LONGEST LONG DISTANCE CALL ON RECORD OVER 8,000 MILES

The longest long distance call on record covered, by a circuitous route, 8,000 miles and was between San Diego, Cal., and Stockholm, Sweden.

The sound of the voice of the speaker in San Diego was carried through a carrier-current channel from Los Angeles to St. Louis at a speed of 110,000 miles per second. From St. Louis to New York it passed through a cable which slowed it down to 20,000 miles per second. On reaching New York it leaped across the Atlantic Ocean on a radio wave at a speed of 186,000 miles per second to Cupar, Scotland. From this point it traveled through cable via London to the North Sea, thence through submarine cable to Holland; passing through Germany via Hamburg, it passed under the Baltic Sea

TEXON TALES

Crowell does need an air port. It is completing one of the big landing fields and will have a very well equipped port. Of course we have a big, late model plane, privately owned by Levi Smith, president of the Big Lake Oil Co., of Texas and the plane will be used for any business and camp service necessary. Crowell may not have much possibility of anyone buying up planes anyway but that isn't the question. An air port is a positive necessity to a progressive city now days and is an investment. If you don't aim to have your city as well get out the word and buggy. We are for Crowell just like we allus was and we don't want to see sleep on your rights. You ask Yoder if this aint straight. We can't understand why the city is having such a subscription when the new road aint paved, new hotel aint done and you got no air port yet. I reckon Tales and Q. R. Miller's auto is keeping the thing going. Auto thefts is the smartest thing I ever seen. They ought to be in all the papers every day so man lost his car and hadn't no idea he could read it in the paper. We got to say about refueling airplane flights is that some guy coming up some day and get hung never come down. That's about the only way to end it. We have decided to just go ahead and not claim any exemption on the tax we burn in the mail car. We mail four hundred feet twice a week. It would be too complicated to figure it out and then handle all the red tape besides. We got plenty government work to mess with without hunting up more. Did you hear about the awful accident Oscar got on his wedding day? And more, I saw her myself. A Irishman road on a tombstone. Here lies a lawyer and an honest man. "And to think," Mike says, "there are two men in one small space."

Well, we don't want to clutter up the good space when we are going to be up there soon anyway. We will bring a sample of fruit to the News when we come up. Be sure to see it.

Another Wichita Man Testifies

Gains On Orgatone, "Wouldn't Be Without It," He Says

Bill another well known Wichita comes forward with his unqualified endorsement for Orgatone. This is J. R. Terry, who resides at 200 Bond Street, of that city.

My wife has actually improved so much since she started taking Orgatone that it is almost unbelievable," says Mr. Terry, "and has been benefited so much in every way that I am glad to make this statement. I hope will be the cause of relief for many who may be suffering as she is getting relief."

She had been in such a run down condition for the past 15 years that she felt like she should have been in the most of the time. She was subject to frequent attacks of dizziness and sick headaches. She also suffered from pain from gas on her stomach and she was habitually constipated. She had a tired aching feeling all the time, which left her so weak she could hardly stand up.

She has been wonderfully benefited by Orgatone. In fact, I consider it remarkable the way she has built up, for she is almost like a different person. She has been relieved entirely from stomach trouble, headaches and that aching feeling. I am more than delighted to tell what Orgatone has done for her, and we would not be without it for anything. It is far the best medicine she has ever taken.

Genuine Orgatone may be obtained at Crowell at the Reeder Drug Co. (Adv.)

WHAT'S DOING IN WEST TEXAS
(By West Texas Cham. of Com.)

Electra recently held a "law enforcement party" under the direction of Robert P. Hall, secretary of the Chamber of Commerce. Charles I. Francis of Wichita Falls made one of the addresses which was heard by citizens from all over the county.

The West Texas Chamber of Commerce is urging the cooperation of doctors in filing birth certificates, and parents in seeing that birth certificates have been filed for their children in order that the census next year will be correct, and will give the state the proper status.

The All Texas Tour being sponsored by the Dal-Paso Cavern Highway association under the direction of Wm. A. Wilson, secretary of the Chamber of Commerce will start at Marshall, August 1, and disband at El Paso, August 5, Carlsbad Caverns being the high point of the tour. Cars will be added to the motorcade at every stopping place and entertainment will be given at stops.

