PEASE RIVER BRIDGE BADLY DAMAGED SUN.

The heavy rise of Pease River Sunday caused quite a lot of damage to the bridge between Crowell and Juannah, and for a few hours it was thought unsafe to cross with automobiles.

The waters of the river rose Sunday within about three feet of the floor and large quantities of drift wood and timber floated down, striking the piling and lodging against the bridge, causing a swerving of portions of the structure. In some portions the heavy timbers are said to be partially pulled apart and quite a lot of work will have to be done to put the bridge back in good repair.

Judge Owens went over to the bridge Monday morning and made an examination and he estimates that it will require from \$500 to \$1,000 to get it back in good shape.

Negotiations were underway whereby the bridge was to pass from the possession of Austin Bros. to board and Hardeman Counties and the State but had not been fully closed. It is said nothing further will be done by the two counties and the Highway Commission to take over the property until it is repaired.

In all probability if the flood had come two days later the burden of repair would have been that of the State.

The flood that has caused the damage was one of the greatest ever known. At least the rise in the river was one of the few of so great proportions. It has been many years since there was a rise that endangered the bridge, or that would have endangered it before it was built.

Some men of the community were on the bridge Sunday afternoon when timber was floating down and striking the piling and it was learned that this was a portion of the bridge that had been washed out.

The big rise in the river was evidently caused by floods on the headwaters of the river. The rain here amounted to only a little more than a inch and a half.

House Passes on Crowell School Consolidation

The News stated last week that the matter of validating the Crowell school consolidation had been put up to the Legislature now in special session but that no action had been taken at that time.

The patrons of the Crowell school are glad to know that the House has passed favorably on it and it is now before the Senate. It is a reasonable certainty that it will pass the Senate before the Legislature adjourns and as soon as that body acts we will be ready to have the bonds printed and can go ahead with the new school building.

This matter was taken up with Mr. Covey, our representative, and Mr. Parnell in the Senate and they are giving us their best service on the matter, which is very much appreciated by Crowell people.

Mrs. B. F. Ellis Died at San Angelo Saturday, October 2

News of the death of Mrs. B. F. Ellis which reached here Saturday afternoon brought sadness to many hearts.

Mrs. Ellis and her husband had left Thursday night for San Angelo where Mrs. Ellis was to take treatment for a time in the hope that she might regain her health and intended later to go to Bertram and visit with her mother and other relatives. But she survived only through Friday night, dying at 7:30 Saturday morning while in the hospital at San Angelo.

For many years she had been a sufferer from bronchial asthma and had improved only temporarily when relief was sought but it was thought a change at this time would prove helpful.

The maiden name of the deceased was Miss Stella Davis Vaughan and she was born April 11, 1875. She was married to B. F. Ellis July 25, 1893, to which union six children were born, three sons and three daughters, all of whom survive except John Everett, who died on December 2, 1920, at the age of 7 years.

The deceased is survived by her husband and five children. The children are B. F., Jr., of El Dorado, Ark.; Mrs. C. E. Davis, Miss Annie May, Miss Lucile and Thomas, all of Crowell. She is also survived by two brothers, Dr. T. D. Vaughan and John A. Vaughan of Bertram, Texas; by four sisters, Mrs. T. J. Taylor, Bertram; Mrs. H. E. Magill, Lometa; Mrs. W. O. Barton and Mrs. Clyde Patton, Higgins, Texas, and by her mother, Mrs. S. E. Vaughan, Bertram. The two brothers and two of the sisters, Mrs. Taylor and Mrs. Magill, were here to attend the funeral. The mother, Mrs. Vaughan, who had been here visiting her daughter, the deceased, proceeded to her home and while she was on her way home Mrs. Ellis died. She could not return and be at the funeral.

Funeral services took place at the Baptist church here Monday afternoon after which the remains were placed in the Crowell cemetery. As a token of respect to the deceased and to the family the Crowell school suspended for the funeral services, a token of respect due also to Mr. Ellis, who is a member of the Crowell school board.

Mrs. Ellis was converted in early girlhood and joined the Bertram Baptist church and had lived a great life, such as to commend itself to all who knew her. She was loved for her noble Christian character and was honored for the great part she had had in the rearing of a splendid family.

Mrs. Ellis was converted in early girlhood and joined the Bertram Baptist church and had lived a great life, such as to commend itself to all who knew her. She was loved for her noble Christian character and was honored for the great part she had had in the rearing of a splendid family.

Plan Movement to Use More Cotton Products

Stamford, Texas, Oct. 4.—Indications are that a wide-sweeping campaign for the increased use of cotton products will be under way throughout the Southern States soon as one means of relieving the cotton crisis in that section.

Manager Homer D. Wade of the West Texas Chamber of Commerce, in an effort to help solve the cotton problem of the southern farmer, is formulating tentative plans this week for the calling of an interstate conference the purpose of which will be to discuss the possibilities of using cotton bagging rather than jute or tow sacking in shipping commodities of the south.

Cotton is the great crop of this country, but it is not the only one, and we believe when the farmers come to realize the fact that it is dangerous to incline to the one-crop plan too much they will give more attention to other crops. It would be hard to produce too much cotton if everything else that can be raised received the attention it should have.

It looks like the farmers are waging a losing fight so long as they continue from year to year to make cotton their main dependence. They are at the mercy of the buyer if they must get their living entirely out of that crop, while if they had good crops of things they consume at home they could have some say as to the price of their cotton. A plan of that kind might automatically cut the cotton acreage and consequently remedy the situation, but it will require more time than a few weeks.

