TRI-COUNTY COTTON MEETING SCHEDULED

Week-end Rain is "Life-Saver" For West Texas

Falls Generally Over West Texas Rain Gauge Says 1.25 Inches in Munday And Vicinity

Meeting with unanimous approval by all Knox county citizens, the rain during last Saturday and Sunday, which has been termed a "life saver for West Texas," has been a much talked of subject during all of this week.

Optimism has taken the place of a pessimistic viewpoint, and Knox county citizens are a finer looking group of people with that great big smile smeared over their faces! The rain started shortly after noon Saturday, with several hard showers creating the hope that beneficial moisture would be received before Mr. Weatherman "called off his operations." It continued to rain through Saturday night, and a wet earth greeted early risers Sunday morning—with the rain still falling.

When clouds began breaking away Sunday afternoon and it seemed that all was over for the time being, Weatherman H. P. Hill stepped out and looked at his rain gauge. It registered 1.25 inches!

Wheat farmers and stockmen who have been deprived of winter grazing thus far because the drought are very optimistic. Prospects, they say, are that the more advanced wheat crops may be grazed within ten days or two weeks after the rain. Some wheat had been planted in dry soil and had not yet sprouted, and this type of wheat farmer is just as happy as those who have looked over their wheat fields and wondered just how much longer they'd last without moisture.

Soil is now in excellent condition for other farming operations, and Knox farmers are going to be happily busy in preparing their lands for 1939 crops.

Business men, too, are more optimistic since the rain, and prospects for the future business are much brighter than when 1939 first appeared on the scene.

It was just a spring rain coming in January—one that found the "welcome" mat prominently displayed on everybody's doorstep!

Haymes Attends Funeral Early Taylor Settler

Lee Haymes Munday postmaster, went to Tye last Friday where he attended the funeral of J. J. Hinds, early settler of Taylor county. Mr. Haymes was accompanied by his mother, Mrs. C. R. Haymes of Stamford, and by Mr. and Mrs. C. D. Hopkins, also of Stamford.

Funeral services were conducted by Rev. G. L. Gilpin, Methodist pastor of Tye, who was assisted by Rev. J. B. Baker of Dress.

Mr. Hinds was 83 years of age, and had been ill only a week. He was born on Alabama on May 10, 1855. He was married to Carrie Salsbury in 1878, and the couple moved to Texas in 1889, settling in Ennis county. A few years later they moved to Taylor county, where they had resided for 45 years. He was an active member of the Methodist church.

Survivors are his wife and eleven children, W. C. Hinds of Midland; S. E. T. J. and A. M. Hinds of Tye; Mrs. A. C. Bell of Bruni, Texas; Mrs. W. H. Briggs of Petersburg, Texas; Mrs. J. O. Haymes of Big Spring; Mrs. J. W. Teaff of Merkle; Mrs. Lee Smith of Fort Worth; Mrs. C. F. Smith and Mrs. Theo Kincaid, both of Tye. One brother, A. M. Hinds, of Blountville, Ala., also survives.

Go To Memphis, Tenn.

Mr. and Mrs. Joe Bailey King left last week for Memphis, Tennessee, where Mr. King is taking a course in diesel engineering. Mrs. King will be in Memphis for about two weeks before returning.

Chas. M. Conner, former county judge of Knox county, was a business here last Monday.

Airview Photo Of Munday In Daily Paper

An airview photo of Munday appeared in Sunday's issue of the Fort Worth Star-Telegram, giving a good view of Munday and immediate territory. The picture appeared in the "Texas From the Sky" feature of the Star-Telegram's pictorial section.

Visible in the photo are such firms as the Munday Compress, Co-Operative Gin, Munday Cotton-oil Company, city hall, First Methodist Church, high school, the First National Bank, the First Baptist Church, West Texas Utilities properties and the Times office.

With their photo was printed the following concerning Munday and Knox County:

"Munday, with a population of 2,000 is one of the most progressive small cities in West Texas. It is located midway between Abilene and Wichita Falls in the heart of Knox Prairie, Knox County. Principal income of the trade territory is derived from cotton, wheat, maize, livestock, dairy products and produce. The city has a cotton compress, cotton oil mill, four gins, two grain elevators and livestock auction barns. Four churches serve Munday. The school are modern and business houses substantial."

P.-T.A. To Meet On January 18th

Members of the Munday Parent-Teachers Association will hold their first meeting of the new year on Wednesday, January 18. The program, which has the theme, "Character Development," is as follows: A Mental Hygienist Looks At Physical Education Mrs. Raymond Jones.

Music, First and Second Grades. The Child and His Music, Mrs. Levi Bowden.

Hostesses are Mrs. Porter Bryan and Mrs. Cecil Barton.

All members and those interested in progress of the schools are urged to attend.

President's Birthday Balls Are Planned In County For January 30; Proceeds Benefit Crippled Children

Boyer Carley, who is chairman of the President's Birthday Balls for Knox County, has announced extensive plans for holding various activities over the county in celebration of the president's birthday.

Funds derived from such activities over the entire nation will go for aid of crippled children—fighting infantile paralysis.

Dr. J. Horace Bass will be chairman of sports activities in connection with the birthday celebration. Dr. Bass this week signified his desire to have some three or four basketball games among county teams between now and January 30, the funds to go into this outstanding philanthropic enterprise. These games will probably be held in various communities of the county.

Cecil Cooper is chairman of the Boy Scouts' part of the activities.

Two Of Texas' New Officials—

Two new state officials who are becoming familiar figures in Austin, are Bascom Giles, newly installed land commissioner, and Gerald Mann, who succeeded Bill McCraw as attorney general of Texas.

Each of the new officials went into office on January 1, 1939. G. Jerry Sadler is another new official, a member of the Railroad Commission.

Plans Being Made For A.A.U. Basketball Meet

Plans are being made for entertaining many "crack" basketball teams in the early spring, when the State A.A.U. Basketball Meet will again be held in Munday. Already inquiries are coming from many teams in this section as to when the meet will be held, and indications are that the meet this year will outclass the one last February.

So enthusiastic were local fans over the interest created in the meet last year that Munday was again successful bidder for the meet. The Quail basketball team, winner of last year's tournament, has already signified its intentions of attending the meet.

Discussion of plans for the meet were held Wednesday at the Lions Club regular luncheon hour. It has been decided to hold the tournament in late February, the dates being Feb. 23, 24 and 25. A committee composed of Dr. J. Horace Bass, Billy Cooper and L. M. Palmer was appointed to complete arrangements for the meet.

Other matters coming before the club included the awarding of football sweaters to the seven players who received letters this year. The Lions Club voted to award these sweaters, and the awards will likely be made soon after mid-term examinations.

Mrs. Dave Eiland Leases Hotel

After six years in the hotel business, Mrs. Dave Eiland has moved out, and has leased her hotel property to Jack Mayes. Mrs. Eiland operated the Munday Hotel for three years and the Eiland Hotel for another three years.

She moved to the home of Dr. and Mrs. D. C. Eiland on Monday, January 2, and will be employed in Dr. Eiland's office.

182 Law Makers

There are 182 lawmakers of Texas which includes membership in both the Texas Senate and House of Representatives.

The house, which has a membership of 151 representatives, has 72 new members this year.

The Senate, which has a membership of 31, has only eight new ones who are mixing with the sons of other terms.

Here From Texas City

Mrs. W. H. Chapman of Texas City, Texas, was in Munday a greater part of last week, visiting her sister, Mrs. A. P. Garrett, and other relatives and friends. Mr. and Mrs. A. P. Garrett returned home with her the first of this week.

Fights Monday Night Won't Be Disappointment

Boy Scouts Promise Good Bouts For Next Event

A boxing event without a disappointment—that's what is promised local fans for next Monday night. The Boy Scouts are sponsoring another series of fight events at the sales barn Monday night, and they're placing a "taboo" on hurting thumbs and forfeiting the matches.

Cecil Cooper and Dr. Glenn E. Stone, local Scout leaders, stated the first of this week that a number of good, fast bouts are scheduled for next Monday night's fight card. Fans are promised the best series of boxing events ever held here.

They believe there won't be a repetition of any such disappointment as experienced the last time, but there will be plenty of action in each bout. And the matches are expected to thrill a large group of enthusiastic fans.

The Boy Scout uniform fund is growing steadily, and it is expected that every Scout in the local troop will be properly attired in a brand new Scout uniform before long, if enthusiasm for these boxing events continues.

Another large crowd is expected to turn out for Monday night's fights.

To Wear Tech Suit—

Measurements for Governor-elect W. Lee O'Daniel's Tech-made inaugural suit were taken last week in Fort Worth by a Lubbock tailor. A double breasted suit will be made up in dark gray hand-woven tweed with pin stripe. The wool was taken from sheep grown on Texas Technological College campus and fed with products of the college farm. The material was secured, dyed, carded, spun, warped and woven, shrunken and finished in the college textile laboratories.

Abraham Schwartz, Lubbock tailor, made a special trip to Fort Worth last week accompanied by A. B. Davis, secretary of the Lubbock Chamber of Commerce, for the fitting.

Delinquent Tax Collections Are Discussed By City Council, School Board In Joint Meeting Monday

Members of the City Council of Munday and the Munday School Board met in joint session last Monday afternoon at the city hall for the purpose of discussing delinquent tax collections.

In view of the fact that there is a considerable amount of money due these two bodies in delinquent taxes, they adopted the following procedure for delinquent tax collections:

1. Not to allow taxes on personal property to become more than one year delinquent in addition to the one year current taxes.
2. Not to allow delinquent taxes on real estate beyond 2 years delinquent and one year current taxes.

As soon as the delinquent tax rolls are completed, the City Council and School Board plan to take steps necessary to collection if arrangements are not made to make

Former Munday Druggist Boosts Auction Sales

The January issue of the Southern Pharmaceutical Journal, published at Dallas by Walter H. Cousins, former Munday druggist, carried a nice bouquet for the weekly auction sales in Munday. Cousins, who writes a personal column in the journal under the heading of "Cuz . . ." has the following to say:

"We cannot help referring to the new auction barn located at Munday, Texas. From recent reports this enterprise is one of the best that has been established by any Texas town. Sales of livestock held there recently make Fort Worth look silly. We have said before that the sales bring people and money to town. That is exactly what every druggist in Texas would like to see in his own town. We believe druggists located in farming communities would do well to look into the establishing of such markets in their own towns. It seems that farmers come to town on sales days and bring with them things for sale or trade. It gets buyer and seller together. He may bring a horse, mule, hog or other farm animal that he does not need and find a buyer, or make a trade that is good for both buyer and seller. The trades need not be confined entirely to livestock. It could be plows, wagons, or other farm implements. We think this is a smart idea, and we hope other towns look into its possibilities."

Walter Cousins is known to every old-timer in Munday. He owned the first drug store in Munday, leaving here about 1910 for Wichita Falls where he was in the drug business for some time. His comments above have brought back conversation of those old days when he was a Munday citizen, and many recall the great character of Walter Cousins.

Thanks for the boost, Cuz.

Bank Holds Annual Meeting Of Stockholders

Officers and Directors Named; Bank Has A Good Year

The annual stockholders' meeting of the First National Bank was held in Munday last Tuesday, at which time officers and directors for the new year were elected.

All officers and directors were re-elected for the coming year. They are: Homer Lee, president; W. E. Braly, vice president, cashier and active manager; M. L. Wiggins, Jim McDonald and C. H. Smith, assistant cashiers. Directors: W. H. Atkinson, W. E. Braly, Homer Lee, C. L. Mayes, C. E. McCutcheon and D. C. Osborne.

The bank reported a good year at this meeting, and substantial dividends were paid to the stockholders.

The First National Bank is one of the strongest banks in this section and the statement published this week shows the bank to be in excellent condition.

BERTHA McNEILL NOW WITH CLERICAL STAFF OF WICHITA FALLS CLINIC

Miss Bertha McNeill, daughter of Mr. and Mrs. W. E. McNeill, who reside south of town, has joined the clerical staff of the Wichita Falls Clinic Hospital. She went to Wichita Falls last week, where she reported for duty.

Miss McNeill is well known in the Munday area. She did clerical work for the Pendleton Cotton Company here for several years.

Dr. Glenn E. Stone went to Wichita Falls last Saturday afternoon where he attended an optometric study group meeting. He returned home Sunday.

Specialists To Speak on Cotton Staples, Etc.

Meeting Will Be Held At Local School January 20

A tri-county agricultural meeting for Knox, Baylor and Haskell counties will be held at the Munday school auditorium on Friday, January 20, it has been announced here by farm leaders.

The meeting, which will open at ten o'clock Friday morning, is being held for the purpose of discussing betterment of conditions of farmers' agricultural crops. It is being sponsored by the Extension Department of Agriculture, Washington and A. & M. College. Locally the meeting is sponsored by the Munday Better Cotton Club.