Vernon's Chamber of Commerce head, Grady Shipp, is acting as right hand man for Pres.-Mgr. Bourland of the WTCC in guiding the work of the regional organization until the annual convention in October. They called a meeting of the advisory board for Monday, July 29, in Fort Worth.

Tulia's ton litter work in Swisher County is showing up some good results. J. K. Adams weighed his litter of seven pigs at the age of 110 days and found 1040 pounds of live weight. The total cost of this gain is \$28.45 or \$2.73 per hundred pounds. The pigs have had access to alfalfa pasture and were fed a protein supplement.

Hartley County sent a large representation to the annual Farmers Short Course held at College Station, July 29 to August 3. Many of them were farmers and their wives who took advantage of the special railroad round trip fares.

Turkey is putting the finishing touches on the new 200,000 gallon

water reservoir and pump houses which complete one of the most modern, up-to-the-minute water supply plants in West Texas. Large quantities of all purpose water is available at all times for all demands now.

Sweetwater's new auto building will cost \$22,000 according to the contract which was let recently. It will be started immediately, and will be occupied by the Rudge Brothers Motor Company. It will occupy the west 90 feet of lots Nos. 1, 2, and 3, of the original town plat.

Childress' State Fair in September will feature races among other things, and the track is being reconditioned at this time. All turns on the track will be resurfaced, and the straight-aways will be graded down to a hard pan.

Dairy Bull Advice
Is Given by Simons

College Station, Texas, July 31.—
"Mean bulls are watched. It's the
gentle ones that are the killers," de-
clared D. T. Simons, of the Texas
Jersey Cattle Club, Fort Worth, in
discussing the care and management
of herd bulls before the dairy section
of the Farmers Short Course, A. and
M. College of Texas, Wednesday. "A
herd bull should not be allowed to
run at large for this results in ex-
cessive service, shortened life, too
early breeding of heifers and the
owner has no control over freshen-
ing time," he said.

Mr. Simons pointed out that a bull
should be placed in a pen large
enough for exercise, tight enough to
hold, convenient for handling and
one that will protect against wet and
cold. The herd bull should be han-
dled firmly but humanely, and a staff
or heavy chain through nose ring
should be used. "Cut out rocks,
sticks and pitchforks, and match no
fights, for you'll lose," he advised.

"A dairy farmer should breed his
heifers to freshen at 224 months of
age, for those that calve under this
age produce less milk. No cow does
her best without a rest period and
the calving date must be known so
that she may be dried up at the cor-
rect time. Fall freshening cows give
the most milk when milk is high in
price."

Concluding, Mr. Simons said that
"young bulls should have pasture and
more protein feed than old ones.
About the best Texas ration is com-
posed of one part each of oats, corn,
wheat bran and good mixed hay. Old-
er bulls do well on oats and hay alone.

Austrian physicians must not avail

New Victor Radio
Received by Womack

The new combination Victor radio
and phonograph received by Womack
Brothers last week has attracted con-
siderable attention.

The Victor R. E. 45 model receiv-
ed here represents the newest prod-
uct of the Victor Radio Corporation,
now a part of the Radio Corporation
of America. The Victor Company
was recently bought by R. C. A. at
a cost of \$5,800,000.

The new machine represents two
years of work and has a number of
new features such as micro-synchro-
nous, an exclusive feature. A new
type of loud speaker is used for
both the phonograph and radio and
the machine is entirely all-electric.

Mr. Womack stated that Victor al-
so makes another model which is ex-
clusively radio.

Jimmy Minnick Wins
First \$25.00 Reward

Jimmy Minnick, Jr., who lives on
his father's ranch near Foard City,
has been awarded the first \$25.00
reward since the inauguration of the
auto-theft column in the News by
Sheriff Que Miller.

The theft of the Allen Chevrolet
Company car here was reported in
the column the week before its re-
covery on the Minnick ranch.

Considerable interest has been
shown in Mr. Miller's idea of such a
column and many clip it each week.
No one can tell when a stolen car may
be recovered as a result. The person
recovering any car mentioned in this
column will receive a \$25.00 reward.

this bargain three-months rate.

By subscribing for three
months now, a person will have
the opportunity of taking ad-
vantage of the bargain days of-
fered by the Star-Telegram in
the fall and then can take the
paper at a reduced rate for a
year.

