Local Cafe Reopens With New Owner

Located in the building formerly occupied by Lone Star Cafe, Honest John's Cafe will open for business at 5:30 a.m. on Friday, September 11.

The business has been purchased by John Averitt of Knox City. During the grand opening on Friday and Saturday, he will give a free soft drink, coffee or tea with the purchase of any meal.

Opening at 5:30 each morning, the cafe will remain open until 10 p.m. Monday through Thursday, and until midnight on Friday and Saturday nights. Sunday hours are 10 a.m. until 8 p.m. Breakfast will be served all day along with other items on the menu.

Phone number for call in orders is 422-4750. The cafe is on Main Street southwest of Munday Elementary School.

Our best wishes to John Averitt in his new business, Honest John's Cafe!

Sell Your Wares At The Arts & Crafts Festival

There are still a few booth spaces left open for the Munday Arts & Crafts Festival to be held Saturday, October 3, in the Munday Elementary gym.

Already a wide variety of artists and craftsmen have signed up to present their wares at Munday's annual display.

Mark your calendar so you won't miss this fun event.

For booth information, call the Chamber office at 422-4540.

Noah Project-North Meeting Announced

Members of the Noah Project-North advisory committee will meet at noon Friday, September 11, at East Side Baptist Church in Haskell.

Members are asked to bring a covered dish for the pot luck luncheon.

MUNDAY MOGUL AARON KISER, #44, looks for open ground at Friday night's football game at Haskell. The Indians made their one and only touchdown of the game during the first quarter. The Munday Moguls held them back the rest of the game, but couldn't seem to get across their goal line. The final score was 7-0 in favor of the Haskell Indians. Munday will take on the Holliday Eagles this Friday night at 8 p.m. in Munday.

Have You Reserved Your Football Seats?

Those wishing to keep the same football stadium seats as last year have until this Friday, September 11, to reserve their spot before they go on sale to the public at halftime of the football game.

Mogul Boosters are once again listed on the back of the football programs this year. If you have not been contacted to pay your \$10 booster fee, you may do so at the game Friday night. Also, if your name is on the list and you no longer wish to be included, you can let one of the Booster members know who are working at the table selling reserve seat tickets by the stadium ramp.

The Munday Boosters would like to thank everyone for their support in the past, and are looking forward to your continued support in the future.

Rick and Jeffery Bridgewater of Ovilla, and Mary and C. H. Herring and Tonda, Ricky, Stetson and Sterlyn Deubler of Breckenridge visited Elaine Gulley last weekend.

Knox County Cotton/Peanut Tour To Be Held

The Knox County Cotton/Peanut Tour will be held on Friday September 11 beginning at 8:30 a.m. at the Texas A&M University Vegetable Research Center in Munday.

The tour will show demonstrations including cotton and peanut varieties, peanut fungicide demonstration, irrigation management of cotton and peanuts, use of LEPA irrigation and the Seymour Aquifer project.

The tour is being sponsored by Abel Ag, Ciba-Geigy, Dow Elanco, DuPont and the Knox County Extension Crops Committee.

Participants with Private, Commercial or Non-Commercial Pesticide Applicators License will receive 5.5 CEU's. Lunch will be served.

Open House At Elementary

Munday Elementary School will hold their annual Open House next Tuesday, September 15, at 7:00 p.m.

All parents are cordially invited to visit their children's classroom and meet their teachers.

There will also be a "homework workshop" for parents of migrant children, Chapter I students, and

any interested parents at 7:45 p.m. in the cafeteria. Becky Wall, migrant teacher, will lead the workshop.

Moguls To Host Holliday This Friday

The Munday Moguls will play the Holliday Eagles this Friday night starting at 8:00 p.m. The Moguls fell to Holliday last year in a rain delayed game 6 to 0. The Moguls will try to rally off of last week's loss to Haskell in hopes of finding their first win of the season. Holliday always has a tough fighting ball club and will give the Moguls a good game.

Moguls Receive Loss In Season Opener

An interception by Tommie Isabell ended the Moguls hopes of scoring Friday night against the Haskell Indians and helped the Indians earn their first victory against the Moguls since 1983.

