Hart Lions Club met Monday Feb. 13 at noon in the community room of the Farmers State Bank.

March 7 was set as Ladies Night, when the Man of the Year will be named. Cheryl Newman was chosen as Lions Queen for the coming year.

E. E. Foster, Mayor, asked for names of crippled children, who are eligible for application for Kerrville Camp for Crippled Children.

In other business, the annual broom sale was set for April 1.

Final business of the day was awards given to Ed Harris and E. E. Foster, ten year men.

Girls Team Takes Second In District

Hart Junior High Shorthorn girls clinched the runner-up position in the 4-B Junior district with a 39 to one win over the hapless Booker T. Washington Dragons here last Tuesday night.

The win moved the girls into a six win-two loss conference record, one game behind the winning Happy Cowgirls.

In the Booker T game, Sandy Bennett paced the Shorthorn scoring with 10 points while Roni Cox added eight more and Sue Bates got six. Debbie Davis also hit for six points, her high total for the season.

The girls were able to sink five of their 14 chances from the foul line for a 38 per cent record.

CONTESTANTS selected to go to the Swisher County Electric declamation contest are Patricia Richburg and Larry Henderson. Winners of the contest will go to Washington, D. C.

Junior High Team Takes District

Hart Junior High Shorthorn boys put the wrapping on a fine sports season here last Tuesday night as they dropped the

Booker T. Washington Dragons, 47 to 20 to take the conference basketball title.

The Shorthorns, already holding the conference football title, mowed down the Dragons, the only other contenders for both the football and basketball crowns, with ease as they moved to a 6-0 starting lead and were never passed during the game.

The Dragons were able to move within one point at the end of the first quarter but after that, the Shorthorns pulled steadily away.

The Shorthorns carried a five point lead into the dressing room at halftime and by the end of the third period the margin had risen to 16 points and the game became a runaway as the Shorthorns poured in shot after shot to keep the score climbing.

The win proved to be a team effort with three players tying for the scoring honors while the other two starters trailed by only a few points. Ricky Farris, Mark Porter and Lonnie Davis managed to hit for 11 points each while Landra Bruington sank nine and Pancho Diaz added five more.

The Shorthorns were able to connect on 15 of their 34 chances at the charity line for a shooting record of 44 per cent.

Education Cited As Reason For Success Of Countries

A prominent businessman, Monroe E. Spaght, Royal Dutch-Shell Group, compares the strength and well-being of various nations to illustrate the impact of education: "For example if endowment with natural resources were the sole criterion, Japan and Norway would be poor, which they are not, while Brazil and Indonesia would be rich, which they are not. If, as some of the opponents of foreign investment allege, 'colonial exploitation' were the stumbling block to progress, Siam and Abyssinia would be rich, which they are not, while Canada and Australia would be poor, which they are not. If lack of heavy industry is the handicap, then Denmark and New Zealand, where agriculture predominates, would be poor, which they are not. If

high population density drags down living standards, the Netherlands and Japan should be poor, which they are not. If capital for investment is the required ingredient, then Kuwait and Venezuela would be rich, which they are not."

Then this businessman asks, rhetorically, "Could a main factor be a high level of education spread widely over the population? If it is, the United States should be very rich, which it is; Western Europe should be fairly rich, which it is; Latin America should be fairly poor, which it is; and Africa should be very poor, which it is."

This is an impressive argument in behalf of unqualified support of education.

CONSUMER CREDIT CODE
-- A hard crackdown on certain firms offering credit is the recommendation by a governor's study committee on consumer finance.

Committee found that the public is being defrauded by such organizations as home-improvement firms and small-loan businesses. Governor's recommendation is that the state set up strict regulation of these businesses -- all the way from banks and savings and loan associations down to retail merchants giving credit.

Code would set maximum credit charges, limit insurance required for credit transactions, make clear to consumers amount of credit or cash advances and all charges or pertinent data and prohibit deceptive advertising in the field.

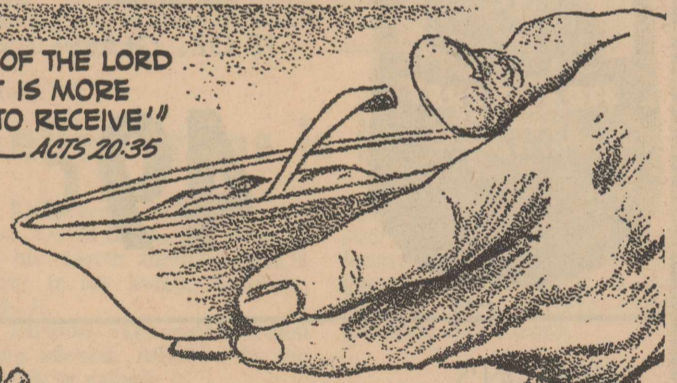

Also included in the recommendations was altering the state statutory ceiling on interest rates which the various types of business may charge for credit.

