COTTON HARVEST is underway in the Hart area. However, according to area ginners the season is going to be very short. Some estimate it more than half through now with only 544 bales ginned by the gins in Hart.

Salvation Army Drive To Start In Castro County

The annual subscription campaign of the Salvation Army Service Unit of Castro County will get underway with a kickoff breakfast at 7 a. m. Thursday, Nov. 30, in the Colonial Inn in Dimmitt. Goal to be raised is \$1800, according to Gil Muddell, who announced campaign plans.

Bob Murdock of Dimmitt, well-known civic worker, will be countywide campaign chairman. Funds will be used for the support of the Castro County Service Unit during the year.

Assisting with solicitation will be 70 volunteers from Castro County. Members of the county unit are Raymond D. Wilson, chairman, L. C. Manning, vice chairman, Bob McLean, treasurer, Earl Brock, welfare secretary, Jud Cartwright, the Rev. Weldon Mc Cormick and the Rev. Weldon A. Skinner, all of Dimmitt; Joe Warren of Nazareth; and the Rev. Fred Brown of Hart.

The committee's function is to offer aid to anyone regardless of race or creed. During the past year, the committee gave assistance to 406 men, women, and children. Aid consisted in providing groceries, medical care, clothing, lodging and transportation.

In addition to local welfare work carried on, the committee assisted with all state services of the Salvation Army wherever and whenever needed. Some of these services include aid at home, support of hospitals for unwed mothers, locating missing persons, emergency disaster relief and summer camp for boys. Each June four county boys attend this camp. Weldon Skinner is Castro camp chairman.

Ninety cents of every dol-

lar given to the Salvation Army stays in the state for the welfare program. The Salvation Army and its volunteers were in the Beulah area during the hurricane and will remain as long as there is need.

Anyone who is not contacted by volunteer workers during the drive and would like to support this worthy cause may mail a check to Bob McLean, treasurer of the Castro County Service Unit, First State Bank, Box 7, Dimmitt, Texas.

USDA Recommends Less Potato Acreage In 1968

Texas growers of early and late spring potatoes will plant slightly less acreage in 1968 than in 1967 if suggested guidelines of the U. S. Department of Agriculture are followed.

Plantings of 3,910 acres of early spring potatoes, down 2 percent from last year, and 6,270 acres of late spring potatoes, down 4 percent, have been recommended. This would amount to an estimated production of 270,000 cwt. of early spring and 602,000 cwt. of late spring potatoes.

For individual states, the 1968 acreage-marketing guides range from the same acreage planted in 1967 to a 5 percent reduction.

Recommended total plantings nationwide figure at 138,450 acres--2 percent less than in 1967. With average yields, probable production of 27.6 million hundred-weight would offer just enough, without excess, for market needs, points out John

Cotton Slowly Coming To Gins

Reports from Hart gins show that cotton is slow coming in around Hart, and that due to the large amount of hail the yield will be considerably less than in other years.

Gin managers say that there has not yet been enough cotton ginned at this time to tell what quality and grade the cotton is yielding.

Approximately 544 bales of cotton have been brought in here.

Beta Sigma Phi To Wrap Gifts For GIs

Chi-Psi Chapter of Beta Sigma Phi will meet November 29 in Fellowship Hall of First Methodist Church to wrap gifts for servicemen of this area who are in Vietnam.

Members are asking for donations of gifts. To help those who want to give, the chapter has made the following list of items that servicemen like and request, compiled from their letters to their parents:

Shaving lotion or shaving cream in a plastic or tin container, dried fruits, cookies, candy (the one cent candy bars wrapped individually are good), peanuts in the shell or tin, peanut butter in tin, cheese in tin or spray-on can, pre-sweetened jello, and dried soup mixes.

The only things that cannot be sent are razor blades or knives. Chapter members also would appreciate money to help defray postage costs.

Chi-Psi Chapter met Thursday, Nov. 16, in the home of Mrs. Doug Higgins with Mrs. Melvin Aven, co-hostess.

A program on "Verse Making" was presented by Mrs.

