

A. B. LOWERY DIED FRIDAY IN MINERAL WELLS

Henry L. White received a telegram from Mineral Wells last Friday morning about 10 o'clock, stating that his wife's mother, Mrs. A. B. Lowery, had died. Mrs. White, B. B. Denton, Porter Lowery and A. Lowery, Jr. left here about 1 p. m. Friday for that city.

Mrs. Lowery had been in poor health for several years, having gone to Mineral Wells about three years ago for her health, and her health had been much improved since she had been there. Only about a week before she died Mr. White received a letter from her, in which she stated that she was getting along real nicely, and the news of her death came as a shock to all.

At this time no particulars have been received here as to the cause of Mrs. Lowery's death.

J. R. Wooley and family returned home on Wednesday of last week from a visit to relatives and friends on the Plains. Mr. Wooley reports crops in that part of the state looking good and fruit very promising. He says copious showers visited that country all the time they were out there and everything is in fine shape. He says they didn't go in an auto, but in a wagon, drawn by a one-eyed horse and a "crazy" mule, and that they went there and back without a single "blowout" or other misfortune and had a good time generally.

Mrs. J. A. Beasley, living in north part of town, had a very painful accident last Saturday morning. Just after the heavy shower that fell that morning she started to step out of the house when she slipped and fell, breaking her hip. Medical aid was summoned and she went to bed, and has not been able to get up since. She is informed.

GOOD PROGRESS ON ROAD WORK

Indications Are That Construction of Good Roads in the District Will be Rapidly Completed.

Through the courtesy of Mr. T. P. Frizzell, the editor of The Journal made a trip Tuesday afternoon out north of town, over the stretch of good road that is now being constructed. The work is being done under the direct supervision of Highway Engineer L. Nolan, who is thoroughly familiar with the best methods of road construction. The road is being graded, and those parts of the road that need a hard surface will be gravelled sufficiently to make them substantial and durable.

Already there is a great difference in the road between here and the river, and the work is only started. Good progress is being made, considering conditions, and with more teams and more men, as soon as they can be secured, more rapid progress will be made with the work, and it looks now like the work will be completed in a comparatively short time.

The road leading north to the river will be completed first, after which the other roads throughout this road district will be constructed in the same manner. Gravel is being secured in plentiful quantities from a pit on the J. P. Clontz farm, just this side of the river. Some labor is being employed as much as practicable, but the work is not going to be delayed any more than is necessary. A great many of those who might be employed in the work are at present engaged in working their crops or are employed by other farmers, consequently it is necessary to employ some help from other parts of the country. But as stated previously, and as mentioned above, home labor will be given preference, but the work will be pushed as rapidly as possible, so that it may be completed in the earliest possible time.

The work is being done with a view to getting the very best results and in a manner that we believe will prove satisfactory and worth the money.

The little daughter of Carl Newson, was slightly hurt Monday by running into an auto at the corner of Central Avenue and Fourth Street. The car was driven by Heils Warren, son of H. M. Warren, and when he saw the little Newson girl and another little girl coming he slowed up, and in an effort to stop the car in a hurry it skidded for some five feet. The little girl did not see the car and as she was "hopping" down the street she ran into the car, resulting in slight injuries. Medical attention was given her immediately and she is getting along all right at this time.

YOUNG MAN DROWNED WHILE BATHING IN BRAZOS SUNDAY

Riley Brothers, aged about 23, living between O'Brien and the river, accompanied by two of his brothers, a brother-in-law and a boy named Price, went to the river, about 10 miles west of O'Brien, Sunday, and they had gone in bathing when Riley was drowned. They had not found any water over about two feet deep until Riley and the Price boy waded down the stream hunting for deeper water. They had gone quite a distance from the other boys when both of them waded off into a dip, apparently about ten feet deep. They came up on a sand or clay knoll, but neither of them could swim and this knoll was washed from under them and they went under the water again. The Price boy came up and was making a desperate effort to rescue himself, but was becoming very weak, when the other young men, who had rushed to their rescue, reached him and took him to land. Riley, who had gone under again, disappeared, and some of those present who could swim went into the river and searched for him, but could not find him. It is said that they could not find the bottom of the river at the place where Riley had gone under.

Firstly Riley was seen some distance below this point. They all went to him, but found that he was drowned before they reached him.

Riley was the only child living at home with his aged parents. His two brothers live in Stamford, we understand.

