Man Is Jailed After Two-Car Accident

One person is in jail and three others were injured as a result of an accident on Highway 194 involving two cars.

Mr. and Mrs. Lester Richburg and daughter, Patricia were traveling into Hart when a car driven by Bernardo Mercado coming from the south side of the highway, forced the Richburg auto into the ditch.

Although the Richburgs pulled into the ditch the Mercado car kept coming right at them, hitting their car and spinning it a complete circle, then hitting it broadside.

The Mercado car went on after hitting the Richburg car shearing off five posts along the highway.

There was approximately \$1,000 damage to the Richburg automobile and the occupants were all bruised and had small bits of glass on them, but were not seriously injured.

Mercado was jailed for drunken driving and driving without a license.

Farm operators in Castro County were reminded today that applications for the transfer of cotton allotments for the 1967 crop should be filed no later than Jan. 3, 1967.

Charley E. Hill, explains that notices of the cotton allotment and the projected yield for individual farms have already been mailed to county farmers, so farm operators now are in position to make their production plans for next season.

In Castro County, growers voting in a special referendum earlier this year, failed to approve transfer of acreage allotments -- by sale or lease -- out of the county, so the transfer of allotments locally may be made from one farm to another, only within Castro County. In no case may allotments be transferred to another farm outside the State.

Transfer of allotments from one farm to another within the county and the transfer of allotments between farms (within the State) which are owned or controlled by the same owner are both authorized by law and not subject to approval in a referendum.

However, it is necessary that such transfers of allotments be filed with the ASCS county office before the January deadline.

The Jan. 3 deadline, therefore, applies to all transfers of 1967 cotton allotments for Castro County farms -- whether by sale, lease, or the owner.

The recently announced 1967 Cropland Adjustment Program authorized the Secretary of Agriculture to enter into agreements with farmers to divert cropland normally used for the production of feed grain and allotment and nonallotment crops to conserving uses.

The agreement may be for five to 10 years at the farmer's option. Annual adjustment payments will be made for the acreage placed under agreement. Cost-share payments are authorized for the establishment of approved conservation practices.

If you have a feed grain base or a cotton base, you must offer at least all of one such

base to qualify for an agreement. You may offer all of any other base on the farm.

The designated acreage must be maintained for the duration of the agreement in such a manner as to prevent erosion and to control weeds, insects, and undesirable rodents.

No crops may be planted for harvest or harvested on the designated acreage. Farmers must comply with all acreage allotments and the feed grain base for the farm under agreement as well as on all other farms, in which you have an interest.

Requests will be considered on a first-come, first-serve basis. If farmers are interested in an agreement, they may file requests in the county ASCS office beginning today. Please contact this office if you have any questions about the request or the program.

EDITORIALS

Mother Of Young Soldier Recites Plea And Prayer

(Editor's Note: The following article, taken from "The Octobol", a quarterly publication by the Ninth Infantry Division Association, was brought to us by Mrs. William Neinast.)

A MOTHER'S PLEA

Take this son of mine into your hands and protect him. He has God on his side; he has the love of his family and of his sweetheart on his side. He is my son, Uncle Sam. I gave birth to him; I have watched him grow from a tiny helpless infant, to a strong, ambitious boy. I nursed him when he was ill. Sometimes the way has been tough, but we have made it --my son and I.

My son, whom you have in your service now, is pure and good. He loves people and they love him. He is not a murderer,

Uncle Sam. If he must kill, if he must go to war, tell him why --- help us understand why.

My son, only on this earth 20 years, cannot even vote. He had no choice in the planning of this world he is now fighting for. We have done this to him. He is fighting for what we have done. He has come to you today, frightened --- yes, scared to death of what is about to happen.

He is an American and I have taught him to be proud. He will serve you well. . . I have no doubt. Yes, he will fight to keep freedom where it belongs. He is a good boy, my son. Uncle Sam, love him as I do and teach him as I have, so that he may return to me safely after he has served you.

God and our love is on his side.
Young Soldier's Mother.

