Two of our local physicians, accompanied by the sheriff, went to Vivian Tuesday to set a broken thigh of a child of a family of the "holy roller" faith. It appears that the parents of the child and other members of the sect had been trying to heal the wound by the means of prayer, and the patient's condition was becoming critical. The local doctors found the wound in bad shape, yet it was sometime before the officers and doctors could persuade those having the child in charge to have the fracture reduced.

After trying many brands of medicines—so-called relief for gas, and all of them a failure gave up hopes. By chance I tried Alka-Seltzer—I am more than satisfied. Geo. Bennett, New York, N. Y.

Startling price reductions, just announced, place Chevrolet further ahead of its field than ever—in price, quality and value. In the face of the biggest demand in years, right when the trend toward Chevrolet is at its peak, Chevrolet reduces prices! No wonder America was startled when this news flashed across the country just a few days ago. And now that the public has had a chance to figure out what this price reduction means in terms of greater value, the news becomes even more important than before. Because it means that Chevrolet now offers you a big, substantial, quality car with the famous valve-in-head engine for as little as \$465, f. o. b. Flint, Mich.—making it by far the lowest-priced Six in the world. It means that you can get enclosed Knee-Action, Blue-Flame performance, cable-controlled brakes, and all the other big advancements of the day, for as much as \$35.00 less than before—and Chevrolet's former prices were already among the lowest of the low. It means, in short, that Chevrolet now presents America with the finest buy the low-price field has ever seen.

THE Foard County News

T. B. KLEPPER, Editor-Owner. MACK BOSWELL, Asst. Editor.

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, June 28, 1934

"VOLUME 44"

With this issue, The Foard County News begins its forty-fourth year of continuous publication in Crowell. Established in 1891, shortly after the organization of Crowell and Foard County, The News has since operated under the same name and is the oldest member of the family of business institutions in Crowell.

The present editor has been connected with this publication longer than any other individual. After a few years as a printer's devil, he and H. L. Kimsy became the owners of the paper in 1906. In 1911 it passed to other owners, but in 1917 the partnership of Kimsy & Klepper was again formed in publication of The News and continued until Jan. 1, 1929, when Mr. Klepper secured Mr. Kimsy's interest. He has since been the sole owner of the paper and has been directly connected with its operation for a total of 22 of the paper's 43 years.

Except for two years, The Foard County News has been the only paper published in Foard County. In 1910, The Crowell Index, which was established in 1908, was consolidated with The News.

We sincerely appreciate every act that has made our existence throughout all of these years possible and pledge our continued efforts to continually improve "your" home newspaper.

Insurance Feature In AAA Contracts Shown by Drouth

Threat of crop destruction by drouth has placed added importance on income protection features of the commodity adjustment programs which farmers of the country are carrying out under the direction of the Agriculture Adjustment Administration. For the first time in the history of American agriculture, crop income insurance is provided on a nation-wide scale.

Because they are based on past production averages, the amounts of the rental or benefit payments are not diminished by current crop failure. In cases of serious drouth damage this year, benefit payments through the adjustment act to farmers signing contracts will represent a substantial part of their total farm income, even though his crop fails entirely.

The commodity adjustment programs have been so planned that they are flexible enough to meet such unusual situations as that created by the drouth in many sections. They protect the producer from being crippled, through complete loss of income, in his efforts to renew production when the immediate failure passed.

Canning of Beef on Halves Is Possible With Cannery Here

Anyone interested in having beefes canned on the halves is requested to get in touch with members of the staff at the local relief office in the court house, according to Bryan O'Connell, county administrator.

Vegetables are now being canned in the canning plant in the Fox building and a proposition will soon be available whereby persons owning beeves can have them canned on the halves through the facilities of the local plant.

Additional canning equipment was received last week from State relief headquarters, including three retorts, four sealers, pots, pans, burners and 50,000 cans.

To make this cannery possible it is necessary for the town and county to furnish the rent for the building and take care of miscellaneous expenses. The local gas company is furnishing the fuel used in the work and water is furnished by the city. Refrigeration is donated by the West Texas Utilities Co. Mr. O'Connell reports that it will be necessary to take up donations to pay for rent and other expenses.

About twenty persons per day are working at the cannery under the direction of Miss Maude Whatley, in co-operation with Miss Myrna Holman, home demonstration agent. Those working at the plant are paid from relief funds. The products are stored for future distribution to the needy.

CHILDRESS IS LOSER IN GAME WITH CROWELL

Crowell won its first victory in a Red River Valley League game this season here Sunday afternoon by defeating the strong Childress club 15 to 14.

Crowell errors were chiefly responsible for the visitor's 8-run lead when Crowell came to bat in the 3rd. Childress scored 4 in the first, 1 in the second and 3 in the third.