With the Indians leading 7-0, the Moguls recovered a punt on the Indian 38 after a Haskell player unintentionally touched the ball. The Moguls started their way to the goal line with small yardage rushes by Freddie Sosa, Dustin Kiser, Bronco Flye, Jake Jordan, and a pass to Gene Shields. With the Moguls on the 11 yard line Tommie Isabell intercepted a Mogul pass and ran the ball back 35 yards to stop the Mogul threat.

Ray Hernandez received the opening kick-off at the Mogul 16 and carried it down to the Haskell 28. Aaron Kiser then ran around the right end for 11 yards followed by Freddie Sosa for 12 on the next play. Dustin Kiser charged up the middle to put the Moguls on the 2 yard line. On the next play connections weren't made on a hand-off between Munday's quarterback, Jake Jordan, and fullback, Dustin Kiser, and the Indians recovered the Moguls first fumble.

The Moguls defense held the Indians forcing them to punt. The Moguls were unable to move the ball. Haskell received the Mogul punt on their own 37. The Mogul defense, led by Junior Masias and David Tidwell, gave Haskell no where to go on the run, so Haskell took to the air as Mart Guess completed a pass to Tommie Isabell for a gain of 43 yards to the Mogul 22. Two plays later Mart Guess connected to Jonathan Tatum for a 21 yard touchdown pass with 3:55 left in the first quarter. Casey Larned kicked the extra point for the 7-0 lead.

The second quarter was a defensive battle by both teams. The Moguls and Indians traded off with two punts each. The Moguls had another fumble and an interception on their last two drives of the half. The Indians had tried a fake punt but were unsuccessful when the Haskell receiver missed the ball. Both teams went into the locker rooms at half time looking for something that would work.

The Indians started the third quarter with no where to go as the Moguls held them to punt. Munday began the second half off badly. After receiving the punt the Moguls fumbled on the first play. Both teams traded one punt each. Haskell got a break on their next drive when a penalty was called against the Moguls. A fifteen yard penalty against the Moguls on a punt put the Indians on the Mogul 23. A pass to Cody Josselet for 15 yards put the Indians on the 8 yard line. A penalty, short run and two incomplete passes brought up fourth down for the Indians. An attempted field goal by Haskell was missed.

The Munday Moguls hadn't given up yet, the Moguls tried to answer the Indians first quarter score but were unsuccessful. The Moguls fumbled twice more in the fourth quarter. The interception by Tommie Isabell late in the fourth ended the Moguls hopes.

COACH'S COMMENTS

Offensively we could not control the line of scrimmage. Haskell came out in a different type of defense than what we were expecting. We weren't prepared for every situation or for different looks. Our offense had done a great job in the two previous scrimmages against Anson and Stamford. Haskell slowed down our running game so we tried to go the air. We will have to regroup and work on holding on to the football.

Our defense did a great job. It was probably our best defensive game in a long time. We shut down Haskell's running game. Defensive stand-outs were Dustin Kiser, Aaron Kiser, Junior Masias, David Tidwell, Matt Angerer, Jay Nuckols, Ray Hernandez, and Freddie Sosa. Gene Shields and Bronco Flye had a good game on the passing game. I was pleased with the overall performance.

Welcome Packets To Be Distributed To All Newcomers In Area

With so many new faces in town, the Chamber of Commerce Board of Directors has decided to put together a Newcomers Packet of information about local businesses to be distributed to new residents in Munday and the surrounding area.

Carol Cottingham is chairman for the project. Her committee will be contacting area businesses to see if they would like to include information, coupons, novelties or other items representing their business in the packet. Only Chamber member businesses will be included and there will be no charge for participation.

Other information to be included will be a Munday map, West Texas Travel Guide, and other information about local events and places.

The Chamber thought this would be one way to let all newcomers know we are glad to have them in Munday, Texas.

Chamber To Host Reception For Dr. Barretto

The Munday Chamber of Commerce and Agriculture will host a reception honoring Dr. Shirley Barretto from 4 to 5 p.m. on Monday, September 14 at the Munday Medical Clinic.

