

THE FOARD COUNTY NEWS

AND CROWELL INDEX

VOLUME XL NO. 7

CROWELL, FOARD COUNTY, TEXAS, FRIDAY, AUGUST 8, 1930.

8 PAGES \$2.00 A YEAR

DAY SERVICE ON SANTA FE STARTS SUN.

STEAM PASSENGER TRAINS TO BE DISCONTINUED AND REPLACED WITH MOTOR CARS; ARRIVE HERE AT 7:07 P. M. AND 10:24 A. M.

Crowell will have day passenger train service, beginning Sunday, August 10th, according to information received Wednesday morning by G. V. Walden, local Santa Fe agent. Motor car service will be put into operation at that time instead of the steam passenger trains that have been used heretofore.

As has been the case in the past, one trip will be made each way. The southbound car will leave Altus, Oklahoma, at 5 o'clock in the afternoon and is scheduled to arrive in Crowell at 7:07 p. m. The northbound car is to leave Hamlin, Texas, at 6:50 a. m. and is to arrive in Crowell at 10:24 a. m.

The steam passenger trains that are to be discontinued have arrived here at about 10 p. m., southbound, and about 4:30 a. m., northbound.

The type of cars to be used will be about the size, or possibly larger than the ordinary passenger coach and each will have a special compartment for mail and express.

Attempt Made to Steal Alton Bell's Car

An unsuccessful attempt was made Saturday night to steal Alton Bell's Ford coupe. Two men had rolled the car out of the garage for a short distance when apparently the lights were turned on by accident. A negro sleeping in a room of the garage called to Mr. Bell and his call caused the auto thieves to immediately leave.

Bert Self Had Chance to Buy His Own Shoes

Bert Self had the unique experience of having some of his own merchandise offered for sale to him Wednesday afternoon. He was at his grain elevator and dressed in overalls when two men offered to sell him a new pair of shoes at a bargain price.

Mr. Self expressed interest in the purchase and stated that he would go to town and get the money to pay for them. He went immediately to his dry goods store and found that the very pair of shoes that he was pretending to buy had been stolen from his store the previous day.

The men were informed of this, however, Mr. Self told them that since times were hard, he would not file charges against them. R. J. Thomas, city marshal, requested the men to leave town the next day.

WILL SUPERVISE HI-WAY AND BRIDGE WORK IN KNOX CO.

Byron Reese left Wednesday for Wichita Falls to confer with State Highway officials, preparatory to taking over the duties of supervising construction work on highway bridges in Knox County. Several bridges were washed out in that county by the heavy rains several weeks ago and the state highway department is preparing to replace them and other bridges and concrete highway that was lost in other counties in this section of the state.

Emergency Feed Crop Prospects Depend on Rain

"The farmers of Foard County in general have their land in good condition for planting an emergency feed crop in case we should get rain within the next week or two," stated Fred Remels, county agent.

"It seems to be the general opinion that millet planted late has about the best chance for making feed. Red top sorghum is also a good late feed crop, while feterita, hegari and milo maize have been known to mature quickly enough when planted late to make them a fairly good bet in an emergency, in case the millet, red top sorghum and feterita cannot be secured."

The seed men in the county seem to think they may have some difficulty in getting millet seed on very short notice and would be glad if those who are intending to plant late millet or other feeds, would buy now or give them their order for the seed at once so they may know how to buy, according to Mr. Remels.

Many farmers of the county have their seeds and everything in readiness for planting in case we are fortunate enough to get sufficient rain to justify a trial at the late feed crop, the county agent stated.

MARKET CHANGES HANDS

W. H. Sellers has secured the interest of George Burruss and Edwin Greening in the meat market that is located in Burruss Grocery and is now operating this business.

Lynch Davidson Says Sterling Preferable to the Fergusons

Lynch Davidson of Houston, former candidate for governor, has sent The News a lengthy statement regarding the governor's race. Mr. Davidson took an active part in the first primary in which he supported the candidacy of Clint Small with Jim Young as second choice. He actively opposed Ferguson and Sterling.

Mr. Davidson's entire statement is too long to publish here but the main issue in it follows: "Despite the bond issue advocated; despite his not being equipped temperamentally nor by training or experience for governor, Mr. Sterling is preferable to the Fergusons. My long opposition to the Fergusons is well known and will continue."

Sheriff Returns from Ark. with Car Thief

Sheriff Que Miller returned Sunday from Camden, Arkansas, with Dr. J. M. Hill's Ford coupe and a man giving his name as Carl Anderson of Ardmore, Oklahoma, who is now being held in the local jail, charged with the theft of the automobile on July 14. Mr. Miller was accompanied on the trip by T. B. Richmond who also returned Sunday.

The car was recovered in the Smackover oil field, near Camden when officials became suspicious of the two men with the car and started questioning them. One man disappeared and the other was held while the identity of the car was being established through the Automobile Theft Bureau of Dallas and Atlanta, Ga. An Oklahoma license number had been substituted on the car. It had been driven about three thousand miles since its theft but was in good condition. Dr. Hill's medicine bag was gone, however, officers think that they will be able to recover it.

Mr. Miller reported that the territory in the six hundred miles from here to Camden looked to be drier than that in Foard and Hardeman Counties.

Escapes from Jail

Since the above article was written, Carl Anderson of Ardmore, who was being held in connection with the theft, escaped from the local jail between 8 and 9 o'clock Wednesday night by sawing two bars from an east window of the jail.

It is presumed that relatives that visited him Wednesday gave him the saw for that purpose.

HIGH SCHOOL BOYS PREPARE FOR FOOTBALL

Interest in the coming football season for Crowell High School has increased considerably in the past week and Recie Womack, captain of the team, has requested all prospects for this year's squad to start training at once. Most of the boys planning to come out for the team next year started training on August 1st and are now following a careful diet and taking various forms of exercise in an effort to be as physically fit as possible when the season opens.

Coach Grady Graves, who is now attending Texas A. & M. College will arrive in Crowell about September 1st and actual practice will likely start shortly afterward.

The eight letter men who will be back for the team this year are Recie Womack, Guy Todd, Ragsdale Lanier, Ralph Burrow, George Fox, Bill Middleton, Crews Cooper and John Todd. G. Todd, Lanier, Middleton and Fox are backfield men.

Other prospects for the team this year are: Mitchell Allee, J. M. Crowell, J. D. Bursey, Melvin Wozenercraft, Lewis Gibson, Dan Hines Clark, Ralph McCoy, Roy Mullins, Loraie Carter, Andrew Calvin, Ivan Wozenercraft, Gerald Knox, Mabry Kimsey, Melvin Joy, Harold Barry and William Ricks. All of the above boys reentered for spring practice. Hubert Smith and Jack Russell, who finished the Margaret school last year, are also planning to attend Crowell High School during the coming year and are excellent football prospects.

Crowell's first game will be played September 12th against Quannah at Quannah. Crowell defeated Quannah 13 to 7 in the opening game last season. Crowell's second game will be against Matador in a game here on September 19th. It is understood that Chillicothe is to be played the following week. The first game of the season is just a little more than a month away.

Even though nine letter-men were lost by graduation, Crowell has excellent prospects for a winning team in the coming season.

Cotton Co-operative Association Marketing Agreement Explained

Below is an outline of the marketing agreement of the Texas Cotton Co-operative Association that has been furnished The News by that organization:

1. A member does not have to deliver more than every other bale up to 20 bales—or a total of 10 bales—and may deliver all his cotton if he desires.
2. Any member may cancel marketing agreement after the second year.
3. The association agrees to provide federally-licensed and bonded graders to classify and grade members' cotton.
4. Members selling through the daily pool shall receive the full market price for their cotton at the time of sale.
5. Members delivering to the optional pool shall have the option of fixing the date and middling base price at which they wish to sell, and shall draw a substantial percentage of the estimated value of their cotton at the time of delivery.
6. In the seasonal pool members may draw a substantial percentage of the estimated market value of their cotton, which shall be pooled with cotton of like variety, grade and staple, and sold at such times during the year as the association deems best, the grower in the seasonal pool receiving the average price obtained during the marketing season, final settlement to be made by July 1, of calendar year following that in which cotton is grown.
7. The association agrees to turn over to members pooling their cotton in the optional or seasonal pools the full amount received from sale of their cotton less the following costs: (1) Freight, storage, insurance and interest; (2) Handling charges not less than \$2.50 per bale nor more than 3 per cent of gross resale value of cotton delivered (for which handling charge the association performs all services ordinarily performed by street buyers, brokers, shippers or exporters, who also include their profits in figuring out price they pay the grower); (3) One per cent for reserves for credit or financing, provided in no event shall more than 50 per cent of such reserve be invested in physical properties, and each member's share of this reserve shall be refunded to the members in 10 years.
8. When the growers in a district

ASSAILANT OF JNO. HUNTER JR. HELD IN DALLAS

CAPTURE OF J. B. CARTER ENDS EXTENSIVE SEARCH OF THE PAST TWO MONTHS; HUNTER'S CONDITION IS WORSE

Sheriff Que R. Miller received word Wednesday afternoon from the Bureau of Identification at Dallas that J. B. Carter, the name that he was known by in Foard County, was being held in jail there following his arrest that day. An extensive search has been made for Carter for the past two months following the affray in which he stabbed John L. Hunter Jr. on Saturday, June 8th.

Mr. Hunter has been in a serious condition since that time and his condition has become worse in the last few days.

Immediately following the stabbing Carter disappeared and a few weeks afterward was seen in Seymour but escaped before officers could catch him. He was a tenant on the Hunter farm at the time of the affray, which also involved John L. Hunter Sr., who received several knife wounds, and Carter's father-in-law, J. J. Hardin, another tenant on the place. Hardin was placed in jail and later released.