Orient Bridge Over Red River Damaged Sunday

The Orient railroad bridge over Red River was very badly damaged Sunday afternoon when twenty-one bents of the structure went out because of the high water.

Service has been continued south from Chillicothe since the damage except the first train south after the damage Sunday night. The passenger train did not run at that time. The north-bound has been coming at the regular time and turning back at Chillicothe and taking the place of the regular train south.

It is reported that the Frisco bridge over Red River was also put out of commission, interrupting service to Quanah.

The Orient bridge over the Brazos is said to have been in danger Sunday night.

Tarver Again Entering the Mattress Business

W B Tarver is installing machinery in the Swaim building north of the Magnolia Station and expects to be ready to begin making mattresses by tomorrow. Mr. Tarver was in this business for a number of years, having sold his business a year ago. He is well known throughout the county for the good work he does and we predict for him a fine business.

Aged Woman Dies Here Monday, 14th

Mrs. Martha Ann Solomon, aged 66 years, 1 month and 5 days, died at her home here Monday, October 4th, after a period of declining health.

Mrs. Solomon and her family were pioneers of this county, having resided in the Thalia community for many years. For some time Mrs. Solomon had been residing at Crowell with her son, Leon.

The deceased is survived by three sons, Dick, Ted and Leon, all of whom reside in this county, and by one daughter, Mrs. Williams, of Iowa Park. All the surviving children were at the funeral services which took place at Thalia Tuesday.

CROWELL SCHOOL NOTES

One month of our school is now gone, and so far as I know, we are off to a very good start, excepting from the weather standpoint, which is very fine for the wheat farmers but not so fine for the cotton growers, or for the folks who have some distance to go in order to attend school. Most every one in school who is regular in attendance seems to be getting down to work very well. It may be said here, and I believe most of you patrons will agree with me, that if your child ever expects to accomplish anything worthwhile in an educational way, it is absolutely necessary for that child to withhold himself from some of the pleasures of this world. It is the duty of the teacher to assist in every way possible to make that child of yours the most intelligent being that he or she can be made, but such is not the duty of the teacher alone, but that teacher needs your cooperation.

Now as superintendent of your schools, I am asking that you assist the teachers in their work by requiring that child of yours to do some home study, and by not permitting him to participate in parties, or attend places of amusement during week nights, that is require him or her, as the case may be, to stay home and study schools nights of each week. Friday, Saturday and Sunday nights ought to be plenty of time for school folks to have parties and to attend places of amusement. I feel that I can assure our good people that if this is done, we will accomplish more this year in school work than has ever been accomplished in one year in the history of our school. The school does not exist for the sake of the teachers, but for the pupils. When pupils are allowed too

much freedom during school nights, to go where they choose to go rather than being required to stay at home and prepare their work for school, such results usually in a great number of failures. Every time a child fails to make his grade, it costs the State of Texas and some school district together several dollars. Every time a child in the Crowell High School fails to make his grade it costs us about \$60, as the first cost, besides the damage it may have done the child, and that is something we cannot always estimate.

It is our plan this year to send notices to parents every three weeks when a child is failing in one or more subjects. Such notices will be for each six weeks period, the report card. Then at the mid-term a notification blank will be sent and we are inviting and asking the cooperation of the parents in overcoming these failures.

Another thing I would like to mention at this time is the Lyceum course, which some twenty of our citizens have thought best to bring to our town again this year. The Lyceum, while it is of an educational value, is not brought here for the benefit of the school alone, but for the entire citizenship of this town and surrounding country. In addition to there being something worthwhile in an educational way, there is good wholesome amusement furnished for every one who attends these programs. You can get a season ticket for \$2.00, which entitles you to attend the five high class entertainments at a nominal price. I assure you that it will be very greatly appreciated if you lend a helping hand towards making our course a success this year.

Year's Rainfall Is Increased to 31.61 Inches

Since our last issue we have had 1.51 inches of rainfall, which added to the year's amount up to that time, brings the total to date up to 31.61 inches.

September shows a rainfall of 5.49 inches, the heaviest of any month in this year. This year already is the third best for rainfall within the last thirteen years. It is surpassed by those of 1919, which had a rainfall of 39.49 inches, and 1923, which had 37.97 inches. There are three months more of the year to come and the probabilities are that this will see the biggest rainfall of any within the last 29 years.

Crowell Defeats Paducah 10 to 0

Last Friday on a field wet and muddy from recent rains, Crowell outplayed Paducah. She won the game on Paducah's own field and also outplayed them in every respect. A touchdown was made by Captain Ashford after Raymond Burrow had carried the ball to Paducah's five yard line on a long end run. Ashford also made the extra point after touchdown from placement. During the second quarter Paducah threatened to score, carrying the ball to Crowell's fifteen yard line, a pass was grounded and the ball went over. Norman then punted out of danger. In the fourth quarter, after getting the ball on Paducah's twenty yard line by straight football Ashford booted a field goal.

The team played a better defensive game than offensive. There were no individual stars, the line and backfield worked equally well.

Lineup: L. M. Norman, L. T. Cogdell, L. C. Moore, C. Swaim, R. C. Cook, R. T. Dowty, R. E. Hallmark, L. H. Lawson, E. H. Ted Burrow, Q. Raymond Burrow, F. Ashford, Substitutes, Carter, Bell, Long.

The team is being pointed toward the Knox City game Friday, October 8, to be played in Crowell. Much time is being spent on formations, interference and defensive play.