P. K. Norris, senior marketing specialist of foreign markets, of the agricultural service division, Washington, D.C., will be the principal speaker. Other speakers will be here to discuss the needs of better markets for the farmers' staple crops, which is cotton, and further explain the benefits derived from one-variety cotton communities in the past. It is their intention of finding ways and means of expanding the same service.

This meeting was called through the cooperation of county agents of Knox, Baylor and Haskell counties and all who are interested in better conditions of the farmer are urged to be present.

Hatchery To Have Supply Of Red Chain Feed

Appointment of The Munday Hatchery as local distributors of Red Chain Feeds was announced on Wednesday of this week.

A large supply of the feeds is expected this week, and arrangements are being made to serve the people of this territory conveniently and quickly. Concerning the feeds, George Rector manager of the hatchery said:

"Red Chain Feeds are made in one of America's finest mills—the Universal Mills at Fort Worth—and are farm tested thus assuring you of greater net returns on your feed investment. We invite you to purchase Red Chain Feeds and compare them with any other feeds on the market."

Erysipelas Is Found In Swine Of This County

Dr. F. O. Both, chief veterinarian of the Livestock Sanitary Commission, spent last Monday in Knox county diagnosing sick hogs with swine erysipelas.

Visits were made at Truscott, Goree and Vera, to farms that had recently made purchases of feeder pigs. In every case investigated, swine erysipelas was found, and one case of hog cholera was found.

"Everyone knows the dangers of hog cholera," Mr. Booth said, "and swine erysipelas is considered more deadly to hogs than cholera. Swine erysipelas is a deadly contagious disease of swine characterized by fever, diarrhea, a discoloration of the skin of the abdomen, with a loss of appetite."

Mr. Booth stated to County Agent Rice that in all probability most of the hogs were exposed to the disease, or had been sold from farms where outbreaks had already occurred in East Texas.

The sick hogs can be vaccinated with anti-erysipelas serum with good results, if treated in the early stages. Premises should be cleaned and disinfected as the germ will live in the ground indefinitely, similar to blackleg in cattle.

The disease is also communicable to other livestock and to people. It can become very serious if care is not taken to cure and prevent its spread.

Mr. and Mrs. Grady Roberts left last Friday for Austin where they will make their home during the present session of the legislature.

Mr. and Mrs. J. A. Caughran visited relatives and friends in Wichita Falls over the week-end.

New York—Painting buildings of the New York Austin Fair 1939, which is being carried out in a plan following the tints of the rainbow, will require a total of 200 tons of pigment.

"What a Man Does For Himself Dies With Him— What He Does For His Community Lives On and On"

FOR WE, THE PEOPLE—

The new Congress convenes in Washington this month. It will be the sixty-seventh since that body was created by the United States Constitution 151 years ago. Its duties will not be unlike any Congresses of the past—legislating in the best interest of all the people. And that is the case in point.

In the past few years many new laws have been written into the rule book of economic life. Doubt has been raised that some of them are in the best interest of all the people. In the main, the objectives of many of these laws have been worthy, but they were conceived and written so hurriedly that they have blocked their own supposed objective—that of bringing recovery. Or perhaps the objectives have been too Utopian, and we should know by now that we cannot legislate our way to Utopia any more than we can spend our way out of debt.

It would be wishful thinking to suppose that Utopian schemes are at an end. There is always someone with a cure-all panacea and seemingly always someone willing to listen to it. Already some of the Washington theorists are reported drafting more cure-all measures for presentation to Congress this month.

What attitude the new Congress will take toward these chasing-the-pot-of-gold-at-the-end-of-the-rainbow schemes is yet to be seen. It is to be hoped the Congress will see the folly of the fantasy and get down to the task of making some of the present laws workable.

That would be in the best interest of all of the people.

MR. EDEN'S MESSAGE

Americans should give a lot of thought to the message Anthony Eden brought to America. And when the thinking process is complete Americans should feel reassured that America, is not, after all, the only stronghold of individual freedom.

Mr. Eden's message is simply this: Free government will never fade from the British Empire for the reason that the English know it is far better than of the totalitarianisms.

The significant and reassuring part of that statement is not in that it suggests defiance of the isms. Rather, it is that England's millions of citizens, living close enough to the ism countries to weigh comparative values, are steadfast to their way above all other systems.

Americans, fortunately, have not had to live so close to Fascist and Communist neighbors to learn the fallacies of the isms and to discover democracy's virtues. Instead, Americans have had the undistorted picture presented by a free, uncensored press.

Yes, it is good to know that we in America are not alone in our decision that freedom is still better than any Utopian ism yet dreamed of by man.

COTTON GIFT TO FARMERS

It is encouraging that the Federal Government at last sees that the way to get rid of cotton surpluses is to use the cotton. Filling warehouses with cotton surpluses and withholding it from market under the mistaken assumption that in that manner it will not depress the price certainly have not solved the South's No. 1 Problem. The recently announced approach to solving the cotton surplus problem by subsidizing manufacturers to produce cotton fabrics at greatly reduced prices and to distribute these among families now on relief seems to point the way to reducing the American carry-over now estimated at around 13,500,000 bales.

Many students of the cotton problem have wondered why the Federal Government long ago has not launched a south-wide campaign by which every cotton pillow and mattress on cotton farms and in rural districts generally would be replaced with new bedding. Each mattress would consume fifty pounds of clean, new cotton and the total consumption, if every state got behind it might reach 2,000,000 bales. That would reduce the Government's stock of loan cotton substantially. The capable home demonstration agents in every southern state working through the farm women and 4-H clubs in every farm locality can be mobilized to do one of the most important jobs for cotton by assisting in its mass use on cotton farms.

Secretary Wallace in his Fort Worth address charged cotton growers with being the smallest consumers of cotton. This situation can be changed overnight if the price of cotton goods is reduced or if the Government makes up its mind to put a few million bales into channels by which the household of cotton farmers will benefit. A program of this kind will do much to bring cotton prices to higher levels. Cotton must be used.—Dallas Morning News.

For the moment, when the Italian populace cried under King Emmanuel's balcony for restoration of colonies taken by France, he felt himself every inch a dictator.—Pittsburgh Post-Gazette.

The colleges are more democratic than they used to be. Twenty years ago an undergraduate who couldn't boast of a coonskin coat was a nobody. Today the only sartorial demand for campus success seems to be coats and pants that don't match.—Salina Journal.

Treasures in life are those things we see through enlightened intelligence.—Ruth Collins.

THE MUNDAY TIMES

Published Every Thursday at Munday

Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

SUBSCRIPTION RATES
In first zone, per year \$1.50
In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

There is nothing so fatal to character as half-finished tasks.—D. L. George.

HIGHWAY HEROES

It is fitting that the state should honor the man who save five lives by diving five times in succession to bring up persons caught in a submerged automobile. As Governor Allred said when making the award, the man is a hero of the finest type. There is no question about that.

But wouldn't it be fine if we could manage somehow to recognize some of the unsung heroes of the highways who save lives every hour of the day and night?

For instance the fellow who obligingly yields the right of way at a critical moment and thereby saves fourteen lives.

The fellow who stopped at a sign marked stop, thereby preventing a collision in which three might have lost their lives.

The driver who dropped back and refused to pass another car on a curving hill, thus saving a triple pile-up that might have cost eight lives.

The driver who let somebody else drive, thereby saving his own and others' lives.

And finally, that super-hero, who, knowing his own car will do 110, let the smartaleck with a 90-mile job pass him on a smooth piece of road, without once resenting it as a personal insult.

The highways are filled with heroes like these, but they have their reward in heaven.—Abilene Reporter-News.

THE GOOD OLD DAYS

An interesting document was brought to light during the celebration of the eightieth anniversary of the founding of a department store in Chicago. Someone in that organization had preserved the rules for employees of their first store which read as follows:

"Store must be opened from 6 a.m. to 9 p.m. the year around.

"Store must be swept; counters, base shelves and showcases dusted. Lamps trimmed, filled and chimneys cleaned; pens made; doors and windows opened; a pail of water, also a bucket of coal brought in before breakfast (if there is time to do so) and attend to customers who call.

"Store must not be opened on the Sabbath unless necessary, and then only for a few minutes.

"No employee who is in the habit of smoking Spanish cigars, being shaved at the barber's going to dances and other pleasures of amusement, will surely give his employer reason to be suspicious of his integrity and honesty.

"Each employee must pay not less than \$5 per year to the church and must attend Sunday School regularly.

"Man employees are given one evening a week for courting and two if they go to prayer meeting.

"After fourteen hours in the store, the leisure hours should be spent most in reading.

Who was it heard sighing for "the good old days?"

When officers of Greensboro, N.C., answered a hysterical woman's plea for help, they found that a rat in her room had caused the excitement.

John Harden, confined in a Liverpool jail, stole a dress from the jailer's wife and escaped in female disguise.

Three applicants for police jobs at Newark, N.J., who had been rejected because of flat feet, protested that the flat-foot test was the "flooney." In support of their argument they brought before the board Eulace Peacock, star sprinter and twice winner of the national pentathlon, whose feet are flat as a pancake.

Alabama has no Jones county, but at different times has had two. The present Lamar county was called Jones prior to 1867, while Covington county was designated as Jones for a short time in 1863.

In a recent article on famed San Quentin prison it was revealed that California's first jail was located in that vicinity in 1852. It was a small ship, anchored off Point San Quentin, which could take care of about 50 men, and was used to incarcerate unruly old-timers of the early gold rush days.

Facts Worth Knowing

An average of 17,645 pieces are assembled in the average automobile. Federal public debt is nearing the thirty-nine billion dollar mark. Expenditures from July to November were half a billion more than the previous year. Industrial laboratories are experimenting to develop goldenrod as a source of rubber.

Approximately 1,800 tugs, barges and other marine equipment are required to handle railroad freight moving in the New York City area. Silverware kept in a glass jar with camphor gum will stay clean for a long time. Moth balls or naphthalene flakes are good protection against house mice as well as against moths.

Colonial in style, the Missouri Building at the 1939 California World's Fair, forms one wing of the Court of States.

Hina-Matsuri, Japan's classic Festival of the Dolls, will be staged on Treasure Island by the San Francisco Japanese colony March 3.

How quickly you can "put on the brakes" at the approach of danger, will be accurately measured at the 1939 California World's Fair by a reactometer as part of an auto driving test.

"Streets of the World" will be a \$2,225,000 concession at the 1939 Golden Gate International Exposition.

Auto tourists taking part in the great trek westward to the World's Fair in Treasure Island in 1939 will find teepees available in auto camps to add to the romance of the journey.

More than 50 models were made of Pacific, the 80-foot statue at the 1939 California World's Fair, before Sculptor Ralph Stackpole was satisfied with his creation.

Gems Of Thought

PHILANTHROPY

Our life is what our thoughts make it.—Marcus Aurelius.

He best keeps from anger who remembers that God is always looking at him.—Plato.

To have one God and avail yourself of the power of the Spirit, you must love God supremely.—Mary Baker Eddy.

Nothing is impossible to a willing heart.—Heywood.

Write injuries in dust, benefits in marble.—Franklin.

The reward of good deeds endure.—Juvenal.

Giving does not impoverish us in the service of our Maker, neither does withholding enrich us.—Mary Baker Eddy.

The infallible receipt for happiness is to do good.—Henry Drummond.

Though we travel the world over to find the beautiful, we must carry it with us or we will not find it.—Emerson.

Do all the good you can, By all the ways you can, In all the places you can, At all the times you can, To all the people you can, As long as ever you can.

—John Wesley

Naught but God can satisfy the Soul.—P. J. Bailey.

The mental arrow shot from another's bow is practically harmless unless our own thought barbs it.—Mary Baker Eddy.

No man doth well but God hath part in him.—Swinburne.

Who riseth from prayer a better man, his prayer is answered.

Cotton Insect Control To Be Work in Texas

College Station, Texas.—The appointment of Cameron Siddall to the Texas A. & M. College Extension Service Staff or specialists as assistant entomologist in charge of cotton insect control work has been announced by Jack Shelton, vice-director and state agent.

"Director Williamson feels that the condition of the Texas cotton situation makes it advisable to add an additional entomologist to our staff," Shelton said. "Reduced acreages of cotton make it necessary that farmer get the biggest possible returns from their plantings." Siddall's appointment is effective January 1.

"Texas made great strides in 1938 in the improvement of the quality of her cotton, but farmers will have to fight the boll weevil, boll worm, flea hopper, leaf worm, and other insects as never before if they are to make a living wage from their cotton crop," Shelton declared. He admitted that the spread of the pink boll worm to new areas was also a cause of considerable concern.

Siddall holds B.S. and M.S. degrees from Texas A. & M. in entomology, served as county agricultural agent of Hardeman county in 1933-1935, and has worked in entomological fields with the Texas Agricultural Experiment Station and the USDA Bureau of Entomology and Plant Quarantine. His addition to the staff as assistant to R. R. Reppert will give the latter more time to concentrate on grasshopper control and similar projects.

SHAKE
"I am sure I have met you somewhere."
"No doubt. I have been there often."