Theron Morrison and Mrs. Tom McLain. Twenty-two members were present.

The next meeting of the chapter, a Christmas program will be December 14 in the home of Mrs. W. T. Sanders.

Rice Is Student Council Head

Danny Rice was recently elected president of the Student Council of Hart High School for 1967-68.

Other officers named were Iona Clevenger, vice president, and Rebecca Futrell, secretary-treasurer.

Council members elected from the four high school classes are W. A. Hawkins and Linda Popejoy, seniors; Joe Quiroz and Reba English, juniors; Danny Smith and Pam Shive, sophomores; and Donnie Shive and DeRhonda Brown, freshmen.

To be a member of the Student Council, candidates must enter a regular political campaign and are then elected by vote of the student body.

Rep. Bill Clayton Seeks End Of DST In Texas

Representative Bill Clayton of Springlake asked Governor Connally in a letter this week to include a Bill to exempt Texas from Daylight-Saving Time in the upcoming special session of the legislature.

Clayton stated that the people of Texas having tried D. S. T. for one year disapprove of the advanced time. A Belton poll shows a general disapproval all across the State and several polls taken in this area indicates a great majority of the people here do not like Daylight-Saving Time. Rep. Clayton stated that after a fair

trial of D. S. T. and after having an expression from the people in the District by polls and by personal contact that he would support any action to exempt Texas from the Time Change.

City Council Approves Raise

Hart City Council met and approved a Southwestern Public Service rate increase of 7.62 percent for residential and commercial service in the Hart area.

The new rates will go into effect with the December billing. This is the first general increase in 16 years of service to this area. Other towns in this portion of Texas serviced by the Southwestern Public Service Company have already approved the rate raise.

MR. WEST TO COME

Bro. Dale West of Old Mexico will be here soon to get the Camper that is being built and furnished at the home of Cecil Ray Jones. Progress is being made and they hope to have it ready on his arrival.

FFA Wins First At District

Hart FFA members placed first in the Senior Chapter Conducting Contest at the Plainview District FFA Leadership Contest held in Olton Tuesday, Nov. 21.

Olton High School Agricultural Department was host to the event in which 500 boys from 17 different schools participated.

Others placing in the Senior Chapter Conducting were Abernathy, 2nd; Tulia, 3rd; Matador, 4th; and Nazareth, 5th.

The contests began at 8 a. m. and ended at 3 p. m. District winners will go to the regional contest.

Larson of the Texas Agricultural Extension Service.

This production is slightly more than this year's output, when poor weather reduced the spring crop. However, harvesting was delayed, shipments were bunched and prices under pressure.

Acreage-marketing guides are designed to help growers plan production by suggesting voluntary acreage levels based on the market situation. If the spring potato crop is in line with the guide and if harvest timing is normal, potato supplies will be adequate for all usual outlets, Consumers and Marketing Service analysts said.

C&MS officials said the total market for potatoes is increasing somewhat, with continued substantial consumption of fresh potatoes and growing use of processed potato products.

Any erroneous reflection upon the character, firm or corporation which may appear in the columns of The Hart Beat will be gladly corrected upon being brought to the attention of the publisher.

USDA News Release Number 3611-67, issued November 9 from Washington, advised the cotton world that "Carrying charges will be added each month to the minimum sales price for middling 1-inch cotton, beginning in January and continuing through July, 1968, at the rate of 15 points per pound."

According to USDA the action was taken to "assist the movement of the current crop in the open market without undue competition from Government stocks," and also to permit CCC's resale prices to reflect the "normal upward movement of cotton prices relating to the cost of carrying cotton after harvest."

Officials of Plains Cotton Growers, Inc. are commending the Department for these stated objectives, but have pointed out that the November 9 action will not accomplish them for all cottons alike.

In a letter to Horace Godfrey, Administrator of USDA's Agricultural Stabilization and Conservation Service, PCG Executive Vice President Donald Johnson said "Adding the 15 points per month carrying charges to the middling-inch base price will have no effect at all on the resale price of many cottons in the shorter staples for several months after January."