Carter's real name is supposed to be Barney Hardin and following his disappearance it was learned that he was an escaped convict. Sheriff Miller had three hundred photographs made of the State Prison Systems records on Carter and these were mailed to various points and finally resulted in his apprehension. After becoming suspicious of Carter the records in the Bureau of Identification were referred to and through one of the cards mailed by Mr. Miller Carter's identification was established.

The card contained two photographs of Carter and a record of all finger prints.

The record on the card showed that he was sentenced on February 2, 1926, from Wilbarger County to serve six years for the crime of robbery with firearms. He was received at the Huntsville prison on Feb. 14th, 1926, and escaped from Eastham State Farm, Weldon, Texas, on January 16, 1927, by riding off a state horse.

Carter will be held in the Dallas jail for safe-keeping until the September term of court. At that time he will be returned to Crowell and tried on a charge of assault with intent to murder. Mr. Miller left Crowell Thursday for Dallas relative to this matter.

LOS ANGELES SEEKS PLACE ON HI-WAY 70

PACIFIC COAST CITY WANTS TO BECOME WESTERN TERMINUS OF TRANSCONTINENTAL ROUTE PASSING THROUGH FOARD COUNTY

The importance of U. S. Highway No. 70, which passes through Crowell and Foard County, east to west, as a transcontinental route connecting the Pacific Ocean at Los Angeles, California, with the Atlantic at Beaufort, North Carolina, with the most direct routing possible and the least distance, is being recognized by citizens of Oklahoma, Texas, New Mexico and California since the holding of the highway meeting in Floydada on June 20th.

Maury Hopkins of Plainview, chairman of the U. S. Highway 70 Association of Texas, is in receipt of a letter from T. Mahneke, president of the Palo Verde Valley Chamber of Commerce at Blythe, California, enclosing a page from the Los Angeles Examiner of July 27, which carried a half page map of the United States showing Highway 70, and the cities through which it passes. At present Highway 70 ends at Holbrook, Arizona, but J. W. Becker of Springerville, Arizona, working with the commercial organizations at Blythe, Mecca and Los Angeles, has been successful in getting the United States Bureau of Good Roads to recommend that the number be extended to cover the route from Springerville to Blythe, via Mecca, to Los Angeles. It is about this piece of work that Mahneke wrote Mr. Hopkins. This route is said to be one of the most scenic in all California.

Ben Blow, field secretary of the National Automobile Club, points out the importance of this route, showing it to be the only transcontinental highway that has its western terminal in the city of Los Angeles. He also points out that it is the shortest route by which the tourist can come from the Atlantic seaboard to California.

Not only is Los Angeles becoming interested in Highway 70 but Oklahoma is realizing its importance and last week Geo. C. Gibbons, manager of the Ardmore Chamber of Commerce made a trip over the route through his state, through Texas and on into New Mexico. He said that he was finding great interest in the route in all sections visited and he was going to perfect the Oklahoma organizations as soon as possible.

In New Mexico the people of Roswell are very anxious to have the Clovis-Carlsbad road, which connects with Highway 70, advertised as a branch of U. S. Highway 70 in order to attract tourists to the cavern who may be living along Highway 70.

Not Enough Rain in Crowell During June and July to Record

Not enough rain fell in Crowell in June or July to be recorded, according to the records of the First State Bank, official weather recorder for this city. The last rain recorded here was on May 13th. Rainfall records have been kept at the First State Bank since 1913 and this year is the first time since then that no rain has been recorded in June and July.

So far this year seven and four-tenths inches of moisture have been recorded in Crowell. Several showers have fallen in other parts of Foard County during June and July that did not touch Crowell.

Texas to Gain Three New Seats in Congress

Dividing up 435 seats in the House of Representatives of the United States government so each state will have an equitable share of members on the basis of its 1930 population is now occupying the attention of the experts of the census bureau.

Texas probably will gain three additional seats in the reapportionment. Ten states are expected to gain 26 seats. Legislatures in the states affected will have to rearrange their congressional districts before the election in 1932.

BIRTHS

To Mr. and Mrs. Van T. Tanner, Crowell, July 10, a girl, Geraldine.

To Mr. and Mrs. Ely Jones, Crowell, July 11, a boy, Coy.

To Mr. and Mrs. Tom Callaway, Foard City, July 12, a girl.

To Mr. and Mrs. Loyd L. Vessell, Foard City, July 15, a boy, L. L. Jr.

To Mr. and Mrs. James M. Hendrix, Foard City, August 1, a girl.

To Mr. and Mrs. Marion B. James, Margaret, July 23, a girl, Ima Mae.

To Mr. and Mrs. W. O. Clary, Crowell, July 28, a boy, William Otis Jr.

To Mr. and Mrs. Ralph Bell, Crowell, July 28, a boy, Reed Barry.

To Mr. and Mrs. Johnny N. Loucks, Crowell, August 2, a boy, Billie Jr.

VOTES CANVASSED

The Foard County Democratic executive committee met Saturday and canvassed the returns of the primary held the previous Saturday. Only one or two minor changes in the results announced last week resulted from the canvass.

TRAIN WRECK AT OKLAUNION KILLS TWO MEN

Large numbers of Crowell and Foard County people visited the scene of the Fort Worth and Denver passenger train wreck at the underpass near Oklaunion, Sunday. The wreck which occurred early Sunday morning resulted in the death of the engineer, F. P. Robinson, 67, of Wichita Falls, and the fireman, A. B. Vance, 40, of Amarillo, and the injury of 23 other persons.

The wreck was caused as the result of the track over the underpass being forced out of line when a heavy steel girder supporting the trestle was struck by a boiler being hauled on a truck on Highway No. 5. When the speeding eastbound passenger train, "The West Texan," struck this point it plunged off the rails and started swerving to the right to plow up some 300 feet of track and embankment and finally came to a rest in a ditch to the south of the track.

The locomotive, two baggage cars, two day coaches and two Pullmans left the track. The two rear Pullmans remained on the rails.

Horace H. Cummins, a 21-year-old youth, was driving the truck carrying the huge boiler which threw the track out of line when it hit the bridge. He said that he did not see the sign across the top of the underpass which was worded as follows, "Danger! Stop High Loads." He said that the truck was going about 18 miles an hour when it struck the bridge. The train was almost upon the bridge at the time and he and his father, who was accompanying him, did not have time to get out and wave it down. The boiler was being carried to a gin at Littlefield, Texas.

Immediately after the accident aid was summoned for the injured persons, most of whom were rushed by ambulances to hospitals in Vernon. Several were taken to Electra. A few were dangerously injured.

TENT SHOW AT MARGARET

Leavell Brothers, stock company, will be in Margaret three nights this week, August 7, 8 and 9, and will present a three-act play each night while there. They are playing in a tent theatre. The Leavell brothers, Bud and Buster, were formerly with Harley Saddler's show and many here will remember them with that show about ten years ago when they were just mere youngsters and formed a vaudeville team. Their father, H. P. Leavell, is in charge of the show.

TOTAL OF \$8,760 IN INSURANCE MONEY SAVED

GOOD FIRE RECORD CREDIT FOR PAST THREE YEARS HAS PROVEN OF MUCH BENEFIT TO THIS CITY

For 1930 Crowell is again receiving a 15 per cent good fire record credit, according to a letter received by Mayor C. T. Schlagal from J. W. Deweese, state fire insurance commissioner.

The letter from Mr. Deweese follows:

Hon. C. T. Schlagal, Mayor
Crowell, Texas

Dear Sir:

It is with a great deal of pleasure that I write this letter giving you the amount of saving to the people of Crowell brought about by reason of the Good Fire Record Credit that your city has been receiving.

In order that you may understand the advantages of a Good Fire Record Credit and the cost of a Bad Fire Record Charge, we desire to give you the basis upon which these credits and charges are figured. This department receives a statement of the premiums collected and losses paid each calendar year from the agents of your city and the figures contained therein are combined and the loss ratio determined. If your loss ratio over a three year period next preceding is found to be less than 55 per cent, a credit is allowed and promulgated in accordance with our loss ratio table. If your loss ratio is found to have been 65 per cent and over, a charge is made and promulgated in accordance with our loss ratio table.

The records of this office show that the premiums and losses for Crowell since 1928 have been as follows:

Year	Premiums	Losses
1928	\$17,798.76	\$2,871.25
1929	\$15,928.54	\$2,838.75

In 1928 Crowell received a 15 per cent Good Fire Record Credit, which saved your citizens approximately \$3,140 in insurance premiums.

In 1929 Crowell received a 15 per cent Good Fire Record Credit, which saved your citizens approximately \$2,810 in insurance premiums.

During this year, 1930, Crowell is receiving a 15 per cent Good Fire Record Credit, which based upon 1929 premiums will save your citizens approximately the same amount in insurance premiums as in 1929, that is, \$2,810.

The total amount saved the people of Crowell during this three year period in insurance premiums approximates \$8,760.

This department is of the opinion that your city officials and the people of Crowell are highly pleased over the fact that your city is receiving the benefits of a Good Fire Record Credit for the reason that it is a great saving to them in insurance premiums. It is very important that every precaution be used by your citizens against the danger of fire and we sincerely hope that this good record will be an incentive to your people to make them even more cautious in the future against careless fires.

Fire prevention is strictly a matter of business and we submit the above as proof that it has certainly been Good Business in the way of a saving to the people of Crowell.

In order that your citizens may be advised of the facts and figures contained in this letter, we are sending a copy to your local newspaper for publication.

I want to assure you that this department is greatly interested in the fact that your city is receiving a Good Fire Record Credit and we sincerely hope that you will continue to receive benefits of same.

Very truly yours,
J. W. DEWEESE,
Fire Insurance Commissioner.

William Haines at the Rialto Friday and Sat.

One of the most humorous pictures of the season will be shown at the Rialto Friday and Saturday when William Haines will appear in "The Girl Said No."

William Haines' pictures have always been popular and this is said to be one of the very best that he has yet played in.