Everyone is invited to attend and welcome Dr. Barretto back to Knox County and to either renew her acquaintance or to meet the doctor.

MUNDAY FOLKS joined in the Hurricane Relief Effort by donating needed items to be sent to the victims of Hurricane Andrew in Louisiana. Approximately \$2,800 worth of clothes, bedding, food and diapers were taken to two pickup stations in Abilene, the Christian Service Center and the Salvation Army, as directed by the American Red Cross. The Munday Chamber of Commerce sponsored this relief effort. Lending a hand in loading the van were Joann Norman, Paula Schur and Larry Fitzgerald, Hurricane Relief Chairman.

Control Pecan Weevils Now

Pecan weevils are one of the last pest to keep homeowners from producing a bumper pecan crop. Adult weevils presently are emerging from the ground laying eggs in nuts. This will likely continue to mid-September. Anyone with sufficient crop to protect should be prepared to spray.

The adult pecan weevil is brownish, about three-eighths of an inch long with a characteristic long, pointed snout. The female weevil chews a hole in the shell of the pecan and deposits her eggs in the nut. Creamy white grubs with reddish-brown heads (commonly called "red-heads") hatch and feed inside the nuts, completely consuming the kernel.

The mature grubs chew a hole about one-eighth of an inch in diameter in the shell, emerge from the nut and drop to the ground. They burrow 4 to 12 inches into the ground to continue their life cycle.

Determining the most efficient times to spray for weevils is difficult because the time of adult emergence varies. The adult weevil cannot easily emerge from hard dry soil, so weevils usually show up later and emerge over a longer period from unirrigated soil. A good soaking rain or irrigation will allow most of them to emerge within a few days.

At least two sprays are usually needed for good weevil control. The most efficient time of the first spray should be early September. A second spray should follow about two weeks later.

Emergence of some weevils and egg laying have already been occurring, however earlier sprays targeting weevils are not as practical because nuts punctured while still watery inside will abort and drop. Nuts punctured in the dough stage (watery kernel has congealed) do not drop prematurely. The weevil larvae (red-heads) hatch and eat out the nuts between early September and harvest.

Harvesting these hollowed out nuts, often still complete with a red-head, is much less desirable than a premature nut drop.

A simple way to determine whether to spray and the optimum time to spray is to place a white sheet on the ground under the tree and shake the branches above it. If weevils are there, some should fall out on the sheet.

If homeowners find weevils and you have a reasonable good nut set, they should spray.

Sevin is the most effective insecticide against the pecan weevil. Sevin 80 (80 percent wettable powder) should be applied at a rate of 2 to 3 tablespoons per gallon or 2 to 3 pounds per 100 gallons of water.

Unfortunately, Sevin has a serious negative side effect. Yellow aphids tend to thrive after Sevin is used because Sevin eliminates aphid predators more effectively than it eliminates aphids.

If weevils are still attacking by mid-September and no aphid build up has occurred, then spray Sevin at this time also. If weevils and aphids are both a problem at this time, growers might consider using Cymbush, Lorsban or another of the insecticides used for aphid control. These are less effective than Sevin, but they should give reasonable weevil control.

"You have made us for yourself, and our hearts are restless until they rest in you" (Augustine, 354-430). I am planning an October vacation, so I have been thinking about the importance of rest.

Most of us do not get enough rest, do not know how to rest, or are unwilling to take the time to rest. We live in a hectic, fast society. We are taught to measure our worth by how hard we work and how much we produce. Our bodies, our relationships, and our spirits suffer from our idolatry of work.

While camping out on the

Navajo reservation in Arizona, I visited with a group of Swiss campers. The young Swiss teachers and students had quit their jobs and studies for six months of camping in the U.S.A. I told them that I was on a two week vacation. A Swiss college student looked puzzled and asked me: "How can you change in two weeks?" He explained that a vacation is for renewal, change, and a new look at life. I agreed that two weeks of camping only whets the appetite for more. How can we Americans use our limited opportunities for rest for renewal and change?