STATE CAPITAL HIGHLIGHTS

Gov. John Connally has released his budget proposals for public health agencies, mental health and retardation and for the Youth Council.

Recommendations for public health and tuberculosis control include salary adjustments so that top-flight personnel might be attracted; funds to raise salaries to conform with the general pay raise for state employees; money to assure enforcement of food and drug laws; funds to implement the Air Pollution Control Board program; funds to expand the State Health Department building in Austin;

and a fund to train personnel to staff public health facilities and tuberculosis control and treatment centers.

Mental health and retardation recommendations include funds to expand the state's efforts to assist local communities through grants in aid and contract treatment services; \$700,000 for cost and planning staff for community centers for two years; \$400,000 to set up a training fund to be used for in-service training and short courses; and \$134,000 to establish and staff new community half-way houses.

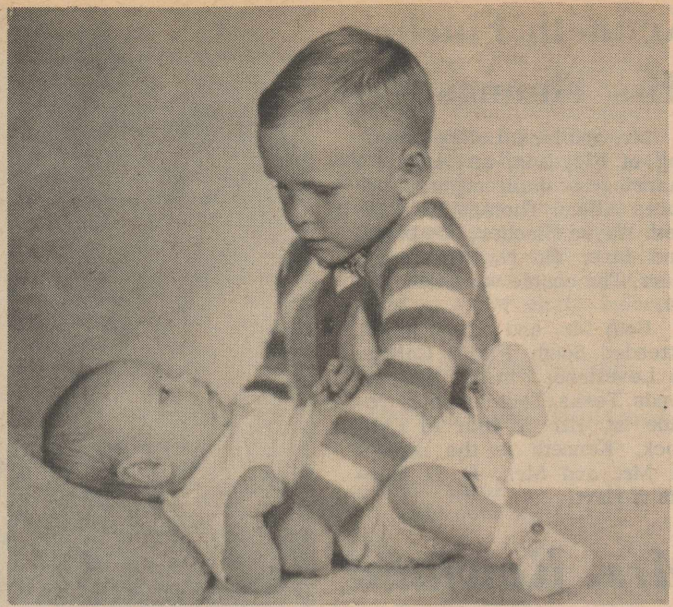

Connally's budget also calls

for an additional facility for girls for the Texas Youth Council, a director of research

to make program evaluations and six additional parole officers.

Total budget figures are: Health Department, \$19,999,468 in 1968 and \$16,139,826 in 1969; Mental Health and Mental Retardation, \$85,193,947 and \$69,796,746; Texas Youth Council, \$14,438,640 and \$9,182,718.

Accidents In The Home Number 25 Million Yearly

"Safe at home" means scoring a run and possibly winning the game to a baseball player.

The same phrase means something entirely different to the American family.

Every year we are greeted with a new set of statistics that tell us that we are by no means "safe at home" in the average household. In fact, the statistics show that home can be downright dangerous.

Accidents in the home caused 28,500 deaths in 1965, according to the Archives of Environmental Health, a professional journal published by the American Medical Association.

Each year about 25 million home accidents cause injuries serious enough to require medical attention or to restrict the activity of the victim a day or longer.

A host of physical factors are involved in home accidents, such as electrical and power equipment, inadequate lighting, glass doors, abandoned ice boxes, medicines, and many others. But by far the major causes of home accidents are two things--falls and fires.

Falls are the second most common cause of accidental death, next to highway accidents. Falls in and around the home each year cause injuries to nearly 7 million people and 12,000 deaths.

Falls on stairs cause nearly 2,000 fatal injuries a year.

Proper lighting and sturdy handrails on stairs are highly important to home safety. A good ladder to aid in reaching high places is much safer than standing on boxes or chairs. And the ladder should be firmly placed and braced at the foot. Spilled water or grease or improper waxing of floors cause falls. Loose rugs, scattered toys and trailing extension cords also are hazards. A light switch near the door of each room is a safety measure.

Most of these hazards can be eliminated or minimized by the head of the household.

