will Make You Money!

Tide's Fall plow-down program is designed to make you money:

1. Fall plow-down spreads your work load... reduces time, labor and equipment requirements at planting time.
2. Fall plow-down insures against uncertain Spring weather... gives you two opportunities to apply a complete fertilizer program. (Fall and Spring)
3. Fall plow-down aids in decomposing stalks and builds up soil nutrients.

Basic suppliers say demand for Spring fertilizer will exceed the supply of raw materials and hopper cars. As soon as possible after harvest, shred your stalks and apply Tide's Prescription-Blend fertilizer and start your Fall plow-down program.

PRESCRIPTION MIX FERTILIZER

Tide takes soil samples from your land, free of charge to determine exactly what your soil needs. Then your fertilizer is mixed from high analysis raw materials to fit your exact requirements. Because it is made "on order", your fertilizer is fresh, dry, and free-flowing.

ECONOMICAL

With "prescription-mix", you buy only the nitrogen, phosphate, and potash your soil tests show you need. Storage is no problem, as Tide's TiltBox, holding 14,000 pounds, provides air-tight delivery and storage at the end of the row.

TIDE SERVICES

Tide grower services and products are planned to save time and labor... help take the guess-work out of farming. Agricultural Consultants, free soil tests, and Tide's custom designed, weather proof, delivery and storage equipment, cut your production costs.

TRY TIDE... you'll be glad you did.

Scoring the first two times they owned the ball, The Hart Longhorns unleashed a powerful running attack to trounce the Nazareth Swifts, 32-0. The Longhorn offense, led by W. A. Hawkins and George Ed Bennett, rolled up 339 yards while the Hart defense, led by Jim Kendrick, Larry Parker, and Larry Henderson, held the Swifts to 4 yards rushing and only 76 yards in total yardage.

Barold Venhaus took the Longhorn kickoff on the 10 and made it back to the 25 before he was brought down. The Swifts could not crack the Longhorn defense and were forced to go into punt formation at the 27. The snap from center went wild and Claude Annen was forced to try to run the ball out but he was stopped on the 30 and the Horns took over.

Donnie Black rolled around end and raced to the six to set the Horns up with first and goal to go. Danny Smith drove to the two, Bob Crick went to the one inch line and George Ed Bennett drove on over for the first six points. W. A. Hawkins' kick was good and the score went to 7-0.

Barold Venhaus took the kickoff on his ten and again made it to the 25 before being snowed under by the Longhorn Defense. Two pass attempts went wide and Jerry Aberant could get only three yards to send the Swifts into punt formation again. This time Claude Annen got off a fine punt which rolled dead at the 50.

This time the Longhorns needed only seven plays with W. A. Hawkins picking up 40 yards on a third down scamper and Danny Smith getting the last yard. This time W. A. Hawkins missed on the extra point try

and the score stood at 13-0. Jerry Aberant took the kickoff on the 10 but he could manage only three yards before he and the ball went in separate directions and the Hart Longhorns recovered at the 15.

Danny Smith got five on first but a second down fumble gave the ball back to the Swifts at the nine. The Swifts didn't keep the ball long as Clyde Venhaus fumbled at the 13 on third down and Tommy Gonzales recovered for the Longhorns.

The Horns were unable to retain possession for very long as a second down pass was picked off by Clyde Venhaus in the Swift end zone. The Swifts were unable to find running room and a fourth down try by Clyde Venhaus was stopped on the 14 and the Horns took over.

George Ed Bennett went 14 yards on first down for another touchdown but the play was called back and the Horns penalized back to the 29. The Horns fought back but were able to pick up only 13 yards in four tries and the ball went over on the 16.

This time the Swifts were able to get their own drive started as Clyde Venhaus broke free and raced to the Hart 45 before Larry Parker brought him down. Gene Dobmeier got to the 37 in two tries before a 15 yard penalty sent the Swifts back to the Nazareth 47. Clyde Venhaus was thrown back to the 42 in two attempts and the Swifts were forced into punt formation. A fourth down offside penalty cost the Swifts another five and Claude Annen punted from the 37 down to the 25.

Bob Crick got 11 yards on

The extra point attempt, a pass from Gary Rambo to Richard Murry went wide of its mark and the score stood at 32-0.

Hart Shorthorns Top Vega

The Hart Shorthorns stopped the Vega Shorthorns here last Thursday with a whirlwind offense that left the visitors on the short end of a 22-0 score. The visitors were able to move the ball up and down the field almost at will but were stopped short of the goal line several times by an aroused Hart defense.

The Swifts were able to run only two plays before the final gun sounded with the final score 32-0 for the Longhorns first conference win of the season. George Ed Bennett, Danny Smith, Larry Parker, W. A. Hawkins, Tommy Gonzales, and Donnie Black turned in an outstanding offensive game for the Longhorns. Joe Quiroz, Larry Parker, W. A. Hawkins, Quincy Hawkins, Jim Kendrick, and Larry Henderson led the defense that held the Swifts to 76 yards gained for the entire game! This was the first game Larry Henderson has played on defense and we hope he continues to play in this manner in the remaining games.