Anxious to See Some Dry Weather and More Sunshine

Wet Texas is known as a land of sunshine, but for the last three weeks we have had a superabundance of moisture, and while business to some extent has been demoralized, mail service disturbed, traffic held up and impeded, yet we feel that the last thing for a West Texan to do under the circumstances is to complain. We can stand all the inconveniences when we know that the recent rainfall means prosperity in the future. They may have caused some property losses but these are not a drop in the bucket when compared with the blessings they have already and will bring to the people of this country.

But while all that is true, we should like to see some dry weather. The gins are getting anxious to get busy and the hard-working farmers are wanting to gather the thousands of bales of cotton now hanging on the stalk. They need the money and all business interests need the impetus it will mean to the business life of the community. Sixty days of sunshine would be the most welcomed thing we could have just now in the way of weather conditions. That much time would enable the farmers to get most of their cotton out and the wheat men to get the balance of their acreage sown to wheat.

Gail Man Putting in Grocery Store Here

A. B. Spears of Gail in Scurry County has moved to Crowell to make his home and is putting in a stock of groceries in the George Allison building north of Swaim's garage. Mr. Spears expects to be ready for business within a short time. He is a pioneer of West Texas having lived in Scurry County for 36 years.

About 1000 Bales Ginned Up to Date

Tuesday morning Public Weigher Geo. Allison said he weighed 940 bales of cotton and stated that if it had not rained so that picking had been interrupted he would have weighed at least 1500 bales.

If the weather remains favorable by the last of the week picking and ginning will again be in full swing and if pickers can be had the gins will soon be running day and night.

MRS. M. A. SOLOMON

Mrs. M. A. Solomon was born August 29, 1860, and died October 4, 1926, at the age of 66 years, one month and 5 days.

She was married to E. M. Solomon August 8, 1875. To this union were born eight children, four of whom preceded her to the great beyond. Also her husband who died March 30, 1920.

She moved with her family to this county several years ago from South Texas. At the age of 31 years she was converted and united with the Presbyterian church and lived a sweet Christian life. About 5 years ago she united with the Methodist church of Thalia, there being no Presbyterian church at this place. She has many friends at Thalia who mourn her going. She was loved by everyone who knew her. She is survived by one daughter, Mrs. C. M. Williams of Iowa Park; three sons, J. R. and E. M. Solomon of Thalia, and Leon Solomon, who lived with his mother at Crowell at the time of her death. They were all present with their families for the funeral which took place at the Thalia cemetery at 3 o'clock October 5, with Rev. T. M. Johnston, her pastor, officiating. Other relatives who were here for the funeral were Mr. Gillespie, a son-in-law, and son, Randolph, of Odessa, Texas; Charlie Solomon of Chidress, Mrs. Everett Cantrell, a granddaughter and family of Iowa Park.

A large crowd from Thalia and several from Crowell attended the funeral.

It is so hard to give her up, but our loss is Heaven's gain. May God's richest blessings be with each and every one of the bereaved ones. We cannot bring her back to this world, but we can go to her in that home not made with hands where we know she awaits our coming. May God bless the children and their families.

Signed: One Who Loved Her Dearly.
R. B. UNDERWOOD, Supt.

CITY LAKE IS FILLED SUNDAY FOR FIRST TIME

The recent rains can not be estimated as to value either to Foard County or to Crowell. For the county they mean that we shall have a season for small grain crops and for the city of Crowell they mean that we are to have an abundance of water for the city's use.

The lake was filled Sunday afternoon and the water ran over the spillway to a depth of about four inches. So the lake is now full and contains a hundred million gallons of fine water. It has been estimated that the lake full would give us a supply for two or three years without any more rainfall. Allowing a 50 per cent evaporation that would be true if our consumption of water is not increased very materially over that of the present. Something like a million and half gallons are now being used by the city, the Orient and the ice plant, which is a million gallons more than was being used at the same time a year ago. But we expect the consumption to increase, for Crowell will continue to grow and more water will be used next spring and summer for lawns and trees. But even a two years' supply of water is a large amount to be stored and under extreme conditions it should be sufficient for all needs.

Mayor George Self is making every effort possible to get bass from the Government with which to stock the lake. October is the last month until May, however, when they can be procured, and it may be that we are too late to get them before next spring. It will be stocked sooner or later.

WORK FOR NEW ROAD MAKING GOOD PROGRESS

According to the Vernon Record, the work on the new railroad proposition is going forward with satisfactory progress. S. M. Porter was recently at Vernon and conferred with local officials of the new project relative to further work. The following paragraphs were printed by the Record:

S. M. Porter, of Caney, Kan., promoter of the Ardmore, Vernon and Lubbock Railroad Company was in Vernon Saturday and met with R. M. Fielder and L. K. Johnson in regard to the questionnaire sent out by the Interstate Commerce Commission on the proposed road from Ardmore, Okla., to Lubbock.

Mr. Porter reported that work was progressing nicely and bonds are being printed. The compiling of data for the prospectus and questionnaire for the Interstate Commerce Commission is to be done immediately, Mr. Porter said.

The officials of the proposed road are to spend the next few weeks working on the prospectus and questionnaire and all plans will be worked out in at least five weeks. Mr. Fielder declared.

Mr. Porter left for his home Sunday morning.

GINNERS' REPORT

Following is the Government report of the cotton ginned up to Sept. 16, in Foard and adjoining counties:

	1925	1926
Baylor	196	189
Cottle	178	7
Foard	180	11
Hardeman	187	35
Knox	344	713
Wilbarger	551	80

In West Texas cotton has opened earlier than it did a year ago, but in most of the big cotton counties of East and South Texas it was earlier last year, and there were 183,984 bales more ready to put on the market a year ago than at the same time this year. Prior to Sept. 16, 1925, there had been ginned in Texas 1,283,868, while prior to the same date this year there had been 1,099,884.