AUDITING COUNTY BOOKS

John B. Allred and son, Ivan D., of Wichita Falls, members of the firm of Allred, Lambert and Nichols, certified public accountants, started work on auditing the county books here Wednesday. Mr. Allred audited the books for Foard County last year.

ATTEND SHORT COURSE

Those from Foard County that attended the Farmers Short Course at A. and M. College last week were: Mrs. T. C. Matthews of Thalia, Mrs. Tom Russell of Catesville, Mrs. E. A. Dunagan of Gambleville, Miss Rosalie Fish of Vivian, Miss Alice Meade Lilly of Foard City, Miss Doaca Hale, home demonstration agent, and Fred Rennels, county agent.

Buster Smith, Mabry Kimsey and Harold Hinds left Thursday afternoon for Carlsbad Caverns.

GAMBLEVILLE
(By Special Correspondent)

Miss Elberta Munger of Foard City and Mrs. Bob Carroll of Vivian spent Thursday night with Opal Carroll.

Mr. and Mrs. V. V. Vaden and daughter, Grace, and granddaughter, Vernell Blackman, went to church at Black Friday night.

Geneva and Ona Fay Derrington of Thalia visited Mr and Mrs. Alfred Derrington Thursday night and Friday.

Roland Whatley of Thalia spent Friday night with Elton Carroll.

Mr. and Mrs. Alfred Derrington and son, L. T., visited Mr. and Mrs. W. P. Derrington and family of Thalia Wednesday.

Mr. and Mrs. Silas Shultz and family of Vernon visited Mr. and Mrs. D. M. Shultz Friday night and Saturday.

Mr. and Mrs. Loyd Owens left Wednesday for Dallas where they will visit friends for a few days.

Mr. and Mrs. V. V. Vaden and children went to church at Vernon Saturday night.

Mr. and Mrs. Alfred Derrington and son, L. T., were visiting in Vernon Saturday.

Mr. and Mrs. D. A. Alston and family of Vivian spent Saturday night with Mrs. Alston's sister, Mrs. Alfred Derrington.

Opal Carroll visited in the home of Mr. and Mrs. W. O. McDaniel in Crowell Thursday.

Mr. and Mrs. Jim Solomon and children visited friends at Foard City Saturday night and Sunday.

George L. Carroll from Iowa Park visited Elton Carroll Sunday.

Mr. and Mrs. C. E. Stewart and family returned home Saturday from a visit in Comanche County.

Mr. and Mrs. John Hargroves and children of Lorenzo and Bell Alexander of Bailey visited Mr. and Mrs. E. C. Hargroves and family Thursday night.

Mr. and Mrs. Vernon Pyle and children went to Sunday School and church at Crowell Sunday morning. They also visited Mr. and Mrs. Homer Zeibig and family.

Mr. and Mrs. Dave Solis and children visited Mr. and Mrs. R. H. Blevins and family of Margaret Sunday afternoon.

Mr. and Mrs. Lewellyn Morgan left Monday for a visit with his parents in California.

Mr. and Mrs. Cecil Starnes and Mr. and Mrs. Hubert Carroll visited Mr. Starnes' parents, Mr. and Mrs. J. C. Starnes, of Thalia Sunday afternoon.

Everyone was glad to see the little rain that visited our community last Wednesday afternoon.

Mr. and Mrs. F. J. Jonas and son, Ray, went to church at Thalia Sunday night.

Mr. and Mrs. C. E. Stewart went to Quanah Sunday morning.

Mrs. Howard is here visiting her daughter, Mrs. Dave Mooney.

John Herrington went to Oklahoma Sunday.

Miss Grace and Annie Russell and Arie Fleta Beidleman of Crowell are spending this week with Misses Mary Nell Merriman and Victoria McDaniel.

Misses Mary Fox and Mildred Johnson and George Fox attended Sunday School at Foard City Sunday.

Misses Victoria McDaniel, Arie Fleta Beidleman and Trena and Cantrel Moody were Oklahoma visitors Sunday.

LOSE FAT SAFELY AND QUICKLY

Kruschen Salts—(a perfect combination of the six mineral salts your body must have every day to function properly) purify your blood of harmful acids, and aid the kidneys and bowels to throw off waste material—the continual formation of which is probably the cause of your fat.

In this modern age of living, it's impossible to get these salts from the food you eat—but don't worry as long as you have Kruschen Salts.

Take a half teaspoon every morning in a glass of hot water—little by little that ugly fat disappears, you'll feel better than ever before—years younger, more energy. You will soon possess that enviable beauty, clear skin, sparkling eyes, superb figure which only perfect health can impart.

An 85c bottle (lasts four weeks) at Ferguson Bros. or any other progressive druggist in America. Money back if Kruschen doesn't convince you that it is the safest, quickest, easiest way to lose fat.

S. J. R. No. 2
PROPOSING A CONSTITUTIONAL AMENDMENT TO BE VOTED ON NOVEMBER 4, 1930.

Be it resolved by the Legislature of the State of Texas, that Art. V of the Constitution of Texas shall be amended by adding a new section to be known as Section 3a, to read as follows:

"Section 3a. The Supreme Court may sit at any time during the year at the seat of government for the transaction of business and each term thereof shall begin and end with each calendar year."

Section 2. That Section 3 of Art. V of the Constitution of Texas shall be amended by repealing the sentence of said section which reads: "The Supreme Court shall sit for the transaction of business from the first Monday of October in each year until the last Saturday in June of the next year, inclusive, at the Capitol of the State."

Section 3. If the Constitution shall not have been previously amended so as to provide that the Supreme Court shall be open at all times, then, in that event the foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this State, at an election to be held on the first Tuesday after the first Monday in November, A. D. 1930.

(A correct copy.)
JANE Y. McCALLUM,
Secretary of State.

Elephants of prehistoric days, as shown by their fossil remains, were larger than those of today.

H. J. R. No. 11
PROPOSING A CONSTITUTIONAL AMENDMENT TO BE VOTED ON NOVEMBER 4, 1930.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Article VII of the Constitution of the State of Texas be amended by adding thereto Section 16, which shall read as follows:

"Section 16. All land mentioned in Sections 11, 12 and 15 of Article VII, of the Constitution of the State of Texas, now belonging to the University of Texas shall be subject to the same extent as lands privately owned; provided they shall be rendered for taxation upon values fixed by the State Tax Board; and providing that the State shall remit annually to each of the counties in which said lands are located an amount equal to the tax imposed upon said land for county purposes."

Sec. 2. The foregoing Constitutional amendment shall be submitted to the qualified electors of the State at the next general election to be held throughout the State on the first Tuesday after the first Monday in November, 1930.

