City Council OK's Fire Phone System

Hart City Commissioners Monday night approved a proposal by West Texas Telephone Co. to install a 10-telephone fire answering system in the homes and businesses of volunteer firemen.

The plan was explained to commissioners by Reeford Burrough, commercial manager of the company from Dimmitt; Bill Woodard, equipment supervisor; and Gary Davis, plant supervisor.

Davis said the phones will ring simultaneously when a special fire reporting number is dialed. The number will be made public when the equipment is implemented, according to Mayor E. E. Foster. A device is built into the system allowing volunteers to sound the general alarm at the fire station from their phones, Davis explained.

Phones were obtained through a five-year contract at \$37.50 monthly rate. There is no installation charge under the contract.

Similar proposals are being offered in Dimmitt and Tulia, Davis said.

School Board Votes 'No'

Hart School Board members Monday voted not to participate in a proposed county-wide re-evaluation program.

Baptist Church Gets New Look

Hart Baptist Church got a "face-lifting" last week when ladies of the church decided to do spring house cleaning.

Several of the ladies spent the entire week cleaning, removing old wax from floors and applying two fresh coats. The carpet was shampooed, windows were washed and other general cleaning performed.

ioners rejected a plan by Pioneer Gas Co. to increase city gas rates.

Commissioners also appointed three men to the board of equalization, scheduled to meet from 1 to 5 p. m. at City Hall July 7.

New board members are Norlan Dudley, Joe Bailey, and Bob Bennett.

Mayor Foster told the commission a new water line to the southeast section of the city--commonly called "old town"-- is almost completed.

Lions Elect New Officers

Members of Hart Lions Club made a special presentation and installed officers for the coming year at their regular meeting in the Community Room of Farmers State Bank Monday night.

Guest Ernie Brockman of Nazareth presented a plaque and pin to Kay Smith of Hart for her winning composition on soil and water conservation in the Lion-sponsored essay contest. Mrs. Maurine Smith accepted the awards for her daughter, who was unable to attend the meeting.

New officers include Kenneth Lambert, president; Richard Franks, secretary-treasurer; David Willis, 1st vice president; Kenneth Warren, 2nd vice president; W. A. Hawkins Jr., 3rd vice president; Stewart Newsom, Lion tamer; and Andy Gardenhire, tail twister.

Directors are Joe Bailey, Dewayne Brown, W. T. Sanders, Bill Rich, and Claude Cox.

Eighteen members were on hand as Deputy District Governor Milton Laurie, another special guest, conducted the annual ceremony.

Pete Wright, a third guest, showed slides on soil and water conservation.

MIKE MORRISON, son of Mr. and Mrs. Theron Morrison, is shown here in his "working clothes" in front of their living quarters, which they term their "hootch". In the 100 degree weather, the boys dress as cool as possible. Note in the background is another of the living quarters. Mike goes out as a medic in helicopters to pick up and render first aid to the wounded. He wrote a letter of thanks to the Beta Sigma Phi and others in the Hart area who donated things to be sent to his company.

Storms Dump More Rain, Hail On Hart Area Crops

June storms virtually washed away hopes for a good cotton crop this season in the Hart area, local ginners noted this week.

Predictions came in the wake of a four-day downpour officially totaling 2.84 inches last week in the city.

Gauges showed .66 inches of moisture after last Thursday's shower, followed by .60 inch Friday, 1.15 inch Saturday, and .43 inch Sunday.

Area farmers, already plagued by two previous storms this month, have added as much as half a foot to the June moisture readings since last Thursday.

Mrs. Deryl Clevenger said her crops were hailed out three times this season.

Ike Bennett, manager of Hart Producers Co-Op Gin, estimated half the cotton crop had been destroyed and 40 percent of the wheat damaged by weather conditions here this month.

Hardest-hit fields were in a spotted area five miles south and east of Hart, he said.

Bennett noted selling 500 bags of early-maturing soybeans--enough to replant 500 acres of cotton--during June.

C. G. Benningfield, manager of Hart of the Plains Gin, agreed with Bennett's cotton damage estimates.

He figured all the cotton planted this season in the immediate vicinity of Hart has

been replanted in soybeans.

Benningfield said no cotton south of the Kress Highway survived the severe hail three weeks ago. That storm dropped baseball size hail and up to a foot of rain in the area.

