The resignation of Rev. A. C. Hardin as pastor of the First Baptist church was accepted several days ago. The pastor will assume duties as pastor of the Baptist church in Tahoka, Texas, on March 1. Quotas Listed For Slaughtering Meat Supply For All Uses

The U. S. meat supply is the largest in history but it is not big enough to supply full civilian desires in addition to military and United Nation requirements which must be filled at any cost in winning the war. Regulations of the meat supply is a vital war time necessity, as announced by OPA. states John L. Wallace, chairman Garza County USDA War Board. Slaughtering—A person or organization is a slaughterer who (a) during the first nine months of 1942 slaughtered more than 1 1/2 million pounds of the "controlled meats," or (b) slaughters any calendar quarter more than 500,000 pounds of "controlled meats." These slaughterers, during the first quarter of 1943, may deliver into civilian channels only 70 percent of the beef, pork or veal and only 75 percent of the lamb and mutton that they delivered in the first quarter of 1941.
Non-Quota Slaughterers—A person or organization is a non-quota slaughterer who slaughtered and delivered less than 1 1/2 million pounds of beef, veal, lamb and pork in the first nine months of 1941, and who now slaughters and delivers less than 500,000 pounds of these meats in any calendar quarter.
Slaughter for home use—There is no restriction on farm slaughter for home use. However, the farmers are urged to conserve home-slaughtered meat carefully, observing the 2 1/2 pound per person per week request of the Share-the-meat Program.
Both quota and non-quota slaughterers must keep records of all meat deliveries. Accordingly, farmers must keep records of all animals slaughtered for other than home use.

Response To Red Cross Call Is Very Gratifying

Women's organizations, church auxiliaries, communities and individuals are sharing in the feeling of personal responsibility for producing garments and supplies for the American Red Cross. A call for volunteer workers and donations was made very recently and the response was very gratifying, reports from chairmen of the Red Cross production room indicate.
Contributors of work and material recently are the Nazarene church society, the Presbyterian Ladies Aid, the Verbena Sunday School, the Priscilla Sewing club, Women of the Baptist church, the Cap Rock school, and numerous individuals. Almost every community in the county has had some part in the production program.
There is a need for fracture and hospital pillows and many donations for a portion of these items have been given. A consignment of these articles, together with hot water bag covers, bed-side bags and other hospital articles, is ready to be shipped as soon as instructions arrive.
Quilts made from wool scraps left from garments completed last year are being made and eight baby quilts from layette scraps have been pieced and quilted. Work of this nature is vital and several faithful individuals are volunteering their services and time to this phase of the program.
If you are not doing any volunteer work and want to help you are advised to contact Mrs. J. P. Manly or Mrs. T. L. Jones, co-chairmen of the Production Unit and Sewing Room.

Hayes Holman, superintendent of the Post school system, resigned Tuesday night and will leave Friday or Saturday for Brady, Texas, where he will begin training Monday as instructor in ground school aeronautics at Curtis Field. Training work at the army air base there is for cadets only and Mr. Holman was recommended for the job of instructor by the commanding officer of Ellington Field Headquarters.
Replacing Mr. Holman, who is serving his seventh year in the Post school, will be L. V. Bearden. Mr. Bearden has served as principal of the grade school and high school and is thoroughly familiar with the work in both schools. His promotion to that of superintendent will be welcomed by the school patrons as no break in the regular routine need be felt to any great extent. Mr. Bearden has been in intimate contact with all phases of school work and will serve well as superintendent.
The school under the supervision of Mr. Holman has made steady progress. It is in a better financial condition than it has ever been and has a fine rating with the department of education. Many new credits and new courses have been added and all standards have been raised.
Mr. Holman will give instruction in Pre-Flight training. He completed courses in this phase of aeronautics last summer in the University of Texas and has been conducting a similar course in the High school this year. The course includes the fundamentals of flying. He is enthusiastic over the assignment but regrets having to leave the Post school in the middle of the term.
Mrs. Holman and daughter Jerry will live in Colorado City with her parents until living quarters in Brady are available.
The couple will be missed here as both have taken a most active part not only in the affairs of the schools but in clubs and churches.