Ruben Anguiano started the game off right for the Hart Shorthorns as he took the first Hart play across for six points.

Then, still in the first quarter, Landra Bruington added insult to injury as he racked up another six points on the second scrimmage play for the Hart Shorthorns of the night. Ruben Anguiano added the two point conversion.

County Farms Are Bigger, More Productive Today

Castro County's farms are fewer and bigger than they were seven years ago, and they're producing 62 percent more in dollars and cents.

The comparisons were released this week by the Census Bureau through a complete statistical report on its 1964 Census of Agriculture.

THE CENSUS turned up 645 farms in Castro County in '64, a 107-farm drop from the 1959 total of 753.

Average farm size in Castro County in 1964 was 933.8 acres, the bureau reported. The average farm in this county (land and buildings) was valued at \$292,530 in 1964.

Other important county statistics in the report are:

1. VALUE OF all farm products sold by farms in the county in 1964 was \$37,013,735, up 62 percent from the 1959 total of \$23,043,426.

2. Value of all crops sold by county farms in 1964 was \$29,538,698, compared with \$19,421,044 in 1959.

3. Value of all livestock and livestock products sold by county farms in 1964 was \$7,475,037, more than twice the 1959 total of \$3,622,382.

4. Of Castro County's 636 farm operators, 483 live on the farm they operate and 153 do not.

5. ALL OF Castro County's farm-owners, part owners, managers and tenant farmers are white. No nonwhites were recorded in any of the categories in the 1964 census.

6. The county's farmers include 156 full owners, 211 part owners, seven managers and 271 tenant farmers. The 1951 totals were 207 full owners, 188 part owners, three managers and 355 tenants. Forty-two percent of the county's farm operators are tenants, whereas 47.1 percent were in 1959.

7. Almost half of the county's farms had sales of \$40,000 or more in 1964. These Class 1 farms totaled 309, a big jump from the 1959 total of 186 of the remaining 331 commercial farms, 194 posted sales of \$20,000 to \$40,000 in '64 while the other 137 had sales of less than \$20,000. In 1959, the great majority of Castro County farms had sales between \$20,000 and \$40,000.

A CENSUS of agriculture is conducted by the Dept. of Commerce every five years, in years ending in 4 and 9, to gather information on the nation's agricultural resources and production. The report on Castro County contains more than 500 facts about agriculture here.

Single copies of the tabulated report are available for 10 cents from the Bureau of the Census, Washington, D. C. 20233, or from any field office of the Dept. of Commerce.

DALLAS TROPHY WINNER—Harley Joe Malone, son of Mr. and Mrs. Curtis Malone, is shown with the trophies he won while attending the Dallas Riding Club meet along with other members of the Hart Junior Riding Club.

Cotton Samples Show Decrease

Cotton classed at the USDA Lubbock Classing Office during the week ending October 28th was somewhat lower in quality than cotton classed the previous week, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office.

Cotton harvesting on the South Plains continued to increase daily as more machine strippers began operating. Approximately 4,000 samples were received Friday at the Lubbock, Brownfield and Lamesa Classing Offices.

The Lubbock office classed 8,700 samples during the week ending Friday, October 28th. This brought the total classed for the season to 12,700 compared with 49,000 by the same date last year.

Middling made up 32 per cent of the cotton classed, Strict low Middling 15 per cent, Middling Light Spotted 30 per cent and Strict Low Middling Light Spotted 11 per cent.

Average staple length declined sharply during the week and averaged approximately 15/16 of an inch. The average staple during the previous week was better than 1 inch. Thirty per cent of the cotton was 1 inch and longer last week compared to 49 per cent the previous week.

Micronaire readings also declined. Seventy-six per cent of the cotton "miked" in the Lubbock office was in the desirable category of 3.5 and better. The previous week 86 per cent was in this category. The Consumer and Market-

ing Service of the USDA reported light trading in the new crop cotton with prices steady. Average prices for the most predominant qualities in the 3.5 to 4.9 micronaire range were: Middling 29/32 - 19.55, Middling 15/16 - 20.00, Middling 31/32 - 20.60, Strict Low Middling 29/32 - 17.75, Strict Low Middling 15/16 - 18.25, Strict Low Middling 31/32 - 18.65, Middling Light Spotted 29/32 - 17.95, Middling Light Spotted 15/16 - 18.40 and Middling Light Spotted 31/32 - 18.90.

Prices paid farmers for cottonseed ranged from \$65 to \$70 per ton.

Brownie Troop Ceremony Held At Wednesday Meet

The Brownie troop 23 met at the scout house Wednesday, Oct. 26 for their investiture. The investiture is a very special ceremony in which the girls receive their Brownie pins after

learning the Brownie promise and other requirements.