The big lead did not seem to worry the local club as it came to bat in this inning with the result that home runs by Hack Norman and William Bell, together with numerous other hits, resulted in Crowell scoring the grand total of 10 runs.

Childress knotted the count at 10-10 with runs in the 4th and 5th. LaRue's home run in the 6th aided in putting Crowell 4 runs in the lead. Childress staged a rally in the 7th that threatened to put their club ahead. After scoring 3 times, a run that would have tied the score was prevented when Catcher Pybus took Norman's peg from third to tag out the runner. The game was delayed for a short time at this point when a Childress fan let Empire Button Henry know what he thought of the decision on the close play.

Crowell's final run came when Collier hit the ball over the center fielder's head for a home run. Coming to bat in the ninth, Childress accounted for one run, however, with two nice catches in center field by Brooks and the efficient handling of a grounder, Norman to Collier, the side was retired and for the first time this year in a league game it was not necessary for Crowell to come to bat in the 9th.

William Bell, who took to the mound in the 3rd, got credit for the victory. Dink Russell started for Crowell, but retired in favor of Skeet Raspberry, who in turn was succeeded by Bell.

Over 7,000 Pounds of Tomatoes Donated for Local Relief Canning

Seven thousand pounds of tomatoes, donated by farmers in the Frankston vicinity, near Jacksonville, Texas, were brought to Crowell last week and the work of canning them at the local relief cannery in the Fox building on the north side of the square is now being completed.

Through the efforts of Bryan O'Connell, county relief administrator, the tomatoes were secured without cost, other than the transportation by truck from Frankston to Crowell. Going to that part of Texas with the intention of purchasing a load of tomatoes, Mr. O'Connell found that he could secure off-size tomatoes free at four different buying plants.

These "culls" were just about as good as any other tomatoes, but were not best for shipping purposes, since the buyers take only a special size and the tomatoes that do not conform to this size, no matter how good they may be, are set aside.

The tomato growers then have the choice of returning the tomatoes to their farms or disposing of them in some other manner. Hearing that the tomatoes were wanted for relief purposes, the growers were glad to donate the tomatoes, although they would rather destroy them than to give them away for purposes other than relief to needy families, according to Mr. O'Connell.

The tomatoes reached Crowell on Tuesday of last week in Oscar Hutchins' truck. Mr. Hutchins and Mr. O'Connell made the trip together. Canning has taken place as the tomatoes have ripened and it is expected that over 1,500 cans will result from this project.

The tomatoes were secured without cost, other than the transportation by truck from Frankston to Crowell.

FORMER RESIDENT VISITS Texas," said Mr. Bradford while visiting The News office. "You have to see other weekly papers to really appreciate it," he added. HOW BIG A LUBRICATING JOB CAN A QUART OF OIL DO? HERE is a record of motor protection and low consumption that conclusively proves how big a lubricating job a quart of oil can do. Six strictly stock cars, with one fill—five quarts only—of six different, nationally advertised motor oils were run to "destruction" at the Indianapolis Speedway under AAA Supervision. Under exactly similar conditions the cars were operated until their motors failed. Here is the result: Oil No. 4 went 1713.2 miles; Oil No. 6 went 1764.4 miles; Oil No. 5 finished 1815.9 miles; Oil No. 1 completed 2266.8 miles. Oil No. 3 totalled 3318.8 miles. Oil No. 2, New and Improved Conoco Germ Processed Motor Oil, piled up the amazing total of 4729 miles! That was 3000 miles farther than the first oil to go out, and 1400 miles farther than the last oil to fail. Such demonstrated superior qualities of greater film strength, ability to withstand increased heat, resistance to dilution—such proved performance should guide your future oil purchases. Be safe—look for the Red Triangle Sign.

Christian Science Services

"Christian Science" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Science, on Sunday, July 1.

The Golden Text is: "Laying aside all malice, and all guile, and all hypocrisies, and envies, and all evil speakings, as newborn babes, desire the sincere milk of the word, that ye may grow thereby" (1 Peter 2:12).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "A good tree cannot bring forth evil fruit, neither can a corrupt tree bring forth good fruit" (Matthew 7:18).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Christian Science awakens the sinner, reclaims the sinner, and raises from the couch of pain the helpless invalid. It speaks to the dumb the words of Truth, and they answer with rejoicing. It causes the deaf to hear, the lame to walk, and the blind to see. Who would be the first to discern the Christliness of good works, when our Master says, 'By their fruits ye shall know them'" (page 342).

by BRUCE BARTON

BORN IN TROUBLED TIMES

Jesus was much more tolerant heretical opinions than were any of His followers, either those of His immediate circle or those who have taken His name in later days. His attitude was set forth clearly on the day when one of His disciples came boasting that he had found a man doing good in His name and, since this man was an outsider and not of their own number, the disciple had forbidden him. He doubtless expected praise, but he met a rebuke.