Two Papers \$2.20

The Foard County News is
also making an attractive of-
fer in connection with the Star-
Telegram bargain. The News
will offer both papers for three
months for \$2.20. The News
bargain rates also come at
about the same as those of the
Star-Telegram.

Take advantage of this bar-
gain.

TRACTOR RECEIVED

Bates 80, caterpillar type trac-

"Behind the German Lines" Fine Picture

"Behind the German Lines," a his-
torical picture containing actual pic-
tures of battle scenes in the World
War, was an unusually good picture.
It was shown at the Riato Monday
and Tuesday.

The picture contained practically
nothing but actual scenes of the war
and most of these were taken by the
Germans. The entire picture was
presented from the German stand-
point and most of the subtitles were
taken from German official records.
The entire war, from the beginning
in 1914 until the end in 1918, was
portrayed on the screen.

The picture was put together in
such a style as to give an excellent
history of the gigantic struggle and
the fact that a person had an oppor-
tunity to see the war as the Germans
saw it, made it still more interesting.

THE CONTROL OF CRIME

"What their criminal law needs is
not teeth but brains," says William
J. Donovan, former Assistant Attor-
ney General of the United States,
"not the mental activity of a special-
ly appointed commission of lawyers,
but the concentration of the public
brains."

"The criminal is alien only mental-
ly and morally. He is not a denizen
of some remote island. He is living
among us, a part of the community
in the physical sense. He has access
to the automobile, to the airplane,
and in New York State at least, far
readier access to the automatic pistol
than has the law-abiding citizen.
These things cannot be kept from
him."

"Shortening and simplifying the
processes of criminal law, extending
the power of the judge upon the
bench, enforcing local laws locally in-
stead of through the already encum-
bered Federal courts, developing
sense of responsibility in the in-
dividual citizen, in the community
and its judicial officers—these are the
steps which will bring about the con-
trol of criminality."

Anti-pistol laws, anti-automobile
laws, anti-aircraft laws or any other
kind of "anti laws" passed on the
theory that they will prevent crime
simply punish the law-abiding to the
benefit of the law-breaker. The more
laws we pass the more law-breakers
we have. Crime will be reduced in
proportion as the law-breaker laws
that punishment will be swift and
certain.

POLLEN FOR HAY FEVER

Pollen collecting is a comparative new vocation, and for a limited number of individuals who can qualify for the work there apparently is some opportunity for developing a profitable business in this field.

The United States department of agriculture calls attention to the "increasing demand for wind-borne pollen" for making extracts with which to treat hay fever patients. Various methods of collecting pollen have been tried, but they have not always proved satisfactory and of acceptable purity.

Improvements in such methods have been developed by the department which seem to adapt them to all requirements. Pollen in usable quantities was collected from more than forty different plants in the District of Columbia and vicinity in the course of these investigations. The collection must be carefully and intelligently done, and the necessity for furnishing a pure product can hardly be overestimated. If the collector is not a botanist it is necessary that he be thoroughly instructed by a competent person.

Christian Science

Sunday, 11 A. M., Subject for Sunday, August 4, "Love." Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

Methodist Church

We had a good day last Sunday at the Methodist Church. The attendance at the Sunday School was up to a fairly good mark considering the summer weather. We are looking forward to next Sunday with high expectations for a big day in the worship and service of Christ.

Sunday School at 9:45. Let all members try to be both prompt and regular in their attendance. Worship at 11 a. m. and 8:15 p. m. Junior church at 11 o'clock. Senior Epworth League at 7:30. Woman's Missionary Society meets Monday afternoon at 4 o'clock.

Visitors are welcome at all our services.

W. R. McCARTER.

Presbyterian Church

Remember you have a standing invitation to attend services at the Presbyterian Church, 4th and 1st Sundays of each month. You will find a hearty welcome awaiting you.

The Presbyterian pastor preached at Vivian last Sunday afternoon. The attendance was good and the interest manifested was splendid.

His subject was "Watch." "What I say unto you, I say unto all, watch." Mark 13—Look it up and read for yourselves.