Jesus invited the crowds: "Come to me, all who labor and are heavy laden, and I will give you rest" (Matthew 11:28). The love of God

is not a reward that we earn through hard work. Jesus taught that God's love is the everlasting arms of the heavenly Father, always supporting us. To respond to Jesus's invitation to rest is to always trust in God's love that Jesus taught and lived.

For example, on anxious and sleepless nights the writer of Psalm 77 cried aloud to God with moans and questions (vv. 1-10). Then God answered, and the psalmist rested: His memory of God's past deeds was calmly restored (11-12), his passion for God was re-fueled (13-15), and his confidence in God's present might was raised (16-20).

Trusting in the God of love enough to cry out in prayer on sleepless nights is one way to beat insomnia. And the Lord who neither slumbers nor sleeps will keep you the next day. A guiding and protective hand will see you to your journey's end (Psalm 121).

Herring Is District Rep For Germania

One of the rights of being a member of a local chapter of Germania Farm Mutual Insurance Association is to be entitled to vote for the representatives to the Supreme Chapter. This year six districts held elections for representatives.

C. H. Herring Sr. of Rhineland was elected to serve a three-year term as director for District #13, Local Chapter #113.

Social Security Offices Have Applications For Food Stamps

Nearly 1 in 10 Americans now depend on the Food Stamp Program to help meet their nutrition needs. Although the program is run by individual State agencies, application for food stamps are also available at Social Security offices.

To be eligible for food stamps, everyone in your household must:

*have, or have applied for, Social Security numbers; and
*be U.S. citizens or immigrants living legally in the United States.

For your household to be eligible, most able-bodied individuals between 18 and 60 years of age must register for work and accept suitable employment if it is offered. Some may be required to participate in employment or employment training programs. Some college students may even be eligible.

Generally, your household can't have more than \$2,000 in resources such as cash and bank accounts. If your household includes a person 60 years of age or

older, the limit is \$3,000. Your home and the lot on which it sits aren't considered resources. Generally, if your car is worth less than \$4,500 it is not counted as a resource.

When you apply for food stamps, you should have:

*personal identification that shows your name and address;
*proof of earnings and any other income such as Social Security benefits, SSI benefits, or a pension for each member of your household;

*proof of your child care costs;
*rent receipts or proof of the amount of your mortgage payment;

*records of your utility costs;
*medical bills for those members of your household who are 60 years of age or older and for those receiving Social Security or SSI benefits due to disability.

For more information about this program, contact your nearest food stamp office or your local Social Security office.

At Your Service

by Dr. Larry Fitzgerald
Minister, Munday Church of Christ

Q: Should parents force their children to go to Sunday School? Won't this make children hate church?

A: If your child comes in muddy and sweaty from football practice and announces that he isn't going to take a bath, do you make him anyway? Do you think that this will make him hate baths when he is an adult? Children and teenagers are constantly testing their parents. Down deep they need to know what is expected of them. If you violate your own religious conscience by saying "it's O.K. to miss church or Bible study" for any reason other than providential hindrance, then you are sending mixed signals.

It's also essential that you take your child to the assembly of the saints... not send him. I've never understood parents who think it's important for their children to go to church and yet their own example disproves the need. (It's like a parent who tells his child not to smoke between puffs of a

cigar.)
In a recent study of adults in the U.S., those who grew up in the church and remained faithful almost always said that they had a parent who forced them to go to church during their lives. Those who tended to drop out of church said that their parents did not make them go.

Forsake not the assembly of the saints (Hebrews 10:25).

If you have a question for Larry, write him c/o Box 211, Munday, TX 76371.

"See You At The Pole" Wednesday Sept. 16th

"See You at the Pole," the largest simultaneous youth prayer meeting in history, is expected to involve about 100,000 Texas students to pray around their schools' flagpoles Sept. 16 at 7 a.m.

The total nationwide is expected to reach 2 million, about double last year's participants, said Chuck Flowers, youth associate in the Texas Baptist Evangelism Division, which launched the youth prayer event in Texas two years ago.

In 1990, its first year, "See You at the Pole" drew about 46,000 students of many Christian denominations. Last year, when the effort spread nationwide, the Evangelism Division received reports of more than 70,000 participants in Texas alone.