Lunch Room To Be Taken Over By School After February 26

The lunch room at the grade school will after February 26 be operated by the school instead of the WPA, it was announced this week from the office of the school superintendent. WPA projects are being curtailed but it is hoped that the school can carry on the project through the remainder of the school term. In order to insure this, however, lunches will cost fifteen cents after February 26.
The same workers will be employed as those who have been operating the WPA room and the same high quality, nutritious meals will be served. With the increase in price and the home canned goods on hand, authorities believe the project can continue to function.

Handling Of Mail For Overseas Armed Forces Explained

During recent months, complaints from the public of delayed or lost mail addressed to members of the armed forces indicate that there is wide misunderstanding of how this mail is handled and of the difficulties encountered in its delivery.
These complaints, incidentally, are far fewer than the number received during the First World War, although the volume of mail is much larger, according to veteran postal officials who have directed postal activities in both wars.
Mail for members of the armed forces is delivered by the Postal Service to Army and Navy authorities at post offices convenient to camps or stations in this country or to ports of embarkation when addressed to persons overseas. The Postal Service then has no further jurisdiction over the mail, and responsibility for its delivery from that point on lies entirely with the Army and Navy. Likewise, the Army and Navy handle mail from members of the armed forces until it is delivered to civilian post offices in this country, and the Postal Service has no jurisdiction over the mail until so received.
Army and Navy post offices are, technically, branches of civilian (Continued On Back Page, Col. 5)

Local Draft Board Will Begin April 1 To Reclassify 18-37 Year-Old Registrants

Brig. Gen. J. Watt Page, State Selective Service Director, announced today that, effective April 1, Texas' local boards have been directed to reclassify all physically qualified registrants, ages 18 through 37, who are engaged in activities or occupations designated as non-deferrable by the War Manpower Commission, without giving consideration to their dependency status. He said:
"The majority of all registrants of military age are now deferred on dependency grounds without regard to occupation, and a great number of these registrants are employed in activities or occupations not essential to war production, agriculture, or civilian activity contributing to the home front. The continuing need for men by the armed forces demands that henceforth greater emphasis must be placed on occupation than on dependency as a basis for deferment."
"The War Manpower Commission has published a list of 29 activities and occupations as non-deferrable and not entitled in time of war to share manpower with the armed forces. This list (attached) will be amended and extended from time to time as the need for physically qualified men increases."
General Page emphasized that registrants who are engaged in non-deferrable activities or occupations should consult with their local United States Employment Service office before leaving their homes in search of war jobs. The United States Employment Service, he said, has been mobilized to assist men with dependents, who are affected by this order to find work in essential industries.
"It does not follow," General Page said, "that a man of military age engaged in any of the non-deferrable activities will be liable for induction unless he gets himself a job in a war plant. Unfortunately, that seems to be the prevalent, but mistaken, interpretation of the new policy. A great many areas in the country have no war plants. It is not the purpose of the order to encourage mass movement of workers to busy defense centers, which are already overcrowded and where housing and food supplies are a serious problem. Insofar as possible, war plants should be manned by people living nearby."
"There are many occupations useful to the war effort and essential to the maintenance of the home front besides working in a war plant. For instance, a man living in a farming area would be making a valuable contribution to the war effort by switching to farm work. A list of essential activities, published by the War Manpower Commission, is available at any United States Employment Service office."
General Page pointed out that since the new policy does not become effective until April 1, ample time is allowed for a systematic and orderly transfer of manpower from non-essential to essential activities. A grace period of thirty days will be granted to any registrant who presents his local board with evidence that he has registered with the United States Employment Service for transfer to other employment. After such thirty day period local boards and appeal agencies are directed to deny him dependency deferment and he shall be liable for induction into the armed forces unless he has transferred to an occupation not included on the non-deferrable list.
As in all other cases, it is extremely important that the registrant keep his local board advised of any change of address or status.
General Page stressed that local boards and appeal agencies have been directed to consider all cases "with common sense" and cautioned that no activity or occupation may be arbitrarily held by them to be the basis for denying deferment on the grounds of dependency unless it has been officially designated as a non-deferrable activity or occupation. He also pointed out that the following grounds may be accepted by local (Continued On Back Page, Col. 5)

And say, tell Aunt Minnie that I attended church at Westminster Abbey. It is really a beautiful place. We also saw the tower of London, the Tower Bridge and the London Bridge. Well, to be brief, I'll just name over a few of the other places that we saw: The Wax Museum, 10 Downing Street, Houses of Parliament, Monument to the Great London Fire, Scotland Yard, Piccadilly Circus, etc. I'll tell you all about it later."