Wealth may be a burden but you always get relief.

Highbrow author says intelligence is a crime in America, and it might be hard to prove it on anybody.

RAYLAND

(By Special Correspondent)

Mrs. Tom Allen, who has been visiting friends and relatives at Brownfield, returned to her home last week.
Mr. and Mrs. Clarence Culver left Saturday for Sulphur, Okla., where they will make their home.
Fred Ballew made a business trip to Margaret Friday.
Born to Mr. and Mrs. Bert Abston

September 23rd, a baby girl.

Mr. and Mrs. E. W. Crisp of Slaton visited Mr. and Mrs. A. W. Crisp Friday night.
Mrs. Dewitt Edwards, Mrs. Carl Austin, Mrs. Erwin Edwards and Mrs. Laura Crisp were guests of Mrs. Bert Abston Thursday.
Mr. and Mrs. Clarence Culver spent Friday and Saturday with his parents.
Arnold Crisp left Saturday for Sulphur, Okla., where he will hunt for

cotton pickers.

Mr. and Mrs. E. W. Crisp who have been visiting friends and relatives here, returned to their home on the plains Sunday.
Miss Grace Crisp spent the past week with Mrs. Clinton Crisp.
Mrs. Bob Steedly and Mrs. Reynolds are ill at this writing.
Among the Vernon visitors Saturday were, T. J. Haynes and daughters, Katherine, Eva and Emma Lee, Sam Robertson, Marshall and Clyde Guthrie, Cleve Carmichael, H. D. Lawson and Walter Jobe.
Odis Morrow and Miss Helen Yarbrough of Vernon visited Misses Katherine and Eva Haynes Friday night.
Mr. and Mrs. Alfred Greenway have moved to Gail where they will take charge of a filling station.

SAFETY IN CHECKS

One of the subjects most prolific in the way of texts for comment is that of the safety provided by banks to persons to engage in financial transaction of any kind. Many more persons should adopt the plan of making payments of all kinds by checks instead of in currency.

Every few days the newspapers publish accounts of thefts which have been committed in cases of persons who withdraw sums of money from the banks, or use money they have kept in their home for payments on property or other transactions.

A bank check eliminates all possibility of loss of money in making payments. Bankers are particular to know that persons presenting checks for payment are entitled to the money, and even if a check is stolen it is highly improbable that it can be negotiated by the thief. Banks require identification before making payments on checks, and the writer of the check can immediately stop payment on it if it is stolen.

Persons who keep money in considerable amounts in the home do so at their own risk. Would-be-thieves have means of securing information which may not be suspected by the person who keeps money in his home, or they may

even take a chance of finding currency hidden about the house. The resulting loss is the same. There is no reason why any individual should draw currency from the bank when a check will complete a financial transaction; neither is there any excuse for a person who receives money undertaking to be his own banker.

LOYALTY

Loyalty has been the theme of poets and fictionists for years. It is a priceless human trait, sometimes demonstrated more forcibly by dumb animals.

Few people appreciate the value of loyalty in living a well rounded life. Loyalty to home, job and country are essential if a man is a good citizen. Without this attribute, he has few real friends and is traitor to himself.

It goes without saying that community loyalty is of equal importance with loyalty to country, though it does not call for the same type of sacrifice that is sometime demanded of those who are loyal to their native or adopted land.

But loyalty to community does call for some sacrifice. It demands that we remain true to the place where we live even in the face of adverse criticism. Loyalty for home means support of home projects and all institutions which belong to our community. It means standing by them even though it costs something. Any community that is worth living in deserves the loyalty of every citizen.

A PRIZE FIGHT

Another heavyweight prize fight has been fought, the first in three years, and lovers of the sport paid close to two million dollars to witness it. A few years ago a million dollars in receipts at a championship battle or world series games started the sporting world.

The lover of the squared circle contests can't understand why everyone is not interested in this branch of sport, and those who care nothing for fistic encounters are unable to comprehend what there is to a prize fight that will cause men and women to go insane temporarily.

People disagree on many subjects. It is natural that they should not all like prize fights. Not everyone enjoys a football game, a basketball game or a baseball game. This is fortunate that we don't all think alike or find pleasure in the same things.

Prize fighting is more vigorously opposed than any sport in existence. It can not be reasoned that prize fighting is elevating. It is rather degrading. The manly art of self de-

fense is always valuable, but when a man uses it to increase his bank account, he does not raise himself in the esteem of the average person.

There is a certain amount of science in prize fighting, of course. However, the argument that it is brutal is unescapable—more brutal than any sport which has the favor of the American people. This accounts for the resistance that is made by many elements of society to prize fighting.

For many, many years to come there will doubtless be prize fights. Some of us may not agree that it is good sport, but we haven't the right to expect everyone to view all subjects in the light that we do. If there are 140,000 people who want to pay \$2,000,000 to see a hand-to-hand fight between two men in a test of brute strength, that's their business.

The difficult things is not to make laws respected, but to make respectable laws.

The man who is contented with his lot generally lets the weeds grow in it undisturbed.

Try something on your own string once. Anybody can sing when everybody sings.

But there's that wartime job in the shipyards that Dempsey can fall back on in emergency.

If the decision is necessary we'd prefer being hard-boiled to being soft-soaped.

An optimist is an old soak who reflects that at last whiskey costs as

much as it is worth.