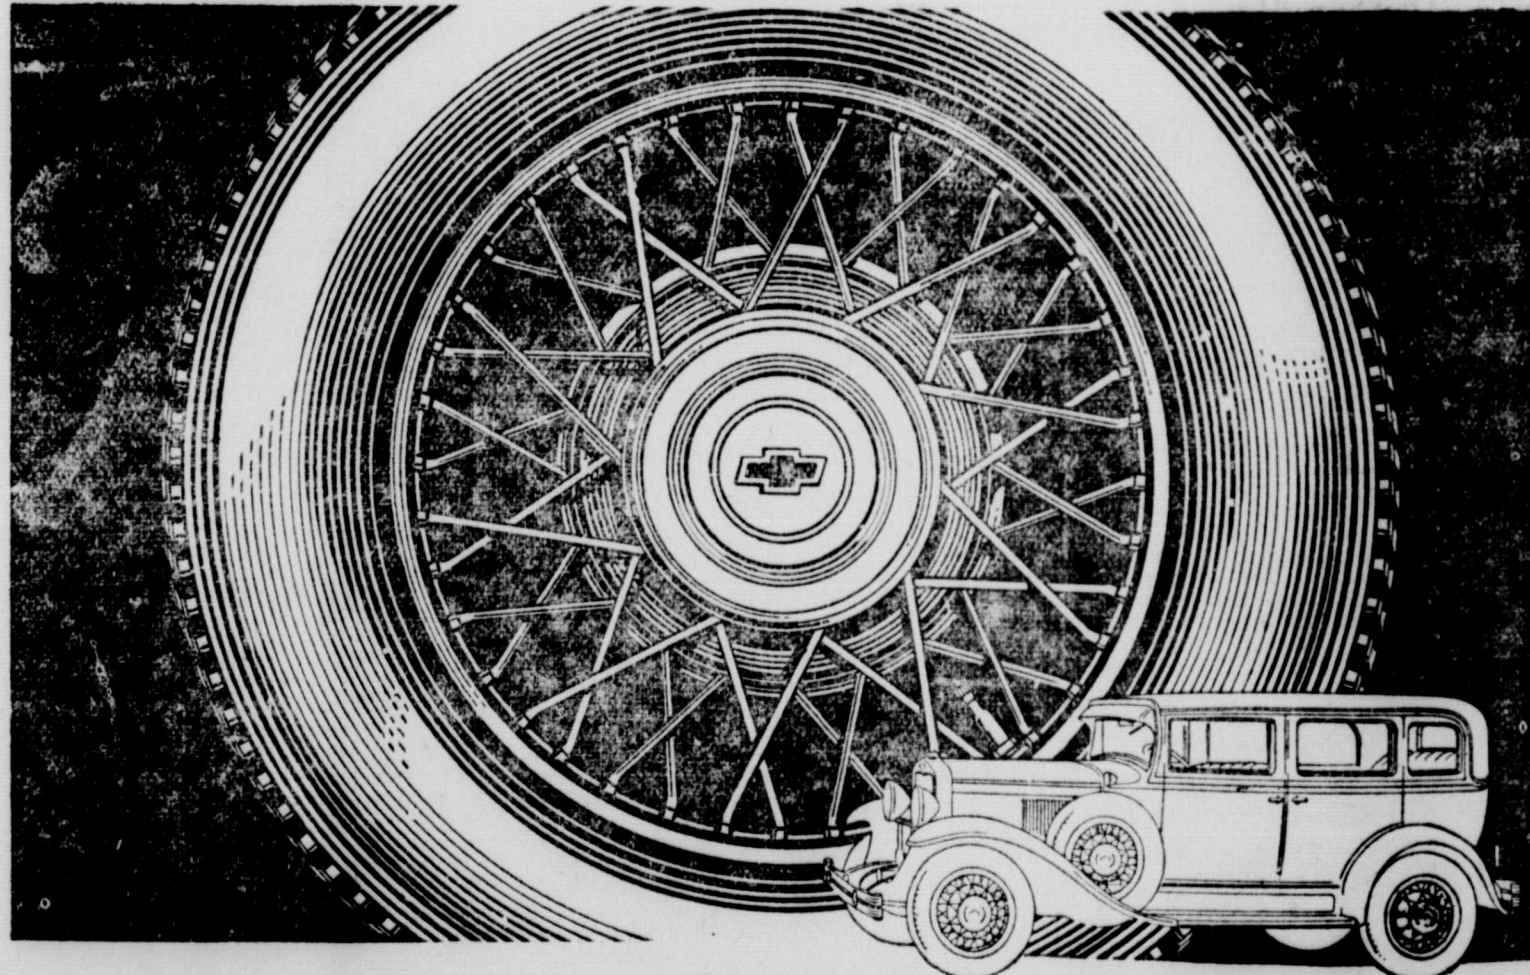

(A correct copy.)

CHEVROLET ANNOUNCES
DE LUXE WIRE WHEELS
at no extra cost

Chevrolet again adds extra value to the Chevrolet Six! Those who prefer may now have any passenger model equipped with beautiful de luxe wire wheels—at no additional cost! These wheels incorporate many important features that have won favor on cars much higher in price—large chrome-plated hub caps, bolts located inside the hub, and an unusually large number of spokes.

A variety of attractive new colors

In addition to this de luxe wire wheel equipment, Chevrolet now makes available a wide choice of new color combinations on all models—colors that are rich and distinctive. You are invited to come in—NOW—and attend the first showing of six-cylinder Chevrolet models with these new extra-value features.

(By Special Correspondent)

Mr. and Mrs. Greer Reinhardt, who had been visiting here for several weeks, left Saturday for their home in Los Angeles, Calif. They were accompanied by Mrs. Reinhardt's niece, Miss Mattie Russell, who will visit in California for some time.

Mr. and Mrs. Dave Sollis, and daughters, Mildred and Evelyn, and son, David Lee, of Gambelville spent Sunday afternoon visiting Mr. and Mrs. R. H. Blevins.

Mr. and Mrs. J. L. Short and daughter, Bessie Elizabeth, and Little Jerry Caldwell spent the week-end with Mr. and Mrs. B. L. Caldwell, at Crowell, Texas.

Z. D. Shaw and family, John Householder and family left Tuesday on a trip to Gonzales County.

Miss Bertha Priest returned home Saturday after spending the week-end visiting relatives. Mrs. Ida Priest and daughter, Sallie Belle, brought her home. They also visited in Vernon a few hours.

Mr. and Mrs. Grant Morrison and children attended church at Gambelville one night last week.

Mrs. W. Ingle and Mrs. Bill Murphy visited friends at Thalia Monday. Mrs. Luther Townley and daughters, Mildred and Alma Lee, and Mrs. Walter Jobe and son, J. W. came home with them and spent the night in the home of Mr. and Mrs. W. Ingle.

Mr. and Mrs. G. M. Sikes and son, Guyton Webb, spent last Wednesday visiting Mr. and Mrs. Fred Goodman in Vernon.

W. S. Carter returned home Monday from a trip to the Rio Grande Valley.

Earle Ingle visited J. B. Townley at Thalia, Monday night.

Raymond Sikes was a Vernon visitor Monday.

TRANSATLANTIC COMMUNICATION EXTENDED

The development of transatlantic telephone communication is continuing at an amazing rate. At the present time almost any telephone in the United States can be interconnected with instruments in most of the principal cities of Europe and South Sweden, including those within the Arctic Circle.

Now it is planned to extend this service to the Far East.

Fifteen years ago, when verbal communication was first held between New York and San Francisco, many thought that the ultimate in telephone contact had been reached.

Yet it is safe to say that within the next few years it will be almost as common for us to talk to a friend in England or France as to one in the next county.

Loftin Launches Second Primary Drive Henrietta

Record Political Speaking Crowd Turns Out for Address

FAVORS JUDICIAL REFORM AND JUNIOR COLLEGE BILL

Candidate Discusses His Record in Three Legislatures

Henrietta, Texas, Aug. 2.—Judge Ruben Loftin, candidate for state senator from the 23rd district, opened his campaign for the second primary before a crowd of nearly 1,000 persons on the lawn of the Clay county courthouse at Henrietta Saturday evening.

This was said to be the largest crowd that had turned out for a political speaking here in several years.

Judge Loftin was introduced by Judge Vincent Stine, of the local district court, who stressed the importance of the candidate's proposals for judicial reform.

Judge Loftin opened his speech by expressing his gratitude to his many friends and supporters in the 23rd district for their votes in the first primary.

He laid stress on the need for a law that would permit the state to cooperate with and aid cities and communities in establishing and maintaining junior colleges.

"It costs the state \$450 annually for each student in the university," the speaker explained, "whereas the cost would be only \$100 per student in a junior college. Also the students would be enabled to remain at home for an additional two years during the period of life in which their characters are most easily molded."

Highway Commission

Judge Loftin also announced his plan for an elective highway commission to be composed of one man from each of the four state districts and one commissioner-at-large. He said that there should be an elective highway commission and that the commission should be forced to maintain an office at Austin which would be open six days a week. He pointed out that at the present time the highway commission had no central office and did not meet often enough.

Judge Loftin discussed his record during three terms as state senator from Archer and Clay counties during the 38th, 39th and 40th legislatures.

He called attention to the fact that he helped pass the present tick eradication law, the statute making a felony of driving while intoxicated and other important laws.

The speaker said while in the legislature he served on many important committees including the following: judiciary, constitutional amendments, banks and banking, oil and gas, stock and stock raising and penitentiary.

Judicial Reforms

Judge Loftin discussed his proposed judicial reforms, one of which is the acceptance of a verdict agreed on by nine of the 12 men on a jury in all cases except death penalty cases.

"A nine jury verdict will save the state of Texas \$1,000,000 annually in preventing so many new trials in cases where nine, 10 or 11 men agree on the verdict," he declared.

Judge Loftin pointed out that at the present time a man can be indicted by nine grand jurors when he is not present, his witnesses are not heard and he is not represented by counsel.

"Yet when he is tried before a jury with his lawyers and witnesses to help him we demand a unanimous verdict of the 12," Judge Loftin said.

The candidate reminded his listeners that both the American and Texas Bar Associations had endorsed the nine-man jury verdict plan. (Political Advertisement)

North Texas One of Best Places for Geological Study

Fort Worth, August 7.—Northern Texas is one of the best places in the United States to study geological structures, according to Dr. J. J. Galloway, professor of paleontology at Columbia University, who visited the geology department of Texas Christian University recently.

"Some of the largest and best specimens of fossils in the country are to be found near T. C. U.," he said. "They compare favorably with those to be found in Europe. In New York we have to go more than 100 miles before we can find any fossils at all. Here you can pick them up out of your back yard."

For 50 years an academic subject, paleontology is now being used more and more in commerce and economics, Dr. Galloway said.

An airplane without a tail is being perfected, but that is needed most of all, is one that can fool old man gravity.

To be content, it is only best to read the automobile ads that describe the superior car that you drive.

Then there was the Scotchman who threw his radio out the window when he learned that it had dry cells in it.

ENJOY A NON-HABIT-FORMING LAXATIVE

It often happens that when you start taking a certain laxative you can't stop. The bowels have become dependent on it. But that's not the case with Rexall Orderlies. Just take them when you're temporarily troubled by constipation. After they've done their work and done it well, you can get along without them. They don't form a habit.

THE EFFORT OF TRYING

"Oh, what's the use of trying?" some people say when confronted with a difficult problem.

And that ends it for them. They see no benefit, they never try again and they never accomplish anything worth while.

If enough people take this stand—get into this mental attitude in regard to every public problem—the whole community suffers from it and eventually will die of dry rot.

But there is every use in trying, even though ultimate failure is the result. No great things are ever achieved without some failures that serve as a lesson in making success possible.

The man who tries is giving vent to the spirit of progress within him. The effort he puts forth, though it may be in vain, convinces him that he does have the ability to do things.

The partial results he obtains though he falls short of the goal, go far towards showing him the weak spots in his plan, and that knowledge gives him faith and courage to try again—and eventually succeed.

The same is true of a community. If its leaders are easily discouraged at failure, are not willing to try again when a chance to improve presents itself, then there isn't much hope.

But when a community has men that are willing and ready to devote their time and energy to things that will bring improvement, regardless of the mistakes of the past, there is some hope for it.

May we have more of such men—those who are anxious to profit from the errors that have been made and climb on them to better things.

WASHING YOUR MONEY.

The Treasury Department earnestly requests that you do not launder your money. If you do, you will very likely experience the fate of a Texan, who recently sent his shirt to the laundry with a new five-dollar greenback in it and got it back with its complexion so altered that he was nearly arrested for a counterfeit when he tried to spend it.

About ten years ago, the department tried to prolong the life of its currency by investing largely in a special type of machinery that would clean notes soiled in circulation. At approximately the same time, the Bureau of Efficiency took a hand and announced that the ink used in printing the notes was too expensive, and they recommended economy in form of a cheaper brand. That sounded sensible enough, so the government prepared for a double saving on its currency that would cut a nice slice out of expenditures. The laundry powder, however, refused to play with the new ink, and the resulting color scheme kept secret service agents guessing for some time over the expert counterfeiting that suddenly became rampant in the country. A careful search through the pockets of laundry-bound shirts might save inconvenience and embarrassment later on.