POLLUTION STUDY WINDS UP-- In its final report to the Legislature, an interim pollution study committee recommended controls of wastes from leaking oil wells, boats and septic tanks.

Proposals included more funds for the Railroad Commission to plug abandoned and leaking wells; salt water controls; state control of air and water pollution from commercial livestock feed lots; authority for river authorities to operate local and basinwide sewerage and waste disposal facilities; and creation of another study group with power to look into air and noise pollution and land use.

SUPPORT JAIL SENTENCE

A three-day minimum "cooling off" period in jail might cause some driver to think twice before driving with a suspended or revoked license, says "Texans for Traffic Safety." The group endorses this proposal carried in Governor Connally's highway safety program.

VA Loan Program To End July 25

Veterans Administration reports that its 20 year-active World War II GI home loan program is still accounting for 12-percent of all loan applications.

More than two million World War II veterans, according to the agency, still retain unused, unexpired eligibility to get a GI home, farm or business loan guaranteed by the Government.

VA has warned these World War II veterans, however, that their eligibility will be ending soon. The whole World War II GI loan program terminates July 25, 1967.

The VA says it is not enough that a veteran's first application be received in VA by the deadline date. The veterans' private lender must have applied to have the loan guaranteed or insured by VA by that date. VA has urged World War II veterans who plan to take advantage of

The July 25 deadline does not apply to Korean Conflict veterans or to those eligible under the new GI Bill . . . for Viet Nam Era veterans.

WHILE SHE READS THE NEWS... YOU CAN BET...

She reads the ads

According to the U. S. Bureau of Advertising, ADVERTISING ranks first with women, over all other newspaper content, for interest and readership! Women actually read ads in preference to anything else in the newspaper. (For that matter, ads rank third with men for readership!) And reading the newspaper is a favorite habit with American women.

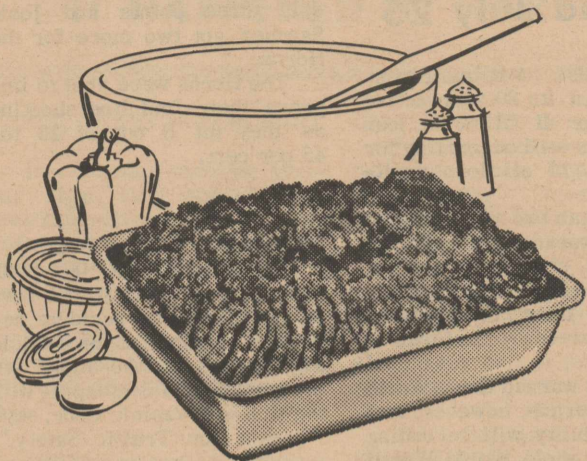

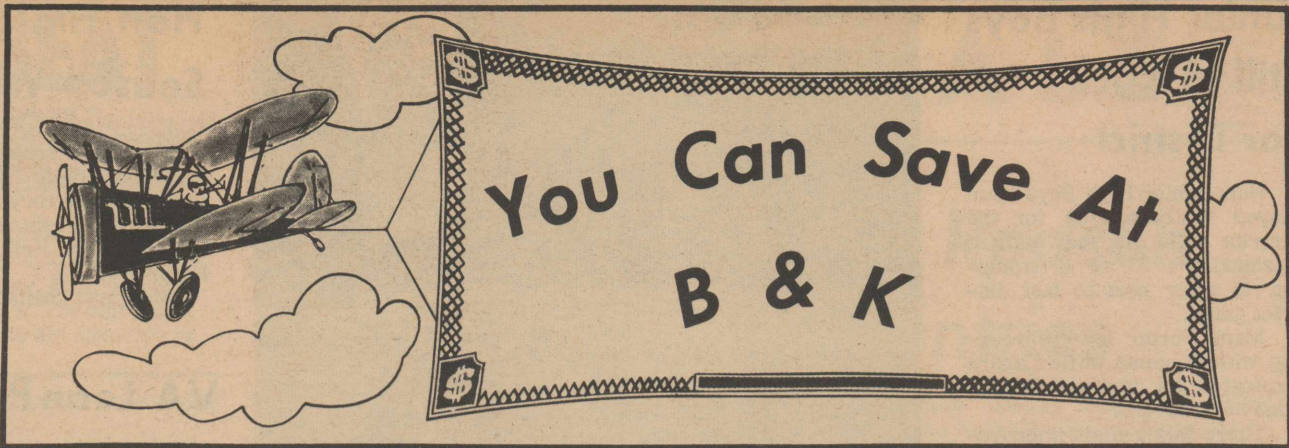

So, if you have a product to sell—display it in an ad in your local newspaper. If it's for the home, write it to the housewife's point of view. For, more than anyone else, she'll read it. And, more than anyone else, she's the one who does the buying for the family!

Mrs. Housewife is your NUMBER 1 Prospective Customer . . . and she LIKES to read newspaper ads.