He referred to the fact that Amendment 7 to Announcement No-C-31, under which almost all of the Government's upland cotton is sold, pegs the minimum resale price of this cotton at 120 points above the loan rate, regardless of the middling-inch resale price.

Amendment 7 was adopted by the Department at the insistence of PCG and others in

September as a means to prevent undue market competition form CCC cotton stapling less than an inch. It insured at least 120 points of "headroom" between CCC's minimum resale price and the loan rate available to producers.

So far it has served its purpose well as virtually all 1967 crop cotton has entered the channels of trade at prices well above loan levels.

But, unless corrective action is forthcoming from the Department, the failure to add carrying charges to this headroom will erode it away, beginning in January, at the rate of 15 points per pound per month.

"It was our understanding in September that carrying charges would be in addition to the 120-point spread between loan prices and CCC resale prices," Johnson said, "but the Department now seems to feel this is not necessary."

And with the strong market price situation now on the scene it does not in fact appear that the addition of carrying charges to either short or long staple cotton in CCC stocks will be necessary to "assist the movement of current crop into the open market..."

"It is our hope that this market strength prevails right on to the end of the marketing year on August 1, 1968 and beyond. If it does we will suffer no ill effects from CCC sales, whether or not carrying charges are taken into account," Johnson said.

Cotton producers on the Plains are in a far better mood than has been seen in many years at this stage of the harvest season.

Lazbuddie Sweet

The Hart Longhorns dropped their final game of the season as they came out on the short end of a 21 to 14 score in a district game with Lazbuddie.

The game was a real defensive battle as a total of only 10 first downs was racked up by the two teams during the evening. Both teams gained most of their yardage and did most of the scoring on only momentary lapses on the play of both defensive units. One can only guess about the final outcome had Hart's defense been in top shape; it wasn't, due to the loss or injury of several key players. If it had been at full strength the outcome would probably have been different.

The Hart offensive might have come from Tommy Gonzales and Danny Smith as these two were the only Hart ball carriers that were able to gain much yardage against Lazbuddie.

Both Danny and Tommy, along with Mark Porter, Clifford Ray and Quincy Hawkins turned in outstanding defensive games.

The game opened with a bang as Donnie Black took a pass from Tommy Gonzales on the first play and romped in for Hart's first TD in a play that covered 78 yards. A two point try failed and the Hart Horns had to be content with a 6 point lead.

For a while it looked like the Lazbuddie Horns were also going to march in for a TD on their first try as Lazbuddie, with Steve Foster, Frank Hinson and Troy Steinbock, ripped the Hart line in a drive that carried to the Hart 4. Lazbuddie really killed its own drive however, as Clifford Ray scooped up a Lazbuddie fumble to stave off an almost certain TD.

Hart found that it could do little with the ball this time and had to go into punting for-

mation at the Hart 12. Quincy Hawkins got off a very short punt that went out at the Hart 35 to give Lazbuddie another chance.

This second chance was all they needed as Derrel Matthews and Frank Hinson alternated blows at the Hart line with Hinson going in from the 4 to tie the score. Lazbuddie failed on their try after and the score remained tied.

The score didn't stay that way long as Steve Foster broke free on a long run that carried to the Hart 8 only a few minutes later. Troy Steinbock hit Mike Casey with a third down pass and Lazbuddie took the lead. This time Troy Steinbock's kick was good and the score was 13 for Lazbuddie and 6 for Hart.

The rest of the first half passed with both teams putting on a defensive battle in the middle of the field.

With the start of the second half the Hart offense began to move as they began to move the ball on their first possession. Two passes from W. A. Hawkins to Quincy Hawkins accounted for most of the yardage as Hart drove from its 25 to a first and ten at the Lazbuddie 17. Danny Smith gained only a yard before a second down pass was picked off at the 9 to stop that scoring threat.

Three plays later Quincy Hawkins returned the favor as he stole a Lazbuddie pass at the 12.