J. H. Davis says if the Orient Railroad "takes out" Knox City will build a short line to Monday, in order to take care of our cotton crop and feed stuff, and for the purpose of bringing in our oil well supplies and shipping out the products of our oil wells.

ORIENT R. R. MAY SUSPEND

Probable That Road Will Shut Down On or About the First of July.

Wichita, Kan., June 18.—Unless a miracle occurs within a few days, and there is nothing to presage any such happening, the Kansas City, Mexico and Orient Railway will suspend operations on or about July 1, if indications apparent at Saturday's conference between employees and W. T. Kemper, receiver, are borne out.

Representatives of the various employes organizations indicated their unwillingness to accept a voluntary wage reduction of 20 per cent, temporarily as proposed by Kemper and as the road has only \$46,000 available after paying current indebtedness, complete abandonment of the property must be inevitable, Kemper said. When this \$46,000 has been expended, he said, it will be an absolute impossibility to procure further funds.

Other relief from financial pressure, sought from government regulatory bodies has not been forthcoming, and such relief, even if granted, at this late hour, probably will not suffice to keep the road from being shut down, Kemper said.

Eloquent supplications to the employes of the Orient to accept Kemper's plan were made by Gov. W. A. Robert of Oklahoma; Governor Henry J. Allen of Kansas; Allison Mayfield, chairman of the Texas Railroad Commission, and personal representative of Governor Pat M. Neff.

T. Pickett Denton celebrated his 31st birthday Sunday. His brothers, J. J. Denton, Dr. E. B. Denton and N. T. Denton, and their families, took dinner with him, and ice cream was also served in the afternoon.

NEWS REVIEW OF CURRENT EVENTS

Railway Shopmen Taking Strike Vote Because Their Pay Is Cut \$60,000,000.

WALKOUT MAY BE AVOIDED

Supreme Court Deals Organized Labor Severe Blow—France's Refusal to Reduce Reparation Blocks German Loan Plans—Radical Republicans Win Victory in Iowa Primary Election.

By EDWARD W. PICKARD

ABOUT \$60,000,000 having been topped off their yearly pay by the federal railway labor board, the railroad shopmen are taking a strike vote on June 30, on the issue of accepting the reduction of wages. The maintenance of wages on a strike, whose annual wages were cut to \$50,000,000, also are taking a strike vote.

Thus, apparently, the country faces a strike, probably effective in the middle of July, that might come near to tying up its rail transportation. But there is hope that it will not eventuate. An affirmative strike vote and an actual strike are different things, and the vote is but seldom used only as a weapon in the hands of union officials in negotiating. Railroad executives profess to believe that the men will not even vote to strike. A committee of six rail presidents issued the following statement:

"There is no talk of strike among the men," the statement says. "The disturbing statements are prepared by leaders of the unions, whose viewpoint has been distorted by months of efforts before the board to resist the inevitable downward trend of wages. The employees are in the main sincerely interested by taking care of their jobs and their homes, and few employees in any industry have more good reasons for doing so."

"The records show that the proposed scale of wages for the classes of employees involved in the two wage reduction orders already issued practically would restore the scale in effect at the end of federal control in 1928, which carried an increase for these employees of 110 per cent over the wages paid in 1916. The cost of living as shown by the Department of Labor for March, 1922, was 42 per cent above 1916."

On the other hand, R. M. Jewell, lead of the railroad employees' department of the American Federation of Labor, says: "The new wages do not permit a minimum living wage, and they are wholly at variance with the saving wage championed by President Harding and Secretary of Labor Davis." Mr. Jewell and other union chiefs who were in conference in Cincinnati predicted that unions with a membership of 1,200,000 would vote to strike.

Just as in the last previous wage decision by the board, the three labor members dissented, and this time they were especially vigorous in their dissenting opinion.

UNION labor received what it considers another body blow last week in the decision of the United States Supreme court in the Colorado coal mine case. The United Mine Workers of America and certain individuals had appealed from a decision by the United States District

court of Arkansas, approved by the Circuit Court of Appeals, holding them guilty of violating the Sherman antitrust act during a strike in 1914, and imposing damages of \$200,000, which was trebled under the antitrust law. The opinion of the United States Supreme court, read by Chief Justice Taft, in effect sets aside the damages, finding the acts which caused the destruction of property were not incited for the purpose of restraining interstate commerce. But the court also held that labor organizations, even though not incorporated, are not only suable, but are amenable to the Sherman antitrust law, and under it may be prosecuted for restraint of interstate commerce.