"At regular rates it is said a trip to Mars would cost \$850,000,000."
"Sooooo, that's where my wife went for her vacation!"

Optician: Weak eyes, eh? How many lines can you read on that chart?
Patient: What chart?

MADE HER TALK
Mary (in love): My sweetie knows everything!
June: Gosh, he must be a fast worker, dear!

Mabel: And once you said you wouldn't marry James on any account.
Dorothy: Yes, but at that time I didn't know it was such a big one in the bank.

WINTER JOBS FOR GARDENERS

College Station, Texas.—Winter jobs for gardeners include construction of a hotbed in sections where these are needed to start plants, building flats for growing plants, checking over tools for possible repairs or replacements, and building a fence around the garden if one is necessary.

These are some of the winter jobs listed by J. F. Rosborough, horticulturist of the Texas A. & M. College Extension Service, as he looked forward to 1939.

"Now is the time to get the hotbeds ready if seeds are to be planted in January," he said. He pointed out that manure heated hotbeds should be allowed to heat for three or four days before planting.

If the old hotbed is to be used, it should be disinfected; all of the old soil should be removed and fresh manure and soil added. Rosborough said that the electrically heated hotbeds was practical and economical where current was available.

"Southern exposures are best for the location of the hotbed," the horticulturist stated. "A fence or a building on the north side makes an excellent windbreak. Above all, the hotbed should be located on a well-drained spot, for water logged manure will not generate much heat."

Detailed information on hotbed construction can be obtained from county agricultural and home demonstration agents, and there also have free bulletins on the subject available for distribution.

APPLICATIONS FOR AAA PAYMENTS URGED BY STATE OFFICE

College Station.—More than 300,000 Texas farmers and ranchmen who adopted the AAA's Agricultural Conservation Program in 1938 will receive approximately \$42,000,000 in conservation payments, to be distributed for the most part in January, February and March of 1939, according to current AAA estimates.

George Slaughter, Texas Agricultural Conservation Committee chairman, said computation of payments is in full swing at AAA headquarters here and that checks will start going to producers about January 19.

He urged those eligible for payment to send in their applications for grant as early as possible, explaining that the state office cannot begin distribution of checks to a given county until at least 25 per cent of that county's applications for payment have been received. Total 1938 payments will exceed the aggregate of 1937 checks by about \$9,000,000; and the bulk of conservation grants will be issued considerably earlier this year, Mr. Slaughter predicted.

The money will go to cotton, wheat, rice and peanut farmers who substituted soil-conserving crops for some of their soil-depleting (cash) crops, and for carrying out other soil-building practices, and to ranchmen who have sought to improve and protect grazing land according to AAA range program specifications.

Slaughter presented these payments at "at least a step toward equalization of burdens imposed upon the man behind the plow by tariffs and freight rate differentials."

Betty—Oh, Archibald, you're too slow.
Archie—I'm afraid I don't grasp you.
Betty—Yes, that's just it!

Sunset Seniors Work on Annual
The Seniors are having a busy week making preparation to begin the production of an annual. The Editor-in-Chief is Mamie Tankersley. She has had super-salesmen working early and late, trying to bring advance sales up to the point where it would be profitable to begin production of the annuals.

Mr. W. C. Kimbrough and Mrs. Ottis Cash are co-sponsors for the annual and are doing all that is possible to get the staff off to a flying start. In appreciation of the efforts of the sponsors and the senior class let's all buy an annual!

Among the High School Classes
The Fish all have their heads

hent into their books, because the hard mid-term exams are here at last. They won't have to attend school Thursday, because they have no exams. They have finished all of their literature book with the exception of Shakespeare's drama "Midsummer Night's Dream." It has proved very interesting to them all. Since the exams are here they are all striving to pass every subject.

The Juniors have been occupied of late by preparing for the mid-term exams. Upon going into extensive review work, the class realizes that it has been a mighty long time since school started.

They have also been busy with the preparation of notebooks which proves to be no small job. The

class has studied hard this half but it remains to be seen whether they have learned anything or not.

The Juniors are very sorry that they will lose their sponsor, Miss Lois Spragins, after mid-year. She is to be married in the near future and the class wishes her all the success and happiness in the world. She has made us a good sponsor and teacher and we hate to lose her.

There comes a time in the lives of each and every person, when a feeling of deep sadness and melancholy envelopes all else in their minds. We are sorry to say the seniors have that age-old feeling when they think of the mid-term exams which are to be this week. It seems that mid-term has completely slipped up on us and we cannot do anything about it.

Due to the fact that Nettie Griffith is graduating at mid-term the seniors had to elect a new class treasurer last week. Mary Herring was elected for this job and H. D. Matthews was made class reporter. We hope that the seniors will not be too harsh in dealing with the poor efforts of the new reporter.

Sophomore News
The Sophomores have reached the point in which they don't know which way to turn. They don't want to study, yet they realize they have to before they can pass their mid-term exams.

The Food II girls have really had fun in class this past week, they have been studying reporting and criticizing the modern world. The Emily Post Etiquette was the source of study, therefore the girls readily took heed to what was said. One of the girls brought to class a list of things in "Good Manners of Dating," "Do's and Don'ts About Dating" and a list of things the men dislike in women. These prove very amusing and interesting.

The sophomores regret very much losing their sponsor, Mr. W. C. Kimbrough. He is taking leave of absence this Friday to go to work in his grocery store in Knox City. He has been a good sponsor as well as a teacher of World History and algebra to the sophomores.

The Home Ec girls are also losing another teacher, Miss Lois Spragins, who is leaving to be married. They regret very much having her leave.

Senior Basketball
The Sunset Eagles entered an invitation tournament at Knox City Thursday last week. They got off to a flying start Thursday night with a victory over the Benjamin Mustangs with a score of 43 to 16.

The second game of the Eagles was on Friday night with the Munday Moguls. The game was very interesting, although the final score was a little one-sided with Sunset 26 to Munday's 7.

On Saturday evening Sunset went up against the team of Rochester. This victory, with a final score of 34 for Sunset and 23 for Rochester, took the Eagles to the finals against O'Brien.

The final game of the tournament between Sunset and O'Brien had the Sunset fans on their toes as O'Brien held a lead over the Eagles until the fourth and last quarter. Then O'Brien fell back when the Eagles obtained a lead of five points. O'Brien quickly came up four points and in the last minute of play made a free pitch which tied the game. An extra three-minute period was allotted for the remainder of the game. In the last of this period Leland Floyd made the winning shot which was a field goal, making the score 31 for Sunset and 29 for O'Brien.

As the winner of the tournament, Sunset won a beautiful trophy that they can well be proud of. Sunset sincerely thanks Knox City for invitation to the three invitation tournaments that she has given during the last three years. Sunset has won two of the three tournaments and deeply appreciates the hospitality of Knox City.

News Among the Grades
The third grade enrolled one new pupil this week, John Bess Cogburn, of Knox City.

The fourth grade pupils are working on a Good English radio program. They will have it Friday. They have a new pupil, Willie Marie Cogburn.

The fourth grade had a poetry contest and these poems were selected as the best:

The Happy Little Birds
The happy little birds fly
Away to the warm south
But they will be back to build
Their nest with a twig in their
mouth.
They will dream of their homes
they left behind
So soon they will start back this
home to find.
—Barbara Jane Almanrode

The New Year
The new year is here
To bring us all good cheer
That we may work and play
And be of help each day
To someone traveling on the way.
—Jack Burnison

The fifth grade had a chapel program, "Parade of the Months." The class has three new pupils, Grace Moore, Evelyn Moore, and George Lou Cogburn. There are two sick pupils, Mildred Yost, and Glynda Dean Nix. The pupils will be glad when these two come back to school.

THE POCKETBOOK OF KNOWLEDGE BY TOPPS

THE CHAETODON FISH OF INDIA, HAS A BEAK WITH WHICH IT "SHOOT" INSECTS AS LONG RIBBONS OF WATER FOR "BULLETS"

TEA WAS MET IN THE PARLOR IN LOCKED, JEWELLED CASKETS, BY 18TH CENTURY COLONIALS

The sixth grade regrets to lose Nadine Perry who has been a member of the class since the beginning of school. The pupils hope Wynell Cluck and Kenneth Wittemore will be able to be back in school before long.

Boy, oh boy! The seventh grade is trying to get down to studying since it is time for mid-term exams. They are all hoping to make good on them.

The seventh grade made a geography project this time for a part of their exams. They are glad to report there are some really nice ones.

It looks as if they are going to have to hire a detective to find out why Frances Walling is so blue sometimes, and why June Stockton and Gaynelle Phillips are so gay sometimes and again so solemn.

Junior Basketball Boys Entertained
January 2, the junior basketball boys were the guests of Mr. and Mrs. N. T. Underwood. There was a splendid feast. After the feast the boys enjoyed a half hour of games. Chinese checkers was the main attraction. Forty-two was also a feature of the party. The party was turned into a theatre party after the games and the boys were taken to Munday to enjoy the picture, "Listen Darling." The boys all had a splendid time and wish to express sincere appreciation to Mr. and Mrs. Underwood.

Bridal Shower
On Monday evening, January 9 the Sunset teachers and high school girls sponsored a miscellaneous shower for Miss Lois Spragins, the home economics teacher. Miss Spragins is the bride-elect of Billie Bullock of Artesia, New Mexico, and she is finishing her work at Sunset Friday, January 13.

About seven o'clock some sixty guests assembled in the high school study hall. Miss Spragins was not let in on what was happening until she was coaxed into accompanying Mrs. Kimbrough out to the school building to secure a table which Mrs. Kimbrough needed. Clad only in pajamas and her coat, she sat down to hear the program of songs and readings rendered by Mrs. N. T. Underwood, Virginia Parkhill, Katie Bell Sweet, Cleta Jones, Vaudine Stockton, and Juanita Hunter.

The beautiful array of gifts were then brought in and presented to the bride-elect.

Refreshments of hot chocolate and angel food cake were served to the sixty-two mothers, teachers and girls.

The attractive bride's book was made by Mrs. T. W. Harber and presided over by Nettie Griffith.

PAGING THE SAND-LOT KIDS
New York—The sand-lot kids of America are to have their innings in the Academy of Sport at the New York World's Fair 1939. It is announced by Grover A. Whalen, President of the Fair. In a "school term" covering the period of Fair operation, there will be free instruction in baseball by such "professors" as Joe McCarthy, Lou Gehrig, Babe Ruth, Bill Terry, Johnny Van der Meer, Burleigh Grimes, "Dizzy" Dean, Hank Greenberg, Jimmy Fox, Joe Di Maggio, Bob Feller and Mel Ott. Classes are to be held in June, July, August and September of next year.

The president called his office manager in and thrust a letter under his nose.

"Look at that! I thought I told you to engage a new stenographer on the basis of her grammar!"

The office manager looked startled. "Grammar? I thought you said 'glamour'."

Tactful Hint
"What is the tactful way for a girl's father to let her boy friend know it's time to leave?"

"He may casually pass through the room with a box of breakfast food."

NO TWO ALIKE!
Blonde: Love is a terribly fascinating game! I always look forward to a new boy friend's first evening with me.
Brunette: To see how he acts, dearie?

Blonde: No, to see how he reacts.
Good breeding consists of successfully hiding how much you think of yourself and how little you think of others."

An Irishman's description of influenza: "Faith, an it's a disease that makes ye feel sick tin weeks after ye's well."

A Publication of the Benjamin Schools
Editor-in-Chief: Nathan Mitchell
Assistant Editor: Polly Chamberlain
Senior Reporter: Polly Chamberlain
Junior Reporter: Aline Smith
Sophomore Reporter: Bettye Jo Crenshaw
Freshman Reporter: Nadine Parker
Sponsor: Frances Diering

After a thorough search for a negative answer, it was found that everyone welcomed the rain which fell Saturday night and Sunday. It was reported that Benjamin had about two inches. We now see most of the farmers with broad smiles, instead of that worried look.

Some of the students, however, have a vague look on their faces. This is mid-term examination week and the students are worrying about what condition they will be in after the exams.

The Parent-Teachers Association met last Tuesday. The group was entertained by a speech of the new county superintendent, Merick McLaughlin. In addition to this a playlet was presented by some high school students.

The Seniors are seldom seen unless they are studying. With mid-term so near, and with so much to do, they hardly know what to expect next—especially in typing. The Seniors have selected their play, which they will present January 27. The play is entitled "Fingerprints," and is very typical of this part of the country as it deals with ranch life. Most of the characters have been selected and as soon as exams are over, the seniors will start to practice the interesting play.

The Juniors are getting the earlier part of the week getting their semester notebooks in order and studying for the mid-term examinations. The examinations were "wows" to some of us and the latter part of the week found us chewing our pencils and frowning at incomplete papers and slinging ink in all directions in order to please our demanding teachers.

"Buildups" were kenneled this time because we were afraid they would bark too loud as they did last six weeks. We hope to start the next semester off with a ripple big enough to carry us over the summer vacation.