ON THE HOME FRONT

By Office For Emergency Management

Approximately 21 million War Ration Books Two are now in the hands of nearly 800 local war price and rationing boards in Louisiana, Texas, Arkansas, Oklahoma, Kansas and Missouri, ready for distribution to consumers during the coming week. The Office of Price Administration has been working night and day for many weeks in order to have material ready for the gigantic task of registering millions of Southwesterners for the point rationing program. Thousands of forms have been distributed for the registration of processors, wholesalers, retailers, industrial users, consumers and others.

Scare-buying of clothes during the past week serves to emphasize the fact that we should quit listening to rumors. People on the Home Front should understand that the American people are not going to starve and they are not going to be without clothes. When shortages become too apparent, the government will institute a rationing program which will insure each of us his fair share. We will still be able to "keep up with Mrs. Jones" because Mrs. Jones will get just as many points as we will get. If one hears a rumor, he should check it with persons in a position to know the truth before he accepts it as a fact. Such a procedure will save the American people a lot of grief. Hitler whipped several strong countries by planting rumors among the people on the home front. A rumor is a dangerous and disastrous weapon which we must counter with our own good common sense.

The rationing of shoes, which began on Feb. 9, was ordered because for several months civilians have been buying shoes at a rate faster than manufacturers could make them and at the same time keep our soldiers and sailors supplied—and the armed services, which require a huge number of shoes, come first. In the last six months of 1942 one out of every 10 pairs of shoes manufactured in the United States went to men in the military forces. Every soldier who landed in North Africa, for example, was outfitted with three pairs of shoes and the convoys carried additional reserve supplies. A pair of shoes doesn't last a soldier as long as a civilian—they must be used on the harsh mountain trails of New Guinea and Tunisia, in muck and water of South Pacific islands, on the burning sands of North Africa, or in the snow and ice of Alaska and the Aleutians.

Under the shoe rationing plan, three pairs of shoes will be made available during the next 12 or 13 months to every man, woman and child in the country. Stamp 17 in War Ration Book One is good for one pair of shoes until June 15, and stamps may be transferred from one member of a family to another. Anyone who needs shoes but has no Stamp 17 in his own book or in the family books may apply to his local rationing board for a shoe purchase certificate. The stamp must not be present loose but must be torn out in the presence of the person making the sale. In the case of sales by mail order, the stamp may be torn out and presented with the purchasing order.

Post boys. For several days the squadron will be housed in Waco before being stationed at A. and M. Mrs. Cash who has been in Lubbock with her husband will remain there for the time being where she is employed with the John Halsey Drug Company. She visited home folks here several days ago.

Food Is Needed More Than Ever In History

Today, more than ever before in American history, food is needed, says Wyman J. Welch of the FSA.

Today, more than every before in American history, a large part of the world looks to this country for food.

Much of this food can be grown in areas where water from underground sources can be tapped to supplement scant and erratic rainfall.

The Federal Government, through the Farm Security Administration's water facilities program, can make loans to farmers for drilling and equipping wells for livestock and domestic use and to irrigate up to one acre of garden land.

Farm Security's water facilities lending program also is available to low-income farmers for farmstead facilities, and in certain areas approved for irrigation, to drill wells and buy pumps and other equipment or to purchase water stock in existing irrigation companies.

Many existing farmstead water facilities can be repaired, enlarged or extended to make better use of water for livestock production, vegetable production and so forth. Farm Security loans are available for these purposes.

"Uncle Sam," said Welch, rural rehabilitation supervisor for the FSA, "cannot afford to miss any opportunity to increase the nation's food supply in 1943. We hope to increase production this year by making water available to livestock and food producers who otherwise could not attain maximum production."