"It was a slow, perfect rain if we'd needed it," Benningfield said of last week's shower. "It was the first one this month that didn't have hail in it," he added.

"It's not all that dark," observed Bennett. He recalled one customer who predicted "the finest cotton crop he had ever had in his life" on a farm half way between Hart and Nazareth.

Bennett, like most local farmers interviewed, expressed hopes of making a wheat crop this season in spite of recent water which has caused weeds to become a problem in fields too wet to plow.

Clarence Birkenfeld, manager of Nazareth Gin and Grain Co. in Castro County 11 miles north of Hart, said crops had not suffered greatly in his area from any June rain--especially the most recent one.

"The rain sure made it look good," he said of the crops in general. He said all crops were "coming right out" and that wheat was 80 percent harvested.

Birkenfeld recorded 1.75 inches of rain and no hail from last Thursday night to Monday

morning in what he described as a gentle rain.

Farmers in the Castro County town of Sunnyside about 10 miles west of Nazareth, were not as lucky. They reported marble size hail Thursday night which destroyed from 20 to 30 percent of their wheat.

Hart farmers are predicting work in the saturated fields will be delayed until Friday.

"It would be nice," said Hart farmer H. E. Newman of the rain, "if it would stop for a while."

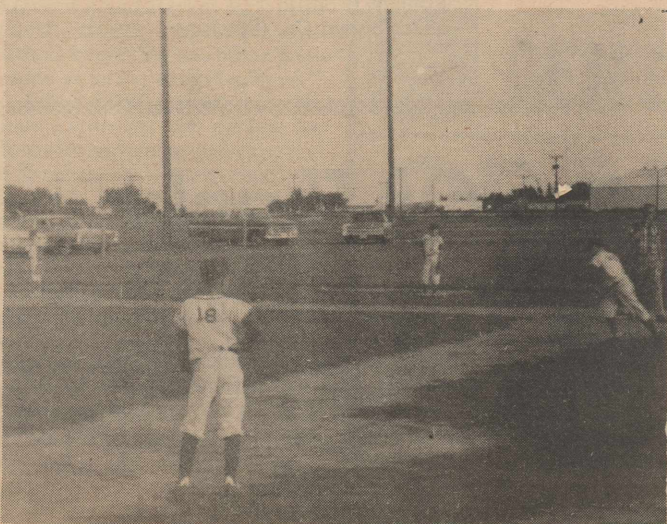

"The rain sure made it look better," remarked Clarence Birkenfeld, manager of Nazareth Gin and Grain Co.

He reported 1.75 inches of rain from Thursday night to Monday morning. Birkenfeld said all crops were "coming right out" and wheat was 80 percent harvested.

Correction Made On Bus Shop Fire Story

Last week's paper carried a story on the fire at the school bus shop, stating that it took the firemen 15 minutes to reach the fire after being notified.

It should have read that it was 15 minutes after the fire was first noticed before the firemen reached the scene.

Nation Without Maturity

We Americans are a peculiar breed of cat. We have enemies who boldly declare they're going to do us in, but we keep hoping they don't really mean it. Or that they'll eventually have a change of heart and that we'll live happily together on this old globe.

So it has been with Russia. We know the Soviet has been our enemy and if we lower our guard the slightest, she'll annihilate us. And we know she has agitated wars, gotten us involved and aided the enemy in killing our boys.

But we go on hoping that things will change.

We've been a little guilty of some of this fuzzy thinking. While realizing Russia has been our enemy and has done some dastardly acts, we've clung to the hope that such a potentially great nation is bound to have some degree of integrity, dignity and maturity. Also we have been heartened with the knowledge that throughout history some nations, with changes in leadership, have changed.

But all our hopes flew out the window last week after viewing the U. N. Security Council proceedings over television. There was no credibility gap to cast any doubts. There it was laid out bare before us in our own living room. We witnessed with our own eyes and ears the sad spectacle of the ambassador of Russia . . . voicing the minute by minute instructions from his country, spouting forth lies, misrepresentation and threats.

Or the Soviet representative's silence in face of the accusations from the Arab countries that the U. S. and Great Britain had taken part in the fighting was abom-

nable. The Russians knew without a shadow of doubt that this accusation was not true. But their silence rang out loud and clear that this nation was woefully lacking in maturity, integrity and decency. Any honorable nation, knowing the true facts as Russia did, would have spoken up, regardless of its feelings toward the accused.