The Sophomores threw their interests wholeheartedly into their work Monday morning, because

they are getting ready for mid-term exams. Most of the sophomores find that algebra is a subject of concentration, and some of them fail to concentrate, however, they are gradually learning the fundamentals of the subject.

A toast to the first grade! Friday morning the first grade entertained with the most unusual and inspiring choral program of the year, when little Jo Ardis Burnett, in her shining white satin frog-tail suit, portrayed Alexander and swung her rhythm band into the lively tempo of "Alexander's Ragtime Band." Each member of the rhythm band which is composed solely of the first grade, was dressed in contrast to their leader. The following program was rendered:

Welcome—Eloise, Wynis, Tommie, Don L.
Alexander's Ragtime Band, sung by Jardis, played by Rhythm Band.
Dance—Annette and Carol Fred in our Little Wooden Shoes.
Joardis—Swiss Mountain Song—Rhythm Band.

Members of the Rhythm Band are: Fred L. Crenshaw, Carrol F. Glover, Billy E. Glenn, Glenn Eugene Hall, Finton Jackson, Wylie Meiner, J. G. Puls, Johnny McGaughey, Glenn Bradley, Viola Crenshaw, Stella Ann Fowler, Leota Golden, Jo Nell Kendrick, Annette Patterson, Caroline Polster, Betty Rutledge, and Director Joardis Burnett.

It was indeed a sensation, and upon popular demand for a reappearance this rhythm band has consented to a return engagement the night of the Senior play, "Fingerprints," which will be Friday night, January 27. The rhythm band will perform promptly at 7:30, and a cordial invitation is extended to all to attend.

Mrs. Cunningham, first grade teacher, has charge of this group, and Mrs. Glenn Burnett rendered the piano interpretations.

County H.D. Council Installs Officers; Committees Are Named

The Knox County Home Demonstration council met at Benjamin in the assembly room Friday afternoon, January 6th, at 2:00 o'clock for their regular meeting.

The meeting was called to order by the old retiring chairman, Mrs. R. M. Almanrode, and after the installation service the new officers took charge of their duties. Mrs. Marion Jones, the new council chairman, appeared the following committees for 1939:

- Finance—Mrs. J. T. Murdock, Mrs. Lanningham, Mrs. Don Phillips.
- Expansion—Mrs. Geo. Solomon, Mrs. Orville Burgess, Mrs. G. L. Pruitt.
- Year Book—Mrs. G. L. Conwell, Mrs. Corbie Hodges, Oleta Humphries.
- Educational—Mrs. R. M. Almanrode, Mrs. C. E. Jones, Miss Alice Wilson.
- Exhibits—Mrs. S. O. Turner, Mrs. E. L. Lambeth, Mrs. Herbert Gillespie.
- Sponsors—Mrs. Orville Burgess, Mrs. J. O. Cure, Mrs. J. E. Becknell.
- Recreational—Mrs. Roy Jones, Mrs. O. J. White, Mrs. Lonnie Offutt.
- Reporters—Miss Florine Cornett, Mrs. O. J. White, Mrs. A. P. Garrett.

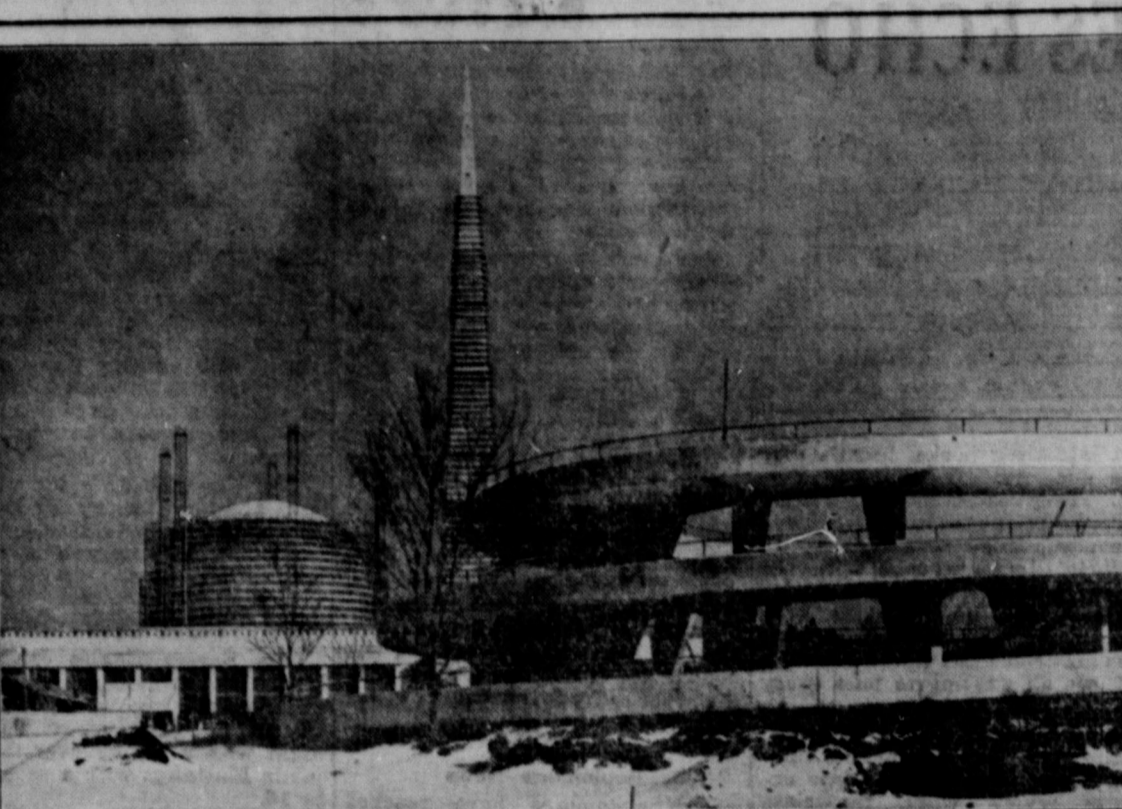

Shower Given Recent Bride

A miscellaneous shower given in the home of Mrs. Louis Blake, on Tuesday of last week honoring Mrs. W. H. Kuebler, bride of January 10, with Miss Alice Steinbach, Mesdames Joe Bellinghousen, Louis Blake, acting as hostesses. The rooms were beautifully decorated in the bride's nuptial colors. The gifts were presented to the honoree in a blue and gold decorated wagon. After viewing the many useful gifts, a delicious refreshment plate of sandwiches, cake, jello and coffee was served to about thirty-five guests.

Santa Fe Carloadings
The Santa Fe System carloadings for the week ending January 7, 1939, were 17,733, as compared with 17,617 for the same week in 1938. Received from connections were 4,890 cars as compared with 4,154 for the same week in 1938. Total cars moved were 22,623 for the week as compared with 21,771 in the same week in 1938. The Santa Fe handled a total of 19,248 cars in the preceding week of this year.

Mr. and Mrs. M. Boggs visited relatives in Haskell last Sunday.

Here's a Glimpse of 'The World of Tomorrow'

VISITORS to the New York World's Fair in 1939 will be given some indication of what "The World of Tomorrow" may look like. The Trylon and Perisphere, emblematic of the Fair's "The World of Tomorrow" theme, seen in the

background, set off "The Road of Tomorrow," which climaxes the Exposition building being erected for Ford Motor Company at the Fair. Demonstrating that the highways of the future are being built today, "The Road of Tomorrow" will carry

visitors up the spiral ramp shown here and around the facade of the Ford building in Ford, Mercury and Lincoln-Zephyr cars, giving them an excellent view over the grounds and converting the entire building into a dynamic exhibit.

leans. Cunningham's time of 4:10.7 was the fastest mile ever run at this time of year out of doors. Rideout's time in the event was 4:10.8, as he finished a good 40 yards ahead of the third runner, Don Lash of Indiana.

Also invited to run at Millrose is twin brother Wayne Rideout, world's record holder in the two-mile run, and who will be entered in that event.

FIRST BAPTIST CHURCH

We give you a special invitation to worship with us next Sunday at both the morning and evening hours. Subject for the morning sermon, "The Eternity of God;" for the evening sermon, "Burning Hearts." With the entire Southern Baptist Convention for this year the emphasis is placed on Evangelism. Read the book of Revelation and get from it the spirit of victory. Egypt is gone, Babylon is gone, Rome is gone, but God marches victoriously on. God will bring out our modern chaos victory. Faith in God will bring an inner peace and guarantee victory in the strife and stress of the heart and life; in the social, economic, and political unrest; in the national and international affairs. How we need to be swept off our feet with a consciousness of God and of His power and blessings.

W. H. Albertson

Birthday Party Held by American Legion Tuesday

Members of the local American Legion post held their regular meeting last Tuesday night being in the form of a birthday party. Those whose birthdays are in January entertained the group. They were Clay Groves, J. C. Harpman and Buell Bowden. The birthday party will be a monthly affair during 1939, it was announced by Legionnaires, and all members of the local post are urged to attend these meetings. About 20 Legionnaires were in attendance Tuesday night.

Epworth League Holds Meeting At Seymour Tuesday

A meeting of the Joy Union of the Epworth League of the Methodist Church was held last Tuesday night, January 10, at Seymour. About fifty young people attended from the following towns: Seymour, Westover, Bomarton and Munday.

An enjoyable program which was given by the Bomarton young people, included two vocal numbers, and a short sermon by Rev. Marvin E. Fisher, from Bomarton. After the program there was a short business meeting. A training school was arranged for the Union for the week of February 12 to 17.

The Next Union meeting will be on February 14 at Westover; however there will be a district meeting at Rochester the 28 and 29 of this month.

West Texas C. of C. Is Now 20 Years Old

Ahlerne, Texas, Jan. 9.—Twenty years ago this month final organization of the West Texas Chamber of Commerce was perfected.

No special ceremony to observe the anniversary will be held, but officials are noting it in passing as they continue the work of the vast regional body which has been a powerful, constructive force in the building of West Texas for the past 20 years, said H. S. Hilburn, Plainview, president, in commenting on the occasion.

First step toward organization of the regional Chamber was taken December 17, 1918, when a small group of West Texans called a meeting of persons interested in such an organization for December 21, 1918, in Fort Worth. About 125 men representing 25 counties attended the meeting and preliminary organization work was started. Purpose of the organization as

Constipated?

"For 30 years I had constipation, awful gas-bloating, headaches and back pain. Adlerika helped right away. Now I eat sausage, bananas, etc. anything I want to eat. Write to Mrs. Meta Schott, 1011 E. 12th St., Dallas, Tex."

AT LONG LAST

first vice-president, and W. W. Turney El Paso, was elected second vice-president.

CHURCH OF CHRIST

Sunday morning subject at the Church of Christ will be "The Baptism of the Holy Spirit." 1. What the baptism did not do for those who received. 2. What the baptism of the Holy Spirit did do for those who received. 3. And no one has received the baptism of the Holy Spirit in nineteen hundred years, neither needs to receive it. Sunday night subject will be "Miracles." Who performed them? What were they performed for? Is anyone performing them now? We invite one and all to hear us on both subjects, Sunday, January 15th. We especially insist on those who teach the baptism of the Holy Spirit and miracles are being performed now, to hear us.

J. W. Ballard, Minister

Beware Coughs That Hang On

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germy laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

A Magic Carpet...

TO MUNDAY'S GREATEST VALUES

You probably never considered The Times as being a magic carpet; it doesn't whisk you around town in the physical sense of the word.

However, the Times does give you a mental jaunt weekly into all parts of Knox County... and better yet, it transports you into every good store in town—and graphically describes the merchandise or services these stores are offering.

That's why we call the Times a magic carpet—it permits thrifty buying without the fatigue that the out-of-date "shopping the stores" system entailed.

KNOX COUNTY PEOPLE READ THE TIMES TO KEEP UP WITH THE HOME TOWN NEWS... AND TO READ THE ADS THAT HELP THEM BUY!

Shower at Rhineland Sunday Honors Mrs. A. B. Wilde, Recent Bride

Honoring Mrs. A. B. Wilde, formerly Miss Mary Ruddy of Wichita Falls, whose marriage to A. B. Wilde of Rhineland proved to be an outstanding pre-nuptial year event, a miscellaneous shower and informal party was held at Rhineland on Sunday, January 8.

Mr. and Mrs. Wilde were married at the Sacred Heart Church in Wichita Falls on Saturday, December 31, at 9 a. m., in the presence of a large number of friends and relatives. Standing before a poinsettia and fern-decked altar, Msgr. Patrick J. F. O'Brien read the wedding mass and performed the ceremony. Wedding music was given by Mrs. Carl Edwards, organist, who played the traditional wedding march from "Lohengrin" with Liszt's "Liebestraum" forming the musical background for the evening, and concluded the musical prelude with Mendelssohn's recessional.

"Pans Angelicus" by Frack was rendered vocally by Misses Dorothy Colouett and Rose Brady.

The bride was attired in a becoming navy blue wool ensemble trimmed in white, and wore a corsage of gardenias. Her only attendant, Miss Clara Wilde, sister of the groom, wore a blue wool suit and a corsage of carnations.