Mr. Welch said water facilities loans are made for a period of time to cover the life of the facility or up to 20 years, at 3 percent interest. Views of Neighboring Editors

Lowndes County News, Georgia—Sweat, which has fallen to very low esteem among the elite and which for some years past has been masquerading as perspiration, will pay excellent dividends this spring if used in the planting and canning of a vegetable garden. All indications now point to sweat in one of two forms. You either sweat this spring to produce your vegetables or you sweat later on to find some for your table.

Scurry County Times—The women are told not to neglect their personal appearance in war-time. They are told to keep up "good grooming." They usually do so. The appearance of women has greatly improved during recent years. Nearly all of them look smooth and finished.

They have reached the conclusion that the success of a woman or girl depends largely on personal attractiveness. So they study the beauty hints and visit the beauty shops. They blossom out like roses in the garden. They look so nice and fine that the men can hardly resist them.

If the husband has his moments of flirtatious desire, the sight of his attractive wife is a daily reminder that he is a lucky boy, and he would better treasure his valuable possession. And the smart and stylish girl sells a lot of goods over the counter.

 My husband was inducted into the service 18 months ago and I ain't received no pay since he was gone.

COFFEE QUOTA CUT TO POUND EACH 6 WEEKS

The Office of Price Administration reduced the next coffee ration from one pound every five weeks to one pound every six weeks.

Stamp No. 25 in war ration book No. 1 is now valid and will be good for the purchase of one pound of coffee through midnight, March 21.

OPA said reduced coffee inventories in the hands of wholesalers and retailers made necessary the reduction in the next ration.

The agency said an increase in military requirements for shipping and the need for maintaining imports in strategic war materials were in part responsible for the reduced inventories for the next ration period.

"However," OPA said, "steps are now being taken to overcome a maldistribution on domestic stocks to a cut in imports, with a view to relieving shortages in certain areas."

More Harness Leather

Harness leather, demand for which has increased greatly because of enlarged food production goals, will be taken from the armed forces to supply farmers. WPB Order M-273-A will have that effect, in an attempt to meet farmers' serious need of harness for horses and mules, more of which are being used because of drastic restrictions on manufacture of farm machinery, including tractors.

The American Red Cross has furnished transoceanic radios to troop units in the South Pacific, which enable the soldiers to listen to broadcasts from the United States and London.

Many of the books included in the Red Cross comfort kit bags given to servicemen going overseas are murder mysteries,—and the boys love them.

Surgical dressings, made by Red Cross volunteers, are stored in emergency cabinets at strategic points for use in disaster relief.

In several cities, groups of draftees are served hot coffee and doughnuts by Red Cross Canteen Corps at the railroad station just before they leave for camp.

When a serviceman is notified that an emergency makes his presence at home necessary he applies to his commanding officer for a furlough. The Red Cross field director, at the request of the officer, verifies the need by phoning or telegraphing the Red Cross Home Service chairman in the serviceman's home town. Conditions at home are reported by the field director to the officer, who arranges the furlough.

Raymond Robinson
Marries In Plano
On February 6

In a very sacred ceremony at the First Baptist church, Miss Violet McDowell, daughter of Rev. and Mrs. D. L. McDowell of Plano, became the bride of Pfc. Raymond L. Robinson, son of Mr. and Mrs. J. E. Robinson of Post, Saturday evening, February 6 at 8:30 o'clock. The double ring ceremony was solemnized by Rev. T. T. Newton.

The ceremony was begun with an organ prelude of medleys, "Sweet Mystery of Life," "I Love You Truly," "Day Is Dying in the West," with Mrs. C. L. Harrington at the organ. Mrs. Frank Lee of Seminary Hill, sang "Because." Throughout the entire service, soft music was played, being climaxed by the bride and groom kneeling in prayer at the altar, after which the attendants and guests left the church as "I Surrender All" was played.

The rites were read before an altar banked with greenery, white gladioli and carnations and candleabra holding burning tapers. Given in marriage by her father, the bride wore a gown of white satin designed with a sweetheart neck line with long fitted sleeves, modeled bodice and full skirt. Her bridal veil was caught to a coronet of white sweet peas and she carried a hand bouquet of gardenias on a small white Bible.

Misses Nell McLeroy, maid of honor, and Pauline Knowlton, bride's maid, both wore gowns of white satin fashioned like that of the bride and carried colonial bouquets of pink and white sweet peas.

