Hart Places Three Students In Castro Spelling Bee

Hart students brought home two first place honors and one third in the Castro County Spelling Bee, which was held in Dimmitt recently.

Placing first in the senior

division was Sharon Brooks, 13-year-old daughter of Mr. and Mrs. Paul Brooks, who is an eighth grader.

Placing first in the junior division was Allen Shive, 12-year-old son of Mr. and Mrs.

Eldon Shive. He is a sixth grader.

Third place winner in the junior division was Jackie Seago, 12-year-old daughter of Mr. and Mrs. C. W. Seago. She is also a sixth grader.

District Track Meet Set

District 4-B will have their district track meet at Springlake Thursday, April 6.

Preliminaries will start at 10 a. m. Lunch will be served to all participants at 1 p. m.

The finals will begin at 2:30 p. m. in field events, followed by running events.

All track fans are urged to go to Springlake for this meet.

The boys participating in this track meet will be Mike Armstrong, Ronnie Barham, Charles Bass, George Bennett, Harold Bennett, Donnie Black, Bill Bledsoe, Roger Cleaver, Bob Crick, Paul Guzman, Quincy Hawkins, W. A. Hawkins, Larry Henderson, Roger Kennedy, Bennie Martinez, Tommy McLain, Ricky Mitchell, Richard Murray, Terry Newman, Larry Parker, Gary Rambo, Clifford Ray, Andy Rogers, Danny Smith and Jim Swindle.

City Vote Very Light

Hart's mayor and two city commissioners were voted back into office in light turnout Tuesday.

Mayor E. E. Foster received 26 votes while commissioners M. L. (Buster) Aven and John Holloway each tallied 27 votes. They were unopposed.

Home Made Attractive By Handicraft By Mrs. Hill

by Sue Cannon

A lovely, spacious home with an outdoor setting of a beautiful well-kept lawn and shrubs is the "workshop" of Mrs. Homer Hill of Hart, who enjoys handicraft.

Her home is located on the southern outskirts of town and is a beautiful site, but one cannot begin to enjoy the beauty of it all until they are welcomed into the house by Mrs. Hill, a gracious hostess, who loves to show people her home where she has made it very attractive and "homey" with all sorts of hand work.

Mrs. Hill, known to most people only as Ozema, stays busy with different projects of making things and has many treasured and sentimental items made into useful objects as a result of her hobby. She has created items which will be treasured by her family and friends for many years to come also.

She has bronzed her father's shoes, thereby permanently retaining them and she made a lamp from brown Crisco bottles and a base, used a glass pie plate which belongs to her mother.

A mother and grandmother, Ozema has plenty of loved ones to work for and does just that. One of her daughters-in-law, was the recipient of a St. Francis Statue and is quoted as saying "I wouldn't take anything for it."

The Hill children, Bonnie Futrell, Bud, Bill, Bob and Kenny are lifetime residents of Hart and are engaged in the livestock business with their father, among other enterprises. There are several grandchildren and Mrs. Hill always has time for them and her family -- never neglecting them for her hobby. The boys are planning to fix a little pump which will pump water through the little windmill located in her front yard.

She travels with her husband quite frequently on business trips and she usually takes along some sort of hand work that she can work on while away. She especially is on the lookout for new ideas on trips such as these.

Among her projects is a set of china she painted, lamps and vases made from bottles of all descriptions, light fixtures, needlepoint, pillows, pictures, and tables, and numerous other things.

The light fixture in the living room and dining room were made of clear plastic resin and she displays a lamp made of plastic resin molded into the shape of a large bunch of grapes. They are made of clear red resin and have a light bulb inside which gives a very unusual lighting effect. There are 200 large grapes

'No Grazing' Period To Begin May 1

Jim Elder, Chairman of Agricultural Stabilization and Conservation Castro County Committee, announced today that the "no grazing" period for diverted acres under the 1967 feed grain and cotton programs will start May 1. It will continue for the following six months until Nov. 1.

Farmers who are diverting acreage under the programs have agreed not to graze the diverted acres during a specific six-month period of the growing season and not to cut hay from diverted acres at any time during the year.

Farmers participating in the conservation reserve and cropland adjustment programs have agreed not to graze land

diverted under these programs or harvest hay from such land any time during the life of the agreements.