Adults joined in, praying around the flagpoles at city halls and courthouses.

"Many student prayer groups were started as a result of 'See You at the Pole,' and the lives of many students and teachers have been changed," Flowers said.

"One of the most exciting discoveries for students is to find that there are Christians on campus they didn't even know about coming forth to take a stand for Jesus.

"Youth and youth leaders are encouraged to point out that this is not a protest rally. It's simply students of all Christian faiths showing others they stand for Christ."

Participating in "See You at the Pole" is the first step in the '1-2-3' challenge which was presented to

students in June at the Youth Evangelism Conference and Super Summer Schools of Evangelism.

More than 20,000 students have made the commitment to accept the challenge which also includes sharing Christ with at least two people a month and praying regularly with two other students, each member of the triplicate praying for three other students.

"During 'See You at the Pole,' students will pray that they can make a difference on their campuses," said Flowers. "Also they will ask God to intervene in Satanic influences that destroy their fellow students' lives through suicide, drug abuse, alcohol and rebellion.

Some students have written to President Bush who is seeking a constitutional amendment allowing voluntary prayer in public schools. They are telling the President, "Why don't you put feet to your faith and join students across the nation in praying for our schools on Sept. 16," Flowers said.

Youth leaders are asked to call 1-800-880-POLE to report involvement at schools across the state.

Bob and Virginia Dickenson of Pennsylvania visited their Aunt Ursel and Uncle Nolan Phillips and Lala Morgan last week. Also visiting Lala was her granddaughter, Elaina Reece, of El Paso. Elaina also visited her parents, Gerald and Gayle Morgan, Tony and Jason, her husband's grandmother in Throckmorton, her in-laws in Knox City, and her grandparents, the Chilcoats, in Knox City.

NOTICE OF COMPARABLE TAX RATES AND REVENUES

The legislature has enacted a statute on school funding to comply with a court mandate enforcing the state constitution. Under prior statutes the tax rate for last year provides \$9,152 per student in state and local revenues. Under this statute that same rate now provides \$9,685 per student in state and local revenues.

State law only requires a minimum tax rate of .975 for County Education Districts. State law does not require a school district to adopt additional taxes. Neither does state law require a school district to adopt a tax rate that maximizes the receipt of state funds.

The board of trustees of the Goree School District hereby gives notice that it is considering the adoption of a tax rate of .35 that will provide \$9,685 per student in state and local revenues.

Dallas Update: Fall/Winter
For clothing this fall and winter the buzz term is "Back To Basics".

We will see more durable fabric than summer fashions and colors will be strong.

Black will be the #1 color with gray mixed in. We will also be seeing a lot of green, teal, violet and blue.

Fabrics will include wools, houndstooth, pinstripe and cording.

Sweaters (with leggings) will be big and baggy. We will also see the fitted sweaters.

Vests will be really big this year as well as "neck ties".

Suits will be a #1 item. Western styles are still in as are hats.

If using accessories with animals - don't go bold.

Yes, fishnet stockings are coming back. (Buy quality here so they won't bag). Trouser socks are also popular with pants on longer skirts.

Blazers in black, navy, camel, and khaki will be seen with jeans, skirts and shorts.

Solid blue denim is more slenderizing than stone washed due to color variations. Solid denim will be more popular this year.

The most important dressing tool you can own is a full length mirror. Study your lengths, styles, color, etc... Everyone can look good in something!

Getting Married? Beware Of Fraud

Women getting married should be on guard for a scam involving Social Security. In fact, anyone changing his or her name, giving birth, getting married or getting a divorce decree could be a target for the same advertising scam.

The ads in question involve the offer, for a fee, to obtain Social Security numbers for newborns, notify Social Security of name

changes for brides, or obtain personal earnings and benefit estimate statements. In addition to losing money unnecessarily, you could be providing these fraudulent advertisers with highly personal information. With it, an unscrupulous person could apply for credit in your name, obtain a driver's license or tap into your credit file.