Get your family together this evening and organize a tour of the house to check for possible "fall hazards." Then set about to correct these hazards as quickly as possible. Make your home as nearly accident-proof as possible.

Last Rites Held For Tom Bostick

He was very interested in the development of the community, helping bring REA into the area and serving as a di-

SEGREGATION DECLIN-

ING-- Segregation in Texas schools is on the way out. All but four of Texas 1,303 school districts have filed intentions to comply with the 1964 Civil Rights Act with the U. S. Office of Education, says the Texas Education Agency.

Out of 283,426 Negro students enrolled in state schools, a total of 84,575 are in substantially integrated schools.

Of the 1,875,352 white pupils tabulated, 718,537 were on integrated campuses, and an additional 401,497 were on campuses having a small percentage of Negroes. There were 504 on campuses having a predominantly Negro enrollment.

"Of the 754,814 white pupils on campuses without Negro pupils, 285,231 resided in school districts having no Negro pupils," the report said.

Major sanction against a district failing to comply with the Civil Rights Act is the loss of funds under the Elementary and Secondary Education Act, which this year totals a little more than \$66,000,000 for Texas schools.

rector of the Swisher County Electric Co. for several years. He helped to organize the Edmonson Co-Op and also served as director of it.

He was school trustee for 14 years and his main interest was the creating of a water district for Hale County. Bostick was always interested in politics and never failed to cast his vote until the past election when he was unable to do so because of his health.

Survivors include his wife, Annie; a daughter, Mrs. Zan Burroughs of Lewisville; a son Vernon Bostick of Valley View; a sister, Mrs. Grace Lauderdale of Plainview and three grandchildren.

ENROLLMENTS UP -- Texas' 55 state-supported colleges and universities enrolled 248,711 regular students this fall, representing an increase of 22,300 students -- or about 10 per cent -- over last fall.

Biggest gainers, percentage-wise, were Stephen F. Austin, Nacogdoches (18.7 per cent) Southwest Texas State, San Marcos (17.3 per cent); and West Texas State, Canyon (15.6 per cent).

Big growth in junior colleges was noted at Henderson County, Athens; Texas Southmost, Brownsville; Panola, Carthage; and South Plains, Levelland.

Santa Sends Letter, Requests More Mail

Since it's almost time for Santa Claus to make his yearly rounds, we thought we would share with our readers, a letter The Hart Beat recently received from the jolly old fellow. Seems he's ready to start taking orders and, once he's finished with your letters, he'll send them back to us and they'll be published in The Hart Beat.

Letters need to be mailed, though, by Dec. 17 in time for Christmas delivery of the orders.

The Hart Beat
Mr. Mike Wall, Editor
Hart, Texas, 79043

Dear Mike:

Once again I'm getting anxious to see you and all my little friends in and around Hart. It's been almost a year since I have been able to visit in the area, and that's a long time to be away from the fine group of friends living in the Hart area.

There have been a lot of changes made around here during the past year, and they have made the old workshop a lot more efficient. My helpers and I have been very busy all year long, and we have the best presents in the history of the workshop this year -- and in record-breaking numbers, too.

We're just waiting for the proper time to spread happiness and good cheer all over the world this year. We're doing our best to see that everyone has the very nicest and happiest Christmas ever this year -- we wouldn't want it any other way.

Mike, please remind the children in the Hart area that I still have a Zip Code (same as last year--99701) and ask them to please use the zip number on all their letters to me.

Oh yes, and ask them to include their own zip numbers on their return addresses. It would sure make things a lot easier on old Santa if every boy and girl would take just a minute or two and add a zip code number for me to use when I make the rounds this Christmas.

You see, one of the changes we've made around here was to install one of those computer gadgets to sort the mail. It really zips them through, but it goes all to pieces when it gets hold of a letter without a zip number -- and then one of our helpers has to stop making presents and go sort out the letters without any zip numbers.

And then, too, the zip numbers make it a lot easier for me to find my way around and get the proper presents to the proper children when I make my trip through Hart on Christmas Eve.