Unless it is nullified by congressional legislation, this decision of the highest court in the land will powerfully and widely affect the future relations of union organizations with employers and with the general public.

BRITISH, Italian and Belgian members of the reparations commission voted to enlarge the international committee of bankers that was trying to adjust Germany's financial affairs and to permit it to make its own inquiry into Germany's capacity to pay, ignoring the London schedule. America's unilateral delegate, Roland W. Boyden, though he could not vote, stated that he considered the reparations demanded—\$33,000,000,000—to be too high. France's representative, however, voted in the negative. This created a tense situation, for although a unanimous vote is necessary for the reparations commission to reduce the sum demanded from Germany, until 1926 only a majority vote is needed to give Germany a partial or full moratorium.

The bankers, recognizing that unanimity does not exist among the nations that would be expected to participate in the immense loans they were planning for Germany, decided to give up all idea of an international loan, and so reported to the reparations commission.

Premier Poincare and President Millerand—who, it may be said, are backed up completely by their government—asked a special meeting of the commission, and to it the statement was made that France denied the right of other allies to reduce the French claim on Germany since the amount of reparations has been fixed and apportioned; and that the French government would not consider reduction of the reparations unless the war debts were reduced proportionately. The latter proposition, of course, would put the matter up to the United States, which up to the present has shown no disposition to scale down the vast amounts owed her by other nations. Meanwhile there hangs over Europe the menace of independent action by France against Germany.

EXASPERATED by the continual and increasing warfare in Ireland between the Sinn Feiners and the Ulster folk, the British government has undertaken to resume control of the situation. Large reinforcements were sent to the troops already in the island and vigorous attacks were made on the republicans who infested the border and regions adjacent. The British used airplanes and small war vessels with telling effect. The Free State leaders and the British government are discussing changes in the Irish constitution which the latter demands, and both sides are awaiting the Dail elections, which came on June 16. It has been surmised that the De Valera faction might win more seats because of the bitter feeling aroused by the fighting, and indeed it was intimated that the fighting was instigated for that purpose.

SOVIET Russia, having failed to frighten the rest of the world into giving it large credits, has resumed

its old uncompromising attitude. Foreign Minister Tchikherin, who says he is not going to the conference at The Hague, declares Russia will not recede one step from its May 11 memorandum, which disrupted the Genoa confab. It will make no more concessions, he asserts, and rejects America's demands for additional guarantees as the price of recognition. He said America would recognize the futility of her policy, and then launched into an attack on Charles R. Crane and others whom he accused of assisting the counter-revolutionary movements.

ALEXANDER, king of Jugo-Slavia, and Princess Marie of Rumania were married Thursday in Belgrade in the presence of representatives of nearly every nation in the world. The affair was marked by all the splendor and display of medieval times and the ceremony in the ancient Byzantine cathedral was followed by a great procession of quaintly clad deputations from the provinces, with wonderful floats and pageants. Ordinarily the marriage of royal personages excites only passing interest in these days, but this one is of more importance in that by it are linked the dynasties of three Balkan countries. It serves to strengthen the little entente, and possibly to lessen the danger of future wars in that long turbulent part of the old world.

PROGRESSIVES in the Republican party scored another victory last week in the nomination of Col. Smith W. Brookhart for United States senator from Iowa. Really this was a triumph for the radicals, for Brookhart is rated as more than a progressive. He is a former soldier and a lawyer, residing in Washington, Ia. It was necessary for him to obtain 35 per cent of the primary vote to obtain the nomination independent of the state convention. He got 41 per cent. Chairman McCormick of the Republican senatorial campaign committee says the committee "will join the national committee and the Republican state committee in Iowa to assure the election of Colonel Brookhart. Colonel Brookhart bears the reputation of a citizen of high purpose and high courage and had a fine record of service during the war."

AT LAST the senate has before it the soldiers' bonus bill, as drafted by the finance committee. Chairman McCumber's accompanying report placed the probable cost to the federal government at \$3,845,550,431, spread over a period of 43 years from next January 1. The estimate is based on the theory that 75 per cent of the 4,458,100 veterans who would be eligible for compensation would elect the adjusted service certificate option: 22 1/2 per cent farm, home and land settlement aid, and 2 1/2 per cent vocational training aid.

With reference to financing the legislation, Senator McCumber's report said it was hoped that the reduction in governmental expenditures plus the payment of interest on the refunded foreign obligations would be sufficient to obviate the imposition of additional taxation.