SICKLY, PEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by

Perfection Stoves

Win Endorsement

of Six Famous

Cooks

The Experts are:
Lucy G. Allen,
Boston

Belle DeGraff
San Francisco

Margaret A. Hall,
Battle Creek

Rosa Michaelis,
New Orleans

Sarah T. Rorer
Philadelphia

Kate B. Vaughn
Los Angeles

From New England to New Orleans, Golden Gate to Philadelphia, comes praise for the Perfection.

Six famous cooks in their own kitchens baked, roasted, broiled, fried and stewed 197 different dishes on the Perfection stove. They subjected the stove to cooking tests far more severe than the average housewife would in a score of years.

MEETS EVERY TEST

Every dish was deliciously cooked. And each of the six famous cooks was satisfied with the results achieved on the Perfection. They recommend it for every cooking task.

They are praising the Perfection for its good cooking performance, its cleanliness (no sooty kettles), its dependability, convenience and safety. They find the Perfection fulfills every cooking requirement. **WHAT DOES THEIR APPROVAL MEAN TO YOU?**

Come in and let us demonstrate the new 1926 Perfections.

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, October 8, 1926

The Senate did not vote favorably on the 3 cent gas tax and we must therefore wait until after January 1927 before we can expect action and possibly not then. Indeed there will be slim hope if the House and Senate remain at loggerheads as they have been during the special session. We were anxious to see the 3 cent gas tax become a law, primarily for what it would mean for the highways, and secondarily for what it would have meant at this time to relieve the situation with reference to the public schools of the State. We doubt if the Senate has expressed the public sentiment in regard to the matter, but it is certain that it complied with the wishes of the big oil interests. Under the circumstances it seems that the Senate would have done the big thing to have foregone the pleasure of defeating the Governor by turning down the proposition which she had so strongly favored and come to the relief of the public schools. Granting that she is responsible for the school situation in that she failed to call for an appropriation at the proper time, it seems that the best way out was to comply with her wishes by passing the gasoline tax. As it is the school term must be cut short. The Senate had the power to relieve the situation but seemed to prefer to slap 1,300,000 children in the face, if by so doing, it could also slap the Governor.

The cotton marketing problems will always be a worry to the South until the farmers have in their hands some control of the production. One cannot get around the fact that the law of supply and demand are still and will always be the dominant factors in controlling the price of any commodity. Governors' conferences, mass meetings and things of that kind might be worth while but the fact still remains that the South has too much cotton and the world knows it. The advice to cut the acreage is fine but it is almost impossible to have a general acreage cutting all over the South. Some will cut, others will not, so there you are. The problem is too big for the small man to solve, but there is one thing he can do, and that is he can make more hog and hominy, and when he gets to doing that the cotton marketing problem will solve itself.

Hundreds of thousands of dollars have been lost to Texas and Oklahoma counties within the last two weeks in the loss of bridges. This indicates that in the matter of bridge building Texas and Oklahoma have not entirely passed out of the stage of building temporary bridge structures into that of the permanent. In the long run it is cheaper and better to build one bridge that will stand than to build two that will not stand. We have been building dry-weather bridges in these states and that has always been poor business, for when it rains in this country water accumulates and has the same force it has in any other country.

Clarence Darrow is said to have upheld the action of a Denver man who recently attempted to take the life of his 15-year old son and then did take his own life. The great lawyer is criticized for his attitude in the matter but say what you may, the Denver man did actually do the best thing that could have been done.

CHARLIE CHAPLIN IN "THE GOLD RUSH"

Tears and Tragedy Turned to Comedy

CHARLIE CHAPLIN AT PEAK OF HIS CAREER IN "THE GOLD RUSH," NEW FILM

Charlie Chaplin's new picture, "The Gold Rush," coming to the Home Theatre next Monday, Tuesday and Wednesday is announced as a comedy drama with a story of laughter and tears and of hope deferred. It is a rugged story with the spectacle of a valiant weakling in search of gold in the biting blizzards of the north.

"The Gold Rush," a United States Corporation release, brings Charlie Chaplin to the topmost peak of his dazzling career. His work in this picture will place him secure as the greatest pantomimist of all recorded time. This story of the Alaskan gold rush, interwoven with all the jabbings of fate that well can come to one who typical of life—almost reaching the goal, and watching its shadow disappear with the pained expression that only a Chaplin can wear—is a story crowned with the majesty of enterprise and the futility of it.

This comedy-drama-tragedy of the Alaska of bygone days is called Chapman's greatest picture for 2 reasons. It is said to represent his intellectual and artistic growth fresh from his dramatic triumph, "A Woman of Paris," and secondly, it runs the entire gamut of human emotions; the blended panorama of life, the subtle and vital essence of it, the defeat and the victory and growth of a soul in struggle.

And through all the picture Charlie has not forgotten the children. There is a tenderness in the little comedian for the children of the nations. They were his first admirers and well he knows it. It was their response that led him on to fame and fortune. And always, in the making of comedy, he considers them.

And yet, in his role of the hardluck sardonic, Chaplin presents the biography of a life with complete understanding and sympathy. And while the pathos and sufferings of the characters are converted into laughter, there is linked to the picture a chain of circumstantial tragedy that is relieved by the great comedian's ribald mastery of pantomime and comedy.

Charlie Chaplin in "The Gold Rush," fresh from its triumphant presentations in New York, Chicago, Los Angeles and other large cities will be shown in Crowell for the first time next Monday, Tuesday and Wednesday evenings at the Home Theatre where it is booked for a limited engagement. Admission 25c and 50c.

The Telephone's Inheritance

In its material equipment the telephone was born poor. The art of telephony inherited little from older branches of the art of communication that could help its technical progress toward its destiny of usefulness. There was, however, a spiritual heritage, for the telephone worker was heir to the tradition that has grown with the years among those who undertook to transmit or transport the words of men, says the Texas Public Service Information Bureau.