Alvis Kuehler of Rhineland, cousin of the groom, was best man for the occasion.

Mrs. Wilde, daughter of T. E. Ruddy of Wichita Falls, is well known as a teacher in the Rhineland school. Mr. Wilde, son of Mr. and Mrs. Joe Wilde, is a prominent farmer and resident of Rhineland.

Immediately following the wedding, a reception was held at the home of T. E. Ruddy, and was attended by relatives and friends from Rhineland and Wichita Falls.

Acting as hostess for the shower were Misses Clara Wilde and Jean Walsh. A large assortment of attractive gifts were presented to the honoree following a delightful refreshment course with Misses Genevieve Albus, Jean Walsh, and Clara Wilde assisting the hostess in serving the following:

Mesdames John Albus, C. J. Albus, P. W. Albus, Walter Jungman, Louis Homer, Catherine Duesterhaus, L. J. Kuehler, H. N. Claus, Mike Brackner, and Joe Wilde; Misses Alma Schumacher, Jean Walsh, Angela Fetch, Mary Fetch, Jean Wilde, Dale Wilde, Genevieve Albus, Doris Lambeth, Irma Homer, Martha Bracon and Pauline Homer.

Unable to attend but sending gifts were: Mesdames August Schumacher, Frank Kuehler, John Andres, Hubert Bellinghaasen, Anna Urbanczyk, Carl Jungman, A. H. Wilde, Gene Michels, George Petrus, Joe Redder, Magdolene Albus, Henry Decker and Fidelia Moylette; Misses Bertha Schumacher, Bertha Urbanczyk, Mary Wilde, Angeline Decker and Bernice Decker.

Munday Study Club Holds Business Meeting Friday

The Munday Study Club met for a business meeting Friday, January 6 at the club house. The house was called to order by Mrs. Jack Maves. Mrs. F. S. Broach gave a parliamentary drill.

Mrs. Jim McDonald played "Deep Purple," by Peter de Rose. The business meeting followed. The nominating committee gave a report on next year's officers.

The following members were present: Mesdames W. L. Barber, H. F. Barnes, J. C. Borden, R. B. Bowden, P. S. Broach, J. R. Barnison, W. R. Cabaness, L. A. Jobe, J. C. Harpham, R. B. Harrell, Chan Hughes, Lawrence Kinsey, Jack Moyes, Jim McDonald, Paul Pendleton, B. V. Reynolds, J. L. Stodghill, P. V. Williams.

Sweetwater Couple Are Married Here

C. O. LaRue, Jr., and Miss Gardena Yarbrough, both of Sweetwater, were united in marriage here last Saturday night.

The ceremony was at the Methodist parsonage, with Rev. H. A. Longino, pastor, reading the marriage vows.

Mr. LaRue is employed with Montgomery Ward Company at Sweetwater, where the couple will make their home.

Pioneer Circle Meets in Home of Mrs. A. B. Russell

The Pioneer Circle met in the home of Mrs. A. B. Russell on Thursday, January fifth. The afternoon social was attended by the following members: Mrs. J. R. Nelson, Mrs. A. C. Campbell, Mrs. U. S. Rogers, Mrs. Sessions, Mrs. Simpson, Mrs. Dingus, Mrs. Carson, Mrs. Edwards, Mrs. Burdison, Mrs. Beatty, Mrs. Redwine, Mrs. Zussel, Mrs. Brannon, Mrs. Becky Lane and Mrs. Tom Phillips.

Mrs. Cox was a visitor. The next meeting will be January 19, at the home of Mrs. U. S. Rogers.

Haskell Couple United In Marriage Here Saturday Night

Carroll A. Benton and Miss Chellie Sue Bragg, both of Haskell, were united in marriage last Saturday night by Rev. H. A. Longino, Methodist pastor, at his home here.

Attending the couple were Miss Lucille Hunter, Tozo Moorhouse and Bruce Burnett, of Benjamin. The newlyweds will make their home in Haskell.

Sixteen Members Of Methodist W.M.S. Meet On Monday

The Methodist Women's Missionary Society met at the home of Mrs. J. C. Borden, last Monday, January 9.

After the installation of officers for the coming year, a very interesting and inspiring program was given by Mrs. John Lane, Miss Shelly Lee, and Mrs. R. D. Atkinson. The topic of the program was "New Horizons." After a short business session, refreshments were served to sixteen members.

Demonstrators For Gilliland 4-H Club Are Named

The Gilliland 4-H Club met Wednesday afternoon, January 4, at one o'clock at the school for their regular meeting.

Miss Ruby Duncan, president, called the meeting to order and the secretary, Miss LaRue Burgess,

read the minutes of the previous meeting and called the roll. Sixteen members answered the roll call. Group singing was led by Miss Jo Lynn Williams.

After a short business session, the meeting was turned over to Miss Astin, home demonstration agent, who gave a demonstration on "Planning the Home Poultry Flock." Miss Astin gave special emphasis to the selection of standard breeds and varieties of chickens. "In planning the home poultry flock, there should be allowed at least ten hens and thirty chickens per person in order to supply both eggs and meat for the family," Miss Astin said.

Demonstrators for the club are: Bedroom, Barbara Ann Spivey and Margaret Crawford; poultry, La Rue Burgess and Jo Lynn Williams.

The next meeting will be held at the school on January 18 at which time the sponsor will give a demonstration on "The Care and Setting of a Hen."

Gilliland Home Demonstration Club Meets January 4th

The Gilliland Home Demonstration Club met on Wednesday, January 4, at three o'clock at the school building with the president, Mrs. Orville Burgess, presiding.

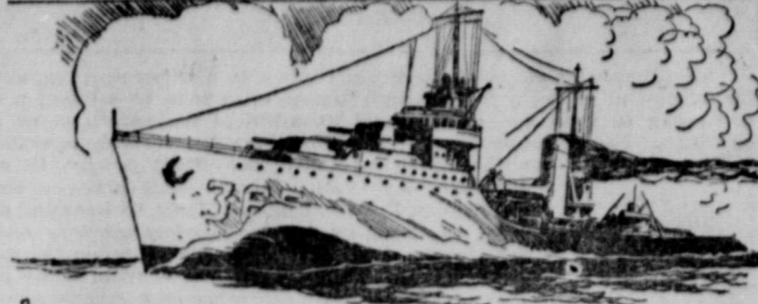

After a short business meeting, Miss Nina Astin, home demonstration agent, gave a demonstration on "Warm Bedding."

"From the standpoint of health it is important to have lightweight warm bedding," Miss Astin said. Points to consider in buying blankets were also discussed. "Women should make it their business to know more about the quality of goods which they buy and consider the conditions under which they are made," is a statement quoted from a recent article by Mrs. Roosevelt. The next club meeting will be January 18, and the subject will be "Art Appreciation." At this time the club members will clean their club room which is to be used for future meetings.

Mr. and Mrs. B. Hassen of Hamlin spent Sunday and Sunday night in the home of Mr. and Mrs. J. Silman.

D. E. Holder and Rev. H. A. Longino spent a portion of last week in Coleman, visiting in the home of Mr. and Mrs. Rex Holder, hunting.

THE POCKETBOOK OF KNOWLEDGE

WITH 6% OF THE WORLD'S LAND AREA, THE UNITED STATES HAS 75% OF THE WORLD'S PASSENGER AUTOMOBILES, 53% OF THE MOTOR TRUCKS, AND 55% OF THE WORLD'S SURFACED ROAD MILEAGE.

BANANAS WERE SOLD AS ADVERTISERS IN THE U.S. IN 1874! THEY WERE WRAPPED IN TINFOIL AND SOLD FOR TEN CENTS APiece.

Sunset H.D. Club Holds Meeting On January 10th

The Sunset Home Demonstration Club met Tuesday, January 10, at the home of Mrs. R. M. Almanrode in an all-day meeting.

After luncheon, which was served at one o'clock, the members held

on making down comforts in the assembly room at Benjamin, Wednesday, January 25. Anyone interested in this demonstration is invited to come and bring a covered dish.

Junior Sorosis Club Names New Club Names New 1939 Officers

The Junior Sorosis Club met the night of January 5 at the club room in Benjamin for their regular meeting. The following officers were elected: President, Janice Patterson; Vice President, Martha Crenshaw; Recording Secretary, Lucille Hunter; Secretary-Treasurer, Fayette Moorhouse; Parliamentarian, Miss Astin; Musician, Elizabeth Welch; Reporter, Aldine Ward.

Installation of these officers will be at the first meeting in September, which is the beginning of a new club year. At this meeting the club voted to sponsor a dance the night of January 14th at the Beavers' building for the purpose of raising funds for the club.

W. H. Kuhler And Ellen Steinbach United In Marriage

Marriage rites, performed Tuesday morning, January 10, in Rhineland, united W. H. Kuhler, son of Mr. and Mrs. Joe Kuhler, and Ellen Steinbach, daughter of Mr. and Mrs. Geo. Steinbach. Rev. Fr. Matthew Wiederkehr reading the ceremony. The bride was lovely in a teal-

blue wool suit with duPont accessories. She carried an arm bouquet of calla lilies, carnations, and baby breath.

Miss Alice Steinbach, sister of the bride, was her only attendant. She wore a gold colored wool crepe suit and a corsage of baby breath and gladioli. Alphonse Kuhler, brother of the groom, acted as best man.

Friends and relatives attended a wedding dinner in the evening at the home of the bride's parents. The couple was honored with a dance in the evening in the Rhineland Hall. The music was furnished by the Brown Derbies of Stamford.

The couple will make their home in Saint Francis, Texas.

Miss Martha Highnote and Miss Juanita Graham of Haskell were in Munday last Thursday visiting Hugh Donald Hibbitts.

Aaron Edgar spent the weekend in Memphis, visiting with Mrs. Edgar.

PERSONALITIES IN MUSIC

DOLLY MORSE, A.S.C.A.P.

A Woman Pioneer In Popular Song

By Daniel I. McNamara

DOLLY MORSE, who in 1921 created "Three O'Clock in the Morning," as one of the popular song hits of a generation, enjoys the distinction of being the first woman songwriter to have been elected to membership in the American Society of Composers, Authors and Publishers. In her home in the Westchester hills near New York City, she treasures as a memento of her professional career an ASCAP membership certificate, dated March 12, 1914, and bearing the serial number 140.

She was Dorothy Terriss, a fourteen-year-old Brooklyn school girl when she first visited New York's Tin Pan Alley with her song lyrics, there to enlist the interest of the popular song composer Theodore Morse ("Good Bye, My Blue Bell," "D'ar Old Girl," "Down in Jungle Town"). Two years later in 1906 they were married, with a resultant partnership in the creation of song that rivaled the romance of their successful ballads.

Dolly Morse's first works appeared under the male pseudonyms of Alfred Scott and D. A. Esrom, for women had not yet become factors in songwriting. As woman's horizon broadened, she ventured to use her maiden name professionally. Under this she wrote her greatest hit, "Three O'Clock in the Morning." Some of the songs she wrote with her husband were: "Another Rag," "When Uncle Joe Plays a Rag on His Old Banjo," "Robbin' Up and Down" and "Hail, Hail, the Gang's All Here." Other songs written under the various names of the versatile woman writer are: "I Always Know I'd Find You," "My Wonderful One," "Baby Your Mother," "There Must Be a Silver Lining," "In the Twilight," "Siboney" and hundreds of others.

We wish to congratulate the following students who made the honor roll during the last period. It is indeed gratifying to see so many students on the roll. A serious, hard-working student makes work pleasant not only for himself but also so for his teachers. So, we say to you, "Carry On."

Senior Class—Bertha Stengel, Lucille Schumacher, Agnes Redder, Laverne Brown, Genevieve Herring, Catherine Homer, Geneva Wilde, Florine Williamson, Cletus Wilde, Freshman Class—Theresa Andrae, Florine Decker, Nadine Kreitz, T. J. Hoffman.

7th Grade—Bernard Kuehler, Lucille Schumacher, Agnes Redder, Bernard Homer, Lillie Belle Struck, Elsie Schumacher. 6th Grade—Anna Fetsch, Everett Kuehler. Primary Grades—Rayford Gene Chandler, Chester Mayfield, Sue Chandler.

Senior Class News: We enjoyed the visit of our new county superintendent, Mr. Merick McGaughey, last Thursday evening.

The senior class selected their class officers. They are as follows: President, Josephine Cerveny; Vice President, Teresia Birkenfeld; Secretary-Treasurer, Wilma Michalik. They have also chosen their colors, which are white and rose. Their flowers are roses and larkspur, and their motto is "Together we stick—divided we're stuck."

Mr. Hoffmann made a remark the other day and said the seniors could be identified by three "S's", which could mean: Silly Seniors. We don't agree with him, do we gang?

The seniors believe that there is nothing better than a friend, so they have composed a verse. A day for toil, A day for sport, But for a friend is life too short.