J. T. BRYANT, Pastor.

Baptist Church News

Last Sunday was a good day with our people. Bro. J. B. Vaughan of Blair, Okla., preached for us in the absence of the pastor. Bro. Woodie W. Smith is holding a meeting at Odell, Texas, and God is blessing it with results. There have been between twenty and thirty additions to the church so far and we are expecting many more. The meeting will close Thursday. The pastor will be home Friday and will fill his pulpit at both hours next Sunday. We hope to have a big attendance and believe we will as the pastor has been absent for two Sundays.

The Wilbarger-Foard Baptist Workers' Council met with the First Baptist of Vernon on July 29th. A fine program was rendered. The Crowell pastor preached at the eleven o'clock hour.

Bro. Smith will begin a revival at Margaret the Thursday before the second Sunday in August.

Next Sunday, Sunday School at 9:45; preaching at 11 and 8; B. Y. P. U. at 7 p. m.

Special music by Mrs. Wright and others. Bro. Duke Wallace is leading the singing in the Odell meeting and doing it well.

Absolutely nothing finer can be said of any tire than that it is a HOOD. BEST TRADE-IN VALUES. Drop in at our station the next time you consider the purchase of tires. Our tire prices and trade-in values will please you.

For less tire TROUBLE make your tires last longer!

PERHAPS you've had tires that ran 15,000 miles—but would have run 20,000 if you had had our service. One car owner who came to us had worn out two good tires in 3,000 miles, because his wheels were more than an inch out of alignment. Yet wheel alignment is only one of the things looked after in our tire service. Wobble in wheels, twisted flaps, bent and rusty rims, tires with lugs fastened tighter on one side than another, are some of the needless causes of tire wear which we enable you to correct. Each of these items is checked when we mount a new tire for you—and again in regular inspections, made while you wait or when you leave your car here for other service. Why shouldn't YOU take advantage of this saving in tire cost and tire trouble?

Male 10 Times More Important in Poultry World Than Female

College Station, Texas, July 31.—In the poultry world the male is perhaps ten times as important as the female, E. C. Johnson, head of the poultry husbandry department of John Tarleton Agricultural College, Stephenville, declared in speaking before the poultry section at the Farmers Short Course here Monday.

Texas Farmers Urged To Add a Few Sheep

College Station, Texas, July 31.—When more farmers in Texas add a few sheep to their farming operations as well as the cow and hen, Texas will have a more balanced system of farming, Ernest Gibbens, of the animal husbandry department, A. and M. College of Texas, told those in attendance at the beef, cattle, sheep and goats section of the Farmers Short Course here.

Food Like So Much Poison To System

"Two years ago specialists in Louisiana, where I used to live, advised me to come to San Antonio to recuperate from the after effects of a bad spell of malaria which had left me in a terrible run down condition."

"Sargon did more for me in less than one month than all the other medicines I have used in the past five years. A number of my friends have told me that they had never seen such a remarkable change in any one in such a short time. It is simply wonderful how Sargon brought back my color and benefited me in so many ways."

The man who can sit along the banks of a river all day without getting a bit, ought to make a good nightwatchman, if nothing else.

Birds never build any bigger nests than they need, which can't be said of men when they build houses.

THE SUN BURN SEASON

This is the sun burn season, when one-half the population is compelled to listen to the other half bragging about tan or complaining about blistered shoulders and arms.

Sun baths have effected almost miraculous cures in cases of tuberculosis of the bone and glandular diseases, and a good coat of tan or case of sunburn adds credence to the seashore vacation, but there is also grave danger from sunburn.

Inflammation, fever, infection and even death may follow injudicious exposure to the sun, the burn of which is not different from that of fire or steam.

Good rules for bathers to follow are to keep out of the summer sun between the hours of 10 a. m. and 3 p. m., except for brief periods, to cultivate tan gradually, and not seek from a week-end trip to return home with a certificate of tan to a season at the seaside.

Just now, when the practice of exposing children to the sun for health reasons has brought about a special garb for their sunning, the warning is in place—that the periods of exposure be brief, and above all else, the head should be covered and the eyes protected by dark glasses.

Sun baths without burns, but with all the tan that the individual's complexion entitles him to are the ideal to be sought, and in the attainment of this all the beneficial effects of the sun may be gained without the maladies which wait upon burns.

A heat wave is not a permanent wave, but it may be that there is one coming bye and bye that will be.