Then followed Russia's vituperative declaration that Israel was the aggressor. This, mind you, in face of Egypt's Masser declaring the Gulf of Aqaba off limits to Israel . . . which, as an international waterway, was an act of war in itself, followed by Nasser's threats to Israel that were heard around the world, then the troops of United Arab nations encircled tiny Israel. Encircled, outnumbered and with the life of every man, woman and child in that small nation hanging in the balance, would you believe Israel was the aggressor?

Who fired the first shot, as far as we're concerned, is of no consequence. The acts of aggression had already been established by Masser and his allies. The situation was so tense a stray dog overturning a garbage can could have set off the shooting for either side.

But Russian for selfish political reasons, persists in branding Israel as the aggressor.

Possibly we should be overjoyed that Russia has publicly displayed its true, untrustworthy colors for all the world to see. But it is a little sad, too, to witness in our own living room a potentially great nation that could be such a tremendous force for good in the world today to expose itself as a cheap, immature, irresponsible country. What a tragic pity.

DEAR EDITOR

Editor's Note - This poem was one taken from a newspaper printed in Viet Nam and was sent home by Mike Morrison, from the paper "Pacific Stars & Stripes".

THE FIGHTING OF THE WAR

To the demonstrators, protesters,
An unbelievers in the war:

I have a feeling you should be told
What we are fighting for.
So many of you have sung out,
For what you felt was a worthy cause,
But few of you have fully grasped,
The meaning of this war.
Were you not from the United States,
But from a Communist land,
You would be jailed and shot for treason,
For the way your feelings stand,
And were we fighting over there,
So very close to home,
There are many of us who wonder,
If you'd protest so very strong,
If you'd continue with your singing,
Of your favorite protest songs.
It often makes me wonder,
As many of us here do,

That, should we all behave as you,
What would our country do?
It wouldn't take so very long
For you to see the light,
If you lived under Communist rule,
And didn't have these rights.
We fight for love of country,
And believe with all our might,
That we fight to give every man,
Certain inalienable rights.
Communism is spreading
All across the land,
And were it prominent in the U. S. A.,
You'd have no placard in your hand,
And yet, you tell us "Stop the war!"
Well, it'll only start again,
And were it there, where you are now,
What then, would you sing?
For we believe in America,
Which stands so very tall,
But we must fight for the few of you.
Who act so very small
I fight for all our freedoms,
So that my wife and child,
May have, in case I should depart,
What we are fighting for.

Open Letter Of Thanks

19 June 1967
Howdy,

It is always a tremendous morale boost to receive a letter or package from home, more especially so when all are able to share the "bounty."

After working hard all day cookies and cakes go well with our 'iced sodas we keep handy.

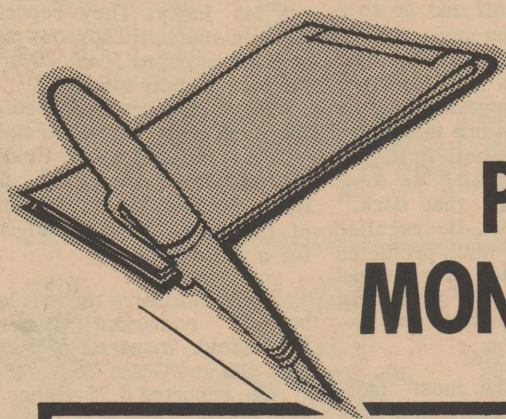

All the men are thankful that you thought of them and appreciative of your efforts

to make this tour over here a little easier.

When a group such as Beta Sigma Phi

'adopts' an outfit we know then that you are behind us and our efforts are not in vain.
So, thanks again from the bottom of our hearts.

Sincerely,

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Exercising his veto power to cut appropriations, Gov. John Connally sliced off \$3,214,121 of the one-year general appropriation bill and killed 37 bills passed by the 60th Legislature.

Nine of the vetoed bills called for total annual expenditures of \$12,819,760 beginning Sept. 1, 1968.

By way of explanation of his line-item vetoes in the appropriations bill, Connally said, "I endorse the actions taken by the Legislature to provide the funds needed to meet the state's increasing services to its people. However, there are several items of expenditures for which money was appropriated that I do not consider essential or justified."