LILLIAN RUSSELL—Mrs. Alexander P. Moore of Pittsburgh—is dead. For years she was the typical American stage beauty, but she was more than that. She was a first rate light opera singer, the helpful and beloved friend of many in and out of her profession, a good newspaper writer and a devoted and hard working patriot in time of war. In recognition of her services to the country during the war she was buried with military honors, and a detachment of marines stood watch over her casket, since she held the rating of gunnery sergeant in the United States navy. One of the most precious figures in American life thus has passed away.

SAYS CALOMEL SALIVATES AND LOOSENS TEETH

The Very Next Dose of This Treacherous Drug May Start Trouble.

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headache, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.—Advertisement.

APPROX 300,000 MEN

JOBS SAYS SHOPMEN VOTING OVERWHELMINGLY FOR WALKOUT.

MAY STRIKE ON JULY FIRST

Clerks, Expressmen and Station Employees Get Notices in Advance of Decision.

Chicago, Ill.—The United States Railroad Labor Board has signed a decision cutting between \$40,000,000 and \$50,000,000 from the wages of additional classes of railroad employees, principally the clerks, station employees, express handlers and signalmen.

The new order which will bring recent wage cuts by the board to \$150,000,000 annually will affect approximately 300,000 men and will be effective July 1, when the maintenance of way and shop employees also will receive wage reductions.

As the order was signed, announcement came from the offices of the railway employees' department of the American Federation of Labor here that the first strike ballots had been returned and that shop employees were voting overwhelmingly for a walkout. The strike ballots were recently sent out by the American Federation of Labor railway department leaders, returnable June 20. Later the time set was advanced to June 25, and it is reported that a strike may be called for July 1. The first ballots received were almost unanimous for a strike, it was stated.

It was also said the Brotherhood of Clerks, Express Handlers and Station Employees have received their strike ballots in advance of the labor board's decision, which will probably be made public soon. This decision will hit the "white collar" forces of the railroad unions.

No decision is immediately in sight for a wage cut for the 85,000 railroad telegraphers, according to the officers of the labor board. This class of employees will not receive a reduction until August, according to best information.

The pending decision is signed by the three railroad members and the three public members. A dissenting opinion by the three labor members will be entered in which the reduction will be criticized as being "unfair and unjustified."

SWEET POTATO GROWERS ORGANIZE AN EXCHANGE

Texas Local Associations Meet and Adopt Farm Bureau Plan.

Dallas, Texas.—Organization of the Texas Farm Bureau Sweet Potato Growers' Exchange, representing a production of 400,000 to 500,000 bushels, was completed at a meeting in Dallas of representatives of twenty local associations. J. A. Murphy of Kilgore was elected president of the new organization; S. M. Monzingo of Crockett, secretary, and J. F. Bagwell of Dallas, assistant secretary.

H. H. Campbell of New Boston, P. J. Dunn of Lufkin and W. H. Collins of Carbon were named members of the executive committee, composed also of the officers. The committee will meet in Dallas Thursday to work out details for handling this year's crop through the co-operative marketing methods of the Farm Bureau.

Approximately 4,000 acres were represented at the initial meeting. The estimated acreage signed up by the association is 5,500. The plan of marketing the sweet potato crop will be similar to that used in the marketing of cotton, watermelons, wheat and other products, for which separate organizations have already been formed. The purpose of the bureau is to standardize production and distribution and the placing of quality products on the market.

Walton Poteet, director of marketing and organization of the Farm Bureau, presented the exchange plan to the representatives, which was adopted. The representatives were from the three producing sections of the State, northeast, southeast and west.

Bakhtmetoff Tells President Goodbye

Washington.—Noris Bakhtmetoff, who has been the accredited Russian Ambassador in Washington since July 5, 1917, and was notified a week ago by the State Department that his credentials no longer would be recognized by the United States after June 30, called at the White House and said farewell to President Harding. Mr. Bakhtmetoff intends to sail for Europe June 30.

Porter Had Fairly Reasoned as to Why the Books Were Placed Outside the Door.

I had been tramping through the Virginia mud all day, and stopped at the little inn. I was tired and immediately went to my room, a small one with a large bed occupying most of the space. As usual, I placed my shoes outside to be cleaned. Next morning there they were, as muddy as the night before, and being number twelve, they carried considerable soil. I went down to the lobby, and in order to teach the porter a much-needed lesson I called him up before the onlookers who were sitting in the office.