Junior Class News: The Juniors have settled down to some real work now, and believe me, we don't "whistle while we work." Not with mid-term exams coming on. One month's exams isn't so bad but four months, where!

The same way with geometry. The triangles were had enough, but polygons are worse. We can't say the worst because we fear that one of these days we will have to take it back.

The Juniors surely wish that somehow Mr. Hoffman's pencil would go on a sit-down strike when he starts to make strokes on a yellow sheet of paper.

Sophomore News: The Sophs have hit a new kind of problem in algebra. This problem is factoring. Factoring is very interesting for us but we were told that we would have a lot of problems of this kind.

In literature we are now learning biographies and autobiographies. We just left the narrative poetry. Some of the class did not like poetry very much until we read a lot of it.

We were wondering why Florine has been talking so much in school. Richard has been taking more interest in his lessons.

The class gave some interesting talks on different kinds of birds.

Freshman News: Everyone seemed to be in the right spirit Monday when they came to school after the rain.

Some of the eighth grade felt that they did not study their science for the test, when they saw their grades.

We had a great surprise during our history class the other day, when a pigeon flew into our room. We wonder if it came for an education.

Grade School News: We are anticipating mid-term exams and hope we will all have

National & Exide Batteries. Dayton Tires. WASHING AND GREASING \$1.50. Phone 53-R for Service. TEXACO Service Station.

a successful grade to be proud of for the first half of the year. The sixth grade pupils welcome to their class Albert Smajtrala and hope he will like our school.

Rhineland News

Mr. Vincent Vincent Albus and Misses Irma and Pauline Homer made a business trip to Wichita Falls, Thursday.

Mr. Peter Loran spent last week in Wichita Falls. Miss Monica Loran, who was working in Wichita Falls, is now visiting in the home of her parents, Mr. and Mrs. L. Loran.

Mr. and Mrs. Joe Smajtrala and family from West Station, are making their home now in Rhineland.

Mr. and Mrs. Henry Bellingshausen and family of St. Francis, Texas, were visiting friends and relatives here.

Mrs. L. D. Jones and daughter of Wichita Falls, and Mr. J. H. Franklin of Holliday visited in the home of Mr. and Mrs. L. C. Franklin.

Mr. and Mrs. John Smith and family were visitors in the home of Mr. and Mrs. K. G. Homer.

Mr. and Mrs. Edmund Kuehler and sons of Peto, Texas, visited friends and relatives here.

THEY SAY... "Just tell me when we are going to remove the restrictions which prevent close cooperation between management and employees; when we are going to stop putting shackles on production; when we are to be sure of a sound currency; when our government expenditures are going to be brought into line with government income, based on a fair tax burden, and I will tell you when this country of ours will enter the greatest period of prosperity it has ever known."—Franklin R. Hoadley, President, National Founders Association.

"There are two philosophies in the world today, the philosophy of the gentleman and the philosophy of the pagan. One man says, 'I'll wade through the flood and save my neighbor's dog; the other says, 'Good—tomorrow I'll go and steal my neighbor's horse'."—Hendrick Willem Von Loon, Historian and Philosopher.

"I am optimistic because I believe business is solving and will continue to solve its problems and I believe in this country the punitive curtain is falling and the cooperative curtain is rising."—Carle C. Conway, Chairman of the Board, Continental Can Co.

"The American system, so-called, is the sum of all the economic activities of all the people."—Lamont du Pont, President, E. I. du Pont de Nemours & Co.

Family—Aw, gee, Dad let's buy a new car! Dad—Wait till I've had a chance to ride in the old one, won't you?

Marcellus—Did dat hoss yo' bet on win de race, Sambo? Sambo—Nah, he didn't. But ah still believes he's de fastest hoss in de world. Why dey claim he kin run a mile in a minute, 'ceptin' fo' one thing.

Marcellus—What's dat? Sambo—De distance am too long fo' de shortness of de time.

LISTEN TO THIS

By TOM FIZDALE

The Christmas season has certainly taken on a wider meaning since the advent of radio, and those unfortunate enough to be without a set are going to miss one of the most beautiful of the year's great air offerings. For example, special Yuletide programs already scheduled for this year include Christmas messages from King George VI and President Roosevelt; international picture plays from Bethlehem, France, England, Italy, Switzerland and other countries; impressive religious services; opera broadcasts, dramas, community sings, and numerous other holiday broadcasts both from home and abroad. Christmas today takes on a greater beauty than at any time in the past.

Dorothy Lamour

One of the most constant long-distance marriages among the stars is that of lovely Dorothy Lamour and handsome, six-foot orchestra leader, Herbie Kay. Most of the time a continent, or a good hunk of it, divides them, but they continue on their respective careers, top-rankers in their own right, and remain happily married.

Those Arkansas back-woods boys seem to do all right in the show business. Bob Burns, Dick Powell and Lum and Abner are a quartet whom you'll recall. Incidentally, Powell hadn't even seen a train until he got out of his home county. No railroad runs through there, even today.

Queen of the Queen City. That's the title just conferred on Arlene (Babs) Johnson, named the most beautiful radio artist of Cincinnati. She's the Babs of those Smoothies—Charlie and Little Johnson and Babs—heard on Vocal Varieties via NBC.

Incidentally, speaking of Cincinnati, have you noticed how many network shows are originating there now? In addition to the above mentioned, Avalon Time, with Red Foley and top-name guest artists, and Plantation Party, which is switching from Mutual to NBC, are two more top offerings among many coming from the Queen City. Who said radio is confined to the two coasts?

We said a few weeks ago that about all we needed to confirm the idea that the radio migration season was on was to have Jack Benny to move to New York for awhile and Tommy Riggs to go to the coast. Well, Benny is in Gotham and Tommy is slated to go west the first of the year. Maybe we've been giving them ideas.

You'll be able to give Parkyakarkus derbies for Christmas this year—that is, in toy form. A manufacturer is putting out a line of comic gray derbies with Parkyakarkus' face on the crown.

Side Glances: Orson Welles looking over Christmas card samples, spreading them out on the floor for comparison. Betty Cain, network actress, explaining to three out-of-town visitors that she is NOT Kathryn Hepburn. Donald Novis, Fibber McGee tenor, sitting for some new portraits while Fibber kibitzes on how he really should pose for greatest effect.

The first world-wide religious revival meeting of all denominations will be held at the World's Fair in San Francisco next year with Dr. Charles E. Fuller, radio's Old Fashion Revival Hour pastor, in charge.

OLD AGE INSURANCE DEATH CLAIMS SHOULD BE SETTLED PROMPTLY

Wichita Falls, Dec. 13—Administrators or executors of estates were requested today by Mr. Roscoe L. Surles, manager of the Wichita Falls field office of the Social Security Board, to ascertain whether the estate they represent is entitled to a single cash payment under the old-age insurance program of the Social Security Act.

"Many such claims are filed long after the estates have been closed," said Mr. Surles, "because some administrators and executors are unaware that benefits are due, and therefore neglect to file claims during the process of administration. It is difficult to pay these claims after the estate has been closed, and reopening the administration incurs additional cost to the persons entitled to the benefit."

The Social Security Act provides for single cash benefits to be paid after the death of a worker covered by the old-age insurance program. These benefits go to close relatives or the estate. The amount of the benefit equals 3 1/2 per cent of all wages received since 1936 in covered employments, except that only the first \$3,000 in yearly earnings from only one employer may be taken into account.

Similar single cash payments are also being paid to wage earners who are now reaching age 65, since such workers cannot qualify for the monthly benefits which begin in 1942.

All inquiries regarding possible

PEEP SHOW

FOR LADIES ONLY BY MIGNON

Good Business: The happiest business in the world is that of making friends. And no "investment" on "the street!"

Pays larger dividends. For life is more than stocks and bonds. And love, than rate percent. And he who gives in friendship's name

Shall reap as he has sown. Life is the greatest investment, And no man lives in vain. Who guards a hundred friendships As a miser guards his gain. —Exchange

There was never a truer sentiment expressed than in the above poem stolen from my good friend Vad's column over in the End Events in Oklahoma.

All this week I have been getting letters of appreciation about a certain little book gift and they are not even all mailed out yet. In the first place it is all a cycle of love. The book was a gift to me from one who knows it makes me happy to make others happy and now there is a chain of happiness uniting many friends in every walk of life.

I wonder if the Printz over in Tulsa really will ever know the magnitude of his dividends from this one of his many investments in happiness.

Speaking of friends; I've found some of the most interesting ones here in the Panhandle. Pop Martin and his jolly companion seem to be about the most versatile folks I've met and after all they've been bitten by the same bug as I, so of course there is a sort of kinship which makes me fall hard for them. It seems Pop was one of the first cowboys in this section and has grown up with the country. He worked on the old California Ranch in 1879 and in some way drifted into the printing business the way lots of good young men do wrong.

Both the years though, he hasn't forgotten the old trails and night herd songs and they crop out every once in a while into purest poetry, or better yet in poetry of expression in wood. Pop has the most unique collection of museum pieces that he has carved in wood. You can see one side of his nature in a bass fiddle he's made out of a five gallon lard can. He has a whole striped orchestra made from everything from a cigar box to a Chinese tin cke box, and he can make music from them, too.

Miniature presses with such detailed observance to authenticity from an Old George Washington, County Campbell, Army Press, up to a model A Duplex, they print, too. But his modes of travel are the cleverest. From the old high wheeled buckboard, the hug-me-tite buggy, the old chuckwagon, the covered wagon with a sod plow tied on the side up to a modern freight train, his cattle car is filled with white-faced Herefords enroute to market, you are thrilled at the show.

Pop and Mrs. Martin have replicas of the first brick buildings, too. The first capitol of Texas, the first courthouse, the first church in such detail that you just can't imagine anything left out. If you can imagine a quiet eyed, grey-haired man driving to the creek to find clay to model into tiny bricks to model all these things in his spare time, after a day of feeding job presses and haranguing the public, you'll know why poetry keeps cropping out in liting lines. Poets do all sorts of queer things just for that something within them that they can't quite make out even for themselves.

Another thing to love about Pop and Mrs. Martin is their interest and love for children. In fact they arrange a show window to attract the school children, and show me a

voice-throwing printer who has that patience.

To a small granddaughter in Buffalo, N.Y., Madam Queen all dressed up in finery is ready to shuffle off to Buffalo with the blackest, struttinest Andy you ever saw who goes to a small grandson in Longview.

Somehow I felt like I'd been to visit Santa Claus' right hand lower and Mrs. Santa Claus, who has hushed memories burning in her eyes and had opened the gate that locks yesterday away. I came home with smoke in my eyes blurred by visions of prairie mothers trekking to the little white steeped church, hard-riding cowboys galloping on to the old watering trough on the courthouse square, and white-haired lawmakers taking cowponies for the night-herd ringing in my ears. How my small son will love Pop and Mrs. Martin!

I'm watching my heart And keeping my head But it's sure tough On a gal named "Red." Such Christmas bargains, My, oh me!

And a note from the bank With a red O.D. I give up!

Cattle Outlook is Started Upon Expansion Era

The cattle industry has started upon a period of moderate expansion that may continue for years, G. W. Barnes, animal husbandman of the Texas A. & M. College Extension Service, pointed out in discussing the long-time outlook for beef cattle recently released by the U.S. Department of Agriculture Bureau of Agricultural Economics.

"Cattle production operates in cycles," Barnes said. "The high point in cattle numbers was reached in 1934, and declined to the low point by January 1, 1938. This year will see cattle numbers appear about 1 per cent, and apparently the increase in the new cycle has started."

"Barring the recurrence of a series of drought years such as prevailed from 1934 to 1937 it seems fairly certain that cattle numbers will tend to expand for some years. The rate and extent of this increase cannot be predicted now, but it appears unlikely that cattle numbers will reach as high a peak in the present cycle as was reached early in 1934."

Barnes pointed out that increasing numbers of cattle in the next

few years will come largely from withholding cattle, mostly cows with calves, from slaughter. Supplies of hogs and hog slaughter are expected to expand rather sharply, and total meat supplies will be larger than the average of the past 4 years.

During 1939 it is expected that fewer cattle and calves will be slaughtered than in the present year, with the reduction chiefly in calves, cows and ten months this year and the number of deaths recorded for each of the two years are:

U.S. highway 81, Georgetown-Troy, 19 and four. U.S. highway 81, San Antonio-San Marcos, 23 and 11. U.S. 35: Corrigan-Lufkin, four and none. U.S. 67: Greenville-Dallas, 14 and five. U.S. 370: Wichita Falls-Vernon, 10 and none. State highway 47: Texarkana-Hughes Springs, 7 and two. U.S. 43: Jacksonville-Palestine, seven and one. U.S. 80: El Paso-Sierra Blanca, 13 and four. U.S. 75: Hoston-Dallas, 24 and 22 (including 10 in Navarro county). U.S. 90: Rosenberg-Houston, and four. Open highways of Cameron, Hidalgo, Brooks and Willacy counties; 68 and 31. U.S. 80: Pecos-Big Spring, 22 and 18.