The groom's attendants were Rev. Melvin Rathel, best man, and Rev. Frank Lee, usher, both of Seminary Hill, Texas.

Interesting Facts
On Citizenship
Given At P-TA

The Parent-Teacher Association met on Feb. 19, 1943 in the high school auditorium. An important announcement concerning NYA aid was made. Any boy or girl who is through school may make application to learn a defense vocation free of charge. Mrs. Shelly Camp will conduct a nutrition course which will begin on March 15 and meet every Tuesday and Thursday from 4:30 to 6 p. m. for five weeks. A certificate of award will be given each person upon her successful completion of the course. All interested persons should notify Mrs. A. C. Surman as soon as possible. Mrs. Edwards appointed a nominating committee composed of Mrs. Lee Davis and Mr. L. V. Bearden.

On Thursday, Feb. 18 a Lieutenant of the Women's Army Auxiliary Corps will address all persons interested in the WAAC in the high school auditorium at 8:30 o'clock. Everybody is urged to attend the meeting.

After Mrs. N. C. Outlaw led the Association in the Parent-Teacher prayer, Mrs. Willard Kirkpatrick spoke on "Developing Citizenship." Of course all parents work to give their children a better chance in life than they themselves had, yet when the children mature, they are sent to the battlefield. Hence we see that world conditions have everything to do with child welfare. There is a question as to whether we should attend to our own domestic affairs or try to control the world and organize it for law and order. Citizenship, continued Mrs. Kirkpatrick, is the thing that makes good living possible; it requires loyalty, sacrifice, both voluntary and compulsory, justice, sovereignty and freedom, and participation. To train ourselves and our children to be good citizens we should acquire a world wide vision, get a new concept of world relations, note the interdependence of mankind, develop a spirit of give and take, and accept our individual responsibility for the world. Carried out by world citizens, a new world order may actually arise. Groups who can impart such knowledge to youths are teachers, preachers and parents. A good world is possible if enough of us want it badly enough, concluded Mrs. Kirkpatrick.

Mrs. Esma Cash gave a talk on Founder's Day, honoring Mrs. Burney. In the voting, Mrs. Brister's room won in the primary division; Miss Cox's, the intermediate; and in High school, the Sophomore won.

"Flying Tigers" At Garza Theatre Sunday - Monday

"Flying Tigers," a dynamic, timely and thought-provoking drama from Republic which opens at the Garza Theatre for the preview Saturday night and runs through Sunday and Monday has such personalities as John Wayne, John Carroll, Anna Lee, Paul Kelly, Gordon Jones, Bill Shirley, and Edmund MacDonald.

Wayne registers most favorably in the role of the young Squadron Leader of the American Volunteer Group, better known as the "Flying Tigers." Every ounce of the sincerity for which Wayne's acting is famed, reflects in this characterization, one of his best to date. Not one ounce of over-sentimentality or romanticism intrudes in his forthright portrayal of Jim Gordon, to whom duty is unquestionably greater than honor.

In effective contrast is John Carroll in the role of Woody Jackson, gay, frivolous, spectacular, yet innately as honorable as his co-flyers when put to the test.

Anna Lee, talented and strikingly beautiful, plays the young volunteer nurse who is whirled suddenly into the maelstrom of war and pestilence. Paul Kelly, Gordon Jones, Edmund MacDonald and Bill Shirley also do excellent work in the film.

Mrs. Jim Cloud of Snyder spent last week with her mother, Mrs. Vida Brant.

CONTOUR CULTIVATION

If you cannot get your land terraced this year because of shortage of labor and equipment do the next best thing which is contour cultivation. Some advantage of contour cultivation are:

1. It increases production by conserving water.
2. It keeps moisture evenly distributed.
3. It reduces wind and water erosion.

Contour listing and cultivation will also aid in earning the soil-building allowance for your farm. These practices pay twenty-five cents an acre each or a total of fifty cents per acre.

Experiment Station Results

Thirteen years of experiments on land that slopes six inches per hundred feet of distance show that: Fifty-three hundredths of an inch of rainfall was saved by level rows and this increased the yield of lint cotton 21 pounds per acre. Eighty-eight hundredths of an inch of rainfall was saved by level, closed end terrace and this increased the yield of lint cotton 27 pounds per acre over contour rows. One inch of rainfall saved increased the yield of lint cotton 31 to 40 pounds per acre.