Mrs. Lowell Richburg, troop leader and assistant, Mrs. Alvis Bryant conducted the ceremony.

Guests of the girls were their mothers, and one grandmother was present. Homemade punch and cookies were furnished by Mrs. Richburg and Mrs. Bryant, and Myrt Loman. Serving were DeAnn Richburg, Garla Bryant and Cadettes, Becky King, Carol Miller and Diane Lancaster.

SCOUTS MEET FOR CEREMONY--Brownie Troop 23 met at the Scout house Oct. 26 for an investiture ceremony in which the girls received their Brownie pins after meeting the requirements for becoming a Brownie. Girls on the front row, left to right, are Lisa Hill, Sharla Carson, DeAnn Richburg, Lisa Nelson, LeAnn Friday, Kim Davis, Jana Mapp and Tammy Bates. On the back row are Patricia Smith, Donna Dudley, Garla Bryant, Debbie Lacy, Becky Harris, Sandy Heck, Rhonda Rowland, Retha Aven, Deane Follis and Ladonna Hart. Troop leaders are Bobbie Richburg and Becky Bryant.

Spelling Bee Judge Named

Judge Raymond E. Wilson, Castro County Courthouse, Dimmitt, is the 1967 Spelling Bee Director for Castro County. Some time before April 1, the Castro County Bee will be held and the champion will go to Amarillo on April 22 for the annual regional elimination for the National Spelling Bee. Last year, Harold Bob Bennett, son of Mr. and Mrs. George Ed Bennett was the Castro County Champion in the Regional Bee. The champion was an eighth grader in Hart Junior High school. The 1967 Golden Spread Bee will be co-sponsored by West Texas State University and the Amarillo Globe-News. L. J. (Jack) Edmondson, West Texas State University Director of Public Services, will be Bee Director for the Golden Spread. Again there will be a unique secondary contest - the Junior Spelling Bee, open only to contestants from the 6th and lower grades. The National Spelling Bee is open to all students, from 1st to 8th grades. The Castro County Junior Champion for 1966 was Steve Birdwell son of Mr. and Mrs. Kent Birdwell. He was a sixth grader in the Dimmitt school.

First place winner in the Golden Spread Bee will go to Washington during the first week in June 1967, to participate in the National Spelling Bee.

The winner will also receive several other attractive prizes, and his (or her) school will have a full year of use of the Britannica film service. A traveling plaque, carrying the names of all Regional winners since 1949, will hang at the school of the winner.

Each County Champion receives an engraved plaque and a gold pen. Each County Junior Champion is given a trophy and a silver pin during the intermission at the Regional Bee (but there is no regional contest between the juniors; they are merely guests for the annual Spelling Bee luncheon held in the Amarillo Club).

In the school contests, each winner receives a Paper-Mate pen, inscribed "School Champion" and a blue and gold ribbon likewise imprinted. Each school junior winner receives a red and gold ribbon trophy. Each student who entered the Bee receives a ribbon trophy also.

The National Spelling Bee, sponsored by newspapers throughout the 50 states, is in its 38th year. High Plains champions have placed fairly high in the contests, but none has won the national crown.

VISIT BROTHERS

Mr. and Mrs. Bird Cox and Mr. and Mrs. Miles Cox visited the boys brothers, Mr. and Mrs. Marlin Cox and Mr. and Mrs. Arno Cox of Hobbs, New Mexico over the weekend.

IN COLORADO CITY

Mrs. Ray Bennett, Ed Bennett, Bob Bennett and Mrs. Laurence McLain went to Colorado City on Monday to attend the funeral of Mrs. Hugh Murell. Mrs. Murell was the mother of Homer Winnett, a former resident of Hart.

UNDERGOES SURGERY

Mrs. Charlie Holiman is in the Plainview hospital where she underwent surgery on Friday of last week.

PERFECT ADMIRATION--At least that's what it seems to be in the case of Lana Tucker and Van Burress, who are neighbors and playmates.

NAZARETH GAME STANDOUTS--These six Hart players turned in top performances for the Longhorns in the game last Friday with the Nazareth Swifts. On the front row, left to right, are Quincy Hawkins, W. A. Hawkins, and Bob Crick. On the back row are Jim Kendrick, George Bennett and David D. Harris.

WHILE SHE READS THE NEWS... YOU CAN BET...

She reads the ads

According to the U. S. Bureau of Advertising, ADVERTISING ranks first with women, over all other newspaper content, for interest and readership! Women actually read ads in preference to anything else in the newspaper. (For that matter, ads rank third with men for readership!) And reading the newspaper is a favorite habit with American women.

So, if you have a product to sell—display it in an ad in your local newspaper. If it's for the home, write it to the housewife's point of view. For, more than anyone else, she'll read it. And, more than anyone else, she's the one who does the buying for the family!

Mrs. Housewife is your NUMBER 1 Prospective Customer . . . and she LIKES to read newspaper ads.
