Revival Meetings.

Few are the communities in Knox and other counties where church revivals have not recently been held. Some are now in progress hereabouts. It is gratifying to note that the number in the state has largely increased over previous years. According to a compiled census the United States made a net gain of over six hundred thousand church members in 1920. This is a marked increase over the previous year. Revivals contribute much to these in-

creases. They, as all things else, begin in a small way and spread. An revival means an increase in membership, serve for the better community in held but affect events and on this reval-

Woman's Christian Association Notes

Report of Methodist Sunday school Present 141; collection \$6.39.

The Woman's Missionary Society of the Methodist church will not meet next Monday as Quarterly Conference will be in session on that day. The presiding elder will be here and dinner will be served at the church. Services all day.

Class No. 3, in charge of Mrs. C. B. Teague, is a very live, wide awake class of young boys. They have just mailed to the missionaries in Japan a nice collection of pictures to be used in the schools and hospitals. This is very fine.

GETTING RIGHT.

The idea seems current that the undersigned has assumed full control of Southwestern Journal, when only half of that assumption is true. Mr. Hammock is still the publisher. I believe him to be a good paper man to be. We shall heartily for a better paper. We shall hope to build up our readers and the citizens generally.

Knox City is a place must have a good paper. The paper "Shoot, Ladd, or give up the gun!" And this we purpose doing. The Journal is your paper and Knox City your town. Here are much to obey, as in us is.

Norris Church Shows Great Growth

Ft. Worth, Sept. 5.—Sunday was the twelfth anniversary of Rev. J. Frank Norris as pastor of the First Baptist church. The rapid increase in membership from about 500 to 5,183, the building of an auditorium that will house that number, and the additional construction of Sunday school and social center buildings forms one of the most interesting pieces of church history in America.

Rev. Mr. Norris worked out a system for building up the Sunday school forces of his church, and set about doing that, regardless of the precedents set by other institutions.

He was one of the first to adopt the radio service, and the organization of classes in other buildings, theatres and so on.

His plans for personal evangelism to be carried on were successful from the start, as were his newspaper advertising ideas also.

Just result is seen in that the Sunday school is now the largest in the world.

The First Baptist church is taught without

Parent-Teachers Ass'n

The Parent-Teachers Association will meet at the school building the first week of school on Wednesday, Sept. 14th, at 4 o'clock. All the friends of the school are invited and urged to be present. This meeting will be a reception to our new teachers. The year books for our P. T. A. are on hand and will be distributed at this time. We are looking forward to a great year's work. Co-operation between parents and teachers is one of the great factors for a successful school. Reporter.

RANCHER WORTH \$500,000 HELD ON VAG CHARGE

Goree, Texas, Sept. 5.—It is pretty tough for a man to acquire a big fortune of nearly \$500,000 by hard work and economy and then at the age of 75 to be arrested and placed in a jail as a vagrant. But that is exactly what happened to him at Amarillo a few days ago, according to E. M. Coffman of Goree.

Coffman is a pioneer Texas cattleman and was returning from his Sherman County ranch when officers arrested him at the Denver Station in Amarillo and despite his protests, was locked up from Saturday night until Monday morning.

Coffman also holds very much property in this vicinity. He had already purchased his railroad ticket at Amarillo when seized. He declares he will prosecute the city of Amarillo and Potter county.

Let it be known unto all by these presents that Thursday shall be The Journal's press day, making it for the best of all concerned. Friday will still be the date of publication or distribution. By this means we are enabled to make the rural routes and mails Friday. Thus the merchant benefits by the paper's reaching the public in time for Saturday's trade. So that you will have Monday and Tuesday and Wednesday to get your news, ads and business in this office which will give us time to make the connection as above. Now, for the fellow who will wait till Friday noon and expect to get something in that week's paper!

"The 1920 motor casualty list made no mention of those who passed away from envy when their neighbors stepped out in a new car."—Star Telegram.

There's a great truth humorously stated. Envy has sold more cars than all the agents. Salesmen may have sold their thousands but envy its tens of thousands.

Economy is on its way. The government is going to cut five bills from a sheet of paper that has only been making four. The principle is all right. The people are not so interested in the bills as in the men who made them.

Chicago ladies are now smoking cigarettes because cigarettes are too mild for them. When the practice becomes general the men will get disgusted and quit and then down goes the flourishing tobacco trust.

Monday was observed as Labor Day generally and locally. This is our only national holiday by legislation all the others being by proclamation. The spirit of the day is well accepted by all classes, as it means a day of rest, contrary to what the name implies.