Castro County farms signed up to participate in the 1967 commodity diversion programs for corn and grain sorghum and cotton number about 1000.

It will be the farmer's responsibility to measure and report wheat acreage for 1967 if you are participating in the wheat program.

May 1, is the final date to certify final measured acreage of wheat.

April 30 is the final date to dispose of any excess wheat.

Twenty-five per cent of all wheat farms will be spot-checked to determine the acreage reported. Failure to file your report by May 1 for wheat will cause the farm to be ineligible for program payments.

School Board

Named Saturday

One incumbent and two newcomers were named to the Hart School Board in voting here Saturday.

Ralph Futrell, the only veteran of the board seeking reelection, was named to the board along with Dean Sanders and Robbie Hawkins.

Sanders received 141 votes, followed by Futrell with 121 and Hawkins with 99.

Dwight Miller received 88 votes and Robert Lacy received 83.

Burger Bar To Open

A new business in Hart will open in the near future, with Mrs. Buster Aven as owner-operator.

A Burger Bar, located just south of the high school is now in the process of being completely re-decorated and refurnished.

MRS. HILL looks over one of her projects of handicraft, the St. Francis statue which she made for her daughter-in-law. This is only one of many objects she has created in the past few years.

Pre-Boot Irrigation Increases Yields In Grain Sorghum

"Results of the 1966 study on the irrigation of grain sorghum definitely point out the necessity of a well timed pre-boot irrigation. A six day delay in this irrigation reduced yields in our test approximately 1,000 pounds per acre," James Valliant, Soil Scientist, who is directing the irrigation research program at the High Plains Research Foundation, said in an interview this week.

"A preplant irrigation plus irrigation at the pre-boot and flower stages of growth in 1966 again produced the greatest practical efficiency."

"A four year average showed no significant increase in yield with three summer irrigations over two summer irrigations."

Commenting on the future of grain sorghum, Valliant said that grain sorghum will probably be planted on more irrigated acres than any other crop in the High Plains of Texas in 1967 because of the feed grain program requiring only a 20% acreage diversion. With the increase in planted acreage, the use of irrigation water will also increase. This will require the farmer to carefully plan the most practical use of his available water.

THE DECLINING LEVEL IN

THE GROUND WATER FORMATION MAKES THIS ADVANCE PLANNING MORE IMPORTANT EACH YEAR.

Efficiency of water use is highly important to the grain sorghum producer. For this reason, the High Plains Research Foundation is continually studying ways and means to maintain and improve the income from grain sorghum with reduced amounts of underground water.

In irrigating grain sorghum the approximate 20 day period beginning with the 6 to 8 leaf stage and ending with head emergence is the most critical. Pre-boot is the period when the small head can be seen forming if the plant is stripped down. During this period, the producer should watch soil moisture and signs of plant wilting closely to determine when to irrigate. "The more definite periods of moisture needs are fairly easily seen at certain stages of growth, such as pre-boot, flower, milk, and in some cases, the soft dough stage."

Further information on the timing of irrigation of grain sorghum and other crops can be found in the 1966 Annual Research Report to be published in the near future

EDITORIALS

Don't Blame The Children

(Editor's note: The following article was submitted by Mrs. C. W. Seago. The author is unknown.)

Don't Blame The Children

We read in the papers and hear on the air,

Of killings and stealings and crime everywhere;

We sigh and we say as we notice the trend,

This young generation; where will it end?

But can we be sure it's their fault alone-

That maybe a part of it isn't our own?

Are we less guilty who place in their way-

Too many things that can lead them astray?

Too much to spend and too much idle time-

Too many movies of passion and crime,

Too many books not fit to be read,

Too much of evil in what they hear said;

Too many juke-joints and too many bars,
Too many hot-rods and rattletrap cars.
Too many reasons for children to roam,
Too many parents who don't stay home,
Kids don't make the movies, they don't write the books.

That paint a gay picture of gangsters and crooks;

Kids don't make the liquor, they don't buy the cars;

They don't make the LAWS, they don't run the BARS,

They don't sell the REEFERS, that idle their brain.

Thats all done by older folks, GREEDY for gain.

We're shocked at their morals, amazed at their crimes, and grieve that we live in such perilous times.

By the rule of the BLAMELESS, the Savior made known;

Who is there among us to cast the first stone?