Once again Hart went to the air with Mark Porter now at quarterback, and once again Lazbuddie intercepted with Frank Hinson taking the ball at the 10 and getting back to the 35 before going down.

Things didn't go too well for Lazbuddie at this point and Monte Barnes went in to punt at the 38. Hart really put on a rush with Monte being hit just as he started to kick and the

Lime In Soil Aids Production

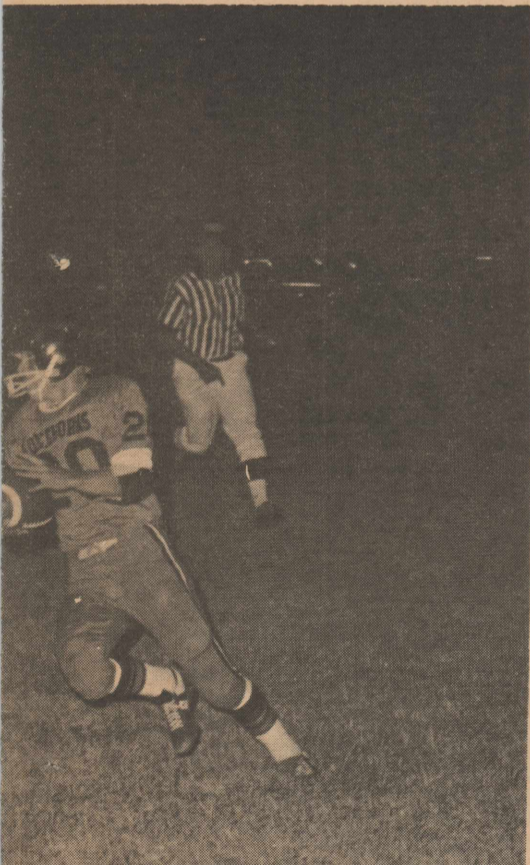

Lime in Soil Aids Production
Add lime to soils in autumn, says Walter L. Haldeman of The Pennsylvania State University. Six months are needed for the limestone to completely react with soil particles.

According to a Penn State correspondence course on soil fertility and management, lime is added to farm and garden soils to neutralize acidity.

Acidity is an inhibitor of plant growth. Reduce soil acidity and plants are more able to reach high production.

How much to apply? Test the soil. County agents, fertilizer and lime companies do the testing. Without a test, put on one ton to an acre, or, five pounds per 100 square feet.

Want to learn more about soil management? Study the Penn State course. Anyone can enroll by sending his name and address with \$2.50 to Soil Fertility, Box 5000, University Park, Pa., 16802. Make checks payable to The Pennsylvania State University.

Spacing Ups Sorghum Yields

Grain sorghum yield increases ranging from 10 to 30 percent have resulted from narrow row and double row spacings in recent trials conducted by the Texas Agricultural Experiment station.

The project was described by M. J. Norris of the Livestock and Forage Research Center near McGregor, a speaker during the annual meetings of the American Society of Agronomy, Soil Science Society of America and the Crop Science Society of America Nov. 5-10 in Washington, D. C.

Norris, an agronomist at the center, said there were no important differences in grain sorghum yields due to planting rates, but there were highly significant differences due to row spacing.

Row spacings of 10, 20 and 40 inches at planting rates of 4, 6, 8, and 10 pounds per acre were used with grain sorghum during a three-year period. Other row spacing experiments were made using a uniform planting rate of 7 pounds per acre, including comparisons of single rows on lister beds 40 inches apart; double rows spaced 12 inches on lister beds spaced 40 inches apart; and grain sown on a flat seed bed with a grain drill spacing of 14 inches between drill openings.

KITCHEN KORNER

By Lela Gallion

Here we are with Thanksgiving already with us and Christmas soon to follow.

It seems as though the years get shorter and shorter. When I was a youngster and in school I thought it was such a long time from one year to the next. Now it's different.

I hope each of you have a very happy Thanksgiving and do pause on this day to give "Thanks" for our bountiful country.

As children we had an orange and apple on Thanksgiving and Christmas and were so thankful for that. Think how much more we all have now to be thankful for.