LOWER INTEREST RATE URGED FOR TEXAS FARMERS

A proposal to do something that will help the farmer has been made in Austin where Representatives Hartzog and Morse last week introduced a proposed Constitutional amendment to cut the interest rate on loans when secured by a lien of farm machinery and equipment, livestock, crops or other farm produce or on real estate. The maximum rate on such loans would be 8 per cent, whereas 10 per cent interest is permitted now.

OVERSEAS MAIL

(Continued From Front Page) post offices in this country, but they are not under the jurisdiction of the Postal Service, being maintained and operated by the War and Navy Departments and manned by military and navy personnel. For instance, A. P. O. -234, c/o Postmaster, New York, N. Y., would be a branch of the New York post office, although it may be located with troops in Africa or elsewhere. Mail deposited in that post office for delivery in this country would carry the return address of "A. P. O. 1234, New York, N. Y.," although it came from abroad, and the postmark on the envelope is placed thereon at the overseas location, and not at New York.

Directory service, through which improperly addressed mail is readressed and forwarded, is provided by the Army and Navy.

Delays in the mail to the armed forces may be caused by various factors. Transportation of the mail sometimes must be postponed so that more urgent needs for arms, food, or more military and naval personnel may be filled first. Although mails are dispatched at every opportunity, at times the overburdened facilities cannot accommodate all the mail and it must be held until shipping space is available. Ships must travel in convoys, in the interest of safety, and a convoy can start only when the last ship is loaded and can travel only as fast as the slowest ship in the group—all of which consumes much time. Transfers of personnel from one point to another also add to the time required for mail to catch up with the men shifted. Censorship, which is done by the Office of Censorship or military authorities, may also cause some delay, although this is held at a minimum. The Post Office Department does not have jurisdiction over the censorship of mail.

Ship sinkings by the enemy account for much of the lost mail. Many thousands of letters and packages have been on ships lost by enemy action.

Many postal patrons have wondered why there is more rapid and regular mail service from the armed forces overseas than to them. This is because less mail comes from overseas than goes to our armed forces overseas; ships

and planes on return trips have more space available; and the location of addresses in this country is more stable than that of overseas personnel.

V-mail letters are given priority in transportation by the Army and Navy over ordinary mail, and, when possible, are sent by plane.

Some of the public are under the misapprehension that the Post Office Department can provide the addresses and locations of soldiers, sailors, and marines abroad. The Postal Service has no such records. When it is necessary to obtain such addresses of soldiers they may be had from the Office of The Adjutant General, War Department, Washington, D. C.; of sailors, from the Bureau of Naval Personnel, Navy Department, Washington, D. C.; and of marines from the Marine Corps Headquarters, Navy Department Building, Washington.

INSURANCE

IS ALL THAT WAS LEFT

Insurance was the only thing left for the members of the family that survived the fire! Their home—everything lost to them.

Insurance could at least give some compensation with which to carry on. It's foolhardy to put off being protected with the right insurance—because fires give no warning.

REGISTRATION FOR RATION BOOK NO. 2

(Continued From Front Page) 1942, must be declared, minus one pound for each person whose age stated on Book 1 is 14 or over.

For each can of rationed food over five cans per person listed on the housewife's Declaration when she goes to apply for Book Two, one eight-point stamp will be removed from the new book. For each pound of coffee in excess of 1 pound for each eligible person in a family unit on the base date, one stamp will be removed from Book One.

The fact that an applicant for War Ration Book Two may have a large quantity of canned rationed goods on hand will not indicate that that person is a hoarder, and the removal of stamps for excess supplies is not done as a penalty. The stamps are removed only to even up supplies and give everyone an even start.

Persons who are not living as members of their family group must make their own Declarations and get their own ration books. Domestic help is not a part of a family.

The Official Declaration form in this paper (on page 6) should be clipped and used for making the formal declaration. Be sure to write in all the information asked for on the Declaration. Every person who applies for War Ration Book Two must fill in this Declaration even though they have no excess on hand.

Remember to take Book One of all persons listed on a Declaration to the registrars when applying for Book Two. No Book Two can be issued unless Book One is presented at the place of registration.