Remember these words, for oh, they're so true,

The label "DELINQUENT" fits older folks too.

Tornado Months Are With Us

Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety, today urged Texans to review tornado safety precautions.

"While tornadoes can occur any time of the year," Garrison said, "April, May, and June are the peak months."

U. S. Weather Bureau records indicate that Texas leads the nation in total number of tornadoes per year. The annual average of 80.7 is based on a record of 1,210 confirmed tor-

nadoes from 1951 thru 1965.

"It is especially important for every school, church, hospital, hotel, business house, and industry to establish an emergency plan," Garrison said. "To know what to do when a tornado is approaching may mean the difference between life and death."

A circular on tornado safety is available from most local Civil Defense offices.

BOAT PAPERS REQUIRED-Texas Parks and Wildlife Department has ordered its game wardens to more tightly enforce the state law requiring boat operators to have official papers aboard.

In making the announcement, the department reiterated the state's laws governing boats. A game warden may demand to see the certificate of number issued by the Texas Highway Department. A boat owner also must have that number affixed to the sides of his boat on the bow.

Bi-County Council Meet At Hart High School

The Bi-county PTA Council meeting was held in the science department of the Hart High School March 29. Coffee and cookies were served before the meeting.

At the business meeting, a letter was read from Mrs. Frances Alexander encouraging everyone to attend the District Conference to be held in Texline on April 13. The theme is "Developing our Neighbors".

Elected for the coming year to serve the Bi-county Council were president, Mrs. Albert Schoenenberger of Happy PTA; vice-president, Mrs. Lloyd Davis of Hart PTA; treasurer, Mrs. John Butler of Happy PTA; and secretary, Mrs. Gus McLain of Nazareth PTA.

W. A. Gardenhire spoke on "The Future of our Children", saying "We as parents must spend more time with our children, encourage them to ask questions, teach them not to take things for granted, to respect other people, teach them the difference between liking something and accepting some-

thing, take them out of the world of fantasy and teach them to accept a few hardships, because the children of today will be the leaders of tomorrow. And above all, teach them and yourself to have "educated hearts".

"What is an educated heart? It is the individual with a blooming personality, kindness and love in every act they do, in giving material gifts they also give a part of themselves and they are gracious to everyone. When we come in contact with a person with an educated heart we will notice that their every act is automatic".

His speech was followed by a very lively and informative "Question and Answer" session. There were 14 women present with every school being represented.

The meeting closed with the Happy ladies extending an invitation to have the next Bi-County meeting there, in May, it will be a "School of Instructions" conducted by John McFarland.

Girls Track Meet To Be In Kress

Girls district 4-B track meet will be held in Kress Monday, April 24.

Teams participating will be Kress, Happy, Farwell and Hart.

Girls from Hart participating will be: Linda Popejoy, Pam Huston, Margaret Swindle, Cathy Sharp, Reba English, Sheila Gardenhire, Sandra Lacy, Nancy Reed, Yolanda Gonzales, Rebecca Futrell, Linda Gossett, Ina Featherston, and Josie Sanchez.

Literary Meet Set April 7

District 4-B Literary Interscholastic League District Meet will be held at Wayland Baptist College at 1:30 p. m. Friday, April 7, 1967.

Hart, Happy, Amherst, Lazbuddie, Spade, Cotton Center, Booker T. Washington and Nazareth will be entered in the meet.

Volleyball Tourney Results

Results of the District 4-B Volleyball Tournament held at Hart March 30, are in.

Teams participating were Nazareth, Hart, Happy, Booker T. Washington and Lazbuddie. In Girls' Senior Division, 1st place went to Nazareth and 2nd place went to Hart.

Girls' High School Junior Division - 1st place, Happy and 2nd place, Hart.

Girls' Junior High Division 1st place, Hart and 2nd place, Happy.

Boys' Senior Division - 1st place, Nazareth and 2nd place, Hart.

Boys' High School Junior Division - 1st place, Nazareth and 2nd place, Hart.

Boys' Junior High Division - 1st place, Hart and 2nd place, Happy.

IN AMARILLO

Mr. and Mrs. E. E. Foster were in Amarillo Thursday of last week to visit their daughter and family, Mr. and Mrs. Marion Tucker.