BAKED CRANBERRY PUDDING

- 2 c. bisquick
- 1 c. sugar
- 3 T. melted shortening
- 2/3 c. milk
- 1 egg
- 2 c. whole cranberries (fresh or frozen)

Heat oven to 350 deg. Grease and flour a square pan, 9x9x2 inches. Mix Bisquick, sugar, shortening, milk and egg. Beat

vigorously 1/2 minute. Fold in cranberries. Pour into prepared pan. Bake about 45 minutes or until nicely browned. Invert immediately onto plate. While warm, cut into squares; serve with hot butter sauce (below). 9 to 12 servings.

BUTTER SAUCE: Combine 1/2 cup butter, 1 cup sugar and 3/4 cup light cream in saucepan. Cooker over low heat, stirring constantly, until smooth.

APPLE PAN BREAD

- 1 c. sifted regular all-purpose flour
- 2-1/2 tsp. baking powder
- 1/2 tsp. salt
- 1/4 c. sugar
- 2 c. Kellogg's Raisin Bran
- 2/3 c. milk
- 1 egg
- 1/4 c. soft shortening

- 1/2 c. sugar
- 2 c. thinly sliced, pared apples
- 1/2 tsp. cinnamon

Sift together flour, baking powder, salt and sugar. Combine Raisin Bran and milk. Add egg and shortening; beat well. Add sifted dry ingredients, stirring only until combined. Spread in greased 8 x 8-inch pan.

Mix together sugar and cinnamon. Dip apple slices in sugar mixture; arrange on top of batter. Sprinkle any remaining sugar mixture over apple slices. Bake in moderately hot oven (400 deg. F.) about 30 minutes. Cut into squares and serve warm from the oven.

Yield: 9 servings, 2 1/2 inches square.

STATE Capital NEWS

By VERN SANFORD

State crackdown on loan abuses in the home improvements field is steadily widening. Consumer Credit Commissioner Frank Miskell issued show cause orders against 16 home improvement firms and 16 individuals, alleging they are lending money at illegal interest rates.

Orders applied to firms in Houston, Dallas, San Antonio, Kingsland and Fort Worth.

"These cease and desist orders were but the initial step which will be followed by other legal actions as part of our comprehensive program to protect Texas consumers from abuse in the field of home improvement contracts," Miskell said.

Companies and personnel were directed immediately to stop any activity in violation of Texas' Regulatory Loan Act or new Consumer Credit Code.

Practices complained if include cash advances on home improvement loans (primarily for debt consolidation) as an inducement for contracts at interest rates over 10 per cent. Some interest rates, an aide to Miskell said, range from 18 to 24 per cent.

A Houston finance company has filed suit in district court here, challenging Miskell's authority under the Regulatory Loan Act to regulate its purchases of discounted notes executed by homeowners to improve contractors.

sion set December oil allowable factor at 40.8 per cent of potential, same as November.

Maximum production of 3,-375,866 barrels of oil is possible under factor.

Three cuts were made in allowables since August when the factor was increased to 54 per cent during the Mideast crisis.

CONSTITUTION AMENDED --Texas' 91-year-old Constitution, as a result of November 11 elections, has six more amendments.

Voters approved all six proposed new amendments.

Also, as a result of the general election, Texas has a new Republican senator, 35-year-old Dallas lawyer Ike Harris. Republicans are in run-off races with Democrats next month in all six districts which have House vacancies. Two of the districts are in Houston, one in Austin, one in the Rio Grande Valley, one in Wharton and Matagorda Counties and the

other in Bailey, Cochran, Hockley, Terry and Yoakum Counties in West Texas. GOP candidates led November voting in all but the Valley district.

COURTS SPEAK--State Supreme Court has set a January 24 hearing on a damage suit arising from a chartered plane crash that may result in new legal guidelines for cases involving Texas citizens killed or injured in out-of-state accidents. Question is whether damage recovery ceiling of Texas or state where accident occurred applies.