The message must go through! Greek runner, Roman Courier, King's messenger, and Pony Express rider, sped to their distant goals self-urged by a consciousness that human need was being served. At the switchboard or telegraph key, in the mail car or airplane, the manifestation of this urge is ever present.

Telephone service by its very nature inherits this Spirit of Communication. For the men and women who comprise the organization that is today responsible for the delivery of 50,000,000 messages a day, it is the endowment with which their service began.

Claude Brooks of Vernon, son of Mrs. J. W. Klepper of Crowell, has accepted a position with the City Tailors and will be here Sunday to assume his duties. Mr. Brooks is a very capable man in his line, especially is he good with alterations, and the management of the City Tailors are happy that they have secured the services of Brooks, and he will be a welcomed addition to the business life of Crowell.

**Headache
dizziness**

"I HAVE headache once in a while, usually coming from constipation or torpid liver," says Mr. L. A. Morphis, of Pottsville, Ark., "and the very best remedy I have found to correct this condition is Thedford's Black-Draught. It acts quickly and easily, and it just can't be beat."

"Black-Draught is the very best laxative I have found. I always feel so much better after taking it. My wife takes Black-Draught, too. For dizziness, costiveness and any little stomach disorder, we find it most satisfactory, and consider Black-Draught a family medicine."

Constipation, with an inactive liver, locks up poisons in the body and allows them to do their dangerous work.

Being purely vegetable and containing no harmful drugs, Black-Draught acts gently, helping the system get rid of impurities and preventing serious sickness. Get a package today. Sold everywhere. 25 cents.

BALLARD BROTHERS

WEST TEXAS NEWS

(By West Texas C. of C.)

Tahoka—Excavation work was begun recently on the erection of a new \$100,000 high school building for Tahoka. The present city investment in public school buildings is about \$65,000.

Megargel—Five hundred and forty bales of cotton have been ginned here at the present date, and there are two or three thousand in the field to pick. Gathering has been stopped temporarily due to wet weather. There is a scarcity of pickers in the section also.

Amarillo—Approximately two and a half million dollars are to be spent to improve the Santa Fe service into and through Amarillo. Twenty-two miles of double trackage will be constructed, according to railway officials.

Clyde—Proposal of water and sewer bonds for the city seem to be gaining in favor among Clyde citizens.

Childress—Work is now in progress here on a new lighting system which calls for the installation of approximately 100 new lights. Extension of the city sewer ditches and construction of a new disposal tank

is progressing rapidly also. Approximately \$84,000 is being expended in this work.

Wheeler—Foundation for the gin house of a new four stand gin has been completed and lumber and materials for the erection of the structure are being placed on the grounds.

Midland—A new section containing about 100 boxes has been installed in the local postoffice, making a total of approximately 1100 practically all of which are taken. This is the second time within recent months that new sections had to be added.

Mobeetie—Lots are being surveyed and streets laid off for a new addition to Mobeetie. Land just north of the new lots is to be divided into small acreage tracts. Building has already begun in the new section of town.

O'Donnell—Main thoroughfares and lateral roads are being graded here to prepare for the heavy tonnage that will be brought over them this fall.

Kirkland—The Kirkland section of Childress County reports better crops this year than any other time in history of the county. Wheat, cotton and maize yielded especially well.

Trent—Contractors have begun work here on the erection of a new business block to be occupied by three mercantile establishments.

Sudan—Extra fine feed crops are reported by farmers of this section. Estimates are that corn will make from 35 to 50 bushels an acre and cotton will average at least one-half bale an acre.

Amherst—E. F. Huntsucker of Abilene has assumed the editorship of the Amherst Argus, having purchased the paper recently from J. L. and E. W. Tullis, now connected with an Abilene weekly paper. Huntsucker was formerly editor of papers at Roby and Roscoe.

Bridge Club Entertained

Mrs. R. J. Roberts was hostess to members of the Swastika Bridge Club Thursday afternoon, Sept. 23. Choice roses in soft tints lent their beauty and fragrance for the occasion. Mrs. Dow Miller won high score, while consolation went to Miss Esther McCoy. A delicious ice course was served to the club members and Miss Esther McCoy as guest. The hostess was assisted in entertaining by Mrs. H. Schindler. The next meeting of the club will be October 9th with Mrs. Jack Brian.—Reporter.

Hope to Have More Butter Soon

We wish to say that the shortage of our butter has been due to flies worrying the cows, bad weather and at the present time a shortage of cows, but we will have several fresh cows within a short time and hope to increase our supply to take care of the demand. We are thankful for the liberal patronage and are indeed sorry we have been handicapped at this time in supplying the butter demand.

Yours truly,
W. E. EMERY.

A Merchant's Responsibility Never Was Carried in a Peddler's Pack!

WHERE could you find today the door to door salesman who sold you something yesterday?

Consider, if you please, how easy it is for him to transact his business without fear of future complications.

He never need worry about the inferiority of the quality of his commodity he sells. Whether it lasts a day or year is of no consequence to him. His sole aim in business is to convert his stock into dollars and cents. Your home-town merchant is definitely and permanently established in your community. He strives for your satisfaction today because he wants your patronage tomorrow—and he intends to deserve it by offering only dependable quality, reliable branded merchandise and substantial values. His responsibility is not to be questioned—it's as steadfast as the foundation of the store he occupies.