COSTLY DELAYS

We wouldn't be bothered much with bad roads if we were more prompt in repairing them when they first begin to go to pieces.

If you dip a saw into a pail of water and wipe it off thoroughly afterward, no harm will be done. If the dampness is allowed to remain a few hours, the saw will be a mass of rust.

Saws do not cost much, but we are careful to keep them free from rust. Roads cost many thousands of dollars, and we allow them to become ruined from neglect.

Can you supply the satisfactory reason for such marvelous inconsistency?

ROADSIDE HOBOS

The motorist, as a rule, is notoriously unselfish in sharing his machine with wayfarers. The method of young men "beating their way" across the country has changed from railroads to automobiles and scores of them now boast of traveling through many states without cost and with very little walking.

The driver of an automobile will naturally sympathize with a lonely wanderer on a country road, but the results of giving strangers a lift shows that it is a hazardous practice because of a number of robberies that have been committed by chance

pick-ups. That is not to counsel against "picking up" a friend on the way down town. That courtesy is due every walker from friends who drive machines.

It is the stranger in a strange country that is to be avoided. He may be above injuring a benefactor, or he may be the most desperate criminal out of prison. This is a fact that the motorist can not determine and the safest policy is to give no heed to the hailing sign of the pedestrian who is unknown to the driver.

Virtue may have its own reward, but it seldom ever collects.

Crowell, Texas, as second class mat-
ter.

Crowell, Texas, August 8, 1930

Most every day we hear comment concerning the great number of soda pop caps that are being scattered over the paved streets and about the places where soda pop is dispensed. Though small, the caps are very un- sightly, especially when they are scattered in such great numbers about the streets. We sincerely hope that the civic pride of soda pop dis- pensers will assert itself and that stronger efforts will be made in the future to put the caps where they belong. Customers should also be more careful in removing the caps from the bottles by seeing that the caps fall into the container provided for them.

Crowell may not have gained fame by having any chimney and tree en- trance sitters, however, a walk down main street most any hour of the day is convincing that this city has some excellent candidates for being fend- er sitting champions of the state.

WHAT IS A DOLLAR WORTH?

In the business of production, whether it be agriculture and related lines or in manufacturing, the cost is relatively as important a factor in calculating profits as the price the commodity brings on the market. The value of the dollar thus received is measured in terms of what it will buy. Money, no matter how it is obtained, is merely a medium of ex- change. It is only when inequality exists that the value of a dollar de- creases.

For several years we have heard of the farmers' small-sized dollar. The farmers' dollar has been small because a bushel of wheat, pound of cotton, or a measure of any other farm product would not purchase as much of any commodity used on the farm or in the farm home as it did in pre-war days. Fortunately this dollar has been increasing in size, making up to some extent for the low prices now offered for farm products. This much-talked-of dollar, however, is not equal to many other dollars of similar appearance which are used in exchange for goods.

The good old U. S. dollar, like cot- ton, corn and wheat, becomes more valuable as its numbers decrease. Not that there are fewer dollars in the country than there were last year, but because they are not being hand- ed out as liberally. This has brought

down commodity prices, and so a dol- lar goes further. While it is quite natural for every person to want more dollars, if the cost of living in- creased proportionately, he is no bet- ter off than he was before, because the value of his dollar has decreased as a medium of exchange. If a man makes \$12 per day and he has to pay \$12 for a pair of shoes, he is no bet- ter off with his \$12 than he would be if he only made \$6 per day and could buy his shoes for a day's wage. The same is true regarding any other commodity or all commodities that one may buy.

If a readjustment of wages and prices could be made at the same time and on a basis of equality, no one would suffer except those who con- tracted debts with cheap dollars and had to pay it back with dollars that have increased in value. But, unfor- tunately, commodity prices are al- ways just a little tardy in following wages on the decline, but eventually the adjustment is made. It is also unfortunate that the prices of farm commodities generally decline more rapidly than that of manufactures, but hard times on the farms of this country always result in depressed business conditions even though the fellow up is sometimes a little slow. Business should not pass through the present period of depression without learning something concerning the relative importance of agriculture as an influence on the economic con- ditions of the country.—Farm and Ranch.

NEED MORE FARM STORAGE

A farmer without storage space is forced to sell his crop at harvest time. If he does not, as in the case of some cotton farmers, he is penalized for country damage, real and imaginary.

It is noor business to grow and har- vest a crop and be forced to take any price offered because there is no room for it on the farm. Millions of bushels of grain are forced on the market in harvest time because the growers cannot hold it and wait until the market glut is over. Many farm- ers do not even have storage for the grains and feedstuffs for farm con- sumption. Farmers have been known to sell their oat crop in the spring be- cause of lack of storage space, and buy oats by the sack during the fall and winter at a much higher price.

Concrete storage, of course, is to be preferred, because it is rat and insect proof, but good storage, pro- perly constructed with lumber, serves the purpose very well. We also have sheet iron storage that is equal to concrete, as far as being dry, fire- proof and rat-proof. Metal storage bins can be purchased all ready to be set up. Many prefer this form to concrete.

Almost any kind of storage is pre- ferable to none at all, and before another harvest comes, plans should be made to provide this necessary

facility. In the long run, it will prove a most profitable investment.—Farm and Ranch.

RESPECT FOR GOVERNMENT

The government of the United States can endure only through a reasonable amount of thought and time devoted to its requirements by citizens who love it and wish to have it preserved in all of its force and integrity.

Since the World War there have been creeping into the American life and government tendencies which will undermine the foundation stone of liberty. There has been growing up a school of thinking which advo- cates departing from the republic or representative form of government and completely disregards the safe- guard of liberty, America's strength.

Although there is little hope of cor- recting such views when they have taken hold in the minds of adults, an effort might at least be made to see that school children get a proper understanding of our form of govern- ment.

Here is where the responsibility of the school teacher lies—or perhaps, rather upon the school executives who shape the policies and courses of the schools.

The opportunity is theirs to cor- rect much of the wrong impressions that young and plastic minds may acquire regarding our republican form of government. A thorough conception of American history and the wise forethought of the founders of the greatest republic in the minds of school children may be an effec- tive barrier against the tide of lib- eralism that threatens to become a menace.

Proper understanding of our form of government, how it operates and the theory upon which it is built, is a splendid means of combatting the evils that beset us, and in the great American school system, American parents are placing their faith, with the belief that it will not fail them.

Proper Support Is Necessary to Make Co-Op. Successful

This is the first week of a new cotton season. It brings with it a new, government-supported cotton marketing system.

Managers of branch and sub-offices are being selected from the best qualified cotton men of the state. It is required that they have four years of grading and stapling accord- ing to government standards, as well as to have a government license. The American Cotton Cooperative Association, with E. F. Creekmore, one of the South's outstanding cotton merchants for many years, as gen- eral manager, makes all sales not only for the Texas Association, but for forty other associations cover- ing the American cotton belt. This association is expected to have such a large volume of cotton passing through its hands that it will attract world-wide attention, and be assured of the world's top market.

Since members are bound to deliver only part of their cotton to the as- sociation, the association must com- mand a price equal to that which can be obtained elsewhere, if it is to ob- tain the rest of the member's cotton. Cotton growers might remember that the price being paid on the street is higher than it otherwise would be because the association is on the job, keeping the price up. But they may not be farsighted enough to appre- ciate that fact. The association must meet competition under the new plan, because delivery by its members is largely voluntary.

But the farmer might also bear in mind that his loyal support is neces- sary to make the program a success and that the government which has been 154 years in putting itself be- hind the farmer, may be a long time in doing so again should the farmer fail to accept the opportunity.

If all the speeches made this year in the senate were typewritten and laid end to end, they would still be senate speeches.

GRANGE HEAD SAYS FARMERS FAVOR PROHIBITION LAW

Washington, D. C.—Lewis J. Tabor, master of the National Grange, has told congress his organization of a million farmers in 34 states favors national prohibition and strict en- forcement of the law. Mr. Tabor made this clear in a statement to the congressional committee which was considering the merits of several bills to repeal or modify prohibition.

Mr. Tabor produced official figures to show there was never any great loss to the farmers through the ces- sation of whisky distilling. For in- stance, in 1917, the last year that dis- tillation operations were carried on without hindrance, the corn yield was 3,965,233,000 bushels and of that amount a trifle less than 34,000,000 bushels or about 1 per cent was used to distill whisky and alcohol for all pur- poses. That percentage is too small to produce any part of farm depres- sion. In 1927, the corn crop was 2,780,288,000 bushels of which 8,383,000 bushels were used for industrial and other legal alcohol. The decrease of corn used for distillation is ap- proximately 25,000,000 bushels which is considerable less than 1 per cent of the entire crop; and in the mean- time this amount was otherwise con- sumed by the market. Corn averaged 59 cents a bushel in the last years of the distilling era while the average price since prohibition has been 72 cents. Mr. Tabor declares that the great increase in the use of breakfast foods vastly more than takes care of corn and other grains that once went into liquor. The Agricultural depart- ment records indicate that corn acre- age, yield per acre and the total yield are increasing.

The rye market, at first curtailed by prohibition, found immediate relief in the increased use of rye for foodstuffs and export. Mr. Tabor declared that the farm value of the rye crop is greater now in the dry years than in the pre-prohibition years by about \$20,000,000,000 a year and that there is nearly twice as much rye produced as formerly.