Bruce Barton

Jesus said, . . . Forbid him not; for he that is not against us is for us.

His was the broadest sort of invitation to fellowship, having no petty barriers of creed or formulae or ceremony. "He went about doing good." "Never man so spake." These—His good works and His good words—are the things for which He wished to be remembered; they constitute the story of His life. He was born in troubled times. In previous chapters we have traced the rise of the Jews from their beginning as nomadic shepherds to their glory as a nation under David and Solomon (about 1000 B. C.). We have seen the kingdom split into two parts, and the long sad years of bickerings, intrigues, foreign entanglements and decline, culminating in the capture of Jerusalem and the exile of its leading families into Babylon.

In this running survey we have no time to trace the various re-establishments of the sacred city—though this means the elimination of some fine figures, such as Nehemiah—nor its various phases of destruction. The successive conquerors of the ancient world reached their climax in Alexander, who overran more territory than any of them and, weeping because there were no more worlds to conquer, died of dissipation in his early thirties in 323 B. C.

Immediately his vast kingdom was broken up. That part of it which included Palestine came under the control first of Egypt in the days of the Ptolemies, who built the great library at Alexandria, translated the Old Testament into Greek in the version known as the Septuagint (work of seventy scholars), and opened a home in Egypt for many thousands of Jews.

Egyptian domination gave place to that of the sporadic Greco-Syrian kingdom, in which King Antiochus is the most interesting figure to us, since his tyranny inspired the revolt of the Maccabees.

The Maccabean family, a heroic Jewish priest and his seven brave sons, began a war with no higher hope than that of dying for the faith, and they achieved the impossible result of winning the freedom of their country. Again a race of Jewish kings ruled in Jerusalem, this in the middle of the second century before Christ (about 150 B. C., as a rough easy date.)

Chevrolet Sales Are Unexpectedly Good This Month

Detroit, June 19.—Chevrolet's recent announcement of price reductions on its entire line of cars at the General Motors exhibits in 61 cities, are being well received. Chevrolet sales manager, as an explanation of the company's unexpected heavy sales thus far in June, said Mr. Holler, "Chevrolet's sales have shown a 15 per cent gain over its sales volume the same period in May, and hung up a substantial increase over early June sales of last year."

On the strength of dealers' reports immediately after the reduction, which was announced June 2, production schedules for June were revised upward, reaching the 100,000 mark achieved earlier in the year. That actual retail deliveries for the first 10-day period, complete justification of the revision is seen, and factories are operating near capacity into July at least.

"The immediate surge of sales said Mr. Holler, "will have a reaching effect. It means layoffs, by far, than are customary at this season of the year. Not only in our own plants but out the United States, but hundreds of allied industries are provided us with parts and materials, the gain in Chevrolet will make itself substantially and in this way, will tie in with the nation's recovery program."

The price reduction, as much as \$50 on some models, affect entire line of Chevrolet motor Master models, the new proved Standard six, and Chevrolet trucks.

Miss Cassie Dockins Weds in W. Virginia

Miss Cassie Dockins of Crowell and Samuel M. Shives of New Athens, Ohio, were married Wednesday, June 20, in Wallsburg, West Virginia. Rev. F. M. Billingsley, Methodist minister of that city, officiated at the ceremony.

Mrs. Shives is the daughter of Mr. and Mrs. A. J. Dockins, operators of the Dockins Hotel of Crowell. She left Crowell in 1918 and entered a hospital in Gainesville where she took training as a nurse, graduating in 1921. Since that time she has held a number of responsible positions and her career as a trained nurse has been a successful one.

Her first meeting with Mr. Shives occurred in 1923 when she was secured as nurse for his mother, who was seriously ill at her home in New Athens. At this

time a romance was begun that culminated in their marriage last week. Mrs. Shives was accompanied to West Virginia by Mrs. Della Hamilton and sister, Mrs. O'Harro, of Pauls Valley, Okla.

Mr. Shives holds a position as bookkeeper in a coal mine at New Athens at which place they will make their home.

TRUSCOTT M. E. CHURCH

The Daily Vacation Bible School closed Friday, June 22. Friday night the children shared a program with their parents and friends. Anna Catherine Browning was chosen by the school to be leader of this program.

Recognition was given to the pupils for perfect attendance, completion of memory work and for notebook work that was neat, accurate and complete.

The enrollment of this school was sixty. The faculty consisted of representatives from the various churches in town.