McLAIN GUESTS

Mr. and Mrs. Nathan Bail of Edmonson visited Sunday in the home of his sister, Mr. and Mrs. Tump McLain.

IN VERNON

Mr. and Mrs. Lester Lancaster, Tommy and Diane were in Vernon Sunday to attend the funeral of Mrs. Lancaster's uncle, Tom Smith.

KITCHEN KORNER

By Lela Gallion

This time of year the rhubarb is at its best and I am not sure that the old idea that it is a good spring tonic isn't a pretty good idea after all.

The people of a few years back did require lots less medicine than they now do.

Try one of these and see if it helps you.

RHUBARB MARLOW

1 c. sweetened stewed rhubarb
24 marshmallows
1 c. whipping cream
pink coloring, if desired

Heat rhubarb, add marshmallows, and stir over low heat until just melted. Cool. If mixture is very sweet, add lemon juice to give desired tartness. Chill until thick and syrupy; then whip cream until stiff and fold into the rhubarb mixture. Turn into freezing tray of mechanical refrigerator and freeze without stirring. If desired, the whipped cream may be tinted delicately pink before adding to the fruit mixture. 5 servings.

RHUBARB CUSTARD

1 lb. rhubarb
1 T. water
1 c. sugar
3 T. cornstarch
1/8 t. salt
2 c. milk
3 eggs, beaten

Wash rhubarb; discard leaves and dice stems. Add water, cover, and cook slowly until rhubarb is soft. Mix together 1/2 cup of the sugar and 1 tablespoon of the cornstarch and stir into the rhubarb; stir constantly over low heat until sauce is thickened, then remove from heat. Mix remaining cornstarch, sugar and salt in saucepan, add milk and cook over direct heat with constant stirring, until mixture boils and thickens. Slowly stir into the beaten eggs and cook over hot water, stirring constantly for 2 minutes. When both custard and rhubarb sauce are cooled, stir the rhubarb into the custard. Serve chilled. 5 servings.

BAKED MACARONI AND COTTAGE CHEESE

7 or 8 oz. macaroni
3 T. butter
6 T. flour
1 No. 2 can tomatoes
1 t. salt
1 onion, finely chopped
1 egg, beaten
1 jar cottage cheese (12 oz.)
Pepper to suit taste
Buttered bread crumbs or grated dry cheese

Drop macaroni into 2 or 3 quarts rapidly boiling salted water, and cook until tender, from 8 to 20 minutes. Drain, rinse with hot or cold water

and turn into buttered casserole. Meanwhile melt butter in saucepan and blend in flour; cook over low heat until mixture is brown. Remove from heat and stir in remaining ingredients, except crumbs or grated cheese. Pour over macaroni, stirring slightly to distribute, then sprinkle with bread crumbs or cheese. Bake in moderate oven (350 deg. F.) for 45 minutes. Serve immediately. 5 servings.

BREAD CRUMB PIE CRUST

1/4 c. butter
1/4 c. brown sugar
1 T. water
1 c. fine dry bread crumbs
1 t. cinnamon

Heat first 3 ingredients to boiling; turn heat low and stir in bread crumbs and cinnamon until well mixed. Turn into 8-inch pie pan and press into uniform layer over bottom and up sides. Bake in a moderate oven (350 deg. F.) 10 minutes. Chill and fill with any precooked or chiffon pie filling. Makes one 8-inch pie crust.

USES OF STALE BREAD

Never let stale bread become moldy. Even when it is quite hard and old it may still be used for toast. If making toast is not practical, place the bread in a slow oven (250-300 deg. F.) and dry out until very hard and crisp. Then place it in a large paper sack and roll it with a heavy rolling pin until it forms fine crumbs. Or put the bread through a food mill that has its screw loosened. These crumbs may be sieved if desired, and will be as good as bought crumbs. Store in jar with a perforated top.

Slightly stale bread, which is neither hard nor moldy, though it may have lost its appeal for eating as bread, can be used with complete satisfaction in bread puddings, escalloped tomatoes, stuffings for meat or poultry, and many other cooked dishes.

RE-HEATING QUICK BREADS

Leftover muffins, biscuits and shortcakes may be freshened successfully if they are sprinkled very lightly with water and placed in a paper sack, then snugly closed at the end, and heated in a hot oven (400 deg. F.) until piping hot.