"Unappreciated hunger," says a Chicago physiologist "is a significant factor in dangerous driving. Not to mention a satisfied thirst."

Highway Fatalities Cut in Ten Months

concentrated policing at dangerous highways for ten months has cut the number of deaths from 242 in 1937 to 106 in 1938. State highway department officials announced today.

Happenings in Munday High School as Seen by the Juniors

We believe more firmly now that Mac and Lamoine are getting to be more and more alike every day. Even their attention is centered on the same girl. . . anyway that's what we made of it after seeing her sitting between both of them at the basketball tournament at Knox City last Friday night. They seemed to be having a wonderful time. Bernice and Hazel came to school Monday after a two weeks absence.

Hearing some songs the other day reminded me of some students in M.H.S.

Eliyah Francis: "You Must Have Been A Beautiful Baby."
Darlyne: "I Ain't Got Nobody."
Jane: "Ain't She Cute."

The Party Mind-Brush

Don't be late.
2. Speak to your hostess when she arrives.
3. Forget yourself entirely. Concentrate on other people.
4. Never do or say anything which might offend anyone.
5. Act as though you were having a grand time every minute.
6. Keep your temper; be above trifles.
7. Don't be a stay-forever pest. Leave at the end of the time for which you were invited.
8. Thank your hostess before you leave. Make your goodbye short and sweet.

If any of you hear the Seniors mumbling something which you

cannot quite grasp, for the sake of information, I shall tell you that it is Chaucer's Canterbury Tales. This poem is written in "Old English" and it sounds quite funny from our present-day modern English language.

If any of you have seen our new basketball uniforms, I believe you will agree with the student body in saying that they are the prettiest uniforms which we have had in a very long time, and if our team can keep up with its suit in "class" (as we are sure they will) we believe that the basketball season holds many victories in store for us.

We regret losing Clara Faye Bryan to the Seymour Public Schools. Clara Faye, we hope you make many new friends, but remember to come back to see us.

Senior Report

Highlight in the world of sports and leader in class activities is Orville Matlock—Orville was born on February 27, 1922, at the edge of Munday. His birth doesn't really matter, because there are a lot of people who are nearly seventeen. In spelling matches and math quizzes it was always Orville who led the class. In baseball he was an outstanding figure.

Then came high school, and with the freshman class was Orville. He played basketball and football well. The boys seem to like him.

He isn't for sure what he wants to be when he grows up. He will probably be president of the U.S. A. With his brains he could be anything. He doesn't have a hobby, unless it's farming. . . and that is work! He is going to business college next June.

The Seniors are about to decide on "Bashful Bobby" as our Senior Play. Chancer's Canterbury Tales and their translation will probably get the best of us yet. All the classes before us have survived so I guess we won't be "sissy."

Freshman News

In English we memorized the first Psalm last Friday and voted in class whether we would write it on paper or have an oral lesson. For the third time during this semester we had our book reports on Monday, which completes about half of our outside reading points for English.

In our classes of General Mathematics we are studying the volume and area of different objects such as parallelograms, pyramids, and cylinders.

Our general science class has been studying the community water supply, and we have been planning to visit our water system and see how it works.

We have enjoyed having Mrs. Barnes as a history teacher while Dr. Bass was in Austin over the past week.

Dignities

When anybody asks Frankie where he is going (upon meeting him), he is always ready with the answer, "To the graveyard, wanta go?"

Jimmie Haney has been seen around with a certain little blonde. The only objection Maurice has to being president of Las Mascaras is that he has to make a speech occasionally.

Who is the blonde that has her eyes on a soda jerk? (The answer won't be in the next issue.)

You have heard about the absent minded professor. Well, Charles brought his lunch to school and forgot about it and went home to lunch! Maybe he needed the exercise!

It may be that Miss Couch is tongue-tied, but when she said "Passes-Class" in stead of "Classes-Pass," everyone knew what she meant.

6B News

Three weeks and then mid-term tests! 6B is ready for them in any fashion.

In Health Monday we discussed the State Tuberculosis Sanatorium. It is located near San Angelo.

We had a test Monday in Geography over the Highland Countries. We are glad Raymond Braummon is back with us after missing a week because of illness.

At the Lions Club Luncheon—Mr. Palmer: Will you pass the nuts, Mr. Ingram?

Mr. Ingram: I don't know. I feel sure I'll have to flunk some.

Civil Service Examinations

Announced for Inspector Positions in Wage and Hour Division

The United States Civil Service Commission has announced open competitive examinations for the positions of Supervising Inspector, \$3,800 a year, Senior Inspector, \$3,200 a year, and Inspector, \$2,600 a year, in the Wage and Hour Division, Department of Labor.

Applications must have had certain responsible experience in industry or business as an employer, administrative official, or as a recognized employee representative participating in improvement of working conditions; or in a State or Federal agency administering labor laws or investigating employee-employer relationships or economic conditions of wage-earners. They must have reached their twenty-fifth but must not have passed their fifty-third birthday.

Applications must be on file with the U.S. Civil Service Commission at Washington, D.C., not later than February 7, 1939, if received from States east of Colorado, and not later than February 10, if received from Colorado and States westward.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or customhouse in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D.C.

RIGHT OUT OF THE AIR

By EARLE FERRIS

His hobby interfered with his work—so Eugene Conley gave up the job! This man-bites-dog solution of the familiar problem of finding time both for making a living and for riding a hobby proved, oddly enough, one of the most profitable decisions he ever made. Several years ago, Eugene was clerking for a Lynn, Mass., electric company and tending for fun on Sundays with a church quartet. One day when the group made a guest appearance on a Boston station and Eugene did a solo, he made such a personal hit that his services as a tenor became increasingly in demand for radio work. Eventually he had so many offers to sing on the air which he couldn't accept because his clerk's job interfered, that he gave up the latter and became a full-time tenor. Now he's headed for big things with three weekly programs via NBC!

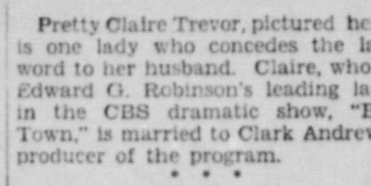

Production problem of the year was the matter of presenting Dopey in Radio Theatre's Christmas production of "Snow White." In the movie Dopey was never visual, the dwarf who never said a word. Radio Theatre solved it by having Dopey wear a bell around his neck which tinkled every time he was in a scene.

Raymond Paige, whose musical offering of "One Hundred Men and a Girl" proved to skeptics that radio can effectively present unusually large orchestras, started his career with a five-piece band. His recent accomplishment is the result of years of technical experimentation.

Pretty Claire Trevor, pictured here, is one lady who concedes the last word to her husband, Claire, who is Edward G. Robinson's leading lady in the CBS dramatic show, "Big Town." He is married to Clark Andrews, producer of the program.

Great Oaks From Tiny Acorns Department—Olan Soule broke in to show business at 16, playing a week's engagement in an obscure vaudeville house. Billed as "Reggie Van-Singing and Dancing Bits," Olan followed the inevitable acrobats on the program. Now he's one of Chicago's most popular radio actors, heard in four weekly series.

Lucille Manners, above, soprano star of the Friday night NBC concert hour, has again been selected Chairman of the Radio Committee of the New York Tuberculosis and Health Association. Lucille number Mrs. Franklin D. Roosevelt and many other notables among her customers for Christmas Sales.

"The perfect musical host"—that's what both critics and fans call Orrin Tucker, popular bandmaster who features the unique "conversational music" which is his own invention. This toe-tinling but which style of playing won't disturb talking yet it is rhythmic enough for dancing and melodious enough for good listening.

Billy House's CBS program can claim to be the largest on the air in more ways than one. Three hundred-pound House is "the biggest brightly colored with tropical flairs."

TEN BEST STORIES OF 1938 SELECTED BY STUDENTS AT T.C.U.

Hitler and Germany Dominate News in Student Opinion

Fort Worth, Dec. 12—Hitler and Germany dominated the news of 1938 just as they dominated affairs in Europe. At least that is the opinion of students in the Department of Journalism at Texas Christian University here.

These students, asked by Prof. J. Willard Ridings, department head, to select the "Ten Best Stories of 1938," decided that Hitler's actions made the top three stories of the year.

Altogether the students nominated 37 stories in their lists of the "Best Ten," indicating that 1938 has been a year of important news breaks.

The Hitler stories—ranking one, two, three—were: The Munich Pact, the annexation of Austria, and the persecution of the Jews. Big news breaks that polled heavily in the voting but failed to find a place in the first 10 included such items as the new U.S. defense plan, Los Angeles flood, labor troubles in France, Pan-American conference, California's forest fires, wage-hour law, C.I.O.-A.P. of labor war, civil war in Spain, and others.

The students' "Ten Best" list, with typical comment is as follows:

1. The Munich Pact. The Czech crisis could have (and may yet) involve the whole world in another war. The new balance of power and a new map of Europe.
2. Hitler's annexation of Austria. The greatest territorial conquest, without resort to arms, of modern times. Hitler's "trial balloon."
3. Hitler's Persecution of the Jews, one of the most appalling instances of intolerance in history. Interest appeal involves American love for fair play and equal opportunity, as well as instinctive sympathy for the underdog.
4. Japanese War on China. A slaughtering conquest that also finds Americans on the side of the underdog. World trade repercussions will be far-reaching if Japan succeeds. For one thing, it may spell the doom of the American cotton farmer.
5. Corrigan's "Wrong Way" Flight to Ireland. The American public loves dare-devil adventure and practical jokes. When the two are combined they make page 1 headlines for weeks.
6. New England Storm. The major disaster of 1938 in the U.S.
7. Howard Hughes Flight around the World. A great and daring piece of work for the advancement of aviation.
8. Roosevelt's Purge and the Elections. Government and politics have been steadily increasing in news value. The President's participation made this year's elections top news.
9. Mexican Seizure of Foreign Oil Properties. Economic interests, diplomatic relations with a neighboring country, and European entanglements (because of Mexican oil sales abroad) are all involved here.
10. "Men From Mars" broadcast. A revealing incident as to the state of nerves in this country. Real terror combined with ludicrous incidents. The most unusual page 1 story of the year.

Death Book For 1938 Shows Big Decline

Austin, January 3.—State police closed their 1938 death book today and showed a gain of 23 per cent in the encounter between man and vehicle.

As a result there are 464 motorists and pedestrians alive in Texas today who—had the previous year's record been continued—would be dead. The 1938 death count rose to 1,579 persons, but remained far under the 1937 all-time high mark of 2,043 dead.

Strict supervision over reckless and speeding drivers, educational work, engineering and public opinion performed the feat, said Homer Garrison, Jr., public safety director, who had ordered Texas highway patrolmen concentrated at points where death had successfully stalked most of its victims in 1937.

Christmas holidays were seized with discouraging weather conditions which vaulted the death figures to an estimated 30 persons, but official returns for the month of December showed a drop of 65 under that month of the previous year when 230 Texas travelers were killed.

Lowered speeds and more alertness on the part of drivers, Director Garrison pointed out, brought about a decrease of 1,189 among the year's injured. The total injury group included 14,994 persons, many of whom will never walk again, the reports stated. A stronger driver's license law made effective in late 1937 was given credit in the safety march for removing three per cent of permit applicants from behind steering wheels.

A month by month comparison of the two years—1937 and 1938 revealed death reductions in every month of the latter year with the exception of March. The lowest death month in 1938 was April with 94, the highest being the estimated 165 deaths in December. Similarly, sharp drops occurred in the injured persons columns.

Speaking of traffic law enforcement Garrison said an additional 100 highway patrol to the force of 200 last June permitted expansion of patrol stations and a high increase in the number of arrests for reckless and drunken driving.

"Even with the limited body of 300 officers to maintain night and day patrol duties it is easily seen that the presence on the highways of double that force would save the lives of hundreds more motorists and pedestrians," Garrison said.

He commended the work of local traffic officers and safety associations in keeping the state and cities in keeping the death record below the figure of the preceding year.

The safety official blamed a lack of vigilance on the part of drivers for many of the deaths, and pointed to the state law which gives vehicles from the right clearance over all other travelers and the statute that was most violated in circumstances leading to collisions.

Speeding vehicles that do not have clearance in overtaking and passing others were responsible for the hundreds of fatal head-on collisions, he declared.

FARM LANDSCAPING

"This is an excellent time to form family or club parties for visits to the woods for the purpose of selecting evergreens to be planted in the farm landscape," according to Miss Sadie Hatfield, specialist in landscape gardening with the U.S. A. & M. College Extension Service.

The winter season is also the time of year to take plants for transplanting, she pointed out. Practically all of the evergreens native to Texas need to be balled and burlapped, and evergreens also need rather severe pruning when much of the root system has been lost.

"From now until the first of March is also an excellent time for transplanting native deciduous plants, or those that lose their leaves in the winter, may be moved bare-rooted provided the roots are not allowed to dry out."

The flowering dogwood of East Texas can seldom be successfully transplanted bare-rooted, but must be balled and burlapped to be moved.