WON'T SHE MAKE THE HILL ON HIGH

When your motor is hitting on all cylinders—yet shows marked weakness it needs our attention. No matter what is needed—whether it is merely adjustments, carbon cleaning, valves re-ground, or if it needs a complete over-hauling we are equipped to do it economically, efficiently and to your entire satisfaction.

Worn and scored cylinders are responsible for 90% of motor weakness. We have modern equipment for measuring and correcting them. Let us look it over.

UP-TO-DATE REPAIR SHOP

Junior Class

A class meeting for the Junior Class of '26 and '27 was called for the purpose of electing class officers and class sponsor. Mr. W. J. Morris was elected class sponsor. The class officers were elected as follows: President, Martha Schlagal; vice president, Hallie Mae Johnson; secretary and treasurer, Dorothy Hinds; yell leader, Tom Reeder; reporter, Lucile Kimsey.

The class color, flower and motto have not been decided upon.—Reporter.

Senior League Program

Subject—The Prophets call of the New Testament.
Leader—Lottie Russell.
Scripture lesson, John 20:21-23.
Leader's address.

Important practical aspects of our subject for us to consider today:

1. Lucile Kimsey.
2. Charlie Ashford.
3. Lola Bell.
4. Clyde Hollingsworth.
5. Irene Patton.
6. Marion Cooper.

Piano solo—Jewell Brown.
All leaguers please be present as we have important business to discuss.—Reporter.

Sometimes talk is cheap and sometimes it isn't. Often a little of it costs a lot of money.

It doesn't pay to be as busy as a bee all the time or someone may step in and get your honey.

Birthday Dinner Is Given to Parents

The following item is taken from a San Angelo paper and is an account of a birthday dinner given Mr. and Mrs. G. W. Wallen by their daughter, Mrs. G. C. Rector, celebrating the 75th birthday of Mr. Wallen:

On Saturday, Sept. 18, Mr. and Mrs. G. W. Wallen returned to their home in Crowell, Texas, after a two weeks visit with their daughter, Mrs. G. C. Rector on West 21st street. Mr. Wallen passed his seventy-fifth birthday Sept. 15th which was most fittingly celebrated by a delightful surprise dinner given by Mrs. Rector who is a delightful and pleasant hostess. The menu was well planned and such as to tempt the most fastidious appetite.

After dinner was served the elderly people indulged in many pleasant reminiscences of the past. Some snapshots were taken of the group and the guests departed wishing for Mr. Wallen many happy returns of the day especially if it should be accompanied by another such delicious dinner.

Mr. and Mrs. Wallen are beautiful Christian characters making one think of the lines of Robert Browning where he says:
Grow old along with me!
The best is yet to be—
The last of life, for which the first was made:

Our times are in His hand
Who saith "A whole I planned,
Youth shows but half; trust God;
see all nor be afraid."

Those present were: Rev. and Mrs. Campbell, Bro. and Sister Israel, Rev. and Mrs. Henderson and children, Rev. and Mrs. Estes, Rev. and Mrs. Dickerson, Mrs. Davis and baby. Mr. Wallen received many nice presents.

Lots of beauty helps are wasted. They are like putting perfume on onions.

Adelphian Club

The Adelphian Club met Wednesday, September 29th at the home of Mrs. M. S. Henry with Mrs. Fred Rennels as hostess.

The lesson for the afternoon was a study of the first two parts, introduction and morning, of Pippa Passes, by Robert Browning. This drama of Browning's is considered one of the most beautiful of his poems. It is the story of a little mill girl who with her songs as she passes along the streets on her holiday adjusts unhappy situations in the lines of the ones whom she considers the happiest born in Asolo. In the introduction Pippa is presented happily and wondering in anticipation of her one annual holiday, and in morning two human beings are saved from themselves on hearing her sing "God's in His Heaven," as she passes along the street.

Mrs. R. D. Oswald gave chapters IV. and V. from "The Business of Being a Club Woman." These chapters deal largely with the club meeting itself and parliamentary procedures in such meetings.

The hostess served sandwiches, salad, chocolate and cake at the close of the lesson.—Reporter.

NOTICE BY PUBLICATION

THE STATE OF TEXAS,
County of Foard, in County Court.
THE STATE OF TEXAS
To the sheriff or any constable of Foard County, Greeting:
You are hereby commanded to cause to be published in the Foard County News, a newspaper of general circulation published in said county, at least once a week for 10 consecutive days before the return day hereof, the following notice:
THE STATE OF TEXAS

To all persons interested in the estate of Nettie Eldridge, deceased: J. R. Eldridge has filed in the county court of Foard County, an application for the probate of the last will and testament of said Nettie Eldridge, deceased, filed with said application, and for letters testamentary of the estate of Nettie Eldridge, deceased, which said proceeding will be heard by said court on the 6th day of December, 1926, at the court house of said county, in Crowell, Texas, at which time all persons who are interested in said estate are required to appear and answer said proceeding, should they desire to do so.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon showing how you have executed the same.

Witness my hand and official seal, at Crowell, this 5th day of October, 1926.

motor car Performance

that startled the motor car industry

THE motor car industry was startled when Buick presented the new Buick with an engine vibrationless beyond belief.

If you have driven this great new car, with this remarkable engine, you know why.

Its fluid smoothness makes other motor cars seem rough, harsh, noisy.

People who have driven Buicks for years and people who have owned much more expensive cars, are captivated by the luxury of this one.

Keep Eliminative System Active

Good Health Requires Good Elimination

ONE can't feel well when there is a retention of poisonous waste in the blood. This is called a toxic condition, and is apt to make one tired, dull and languid. Other symptoms are sometimes toxic backaches and headaches. That the kidneys are not functioning properly is often shown by scanty or burning passage of secretions. Many people have learned the value of *Doan's Pills*, a stimulant diuretic, when the kidneys seem functionally inactive. Everywhere one finds enthusiastic *Doan's* users. Ask your neighbor!