Mr. Tabor said:

"Ten years' experience with a saloon nation has convinced the American farmer that economically, socially, financially, and morally our country is much improved under the operation of prohibition legislation. The fact that has impressed the farmer is the increased purchasing power that has come to the American citizen as the result of the proper enforce- ment of our dry laws. Men who used to spend their money for drink, now have the money for shoes, bread, meat and the comforts of life. The millions and millions that used to be spent for drink are now passing through channels of trade benefitting the nation, and agriculture is getting its proportionate return."

SAYS CANADA PLAN FOR LIQUOR CONTROL BRINGS BACK SALOON

The congress of the United States is now thoroughly informed of the fact that only a small part of the Canadian liquor system is owned or controlled by the government, and that the present system of liquor sales in Canada by no means eliminates the saloon.

Information on these points was given to the judiciary committee of the house of representatives by E. C. Drury, former prime minister of the Province of Ontario, Canada. In his statement Mr. Drury said:

"Let us get rid of the fiction that all of the liquor selling establishments in Canada are government owned. There are 5,135 legal liquor selling places in Canada of which 575 are owned or operated by the government. The rest of these, 4,560 in number, are private stores for the sale of intox- icating liquor, and of this number 2,697 sell liquor by the drink on the prem- ises. The cry in Canada was that there would be no bar rooms under government control of liquor, yet four provinces permit beer parlors, the dif- ference between those beer parlors and the old saloon is principally in name only.

"The Quebec government has a monopoly of whisky sales, but every- thing else is sold privately.

"Beer is sold by the glass in private- ly owned beer saloons in Alberta, British Columbia, Manitoba and systems of chain liquor stores have been established in seven provinces, these being privately owned selling agen- cies for privately owned breweries, distilleries and wineries."

In response to frequent requests for information on the liquor traffic in Canada, the Dominion government, through its department of trade and commerce, recently issued an official bulletin on the subject, which was presented to the judiciary committee of the house of representatives by Mrs. Ella A. Boole, president of the National W. C. T. U.

This official report showed great in- creases in crime, operation of illicit stills, drunken driving and deaths from alcoholism as well as a sharp increase in the consumption of whisky all these increases being greater than the in- creases in population. Convictions for drunkenness increased from 21,026 in 1918 to 33,695 in 1928; drunken driv- ing measured by convictions has in- creased almost 1300 per cent in eight years in Canada, while the number of automobiles has only doubled. The convictions for drunkenness and the infractions of the liquor law such as bootlegging have amounted to almost one-half of the Canadian po- lice court cases which sets at rest the claim that government control of the liquor traffic ends such violations.

We quote you a few im- portant items from the many useful articles to be found on our display tables at all times.

Mrs. Emma V. Robinson returned Monday from Lubbock where she visited for a month with her son, John Robinson. Mrs. Robinson was accompanied to Lubbock by Mrs. M. E. Todd who is at Wilson visiting the families of her son, Bert Todd, and daughter, Mrs. J. F. Oliver.

NEW POULTRYMAN

Oscar Boman is rejoicing this week over the arrival of the first egg from the poultry flock that he started last spring. Mr. Boman has about 250 young White Leghorn pullets at his place in the north part of town and now feels that he is on the road to prosperity, anyway, he is not planning to go hungry this winter.

SERVING 84,000,000 AMERICANS

Recent statistics disclose that use of electricity in American homes has increased more than 50 per cent during the last three years. In 1926 we employed 6,345,000,000 kilowatt-hours of electric power for domestic purposes; in 1929, this rose to 9,787,000,000. The average consumption of electricity by domestic customers is now about 500 kilowatt-hours a year, as compared with 220 in 1913. And, to complete the imposing statistical array of facts, the electric industry now serves 20,000,000 domestic customers, representing a population of approximately 84,000,000.

The amazing growth of the industry is attributed to four main causes: The large annual increase in the number of customers; the largely increased use of electrical appliances; increased lighting and better illumination in the average home; and, perhaps most important of all, the fact that cost of electricity per kilowatt-hour is now 28 per cent below the 1913 standard, while the general cost of living is 71 per cent above.

With the exception of those things that are vital to the maintenance of human life, it would probably be the general consensus of the public opinion that electricity is one of the most indispensable commodities. It is directly responsible for our modern high standard of working and living conditions. It has, by giving the worker increased production, helped the trend toward higher wages and shorter hours. And it costs the average person less than two cents per day!

After a heat wave, we believe a summer every other year would be a high enough average.

Nowadays the school girl complexion is kept at 5 and 10 cent stores and drug stores.

LEO SPENCER, General Insurance

BIRTHRATE DROPS

According to figures made public by the United States Bureau of Education, the American birthrate is declining rapidly.

If it were not for the large families owned by men and women whose parents came from some land across the water, things would probably be more alarming, for in most sections few large families of old American stock can be found.

Even as it is, less than four children per two hundred Americans were born in 1928, whereas five children were born in 1915.

In 1920 we had 4,320,000 children in the first grade. Six years later there were less than four million children in this grade.

Keep this up and it will not be very long before some wise Mr. Barnum will round up the few Americans and exhibit them at so much per look.

The senate has passed two great things—the tariff and London treaty—much to the delight of newspaper editors.

Experts figure that a family of four can be well fed for \$13.74 a week. The expert who figured it was probably a bachelor.

The President's proclamation announcing the 1930 census was sent out in twenty-three languages.

A ton of bituminous coal would yield about forty gallons of usable gasoline.

A WORD TO THE PUBLIC

Due to the ordinance against tent shows in Crowell, Leavell Brothers Own Company is playing Thursday, Friday and Saturday nights of this week in Margaret and a cordial invitation is extended to the people of Crowell to attend these performances.

The feature play, "Sainted Hypocrites," will be presented Saturday night. "Louise," a three-act society comedy will be presented Friday night and the opening play Thursday night is "Mother." All plays have three acts and are late New York successes.

A band and orchestra is with the company, whose performances will take place in the big tent.

Ladies will be admitted free Thursday night, August 7, and Friday, only.

Coronated Letters are Good Form

No longer is an apology expected for a typewritten letter to a friend. On the contrary, most of us have to apologize when we write in longhand.

Love letters are the only ones that people are willing to take the time to decipher. All others should be coronatyped. And if more love letters were coronatyped, there might be fewer breach of promise suits.

HE RARELY GIVES UP

Patiently the miner prospects and pans his diggings searching for his object—"pay dirt." He rarely gives up. Folks who really want what money will bring have the miner's spirit to find gold. They work and sensibly save.

TO PRECINCT NO. 2 VOTERS

I take this method of expressing to the voters of Precinct No. 2 my most sincere appreciation for the support given me in the Democratic primary on July 26th.
Respectfully yours,
HIRAM GRAY.

MANY THANKS

I take this means of thanking the people of Precinct 2 for again expressing their confidence in me by electing me to a second term as commissioner of this precinct.
I assure you that I shall do all in my power to make you a fair and efficient official.
Sincerely yours,
J. C. HYSINGER.

TO PRECINCT 4 VOTERS

I wish to express my most sincere thanks to my friends in Precinct 4 for the support given me in the Democratic primary on July 26th. I greatly appreciate your fair consideration.
Sincerely,
T. J. CATES.

TO FOARD COUNTY VOTERS

In being elected to a second term as county treasurer, I wish to express my most heartfelt thanks to the people of Foard County for the confidence expressed in me.
Yours sincerely,
MARGARET CURTIS.

THANKS

I sincerely thank the people of Precinct 1 for the good vote given me in the Democratic primary for commissioner. Your support is greatly appreciated.
ROY TODD.

CARD OF THANKS

I desire to take this means of expressing my appreciation for the splendid vote given me in the Democratic primary for Justice of the Peace, precinct No. 1.
J. W. KLEPPER.

VIVIAN

(By Special Correspondent)

Mrs. J. H. Myers and children spent Saturday and Sunday visiting Mrs. Lowry of the Black community. Herbert Fish returned from Sunset Sunday night.

Allen Fish and Harry Reynolds made a business trip to Oklahoma Monday.

Mr. and Mrs. W. O. Fish and children and Mr. and Mrs. Egbert Fish and son, Henry, left Saturday for Anson where they will visit Mr. and Mrs. J. M. Sosebee.

The 4-H Club girls wish to express their appreciation to all who helped in any way toward the success of their guilt just sold.

A Baptist revival conducted by Rev. Balwin began at the school house Sunday. Everybody is urged to attend and help make this meeting a success.

Mr. and Mrs. Allen Fish and sons spent Saturday in the home of T. B. Klepper and family of Crowell. They were accompanied home by their daughter, Anita May, who had been visiting there for the past week.

James Norman of the Ogden community is visiting Mrs. A. J. Whatley and family.

Mr. and Mrs. Claude Frazier, Mr. and Mrs. J. W. Frazier and Mr. and Mrs. Willis Frazier, all of Abilene, visited in the home of A. T. Fish last week.

Miss Bernita Fish returned home Monday after visiting her sister, Mrs. J. M. Sosebee, of Anson.

Mr. and Mrs. Tom Civils of Ogden spent Sunday in the home of Mr. and Mrs. A. T. Fish and family.

CHURCHES

Christian Science

Sunday, 11 A. M., Subject for Sunday, August 10, "Spirit." Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

Baptist Church News

Pastor's Study

The meeting at Odell closed last Friday night. There were six additions and five conversions during the meeting. Large crowds attended all services and a general good revival was experienced by the church. The day crowds averaged 100 and the house was full at night.

The pastor spoke twice last Sunday on the themes as per last week's church news. There was one addition to the church during the day. Each service of the church functioned in a normal way. Bro. Ivan Wozencraft led the singing in the absence of Bro. E. B. McBurnett. Bro. E. C. King returned Sunday evening from a visit to his brother who is in a hospital at Stamford in time to lead the B. Y. P. U's.

The pastor will fill his pulpit at both hours next Sunday. We expect good crowds at each service. Come on time to the evening service or we will be through when you arrive. It is too hot to have long services.

We are always happy to welcome new people in our church. Come and bring a friend.