"Why didn't you clean my shoes, boy?" I asked gruffly.

"I didn't know you wanted 'em cleaned, sah," was the reply.

"Why in thunder do you reckon I put 'em outside the door?"

"Well, sah, I allowed there wasn't room inside for 'em, sah," was the answer.—Exchange.

SAVED SHOPPERS FROM BEES

Potent Magic Exercised by California Constable Earned Him Vote of Thanks From Women.

We have all heard of the snake charmer, but a bee charmer is the latest.

To Constable Al La Cunha of Hayward, Cal., goes the medal. Alope and unaided, La Cunha rounded up a swarm of angry bees and conquered them without a single sting.

The bees in question, having outgrown their dwelling of ten years over the shop of Edward S. Warren, swarmed toward the courtroom of Judge Jacob Harder, Jr., through streets filled with women shoppers.

La Cunha witnessed the flight of the bees and then his magic became apparent.

He beat a tattoo with a stick upon a tin can and the bees became "charmed." They ceased their flight and settled on a nearby tree.

The shoppers hearing of his daring, gave the constable a vote of thanks.

Bible Thoughts for This Week

Sunday.
GREAT POWER FROM GOD:—Behold, I give unto you power to tread on serpents and scorpions, and over all the power of the enemy; and nothing shall by any means hurt you.—Luke 10:19.

Monday.
A SURE GUIDE:—Commit thy way unto the Lord, trust also in him, and he shall bring thee forth.—Psalm 138:7.

Tuesday.
THE FIRST AND THE LAST:—I am the first, and I am the last, and besides me there is no God. Is there a God besides me?—Isaiah 44:6, 8.

Wednesday.
REAL PEACE:—Wisdom's ways are ways of pleasantness, and all her paths are peace.—Proverbs 3:17.

Thursday.
GOD'S GOOD GIFTS:—The Lord will give grace and glory; no good thing will he withhold from them that walk uprightly.—Psalm 84:11.

Friday.
THE OMNISCIENT GUIDE:—The steps of a good man are ordered by the Lord.—Psalm 37:25.

Saturday.
NO MORE WAR:—Nations shall not lift up sword against nation, neither shall they learn war any more.—Isaiah 2:4.

A traveling salesman was in Knox City last week and called at The Journal office and informed us that in getting to the city he had gotten lost, and in view of the need of sign boards on mile posts, along the roads leading to our town. These mileposts would indeed be a benefit to the town, and would at the same time save traveling men and others trying to come to Knox City much annoyance and loss of time. What say you, business men? Don't you think it would be a wise investment to place signs along the roads, telling the people the way to your city?

Keep us the news.

We are informed that Mr. H. Hackfield, who owns a threshing machine, is threshing out from 30 to 33 bushels of wheat to the acre in the Knox City vicinity, the wheat of Homer Bohannon making 33 bushels. This is a fine country, and while it makes good cotton, too, it is not a one-crop soil, as we have seen in some parts. Come to Knox County and Knox City.

Prof. and Mrs. Boyd M. McKeown arrived in Knox City Monday and spent the night in the home of Mr. and Mrs. Veazey. They will make their home here and Prof. McKeown has been employed as superintendent of the Knox City Public School for the next term. He formerly held this position, but has been away from here for some time.

TIP FOR A SALESMAN

"You don't have so far to come to work now."
"Nope; moved."
"Take the new place better?"
"Yep. Old place was next to a saw sharpening emporium, and I didn't like their filing system."—Retail Ledger, Philadelphia.

PLENTY OF HER SORT

"Have you any qualifications for a screen career, miss?"
"Well, I shot a man and was acquitted after a spectacular trial."
"I mean any unusual qualifications"—Birmingham Age-Herald.

RING OFF!

"I presume," said the conceited fellow, "that you will be glad to have me call again soon?"
"You do," replied Miss Sharpe.
"I do—what?"
"Presume"—Sheffield Telegraph.

DR. J. M. GREEN
DENTIST

Wishes to announce his return to Knox City.

—the first improvement on leather as a soiling material in 2,000 years—a soiling material proven its superiority in every part of the United States for men, women and children. There is no other sole like PANCO. It is flexible, ground-gripping, absolutely waterproof and outlasting the finest oak-tanned leather two to one. Ask W. W. McCarty, at the Electric Shoe Shop; he'll tell you all about it.