Changing your name is easy and free of charge from the Social Security Administration. Call a Social Security office or 1-800-772-1213 for information on the necessary forms and proper documentation. You will get a card with your old number and your new name in approximately ten days.

KACY LONGAN

Local Graduate To Star In University Production

Starring and receiving recognition for her performances in a number of Munday High School One-Act Plays, Kacy Longan is continuing her education at Midwestern State University in Wichita Falls.

Kacy recently landed the lead in MSU's fall production of *A Couple White Chicks Sitting Around Talking*. The two-act comedy has two characters, Maud played by Shawna McGovern, and Hanna Mae played by Kacy. The play will be presented in November.

To win the part of Hanna Mae, Kacy went through three days of auditions and call-backs with twenty other actresses.

Kacy also will play Letta in *Death of a Salesman* by Arthur Miller. Besides performing she will be working as a costume designer for the three-act play to be presented in October.

A sophomore Theatre Major at MSU, Kacy performed in last year's fall and spring productions and was nominated for Best Supporting Actress. She was awarded the Fain-Birdwell Theatre Scholarship in June.

She was nominated for Outstanding Freshman at MSU, is a

member of the MSU dance team and a cheerleader for Wichita Falls' Texans professional basketball team. A member of Alpha Psi Omega, she was elected Social Chairman this year.

Last year Kacy was selected to represent MSU theatre on local television talk shows and served on the hospitality crew at the Alan Jackson-Billy Dean concert. Her duties included officially welcoming them to Wichita Falls and staying backstage with the stars during the concert.

She also submitted the winning design for the Residential Housing Authority logo at MSU. Her design is printed on all MSU keyrings and housing publicity and netted Kacy a \$50 cash award.

Kacy was selected to play Mimi the Doll at the Kell House Christmas play *Mimi and the Rocking Horse*. This summer she had her first "paying" acting job. On recommendation from the MSU drama department she was hired as a Mime for the MSU Alumni Ball at the Wichita Falls Country Club.

This summer Kacy was selected as a Top 10 Finalist in the Barbrizon Fashion College Model Search and was featured in a

special fashion show at Sikes Senter Mall where she serves as a Fashion Guild member.

As part of her curriculum offerings this school year Kacy will get a chance to meet Corey Feldman, star of *Gremlins* and *Lost Boys*, and Danny Glover, of *Lethal Weapon* and *The Color Purple* fame.

We're all proud of this Munday High School graduate and wish Kacy Longan the very best as she continues her acting and modeling career and education at MSU.

Teresa Therwhanger Receives Master Of Education Degree

Teresa Therwhanger of Abilene recently graduated from Hardin-Simmons University with a Master of Education Degree with a 4.0 GPA.

She teaches math at Cooper High School in Abilene and tutors at Hendrick Home for Children. Teresa is the daughter of Ann and Bob Therwhanger of Munday and the granddaughter of Mabel Derr of Weinert.

Have a nice day!

ASCS REPORT DISASTER PROGRAM ANNOUNCED

A disaster program has been announced as follows:

1. Phase II Disaster - \$100 million allocated for program crops planted in 1991 for harvest in 1992. This means wheat, oats and barley only.

2. Phase III Disaster - \$655 million allocated for 1990, 1991, or 1992 crops for a year that the farm was not paid under Phase I. Phase I was the disaster program administered last spring. Phase III is applicable to all crops.

Sign-up for Phase II began Tuesday, September 8 and runs through October 2.

Sign-up for Phase III begins October 13 and runs through February 12, 1993.

Points to Know and Remember About Disaster

1. If you filed for the 1991 crop year during the last disaster program (Phase I), you now have the option to choose either the 1990 or 1992 crop year for the current disaster program. If you previously filed for the 1990 crop year you can now file for either 1991 or 1992. However, be advised, if you file for Phase II on wheat, oats or barley, you have locked into 1992 for your other crops under Phase III.

2. If you file and qualify for disaster under the 1992 crop year, you must buy multi-peril crop insurance for the qualifying crop for 1993 if insurance is available for that crop.