WOODIE W. SMITH, Pastor

PRESBYTERIAN CHURCH

Regular church services will be held at both the morning and evening hours at the Presbyterian Church Sunday. Sunday School will start at 10 a. m. You have a cordial invitation to attend all services.

All Baptist young people are invited. So is any one else who wishes to come.—Group Captain.

Thalia Baptist W. M. S.

The Thalia Baptist W. M. S. met Monday, July 20. We had for our lesson the 12th chapter of John. Devotional was led by Mrs. Dick Pharr, after which we were led in prayer by Mrs. Capps. The lesson was conducted by Mrs. Tarver.
On Monday, July 27, the W. M. S. met in a business meeting. Devotional was led by Mrs. Capps, after which we were led in prayer by Mrs. Ed Self. The following officers were elected for another year: President, Mrs. Tarver; vice president, Mrs. Haney; secretary-treasurer, Georgia Adkins.
On account of the meeting which will begin Aug. 3, we will not have a meeting on Monday afternoon, Aug. 4.—Reporter.

Senior B. Y. P. U.

Subject—"The influence of the Bible on literature."
The Bible as literature—Claudia Carter.
The related arts—Ola Carter.
The field of "literature"—Winnie Self.
The Elizabethan Period—Florence Griffith.
The Georgian and Victorian Period—Mrs. S. A. Miller.
American Literature—Maye Andrews.

CHRISTIAN SCIENCE CHURCHES

The subject of the lesson-sermon in all Churches of Christ, Scientist, Sunday, August 3, was "Love."
The Golden Text was from I John, 4:12. "No man hath seen God at any time. If we love one another, God dwelleth in us, and his love is perfected in us."
Included in the citations comprising the service was the following passage from the Bible: "The Lord

had appeared of old unto me, saying, Yea, I have loved thee with an everlasting love; therefore with loving kindness have I drawn thee." (Jeremiah 31:3).

The lesson-sermon also included the following citations from the Christian Science textbooks "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Love is impartial and universal in its adaptation and bestowals. It is the open fount which cries, 'Ho, every one that thirsteth, come ye to the waters'" (p. 13). "Divine Love is infinite. Therefore all that really exists is in and of God, and manifests His love." (p. 340).

TEXON TALES

(The crazy number.)

This ought to be hot. The weather is right anyway. We are crazy with the heat so we call this the crazy number. If you should read this you oughtta agree with us. If you don't read this why that won't hurt you none either. Well, it is this way, we will endeavor to give you a few of the high-lights or something about this here oil field. If we do really do that we'll be just as surprised as you are. First, just to get you kind of rattled we will up and ask, what do you know about oil fields anyway? We are that way ourselves. For any information at this time of the year consult any good road map or any of them. They was some birds unloading their oil drilling utensils and junk off the train and started way out to a spot they aimed to drill so they drilled right here and got oil. From that we figger it rained that year. That proves it. For they were stuck in the mud so they got oil too. Where they first aimed to drill they ain't no oil. Ain't that funny? They thought so too. So everything was alright. They was enough shallow oil to make a field out of and three towns. Texon and Best are two of the towns. They have changed the name of the other town so much they have about wore it out and several innocent bystanders who are also disinterested parties so you might as well guess what the name of that town is as anybody else. It don't make no difference anyway. Very little does at that. Best sprang up overnight and became a very tough and wicked town the very next day, according to the reports. The reports of the gun fights they used to have on the streets of Best. But Best got quieter and lots of people left there and went to New Holbs, N. M., just because they don't kill somebody at Best every Saturday night like they use to. Along about that time they established a post office at Texon. The first money order issued at Texon was for one cent. The man who issued it and the man who bought it are both now dead. They were well known old time characters, ex-rangers and pioneers who have made much history in this part of the land. The sheriff who was elected in the recent primary is the noted cowboy and once world's champion roper, Ellison Carroll. It is reported his main deputy will be Hackberry Slim, another well known cowboy also sometimes known as Hack Johnson. And in conclusion, just to show how tough this country really is it might be well to say that

Athlete Soon Regains Health By New Konjola

Baseball Player Suffering From Rheumatism And Other Ailments Finds Prompt Relief

"For over two years I suffered from rheumatism," said Mr. Jack M. Long, 511 Burnett street, Ft. Worth. "My legs and back were affected so much that I could not carry on my work as a baseball player. Finally I was forced to remain in my home

MR. JACK M. LONG

for three months. I had attacks of indigestion and my kidneys gave me no end of trouble; the pains in my back were terrible. I was forced to rise many times nightly and became very nervous.

"I tried many remedies without result when a friend recommended Konjola. After taking seven bottles, I was able to resume my work in the K. I. C. League as a ball player. The rheumatic pains have completely vanished and my stomach is in perfect condition. My kidneys are again normal and I do not have to rise at night. The pains have left my back and my nerves are strong. Konjola restored me to perfect health."

Although many men and women state that one or two bottles brought relief, it is recommended that six or eight bottles be taken to obtain the best results.
Konjola is sold in Crowell, Texas, at Ferguson Bros. Drug Store, and by all the best druggists in all towns throughout this entire section.

the postmaster at Texon is a guy called Kim, Las Vegas Kim, and also a few other things that wouldn't look good in print. So that's just the way it is.
TEXON TATTLER.

Many Texans Are Heavily Insured

Dallas, Aug. 7, 1930.—At least 302 citizens of Texas now own \$100,000 or more in life insurance, according to figures just released by W. A. Callaway of the Southland Life Insurance Company in his annual "Texas Index." Estates represented in the list total \$70,163,467 as compared with 266 for a total of \$62,899,390 in 1929.

Says Mr. Callaway in a foreword: "It was impossible to secure all the names that have rightful places in the list of Texas men and women whose lives are insured for \$100,000. The list, however, is growing larger and larger year by year and the booklet is doing a wonderful work among those whose lives are inadequately insured and among those whose lives are without life insurance protection."

Dallas leads the entire list, according to the "Index," with 78, whose insurance protection totals \$19,150,924. Houston being second with 53 for \$12,512,840. San Antonio third with 24 for \$5,666,000. Fort Worth fourth with 23 for a total of \$6,646,929. El Paso fifth with 18 and Wichita Falls sixth with 15.

J. M. West of Houston is the most heavily insured, according to the "Index," owning \$1,453,500 in life insurance. Edwin A. Landreth of Fort Worth is second with \$1,200,000, with Col. E. O. Thompson of Amarillo, H. H. Rogers of San Antonio and Clarence E. Lintz of Dallas showing in the million-dollar class.

The towns represented in the "Index" are Abilene, Amarillo, Austin, Beaumont, Breckenridge, Brownwood, Cameron, Colorado, Corpus Christi, Corsicana, Dallas, Del Rio, Denison, Donna, Eastland, El Paso, Fort Worth, Galveston, Goliad, Henderson, Houston, Kerrville, Laredo, Lubbock, McAllen, McKinney, Mexia, Mineral Wells, Navasota, Orange, Palestine, Paris, Port Arkansas, San Antonio, San Benito, Seguin, Sherman, Sonora, Stamford, Sweetwater, Temple, Tierra Alta, Victoria, Waco, Weslaco and Wichita Falls.

Children's ring games are a survival of ancient religious ceremonies, a British educator says.

In Alaska during the winter the frozen rivers serve as "boulevards" for dog teams.

Indians of some western tribes made garments from bark fibers.

About half of the people of Tibet are monks and nuns.

S. J. R. No. 7 PROPOSING A CONSTITUTIONAL AMENDMENT TO BE VOTED ON NOVEMBER 4, 1930

Be it resolved by the Legislature of the State of Texas:
Section 1. That Section 11 Article VII of the Constitution of the State of Texas be amended as follows:
Section 11. In order to enable the Legislature to perform the duties set forth in the foregoing section, it is hereby declared all lands and other property heretofore set apart and appropriated for the establishment and maintenance of the University of Texas, together with all the proceeds of sales of the same, heretofore made or hereafter to be made, all grants, donations and appropriations that may hereafter be made to the State of Texas, or from any other source, shall constitute and become a permanent university fund and the same as realized and received into the Treasury of the State (together with such sums belonging to the fund as may now be in the Treasury) shall be invested in bonds of the United States, the State of Texas, or counties of said State, in school bonds of municipalities, in bonds of any city of this State, in obligations and pledges issued by the Board of Regents of the University of Texas, or secured by such obligations and pledges, for the construction of dormitories and other buildings for the use of the University of Texas, or in bonds issued under and by virtue of the Federal Farm Loan Act approved by the President of the United States, July 17, 1916, and amendments thereto, and the interest accrued thereon shall be subject to appropriation by the Legislature to accomplish the purpose declared in the foregoing section; provided, that the one-third of the alternate sections of the laws granted to railroads, reserved by the State, which were set apart and appropriated to the establishment of the University of Texas, by an Act of the Legislature of February 11, 1858, entitled, "An Act to establish the University of Texas," shall be included in, or constitute a part of, the permanent university fund."

Sec. 2. Said proposed amendments shall be voted on by the electors of this State qualified to vote on constitutional amendments at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1930.
(A correct copy.)

SOCIETY

MR. AND MRS. JO RAY HONORED WITH DINNER PARTY TUES. EVENING

Mesdames M. S. Henry and H. Schindler entertained with a delightful dinner party Tuesday evening on the spacious lawn at the home of Mr. and Mrs. Henry. The party was given in honor of Mr. and Mrs. Jo Ray of Pittsburgh, Pa., who are visiting here.

The guests, upon arrival, were presented to the honorees and then enjoyed conversation on the cool lawn until dinner was announced. A clever contest was used to match partners for dinner and the meal was served in cafeteria style from under the pergola, then enjoyed at tables placed on the lighted lawn.