Connally deleted a \$600,000 appropriation which would have allowed the New Texas Research Institute of Mental Sciences at Houston to lease and operate hospital facilities. "This item was not requested by the Department of Mental Health and Mental Retardation in its budget request, nor was it included in my budget recommendations or those of the Budget Board," the Governor explained.

A \$300,000 appropriation for at the Corpus Christi State School also was vetoed. Connally said it was not requested by the MHMR Department or in budget recommendations submitted by the Legislative Budget Board or by Connally. He pointed out that the 1965 Legislature appropriated \$2,224,000 for the proposed school.

Connally slashed \$800,000 off the appropriation for the University of Texas Medical School at San Antonio. "With construction of the medical school and teaching hospital and the recruitment of faculty and staff still in process, the number of students actually enrolled will be limited during the 1968 fiscal year," the Governor said.

"Even after vetoing this item," he continues, "the medical school's appropriation for the 1968 fiscal year will exceed my recommendation by \$685,795 and will represent a 145 per cent increase over the amount appropriated for the current year."

Also vetoed was \$325,000 earmarked to the State Department of Agriculture for expanding market outlets for Texas' agricultural commodities. Connally explained that "The appropriation of \$325,000 duplicated in purpose a major portion of the \$500,000 'special program' appropriation for marketing and market outlet research, quality research, statistical reporting and other programs relating to agriculture."

Other bills vetoed included those extending the curfew for alcoholic beverage drinking until 2 a. m. in the metropolitan counties, doubling retirement benefits for legislators and improvements in state employees' retirement benefits, prohibiting employment of youngsters under 21 in stores which sell beer and liquor, permitting broader powers for the State Soil & Water Conservation Board, allowing the State Comptroller to seize property for tax debts and sell it without court action, setting up special county boards to assess tax values on agricultural land near cities, and granting cities police powers on private property such

as shopping center parking lots.

COSTLY OVERTIME--Extension of the federal minimum wage act to state hospital and school employees would cost state government in Texas at least \$14,000,000 a year, according to Atty. Gen. Crawford C. Martin.

Martin says he intends to keep fighting inclusion of state institutions under the act all the way to the Supreme Court.

Three federal judges in Maryland recently handed down conflicting opinions on the issue but not a final order.

Under the new appropriations bill, all State employees will get more than the required federal minimum wage. Big catch financially is that the federal act also re-

quires time and a half payment for overtime -- or an hour and a half compensatory time off for every hour of overtime worked during the same pay period. Texas employees get compensatory time off (no cash) on an hour-for-hour basis.

CAR INSURANCE--Careless Texas drivers will pay more for their car insurance on policies written after July 31. They will be charged more because of their accidents or traffic law violations during the nine months which ended May 1.

Penalties which range from 15 to 90 per cent, depending on the number and importance of the law violation -- will add up to \$6,439,362 during the year starting August 1.

These penalties, feeding that much more money into the auto insurance "kitty", will prevent rate increases for most drivers.

The State Board of Insurance held its annual auto insurance rate hearing and got a staff recommendation for a general rate reduction of one per cent in insurance rates. It varies from area to area, and from classification of cars and drivers.

There would have been a general rate increase had it not been for the more than \$6,000,-

000 in penalties which will be charged against the drivers who violate the law and have accidents.

The board also took under consideration a proposal that high school and college students whose grades average B or better be given a 25 percent insurance rate reduction. State Farm Insurance Co. started such a program in 1962. It found that students who make high grades drive less and have fewer accidents. Hence it is a valid basis for lower rates for those who make the honor roll or the dean's list.

COLLEGE TUITION-- Instead of doubling tuition as requested by the Coordinating Board of the Texas College and University system, the Legislature made it easier for poorer youngsters to get tuition and fee exemptions.

Exemptions would go only to students from families with gross incomes of \$4,800 a year or less. No student would be allowed to attend college more than six years under the exemption plan.

To be eligible, students must be graduated in the top 25 per cent of their high school classes, or score in the top 20 per cent in a nationally

standardized college admission examination.

DIPPING NO LONGER REQUIRED-- Panhandle cattle no longer must be dipped before shipment to California.