3. Insurance is not required if you are filing for the 1990 or 1991 crop years.

4. You cannot draw disaster and deficiency payments on the same pounds or bushels.

5. You have the option to switch back from CU for payment to prevented or failed acreage credit if your crop failed or you were prevented from planting and went 0/92 or 50/92.

6. If your gross income exceeded \$2 million for the tax year prior to the year for which you are filing disaster, you are not eligible for disaster payments.

7. If the dollar amount of the losses exceed available funds payments will be factored. ***

4-H Recreation/Dance Workshop To Be Conducted

The Knox County 4-H and Youth Committee will be sponsoring a 4-H Recreation Workshop on Saturday, September 12 beginning at 7:30 p.m. It will be held at the Knox City Kennel located at the city park and pool on East 3rd Street.

4-H members throughout Knox County are invited to attend the fun evening of games, folk dancing, line dancing and other recreation activities.

Admission to the workshop will be a plate of snacks or liter of soft drink.

Senator Lloyd Bentsen

Watching Washington

Although some of the problems we face today are of our own making, the 2.4 million Texans and Oklahomans who live along the Red River face a problem that has its origins some 230 million years ago.

At that time, the region that is now the Red River basin was covered by a shallow, salt-water sea. Today salt residue from that ancient sea enters the Red River at the rate of some 3,300 tons a day, making the river 3-4 times saltier than the Atlantic Ocean.

This natural pollution threatens the economic prosperity of the region. If something isn't done to halt the salt, the cotton, grains and fruit crops which depend on clean water would be at risk. The salty water that clogs and damages home appliances such as water heaters and engines as well as industrial and public water facilities would have an even more harmful impact.

That's why I pushed for Congress to continue federal support for the Red River Chloride Control Project. Earlier this summer the Senate approved \$6 million I requested for the Red River Chloride Control Project. The House of Representatives supported a similar request by Congressman Bill Sarpalus.

When completed, the chloride control project will remove 65 percent of all natural salt pollution that enters the Red River system from natural salt springs located in the western part of the basin. The 2.7 billion gallons of cleaner water that would be reclaimed each day by the project would provide a stable water source for the community and could more than double the number of acres that could be irrigated.

The chloride control project is a combination of brine detention, injection wells and treatment plants. Among other things, the funds approved this year will be used to acquire land for Crowell Brine Lake Dam and Reservoir and to complete design and planning for the dam.

The Red River is the most promising source of water this area has. If the region is to attract the industry and the people it needs to grow and prosper, the salt pollution must be reduced.

The federal government struck a bargain with Texas and Oklahoma more than 30 years ago. The states agreed to eliminate manmade sources of salt pollution and Washington promised to be responsible for removing naturally occurring salt pollution.

Texas and Oklahoma have so far spent over \$100 million to keep their end of the bargain. But for several years succeeding Administrations in Washington have tried to back out of it. Earlier this year the Administration tried to back out of its commitment to the people of the Red River Basin, but we were able to keep the project funded.

This is the kind of agreement upon which communities and families stake their futures. I intend to make sure the federal government lives up to its end of the deal.

NOTICE - CHECK CASHING POLICY
Effective August 10, 1992, a 1% fee will be applied to all payroll checks cashed. A 1% fee will be applied to all checks cashed in excess of \$25.00 above the purchase. This policy was adopted due to the increasing number of uncollectable checks.
EXAMPLE: A \$300.00 check would be cashed for a \$3.00 fee. A purchase with \$25.00 cash would have no charge. A purchase with \$30.00 cash would have a 30¢ fee.

AVISO - PLAN DE CAMBIO DE CHEQUES
Efectivo Agosto 10, 1992 un 1% (porciento) costo sera aplicado a todo cheque de sueldo cambiado. Un 1% (porciento) costo sera aplicado a todo cheque en exeso de \$25.00 arriba de la compra. Estos planes fueron adoptados debido al numero de aumento de cheques incolectivos.
EJEMPLO: Un cheque de \$300.00 se cambia a un costo de \$3.00. Una compra de \$25.00 en efectivo no se cobra nada. Una compra de \$30.00 en efectivo se le cobrara 30 centavos.