Statement

Of the ownership, management, etc., required by the act of Congress of August 24, 1912, of the Foard County News, published weekly at Crowell, Texas, for October 1926.

State of Texas, County of Foard.

Before me, a notary public, in and for the state and county aforesaid, personally appeared H. L. Kimsey, who having been duly sworn according to law, deposes and says that he is publisher of the Foard County News, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to-wit: That the names and addresses of the publishers, editors, managing editors, and business managers are: H. L. Kimsey and T. B. Klepper, whose addresses are Crowell, Texas; that the owners are: H. L. Kimsey and T. B. Klepper, Crowell, Texas; that the known bondholders, mortgages and other security holders owning or holding one per cent or more of the total amount of bonds, mortgages, or other securities are: Mergenthaler Linotype Company, New York, N. Y.

H. L. KIMSEY,
Sworn to and subscribed before me this 4th day of October, 1926.

LEO SPENCER.

Christian Church Notes

There will be preaching next Sunday, October 10th at 11 a. m. and 7:30 p. m., by Bro. C. V. Allen. All those who gave their names for membership in the Christian church at the late Morris revival meeting are asked to meet with the congregation at 11 a. m. or 7:30 p. m. next Lord's day. Please make arrangements and meet us then. Don't forget the Bible school at 10 a. m.

All are invited to come and are made welcome at all services.
A. R. CAUDLE, Pastor.

Florists say old-fashioned flowers are coming back, as hard as it is to believe that anything old-fashioned would be fashionable except antique furniture.

A thoughtful husband is one who scatters the Sunday paper in only one room.

Nothing like a motor car for bringing out the breeding that some people haven't.

Dead men tell no tales so the bootleggers don't care who they sell their stuff to.

Negroes Hurt in Tornado at Lubbock Friday

Five negroes were injured, two of them rather seriously, when a house on the Myrick farms, west of Shallowater, was destroyed by a cyclone shortly after 7 o'clock Friday evening. There were 12 negroes in the building at the time the storm struck, though seven of them escaped injury.

The twister preceded the rain which starting Friday night and continuing over Saturday, was still falling last night, deluging the already drenched South Plains. The rain in Lubbock from Friday at 6 p. m. to Saturday at 6 p. m. was officially 2.85 inches, and was approximately four inches before midnight. Reports from Levelland, Littlefield, Crosbyton, Plainview, Floydada, Brownfield and Tahoka were of heavy rains. Not much rain fell at Post.

The Shallowater twister destroyed several other buildings and out-houses in the community and farm machinery was scattered to the four winds. Heavy timbers were driven four feet into the ground while wire fences were rolled into large balls.

The storm came without warning though dark clouds had been forming for several hours. A heavy gale passed over the community shortly before the tornado struck, but as it spent itself citizens of the community felt the worst was over and many of them were at their tables enjoying the evening meal when the crash came.

The wind was traveling at a rate of 70 miles an hour and smaller houses could not have withstood it even had it been straight. It came from the southwest and moved in a northeastwardly direction. Reports from Shallowater, Littlefield and Anton indicate that little damage was done, and that the storm broke before going any great distance.

Cyclones in this section are not unknown, though they are uncommon.

At Floydada the streets were reported to be rivers. At Levelland the rain had been falling for thirty-six hours. In Lubbock gutters and street intersections were veritable lakes, and unpaved side streets were seas of mud.—Lubbock Avalanche.

Men as a rule don't knock because they failed; they failed because they knocked.

The biggest problem in this country is to keep the times and the people both good.

Our idea of a person who has time to spare is one who will sit through a movie twice.

GIVE WINTER

A WARM RECEPTION

Don't let winter slip up on you unawares and find you with your coal bin empty. It might please King Winter but it would be a source of great inconvenience to you.

WE SPECIALIZE

in filling coal bins. There is no bin too small or too large and there is no coal requirement that can't be met here—for large or small residence or any mercantile establishment.

The prices of coal vary, but the quality here never does. The price depends in a measure upon the need, but all coal purchases here meet a high standard of heating quality.

Cicero Smith Lumber Company

expert says:

The "Perfect Retention Shields," hold the rupture perfectly no matter what position the body assumes or how heavy a weight you lift. They give instant relief, contract the opening on the average case in ten days and strengthen the weak tissues (the real cause of rupture) so that they frequently recover their previous natural retaining power needing no further outside support. Stomach trouble, backache and constipation often caused by rupture, promptly disappear.

While providing safety and comfort to all old and aggravated cases, the results are most favorable when the rupture is just discovered and still small; it will save you no end of trouble, pain and expense in the future if you now take advantage of this opportunity. No leg straps or elastic bandages are used. Can be worn while bathing and are highly sanitary.

Letters from highly satisfied clients available.

WARNING: Advertised mail order contraptions are worthless and so are elastic belts with their chafing, filthy legstraps. They not only make your rupture worse, but cause stomach trouble and often backaches by pressing on the lump instead of holding the intestines where they belong. There is therefore always danger of strangulation. No medicine will help a rupture and you cannot fit yourself.

Call on me and let me show you. 95 per cent of all children, according to statistics, get rid of their rupture if fitted with the right kind of sanitary appliance.

Business engagements prevent visiting any other city in this section. C. F. Redlich, Rupture Appliance Expert, Home office, 535 Boston Block, Minneapolis, Minnesota. 16p