Miss Teeler: "It's just too bad. You said you wouldn't give away the secret I told you."
Miss Tongue: "I didn't give it away. I merely exchanged your secret for another."

Farm Outlook For 1939 Good

College Station.—Prospects for increased income for farm families are little better for 1939 than in 1938, Miss Louise Bryant, specialist in home management with the Texas A. & M. College Extension Service, reported on her return from Washington, D.C., where she attended the outlook conference sponsored by the U.S.D.A. bureau of agricultural economics.

"Knowing this, wise families will plan to produce more food for home use, she pointed out. "By producing more, and a larger variety of foods, a fuller and more balanced diet will be obtained and more money will be available for other necessities."

Prices for potatoes, fresh vegetables and fruits are expected to advance. Those who buy canned vegetables and fruits will gain by buying canned goods in quantity now, she said.

"The clothing outlook shows an increase in the price of garments, shoes and boots. Materials are not expected to advance in price as much as garments, and those who make clothing at home may expect a substantial saving through this practice.

Farm women will have an opportunity to add more conveniences and comforts to the homes as electricity, radios and labor saving equipment are not expected to advance in price. Prices of building materials and furniture are expected to increase slightly.

"Those who own automobiles may be interested to know that no increase in the price of gasoline is expected, although tires will probably be a little higher in 1939," Miss Bryant said.

GIRL SCOUT NEWS

The Girl Scouts met at Joyce Billie Speke for a farewell party on January 6, 1939. It was for Miss Jean Reeves, who is moving to Haskell, and Miss Anna Lois Bryan, who is moving to Seymour. It was a surprise to Jean and Anna Lois. There were presents given to them. Then games were played last of all the refreshments were served.

Members present were: Miss Crawford, Scout leader, Jean Reeves, Anna Lois Bryan, Janie Sue Haney, Helen Haymes, Sue Barton, Betty Lou Boone, Lola Jones, Mildred Jones, Betty Golden, Betty Morris, Betty Rhea, Latrae Johnson, LaVerne Haney, Lois Wardlow, Jerry Chamberlain, Bernice Douglas, and Joyce and Billie Speke.

We met again for a Girl Scout meeting on Tuesday, January 10th, and worked on our troop room. We have enjoyed working for the Girl Scouts very much. Everyone was present Tuesday.

Farmers Union Of Rhineland In Meeting Friday

Members of the Farmers Union of Rhineland met at two o'clock Friday afternoon, with Joe Koenig, president, in charge. After the regular business was attended to, the one-variety cotton program was explained by County Agent Walter Rice, Emmett Partridge, L. B. Patterson and A. J. Bunts, members of the Munday Farmers Union, gave short talks regarding the success of the one-variety program around Munday. All urged the Rhineland group to study the program very closely.

The group voted unanimously for adopting the one variety of cotton for this year. A committee was appointed to make a study of the various varieties and report their findings at the next meeting.

WHY I GO TO CHURCH

Hon John Wanamaker

You might just as pertinently inquire "Why do I eat?" or "Why do I sleep?" because I find one is just as necessary to my wellbeing as the other.

I could eat well and sleep well and yet be a very miserable man without the spiritual uplift that only comes from an attendance upon the Divine ordinances. Then again, it is a great privilege to touch shoulders with the earnest Christian men who are also interested in promoting Christ's Kingdom upon earth.

For four years while Postmaster General under the Harrison administration, I traveled nearly 100,000 miles in order to be present each week in my own church.

I have made it the rule of my life to be in my regular place each Lord's Day when in health and in the country, believing that Paul was inspired to write that we should not forsake the assembling of ourselves together.

I also believe that the temptations of every man are great, and unless he has more than the ordinary groundwork of honesty and faithfulness, he may be caught by the sudden wind of plausible opportunity and tumble over the precipice and be ruined.

WORLD'S FAIR A GREAT CITY

New York—The amount of current to be used by the New York World's Fair 1939 during its operation will be equal to that required by a city of 350,000 population.

Dr. R. L. Newsom is in the Wichita Falls Clinic Hospital, where he underwent a minor operation the first of this week.

Munday's Fire Loss In 1938 Is Around \$3,000

Firemen Answer Total Of 17 Alarms In Past Year

Citing what is believed to be the lowest fire loss on records of the Munday Fire Department, the local organization has just completed tabulation of the city's fire loss during 1938.

Records of Curtis Coates, secretary-treasurer of the department, show the loss to be around \$3,000 for the year just ended. This is a fire record that can be envied by many towns the size of Munday.

The fire department's records show that firemen answered a total of seventeen alarms during the year. Ten of these were to fires which were brought under control without there being any loss to property. The heaviest loss on the records for 1938 was estimated at \$1,500.

Local firemen met last Monday night, at which time officers for 1939 were installed.

City Hall Is Remodeled At Small Cost

Less than \$900.00 was paid for the complete remodeling of the city hall in Munday, it was pointed out Wednesday by Riley B. Harrell, city secretary.

Cost of remodeling was cut down considerably through labor done at spare time by employees of the city. Labor expenditures included plumbing work, plastering, carpenter work on the built-in fixtures, and labor for laying the floors.

The hall is very attractive since this work was completed. An itemized statement of cost was submitted by Mr. Harrell as follows:

Laying Aarock tile floor	\$296.75
Plumbing	211.65
Plastering	128.21
Built-in Fixtures and Furniture	83.99

SOIL AND WATER CONSERVATION WEEK TO BE OBSERVED IN JANUARY

Texas could stop her disastrous floods and halt the silting of reservoirs within the next ten years by holding rainfall on individual farms and ranches, C. (Dutch) Hohn, specialist in soil and water conservation with the Texas A. & M. College Extension Service, said in commenting on Governor James Allred's proclamation, made December 27, creating January 8-14 as Soil and Water Conservation Week.

"The conservation job in Texas already more than a third finished as far as the crop land of the state is concerned, and the run-off of water and loss of soil is much greater on cultivated land than on pastures and ranches," Hohn pointed out.

"The 20,000 dams built by farmers and ranchmen during the past two years as water reservoirs for cattle alone have a capacity of more than 200,000 acre feet of water, or over one-fifth the capacity of the great Buchanan dam," he declared.

Texas, one of the last states to realize the value of protective measures against the loss of soil and rainfall, has been a leader in conservation work since the Extension Service began conservation work in 1910, Hohn said. County agricultural agents, vocational teachers, AAA workers, civic organizations, commissioners' courts, the Soil Conservation Service, and farmers have combined to protect Texas land through terraces and contouring at the rate of some 3 million acres a year for the past two years. Some 18 million acres of crop land remain unprotected, he estimated.

"The church, the press, civic organizations, service clubs, and just plain unattached business men are joining in to make Soil and Water Conservation Week a great occasion," Hohn stated. He said many programs had been arranged during the week that numerous ministers would make conservation their theme on Sunday, January 8.

C. of C. Votes To Hold Annual Feed in March

Regular Luncheon Is Held Thursday At Terry Hotel

A representative group of Munday Chamber of Commerce members were present on Thursday of last week when the body met at noon for the regular luncheon hour at the Terry Hotel. A delicious dinner was served to the group.

Matters of interest to the organization, and to Munday, were discussed. A report on the Christmas tree was given by Mrs. Louise Ingram, secretary, who stated that

the community Christmas tree was more successful than any which have been sponsored in Munday.

Some discussion was held on needed improvements at the Munday sewing room. The Chamber of Commerce voted to make these necessary improvements, and a committee was appointed to look into details and to ask the cooperation of the City of Munday in making the improvements.

T. G. Benze, president, then called for discussion on plans for the annual Chamber of Commerce banquet and election of officers. It was voted to hold the banquet, but the exact date was not set. Since bad weather cut down attendance last year, it was decided to hold the banquet possibly a month later than last year. Mr. Benze was authorized by the body to appoint necessary committees to carry out plans for the banquet.

Present at the meeting were: Mrs. Louise Ingram, T. G. Benze, J. A. Caughran, Aaron Edgar, Leeland Hannah, Lee Haymes, W. E. Braly, C. R. Elliott, W. Harrell, Raymond Stapp, George Hammett, P. V. Williams, Riley B. Harrell, J. C. Campbell, W. R. Moore and Dick Atkinson.

R. B. Harrell To Attend Meet At College Station

Riley B. Harrell, city secretary, will go to College Station in February to attend the 21st annual meeting of the Texas Water Works and Sewerage Short School.

During the meeting it is planned to have a specialized program relative to sewerage plant problems in the form of a round-table discussion on the evening of February 14. The school is scheduled for February 13 to 17.

Mr. Harrell has been asked to present a short paper on the subject "Sewerage Irrigation as a Method of Disposal," with particular reference to the results obtained in Munday. Several other persons will discuss the same subject for information of the assembled sewerage works operators, public officials and industrial treatment superintendents who are expected to attend the meeting.

The City Council voted last Monday to send Mr. Harrell to this meeting as a representative of this city.

Weather Report

Weather report for week ending January 11, as recorded and compiled by H. P. Hill, U.S. Co-Operative Weather Observer.

HOW THEY'LL WORK

Announcement of the Texas legislature's working schedule was made this week as the legislature opened its 4-month session last Tuesday. The schedule as laid down by the constitution is:

First 30 days for introduction of bills and resolutions.
Next 30 days for committee hearings on bills and resolutions.
Final 60 days for action on bills and resolutions.

Exceptions to this schedule are when the governor submits any subject as an emergency and when either house votes by a four-fifths majority to change the schedule.

CITATION BY PUBLICATION

The State of Texas, To the Sheriff or any Constable of Knox county Greeting:

M. F. Billingsley, Administrator of the Estate of William Shaw, deceased, having filed in our Court his Final Account of the condition of the Estate of said William Shaw, deceased, numbered 534 the Probate Docket of Knox County, together with an application to be discharged from said Administration.

You Are Herely Comanded, That by publication of this writ for ten days in a Newspaper printed in the County of Knox, you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper to do so, on Monday, the 23rd day of January 1939, at the Courthouse of said County, in Benjamin, Texas, when said Account and Application will be acted upon by said Court.

Given under my hand and seal of said Court, at my office in the City of Benjamin, this 9th day of January, A.D., 1939.

M. T. Chamberlain, Clerk County Court Knox County.
A True Copy, I Certify.
Louis Cartwright, Sheriff Knox County.
By Orvel Capehart, Deputy Sheriff.

LISTEN TO THIS

By TOM FIZDALE

Coincident with the announcement of the change of time of the Star Theatre broadcast (now at 9 p. m., EST, 8 p. m., CST, 7 p. m., MST, 6 p. m., PST, via CBS each Wednesday) came the formal appointment of John Barrymore as master of ceremonies for the star-studded vehicle, bringing the foremost member of America's Royal Family of the theatre to radio listeners regularly. Listeners can thank the excellent agencies of broadcasting from Hollywood for this good turn of fortune. Barrymore's radio appearance on the Star Theatre have not only proven him the most versatile of America's great actors, but the most enterprising master of ceremonies as well.

No one, by tradition, background and ability, is better equipped to head the big name show.

John Barrymore Discussing the origins of radio stations, Bill Perry, tenor star of Saturday Night Serenade, recalls that the station where he broke into radio—in his home town, Nashville—was owned by a man who bought it simply because he wanted to put his favorite church services on the air.

Elizabeth Love, currently heard on Big Sister with Alice Frost, was instrumental in starting Margaret Sullivan on her career. They were school mates down in Old Virginia and when Elizabeth made her professional stage bow in "Strictly Dishonorable," she got Margaret the job of understudying her.

Radio's latest contribution to the movies are Lulu Belle and Scotty, popular hill-billy singers, who have just completed their first Hollywood stint in Republic's "Harvest Moon." The biggest box-office draw in personal appearances ever to play the mid-west, Hollywood predicts big things for them. Incidentally, they may be headlining a new radio show built around the vivacious Lulu Belle before the year is out.

Frank Gill of Gill and Deming, writer-comics for the Joe E. Brown show, claims no home town. His parents, both show people, were so constantly on the move that he wasn't in school very long any one place. Despite that he was graduated from Wayne University with honors.

Did you ever wonder what happens to child radio stars? Here's one unusual answer. Frederick Franklin was the leading child radio star of England several years ago. Today he is a promising young dancer with the Greater Ballet Russe de Monte Carlo, now touring this country.

Now that two of the year's outstanding sustaining radio programs—Information Please and Orson Wells Mercury Theatre of the Air—have won sponsors, perhaps broadcasters will be able to develop some top-notch new features for us.

But few opera singers are heard on daytime programs. Harriet Brewer of the Chicago Civic Opera Company is an exception. She made her start in radio and continues to sing on Hymns of All Churches over NBC, in addition to her opera work this winter.

We remarked some time ago that television is still around the corner. Since then two of the country's biggest radio manufacturers have been disputing each other as to just what the status is. So far as the radio listeners in general are concerned, it still must be some time off, if the leaders of the industry can't agree on it.