Mrs. Ozie Turner had charge of the Kindergarten Department, Miss Mary Emma Stover had charge of the Primary Department, assisted by Miss Lamoin Tarpley; Mrs. Midge Adeock superintended the Junior Department, assisted by Mrs. Marion Chovning; Mrs. O. C. Stapleton superintended the Intermediate Department, Mrs. Hubert Chovning, Mrs. Frank Brown and Mrs. Ike Harwell and Rev. O. C. Stapleton assisted in the hand work. Mrs. Guyon Hickman had charge of the singing, assisted at the piano by Miss Lamoin Tarpley.

We feel that the school was a great improvement over last year, and there was much more interest by pupils and parents.

Much credit toward the success of this school was due to the enthusiasm, interest and self denial on the part of the teachers.

This-That, Etc.

By Typo Wrighter

What will they steal next? In last week's Floyd County Hesperian, Floydada, we read of the theft of a windmill from its tower on a Floyd County farm. The mill had just been placed on the tower a few months before and the owners are still wondering who needed a new \$90 mill badly enough to steal it during the night. The mill was a fourteen-foot Standard.

A few days later a theft occurred at Houston that was even more unusual than the windmill theft and it is said that officers are still scratching their heads and wondering just what a thief would do with an African lion. Hugo Martini of Galveston found his act at a Houston theatre practically worthless after the loss of his \$3,000 pet, which he had left parked in a trailer behind his automobile. Upon his return from the cigar store, in front of which he had parked, he found his lion, car and trailer gone.

Now, we would not be surprised to come to town some morning and find the big German cannon on the court house lawn missing, or to discover that "Lady Justice" had been kidnapped from the dome of the court house during the night, yet it is asking too much of Button Henry to move these objects inside each evening.

Another Prediction
In connection with the "Water Carnival" here Trades Day, we predict that old Jupiter Pluvius is going to join the spirit of the occasion and provide a nice rain.

And speaking of Trades Day, we are reminded of old Wimpy. If you read the funny papers, you already know that Wimpy is famous for the statement: "Come up to my house for a duck dinner. You bring the ducks."

Well, a "Wimpy-ish" attitude is taken by some Crowell firms every now and then. If this attitude could be interpreted in words, it would possibly go like this: "Sure, we want a big crowd in

town Trades Day, because it means business for us, and we most certainly want the newspaper to really let the people of this section know about the big day, however, we don't want to be out any advertising expense, but we sure want to sell to the crowd that will come as a result of the ads and publicity made possible by others."

Gabe Sanders says it never fails to rain when he goes fishin'. . . . Time to get goin' then. . . . The fine taste of ice water is about the only pleasant memory we'll have in connection with this weather.

Depressed by the eleven consecutive losses of the Dallas "Steers," Thomas Perkins of Dallas, but a Crowellite at heart, sent the following message to Boss Roark and Brudge Andrews this week: "Gentlemen—You are hereby invited to attend an old-fashioned barbecue to be held Wednesday night at 8:15. The meat is from a very lean Steer, reputed to be owned by one Sol Dreyfuss. This old creature took sick 11 days ago and after being manhandled by 4 other animals, finally went on that last round-up. Fred Brainard is preparing the son-of-a-gun. An Oklahoma Indian has volunteered to end its misery.—Thomas."

Well Known Vernon Pastor Died Monday

Dr. E. L. Moore, pastor of the Federated Presbyterian Church at Vernon for the past 13 years, died at his home in that city Monday night after a short illness, although he had been in ill health for the past two years. His condition became serious a week ago and two hours before his death, he suffered a stroke of paralysis.

Funeral services were held at 4:30 o'clock Tuesday afternoon in the church of which he was pastor since May 1, 1921. Dr. Geo. P. Horst, pastor of the First Presbyterian Church in Wichita Falls, officiated. Other Vernon pastors were seated with him. Burial was in the East View Cemetery of Vernon.

Survivors are the widow; a son, Robert Moore of Vernon, and a brother, Luther H. Moore, of Montgomery, Alabama.

Man Arrested Short Time After Robbery

John Belt of Oklahoma was placed in jail Tuesday evening following his arrest by two local officers, Dude Moseley and A. T. Schooley. He was found in possession of two new inner tubes and a box of ten spark plugs, which had been taken from the Fox-Harwell station a short time before.

R. M. Fox, owner, had not missed the items until the man, who was apprehended near the Methodist Church, was returned by the

officers to the Ivie and Pottions in an effort to find if anything had been missed from stock. The suspect then contended that he had taken the items through a back door while Fox was at the front. Mr. Fox reports that one box of ten is still missing.

Officers became suspicious of Belt upon his arrival here as arrest came as a result of being carefully watched.