The Gazette Tribune thus bewails in a paragraph: "We notice some of our neighbor exchanges have been clipping our editorials and news notes and giving credit to 'Exchange' or no credit at all. That is all right, fellows. The Tribune editor has gotten beyond the age of personal satisfaction or self aggrandisement in his editorials, and if there is merit enough in them for you to reproduce them, with or without credit, we are glad to furnish them. Just let the good work go on. We are not in the world particularly for what good we can get out of it, but for the good we may be instrumental in effecting for humanity."

Church Organized.

The Church of Christ of Fife Foundationist congregation who have been worshipping in the Christian church during the meeting conducted by Evangelist U. R. Forrest and Singer Tidlie, concluded their meeting Sunday night with a full house. Arrangements have been perfected whereby a new house of worship will be erected in the next sixty days, several new members being added by the recent meeting and some outside solicitation. The building is being made. The new body starts out under quite favorable circumstances.

The NEW EDIS

Edison, the real artist, listens intently.

Edison this week shows and whistles, in every phase of its unsurpassed beauty.

Bamboschek, principal conductor of the Metropolitan Opera, listened to Muzio sing in comparison with the New Edison's RE-CREATION of her voice, and the following is his signed verdict:

"I have heard a comparison between Miss Claudio Muzio's voice and the New Edison's RE-CREATION by the New Edison. I consider that the quality of Miss Muzio's living voice and the quality of her RE-CREATED voice are identical."

The New Edison is positively the only phonograph that can sustain the test of direct comparison with living artists.

In the home, no matter where they may be, Edison's new invention gives you the world's best music, just as it is heard in the operatic capitals of both hemispheres. The New Edison is the complete answer to Emerson's wish: "Could I only have music on my own terms, whenever I wished the ablation and inundation of musical waves, that are a bath and a medicine."

—the above is only half of it!

It proves that the New Edison brings the real artist—and the real opera to your home. It establishes, beyond doubt or conjecture, that the New Edison is the only instrumentality by which the full beauties of true music can be enjoyed in every home. Now comes a plan by which you can benefit from good music beyond mere entertainment—*Mood Music*.

It Banishes Unpleasant Moods!

Mood Music helps you control your mental and physical well-being. It soothes you when you are nervous. Refreshes you when tired. Cheers you when sad. In a 32 page booklet, this wonderful new way of using music is fully described and over 100 selections are classified according to the effects they produce upon a listener. Fill out the coupon and get your copy of the booklet, "Mood Music".

3 Days of Mood Music Free!

If you do not own a New Edison, we will gladly loan you one on three days' free trial—so you can learn what Mood Music and the New Edison will do for you.

T. P. Frizzell

About Mood Music

Mood Music is the result of a two year research by Mr. Edison into the effects of Music. The psychological work was under the direction of Dr. W. V. Bingham, Director of Applied Psychology, Carnegie Institute of Technology, and other psychologists. The remarkable discoveries, which they made through countless experiments, are now in booklet form for your practical use.

"THE FARMER DIES LAST"

W. J. Bryan recently uttered these words that ought to be read by every city citizen as well as by every farmer. His subject was, "The Farmer Dies Last."

Mr. Bryan said: "In a fight to the death the farmer will die last, if big business thinks it can bleed him without limit it had better consider his resources. When it comes to the pinch he can stand squeezing better than any other class. Food is the first necessity, and he can feed himself. He can raise all he and his family need, but if he raises no more than he needs the rest of the people will starve. The farmer's surplus supplies the world. Suppose the surplus fails?"

The farmer can raise the material necessary to clothe himself and family—wool, cotton and silk, but if he raises no more than the rest of the people will go naked. It is the farmer's surplus material that clothes the world—so, suppose the surplus fails?

"The farmer can, if necessary produce his own fuel. He can raise his own wood; he can burn cobs and even corn if he must, but what will become of the railroads when the farmer neither buys nor sells?

What will become of the men they have no Red

ores, the hills and the

people do when business fails? What will all the

people do when nobody needs them? What? Go to work with their hands and wring a living from Mother Earth—that is the last resort as it was the first.

"Will the middlemen continue to lord it over the producers of wealth, or will they learn that

they must serve if they would live, and serve for a reasonable toll? The flower that blooms in beauty on the roadside should not despise the road. To their work in the dirt, they will live when the flowers only live but flourish in the sun. Maintenance for new flowers, season after season,

So will the farmer; he lives near to Nature's heart, he draws the milk from Nature's breast and Nature will protect him as a mother protects her child. He will be the last to die in the struggle for existence. But why this conflict? Why not love and brotherhood and co-operation? Why not work together for the common weal? Why not justice to each and all?"