High court upheld lower court decisions that Carrollton-Farmers Branch Independent School District could not legally expel two students because they got married.

Montgomery Ward was in-

efficient in handling the charge account of a Danbury lawyer, top state court agreed, but ruled out damages, finding no intentional or malicious effort to harass him over collections.

In another case, Supreme Court threw out an appeal of a driver who claimed suspension of his license was not proper because one of the traffic convictions which suspension was based on was invalid.

Court of Criminal Appeals held that a man who voluntarily confessed murder to police before he was arrested cannot use as defense contention he did not get warning as to constitutional rights on confessions.

ATTORNEY GENERAL RULES -- Atty. Gen. Crawford Martin held that the Department of Public Welfare must furnish monthly reports containing names of those seeking aid to blind to the Department of Public Safety so their drivers licenses can be properly revoked under a new law. Opinion said 1941 law prohibiting disclosure of welfare applicants no longer applies in this particular case but does apply in other situations.

Department of Public Safety, Martin concluded in another opinion, has authority granted

by the Legislature this year to purchase land for subdistrict headquarters in El Paso which already has a suitable building to house operations located on it. Legislature appropriated funds to buy property and construct subdistrict headquarters.

SIX CITIES APPROVE SALES TAX--Voters in seven local elections on November 14 expressed their opinion on a one-per-cent city sales tax. The result: six cities approved it, and one city turned it down.

Approval came from Alpine, Georgetown, Granger, Hughes Springs, Marfa and San Marcos. Tax was turned down in Lufkin.

That brings to 34 the number of cities which have approved the tax. Only three have rejected it. At least 100 more are expected to vote on the question before the end of the year.

SHORT SNORTS--

J. Harrell West of Bishop received Texas Farm Bureau's Distinguished Service Award.

State Bar is pushing for a juris doctor (J. D.) degree for Texas lawyers instead of bachelor of laws.

Delegates are Ed Bennett, Andy Gardenhire, Theron Morrison, Fred Brown, Wamon Foster, Mrs. H. H. Parker and Joe Bailey.

1967 Crop Loans To Be Extended

Wheat, corn, grain sorghum, oats and barley from the 1967 crops which are under price-support loans in commercial storage, will be eligible for loan extensions (reseal) before the respective crop loans mature late in the spring or early summer of 1968, according to Charley E. Hill, manager, Castro County ASCS Office.

All producers who are eligible for price support on 1967 crops will be eligible for reseal in commercial storage or farm storage if approved for the state. Storage costs accruing during the reseal period will be paid by CCC. These payments will be made to farmers who provided farm storage or who prepay warehouse storage charges for the extended period. If warehouse charges are not prepaid, CCC will make these payments for the extended period direct to the storing warehouseman. Payments by CCC to the warehouseman will not relieve producers of their obligation for warehouse charges which accrued during the initial loan period.

Producers may redeem reseal commodities at any time and dispose of such commodities as desired.

Under the 1967 crop reseal program, price-support loans on stored commodities will be extended beyond the 1968 maturity dates until called, CCC retains the option to call reseal loans at any time the stocks are needed.

Storage rates on the 1967 crops now eligible for reseal loan extensions will be announced later and will be available at state and county ASCS offices.

Beet Raisers Hearing Dec. 4

USDA today announced a series of Public Hearings on wage rates and prices for 1968 crop sugarbeets.

A hearing will be held on December 4 at 9:30 a. m. in Lubbock, in the Conference Room of the South Plains Electric Building, 110 North Amarillo Road.

One condition which Sugar-beet Producers must meet to qualify for payments under the Sugar Act of 1948, is to pay

wage rates not less than those determined to be fair and reasonable by Secretary of Agriculture after hearings and investigations.

The Act also provides, as a condition for payment, that producers who process sugar beets grown by other producers, must pay prices for sugarbeets determined to be fair and reasonable by the Secretary of Agriculture.

To obtain best possible information, USDA requests that all interested persons appear at these hearings to express their views and present appropriate data, said Charley E. Hill, manager of the Castro County ASCS Office.