After the bountiful feast tallies were passed for bridge and "42" and the games were enjoyed by ten tables of players for an hour or two, at the close of which, guest prizes were presented to the honor guests, also to the following out-of-town guests, Mrs. D. G. Sprill of Shamrock, Miss Christine and Frances Campbell of Pampa and Mr. and Mrs. J. M. Lewis of Normangee.

Refreshing punch was served throughout the games and again before the departure of the guests.

VERNON GUEST HONORED WITH "600" PARTY MONDAY

Mr. and Mrs. Virgil Smith gave a "600" party Monday evening honoring their guest, Miss Gertrude Seal, of Vernon. Miss Seal is a former resident of Crowell. Several contests were also enjoyed with the evening's

entertainment ending with the refreshments consisting of ice cream and cake. Those enjoying the occasion were: Misses Leona Morris, Ila Lovelady, Dorothy Florence Hinds, Mildred Cogdell, Neita Cates, Winnie Thomson and Messrs. Lee Black, Charlie Ashford, Arthur Bell, Granville Lanier, Edward Huffman and the honoree.—Contributed.

PARTY AT SELF HOME

Miss Winnie Self was hostess at a party at her home Tuesday evening. Games of Bunko, "42" and "600" were enjoyed, after which refreshments of sandwiches and punch were served.

A treasure hunt, carrying the guests to various points, in and about Crowell was one of the features of the evening. The hunt ended at the city lake where a watermelon feast was enjoyed with various games following.

Those present for the enjoyable affair were: Misses Geraldine Curtis and Elizabeth Turnbough of Quanah, Lucille Ellis, Catherine Clark, Martha Schlagal, Frances Hill, Frankie Kirkpatrick, Allison Self and Messrs. Tom Reeder Jr., Lee Black, Lega Richardson of Quanah, Foster Howell of Commerce, G. V. Walden, Floyd Thomas, Mack Boswell and the hostess.

WATERMELON FEAST

The Men's Bible class of the Methodist Sunday School of which T. L. Hughton is teacher, entertained the members of the Co-Laborers Class of which Mrs. T. L. Hughton is teacher, with a watermelon feast near the T. N. Bell farm on Beaver Creek last Friday evening.

About fifteen ice cold melons were cut and served and the occasion was very much enjoyed by all present.

CALIFORNIA GUESTS HONORED WITH COVERED DISH LUNCHEON FRIDAY

Friday, August first, Miss Frankie Kirkpatrick honored her guests, J. V. Bost, Mrs. Sallie Bost and daughter, Lucretia, of Los Angeles, Calif., former residents of Crowell, with a surprise covered dish dinner.

Those enjoying the occasion with the honor guests were: Mr. and Mrs. G. H. Patton, Mr. and Mrs. D. C. Greer, Mrs. J. E. Harwell and children, Harry and Helen, Mrs. Sallie E. Woods, W. F. Kirkpatrick, Misses Emily Purcell, Vera and Beulah Patton, Lottie Woods, Frankie Kirkpatrick and little Misses Lena Gene and Mary Frances Green of San Angelo, also house guests of the hostess.

Reunion Held Sunday by M. P. Oswalt Family

The tenth annual reunion of the children and grand-children of Mr. and Mrs. M. P. Oswalt of Quanah was held Sunday at the Griffith Hotel. This is the first reunion of the family that has been held in Crowell, the others have been held in Chillicothe.

A total of thirty-eight children and grand-children were present. All sons and daughters and all wives and husbands of the married children were present. Only two grand-children, Wayland Griffith of Houston, and W. D. Wofford of Abilene, were not present.

The relatives present were: Mr. and Mrs. M. P. Oswalt, the mother and father, Mr. and Mrs. W. N. Wofford and family of Abilene; Z. Oswalt of Abilene; Mr. and Mrs. J. S. Oswalt of Frederick, Oklahoma; Mr. and Mrs. L. B. Wofford of Chillicothe; Mr. and Mrs. Irvy Ayers and family of Chillicothe; Mr. and Mrs. W. S. Dodson and family of Chillicothe; Mr. and Mrs. Alan Murphey of Vernon; Mr. and Mrs. R. D. Oswalt and family of Crowell; Mr. and Mrs. W. W. Griffith and family of Crowell and Bill Kay Oswalt of Chillicothe. Mr. and Mrs. Rayford Murphey of Quanah were also present. Mr. Murphey is a brother of Allen Murphey, a son-in-law of Mr. and Mrs. M. P. Oswalt.

All took dinner together at the noon hour and after spending an enjoyable day the visitors returned to their homes.

All-Day Picnic Held at Davis Place Tues.

The annual community barbecue for the people of the Black and Monkey Run communities was held at the r. A. Davis place, near Pease River, Tuesday with a large number in attendance. Beef and chicken barbecue, along with other delicious food was served at dinner and supper.

Those in attendance for the enjoyable affair included the following families: Gibson, Gafford, Perry and Charlie Hunter, Joe, Charlie, Fred and Frank Halenack, Winters, Wall, Simmons, Naron, Huckabee, Davis, Bursay, Mullins, Hrabal, Bradshaw, Walter, Claude and Grover Nichols, Machac, Hall, Gregory, Stubblefield, Lankford, Holder, Adams, Jackson, Borchardt of Beaver, Blevins and Horn of Foard City, Thomas and Howard Bursay of Wichita Falls, Mrs. Ward and baby of Cooper, Texas; Miss Virginia Sue Crowell and Mrs. W. R. Tuttle of Crowell; Mr. Oakley of Fannin County and possibly others whose names were overlooked.

CEMETERY SUBSCRIPTIONS

Those subscribing to the cemetery fund since last report are: Mrs. J. H. Olds \$1.50, Mrs. N. A. Crowell \$2.00, Ferguson Bros. \$5.00, Mrs. Albert White \$1.00, Mrs. Clint White \$10.00, One Miller \$5.00, Mrs. J. D. Halsell, Sanderson \$2.00, Clyde Graham \$5.00. Cemetery cook books are on sale at either drug store for 50c.

Thalia Epworth League Program for August 10th

Subject—Christ in Old Testament Psalms and songs. Leader—Mildred Adkins. Talks on Psalms as follows: Psalm 80—Anna Mark Adkins, Psalm 13—Mirvie Wood, Psalm 23—Quitman Box, Psalm 46—Pauline Grimsley, Psalm 16—Douglas Tucker, Psalm 2—Norman Gray, Psalm 67—Ross Shook. Benediction.

TELEPHONE FACTS

At the time of the last official telephone census we had 59 per cent of the world's 32,712,284 instruments.

We have 16.3 telephones for each 100 persons of our population. Canada, with 13.7 per hundred, is the only other country even approximating this record. Germany, second to the United States in total number, has but 4.6 instruments per hundred.

The 51 American cities with populations in excess of 200,000 have an average of 22.8 telephones per hundred, while only two foreign cities have an equally high average. New York City has nearly as many telephones as Great Britain. San Francisco leads the world in telephone density, with an instrument for every three persons.

In the space of a single lifetime the telephone has encircled the world, and bound cities, states, nations and continents together through the medium of the spoken word. No other industry has done more for the world unity of thought.

The old Roman roads, built hundreds of years ago, are still in use. Probably ours would be too, if it wasn't for cutting them up for water, gas and sewer repairs.

MR. AND MRS. J. H. SELF

The above is a picture of Mr. and Mrs. J. H. Self that was recently taken in connection with their Golden Wedding anniversary. The picture appeared in the Fort Worth Star-Telegram last week and the cut for the picture has been furnished The News through the courtesy of that publication.

Mr. and Mrs. Self are now visiting in Buffalo, Missouri, the place that Mr. Self left about fifty years ago for Denton County. Shortly after his arrival in Denton County he was married to Mrs. Self.

Dry, Hot Weather Causes Sickness Among Poultry

(By Fred Rennels, County Agent)

There have been many reports of sick chickens and turkeys coming to the office the past few days. The extreme dry hot weather with no green feeds for the flocks have decreased their vitality until they are an easy prey for diseases and worms. Plenty of shade should be provided for the flocks and plenty of good drinking water where they can get to it at all times. Worms and roup seem to be the most common trouble.

Due to the very low prices of eggs and chickens many of the poultry raisers of the county have quit feeding, or in some instances are feeding nothing but wheat. When wheat is fed with other things and when there is plenty of green feed, bugs and crashoppers where the chickens and turkeys can help balance their ration the wheat is alright, but many who are feeding straight wheat at this time are having some difficulty.

When chickens and turkeys get very light and poor, feathers ruffled, off feed and droopy, it is usually a sign of worms. This can be remedied by giving the individual treatment for worms which kills both tape and round worms. Tobacco dust fed in mash at the rate of two pounds in the 100 pounds of mash is also a

satisfactory way of controlling worms.

Epsom salts at the rate of one lb. to each 100 birds aids in the treatment of roup. Separate the sick birds from the healthy birds. Give salts to the entire flocks when the first sign of colds and roup are noticed. Roup usually starts with a cold. See that the poultry house is properly ventilated. It is more difficult to keep chickens cool than it is to keep them warm.

1. Provide the flock with shade and plenty of good clean drinking water, and good feed.

2. Look them over for lice and intestinal worms.

3. Ventilate the Poultry House, but see that the flock doesn't roost in a draft.

4. Cleanliness in the poultry house and yards will go a long way towards keeping the flock healthy.

5. Keep the place free from dead objects such as may produce limber neck. There are a number of losses reported from this cause.

Kirkpatrick and Rennels Speakers at Luncheon

W. F. Kirkpatrick and Fred Rennels were the principal speakers at the Rotary luncheon Wednesday. Mr. Kirkpatrick gave a talk on the farming industry and the problems of raising it. Mr. Rennels spoke on a new member's impression of Rotary. Mack Boswell was in charge of the program and conducted a questionnaire concerning Rotary. Jo Ray of Pittsburgh, Pennsylvania, was a visitor at the luncheon.