Until I see you again, I send my love, best wishes and hopes for the merriest of merry holidays to you and all my friends in Hart.

Sincerely,
Santa Claus

Welding Short Course Set Here

A farm welding short course for adult farmers will be held Dec. 5-8 under the sponsorship of the Hart High School Vocational Agriculture Department, according to Andy Gardenhire, Superintendent, and Lanny Tucker, teacher of vocational agriculture.

C. B. Edwards, welding specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A & M College, will do the instructing in the course. He is headquartered at Texas A & M College.

Edwards holds two college degrees, a B. S. in Agricultural Education from Texas A & M and an M. S. in Agricultural Education-Animal Husbandry

from Oklahoma A & M; and in addition, has several graduate hours at the University of Texas. Edwards has had experience as a vocational agriculture teacher and as supervisor of state schools.

He has organized T & I programs and supervised the operation of several shops. Edwards has been with the Adult Specialist Program since its initiation in 1958.

"Many welding short courses in various parts of the state have been taught by Edwards and all have met with outstanding success," according to Walter Labay, area supervisor of vocational agriculture at Plainview. Arrangements for adult education short course in welding and in other fields are

made through Labay's office.

The short course at Hart is scheduled to begin Dec. 5 at 7:30 p. m. in the vocational agriculture building. Other meetings in the series of four will be held Dec. 6-7-8.

During the dates the short course is in progress, Edwards will be available to assist farmers with individual problems and to provide on-the-farm instruction, according to Lanny Tucker.

Farmers interested in attending the short course should write or call Gardenhire, or Tucker. An entry fee of \$5 will be charged. Farm Welding Short Course Certificates are to be presented to each enrollee who attends all the training sessions.

Edwards says the short course will be adjusted to wishes and interests of farmers enrolled but that he expects to cover such subjects as safety in welding, factors controlled by the operator in running a bead, striking an arc, types of electrodes, preparation of joints, distortion, cutting, hardsurfacing, and pipe welding.

"Short courses in welding, as well as in other areas, are now available to farmers throughout the state under the new cooperative program between the Texas Education Agency and Texas A & M College," stated Bob Jack, associate professor, Department of Agricultural Education at Texas A & M College, who coordinates

the program for Texas A & M.

"This cooperative program," says Jacks, "is designed to make the services of specialists available to conduct short courses under the supervision of public schools. Such a program will enable teachers of vocational agriculture to provide improved educational services to farm people."

Specialists are now available in the fields of beef cattle, insect control, farm management, farm electrification, farm welding, swine production, tractor maintenance, dairy cattle, oxy-acetylene welding, and pasture.

Women Attend State Meeting

Mrs. Lloyd Davis and Mrs. Charles Clark, representing the Hart Parent-Teachers Association attended the 57th annual Texas P-TA state Convention in Austin, Nov. 16-18.

Theme of the convention was "Increasing Educational Opportunities." Mrs. L. L. Ledger of the Copperas Cove, Texas PTA president, presided.

Approximately 3,000 delegates gathered for convention meetings in Austin's Municipal Auditorium.

Guest speakers included Ben Barnes, Speaker of Texas' House of Representatives; Dr. Thomas G. Pullen Jr., president of the University of Baltimore; and Dr. Elizabeth M. Drews, professor of education at Portland (Ore.) State College.

National PTA's representative to convention was Mrs. Leon S. Price of Dallas, secretary of National PTA and a past president of the Texas PTA.

The annual state convention serves as governing body for the Texas PTA. The 1967 convention will be held in Fort Worth, and the 1968 convention will meet in Houston.

All-Church Service Set

Featured speaker at the First Baptist Church Sunday night, Dec. 4 will be Andy Gardenhire.

The services are planned to include all churches in Hart. Bro Douglas Gossett, pastor of the Methodist Church will have charge of "Scripture Prayer." Weldon Bates will introduce teachers.

Special music will be presented by David McGinnis, assisted by B. H. Rogers and Weldon Davis.

Cake, coffee and punch will be served in fellowship hall after the services.

The public is invited to attend these special services.