Another way of heating them is to split them and toast under the broiler or in a hot oven. This produces a crisper texture and a different flavor from the fresh bread, whereas the other method makes them taste much like freshly baked breads.

FORMER RESIDENT SPEAKS

Mrs. Glenn Herriage of Lubbock who is instructor and nursing education representative for Methodist Hospital School of Nursing in Lubbock was in Hart Monday. She gave a talk to the high school girls of the opportunities in nursing. Mrs. Herriage is the former Ella Buchanan, who attended Hart schools and graduated from Hart. Her father was a section foreman for the railroad here at that time.

VISIT HAMMS

Mr. and Mrs. Loyce Warren, Carolyn and Stevie Hamm of Dallas, Cecil Hamm of Amarillo and Mr. and Mrs. W. P. Holland Jr. and family of Amherst were all guests this weekend in the home of Mr. and Mrs. Fred Hamm.

IN NEW MEXICO

Mr. and Mrs. Robert Brooks visited over the weekend in Texico, N. M. with their daughter and family, Mr. and Mrs. Deward Armstrong.

and 36 small ones used to make this lamp.

The bedside table is made from an old smoking stand with a resin-molded top. Pictures of three generations are imbedded in the table top and a lamp is attached to the table.

It is impossible to tell of the many things that Mrs. Hill has made through the years, although she is well-known for her hand work. She has visitors from long distances come to see the projects and she is always prepared, as she also has an interest in recipes and keeps a number of dishes prepared in her deep freeze so that she can entertain and usually serves delicious meals without the rush of preparing a full meal. A group of ladies from New Mexico are expected to visit in the near future.

Mrs. Hill summed up her feelings when she remarked, "I enjoy doing these things, and enjoy sharing them with others."

IN AMARILLO

Mr. and Mrs. Carl Godfrey went to Amarillo Sunday to visit her mother, Mrs. Frank Conard and sister, Mr. and Mrs. Ralph Higdon.

FROM ARKANSAS

Mr. and Mrs. Homer Enscore of Arkansas were in Hart over the weekend to visit friends and relatives.

VISIT SISTER

Mr. and Mrs. Earnest Conard of Lubbock visited on Sunday evening with his sister, Mr. and Mrs. Carl Godfrey and Danny.

Seniors To Visit Wayland College

High school seniors from the High Plains and possibly from adjoining states will be guests of Wayland College Saturday, April 8.

On the schedule are the senior day program at the college and tryouts of girls for the Flying Queens basketball squad. The seniors visiting the campus will be given guided tours of facilities and will have the opportunity to discuss possible college financial aid with officials and to visit with the registrar.

Seniors will be guests of the college for lunch in the dining hall.

The girls' basketball tryouts will be in the Plainview High School Gymnasium start-

ing at 2 p. m. Tryout candidates may spend the night in one of the dormitories if they furnish their own linens and they will be provided with meals. Accommodations are available only for those who try out for the Queens' team, Harley Redin, Wayland athletic director and Queens' coach, said.

Redin reminded tryout candidates that such participation could make them ineligible for Interscholastic League competition in the future.

SHORT SNORTS-- A Federal grant of \$84,135 will go to Atascosa, Karnes and Wilson Counties for pre-school training program for 400 underprivileged children . . .

HIGHWAY BEAUTIFICATION PLANNED -- Texas Highway Commission has approved a new highway beautification and landscape-planting program to screen 154 junkyards in 86 counties.

If the Bureau of Public Roads approves, the federal government will pay 75 per cent of the estimated \$664,300 cost. Department began junkyard screening program with nine projects in 1966 and conducted an inventory of 1,220 junkyards, dumping grounds or other blight along federal aid highways.

States failing to cooperate in beautification work will be penalized by a 10 per cent reduction in highway allotments. This would amount to \$20,000,000 a year in Texas.

TAX MAN SAM SEZ:

The Internal Revenue Service says that a majority of tax practitioners are competent and honest. They warn taxpayers to beware of the "expert" who will not be around to answer your questions after the return has been prepared and filed. Never sign a blank return and leave it with a stranger.

Don't sign a return prepared in pencil since the return can be changed later. It is also a good idea to avoid the advisor who guarantees refunds or who wants a percentage of the refund.