Dr. S. B. Walker, director of Texas Animal Health Commission said the West Coast has removed the requirement since inspection of Panhandle herds during last winter showed no evidence of scabies. Herd owners in nine Texas counties and north and west of them need only permit and health inspection certificates for California shipment: Yoakum, Lynn, Garza, Kent, Terry, Stonewall, King, Cottle and Childress.

ATTORNEY GENERAL RULES-- State agencies charged with providing services to the handicapped may spend money under contract for specific programs and projects conducted by non-profit groups, Atty. Gen. Crawford C. Martin has held.

In another opinion, Martin concluded that the value of an indebtedness secured by mortgages against real estate in Canada held by a resident decedent of Texas should be included in his estate when computing inheritance taxes due.

Bursitis -- What It Is

Sometimes it's "housemaid's knee." Or "policeman's heel".

By any other name it's still bursitis, and it is one of mankind's more painful and disabling ailments.

Bursitis, says the American Medical Association, means inflammation of a lubricating sac about a joint. The sac, called a bursa, is similar to a collapsed balloon with some fluid inside. It is located at various places in the body where joints or tissues touch and rub, and without cushioning there would be friction.

Bursitis can hit at many points in the body, but most often occurs in the shoulder, elbow or knee.

In almost every case bursitis follows unaccustomed strain or overuse of an extremity. By taking a little time to work up to your physical condition, and especially by working up the muscles that you plan to use in any repetitious motion outside your normal activity (strengthening your wrist and arm before starting to paint the house, for instance) you can probably keep clear of this common and painful ailment.

If you get bursitis, no one need suggest that you see a doctor. The pain is so acute that you will be the first to seek relief.

In recent years science has learned much about bursitis, and there is much your doctor can do to relieve the pain and promote healing. One of the mainstays in treatment is a mild pain killer. The newer cortisone-type drugs have been used with some success. Heat treatments also have their place in bursitis therapy. In extreme cases surgery may be required.

A treatment long used in this painful ailment is complete rest in bed. Anything that will lessen the chance of the afflicted joint being moved will ease the pain and speed healing.

KITCHEN KORNER

By Lela Gallion

Vegetables and fruits are beginning to get ready to eat and can. Don't they taste better when they are fresh!

The weather has been so humid it is very hard to make yourself cook the foods we should eat and sandwiches and hotdogs have certainly been a quick and easy food for these busy times but sometimes we just have to prepare a more healthful meal.

Here is a couple of easy and not too much effort recipes.

HUNGARIAN POT ROAST

4 lbs. boned beef roast
1/4 c. flour
3 T. shortening
3 tsp. salt
1/2 tsp. pepper
1 1/2 tsp. caraway seed
2 medium onions, quartered
1 1/2 to 2 c. tomato juice
1 pkg. egg noodles

Dredge roast in flour and brown in fat. Combine all other ingredients and add to meat, covering and simmering over a low burner until done. If gravy becomes too thick, thin with either water or tomato juice. When done, pour gravy over hot buttered egg noodles.

PANAMA CREAM ICE BOX DESSERT

18 Panama creams (chocolate oreo cookies), crushed
1 c. butter
2 c. powdered sugar
3 egg yolks
3 whites of eggs, beaten
1 c. chopped nutmeats
1 pt. whipping cream

Place half of crushed cookies in bottom of pan. Combine butter, sugar, egg yolks and nutmeats. Fold in stiffly beaten egg whites. Spread mixture on tops of crumbs. Whip cream and add a little sugar. Spread on butter mixture and sprinkle on remaining crumbs. Chill at least 6 hours before serving.

DIVINITY ICING FOR PIE

1/2 c. sugar
1/2 c. white syrup
1/2 c. water
2 egg whites, beaten

Combine sugar, syrup and water and boil until a soft ball will form in cold water. Beat whites of 2 eggs until stiff but not dry, and pour syrup slowly over. Beat until thick and pour on top of pie. Put in oven and brown, or can be used without browning. Coconut or nuts may be added if desired.

On these rushed days try splitting buns and weiners, put a long piece of cheese in center of weiner, wrap in aluminum foil and put on barbecue grill. Serve with salad and potato chips and a fresh fruit plate for dessert—quick, nutritious and easy.

Here is a cookie bar recipe sent me to share with you. Hope you enjoy it as its delicious.
